

Vidyavardhini's College of Engineering & Technology

Founder President Late Padmashri H. G. Vartak

Approved by AICTE, DTE Maharashtra and Affiliated to University of Mumbai
NAAC accredited, 4 Programmes Accredited by NBA

Criteria Number: 3

Criteria Name: Research, Innovation and Extension

Sub criteria Number: 3.2

Sub-criteria Name: Innovation Eco system

3.2.2 Number of workshops/seminars/conferences including programs conducted on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship during the last five years

This document contains the criteria summary and the associated proofs. The documentary evidence can be accessed by clicking on the link given.

Summary

Academic Year	Number of workshops/seminars/conferences
2022-23	24
2021-22	13
2020-21	04
2019-20	04
2018-19	03
Total	48

Report of

Workshop on Intellectual Property Rights (IPRs) and IP management for start ups 19th April 2023

Objective: To understand IPR and management for successful start up

About the Speaker: The guest speaker for the session

Dr. Suraj Bhoyar,

NIPAM Professional and Patent Agent,

Associate Director-Student Affairs,

MIT-ADT Univ., Pune.

Brief introduction of chief guest

As an alumnus of IIM Kozhikode, Dr. Bhoyar was specialized in digital transformation strategy and believe in adopting technology to improve higher education outcomes. Dr. Bhoyar is also a passionate professional with expertise in Patent Laws and Educational Administration serving as a Govt. Authorized Patent Agent (IN/PA -4507) and NIPAM, Govt. of India Ambassador to promote academic innovations and IPs. During his Academic endeavors, He had completed Doctoral Research work in Mechanical and Aerospace Engineering from MIT ADT University.

Brief aspects of the event highlights:

The day begins with the welcoming chief guest by Mr. Vinay Patel and briefly introduce the expert speaker at the beginning of the session.. 34 student participants were taken part in this event.

At the beginning Dr. Bhoyar introduced about the intellectual property and tier types. Also shared the types of intellectual property wherein one can protect his or her intangible property. A very good example given by Dr. Bhoyar is of a cup of tea and associated intellectual property rights in it. Copy right is the receipe of tea ,further patent of tea manufacturing ,its process. Then copy rights includes the own receipe of the grandmother. Trademark includes the brand name like TATA, Brooke Bond etc. The questions were raised by the participants and interaction happened during the discussion.

Dr. Bhoyar keeps the attention of the participants by introducing the reflection spots as well as conducted quizzes in the online mode. He had displayed the Indian patent advance search system, method of search and how to do the prior art for drafting the patent. He guided the general steps of drafting the patent and how to write the claims of patent. The method of submission of the patent is also explained well by Dr. Bhoyar.

Overall the session was full of enthustitic participants participating in the quizzes and interacted with Dr, Bhoyar with great interest.

Government of India
Ministry of Commerce and Industry
Department for Promotion of Industry and Internal Trade
Office of the Controller General of Patents, Designs and Trade Marks

CERTIFICATE OF APPRECIATION

Presented to

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY

*In recognition of active participation in the **National Intellectual Property Awareness Mission (NIPAM)** launched by the Government of India on the occasion of the 75th anniversary of independence under the banner "Azadi Ka Amrit Mahotsav" to create widespread awareness on Intellectual Property Rights (IPR). The exceptional contribution in successfully organizing the awareness programme on **April 19, 2023** in association with **Intellectual Property Office, Mumbai** by providing your valuable time and support is highly appreciated.*

Solicit your continued support for outreach of IPR far and wide.

To,
The Principal
VCET Vasai

Date: 13th Feb 2023

Subject: IIC Activity Session on "Writing a Research Proposal for the SERB_DST and other agencies"-Regarding

Respected sir,

The Institute Innovation Council of VCET were organized the One Day expert session on "Writing a Research Proposal for the SERB_DST and other agencies" on Monday, 6th Feb 2023 in physical mode from 2.30 pm to 4.30 pm. The faculty members were participated in the event actively.

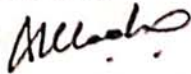

The Experts invited for this event is Dr. Kiran Bhole, Dean-Research, Sardar Patel College of Engineering, Mumbai. The expenditure for the event is as follows

Sr No	Activity	Amount, Rs
1	Memento(1 nos)	800
2	Flower	60
3	Refreshment	30
Total Expenditure, Rs.		890

There were 84 faculty members attended the event. The faculty members were interacted with the expert speaker and share their feelings with the expert. The doubts raised in the proposal formats were thoroughly discussed by the expert.

So, I request you to approve the expenditure and issue to me.

Thank you sir,

Dr. Ashish J. Chaudhari

President, IIC

Date:23rd Jan 2023

The Principal

VCET Vasai

Subject- Expert Session for Faculty members of the institute-Regarding

Respected Sir,

In order to foster the research awareness among faculty members of the institute, s/he must apply for some research grant to the funding agencies (government/non-government). As per the guidelines the research proposals are expected to submit to the funding agency.

But there is scientific way of structuring the contents of the proposal which is a crucial task and only because of which the proposals may get rejected. To address this, Institution's Innovation Council VCET hereby arrange an expert session on "**Writing a Research Proposal for SERB DST**". The guest Speaker will be DR.Kiran Bhole, Dean-Research, SPCE,Mumbai who is a recipient of SERB DST Fellowship.

So, I request you to allow us to arrange this session on 3rd Feb2023 at 3.00 pm at Ground Floor Seminar Hall for all department faculty members. I further request you to sanction Rs.3000/- budget for the session includes trophy and refreshment.

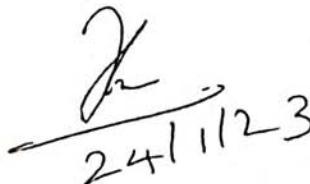

Thank you sir,

Dr.Ashish J. Chaudhari

Dean Research

Permitted.

24/1/23

Report of

Session on Writing a Research Proposal for the SERB_DST and other agencies 6th Feb 2023

Objective: To inculcate the research ,innovation awareness among faculty of the institute

About the Speaker: The guest speaker for the session

1. Dr.Kiran Bhole
Associate Professor and Dean-Research
Sardar Patel College of Engineering Mumbai

Brief introduction of chief guest

Dr. Kiran S. Bhole received Ph.D. degree in Mechanical Engineering from Indian Institute of Technology Bombay, Mumbai, India. He is Associate Professor, in the Department of Mechanical Engineering and Dean (R&D) at Sardar Patel College of Engineering, Andheri, Mumbai, India. His research interests are in the areas of fabrication of microstructures using bulk photopolymerization, fluid shaping and development of flexural systems. He has authored over 50 peer reviewed conference and 31 peer reviewed journal papers. He has research projects sponsored by Science and Engineering Research Board (SERB-DST), Council of Scientific and Industrial Research (CSIR), Technical Education Quality Improvement Programme-II and III (TEQIP-II, TEQIP-III), Indian Nanotechnology Users Program (INUP) of IIT Bombay and University of Mumbai. Total sponsored projects costing @ Rs 2.5 Crores. He conducted several national level faculty development programs under AICTE ATAL, TEQIP and so on. He is coordinator of Rs 7 Crore DST sponsored NIDHI Prayas lab in collaboration with Sardar Patel Institute of Technology and Sardar Patel Technology and Business Incubation Centre (SPTBI), Mumbai. Further he is serving as Guest Editor for Special issue of Springer International Journal on Interactive Design and Manufacturing. Recently in year 2022, Dr.Bhole received best paper award during ASME Conference held at USA.

Brief aspects of the event highlights:

The day begins with the welcoming chief guest by Dr.Madhavi Waghmare,Convenor,IIC and briefly introduce the expert speaker at the beginning of the session.. There were 84 faculty participants were taking part in this event.

At the beginning, Dr.Bhole create the suspension about the importance of research, definition of research ,need of research with some question to be answered based on intelligence quotient.

The central government funded institute around our institute was listed . they are IIT Bombay, BARC,NITIE,ICT,TIFR,CSIR etc. Why those are listed was kept suspense.

The research fund, its importance for an institute research program, the faculty inputs and knowledge gained through it also explained with due examples.

As per Dr.Bhole, writing a research proposal is an art which could be inculcated with continuous habit of writing conference paper, journal paper ,book chapter etc. So, Dr.Bhole insist all faculty members to keep writing the paper for renowned conferences especially organized by IITs/NITS/Government institutes/professional Societies etc. Submission of paper to such places need dedicated efforts and review comment for the paper could improve the work. So keep on publishing conference papers at least two per year. Journal paper only from SCOPUS,SCI Referred to be selected for publication because those only carry weightage. Such publications substantially help during evaluation for principal investigator profile of the research proposal.

The Research proposal during evaluation thoroughly evaluated based on the literature work reported, quality of literature, method of drafting the literature. One important point Dr.Bhole highlighted is the criticism on the literature is not all accepted by evaluator. The published literature was the novel at that time so we don't have any right to raise objection to that work. Very good example was shared was the development of steam engine by Nicolas. Today, Trains are more advanced with respect to steam engine. So one couldnot underestimate the novel work done at that time by Nicoloas. Its a great invention at that time. If it wasn't there, we may not seen today advanced trains. So, drafting literature is a crucial task and needs lot of time and expertise .

Dr,Bhole bring to notice that with out footprint of research proposal, it could not been accepted. He bring to our attention that, the preliminary work is a must for writing a research proposal. The preliminary work should have some developments, experimentations, results in line with the proposal objectives. The research paper published on such work will add advantage for possible acceptance of the proposal.

Dr.Bhole introduces the research funding schemes starting from the University Minor Research Funding to SERB DST research Funding.

Minor Research Grant is the most easy and definite to receive type of research funding but it's a small amount to initiate the research in particular objective. Dr.Bhole suggested to extend the previous minor research grants further for the AICTE research proposals schemes. The chances of receiving the fund based on preliminary work will definitely be considered by the evaluator for AICTE funding.

Such projects with further objectives may be submitted to SERB-DST Research funding in Core Research Grant. The limit of funding is upto 35 Lakhs rupees.

Many such funding agencies were introduced by Dr.Bhole during his speech. At last the initial slide of central funded institute appears and Dr.Bhole float the question why this slide is necessary. Dr.Tatwadashi immediately replied that we as researchers need to visit these institutes for exploring the contacts, research projects and possible collaborations.

Overall the program was completely informative and faculty members were extremely delighted to Dr.Bhole for such events in future also.

Dr.Harish Vankudre,Principal , VCET also expressed his thoughts of research culture and benefits to faculty and students at last with all the participants and offered a token of appreciation in form of memento to Dr.Bhole.

Dr.Madhavi concluded the session with Vote of Thanks.

Thank you

Dr. Ashish Chaudhari

Dr. Ashish Chaudhari

Report of Expert Talk on Energy Conservation Strategy in Electric Vehicles 14th Dec 2022

Objective: To create awareness for innovations in energy conservation strategies needed in electric vehicles

About the Speaker: The guest speaker for the session

1. Speaker:- Mr.Kavan Raval

Chief Strategic Sales and Partnership Officer, Earth Energy EV, Vasai

Brief introduction

Mr. Kavan is A Techno-Commercial expert in the field of EV Automobiles with a proven record in sales, operations, and corporate relations. Been part of an electrified journey where Mr. Raval saw a company & product in making from scratch and contributed to solidifying the roots of the same. Always ready to take up the driving seat of prototypes, push the machine to its limits, present the inputs to R and D team. Mr.Raval undertook vehicle development & logistical operations, event management, company representation activities at seminars and conferences.

Beyond vehicle technology, a significant boost in EV adoption could be awareness programs for users and technicians. Mr.Raval and team create a pool of EV promoters by organizing seminars/workshops for potential users and mechanics. There are many misconceptions about EVs that need to be addressed, which can be clarified by continuous interactions as a community. EV charging infra-availability is also an important game changer.

Brief Summary of the talk

Mr. Raval started his session with the introduction of his company Earth Energy EV and the startup growth and present status in field of electric vehicles. Mr.Raval highlights upon the key factors during design and development of the electric vehicle is the weight of the vehicle and the battery usage for maximum milage.

To understand this , the weight of the electric vehicle could be kept low using the innovative materials without compromise of the safety and anti-collision test. Various materials are under research and utilized in the making of electric vehicles. The weight of vehicle could be substantially reduced using the composite materials maintaining the same strength.

The lower the weight higher will be the performance of the vehicle. Further the battery system of the electric vehicle is another important part for the best efficiency of the vehicle. The battery system is such

that it should be light in weight. Different orientations of the cell and frame design is crucial in the development of battery system of the electric vehicle.

The cooling system of the battery affects the performance in electric vehicle. In two-wheel vehicles, air cooling or natural draft cooling only possible, however in four wheel vehicle the cooling system need to be designed which could keep the cell temperature below designed limit of 40-45 degree centigrade. For this liquid coolant flow around cell is important. The maximum heat generated in the cell in axial direction which need to be dissipated to the surrounding, for this Mr.Kaval demonstrated different designs which are in exist and also under research. Mr. Kaval emphasis scope for innovation and research in this field of battery management system.

Optimum design of Battery system will automatically improve the performance of the vehicle. Battery swapping method which is a new technology initiated by the different start ups in India. Government of India is promoting the young engineers to establish their start up in this sector. Mr.Kaval gives the detailed explanation of the Battery Swapping technology.

Further Mr. Kaval put forward a question whether the electric vehicle causes pollution/emission. Mr. Kaval explains the clean environment or zero carbon footprint policy of Government of India. Electric vehicles consume electricity for charging. This electricity if generated from renewable sources such as solar photovoltaic or wind turbine farm could make a difference.

Overall the program was full of research and innovation. Students interacted with Mr.Raval with lots of question for this very new and silent technology of Electric Vehicles,

Around 50 students and 4 faculty members attended the event.

Thank you sir,

Dr. Ashish Chaudhari

Subject: IIC Activity "Session on Innovation, Startup and Entrepreneurship-New Era for Young Engineering Graduates"-Regarding

Respected sir,

The Institute Innovation Council of VCET were organized the One Day expert session on "Innovation, Startup and Entrepreneurship-New Era for Young Engineering Graduates" on Tuesday, 15th Nov 2022 in physical mode from 2.30 pm to 4.30 pm. The first year students are targeted during the induction program.

The Experts invited for this event is Mr. Sandip Sukhija, Director, S.Cranes Pvt.Ltd., Mumbai. The expenditure for the event is as follows

Sr No	Activity	Amount, Rs
1	Memento(1 nos)	900
2	Banner	250
3	Flower	50
4	Refreshment	90
Total Expenditure, Rs.		1290

There were 150 students and 3 faculty members attended the event. The students were interacted with the expert speaker and share their feelings with the expert.

So, I request you to approve the expenditure and issue to me.

Thank you sir,

Dr. Ashish J. Chaudhari

President, IIC

Report of Session on Innovation, Startup and Entrepreneurship-New Era for Young Engineering Graduates 15th Nov 2022

Objective: To inculcate the importance of innovation which leads to start up and growing startup turned in to entrepreneurship.

About the Speaker: The guest speaker for the session

1. Mr. SandipSukhija
Director, S.Cranes Pvt.Ltd,Mumbai

Brief introduction of chief guest

Mr. Sandeep Sukhija ,He is a Director of S. Crane Engg. Works, manufacturing Cranes, Hoists and Lifts located in Mumbai. Mr.Sukhija completed his Engg, in 1990. Joined family business in 1986 and has been engaged in expansion of the business since then. He has been a program leader at Denmark- a training and development organization since 2009 and he has trained 1000s of people so far. His annual turnover is around 50 crores and employee strength is around 200. The manufacturing plant is at Umbergaon Near Dahanu.

Brief aspects of the event highlights:

The day begins with the welcoming chief guest by Dr.Madhavi Waghmare,Convenor,IIC and briefly introduce the expert speaker at the beginning of the session.. There were 150 student participants were take part in this event.

At the beginning Mr.Sandip introduced himself as a mtivator for any one for any cause under the sun. He motivates many peoples so far making their life easier. Sir begins with the introduction of innovation, asked students to define the term innovation. Students are also excited and define the term in their own language. Sir also encouraged them to speak up highlighting the examples in relation to the terms students are mentioning.

Mr Sandip then turn to the term start up. He underlines the importance of start up and how one could begin his/her own start up. One important parameter for beginning a statup is to convenience the parenrts. According t Mr.Sandip, if one won't able convenience his parents could not able to convenience outsiders. To have successful start up, one have prior research on each and every angle of the product planning for.

The entrepreneurship is the outcome of successful startup which depends largely upon the sales team. If the dissimilation of the product reached to needy one, it will be possible to sell the product. The entrepreneur should have the knowledge of all fields of developing the business because he is

the only person who has to handle all the sectors of business starting from material procurement, manufacturing, finance, sells, service etc. Mr. Sandip gave a mantra for successful entrepreneur is the USP of the product should reach to end user. He shares the USP of his product is the best after sell service wherein the engineer from factory will repair wherever required in the factory. The customers need to be satisfied with the promises made by the entrepreneur. He also emphasis upon the word given by us should be fulfilled at any cost, then and then only the customer will believe you and think of doing business with you.

Many such interesting examples, interactions with students, browsing on internet for important definitions by students make the session very interesting and keeps students engaged for almost 1 hour and 40 mins in the seminar hall. One thing observed here is that first year students who just began their engineering education found more curious about the field of innovation, startup and entrepreneurship. So they are the brand ambassador for us.

Many students share their ideas with the exper speaker at last and received the constructing comments fro the expert speaker.

The event continued for around 2 hours at stretch.

DrAshish Chaudhari, President highlighted some salient points of the speech delivered by Mr. Sandip and bring to notice of students that there are two sides of coin at end of graduation. One side is the placement wherein you join some industry and earn money as salary. The other side of the coin is the start up and entrepreneurship where in you no longer be a jook seeker become a job creator.

SO you have to decide where you wish to turn and the beginning is from this point onward itself. The felicitation will take place with a memento to Mr. Sandip Sukhija by Dr. Madhavi Waghmare

The vote of thanks was delivered by Dr. Mdhavi Waghmare .

Thank you

Dr. Ashish Chaudhari

Report of National Energy Conservation Week 16th Dec.2022

Objective: To inculcate the importance of energy and its consumption among society

About the Speaker: The guest speaker for the session

1. Dr. Megha Trivedi
Associate Professor, Computer Engineering Department
2. Mr. Swapnil Mane,
Energy Auditor, Mechanical Engineering Department
3. Mr. Vishwas Palve
Energy Manager, Mechanical Engineering Department

Brief introduction of Event

Institute Innovation Council in association with IQAC Vidyavardhini's College of Engineering and Technology organizes a Bicycle Rally with banners for awareness about energy saving and methods to generate energy from renewable sources for Ingrid power generation.

Dr.Trivedi and Mr. Swapnil Mane along with students were designed the banners for energy conservation and manufacture the hoardings that could be fixed to the bicycle. The banners of size 60 cm by 30 cm and wooden frame with handle for fixing it to the handle bar of the bicycle.

All participants arranged bicycles from thir own or from friends or relatives and participated in the event. The bicycle rally was started from institute campus at 10.30 am. Dr.Megha Trivedi shows the flag for starting the rally.

Starting from institute the participant follows the track to Ganapati mandir- panchavati- 100 feet road- suncity-grass road- bhuigaon. Return along the same track. Total travel of the bicycle rally is 15 kms.

The banners are

- a. National Energy Conservation Week
- b. Clean Energy renewable fuels
- c. Energy is Life save it
- d. BIS standards for energy saving
- e. Solar panel grid power generation
- f. Saving Energy methods

The students and faculty members were seen enthusiastic and communicated to the peoples on the road and tried to create awareness among them.

The Bicycle rally was successfully completed, and 13 students and 5 faculty members were involved in the rally.

Thank you,

Dr. Ashish Chaudhari

Report of Workshop on Entrepreneurship and Innovation as Career opportunity 6th Oct 2022

Objective: To share experiences based on observations at an enterprise.

About the Speaker: The guest speaker for the session

1. Speaker:- Mr.Ashish Jaykumar

Founder- Aarbee aqua India Pvt. Ltd.

Brief introduction

Aarbee Aqua was established in the year 2006 by Mr. Ashish Jaykumar, a qualified B.E. (Mechanical) with Finance Management from NMIMS, as one of the only kinds of supply house catering to the varied needs of Water Treatment OEM's and Traders. Since our inception, they are the leading Supplier of Water Treatment products achieving the needs of most of the Rural and Urban Water Treatment OEM's throughout India.

Through years of thorough continuous research and development in this field, Aarbee Aqua, stands today with a good-will to deliver more than 80% of the Water Treatment components essential in Residential, Commercial and Industrial segments.

Over the years, working with various industries, They have developed diversity in their way of working which helps in using the experience for the benefit of the customers. They own a wide range of products that possess a technological edge over other competitors ; resulting in a steady yearly growth and the high number of satisfied customers. At Aarbee Aqua, their effort is to always deliver the best solutions to the customers and therefore their range of products go through a comprehensive quality check process. All the products are being procured from reputed and registered vendors, who possess high reputation in the industry and were known for their optimal quality standards.

