Action Plan

Sr. No.	Name of stakeholder	Observation/suggestions	Action Plan	Action Taken
1	Teacher	Qualitative remarks by the stakeholders: • Still syllabus is not matching to current Industrial requirement. More exposure required to identify and solving industry problems. Each institute needs to collaborate with some OEMs • Practical hands on sessions required for most of subjects	printing software development. Training on FEA and CFD tools Industrial visits Training on CATIA V5 software. Training on Lean	Career and Scope in CAD CM industry. Revamping of Solidworks for Industrial Applications. Industrial Application on Process Industries. Industrial Automation. Basics of AHU and Career guidance in HVAC.
2	Student	 Qualitative remarks by the stakeholders: DMS - In industry today the method of designing has changed from using a typical formula for a typical shape For eg. Square to create a unique shape and simulate the results on computational software on basis of differential equation, so should we adopt the same curriculum in our syllabus. Try to include more practical knowledge rather than just the notes of the textbooks. Focus to improve the problem solving skill of students 	 Manufacturing. Career guidance Mechanical design process in industry Quality management Expert lectures on multiple subjects Students are encouraged for doing NPTEL Courses 	CATIA V5 Automotive design software and Industrial application. Energy Audit of an Industry: A practical Approach. Training program on development on Aptitude, Logical Reasoning and Communication Skills. Thermal Power Plant and Environmental Issues- Need for Sustainable Development and Project Management.
3	Alumni	 Qualitative remarks by the stakeholders: Please add more interaction with industry technologies and standards. To conduct more industrial visit and practical sessions 		Industrial automation on Process Industry. Overview of Environmental health and safety. Industrial applications and methodology of NDT Lean Manufacturing system-

K. T. Marg, Near Railway Station, Vasai Road(W), Dist. Palghar, Pin. 401202

Department of Mechanical Engineering

according to the industrial	L
needs	

- More Curriculum on CAD and FEA software need to be added to the course for better understanding when being a professional.
- I wish Quantum computing was included as a subject as there would great requirement in near future.
- Students should be given more electives options. They should also be taught more about Design Softwares (Creo, Catia, etc..) Product Analysis, CAE Analysis. Also, Internship is very important for them to learn about the various process flow and working of the company.
- Current scenario in the industry is development of morden technology such as automotive control, Electric vehicles, ADSD etc including some basic of such technology will help a lot in near future.
- Implementation of New Technologies available in the industry with practical on the same
- College should tie up with more and more Industries to give practical experience to students and enough internship opportunities. Lectures should be arranged regarding awareness about changing technology and the new

Stakeholder Feedback ATR_INST_18-19

Action Plan

Sr. No.	Name of stakeholder	Observation/suggestions	Action Plan	Action Taken
1	Teacher	More content relevant to present advancements should be included Mugdha Salvi (Asst.Prof)	Faculties should encourage students to take NPTEL courses to update themselves to the latest advancements	Students actively enroll for NPTEL course. 01 student successfully certified the course
2	Student	Make Industrial Visit and Internships compulsory to all - Isfaran AHM (T.E) Since the syllabus is good enough but it would be more interesting if the syllabus contains latest technology topicsRiya Belel (T.E)	Workshop on latest technology would be conducted. Industrial visit would be conducted	Industrial Visit in Process Precision Instruments, Vasai and Galaxy Coating Industries,
3	Alumni	Give more emphasis on what industry needs- Vikesh Shetty (B.E) Try to add more Content about PLC,SCADA AND HMI both in theory as well as Practical-Chinmay Paranjpe (B.E)	Workshop on latest technology would be conducted.	Workshop on PLC and Embedded would be conducted. Automation on PLC would be certified by siemens
4	Parents	Expert session from industry	Seminar on different topics will be organized	Seminar on "Being Techno Commercial", by Mr. Shivang Desai, Business Development

K. T. Marg, Near Railway Station, Vasai Road(W), Dist. Palghar, Pin. 401202

Department of Instrumentation Engineering

				Manager, Process Precision Instruments, Vasai. Seminar on "Instrumentation Engineer Role in Industry" by Mr. Harendra Mistry, Dy.General Manager, Tecnimont Mumbai. Seminar on "Scope of Instrumentation" by Mr. Rushikesh Bhagat, General Manager, Honeywell Mumbai.
5	Employer	Session on Functional safety	Expert on industry invited for conducting session	a seminar on Functional Safety (FS). The speaker of the event was Mr. Ajinkya Patil Assistant Manager, TUV.

