4 Courses

Sep 18, 2022

Vijay Rajaram Patil

has successfully completed the online, non-credit specialization

Programming in C++: A Hands-on Introduction

- C++ Basics: Selection and Iteration
- C++ Basic Structures: Vectors, Pointers, Strings, and Files
- C++ Object Basics: Functions, Recursion, and Objects
- Object-Oriented C++: Inheritance and Encapsulation

This specialization is intended for people without programming experience who seek to develop C++ programming skills and learn about the underlying computer science concepts that will allow them to master other programming languages quickly. These four courses will cover everything from fundamental programming design. These topics will help you write anything from simple programs to automate repetitive tasks. Larger applications, giving you enough understanding of C++ to tackle more specialized topics such as Data Science and Artificial Intelligence.

Dikshant Buwa

has successfully completed the online, non-credit Professional Certificate

IBM Data Science

In this Professional Certificate, learners developed and honed hands-on skills in Data Science and Machine Learning. Learners started with an orientation of Data Science and its Methodology, became familiar and used a variety of data science tools, learned Python and SQL, performed Data Visualization and Analysis, and created Machine Learning models. In the process they completed several labs and assignments on the cloud including a Capstone Project at the end to apply and demonstrate their knowledge and skills.

Certificate of Training

Shreyas Pai

from **Vidyavardhini's College of Engineering and Technology** has successfully completed a six weeks online training on **SOLIDWORKS** from 1st July, 2020 to 12th August, 2020. The training consisted of SolidWorks- Introduction, Interface and Sketching, Applying Features and Material, SolidWorks Assembly, SolidWorks Drawing and Portfolio Building and Final Project- Air Piston-Cylinder Assembly modules.

Shreyas scored 100% marks in the final assessment and is a top performer in the training. We wish Shreyas all the best for the future.

Anurag Churi

has successfully completed the online, non-credit Specialization

Digital Manufacturing & Design Technology

In this Specialization, learners developed an understanding of how advances in technology and demands of the manufacturing industry have resulted in a family of advanced manufacturing solutions under the digital manufacturing and design (DM&D) paradigm. Students learned about how data and information can be shared in the digital thread across all stages of the product life cycle between suppliers and customers to enable smarter decisions that enhance efficiencies, launch products faster and increase competitiveness. Related topics included information security, advanced analysis, intelligent machining and advanced manufacturing enterprise. Students created a roadmap to achieve their own personal goals related to the DM&D profession.