With the advantage of dedicated professionals by their side, They are poised to deliver the best standard quality products to the customers. The adept specialist, skilled engineers, experienced workforce and unparalleled resources empower them to follow the demands of different sectors with quality solutions.

Mr. Ashish Jaykumar, Founder of Aarbee Aqua India Pvt Ltd on the topic, "Study of Market and its Requirements".

This session was a well guided session to the students as it was well explained by giving various examples on current market requirements for entrepreneurship and related innovations. He shared his idea on marketing factors which needs to be considered during planning the process of innovation. His presentation skills and the method of explanation helped students to gain more knowledge over the topic

in a very effective way. It was an interactive session as he expressed his overall idea over this subject in detail due to which students were able to connect their ideas with great interest.

Thus, this session was a great success as students understood the overall idea of marketing and its requirements in the society. Also many of the students appreciated the session by giving positive feedback. Thus the session ended successfully after Q&A's from the students.

Total 37 students and two faculty members attended the session.

Thank you

Dr. Ashish Chaudhari

Report of

Workshop on Entrepreneurship Skill, Attitude and Behavior Development

21st Feb 2023

Objective: To introduce the necessary skills, attitude and kind of behavior to become a successful entrepreneur.

About the Speaker: The guest speaker for the session

1. Mr. Ratnakar B. Chaudhari
Director and Founder, R.B.Group of Companies, Mumbai

Brief introduction of chief guest

Mr. Ratnakar B. Chaudhari, Director and Founder of R.B. Group of Industries which is engaged majorly for retrofitting of the buildings which are expired their structure life and need to be demolished. Mr. Chaudhari graduated in Civil Engineering from prestigious Institute Veermata Technological Institute of Technology Mumbai in 1985. After serving for 3 years at M/s. Raheja Builders, he turned into the repair and retrofitting of the old buildings in core area like Andheri, Juhu, Vile Parle and Santracruz. Now Mr. Chaudhari is pioneer in this domain of repair and retrofitting of the buildings and government agencies like MHADA and such other agencies work was handled by Mr. Chaudhari. Apart from building construction, he established footprint in food tech industries for manufacturing original edible seed oil.

Brief aspects of the event highlights:

The day begins with the welcoming chief guest by Mr. Viren Chandanshive and briefly introduce the expert speaker at the beginning of the session.. There were 134 student participants were take part in this event.

At the beginning Mr. Chaudhari shared story of his education and his attitude towards learning, placement and day to day budget. Mr. Chaudhari shared his experiences of managing the monthly budget of Rs.200/- . There itself begin the lessons of the entrepreneurship. One notable habit was developed within Mr. Chaudhari to read the tender notices published in newspapers. He keeps on reading those and tried to understand them. Mr. Chaudhari appeared for placement interview where interview goes long about two and half hour and got placed at M/s. Raheja Builders, Mumbai. His attitude and behavior found suitable to industry and asked Mr. Chaudhari to join the industry as soon as finished last paper of last exam.

Mr. Chaudhari believes on visibility. According to him,

Visibility + credibility = Profitability

V+C=P

If an entrepreneur inculcates this formula in him/herself, will only become successful. Mr. Chaudhari shares his experiences of initial entrepreneurship where he struggled for the orders of repairing of society buildings. Only due to his office address, he won't get orders. Understanding this issue, immediate steps were taken and changed the office address to locality where the quotations are submitted. The presence of mind was important in such a situation.

Mr. Chaudhari emphasizes upon the increase in contacts with like-minded entrepreneurs. One example shared that how the meeting with Mr. Anand Mahindra, Chairman Mahindra and Mahindra arranged through the contact obtained in Business Network Forum (BNF). Further Mr. Chaudhari shared the structure of Business Network Forum and insisted all new entrepreneurs to join some such BNF. The one-minute speech given by Mr. Chaudhari during the meeting with Anand Mahindra, grabbed a big contract for many factories of Mahindra and Mahindra in few days after the meeting. Here, it is mentioned, that excel ourselves is a creative task.

Mr. Chaudhari shared 7 tips to start one's own business.

1. Start up funding guidance
2. Support Network
3. Passion/motivation
4. Risk Tolerance
5. Adaptability
6. Funding Source
7. Competition Analysis

Mr. Chaudhari explains the concept of delegation. A very beautiful example of a mother getting work done from children's to purchase grocery from a shop nearby. Children's are the delegation.

Another concept of Venturing is the example in which a mother appoints the maid for cleaning the floor etc.

Mr. Chaudhari shared few BNF addresses with the students and actively participated in the question and answering session. Students found to be motivated and asked very pin-pointed questions to Mr. Chaudhari and it was an excellent interactive session.

The felicitation will take place with a memento to Mr. Ratnakar Chaudhari by Mr. Viren Chandanshive.

The vote of thanks was delivered by Dr. Ashish Chaudhari

Thank you

Dr. Ashish Chaudhari

Report of

Expert Talk on Process of Innovation Development Technology Readiness Level(TRL), Commercialization of Lab Technologies and Tech-Transfer

19th Dec 2022

Objective: The process of Innovation Development in Solar Energy Conservation and Start up Strategy

About the Speaker: The guest speaker for the session

1. Speaker:- Mr.Ratnesh Shingrupe

Founder- and CEO of Quasar Innovative Solutions – India (Qinso),Thane Maharashtra

Brief introduction

Quasar Innovative Solutions – India have received four national awards in System Designing in Renewable Technology. Years of R & D in Industry has gained confidence to attempt for extremely difficult levels of Projects Implementation. Challenges inspires Quasar Innovative Solutions – India to work & resolve them with best possible solutions. Environment & Innovative research are the fields which inspires them to work passionately for betterment of the society. We wish for the better business relations in coming time.

Mr.Ratnesh graduated in Computer Science from Mumbai University established his own start up by this venture. Mr.Ratnesh is a motivational speaker for the students since long time and today he is presenting about the innovation development technologies ,TRL and ways of commercialization

Brief discussion of the event

Mr.Ratnesh is very close to solar energy work and established his own Quasar Innovative Solutions – India (Qinso) for manufacturing of solar panels. Mr.Ratnesh is actively involved in the solar photovoltaic plant installation and commissioning.

Brief Description of the event

Mr. Ratnesh elaborate about the clear goals and vision. In view of Mr.Ratnesh, the vision should be created keeping long term goals. This vision only powers the enterprise to travel on the path of growth. This vision set by the founder of entrepreneur should be the vision of all employee working in the enterprise. Its not only to earn higher salary or higher position in the company.

The broad vision may have small small goals in order to fulfill the vision. Time to time after reaching to set targets, the vision of the company could be improvised.

Mr.Ratnesh highlight of getting inspired by the vision. All employees together will prepare the action plan the vision. If all focused on vision then the small goals are automatically fulfilled.

Mr. Ratnesh emphasis that see the dreams when you are awake not when you are sleeping. Those you can follow and put forward steps towards fulfillment of them.

Mr.Ratnesh established his own competence keep consistency in the technology readiness level with respect to market. Mr.Ratnesh explained about the TRLs for establishing an enterprise rather who could mae his/her way towards enterprises based on TRL, MRL. The review of market should be very important and one should keep the plan in hand to execute the technology on time.

Be diligent and and inspired for technology transfer with industries ,research labs for prograss of the product in term consumer market gain.

Overall the session was excellent and may videos shared by Mr.Ratnesh during installation of the solar plants by their venture. The mathematics of calculating the project cost and quoting also discussed in details. Students were actively participated in the Q and A session. Total 52 students and 4 faculty members were participated in the event.

Thank you

Report of

One Day Workshop on Innovation and Creativity in Entrepreneurship on 22nd Feb 2023

SESSION 1

Objective: To create awareness about innovation. start up, entrepreneurship.

To establish the Start up

The Business Model for Start ups

About the Speaker: The guest speaker for the session

1. Mr. Sachin Kumbhoje

Entrepreneur, start up coach, public speaker, winner of India Croatia Startup Bridge 2022 and Director, OpEx Startup School, Kolhapur

Brief introduction of chief guest

Sachin is a Healthcare professional who did his Post-graduation in Pharmacy and MBA in HR & Marketing. He spent few years in US based leading Pharma Industry working in Technology Transfer. Because he wanted to start something of his own, he then happily dropped out Ph.D. and pursued MBA to begin his entrepreneurial journey. In 2015, he was a part of Infosys Foundation's Global Business Foundation Skills Program, which was a turning point to kick-start his own startup, named as OpEx –Operational Excellence in 2016. For his initiative to promote Make-In-India, he got recognition from Prime Minister's Office. With his bootstrapped Start Up, he could manage to impact more than 1,00,000 students & professionals for StartUp & Skill Development in 6 years. He is recipient of 'Gaurav Puraskar' from Maharashtra's Popular Press Media 'Sakaal'. He considered COVID Crisis as an opportunity & started one more StartUp- CiREE in just 18 months of pandemic. He integrated technology, expertise in Skill Development & his network in the Industry to build India's First Pharma Edutainment OTT Platform for Skills, Jobs & Entrepreneurship. CiREE is a Winner at 'India-Croatia StartUp Challenge 2022' as a part of Government of India, Invest India Federation & Indian Embassy at Croatia. For CiREE, he holds Number #01 in India, amongst 306 Start Ups from India & Croatia. CiREE has won prizes& rewards worth of \$12,000 from Government of India and Corporate Partners.

Mr.Kumbhoje began his first session with the introduction to Start up and shared some thoughts with the participants. Few salient points of the session are

- Start up is a business with innovation
- Innovation may be product innovation for ex. Lenskart, Boat, Nike etc
- Process Innovation is another part of Innovation. For example-Swaggy,Zomato etc
- Business Model Innovation. For ex-Bharatpay,Rapido,Ola etc

Mr.Kumbhoje shared casestudy of the Phone pay start up. The Phone pay start up holds maximum share about 48% in the digital banking of India.

What is the revenue generation model of the Phone Pay? Students replied that the commission obtained on the banking. Mr.Kumbhoje agreed for it. But highlight that its not only the revenue generation model. Important part is advertisements , loans are also possible. The most important revenue generation is by Phonepay wallet which is the primary source of revenue generation. If a person keep Rs.200/- in phonepay wallet and as such if crore people kept such amount. We can't imagine the total amount available with Phone pay ata time. So it's a primary source of revenue generation.

So, Mr. Kumbhoje bring to notice of participants about the importance of primary and secondary source of revenue generation. For any start up, one has to decide the revenue generation model. In short the Business Model Plan is very important for successful start up.

Mr.Kumbhoje bring to notice of the participant about current scanerio of the Indian Patent paublication per month,per year. He pointed that India has power to innovate but not bring the innovation to market. However the Young Generation is the biggest advantage of the country.

Mr. Kumbhoje bring to notice of participant that there are the many sectors in India which are unorganized. SO young generation should come ahead and try to help the society to organize these sectors wherein everybody could be benefitted. Mumbai is the best start up ecosystem. So innovator need to identify the pin point and introduce the business model. Healthcare took advantage post covid .

There are two important terms in Start up that are customer and consumer. Customer is one who paid and the consumer is who used. For example BYJUS application in which the consumer is student who used it. But the customers are the partent who paid for the application.

The first session before lunch was energetic and the environment was created towards the start up and innovation and creativity in the start up to become a successful entrepreneur.

The post lunch session report will be attached separately.

Thank you

Dr. Ashish Chaudhari

SESSION 2

Objective:

To identify the sector wise startup ideation

To develop a Proof of Concept for start up.

About the Speaker: The guest speaker for the session

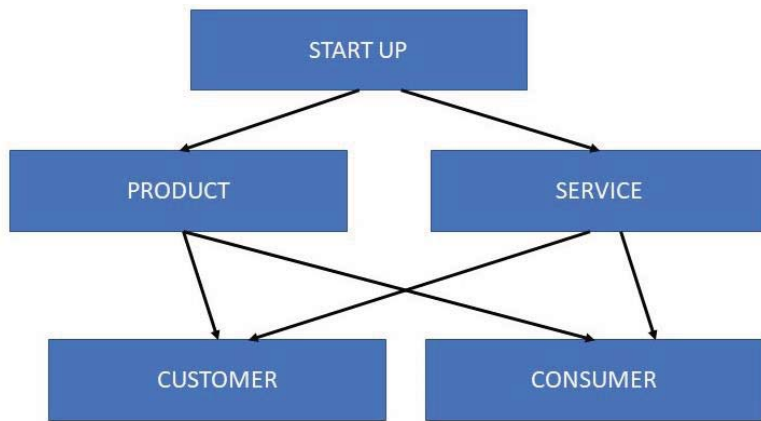

2. Mr. Sachin Kumbhoje

Entrepreneur, start up coach, public speaker, winner of India Croatia Startup Bridge 2022 and Director, OpEx Startup School, Kolhapur

Brief introduction of chief guest

Sachin is a Healthcare professional who did his Post-graduation in Pharmacy and MBA in HR & Marketing. He spent few years in US based leading Pharma Industry working in Technology Transfer. Because he wanted to start something of his own, he then happily dropped out Ph.D. and pursued MBA to begin his entrepreneurial journey. In 2015, he was a part of Infosys Foundation's Global Business Foundation Skills Program, which was a turning point to kick-start his own startup, named as OpEx –Operational Excellence in 2016. For his initiative to promote Make-In-India, he got recognition from Prime Minister's Office. With his bootstrapped Start Up, he could manage to impact more than 1,00,000 students & professionals for StartUp & Skill Development in 6 years. He is recipient of 'Gaurav Puraskar' from Maharashtra's Popular Press Media 'Sakaal'. He considered COVID Crisis as an opportunity & started one more StartUp- CiREE in just 18 months of pandemic. He integrated technology, expertise in Skill Development & his network in the Industry to build India's First Pharma Edutainment OTT Platform for Skills, Jobs & Entrepreneurship. CiREE is a Winner at 'India-Croatia StartUp Challenge 2022' as a part of Government of India, Invest India Federation & Indian Embassy at Croatia. For CiREE, he holds Number #01 in India, amongst 306 Start Ups from India & Croatia. CiREE has won prizes& rewards worth of \$12,000 from Government of India and Corporate Partners.

Mr.Kumbhoje began his second session with the focus on start up.According to him

The Problem Statement is very important for a successful start up. Mr.Kumbhoje shared case study of Mr.Tilak Mehta who tie up with Mumbai Dabewala who is just a 13 years kid. Another case study of Mr.Arjun Deshpande who is 16 years kid developed Generic Aadhar and received start up funding from Mr. Ratan Tata. So Mr. Kumbhoje pointed out that age is just a number. Important part is the timing of introducing the start up.

The statrtup plan could be

Ideation —————>PoC(Revisions possible)—————> Prototype(Functional model not saleable.

The activity conducted by Mr. Kumbhoje . He divided the participants in seven groups sand assigned them the sector of their own choice. Accordingly,

Group-1 – Agriculture

Group-2-Energy

Group-3- Textile

Group-4- Tourism

Group-5- Food Tech

Group-6- Aviation

Group-7- Education

Mr. Kumbhoje instruct all the groups to have the interaction among themselves and identify number of problem which you could solve in the given sector.

Accordingly students comeout with number of ideas and shared by presenting them infront of all groups.

Based on the ideas, Each group was asked to work on any one idea identified as per the following sequence.

1. Empathize(Understanding for people)-Putting yourself in his/her shoes and understand the intensity of the problem.gravity of the problem
2. Define-Need of the customer or want of the customer. When want will be converted to need then only customer will buy the product.
3. Ideate- Solve the problem, Formulate the outline
4. PoC to be developed- Proof of Concept is to be developed.
5. Prototype-Creation and Experimentation

Participants were given time with white paper and some colour sketch pens to prepare the proof of concept. Finally with interaction of Mr.Kumbhoje with each group , they able to develop the proof for the idea they planned.

The student group captain present their idea in details and explain the contents of the application to be developed. Lot of questions raised from student participants and teams enjoy the event largely.

The second session was concluded with the knowhow of innovation and creativity are the inherent parts of a successful start up and to become a entrepreneur.

Student participants appreciates the efforts of Mr.Kumbhoje and shares their feeling of happiness and enjoyment durin the session.

The vote of Thanks was delivered by Dr.Ashish Chaudhari. The token of appreciation was handed over to Mr.Kumbhoje by Mr.Vinay Patel.

This is how concluded the session.

Thank you

Report of

One Day Workshop on Innovation and Creativity in Entrepreneurship on 22nd Feb 2023

SESSION 1

Objective: To create awareness about innovation. start up, entrepreneurship.

To establish the Start up

The Business Model for Start ups

About the Speaker: The guest speaker for the session

1. Mr. Sachin Kumbhoje

Entrepreneur, start up coach, public speaker, winner of India Croatia Startup Bridge 2022 and Director, OpEx Startup School, Kolhapur

Brief introduction of chief guest

Sachin is a Healthcare professional who did his Post-graduation in Pharmacy and MBA in HR & Marketing. He spent few years in US based leading Pharma Industry working in Technology Transfer. Because he wanted to start something of his own, he then happily dropped out Ph.D. and pursued MBA to begin his entrepreneurial journey. In 2015, he was a part of Infosys Foundation's Global Business Foundation Skills Program, which was a turning point to kick-start his own startup, named as OpEx –Operational Excellence in 2016. For his initiative to promote Make-In-India, he got recognition from Prime Minister's Office. With his bootstrapped Start Up, he could manage to impact more than 1,00,000 students & professionals for StartUp & Skill Development in 6 years. He is recipient of 'Gaurav Puraskar' from Maharashtra's Popular Press Media 'Sakaal'. He considered COVID Crisis as an opportunity & started one more StartUp- CiREE in just 18 months of pandemic. He integrated technology, expertise in Skill Development & his network in the Industry to build India's First Pharma Edutainment OTT Platform for Skills, Jobs & Entrepreneurship. CiREE is a Winner at 'India-Croatia StartUp Challenge 2022' as a part of Government of India, Invest India Federation & Indian Embassy at Croatia. For CiREE, he holds Number #01 in India, amongst 306 Start Ups from India & Croatia. CiREE has won prizes& rewards worth of \$12,000 from Government of India and Corporate Partners.

Mr.Kumbhoje began his first session with the introduction to Start up and shared some thoughts with the participants. Few salient points of the session are

- Start up is a business with innovation
- Innovation may be product innovation for ex. Lenskart, Boat, Nike etc
- Process Innovation is another part of Innovation. For example-Swaggy,Zomato etc
- Business Model Innovation. For ex-Bharatpay,Rapido,Ola etc

Mr.Kumbhoje shared casestudy of the Phone pay start up. The Phone pay start up holds maximum share about 48% in the digital banking of India.

What is the revenue generation model of the Phone Pay? Students replied that the commission obtained on the banking. Mr.Kumbhoje agreed for it. But highlight that its not only the revenue generation model. Important part is advertisements , loans are also possible. The most important revenue generation is by Phonepay wallet which is the primary source of revenue generation. If a person keep Rs.200/- in phonepay wallet and as such if crore people kept such amount. We can't imagine the total amount available with Phone pay ata time. So it's a primary source of revenue generation.

So, Mr. Kumbhoje bring to notice of participants about the importance of primary and secondary source of revenue generation. For any start up, one has to decide the revenue generation model. In short the Business Model Plan is very important for successful start up.

Mr.Kumbhoje bring to notice of the participant about current scanerio of the Indian Patent paublication per month,per year. He pointed that India has power to innovate but not bring the innovation to market. However the Young Generation is the biggest advantage of the country.

Mr. Kumbhoje bring to notice of participant that there are the many sectors in India which are unorganized. SO young generation should come ahead and try to help the society to organize these sectors wherein everybody could be benefitted. Mumbai is the best start up ecosystem. So innovator need to identify the pin point and introduce the business model. Healthcare took advantage post covid .

There are two important terms in Start up that are customer and consumer. Customer is one who paid and the consumer is who used. For example BYJUS application in which the consumer is student who used it. But the customers are the partent who paid for the application.

The first session before lunch was energetic and the environment was created towards the start up and innovation and creativity in the start up to become a successful entrepreneur.

The post lunch session report will be attached separately.

Thank you

Dr. Ashish Chaudhari

Dr.Ashish Chaudhari

SESSION 2

Objective:

To identify the sector wise startup ideation

To develop a Proof of Concept for start up.