Dr.D.D.Gawali Head of Department

Faculty Feedback Minutes of meeting

Meeting to discuss second feedback with the faculty whose feedback was below 70% as per principal's instructions. Following faculty had such feedback.

1. Dr. Dinesh Patil

Points discussed are,

- i. Appreciated verbally for the improvement as compared to the first feedback even though it is below 70%
- ii. Issues faced by the faculties while delivering.
- iii. Any special requirement for teaching the subject.
- iv. Asked to discuss with students what difficulties they are finding in understanding the subject.
- v. Ask students if they want change in teaching methodology.

1. Dr. Dinesh Patil

Ms. Bhavika Gharat Assistant Professor Department of Artificial Intelligence & Data Science VCET, Vasai.

This is in reference to the student's feedback obtained for the subject **Statistics for Artificial Intelligence & Data Science** taught by you in **TE/Sem-V** of the academic year 2022-2023. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher.

As a teacher, how well the students understand the content that is taught in the class is of paramount importance. I urge you to critically review the feedback figures and take effective steps to work on those areas where the students were not satisfied.

Looking forward to your significantly improved performance in the next semester.

Mr. Anil Hingmire

Assistant Professor, Computer Engineering VCET, Vasai Road.

I write with reference to the Students Feedback results on the course of SPCC you offered in the semester-VI of academic year 2021-22.

The Feedback is even below / just around the 65% approval ranking which is the minimum to be maintained by every teacher.

The Feedback is as if a mirror held to your performance as a teacher. Agreed, the mirror may be slightly warped but is still a mirror, which shows how the students receive your teaching.

Since as teachers, how well the students absorb that which we teach should be of paramount importance to us all, I urge you to give these Feedback figures a critical look and to take effective steps to work on those areas the students were not satisfied with while consolidating those areas, which the students liked.

I am looking forward to your significantly improved performance in the next even semester. Yours truly,

For Vidyavardhini's College of Engg. & Tech.

Subject: Appreciation letter for excellent student feedback

Espected Sir,

I would like to express sincere admiration for the efforts put by you into the subject Urban Infrastructure Planning of TE/Sem VI of the academic year 2021-2022, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Faculty Feedback Minutes of Meeting

Meeting to discuss first feedback with the faculties whose feedback was below 65% as per principal's instructions. The following faculty had such feedback.

1. Mr. Amit Tiwari

Points discussed are,

- i. Issues faced by the faculty while delivering the content of the subject.
- ii. Any special requirement for teaching the subject.
- iii. Asked to discuss with students what difficulties they are finding in understanding the subject.
- iv. Ask students if they want a change in teaching methodology.

Department of Computer Science and Engineering (Data Science)

Correction Letter

Date: 16/12/2021

Ms. Amit Tiwari Assistant Professor Department of Computer Science Engineering (Data Science) VCET, Vasai.

This is in reference to the student's feedback obtained for the subject **Data Structure** taught by you in **SE/Sem-III** of the academic year 2021-2022. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher.

As a teacher, how well the students understand the content that is taught in the class is of paramount importance. I urge you to critically review the feedback figures and take effective steps to work on those areas where the students were not satisfied.

Looking forward to your significantly improved performance in the next semester.

Mr.V.Pande Assistant Professor Department of Instrumentation Engineering VCET, Vasai.

I would like to express sincere admiration for the efforts put by you into the subject Database Management System of T.E/ Sem V of the academic year 2020-2021, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Appreciation Letter

Date: 17/05/2021

Mr.V.Pande Assistant Professor Department of Instrumentation Engineering VCET, Vasai.

