

Team name: DCoders

Problem statement: Solving the problem of keeping track of student's attendance, scores and other important information, deriving meaningful results, insights from the data by building a tech solution for the same.

Solution: The solution would be an android application that would perform automation operations such as sending automated text to parents on low attendance, calculating scores, submitting the results to Placement cell, identifying their weak areas if scored low on a test, etc.

Team member 1: Vishal Sikka (Team Leader)

T-Shirt size: Medium

College: VCET, Vasai

Email:random1@gmail.com

Phone:1233456789

Skills:Android, Web Development, C++

Team member 2: Narayan Murthy

T-Shirt size: Large

College: Thadomal Shahani Engineering College

Email:random2@gmail.com

Phone:1233456789

Skills:Algorithms, Machine Learning

Team member 3: Elon Musk

T-Shirt size: XXXL

College: VJTI, Matunga.

Email:random3@gmail.com

Phone:1233456789

Skills:Cloud Computing, Web scraping, Python

Team member 4: Adam D'Angelo

T-Shirt size:Small

College: VCET, Vasai

Email:random4@gmail.com

Phone:1233456789

Skills:Android, iOS, React Native.