About the Speaker: The guest speaker for the session

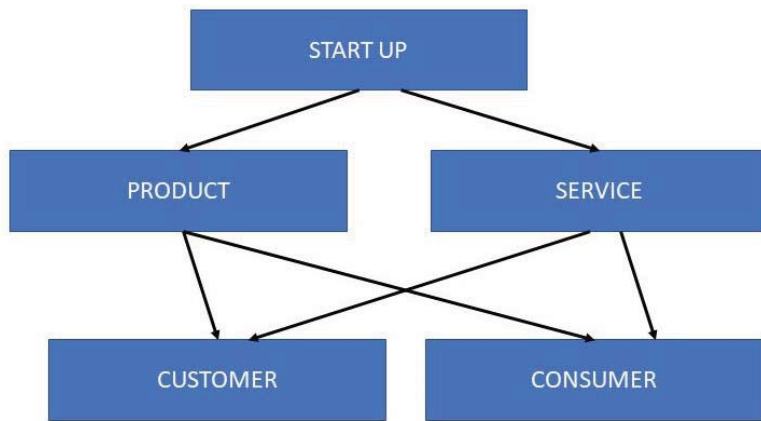

2. Mr. Sachin Kumbhoje

Entrepreneur, start up coach, public speaker, winner of India Croatia Startup Bridge 2022 and Director, OpEx Startup School, Kolhapur

Brief introduction of chief guest

Sachin is a Healthcare professional who did his Post-graduation in Pharmacy and MBA in HR & Marketing. He spent few years in US based leading Pharma Industry working in Technology Transfer. Because he wanted to start something of his own, he then happily dropped out Ph.D. and pursued MBA to begin his entrepreneurial journey. In 2015, he was a part of Infosys Foundation's Global Business Foundation Skills Program, which was a turning point to kick-start his own startup, named as OpEx –Operational Excellence in 2016. For his initiative to promote Make-In-India, he got recognition from Prime Minister's Office. With his bootstrapped Start Up, he could manage to impact more than 1,00,000 students & professionals for StartUp & Skill Development in 6 years. He is recipient of 'Gaurav Puraskar' from Maharashtra's Popular Press Media 'Sakaal'. He considered COVID Crisis as an opportunity & started one more StartUp- CiREE in just 18 months of pandemic. He integrated technology, expertise in Skill Development & his network in the Industry to build India's First Pharma Edutainment OTT Platform for Skills, Jobs & Entrepreneurship. CiREE is a Winner at 'India-Croatia StartUp Challenge 2022' as a part of Government of India, Invest India Federation & Indian Embassy at Croatia. For CiREE, he holds Number #01 in India, amongst 306 Start Ups from India & Croatia. CiREE has won prizes& rewards worth of \$12,000 from Government of India and Corporate Partners.

Mr.Kumbhoje began his second session with the focus on start up.According to him

The Problem Statement is very important for a successful start up. Mr.Kumbhoje shared case study of Mr.Tilak Mehta who tie up with Mumbai Dabewala who is just a 13 years kid. Another case study of Mr.Arjun Deshpande who is 16 years kid developed Generic Aadhar and received start up funding from Mr. Ratan Tata. So Mr. Kumbhoje pointed out that age is just a number. Important part is the timing of introducing the start up.

The statrtup plan could be

Ideation —————>PoC(Revisions possible)—————> Prototype(Functional model not saleable.

The activity conducted by Mr. Kumbhoje . He divided the participants in seven groups sand assigned them the sector of their own choice. Accordingly,

Group-1 – Agriculture

Group-2-Energy

Group-3- Textile

Group-4- Tourism

Group-5- Food Tech

Group-6- Aviation

Group-7- Education

Mr. Kumbhoje instruct all the groups to have the interaction among themselves and identify number of problem which you could solve in the given sector.

Accordingly students comeout with number of ideas and shared by presenting them infront of all groups.

Based on the ideas, Each group was asked to work on any one idea identified as per the following sequence.

1. Empathize(Understanding for people)-Putting yourself in his/her shoes and understand the intensity of the problem.gravity of the problem
2. Define-Need of the customer or want of the customer. When want will be converted to need then only customer will buy the product.
3. Ideate- Solve the problem, Formulate the outline
4. PoC to be developed- Proof of Concept is to be developed.
5. Prototype-Creation and Experimentation

Participants were given time with white paper and some colour sketch pens to prepare the proof of concept. Finally with interaction of Mr.Kumbhoje with each group , they able to develop the proof for the idea they planned.

The student group captain present their idea in details and explain the contents of the application to be developed. Lot of questions raised from student participants and teams enjoy the event largely.

The second session was concluded with the knowhow of innovation and creativity are the inherent parts of a successful start up and to become a entrepreneur.

Student participants appreciates the efforts of Mr.Kumbhoje and shares their feeling of happiness and enjoyment durin the session.

The vote of Thanks was delivered by Dr.Ashish Chaudhari. The token of appreciation was handed over to Mr.Kumbhoje by Mr.Vinay Patel.

This is how concluded the session.

Report of Inter Institute Business Plan Competition on 31st May 2023

Objective: To inculcate the process of preparing and delivering the business plan through the innovation.

To prepare for YUKTI innovation Challenge 2023

About the Judges: The guest speaker for the session

1. Mr. Sandeep Sukhija
Owner, S-Cranes Mumbai

Brief introduction of chief guest

Mr. Sandeep Sukhija, He is a Director of S. Crane Engg. Works, manufacturing Cranes, Hoists and Lifts located in Mumbai. Mr. Sukhija completed his Engg, in 1990. Joined family business in 1986 and has been engaged in expansion of the business since then. He has been a program leader at Denmark- a training and development organization since 2009 and he has trained 1000s of people so far.

2. Mr. Swapnil Karvir
S.S. Dies, Vasai East

Brief introduction of chief guest

Mr. Swapnil Karvir is an alumina of VCET and successful entrepreneur. Graduated from Jambhaji Bajaj Institute of Management Studies (JBIMS) in MBA Marketing with Distinction and B.E. Information Technology. Total Experience of 10 years in Product Management and Service Delivery across Banking, Telecom and Manufacturing

Brief summary of the Business Plan Competition

The Inter-Institute Business Plan competition was organized on 31st May 2023 at Vidyavardhini's College of Engineering and technology campus in offline mode. The teams participated are

a. Team VCET Solection

Team consist of student club VCET Solection engaged in design and development of solar electric vehicles design and development. 4 prototypes were designed, developed and tested successfully. They wish to commercialize the solar vehicle for the common people for day to day use. They presented the business plan with all minute details like investments, ROI, revenue generation and team members on board. The judges were extremely happy with their presentation and gave valuable inputs. Mr. Sukhija guide about ROI which is satisfactory, Team legal alliance is must else each one have change of mindset

each day which is harmful to the establishment. Mr.Karvir emphasis over the cost of the vehicle projected by the team which is too high for the common people. So cost estimation is important factor to be considered. The market is full of such vehicles so what the mode of attracting the customers for purchasing this particular vehicle.Further the manufacturing of the complete vehicle by oruself is very costly where the facility for vendor development is available. So need to rethink over the manufacturing unit demonstrated in the plan.

b. Team Cloud Canvas

The team successfully try to introduce their business plan of developing the web application by each individual. The team explains about the deployment using WhatsApp or facebook. The updates coming continuously . owing to which there is downtime. SO users not able to access the updates. So company uses the set of tools taking existing words and deploy using check links. This happened in single database platform. The judes were criticized the team that the mathematics of reveue generation is not found at all. Its agood idea but who could use it. Business Plan must have maths. Mr. Karvir suggest for try to emphasis upon what problem you are solving. One should ensure about the monitery benefit while approaching you. Do not show too much technical details. First try to sell yourself, second sell your organization and then last thing to get money.

c. Team Inern.one

Team Intern-One engaged in development of application for young India and Industry for coordinating in offerereng the internship. The team will enroll the youths of India freely on the application and provide them the offeres of different sectors as chosen by the person. The industries also register and publish their requirement, skillset needed on the application time to time.

d. Team Epilepsy

There are contents on the social media channels which cause disturbance to eplipse diseased person. So the app will be developed which will help the eclipse to skip such content from the video so that he could not be get stroke to eplipse. They wish to introduce this app to social media sites such as You tube and Instagram who could direly deploy it and help the society. There was a great interaction happened between the judges and the team where the plan for money, how much percentage of eplipses in population data is missing. The presentation should dbeprecise and should impress the investors.

e. Team Jevlis Ka

This team concentrates upon the recipes according to the ingredients available in the house will be recommended. This app was very specific to marathi community and judges were taken the objection over it. Judges suggest them to develop a app which could be general and then make it localized. The business plan also couldnot been cleared fro the presentation

f. Team Food saving and delivering to needy

This is the application for the wastage of food and deliver it to the needy as required. It's a structured collaboration between the food generation and food consumers. The statistics was well explained by the participants . But the objective of the presentation was the innovation rather than the business plan.SO judges appreciates their innovation but being a participant in business plan competition , they must explain their business plan and how to generate money out of it. How to check the quality of the food whether it is eatable or not. The participants have some homework regarding checking the quality of

food by measuring the gases released by food in which the percentage of Methane is deciding parameter for the spoilage of food. The judges appreciated their efforts.

g. Attendance system

This team presented the CCTV based attendance system of any educational institute, industry, offices etc. There will be CCTV who could record the attendance of the person may be single, in a group. Judges were not that happy with the business plan .

The judges were listen to each presentation with a clear understanding and guide each group to a great depth. The participants were learned a lot from the interaction with the judges. The judges were announced the result by calculating the points earned by each team and averaging of both.

h. Autohouse-

The team presented the application of autohouse where in the judges were guided the team to improve the objective and plan from view point of business plan.

Finally the winners are

<p>(1st prize) Name :Rishabh Tripathi Bank Account Number : 50100391018869 Bank IFSC Code : HDFC0001808 Bank Branch Address : Achole Rd,Nalasopara East</p>
<p>(2nd Prize) Name : Mihir Mahesh Gosavi , Bank Account Number : 41125716154 , Bank IFSC Code : SBIN0002184 Bank Name :SBI Bank Branch Address :Navghar Vasai</p>

Report of

Seminar on Discover the power within you 8th March 2023

(International Women's day)

Objective: To introduce the necessary skills, attitude and kind of behavior to become a successful entrepreneur.

About the Speaker: The guest speaker for the session

1. Mrs. Surekha Bhosale

A Visionary Entrepreneur, Career and Passion Counsellor, Trainer, Mentor, Influencer has built an ecosystem of Counselling - Learning - Skilling - Employing - Digital Branding and Mentoring with her own brand and two organizations Hrishi Computer Education and GlobereachIndia

Brief introduction of chief guest

A journey of Ambition, Determination, Dedication!! Training Centers are post-secondary schools in India. At Hrishi Computer Education we have trained 35000+ students in the last 17 years of journey. Today, being an ISO 9001:2008 certified and Government-recognized institute, Hrishi Computer Education is one of the TOP institutes at Mumbai North (Vasai, Virar, Palghar) for IT training and computer courses. Being accredited 12 times from various managements and also the most esteemed award "Best Vocational Training Provider" in 2019 for my renowned service in guidance and development.

The Journey as an Entrepreneur, Trainer, career Counsellor, and Mentor has led to cultivating the best educational practices for training institutes innovating different platforms for students and one of them recently is that we launched HrishiOnlineBuddhi is the No.1 Online-Learning Platform where students can learn the most demanding course in HINDI and ENGLISH considering the present situation and the demand for skill development in RURAL AREAS and students with LANGUAGE BARRIERS can upgrade their knowledge to achieve their dream career.

Entrepreneur Journey Continues Digital Transformation is a Mandate in today's world & the best digital services come with the big pack budget. I strongly believe that the power to transform for every entrepreneur is a must to accelerate business. On this premise, I Co-founded Globreach an Indian local custom software development company with one clear objective, to deliver the best customer service. Our mission is to develop enterprise applications, in India, that exceed the expectations of our clients while maintaining competitive pricing for both existing and small MSME start-ups looking for digital transformation.

Brief aspects of the event highlights:

Entrepreneurship's Most Important Facts

There are a few things you should know before starting a small or large business.

As a first-time entrepreneur, here are five things you should be aware of:

- There will always be dangers.
- The income is not consistent.
- It is necessary to market constantly.
- You'll require certain abilities.
- Entrepreneurship isn't a sure thing.

There are also recommendations from #investors, #entrepreneurs, and #financialexperts to assist you face and overcome the majority of the problems you'll experience when starting a business from the ground up. Years of experience as risk-takers have led to these conclusions. So, take your time, read, and think about the following suggestions.

Take chances: Some hazards are quite frightening and might result in significant losses. However, if you want to be a great entrepreneur, you must be willing to take chances. There are some calculated risks that you should accept in your business operations. You can imagine how happy you'll be if a risk you took paid off handsomely for your company.

As thoughts come to you, jot them down: You never know which of your many ideas will propel your company to the top. This is why you should write them down as they occur; ideas, like #opportunities, come and go.

All directions are connected: Networking will allow you to broaden your network and learn from people who have achieved the goals you seek. However, networking in all directions has a lot more advantages. Horizontal networking among other business owners might help you create social connections and learn from one another. Vertical networking allows you to learn from specialists, you will have more #knowledge or #skill than at least one individual.

Keep track of your spending: You may be so invested in the #success of your new business that you wind up overspending and accumulating debt. Make a list of important products that will help your company expand, and set aside some money to purchase them. Make a reasonable budget, stick to it, and adjust it as needed.

Make a strategy for getting out of the situation: You should know when to stop, halt, or push harder as an #entrepreneur. It's not a good idea to let your pride pull you down. If your project fails to progress, consider the mistakes you made. You might find that it wasn't a mistake at all; it was simply a scenario beyond your control. You can always go forward after learning from your mistakes.

Things may not go as smoothly as you hope if you are a first-time entrepreneur. It's not easy for #successfulentrepreneurs, either. However, by following these suggestions, you might find the #motivation to work hard and intelligently. Putting these suggestions into action will increase your startup's chances of success as it grows. So, I hope you'll internalise and act on them. If you enjoyed reading the article, hit that heart button below and share your views.

The felicitation will take place with a memento to Mrs. Surekha Bhosale by Dr. Harish Vankudre, Principal VCET. Total 42 students and 6 faculty members were attended the session.

The vote of thanks was delivered by Ms. Harshi Shah

Thank you

Report of VASAI-VIRAR START UP FEST 24TH MARCH 2023

Objective: To inculcate the start up awareness among students and faculty

Exhibition of successful startups and entrepreneurs for sharing success story

About the Event: The chief guest for inaugural function are

1. Mr. AnilKumar Pawar
Chief Guest

Brief introduction of chief guest

Mr.Pawar is a Deputy Collector of 1997 batch and currently working as Commissioner of Vasai-Virar City Municipal Corporation.

2. Mr. Amit Rambhia
Guest of Honour

Brief introduction of guest of Honour

Mr. Rambhia is the Chairman & Managing Director at Panache Digilife Limited.

Other Dignitaries on the dias are

Mr.Vikas Vartak,President,Vidyavardhini Trust

Mr. Hasmukh Bhai Shah, Secretary,Vidyavardhini Trust

Dr.Harish Vankudre,Principal

Mr. Chandan Kolvankar,Faculty Incharge

Brief summary of the event

Startup Street held on 24th & 25th of March from 10:00 AM to 7:00 PM. A total of 50 startups were set up there stalls and exhibits to showcase their products, services, and innovative solutions. This bustling avenue became a hub of creativity, resilience, and collective effort, as entrepreneurs networked, shared ideas, and explored potential collaborations. Visitors had the opportunity to witness the diverse range of startup ventures emerging in the region and experience the energy and passion of these entrepreneurial endeavors. List of some startups participated in the event are

List of Stall -

Report on "Challenges faced by an Entrepreneur"

25th March 2023

Date of Lecture- 25th March 2023

No. of Participant- 48

Objective: Panel Discussion of challenges and struggles faced by entrepreneurship

About the Judges: The guest panelist are

1. **Ms. Radhika Bajoria , Founder - Radically Yours Inc USA | Podcast Host - 'Wiping out the Norm**

Radically Yours is the new age, cross-border connecting platform for startups to find their way to investors, who give strategic guidance, not just financial support. In the same way, we help investors and institutions connect with their targeted investee companies through our network of associations and founders across the globe. They are in the development phase currently to shape up this one of a kind, seamless tech led platform. However, They are accepting requests at connect@radicallyyours.com from startups and companies which are, Looking to raise funds, Get mentorship and advice on business plan. Seek help from us on content and website development, LinkedIn brand building. They cover trends and issues in the investment funds industry, governance in listed and unlisted companies. Our purpose is to bring out the unheard stories of how companies fail to maximize shareholder value, thereby educate all the investors by capturing the voices of proxy advisors, bankers, and shareholders.

2. **Mr. Soumyadeep Mukherjee,**

A Sales & Distribution Specialist with over 20 years of experience in India & Abroad with some of the top MNCs in the Beverages, FMCG & Financial services sectors. Expertise in start up operations, launching brands, setting up distribution channels, making strategies, managing large sales teams & support functions and setting priorities for immediate actions in achieving sales target. Proficient in managing business operations encompassing channel management, supply chain management, market/ competition analysis, people management with key focus on profitability. Hold the distinction of exploring new markets and New Product Development and standardizing sales operations for escalating turnovers & achieving goals.

Excellent communication, analytical, relationship management and problem solving skills. Willing to work closely with all functional groups within the organization. Experience of Managing complexities of multiple sales channels of Traditional Retail, Modern Format Retail & HORECA for India, Middle East & Africa!!

3. Mr. Pradipta Sahoo.

During discussion some key points are as below:

The panel discussion of entrepreneurs were organized by Institution Innovation Council and E-cell Vidyavardhini's college of Engineering

What are the most significant obstacles faced to start entrepreneurs?

Today setting a good laboratories is important. Companies are ready to work with startups at throw away price to do the testing setting up laboratories. Previously we used to transport material by ourself on truck. Now the logistics is taken care by some other agency. For todays graduates, the world is open with lots of opportunities.

The graduate with required skillset availability?

Ms. Radhika elaborate her experience of human resource as per required skill set. Ms.Radhika highlight to acquire about the necessary skillset apart from the curriculum during the graduation. When a person acquired skill he or she could do something definitely.

The question put on floor that whether there are any sector entrepreneurs in market more than 10 years , how they struggle for survival?

Mr.Pradipta explains about any product any entrepreneur introduced in market is not only product, entrepreneur has to invest lots of money on different modes like advertisement, skill etc. The biggest challenge is the customer because the customer is very uncertain. So while dealing any product, it is very necessary that there must be a group of customer, how it satisfy the need of customer. Entrepreneur has to set the branding accordingly.

How the entrepreneur faces the challenge in change of technology and customer affect the business?

Mr. Soumyadeep highlight about the continuous education need to acquire by the entrepreneur. He or she should be keep updated with the market scanerio and nurture himself.

Ms. Radhika tried to make the entrepreneur mentally strong to accept such changes and try to learn the new things that are important for the growth of the business.

Mr. Pradipta said the customer feedback is important at every stage and incorporating the changes in the product is the utmost need to survive in entrepreneurship.

How the businesses balance and take calculated risk with the resources available ?

-Mr.Soumydeep emphasis about the market scenario is important to take the calculated risk. Being an entrepreneur running 1000 crore business, risk taken is accepted as its have a small effect on overall business. But small entrepreneurs should take a calculated risk with due serious. Prepare the budget for ourself and

decide how much could I take risk. In this journey of business, is on till you become Lifebuoy. Take risk and face the cenerio. Shared example of Colgate with charcoal. Also case study of Kellogg's for breakfast Kellogg's. They spent lots since six years for research for launch. Saffola noodles also another risk by Saffola.

Ms.Radhika emphasis that the culture of organization is important and one need to follow the culture.

All panelist put forward the key points of learning at each level is important for the entrepreneur.

Overall the session was interesting and all had great interactions and audience really enjoyed the session.

Students with an entrepreneurial perspective attended these seminars with great enthusiasm.

I thank all panel members for accepting the invitation and share your experience and views , I definitely look forward for interaction in coming future.

The session ends with a vote of thanks.

Thank you,

Dr. Ashish Chaudhari

Report of Key to success as businessman on 24th March 2023

Objective: To introduce the positive and negative behaviour of a person

Key issues to be considered for successful businessman

About the Speaker: The guest speaker for the session

Ms. Richa Maheswari
Motivational Speaker

Brief introduction of chief guest

Ms.Richa is a motivational speaker, performance trainer and life coach had conducted 2500+ workshops and trained 40,000+ people across industries in 10 years.

Brief summary of the expert talk

Ms.Rich begins the session with a enthusiasm motivating students with good afternoon to speak loudly. This is in order to bring the attentation of students post lunch. Ms. Richa explained her struggle during the early stage of career development. She came all the way from uttar Pradesh to Mumbai with no money in hand. She stayed at girls working women hostel in Mumbai in sharing basis. The struggle for earning as well as learning was really acknowledged by students. Ms. Richa emphasis on positive attitude an entrepreneur should have? Adaptability is one of the key attitude. Awareness-continuously challenge yourself and need to learn from market. Confidence and belief is a very important quality that entrepreneurs should have. Ms. Richa explained each term very clearly with examples. Laziness is one of the drawback of human being was also explained with examples. Undermining of potential is another negative thing that need to change for becoming a good entrepreneur. You are in average of 5 peoples with whom you spent your valuable time. So always keep the friendship who always tried to keep you uplift in life. A bad attitude is like a flat tyre. Your soft skill and attitude will take you far ahead in life. Story of elephant tyed with rope is shared by Ms.Richa and interacted with all. The elephant during childhood tries to break the chain tied to his feet. But unabl to do so. When the babay elephant grown up and became strong enough,still did not break the same chain tied to his leg. This is because he was conditioned from childhood that the chain is very strong and he wont be able to break.Similarly students are also conditioned from childhood which limits the progress of us. The life will change if we ourself narrate our own story and think differently. Ms.Richa elaborate about the narrating story of life is in our own hand not neighbors, friends etc. Its always easy to play the victim role like why it happened to me always?