I would like to express sincere admiration for the efforts put by you into the subject **Digital Electronics** of S.E/ Sem III of the academic year 2020-2021, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Appreciation Letter

Date: 17/05/2021

Mr.P.Patil
Assistant Professor
Department of Instrumentation Engineering
VCET, Vasai.

I would like to express sincere admiration for the efforts put by you into the subject Analog Electronics of S.E/ Sem III of the academic year 2020-2021, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Appreciation Letter

Date: 17/05/2021

Mr.M.Salvi
Assistant Professor
Department of Instrumentation Engineering
VCET, Vasai.

I would like to express sincere admiration for the efforts put by you into the subject Operational Techniques of T.E/ Sem V of the academic year 2020-2021, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Appreciation Letter

Date: 17/05/2021

Mrs.K.Sarmalkar Assistant Professor Department of Instrumentation Engineering VCET, Vasai.

I would like to express sincere admiration for the efforts put by you into the subject Application of Microcontroller of T.E/Sem V of the academic year 2020-2021, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Appreciation Letter

Subject: Appreciation letter for excellent student feedback

Respected Sir,

I would like to express sincere admiration for the efforts put by you into the subject Advanced Construction Equipment's of TE/Sem VI of the academic year 2020-2021, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Department of Civil Engineering

Improvement Letter

Date: 22/12/2020

Mr. Prakash Panda Assistant Professor Department of Civil Engineering VCET, Vasai.

Subject: Letter for improvement per the student's Feeback

This is about the student's feedback obtained for the Engineering Geology taught by you in SE/Sem. III of the academic year 2020-21. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher. Students have given poor feedback for the attribute "Style of presentation and communication skills, innovative teaching methods".

I urge you to consider this feedback and incorporate necessary improvements in your teaching skills.

Thank you

Dr. Uday Aswalekar

Department of Mechanical Engineering

Ms. Soumya Pandey Assistant Professor Department of Applied Science and Humanities VCET, Vasai Road

I write with reference to the student's feedback results on the course you offered in the even semester of academic year 2019-2020.

The feedback for subject (Engineering Physics - II, Sem II, FE G Div, Mech. Engg.) is 64.21% which is poor and to be improved.

The feedback is as if a mirror held to your performance as a teacher. Agreed the mirror may be slightly warped but still mirror, which shows how the students receive your teaching.

Since as teachers, how well the students absorb that which we teach should be of paramount importance to us all, I urge you to give these feedback figures a critical look and to take effective steps to work on these areas the students were not satisfied with while consolidating those areas, which the students liked.

I am looking forward to your significantly improved performance in the next odd semester.

Yours truly,

For Vidyavardhini's college of Engg.& Tech.

Correction Letter

Date: 09/12/2019

Ms. Kavita Churi Assistant Professor ASH Department VCET, Vasai.

This is in reference to the student's feedback obtained for the subject Engineering Physics-I taught by you in FE/Sem. I of the academic year 2019-2020. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher.

As a teacher, how well the students understand the content that is taught in the class is of paramount importance. I urge you to critically review the feedback figures and take effective steps to work on those areas where the students were not satisfied.

Looking forward to your significantly improved performance in the next semester.

Subject: Appreciation letter for excellent student feedback

Respected Sir,

I would like to express sincere admiration for the efforts put by you into the subject Environmental Engineering II of TE/ Sem VI of the academic year 2019-2020, as you have received excellent student feedback. The students have greatly appreciated your teaching skills. I am aware of the hard work and dedication you have put in for this work and congratulate you on your success.

Once again congratulations and looking forward to your continuous excellent performance in the future.

Department of Civil Engineering

Improvement Letter

Date: 02/05/2020

Mr. Jignesh Mistry

Assistant Professor

Department of Civil Engineering

VCET, Vasai.

Subject: Letter for improvement per the student's Feeback

Respected Sir,

This is about the student's feedback obtained for the subject Fluid Mechanics II taught by you in SE/Sem. IV of the academic year 2021-22. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher. From the feedback received from the students, it was observed that the students have given poor feedback for the "Ability to invoke participation, cultivation of learning habits"

I encourage you to thoroughly evaluate the feedback information and act swiftly to resolve the issues raised by the students. I'm hoping a substantially improved performance from you in the following semester.