The institute Innovation Council in association with e-cell was organized this session on 24th March 2023 at Vidyavardhini's College of Engineering and Technology campus in offline mode.

There were 52 students and four faculty members were attended the session.

The vote of thanks was delivered by student volunteer and session was concluded.

Thank you,

"How to Negotiate like a
Entrepreneur" by Mr.
Abdul Basit Saboowala

Report of How to Negotiate like a Entrepreneur 25th March 2023

Objective: To introduce the audience learned the pros and cons of being an entrepreneur

About the Speaker: The guest speaker for the session

Mr. Abdul Basit Saboowala

Brief introduction of chief guest

Revolutionizing Presentations with Futuristic Holographic Experiences, Visual Storytelling, Youngest Physics Professor, Innovator, Futurist, Speaker, Founder & Chief Executive Officer of Holo Inventions Inc. Holo Inventions Inc. is a multi-award-winning futuristic R&D venture revolutionizing the way human experience technology with WOW Holographic Experiences. They help clients increase ROI with Futuristic Holographic Avatar & Epic Storytelling Holographic Presentations. Backed by SINE IIT Bombay, IIT Mandi Catalyst, Ministry of Electronics & IT, Govt. of India, Wadhvani Foundation and AIC RNTU, Atal Innovation Mission, NITI Aayog.

In 2020, Mr.Saboowala founded Holo Inventions, a multi-award-winning futuristic R&D venture with a vision to revolutionize the way human experience technology with Futuristic Holographic Experiences. To build a robust ecosystem for AR VR Holography in India, we launched 'Holo Shiksha' initiative to train millions and connect the bridge between industry & education institutions.

Mr.Saboowala delivered 50+ sessions globally on AR VR Metaverse & Innovation for corporate professionals and educational institutions with a fusion of WOW, entertainment, activities and in-depth knowledge.

Accolades:

- Top 500 Emerging Startups in South Asia
- Innovation Award - Nehru Science Centre, National Council of Museum, Govt. of India
- 2 Times Avishkar Research Convention Award

Some of the interesting projects Mr.Saboowala is working on:

- Holographic Interactive Tech, one of the world's first interactive hologram (International patent)
- Holographic Presentation, helping organizations captivate their audience with 'WOW' by delivering an unforgettable holographic opening & presentation

- Virtual 3D Toolbox, an innovative immersive media that helps luxury brands to provide a Virtual Touch & Feel experience of their products online

Brief summary of the expert talk

- Mr. Abdul is highlighting about the behavior an entrepreneur should have. He should be positive and believe in yourself. If this is the attitude the entrepreneur will definitely win the situation.
- Mr. Abdul also explains the
- Negotiating like an entrepreneurial expert is a valuable skill that could help the entrepreneur to navigate various business situations and achieve favorable outcomes.
- Some key points to keep in mind for a successful negotiation was shared by Mr. Saboowala.
- First point is to prepare thoroughly: Mr. Saboowala suggest to do research of the other party's background, needs, and interests. Based on it define your own objectives and desired outcomes.
- Establish Rapport: An entrepreneur should build a positive relationship with the other party One must show empathy and active listening to understand their perspective.
- Set Clear Objectives: Mr. Saboowala emphasis on this point and suggest to determine your minimum acceptable outcome (BATNA - Best Alternative to a Negotiated Agreement). Further define your ideal outcome and target goals.
- Create Win-Win Scenarios: An successful entrepreneur should look for opportunities where both parties can benefit and as far as possible avoid a win-lose mindset, as it can damage long-term relationships.
- Effective Communication: An entrepreneur should be clearly articulate the points and be a good listener. He should use open-ended questions to encourage the other party to share their needs and concerns.
- Leverage Timing: mr. Saboowala elaborate about the importance of time and mentioned be mindful of timing and deadlines. Use time pressure strategically, but don't rush the process unnecessarily.
- Negotiate Value, Not Just Price: One should explore ways to add value beyond price adjustments. Consider non-monetary factors like delivery times, quality, or additional services.
- Maintain Flexibility: An entrepreneur should be open to adjusting owns strategy as the negotiation progresses. Don't get stuck on a single solution; explore different options.
- Overcome Objections: Entrepreneur should address objections and concerns constructively. Provide evidence or solutions to alleviate their doubts.
- Stay Calm and Professional: Important for an entrepreneur is to keep emotions in check, even in heated discussions. Maintain professionalism and respect throughout the negotiation.
- Negotiate in Person When Possible: As per Mr. Sabwoola. Face-to-face negotiations often lead to better outcomes as they allow for non-verbal cues and personal connections.
- Use Silence Effectively: Sometimes Silence can be a powerful tool to encourage the other party to make concessions or share more information.

- Be Patient and Persistent: Some negotiations take time to reach a mutually beneficial agreement. Don't give up easily; persistence can lead to better outcomes.

Mt.Sabwoola explains all the points with justifications and examples .He also mentioned to Remember that negotiation is a skill that improves with practice. Each negotiation experience will help you refine your approach and become a more effective entrepreneurial negotiator.

The institute Innovation Council in association with e-cell was organized this session on 25th March 2023 at Vidyavardhini's College of Engineering and Technology campus in offline mode.

There were 57 students and four faculty members were attended the session.

The vote of thanks was delivered by student volunteer and session was concluded.

Panel Discussion Department of Mechanical Engineering Industry Institute Interaction Meet "Udyam Saman 2.0"

Event: Panel Discussion Department of Mechanical Engineering in "Udyam Saman 2.0"

Date: 13th April 2023

Time: 2.00 PM

Panelist from Industries and Institute:

1. Mr. Nilkanth Choudhari, Founder and Managing Director - Sunrise Group of companies. Mumbai
2. Mr. Ashish Choudhari, Plant Head - Nevatia Steels and Alloys Pvt. Ltd. Boisar
3. Mr. Partho Ghosh, Sr. Manager - HR & Admin at Nevatia Steels and Alloys Pvt. Ltd. Boisar
4. Mr. Naresh Pednekar, Director – Chintamani Engineering Industries Pvt. Ltd., Vasai
5. Mr. Prskash Jadhav, Managing Director - APEIWTES AWS Technology Center., Vasai.
6. Mr. Yashamrut Patkar, Assistant Manager-HR – Jolly Clamps Pvt. Ltd., Vasai
7. Mr. Sachin Deshpande, ARS Energy Auditor, Vasai
8. Mr. Sunil Mohadikar, Director – Susumo Engineering, Vasai
9. Dr. Uday Aswalekar, HOD – Mechanical Engineering, VCET Vasai
10. Faculties of Department of Mechanical Engineering, VCET, Vasai.

Panel Discussion Moderator: Dr Ashish Chaudhari, Dean- Research and Development, VCET Vasai

Objective of Panel Discussion:

1. To determine the role of Mechanical Engineering department faculties to make students industry ready.
2. To discuss specifically the gap between curriculum of Mechanical Engineering and technical knowledge expected by industries from Mechanical graduates.
3. To discuss methodology to inculcate ethics in industries in students during their graduation.
4. To develop platforms to express new ideas and information between academia and industries for strengthening relations and mutual benefits.

Details: Industry Institute Interaction cell of Vidyavardhini's College of Engineering and Technology organized an event "Udyam Saman 2.0" on 13th April 2023 in association with Board of Apprenticeship Training (BOAT) Mumbai. In afternoon session a panel discussion was arranged on subject "Role of Mechanical Engineering faculties to make students industry ready."

Panel discussion started at 2.00 pm in the office of HOD Mechanical Engineering. At the start of the panel discussion Mr. Mukund Kavekar welcomed all panelists.

Dr. Ashish Chaudhari started panel discussion by introducing industrial panelists to faculties of Mechanical Engineering department.

During discussion some key points are as below:

Mr. Partho Ghosh elaborated the significance of training and carrier guidance for engineering students. He has mentioned the key factor observed from graduate during his job interview are

- Attitude
- Aptitude
- Technical knowledge
- Ethics and Etiquette

As per his recruitment experience, he has suggested to work on resume building and mock interviews of students from second year onwards.

Mr. Ashish Choudhari, Plant head of Nevatia Steels has mentioned importance of technical skills and suggested to train students to make them industry ready.

Mr. Nilkanth Choudhari suggested to aware students regarding application of theory concept in practice. He also suggested to aware the opportunity in Mechanical Engineering. He also suggested to take live projects to solve industrial problems.

Mr. Yashamrut Patkar mentioned that students should be aware of work ethics and etiquette. He also emphasized for selecting environmental and societal problems as project work.

Few important points discussed during discussion are as below:

- A practical session's, expert lectures, Seminar beyond syllabus from industrial expert should be organized.
- Students should be made aware of the consequences due to lack of technical knowledge during professional life so they will start to take interest in curriculum.
- Students should be aware of Quality Management System, ISI, ISO, and safety standards.
- Make student aware of future technologies like Artificial Intelligence, Machine learning, Data Science, Cyber security, Internet of Things etc.
- Sessions for goal setting courses and motivational speeches need to be arranged by professional trainers.

At the end of panel discussion Dr. Uday Aswalekar, HOD Mechanical Engineering felicitated all panelists.

Vidyavardhini's College of Engineering and Technology, Vasai
विद्यावर्धिनीचे अभियांत्रिकी आणि तंत्रज्ञान महाविद्यालय, वसई

Report of Motivational Session by Successful Entrepreneur 18th Sep. 2022

Objective: To share experiences based on observations at an enterprise.

About the Speaker: The guest speaker for the session

1. Mr. Rizwan Sheikh
Project Engineer, S.Crane Pvt. Ltd., Mumbai

Brief introduction of chief guest

Mr. Rizwan graduated from Mumbai University joined the field of electric crane design and development. Presently Mr. Rizwan is the head of Project and recruits the deserving engineers in Mechanical Engineering.

Mr. Rizwan shared his experiences as an employee of an entrepreneurial firm M/s. S.ranes Mumbai. He is more from mechanical engineering background so covered full details of the work environment inside the industry.

The entrepreneurial experiences were also been shared by Mr. Rizwan where in the team of employee should be like a family who targeted to a single vision defined by entrepreneur.

The entrepreneurship skill lies in making the ecosystem of working towards a targeted objective. Each individual in a industry is important and growth of him/her should be parallel look after.

The entrepreneur need to have ability to tackle the situation of negotiation/argument in short show the presence in the market. He/she should have positive attitude such as innovative mindset, risk taking, consistency and should overcome his/her negative attitude.

Being an entrepreneur, the power of creativity and innovation will lead to the target with more features. Mr. Rizwan emphasis over the positive thinker group.

The BE Mechanical engineering students were attended the event wherein the fruitful interactions take place with students on topics of technical discussion with entrepreneurial management.

Total 72 students were attended the session .

Dr. Uday Aswalekar, Head of Mechanical Engineering concluded the session with Vote of Thanks.

Thank you

Report on Energy Conservation Day 2022

Program Energy Conservation Day 2022

Date 14/12/2022

Venue

1. Vidyavardhini's College of Engineering
2. Municipal outskirts of Vasai West region for Bicycle Rally
3. Podar School, Vasai West
4. New English School, Nirmal, Vasai
5. St. Annes High School, Vasai West
6. Shree Taramai Vartak Memorial Academy, Virar

Description Every year, Department of Mechanical Engineering, Vidyavardhini's College of Engineering and Technology (VCET), Vasai (west), organizes "Energy Conservation Week". The event is organised on "World Energy Conservation Day" i.e 14th December to highlight the importance of energy consumption and its use in our day-today life.

The contents covered in this program are:

Sr No	Name of Activity	Date	Duration
01	Inauguration of Energy Conservation Week 2021 by Mrs. Rashmi Joshi,	14/12/2022	3 pm to 5 pm
02	Expert Talk on the Roadmap for Electric Vehicles – Earth EV	15/12/2022	3pm to 5 pm
03	Bicycle rally to create awareness about Energy conservation and energy Efficiency	16/12/2022	10 am to 12 pm
04	Renewable Energy Startup talk by Mr. Ratnesh Shingrupe, Quasar Innovative Solutions.	19/12/2022	10 am to 12 pm
05	Outreach Activity by the Faculty of Mechanical Engineering Department at various schools in the VVCMC Region	20/12/2022	9 am to 5 pm

Organized Coordinators: Mr Swapnil R Mane, Assistant Professor, Mechanical Engineering
By Chief Guest: Mrs. Rashmi Joshi, Environment Consultant, Mumbai

S

Vidyavardhini's College of Engineering & Technology

Academic Year 2022-23

Guest Lecture by Mrs. Rashmi Joshi on Energy and Environment
14th December 2022

Venue: Ground Floor Seminar Hall (3pm to 5pm)

About the Guest:

Name: Ms. Rashmi Joshi

Designation: Environment Consultant

No. of Participants: 21

Phone no. 9819599851

Mail id rashmijoshi72@rediffmail.com

Currently working as Environment Consultant for last 10 years with a special focus on Composting,

E-waste Collection Drives, Seed ball making and Kitchen Gardening

Educational Qualifications

M.A. (Greek Philosophy), NET Exam Qualified

Experience

- Lecturer at Ruparel Junior College, Khalsa Degree college, Government Law College and Mumbai University
- Public awareness related to environment issues-
- Creating awareness among students in particular and society in general by delivering lectures, guidance, training and implementation of composting projects at around 50 plus schools, colleges and 100 plus housing societies.
- E-waste collection, plastic waste collection and sending it for recycling – from approximately 50 colleges of Mumbai, Navi Mumbai, Thane, Pen (Raigad) & Ratnagiri; 200 plus housing societies and 25 Schools and other institutions including the corporates.
- Organisation of E-waste collection drives in 40 colleges, 25 schools and 50 residential colonies of Mumbai, Dombivali, Thane & Navi Mumbai and collected around & 20 ton of E-waste and its disposal for scientific recycling to Government approved recycler. This way the E-waste reached the recycling facility instead of reaching the dumping ground.
- Similarly, composting projects were completed at several locations and few hundred tons of wet waste in the form of kitchen waste and garden waste was prevented from reaching the dumping ground.
- Conducted around 2000 plus awareness lectures on Solid Waste Management in various Educational Institutions, Housing Societies & other Institutions.
- I was also involved in organization of Plastic Waste Collection Drives in various educational and other institutions.
- Conducted webinars in around 100 institutions during lockdown till date. Awareness interviews on All India Radio as well as Media Coverage in various Newspapers.

Awards and Achievement

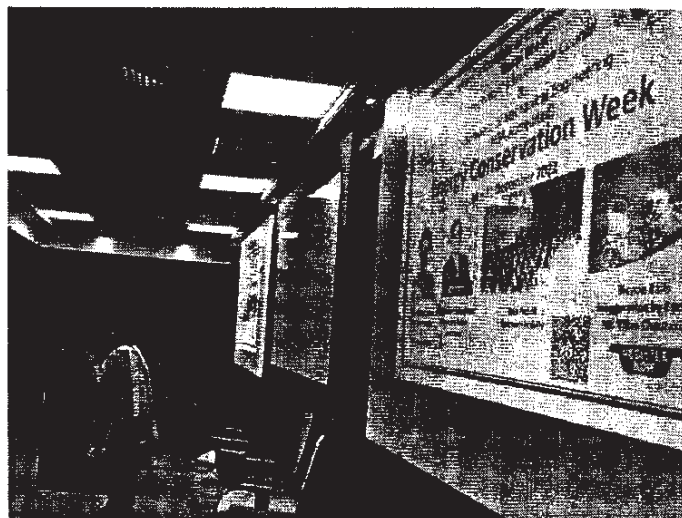

- Felicitated by Thane Municipal Corporation
- Felicitated by F/North Ward of MCGM.
- Naari Swashakti Puraskaar.
- Guru Nanak College Award
- Prasar Bharati Award for work in Swachh Bharat Abhiyan
- Kartrutvavaan Naairatna Gaurav Puraskar 2020
- Corona Warrior Awards (from 4 Organizations)
- Rajyastariy Covid Yodhha Samaj Rakshak Mahasanman 2021
- Adarsh Corona Warrior Award received on 1st May 2021.
- Served a critical cancer patient continuously for two years.

Vidyavardhini's College of Engineering & Technology
Academic Year 2022-23

Mrs. Rashmi Joshi addressed about the scientific findings that a global energy transformation is needed to address the growing risks associated with accelerated global environmental change. Anthropogenic pressures on the planet have reached a level where large-scale deleterious impacts, or even catastrophic ones, can no longer be excluded. She also mentioned that such impacts have the potential to undermine human development.

Ms. Rashmi Joshi addressing Students during Seminar

This new global social environmental predicament is closely associated with energy. Atmospheric emissions from energy use contribute to multiple environmental impacts. In addition to climate change, atmospheric pollutants may limit net primary productivity of ecosystems, and lead to the acidification and eutrophication of land and seascapes. Energy and Environment

Vidyavardhini's College of Engineering & Technology
Academic Year 2022-23

interact, reinforcing impacts on social and environmental systems, in complex ways that are not always well understood. She talked about Climate change and GHG emissions.

Students asked about how they can contribute to reducing the impact of Global Climate change to which she replied to follow the SDG's which can cause a greater impact on the sustainability index of the country.

The session ended with a vote of thanks by Mr. Vishwas Palve, Assistant Professor at the Department of the Mechanical Engineering.

Report of Expert Talk on Process of Innovation Development Technology Readiness Level(TRL), Commercialization of Lab Technologies and Tech-Transfer 19th Dec 2022

Objective: The process of Innovation Development in Solar Energy Conservation and Start up Strategy

About the Speaker: The guest speaker for the session

1. Speaker:- Mr.Ratnesh Shingrupe

Founder- and CEO of Quasar Innovative Solutions – India (Qinso), Thane Maharashtra

Brief introduction

Quasar Innovative Solutions – India have received four national awards in System Designing in Renewable Technology. Years of R & D in Industry has gained confidence to attempt for extremely difficult levels of Projects Implementation. Challenges inspires Quasar Innovative Solutions – India to work & resolve them with best possible solutions. Environment & Innovative research are the fields which inspires them to work passionately for betterment of the society. We wish for the better business relations in coming time.

Mr.Ratnesh graduated in Computer Science from Mumbai University established his own start up by this venture. Mr.Ratnesh is a motivational speaker for the students since long time and today he is presenting about the innovation development technologies ,TRL and ways of commercialization

Brief discussion of the event

Mr.Ratnesh is very close to solar energy work and established his own Quasar Innovative Solutions – India (Qinso) for manufacturing of solar panels. Mr.Ratnesh is actively involved in the solar photovoltaic plant installation and commissioning.

Brief Description of the event

Mr. Ratnesh elaborate about the clear goals and vision. In view of Mr.Ratnesh, the vision should be created keeping long term goals. This vision only powers the enterprise to travel on the path of growth. This vision set by the founder of entrepreneur should be the vision of all employee working in the enterprise. Its not only to earn higher salary or higher position in the company.

The broad vision may have small small goals in order to fulfill the vision. Time to time after reaching to set targets, the vision of the company could be improvised.

Mr.Ratnesh highlight of getting inspired by the vision. All employees together will prepare the action plan the vision. If all focused on vision then the small goals are automatically fulfilled.

Mr. Ratnesh emphasis that see the dreams when you are awake not when you are sleeping. Those you can follow and put forward steps towards fulfillment of them.

Mr.Ratnesh established his own competence keep consistency in the technology readiness level with respect to market. Mr.Ratnesh explained about the TRLs for establishing an enterprise rather who could mac his/her way towards enterprises based on TRL, MRL. The review of market should be very important and one should keep the plan in hand to execute the technology on time.

Be diligent and and inspired for technology transfer with industries ,research labs for prograss of the product in term consumer market gain.

Overall the session was excellent and may videos shared by Mr.Ratnesh during installation of the solar plants by their venture. The mathematics of calculating the project cost and quoting also discussed in details. Students were actively participated in the Q and A session. Total 52 students and 4 faculty members were participated in the event.

Thank you

Report on Guest lecture on How to Write Research Paper

Guest lecture was arranged for final year students of Department Mechanical Engineering on 9th March 2023 from 2 PM to 4.00 PM on Google meet for development of skills in students to write research paper and published in journals. The topic of the guest lecture was "**How to Write Research Paper**". Guest speaker for the seminar was Mr. Prateek Malwe, Assistant Professor DYPIT, Pimpri, Pune.

The contents of the guest lecture were

- Introduction to conference and journals
- Brief discussion about National, International conference and journals
- How to search conference and journals for respective topics
- Abstract writing
- Concepts of citation
- Literature review
- How experimental methodology, graph and conclusions
- How to answer reviewer comments

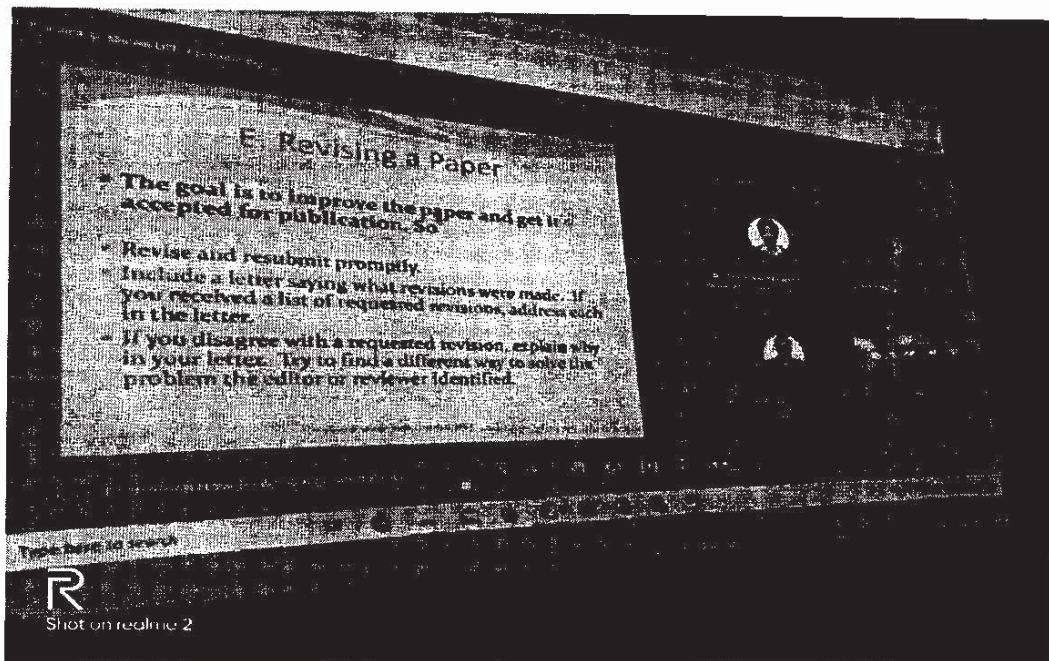

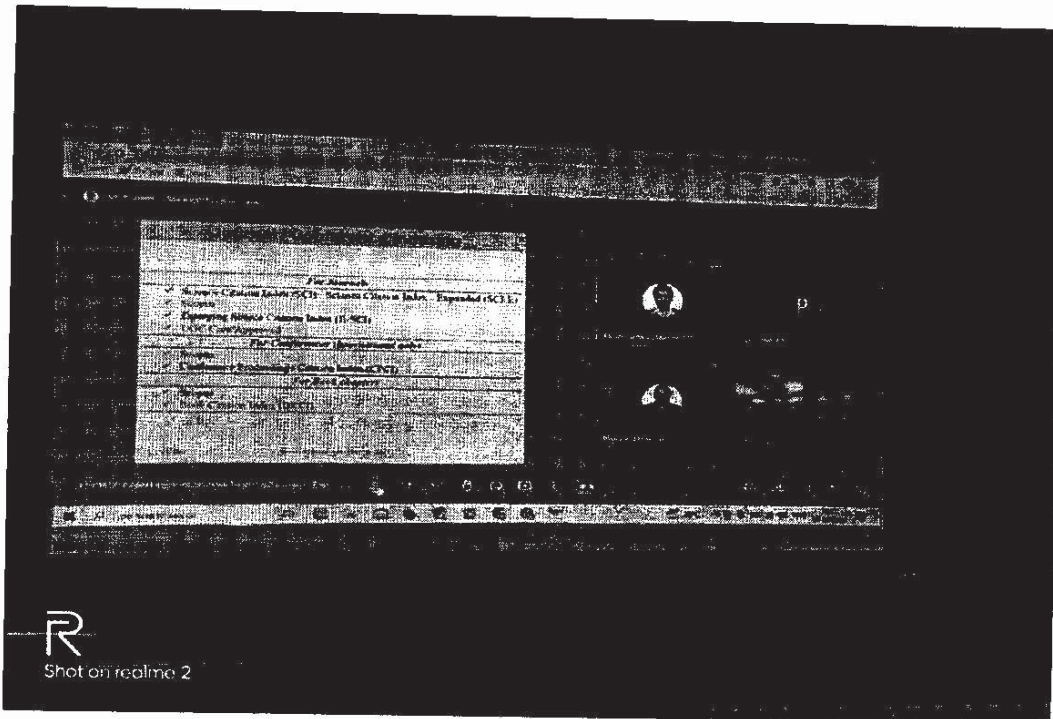

The following is attached after the report

- Sample screenshot of lecture,
- Attendance of students
- Invitation to students,
- Invitation to Guest
- Feedback analysis.
- Impact analysis.

Report of

Session on How to Accelerate Research inside Department and Role of Faculty

6th April 2023

Objective: To inculcate the research, innovation awareness among faculty of the institute

About the Speaker: The guest speaker for the session

1. Dr. Vishal Shukla

Associate Professor

Mechanical Engineering, RCOME Nagpur

Brief introduction of chief guest

A highly experienced and result oriented professional with over 20+ years of experience in Teaching, Research, Project Development and Consultancy services. He is capable of teaching Digital & Additive manufacturing, CAD & FEM, Design & Vibrations, Fluid and Biomechanics, Possess Knowledge of modern engineering tools and techniques required in Product Design, Development and Manufacturing. He always keen to adept at guiding the students by using interactive discussions and “hands-on” approaches to help students learn and get a better understanding of the concerned subject. He is well allows sufficient exposure in identifying training needs, designing training / teaching curriculum and executing the same with knowledge of content development with skills in preparing and delivering the content. He is experienced in interacting and collaborating with students, professional societies, Industries and the community to build a college environment that maximizes student learning, academic performance, industrial development and social growth. He is soft spoken and having good communication, presentation and interpersonal skills with abilities in teaching & training for various academic as well as professional courses. He is presently working as Associate Professor in Mechanical Engineering, RCOEM and Faculty In-charge RCOEM-TATA CIIT. He delivered corporate Training related to EOT Crane. Several seminar/workshops/FDPs on Finite Element Method, CFD and applications to Biological systems

Brief aspects of the event highlights:

Dr. Shukla begins the talk with a note of relation between researcher and a teacher. A good teacher is one who is good in research in the domain of his or her own specialization.

Dr. Shukla shares the experience of his current institute and policies framed at their place as far as research is concerned.

HOD,
HEAD
Dept. of Mechanical Engg.
Vidyavardhini's College of
Engineering & Technology
Vasai Road - 401202.

Dr.Shukla share with the fellow faculty member about the goals to set at the beginning of the academic year for research activities. The goals should not be so high that they are impossible to achieve. As per Dr. Shukla, the goals should be small and achievable.

Very first goal is to work upon innovative challenging problems with the help of UG/PG projects. These projects outcome should be analyzed to some extent and publish in reputed international conference. So set a goal of at least one renowned international conference paper publication in a year.

Second goal is to write a journal paper which is extension of the conference paper with indepth analysis of the problem under working. Submit atleast one journal paper every year. Let it publish at any time which is beyond our control. So don't waste time in publication of first paper in the journal.

Third goal is to think of innovative research intellectual property rights. Now a days the process of patent filing process becomes in online mode and its very easy to submit the application for patent. So any innovative research must be applied for patent.

If each faculty member of the institute contribute his or her small share in research, it becomes a big number where we as VCETians feel proud to be a part of this number.

Dr.Shukla suggested various methods of journal finder especially from mechanical Engineering fraternity. Dr.Shukla shares his experience as researcher and interacted with faculty members. Overall the session was extremely informative and informal . Faculty members hsare their doubts and seek clarification from Dr.Shukla. Dr.Shukal tried to resolve many queries raised by faculty members and satisfies all the faculty members.

All faculty members of the Mechanical Engineering Department 22 numbers was present for the Seminar.

Finally Dr.Uday Aswalekar, Head of Department felicitate Dr.Shukla with a token of appreciation and the session concluded.

Thank you,

Dr. Ashish Chaudhari

Report on Seminar

Undertaking Literature Review

Date: 1st February 2023

Time: 4:00 pm

Speaker: Dr. Tatwadarshi P. Nagarhalli

Organized by: Department of Computer Engineering, VCET

Key points shared with students among others include:

1. Types of Research Papers
2. Conducting Review of Literature
3. Documenting and writing Literature Review
4. Sample Review papers

The seminar was conducted for all SE Computer Students and attend by 65 students of the department.

Prepared by

Report of

Field/Exposure Visit to Incubation Unit/Patent Facilitation Centre/ Technology Transfer Centre such as Atal Incubation Centre etc

15th June 2023

Objective: Giving overview of different project and operational mechanism to the student and faculty members

Interaction with different stakeholders about their roles, how they work on their given task, challenges.

About the Incubation Centre : Sardar Patel Technology Business Incubator

The resource Persons for the field visit are session

1. Mr. Hardik Joshi ,CEO,SPTBI
2. Mr.Abhishek Mishra, Manager,SPTBI

Brief introduction of Sardar Patel Technology Business Incubator, Mumbai

SP-TBI is a technology incubation center that encourages and assists brave entrepreneurs in developing outstanding future Technology Ventures. SP-TBI is an initiative of Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology. It is affiliated with the Department of Science and Technology of the Indian government. We act as a catalyst for new entrepreneurs, providing them with the best infrastructure, technology, seed capital, talent pool, mentorship, and training. SP-TBI is aspiring to help startups succeed and scale to bigger heights.

Brief summary of the field visit

The field visit of the students and faculty members has been organized at SP-TBI , Mumbai on 15th June 2023. The student participants who successfully delivered their business plan during business plan competition were also participated in the field trip. A total of 42 students were participated within and other institution and four faculty members were accompanied them during the field visit.

The field trip begins with the welcome speech by Mr.Abhishek Mishra who is looking after all activities of the incubation centre. Mr.Mishra introduced himself and recently joined CEO of incubation centre Mr.Hardik Joshi. The visit planning was discussed with students and faculty members and immediately the facility visit begins.

The visit to PRAYAS SHALA is the first place where all were visited. It's a prototyping laboratory which has departments such as

1. Machining shop

-Machine shop consist of the all advanced equipments such as welding machine, spot welding, grinder, lathe machine etc. required for the development of mechanical prototype of the product. The Technical officer explained the use and working of each and every equipment's in the machine shop. The sample products developed so far were also demonstrated.

2. Rapid prototyping shop

The next shop visited was Rapid Prototyping Shop which accommodates the advanced 3-D printing machines. 3-D product scanners and Imaging devices. This shop will be very beneficial for the rapid development of product from the design drawings in hand. The technical officer demonstrated the 3-D scanner and interaction of 3-D printing machine with the 3-D scanner. Students were so impressed with this technology that they were raised queries and the officers of the shop tried to resolve their queries.

3. Material testing Shop

The material testing shop accommodates the fully automatic machine for testing the composition of the material . this machine was demonstrated by the technical officer and explains the features of it.

4. Audio/Video Studio

The incubation centre developed their own audio/video studio for product marketing and advertisement development purpose. There are experts available in the studio who will be available for the work force.

This is the PRAYAS SHALA of SPTBI incubation center. The students are motivated by looking after the facility for development of any idea to prototype and to a successful product.

The second phase of field trip is the office and infrastructure visit. The Incubation centre is equipped with 40 cubicals for the incubette. All the cubicals are well equipped with table chairs, Wi-Fi and air conditioner. The cafeteria facility as well as open lawn for discussion, thought process is available. In short the climate is most suitable for the incubette to come out with a potential solution for their idea in mind and investment done for incubetting it.

Mr.Hardik Joshi interacted with students and shared the experience with students and faculty. Mr.Joshi invited students to join incubation center with potential idea which could be introduced as start up. The incubation center is technological incubation and look for the incubette who had prior work done on the idea and possibility of potential of business.

At last, I on behalf Institute Innovation Council, I expressed my gratitude to Mr. Hardik Joshi and Mr.Abhishek Mishra for their support for organizing this field Visit and guided our students and teachers . I appreciated them with a memento to Mr.Harsh Joshi.

This is how the field trip was concluded and disbursed.

Thank you

Dr. Ashish Chaudhari

Report on "The Importance of Research and Lab Teaching in Education"

Date of Lecture- 24th May 2023, Wednesday from 11:00 a.m. to 01:30 p.m.

No. of Participant- 30

Name of the Speaker- Mr. Nissar Khan (Technical Officer, Civil Engineering Dept., IIT Bombay)

Introduction: The seminar on "The Importance of Research and Lab Teaching in Education" took place on 24th May 2023 at IIIrd floor Seminar Hall, VCET, Vasai. The aim of the seminar was to shed light on the significance of integrating research and lab teaching in the education system and how these components contribute to a comprehensive learning experience.

Keynote Speaker:

Mr. Nissar Khan is currently working as Technical Officer in the department of civil engineering at IIT Bombay. He holds professional degree in Bachelor of engineering (B.E) in Civil Engineering and Master of Technology (M. Tech) in Structural engineering. He has a vast experience in the field of concrete, structural engineering and all the civil engineering experimentation work.

Description of the lecture:

Expert lecture on "The Importance of Research and Lab Teaching in Education" was conducted on 24th May 2023, Wednesday from 11:00 a.m. to 01:30 p.m.

The first session focused on how research and lab teaching enrich the learning experience. The speaker highlighted that hands-on experiences provide students with a deeper understanding of theoretical concepts. Practical applications encourage critical thinking and creativity, ultimately enhancing the overall educational journey.

Vidyavardhini's College of Engineering and Technology, Vasai
विद्यावर्धिनीचे अभियांत्रिकी आणि तंत्रज्ञान महाविद्यालय, वसई
Affiliated to the University of Mumbai

The discussion revolved around how lab work cultivates practical skills, including experimentation techniques, data analysis, and equipment operation. Participants agreed that these skills are invaluable in preparing students for future careers. Furthermore, he explored how research and lab teaching spark curiosity and foster innovation. The participants engaged in a discussion about the role of these components in encouraging students to explore beyond the classroom, develop new ideas, and contribute to the advancement of knowledge.

In the next session, the focus shifted to the importance of collaboration and communication skills. Participants shared experiences of how research projects and lab activities encourage teamwork and effective communication, essential skills for success in any field. Also he highlighted the personal and professional growth that stems from engaging in research and lab work. Participants discussed how these experiences boost students' confidence, self-esteem, and sense of accomplishment, thereby preparing them for challenges in their careers. Additionally, he underscored the significance of faculty-student interaction in research and lab settings. Attendees agreed that mentorship from faculty members not only enhances the quality of research but also establishes meaningful connections between students and educators.

The seminar concluded with a discussion on how research and lab experiences instill a passion for lifelong learning. Participants shared insights into how these experiences encourage individuals to stay updated with the latest developments in their fields throughout their lives.

Conclusion:

The seminar on "The Importance of Research and Lab Teaching in Education" provided a comprehensive exploration of the various dimensions of research and lab teaching. It was evident that these components not only enhance the educational journey but also nurture essential skills, foster innovation, and prepare individuals for future challenges. The seminar served as a platform for rich discussions and valuable insights, emphasizing the significance of incorporating research and lab teaching into the education system.

Subject: IPR seminar under IIC-Regarding

Respected sir,

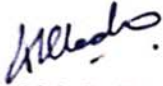

We wish to organize one IPR seminar on IPR Awareness Program for students and faculty of the institute under IPR cell of Institution Innovation Council. Ms. Ujjwal Jaipal Singh, Examiner of Patents and Design, Mumbai Patent Office, Ministry of Commerce and Industry, Government of India will be the expert speaker for this session.

So, I request you to allow us to organize this seminar on 07th Jan 2022 from 12 noon to 3 pm for maximum 100 students and faculty across all department.

Thank you sir,

Prof. Vinay D. Patel
IPR Co-ordinator

Dear Sir,

Our Nation is commemorating the 75th Anniversary of India's Independence under the banner of "Azadi Ka Amrit Mahotsav", and Government of India has taken initiative of **National Intellectual Property Awareness Mission (NIPAM)** under which awareness and training would be imparted to 1 million students on **Intellectual Property Rights (IPRs)** during the period from 15 August 2021 to 15 August 2022.

As part of said Mission, the Office of Controller General of Patents, Designs and Trade Marks hereby invites your esteemed institution/school to conduct Intellectual Property Right awareness program in your institution/school. The said program is of 30-40 minutes duration wherein the students would be exposed to different types of Intellectual Property Rights (IPRs) and they would be enlightened and motivated to convert their ideas into innovation and further transformation into IP assets through protection of their IP rights. After completion of the said program every participant including the organization shall be awarded with e-certificate from the competent authority.

A line of confirmation on the above said proposal is highly appreciated. You are requested to contact / **Dr. Ajay Thakur** (Team Leader) on 9768884980 ajaythakur.ipo@nic.in /
Or **Shri. Amol Ravindra Patil** (NIPAM Officer) on 8446317325 or arpatil.ipo@gov.in for further information at the earliest. Awaiting your kind co-operation in this regards,

With Warm Regards,

Report of
Expert session on
"IPR AWARENESS PROGRAM"

7th Jan 2022

Aim: To invite an Government office of IP India for guiding the students

Objective

- To learn the methods of IPR
- Process of filing the IPR

Outcome

- Apply for copy right of their project work by themselves
- Create some innovative designs for patenting

Salient points of expert speaker

Ms. Ujjwal Jaipal Singh, Examiner of Patents and Design, IP India, Mumbai present the lecture on "Awareness of IPR to students and faculty of the institute.

-Madam, begin with the types of IPR and why they are important for an individual

-Madam explains each mode of IPR in details starting from its contents, method of drafting, method of application and registration fees etc.

-Being an expert in Design, madam guided the participants about details of contents in Design IPR with examples.

- Design needs detail drawing with discussion of it in detail. The claim drafting is a skill, and students must learn it through the courses organized by Rajiv Gandhi IPR Institute, Nagpur.

More than 149 students and 20 faculty members are attended the program in online mode using Google meet application.

Thank you,

Dr. Ashish J. Chaudhari

Coordinator

IPR Awareness Program

Ms. Ujjwal Jaipal Singh

**Subject: Invitation as guest speaker for Seminar on IPR Awareness among students -
Regarding**

Respected Madam,

Our Institute, **Vidyavardhini's College of Engineering and Technology (VCET)**, Vasai, Dist: Palghar, Pin: 401 202, Maharashtra, INDIA is a two decade old Engineering Institute relentlessly striving to give the society the best of engineers. Since its inception in 1994, VCET has been a catalyst in spreading technical education and meeting the current and future needs of the industry. We are affiliated to the University of Mumbai and also approved by the All India Council of Technical Education (AICTE), New Delhi. Majority of our departments were accredited by the NBA, New Delhi and recently all departments has been accredited by NAAC for 5 years.

For inculcating innovation and research among students, the awareness about innovation patenting is important. Knowing this, institute has established an IPR-VCET Cell in the institute in year 2018. The activities of this cell are identifying the innovations being carried out in the institute based on background study, process for patenting, organizing events for understanding of the different aspects of Intellectual Property Rights among students and faculty members.

In this regard, we wish to invite you for a session on **IPR Awareness for students** as a guest speaker for providing more insights of IPR among our students and share your experiences in this field. The students and faculty of our own institute will attend this webinar.

So, I request you to grace the occasion with your presence and deliver a session on 7th Jan 2022.

Awaiting your valuable response.

Thanking you,

Yours faithfully,

Dr. Harish V. Vankudre

Report on Energy Conservation Day 2021

Program	Energy Conservation Day 2021
Date	14/12/2021
Mode	Online
Description	<p>Every year, Department of Mechanical Engineering, Vidyavardhini's College of Engineering and Technology (VCET), Vasai (west), organizes "Energy Conservation Week". The event is organised on the occasion of "World Energy Conservation Day" i.e 14th December to highlight the importance of energy consumption and its use in our day-today life.</p> <p>On this occasion, an Expert session on "Application of IOT and ML in Management of Energy Utilities" was scheduled at 10:30am to 11:45 am on 14th December 2021 through Online mode by Dr Hemant Wamburkar.</p>
Organizing Committee	<p>Coordinator: Mr Swapnil R Mane, Assistant Professor, Mechanical Engineering</p> <p>Chief Guest: Dr Hemant Wamburkar, Director, Innovative Digital Energy Applications & Solutions, Pune</p>
Participation Details	63 participants from and across various colleges participated in this online session and certificates were provided for those who actively participated in the workshop
Total Number of Participants	63
Google Meet link	https://meet.google.com/iid-oyyx-ihe
Whatsapp link	https://chat.whatsapp.com/EJHFNybNVDiD8Pvxm6IEh9
Description of Event	<p>Topics Covered</p> <p>Energy optimisation in smart manufacturing</p> <p>Automated Energy Meter Reading: -</p>

	<p>Smart Alerting System for Proactive Response: -</p> <p>Automated Reporting System for Routine Analysis: -</p> <p>Analytical Tools for Diagnostics and Optimization:</p> <p>Visibility for Improved Productivity: -</p> <p>2) Use of IOT (AI and ML) for Energy Data. Going beyond EMS with Plant connect. The guest explained about how Internet of Things and concepts of AI and ML can help data managers acquire useful information with Energy Management system.</p> <p>3)Digital Utilities</p> <p>Using continuous data obtained from IoT and from Big Data provide inputs for optimizing energy, water and asset performance from energy signature of machines and systems at part loads (Continuous re-commissioning)</p> <p>This uses the dynamic modelling of fluid (Liquids/Gases) systems from energy, and derive fluid and thermal energy flows and efficiencies</p> <p>So data of parameters like Energy, Power, Electrical, Temp, Pressure, RH, vibration provide useful insights for altering the operating machines at part loads for maximizing their energy performance.</p>
Feedback	Feedback and constructive comments were given by students and the events was successfully organized with certificates being presented to successful students.