Dr. Uday Aswalekar

Department of Civil Engineering

Improvement Letter

Date: 02/05/2020

Mr. Mahendra Daima Assistant Professor Department of Civil Engineering VCET, Vasai.

Subject: Letter for improvement per the student's Feeback

This is about the student's feedback obtained for the subject Water Resource Engineering II taught by you in TE/Sem. VI of the academic year 2019-2020. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher. Students have given poor feedback for the attribute "Effective utilization of lecture time for teaching".

I strongly advise you to thoroughly evaluate the feedback information and act swiftly to resolve the issues raised by the students. I'm expecting a significantly improved performance from you in the next semester.

Thank you

Dr. Uday Aswalekar

Founder President Late Padmashri H. G. Vartak

Department of Mechanical Engineering

Mr.Pralhad Pawar

Assistant Professor

Department of Mechanical Engineering

VCET, Vasai Road

I write with reference to the student's feedback results on the course you offered in the even semester of academic year 2018-2019.

The feedback is even below the 65% approval ranking which is the minimum to be maintained.

The feedback is as if a mirror held to your performance as a teacher. Agreed the mirror may be slightly warped but still mirror, which shows how the students receive your teaching.

Since as teachers, how well the students absorb that which we teach should be of paramount importance to us all, I urge you to give these feedback figures a critical look and to take effective steps to work on these areas the students were not satisfied with while consolidating those areas, which the students liked.

I am looking forward to your significantly improved performance in the next odd semester.

Yours truly,

For Vidyavardhini's college of Engg.& Tech.

Department of Computer Engineering Academic Year 2018-19

Date: 15/02/2019

Meeting regarding observations from course feedback

Subject: SPCC, Sem VI

Name of Faculty: Mr. Anil Hingmire

Observation:

of presentation and communication skill, innovative teaching methods.	
Ability to hold student's attention and command of class.	2.659574
PERCENTAGE	55.23404

Suggested action:

- 1. Prepare interactive PPTs and add some more innovative techniques to clarify the concept
- 2. Increase the frequency of asking questions in class and taking feedback from students during the lecture

Mrs. Shobhana Shirsath Assistant Professor ASH Department VCET, Vasai.

This is in reference to the student's feedback obtained for the subject Business Communication and Ethics taught by you in TE/Sem.V of the academic year 2018-2019. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher.

As a teacher, how well the students understand the content that is taught in the class is of paramount importance. I urge you to critically review the feedback figures and take effective steps to work on those areas where the students were not satisfied.

Looking forward to your significantly improved performance in the next semester.

Correction Letter

Date: 04/05/2016

Mr. Prateek Pagare Assistant Professor Department of Civil Engineering VCET, Vasai.

This is about the student's feedback obtained for the subject Transportation Engineering - II taught by you in TE/Sem. VI of the academic year 2018-2019. The average student's feedback is below 65 % approval ranking which is the minimum to be maintained by every teacher.

As a teacher, how well the students understand the content that is taught in the class is of paramount importance. I urge you to critically review the feedback figures and take effective steps to work on those areas where the students were not satisfied.

Looking forward to your significantly improved performance in the next semester.

Jukaloslova Dr. Sunil G. Kirloskar

Action taken Report

Sr. No.	Ob	oservations	Action Taken
1	Quantitative Analysis	 All score in all the performance criteria is above the threshold value 	• None
2	Qualitative Analysis	 There is a need to prioritize the enhancement of students' communication and soft skills. Transitioning from traditional teaching methods to hands-on sessions and game pedagogies is essential. Greater emphasis should be placed on skill-based learning and project-based learning. Providing industry-based internships would offer students valuable firsthand exposure to the industry. Organizing interactive sessions with alumni and industry experts regarding career opportunities and higher studies can be beneficial. Encouraging student participation in various project competitions is important. 	The action initiated for the academic year 2022-2023 is currently in progress and will be updated upon the conclusion of the academic year 2023-2024.