The screenshot shows a Google Meet interface. The main window displays a presentation slide titled "What is IoT/IIoT/Industry 4.0". The slide content includes:

- Industry 4.0** : Today's Era of Connected world through connected devices from mobile/tablet /computers/watches/AR/VR to machines and automobiles through telemetry using mobile technologies & internet
- Gateways/Converters**: A device which aggregates the data from devices like various sensors/PLCs/SCADA/DCS/HMIs/Relays etc electronically using wired or wireless technologies and sends it to the local server or cloud server on which some software is installed to process this data and provide UI , statistics and analytics and offer reports, intelligence, and alerts etc
- Wireless technologies**: GPRS / Bluetooth, Wi-Fi, Lora etc
- Protocol**: Modbus, Profibus, HART etc
- Sensors**: A physical device which senses the data as parameter and displays and or transmits this data
- IoT- Internet of things**
- IIoT-Industrial Internet of Things**
- Cloud Server**: Amazon, Alibaba, Private Clouds
- Local Server** : Local high grade computer (On Premise)

The slide also features a "PlantConnect" logo at the bottom. The Meet interface shows a grid of participants: Hemant Wamburkar, raahut krishna, Dr. Harish Vankudre, Vartak Manal Ajit, shaista khan, viren.180622101 vcet, Apurva Pendbhaje, 6 others, and You. The bottom status bar shows the time as 10:32 AM and the date as 14/12/2021.

Subject: IIC Activity "One Day Workshop on Entrepreneurship Skill, Attitude and Behavior Development"-Regarding

Respected sir,

The Institute Innovation Council of VCET were successfully organized the One Day Workshop on Entrepreneurship Skill, Attitude and Behavior Development on Monday 14th March 2022 in physical mode.

The Expert invited for this workshop was **Mr. Gaurav Mishra, Navayuvak Entrepreneurs, Mumbai**. Total 147 students were registered for the program across all department and 68 students for first and 55 students for second session were participated. The students were enjoyed by actually interacting with the students and propose 29 innovative ideas for possible startups. The detailed report is attached herewith for reference. The expenditure is as follows

Sr No	Activity	Approx. Amount, Rs
1	Remuneration	6000
2	Catering	502
Total		6502

The remuneration will be transferred to the guest on the following bank details

Account Name- Mr.Gaurav Mishra

Account Number-7846167546

IFSc Code- KKBK0000646

Bank Name- Kotak Mahindra Bank

Branch-Dindoshi, Mumbai

The catering expenditure need to transfer to Dr.Ashish Chaudhari Account.

So, I request you to approve the expenditure and guide the concerned.

Thank you sir,

Dr.Ashish J. Chaudhari

Report of "Workshop on Entrepreneurship Skill, Attitude and Behavior Development" 14th March 2022

Objective: To introduce the skill, related behavior and attitude among tomorrow's entrepreneurs.

About the Speaker: The guest speaker for the session was Mr. Gaurav Mishra, Founder-Navayuvak Entrepreneurs// Maker of Mumbai startup Fest.

Brief introduction of chief guest

Mr. Gaurav Mishra started his first venture at the age of 16. Since then he is passionately working towards the development of the startup ecosystem by helping fellow entrepreneurs and creating an impact by his talks. He has been Awarded the Karmaveer Chakra, Instituted by UN and iCongo for his Tremendous Passion and Work towards Entrepreneurship from the start of his Entrepreneurial Journey, 8 years back. He has already successfully inspired 3000 students to initiate their own startup. He also been awarded Entrepreneur of year 2020 by Indian Achievers Club. Also Under His Leadership Navayuvak is Now Top 10 B-School for Entrepreneurs by CEO Insight Magazine. He is also Investor startups and made exit of 10x in Two years. He is also appointed as business coach by Government of Delhi

Brief aspects of the event highlights:

The day begins with the welcome and brief introduction of the chief guest by Prof. Vinay Patel, IPR CELL coordinator. The first session of the one day workshop on Entrepreneurship skill, Attitude and Behavior Development is on Lean Canvas of Business Model. Mr Mishra begins with the formation of team of five students to choose by captain of each group. Those teams will gathered together and occupy chairs. Mr. Mishra discussed the basics of entrepreneurship where two close friends never form alliance to start an enterprise. The Teams are further introduced themselves and explained about their discipline and keen interest in short. Mr. Gaurav Gave the first Task of Lean Canvas isto formulate the problem.

Ashish
Dr. Ashish Chaudhary

The first step of lean Canvas was the Problem Ideation. So, Mr. Gaurav asked all teams to frame ideas which are novel and could be possible start up. He gave examples of UBER,OLA, JIO and Airtel, Amazon and Flipkart. This activity last in 20 mins.

The second session is on Brain Canvas wherein the customer of interest and publicity are the moajor concerned as per Mr. Gaurav. The expert gave 10 mins to all teams to brainstorming upon the customer targered and the mode of publicity of their start up. The teams turnwout wth innovative ideas and presented with indepth solution for those headings.

Mr. Gaurav also gave them different customer groups and the publicity to those groups especially. Mr Gaurav emphasis upon the customer identification is primary importance .Startups failed for not identifying targeted customers.Start up idea sharing should be simple and I one sentence.

Different methods of idea promotion are social media marketing and offline marketing such as webinars, programs, workshops etc.Mr. Gaurav shown a case study of Mrs. Chetana Gala Sinha wherein a story of kantabai who wish to open a bank account for saving her daily wages eared by smith work. But banks refuses here to open the account. So it begin a revolution and taken up by Chetana Gala Sinha and her NGO. With lots of hurdle they successfully opend the micro bank for poor womens in country.

Important mantras while starting the business

- Uniqueness is very important
- Revenue model for more than one is important for example- Amazon is not only having ecommerce, they have amazon pay, amazon prime Amazon cloiud etc.
- Marketing and advertising the product
- Key partners are educator, subject teacher, students, suppliers and content creators.

The full day session was packed with activities and brainstorming by the student groups and their team members. The event was enjoyed by students and completed at 4.45 pm.

Few take away points of this one day program are

- To be a successful entrepreneur, the beginning is by novel idea
- To select partners who actually contribute in the business

Melech
A. Ashish
Chauhan

- Identify the targeted customer group for the idea
- Publicity and advertisement
- More sources of revenue generation.

Thank you

Dr. Ashish Chaudhari

Expert Talk by Successful Innovator-Regarding

ashish chaudhari <ashish.chaudhari@vcet.edu.in>

Sun, Mar 6, 2022 at 9:33 PM

To: "Dr. Harish Vankudre" <principal@vcet.edu.in>, Vishal Save <registrar@vcet.edu.in>

Cc: viren chandanshive <viren.chandanshive@vcet.edu.in>

Respected sir,

The Innovation Cell of Institute Innovation Council would like to organize an Expert Talk on My Story-Motivational Session by a Successful Innovator. The guest speaker is Mr.Sagar Chopade,Jai Malhar Automobile and Engineering. The event will be in physical mode and scheduled on 7th March 2022 at 11.30 am. The students of all departments(20 nos each) will participate in the program. So, I request you to allow us to do this program and Approve a remuneration of Rs.1500/- for the guest speaker.

The banner is attached herewith for your reference.

Thank you sir,

Regards,

Dr. Ashish Chaudhari

Report on

“My story - Motivational Session by Successful Innovators”

7th March 2022

Objective: To develop awareness regarding to the innovation and provide a motivation to students by communicating journey of successful innovator.

About the Speaker: The guest speaker for the session was Mr. Sagar Hariba Chopade, who is a mechanical engineer and founder of Jay Malhar Automobile and Engineering. He innovates a small scaled JCB equipment by using scrap spares like engine of TATA 407 and gear box and parts like hydraulic pump. Mr. Sagar Hariba Chopade is successfully manufactured the material lifting bucket from scrap plates welded together. The machine manufactured is having capacity upto 1 tons and useful for application of sewage cleaning, debris removal at Municipal corporation works. Being an successful innovator became an entrepreneur for further manufacturing of small machines, body building of heavy duty vehicles, agriculture applications, automobile services. In the age of 28 years he proved himself to be a successful innovator who could be even successful entrepreneur as well.

Brief aspects of the event highlights:

A session was organized under the aegis of Institution's Innovation Council (IIC), VCET, Vasai. Mr. Sagar Hariba Chopade presented a seminar on the topic “My Story Motivational Session by Successful Innovators”. He started the session by introducing his mechanical workshop, Jay Malhar automobile and engineering. He spoke on a variety of important subjects, including generating the ideas and application, the significance of the correct technique and execution procedure, overcoming difficulties, and setting desired objectives, among others. He also communicated his entire journey, including how he first thought of implementing innovative ideas for the development of small scaled JCB equipment utilizing available scrap materials and creating a new adjustable spare. He overviewed his all good and bad times he encountered since commencing the project. He also discussed marketing methods, including how he built his client base and chose his target demographic, as well as financial factors, along with how he handled funds and settled on a pricing for his product

while making it affordable. He encased off the discussion by describing how he plans to grow his business. He underline a sentence if you are ready to do hardwork then sky is the limit.

Students of the various disciplines like mechanical, civil, and computer engineering had taken part in the session with interest. All of the students and participants found the seminar to be highly encouraging and motivational. The students are eager to know how the testing of the manufactured components could be carried out, how to optimize the weight of the body of heavy duty truck , how the management of your organization takes place, strategies adopted for attracting the customers etc. Mr. Sagar interacted with students and satisfied to all the questions by sharing examples experienced by himself. The session ended with the vote of thanks delivered by Dr. Ashish Chaudhari, President, IIC- Vidyavardhini's College of Engineering and Technology (VCET), Vasai.

Learning Outcomes:

The following were some of the major highlights of the seminar's:

- A thorough understanding of generating ideas and startup.
- Understanding how to manage numerous elements such as advertising, marketing, and finance required for the successful entrepreneur
- How to deal with challenges that arise in the workplace.

Seminar on
"MY STORY MOTIVATIONAL SESSION BY SUCCESSFUL INNOVATORS"

Date - 07th March, 2022
Time - 11:30 am to 01:00 pm

Mr. Sagar Hariba Chopade
Mechanical Engineer,
Jai Malhar
Automobile and Engineering.

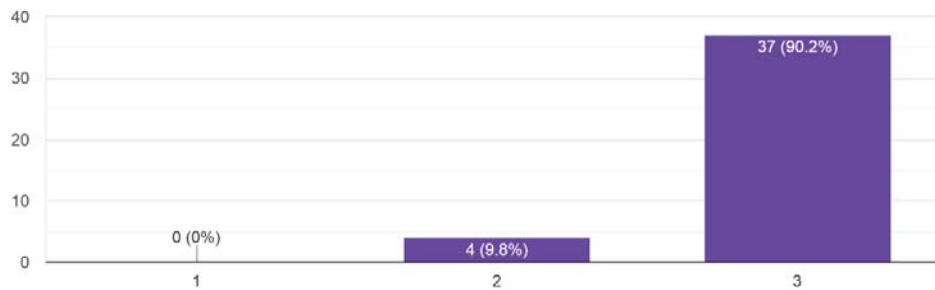

Feedback:

Summary of Overall Feedback Responses

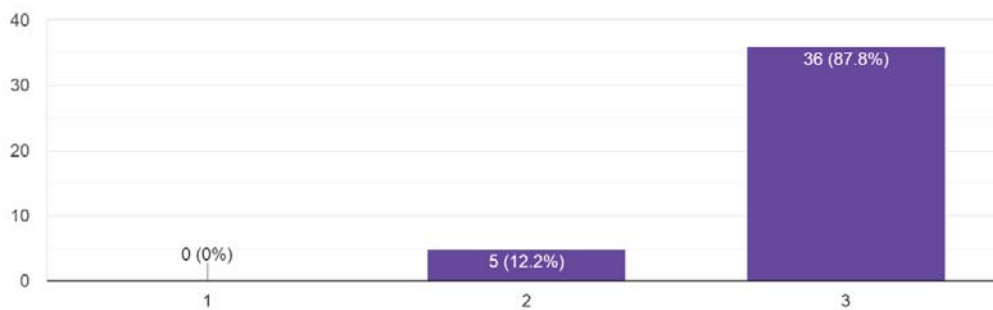

How was the overall organization of lecture

41 responses

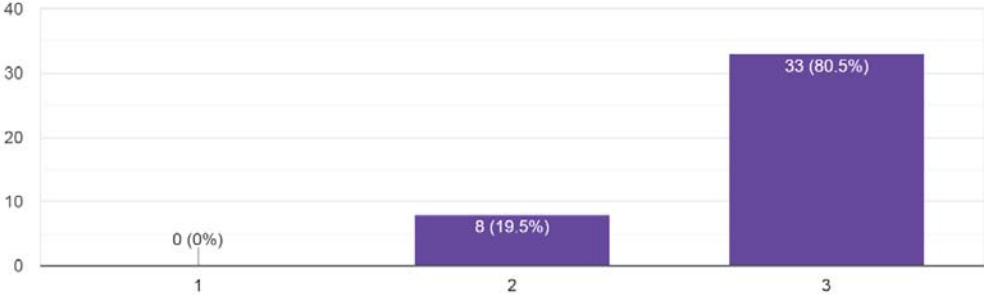

How relevant was the content discussed by the speaker

41 responses

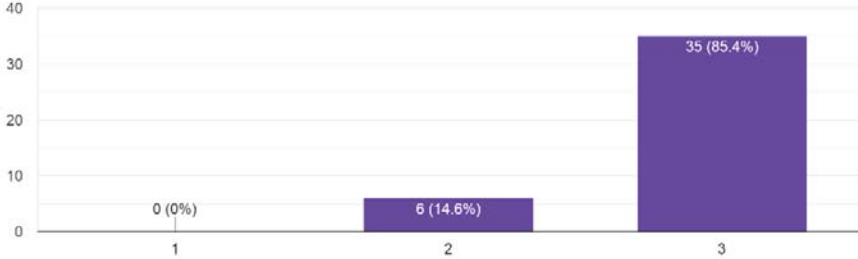

How much interesting was the session for you

41 responses

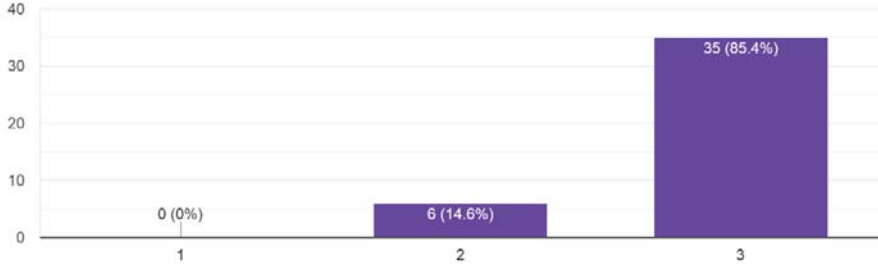

How much this session was useful from the knowledge and information point of view

41 responses

Overall effectiveness of the session

41 responses

Additional Comments and Suggestions

41 responses

Very good session

Excellent

It was very motivational and usefull for our future.

It was very motivational and useful for our future point of view

Motivational lecture for computer engineers

Excellent story from the speaker, about how a startup can be made successful by hardwork and dedication.

Amazing Session

Good experience

It was a good experience.

Glimpse of Seminar:

Expert talk on My Story-Motivational Session by Successful Innovator by Mr.Sagar Chopade

Mr.Sagar Chopade delivering the talk on success story of innovator

Participants and teachers during the expert talk of Mr.Sagar chopade

Sharing the innovation of Digger from scratch for small scale digging by Mr.Sagar Chopade

Success Story by Mr.Chopade

Felicitation of Mr.Sagar Chopde by Mr. Viren Chandanshive

Subject: IIC Activity "Pitching Event for PoCs developed & linkage with Innovation Ambassadors for Mentorship support"-Regarding

Respected sir,

The Institute Innovation Council of VCET were organized the One Day Workshop on "Pitching Event for PoCs (Proof of Concept) developed & linkage with Innovation Ambassadors for Mentorship support" on Tuesday, 22nd March 2022 in physical mode from 9.30 am to 12.30 noon.

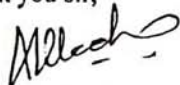

The Experts invited for this workshop are Mr. Narul Haque, Synergy Water Park Rides Pvt Ltd. And Mr. Dharmendra Rajbhar, Ekta Crane Engineers Works, Vasai and Mr. Mahesh Bhanushali Innovation Ambassador and Professor, Vidya Prasark Mandals Dr. V.N. Bedekar Institute of Management Studies, Thane. The expenditure for the event is as follows

Sr No	Activity	Amount, Rs
1	Remuneration to Mr. Noorul Haque	1500
2	Remuneration to Mr. Dharmendra Rajbhar	1500
3	Remuneration to Mr. Mahesh Bhanushali	1500
4	Memento(3 nos)	810
5	First Prize winner Ms. Abhigya Hazara and Team	800
6	Second Prize Winner Ms. Manisha Khushwaha and Team	600
7	Third Prize Winner shared equally between Mr. Rohit Patil team with Mr. Varad Takke Team	400
8	Refreshment	360
Total Expenditure, Rs.		7470

There were 71 students and 5 faculty members attended the event. The student teams were demonstrated in depth of the problem and judges also had a very good interaction with the participants. The detailed report is attached herewith for your reference.

So, I request you to approve the expenditure and guide the concerned for issue of pay order for remuneration and prizes. Remaining (memento and refreshment) amount to be transferred to Dr. Ashish Chaudhari.

Thank you sir,

Dr. Ashish J. Chaudhari
President, IIC

Report of "Pitching Event for PoCs developed & linkage with Innovation Ambassadors for Mentorship support" 22nd March 2022

Objective: To inculcate the skills required for beginning a successful start up.

About the Speaker: The guest speaker for the session

1. Mr. Noorul Haque
Director, Synergy Water Park Rides Pvt Ltd. Vasai
2. Mr. Dharmendra Rajbhar
Director, Ekta Crane Engineers Works, Vasai
3. Mr. Mahesh Bhanushali
Innovation Ambassador and Professor, Vidya Prasark Mandals Dr. V.N. Bedekar Institute of Management Studies, Thane

Brief introduction of chief guest

Mr. Noorul Completed his BE from NIT Jamshedpur in 1995. He Started career as site engineer and then held many positions where he was looking after Civil and Mechanical production and design. He Became Vice President - Operations and Design. He Started his own business in 2013.. and so far travelled across 27 Countries. In span of 8 years, Synergy has executed projects in more than 40 Countries including USA, Germany, France, Sweden, Australia, Spain. Their industry have more than 150 human resource. They have dealers across the world.

Mr. Mahesh Bhanushali. BE Mechanical Engineer), MMS (Mumbai) and Research Scholar (Mumbai University). He is an Assistant Professor at VPMS Dr V.N. Bedekar Institute of

Ashish
Dr. Ashish Chaudhari

Management Studies, Thane. He is pursuing Ph.D from Mumbai University. He is having total 10 years of experience. He is recipient of 24th Dewang Mehta National Award in Operations during 2016 and Young Researcher of India Award by Education Expo, New Delhi, 2021. He has delivered management development program consultancies in various industries like FMCG, Engineering, Oil and Gas Banking, Manufacturing, E-commerce and Indian Post. His major area of research includes Technology Management, Operations, Public Procurement, Sales and Projects. He has published 2 patents in area of IoT system and applications.

Mr. Dharmenda Rajbhar is a first generation entrepreneur who with little education started his own industry Ekta Crane Engineering Works. He handled more than 100 employees and supplier of crane throughout the country. His annual turnover is more than 5 Crore. Mr. Dharmendra is not only manufacturers the crane as per customer requirement, sells the spare of EOT crane as well as other material handling equipment.

Brief aspects of the event highlights:

The day begins with the welcoming all chief guest by Prof. Viren Chandanshive Patel, Innovation Cell CELL coordinator. Prof. Vinay Patel briefly introduced each expert judge with the participant and requested to judges for beginning of the session. Accordingly Mr. Noorul Haque announce that session begin now. There were 71 student participants were take part in the pitching event. There were 5 teams presented their proof of concept. First team talk about the metrocity parking on lease applications. This team presents the concept of lease on parking space from different society in busy area of city and allot them through the app. The idea is innovative and judges also appreciated them for such idea. Few questions raised are 1. Security of vehicle has to be confirmed. 2. Security check of person and vehicle is major concerned? 3. Municipal parking may give wide scope as society parking are limited. 4. Handling of flexible parking time schedule. The team of Rohit Patil addressed all doubts confidently to the judges, faculty members and student participants as well.

The second team of Ms. Aragiya Hazara demonstrated about the ODD-JOB App. The team member highlights upon the small jobs in day to day life such as plumbing, carpentry, electrician, painting etc. could be easily accessible by using the app. They explained about the customer group, revenue generation plan, and competitive advantage clearly. Judges were appreciated their idea and motivated the team to do more research and develop it as startup. Few questions were raised

Ashish
Dr. Ashish Chaudhari

to this team as 1. Person advertisement is a must for job. 2. Sustainability of the business over the next 5 to 10 years down the line. 3. Title of start up should be meaningful 4. Infringement of app should be ensured.

The third team of Ms. Manisha Khushwaha bring the hardware based project idea. They elaborated about the design and development of hybrid solar electric car or weight upto 200 kg. Prototype model was developed by them and demonstrated during the presentation. The team is found confident enough and delivered a very good presentation with further plan of developing the autonomous solar electric car. The team of judges was also happy for such novel hardware project development. However, judges demand for technical specification wherein they fail to present it. Questions raised by team of judges are 1. In one charging, how much km will car run? 2. Technology of autonomous driving is not necessary in country like India than to develop 100% solar driven car. 3. The crucial part of the electric car is the battery system and life of battery. It is costly and not repairable, so how to recover the cost of battery after damaged?

Sr No	Name of Team	Title of Project	Winning Rank
1	Ms. Abhigya Hazara	Odd-Job Apps	1
	Jagdish Mehra		
	Sagar Samel		
	Dev Popat		
2	Ms. Manisha Khushwaha and Solection team	Hybrid Solar Electric car	2
3	Mr. Rohit Patil	Metrocity Parking App	3
	Manali sankhe		
	Harsh dhuru		
	Rahul Patil		
4	Mr. Varad Takke	Refrigeration and Air conditioning Diagnosis and prognosis App	3
	Chintan Patel		
	Devang Raut		

Allo
Dr. Ashish Chaudhari

The fourth team lead by Mr. Varad Takke who introduced about refrigeration and air conditioning system diagnosis and prognosis app. The team explained the detailed proof of their concept for the app. The customer group is the middle class family who afford for refrigerator and air conditioner. According to them, it is easy to find the serviceman, with no need of negotiation and quality of work . The judge team was happy with the idea floated by the student team. Fruitful discussion happened with the judges and the team where in few questions were raised like 1. Electronic equipment warranty period?2. Its really a good app wherein at least one could able to identify easily about the air-conditioning equipment available in particular area.

The fifth team lead by Abhigya Hazara related to MSME need of RF tools. Aragya develop app where in 3D Cad drawing could be drawn which will help for manufacturing of it. Judges appreciated it and raise few questions as 1. Many such apps are available, then what is USP of this project?

The above project ideas were evaluated by the team of judges. Above it few project teams also shared their ideas other than these five . Students participants found energetic and interacted actively with the teams and judges. Faculty members also present from all departments who also raised questions, gave suggestions for the betterment of the project.

The event continued for more than 2 hours at stretch. At last judges did their evaluation and announces the three winners of the competition. The list of winners is as attached above.

The vote of thanks was delivered by Dr. Ashish Chaudhari . All Judges was felicitated with a token of love and appreciation with a memento and remuneration.

The take away point of the pitching event are

1. Students have the caliber to develop innovative idea and work upon its proof of concept.
2. Student team delivered presentation infront of 75 peoples, which develop their stage speaking and reduce fear of it .
3. Few teams really found potential to progress further which are identified and sources will be identified to strengthen those proposals.

Thank you

Title - Bizmaster 2021

REPORT

This was the fifth year of Bizmaster organized by the E-CELL 2020-21 committee. The Bizmaster 21 saw maximum participation from the students. The committee members worked hard to organize and flourish the event well. This year few participants got an opportunity for funding.

This time the judges were from the business background and investor. The Total prize money distributed to students were worth of Rs. 40,000/-

The Judges were:-

1. Rushi Shenghani (Founder of Earth Energy EV)
2. Gaurav Mishra (Founder of Navyuvak Enterprises)
3. Srijit Mondal (Founder of Pi-Paradox and Booklusic)

Chandan Kelvanekar

Webinar on Electric Vehicle – The Journey of Transformation

Speaker:

Mr. Rushi Shenghani

This Webinar was to discuss about the Electric Vehicles and its Startup.

Seminar Title	Electric Vehicle – The Journey of Transformation
Description:	<p>Mr. Rushi Shenghani gave a detailed introduction about his startup background. He explained various fundamentals that are important to consider while starting a startup. He gave a glimpse about the financial sector and its working. He also shared a piece of exceptional information about solar as well as electric vehicles and their construction. The webinar was an interactive one with lots of Q&A sessions from the audience. Mr. Rushi Shenghani delivered the answers in a transparent format. He emphasized the scope for the upcoming future in Electric Vehicles. Last, but not least he concluded the webinar by sharing some information about his upcoming projects.</p>
Objective of this Seminar	<ol style="list-style-type: none">1. The Webinar stimulated the students to start their startup.2. It helped them as a guide to out sketch their future by avoiding some of the great mistakes.3. Students also got familiarized with the concept of electric vehicles and their construction.

IDEATION

WORKSHOP on "CONVERT YOUR IDEA INTO BUSINESS"

Speaker: **Mr. Arjun Panchal**

Webinar Title	CONVERT YOUR IDEA INTO BUSINESS
Description:	<p>A very interactive and resourceful session was taken by Mr. Arjun Panchal. He started the session by giving small examples needed to create an idea. He gave very logical statistics on how the ideation concept works in the market. He explained the requirements for a startup and also shared business models and how to boil down an idea using 5 elements(steps). The workshop was overwhelming and participates were very interested and thought the session to be a very impactful one. He generalized topics and had participates hyped. Altogether the session was a great success and very informative.</p>
Objective of this Webinar	<ol style="list-style-type: none">1. It provided the participants with idea generation and ideation techniques.2. Participants got to learn various steps to start a business.3. Participants got to know how to follow their passion and to make an idea into a massive business.

Report on Seminar

Research Paper Writing and Referencing Tools: An Overview

Date: 27th August, 2021

Time: 2:00 pm

Speaker: Dr. Shafi Pathan, Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Types of Research Papers
2. Components of Review paper
3. Components of Implementations paper
4. Review, Proposed System and Implemented Research paper examples
5. Presenting and Publishing guidelines
6. Downloading, installing and configuring Mendeley tool
7. Highlighting and Referencing using the Mendeley tool

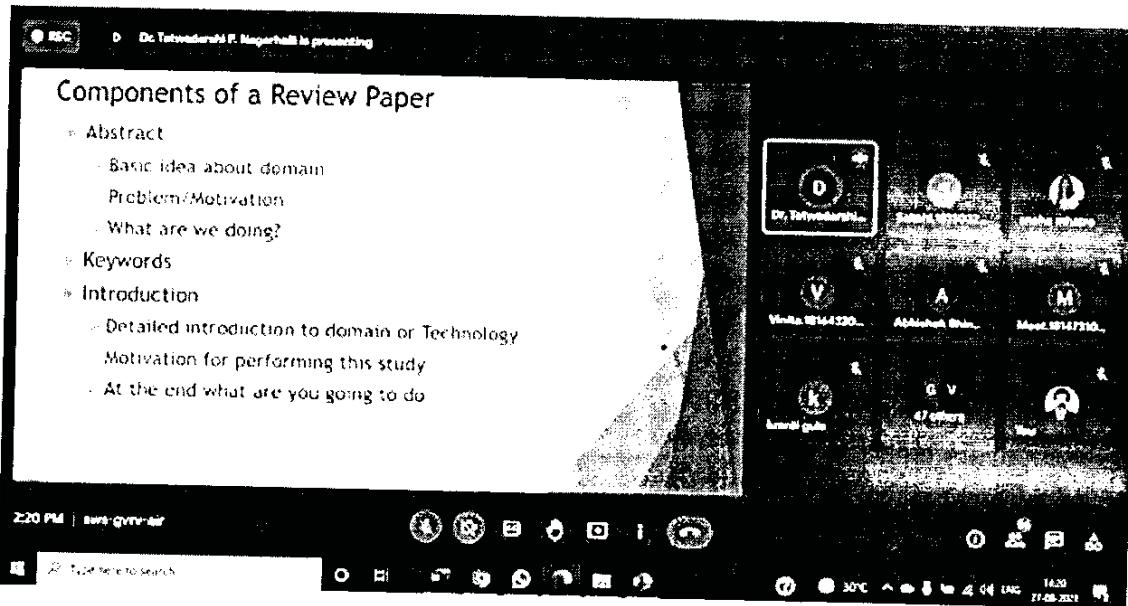

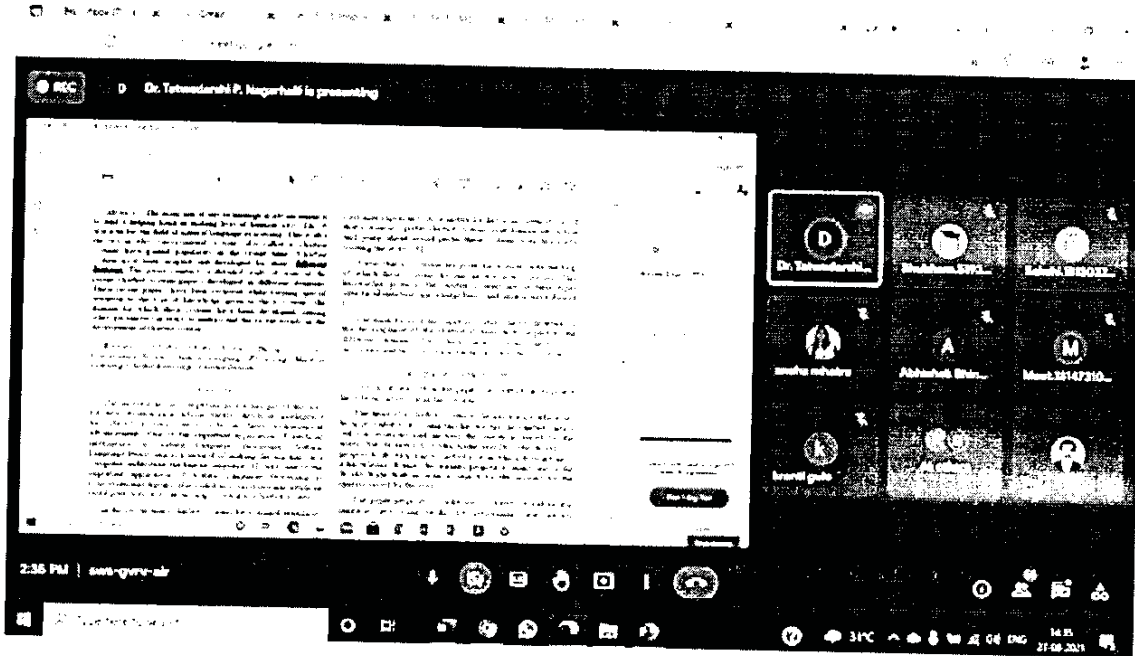

The seminar was attend by 60 students and all the faculty member of the department.

Prepared by

Dr. Tatwadarshi P. N.

Report on Seminar

Literature Review

Date: 31st May, 2022

Time: 3 PM

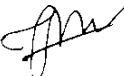

Speaker: Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Department of Computer Engineering, VCET

Key points shared with students among others include:

1. Types of Projects
2. Types of Research Papers
3. Conducting Review of Literature
4. Documenting your Review findings
5. Sources of Research Paper

The seminar was attend by 54 students and the faculty members of the department.

Prepared by 

Dr. Tatwadarshi P. N.

This screenshot shows the IEEE Xplore search results interface. On the left, there are search filters for 'Year' and 'Range'. The main area displays search results with titles such as 'Filter-based Collaborative Embedding System for High-Speed Ultrasound Imaging' and 'IEEE Symposium on Medical Imaging, Image Processing and Biomedical Optics'. On the right, there are two promotional banners: 'Need Full-Text access to IEEE Xplore for your organization?' and 'IEEE GLOBAL COMMUNICATIONS CONFERENCE 7-11 December 2021 Madrid, Spain'.

D

Dr. Tarawadarsa P. Nagarhalli

This screenshot shows the IEEE Xplore homepage. At the top, there is a navigation menu with links for 'IEEE.org', 'IEEE SA', 'IEEE Spectrum', and 'More Sites'. Below the navigation is a search bar with the text 'Advancing Technology for Humanity' and a search count of 'SEARCH 5,447,002 ITEMS'. A banner at the bottom of the page reads 'Free to Access Now: COVID-19 Related Research in IEEE Xplore'.

Report on Seminar

Undertaking Literature Review

Date: 16th June, 2021

Time: 11:00 am

Speaker: Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Types of Projects
2. Types of Research Papers
3. Conducting Review of Literature
4. Documenting your Review findings
5. Sources of Research Paper

The seminar was attend by 60 students and all the faculty member of the department.

Prepared by

Dr. Tatwadarshi P. N.

Undertaking Literature Review

By:
Dr. Tatwadarshi P. Nagarhalli
Prof. Sneha Mhatre

D

Dr. Tatwadarshi P. Nagarhalli

Defining a research problem

- Identify the area or domain of study.
- Search for the papers.
- Study the abstracts.
- Study the papers.
- Identify the specific area of study.
- Identify the problem.
- Undertake Literature Review with respect to the identified problem.
- Example: IEEE Xplore Search

Date: 3rd March 2021

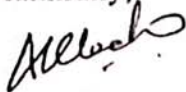

Subject: Webinar on Intellectual Property Rights-Regarding

Respected sir,

We under IPR-VCET cell wish to organize Webinar series on Intellectual Property Rights in our institute in online mode. There are two guest speakers are available for the expert sessions on 5th March and 6th March 2021. The detailed brochure is attached herewith. So I request you to allow us to organize the webinar in the above duration. I further request you to approve the budget of Rs.9000/- towards expenditure on remuneration and printing.

Thank you sir,

Yours faithfully,

Dr, Ashish J. Chaudhari

Coordinator, IPR VCET Cell

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY IPR VCET CELL

PROFILE

Our Institute, Vidyavardhini's College of Engineering and Technology (VCET), Vasal, Dist.: Palghar, Pin: 401 202, Maharashtra, INDIA is a two decade old Engineering Institute relentlessly striving to give the society the best of engineers. Since its inception in 1994, VCET has been a catalyst in spreading technical education and meeting the current and future needs of the industry. We are affiliated to the University of Mumbai and approved by the All India Council of Technical Education (AICTE), New Delhi. Majority of our Departments have been accredited by the NBA, New Delhi and recently all departments has been accredited by NAAC for 5 years.

IPR VCET-CELL

Report of

International Webinar Series on “IPR for Invention and Innovation”

5th March 2021- 6th March 2021

The Intellectual Property Rights IPR-VCET cell organizes the International webinar series on “IPR-IPR for Invention and Innovation” from 5th -6th March 2021 for all students and faculty of the institute. The chief guest of the webinars are

1. Dr. Joshua Harrison, Barcelo, Harrison and Walker LLP
2. Mr. Parvez Kudroli, Senior Associate, Khurana and Khurana Advocates ,Mumbai.

During the inaugural function Honorable Dr. Vankudre Principal, VCET,

Key points in Principal Sir speech

- Information of establishment of Institute
- Disciplines of engineering within institute
- Faculty having Ph.D degree are 12
- Strong Research team within institute continues activities such as
- Referred journal paper publication (12-13) every year on average.
- Research and Innovative Project Showcase (VNPS)
- Research Paper Conference (VNC)
- IPR and patenting cell established in the institute.
- Industry collaboration on live research or product-based projects
- MOUs with those industries for cooperation and understanding.
- Well-developed centre of excellence from established industries such as Siemens, Texas Instruments, AVEVA offering training to young graduates and researchers.
- Active involvement in research project competitions, conventions such as TECH-FEST, IIT Bombay or AVISHKAR and ANVESHAN, Smart India Hackathon etc nationally and internationally organized.
- Faculty and students are facilitated with project-based learning by way of institute clubs such as ETHAN Car Racing, Solection Solar Car and support them financially to develop solution out of box.
- Institute has professional societies such as IEEE, SAE, ISHRAE, CSA, ISTE, ISME and their student chapters organizes various events under the local chapter.

Dr. Vikas Gupta, Dean Academics

Key points of Dean Academics

1. Importance of IPR from view point of curriculum

2. Introduction of Institute level elective IPR and patent writing
3. Motivate students to come forward for protecting their work

The salient points of seminar1 include

1. Dr. Joshua started with the types of intellectual properties
2. Elaborate about the protection methods
3. With examples and details slides discusses about the IPR and its importance in America
4. IPR policy in USA and their types
5. Patent drafting procedures in USA and detailed elaborate about the prior art search techniques and provided few online support to do the prior art search by own.
6. Also suggested some guidelines for writing the claim but stressed upon outsourcing it to the expert attorney in the filed of research.
7. The claim writing is an art and even similar research may discriminate in therms of claim written that are innovative and substantially different than the previous research patented.
8. Sir explained the claim infringement and laws in USA regarding those.
9. Dr. Joshua had more that 10 patents on his name and he is dedicated researcher in field of Mechanical Engineering
10. More that 160 participants were listened to each word of Dr. Joshua. Students and faculty from outside institutes were also participated in the webinar and actively interacted with Dr. Joshua Harrison.

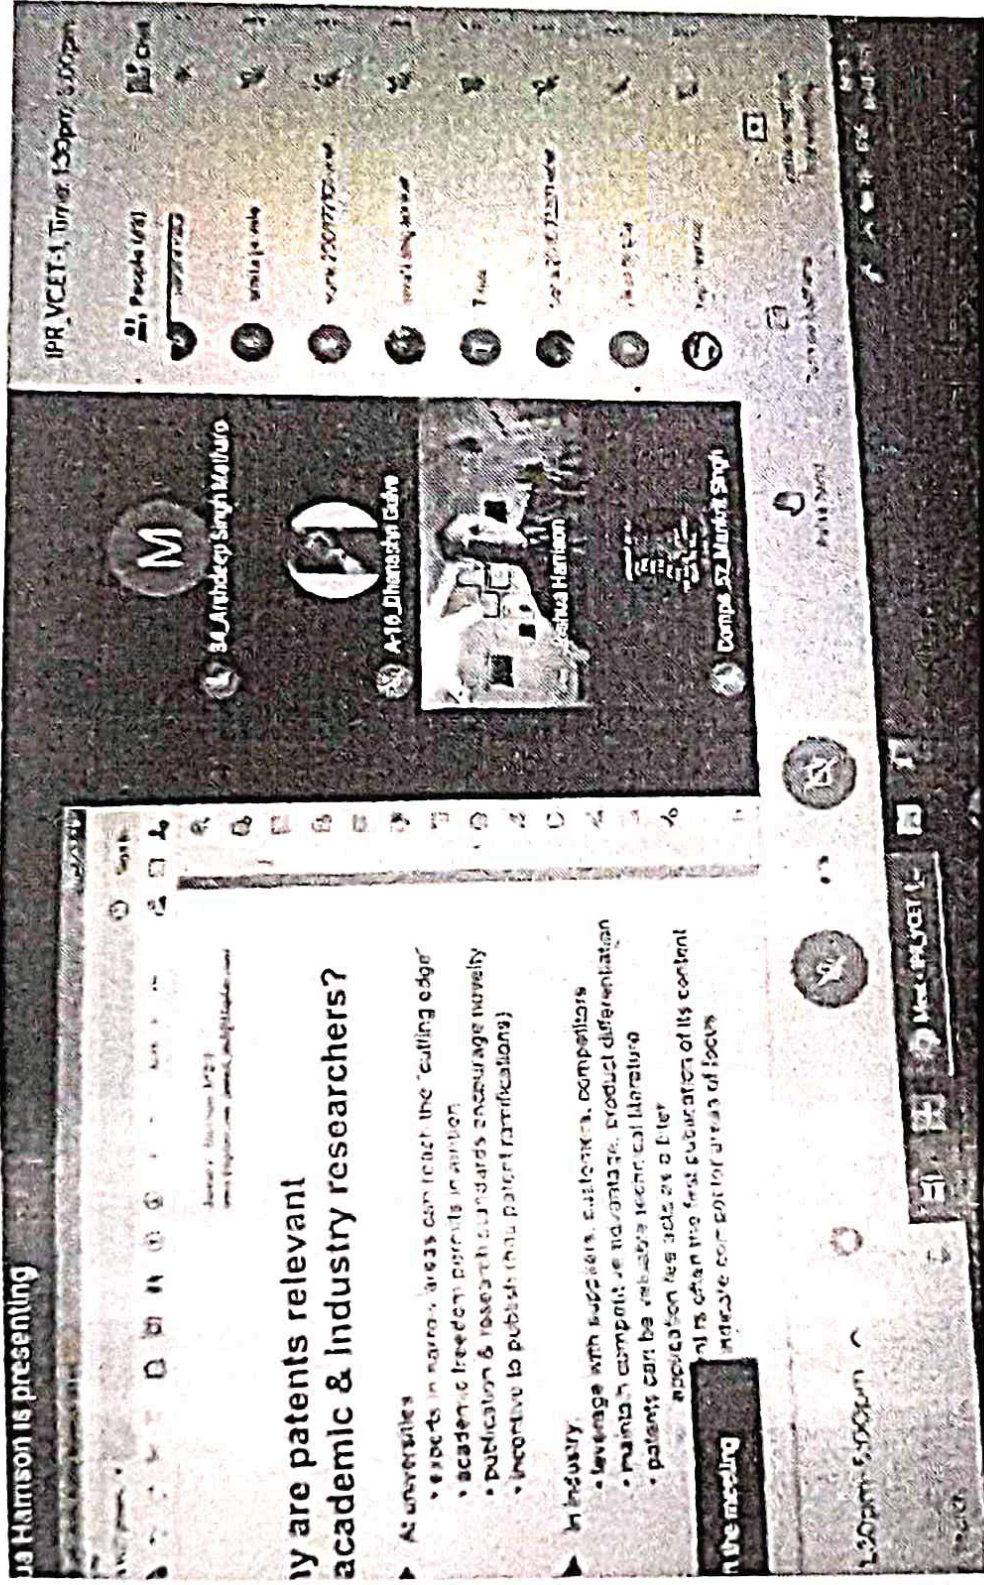

The salient points of seminar2 include

- Mr. Kudroli was associated with IPR-VCET cell since two years
- He continuously provide his guidance and suggestions on the area of intellectual properties and their protection.
- This time as per our request, Mr. Kudroli depicts the important topics of writing patent draft, corelation of innovation and invention with the IPR.
- Hi guides us about the methods of developing vocabulary.
- Mr. kudroli emphasis about the non disclosure agreement must be written prior to share the own invention or innovation with somebody outside.
- The primary application may be submitted with introduction of the invention. So that if it is published then no harm for the idea developer.
- Also Mr. Kudroli elaborate about the claim writing and how to search for the specific invention.
- He suggest to identify the most suitable attorney to draft the patent document of an innovation. It is his skillset by which claim written are very well defined.

After two days of long continuous webinar series, Prof. Bharati Gondalekar perform the valedictory function . As the international webinar was in online mode, the students and faculty from within and outside were participated with huge numbers. The feedback form was circulated among student and faculty members. The questionnaire selected such that the participants gave feedback on their contribution in area of invention and innovation wherein any assistance or innovation needs to be protected. The overwhelming response of student and faculty really encourage the IPR VCET cell committee to work more and provide all inputs to students to protect their rights on behalf VCET.

40_Seminar on IPR for Invention and Innovation by Mr. Parvez Kudroli, Khurana and Khurana Advocates Pvt. Ltd, Mumbai

Vidyavardhini's College of Engineering and Technology

K.T.Marg, Vasai Road [(west); Dist-Palghar;Pin-401202

Academic Year	2020-21		
TITLE	Seminar on IPR for Invention and Innovation by Mr. Parvez Kudroli, Khurana and Khurana Advocates Pvt. Ltd, Mumbai		
Organizing Committee	Institute innovation Council		
Date:	05/03/2021	Time	10 am
Venue of the Event	Online Mode		
No of participating Students	107		
No of participating faculty	20		

Dr. Ashish Chaudhary
Faculty In-charge

HOD,
HEAD
Dept. of Mechanical Engg.
Vidyavardhini's College of
Engineering & Technology
Vasai Road-401202.

To,
The Principal
VCET Vasai

Date: 30th March 2021

Subject IPR International Webinar Series -Regarding

Respected sir,

We under IPR VCET cell were successfully organized the Two Days Online International Webinar Series on **IPR for Invention and Innovation**. Two eminent guest were delivered their talk to students and faculty of our own as well as outside institutes. Around 200 participants were present during the sessions on both days. The summary report is attached herewith along with the expenditure details with this application.

The details of remuneration are

Sr No	Entity	Cost	Total cost
1	Remuneration to Mr. Parvez Kudroli Account Details Account Name: Khurana and Khurana Advocates and IP Attorneys Bank: HDFC Bank Account Number: 50200007228234 Branch: GNS Plaza, Site-IV, Greater Noida IFSC Code: HDFC0003709 Type of Account: Current	3000	3000

Total Expenditure for Webinar are

Sr No	Entity	Cost	Total cost
1	Remuneration to Mr. Parvez Kudroli	3000	3000
2	Banner (76 inch*34 inch)	320	320
3	Vega seal for standy	40	40
Total Expenditure			3340
Advance drawn			00
Total amount payable			3340

So, I request you to approve the above for payment of remuneration to guest account and remaining to Dr. Ashish Chaudhari account.

Thank you Sir,

Dr. Ashish Chaudhari

Subject: Webinar on Intellectual Property Rights-Regarding

Respected sir,

We under IPR-VCET cell wish to organize Webinar series on Intellectual Property Rights in our institute in online mode. There are two guest speakers are available for the expert sessions on 5th March and 6th March 2021. The detailed brochure is attached herewith. So I request you to allow us to organize the webinar in the above duration. I further request you to approve the budget of Rs.9000/- towards expenditure on remuneration and printing.

Thank you sir,

Yours faithfully,

Dr, Ashish J. Chaudhari

Coordinator, IPR VCET Cell

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY IPR VCET CELL

PROFILE

Our Institute, Vidyavardhini's College of Engineering and Technology (VCET), Vasal, Dist.: Palghar, Pin: 401 202, Maharashtra, INDIA is a two decade old Engineering Institute relentlessly striving to give the society the best of engineers. Since its inception in 1994, VCET has been a catalyst in spreading technical education and meeting the current and future needs of the industry. We are affiliated to the University of Mumbai and approved by the All India Council of Technical Education (AICTE), New Delhi. Majority of our Departments have been accredited by the NBA, New Delhi and recently all departments has been accredited by NAAC for 5 years.

IPR VCET-CELL

Report of

International Webinar Series on “IPR for Invention and Innovation”

5th March 2021- 6th March 2021

The Intellectual Property Rights IPR-VCET cell organizes the International webinar series on “IPR-IPR for Invention and Innovation” from 5th -6th March 2021 for all students and faculty of the institute. The chief guest of the webinars are

1. Dr. Joshua Harrison, Barcelo, Harrison and Walker LLP
2. Mr. Parvez Kudroli, Senior Associate, Khurana and Khurana Advocates ,Mumbai.

During the inaugural function Honorable Dr. Vankudre Principal, VCET,

Key points in Principal Sir speech

- Information of establishment of Institute
- Disciplines of engineering within institute
- Faculty having Ph.D degree are 12
- Strong Research team within institute continues activities such as
- Referred journal paper publication (12-13) every year on average.
- Research and Innovative Project Showcase (VNPS)
- Research Paper Conference (VNC)
- IPR and patenting cell established in the institute.
- Industry collaboration on live research or product-based projects
- MOUs with those industries for cooperation and understanding.
- Well-developed centre of excellence from established industries such as Siemens, Texas Instruments, AVEVA offering training to young graduates and researchers.
- Active involvement in research project competitions, conventions such as TECH-FEST, IIT Bombay or AVISHKAR and ANVESHAN, Smart India Hackathon etc nationally and internationally organized.
- Faculty and students are facilitated with project-based learning by way of institute clubs such as ETHAN Car Racing, Solection Solar Car and support them financially to develop solution out of box.
- Institute has professional societies such as IEEE, SAE, ISHRAE, CSA, ISTE, ISME and their student chapters organizes various events under the local chapter.

Dr. Vikas Gupta, Dean Academics

Key points of Dean Academics

1. Importance of IPR from view point of curriculum

2. Introduction of Institute level elective IPR and patent writing
3. Motivate students to come forward for protecting their work

The salient points of seminar1 include

1. Dr. Joshua started with the types of intellectual properties
2. Elaborate about the protection methods
3. With examples and details slides discusses about the IPR and its importance in America
4. IPR policy in USA and their types
5. Patent drafting procedures in USA and detailed elaborate about the prior art search techniques and provided few online support to do the prior art search by own.
6. Also suggested some guidelines for writing the claim but stressed upon outsourcing it to the expert attorney in the filed of research.
7. The claim writing is an art and even similar research may discriminate in therms of claim written that are innovative and substantially different than the previous research patented.
8. Sir explained the claim infringement and laws in USA regarding those.
9. Dr. Joshua had more that 10 patents on his name and he is dedicated researcher in field of Mechanical Engineering
10. More that 160 participants were listened to each word of Dr. Joshua. Students and faculty from outside institutes were also participated in the webinar and actively interacted with Dr. Joshua Harrison.

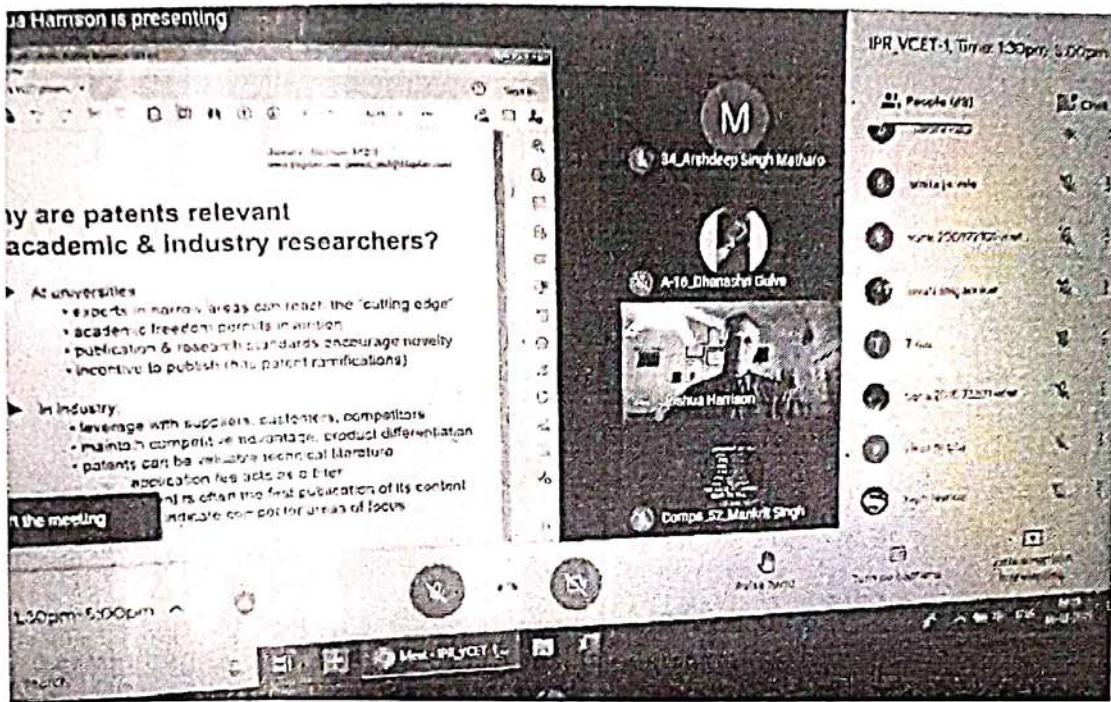

The salient points of seminar2 include

- Mr. Kudroli was associated with IPR-VCET cell since two years
- He continuously provide his guidance and suggestions on the area of intellectual properties and their protection.
- This time as per our request, Mr. Kudroli depicts the important topics of writing patent draft, corelation of innovation and invention with the IPR.
- Hi guides us about the methods of developing vocabulary.
- Mr. kudroli emphasis about the non disclosure agreement must be written prior to share the own invention or innovation with somebody outside.
- The primary application may be submitted with introduction of the invention. So that if it is published then no harm for the idea developer.
- Also Mr. Kudroli elaborate about the claim writing and how to search for the specific invention.
- He suggest to identify the most suitable attorney to draft the patent document of an innovation. It is his skillset by which claim written are very well defined.

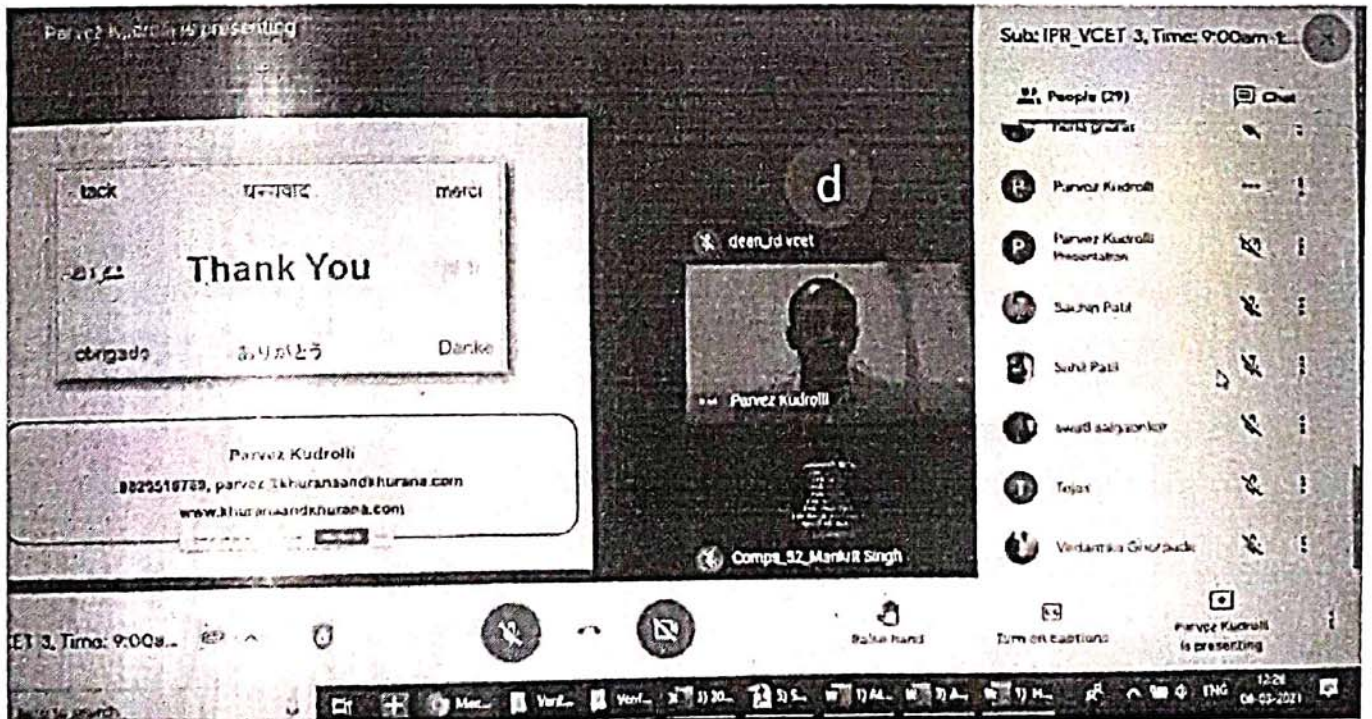

After two days of long continuous webinar series, Prof. Bharati Gondalekar perform the valedictory function . As the international webinar was in online mode, the students and faculty from within and outside were participated with huge numbers. The feedback form was circulated among student and faculty members. The questionnaire selected such that the participants gave feedback on their contribution in area of invention and innovation wherein any assistance or innovation needs to be protected. The overwhelming response of student and faculty really encourage the IPR VCET cell committee to work more and provide all inputs to students to protect their rights on behalf VCET.

E-Cell VCET
Presents

E-Summit'21

A platform where you can come across various ideas and domains regarding entrepreneurship.

Session on "A Talk on Mental Health..."

Speaker:

Mrs. Ritu Malhotra

This Session was all about enhancing our mental health.

Seminar Title	A Talk on Mental Health
Description:	Mrs. Ritu Malhotra started the session by addressing the young generations (students) about the need to have a good Emotional Quotient. She explained the importance of mental behavior in daily routines. She illustrated the word 'APPECTANCE IN LIFE' with lots of Scientific information. She presented countless ways to tackle criticism in one's life. The session ended with a short interview session with Mrs. Ritu Malhotra. The interview session was very interactive and had created a sense of curiosity amongst the students.
Objective of this Seminar	<ol style="list-style-type: none">1. Students got an overview of the need to improve one's emotional quotient to maintain mental peace.2. Students got various advice to increase their focus and concentration level.
Speaker Profile	Founder of 'Ajna Center for Learning', Life-Coach, Counsellor, Metaphysician
Working date	02 nd April, 2021
Duration	1hr
Seminar time	9.30am – 10.30 am
Venue	YouTube Live

LIVE on YouTube on 2nd April 2021

10:15 AM

RITU MALHOTRA

*Founder of 'Ajna Center for Learning',
Life Coach, Counsellor, Metaphysician*

E-Summit-21

A platform where you can come across various ideas and domains regarding entrepreneurship.

Session on "Talk on Entrepreneurship and Beyond"

Speaker:

Mr. Anand Prabhudesai

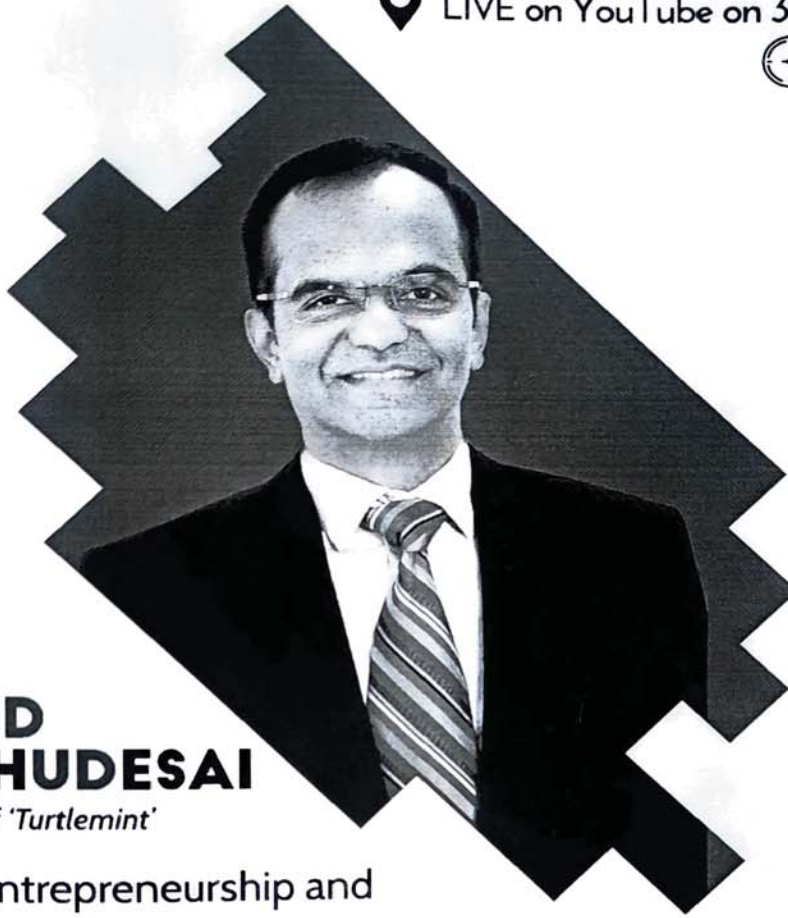

This Session was all about the insights of Turtlemint and information on entrepreneurship.

Seminar Title	Talk on Entrepreneurship and Beyond
Description:	Mr. Anand Prabhudesai started the session by briefing us about his InsurTech company 'Turtlemint'. He then continued with the dos and don'ts of entrepreneurship. Giving us a quick brief about his past struggles, he then moved on to discussing the future plans of his company. The event was concluded with an informative question and answer session where he addressed the doubts of students regarding entrepreneurship.
Objective of this Seminar	<ol style="list-style-type: none">1. Students learned about the right mindset required for entrepreneurship.2. Students were motivated to start their own businesses instead of joining the corporate industry.
Speaker Profile	Co-founder of Turtlemint.
Working date	03 rd April, 2021
Duration	1 hour.
Seminar time	11:00 am – 12:00 pm
Venue	YouTube Live

LIVE on YouTube on 3rd April 2021

Panel discussion on "Future of gaming industry in India"

Speakers:

Mr. Anurag Khurana

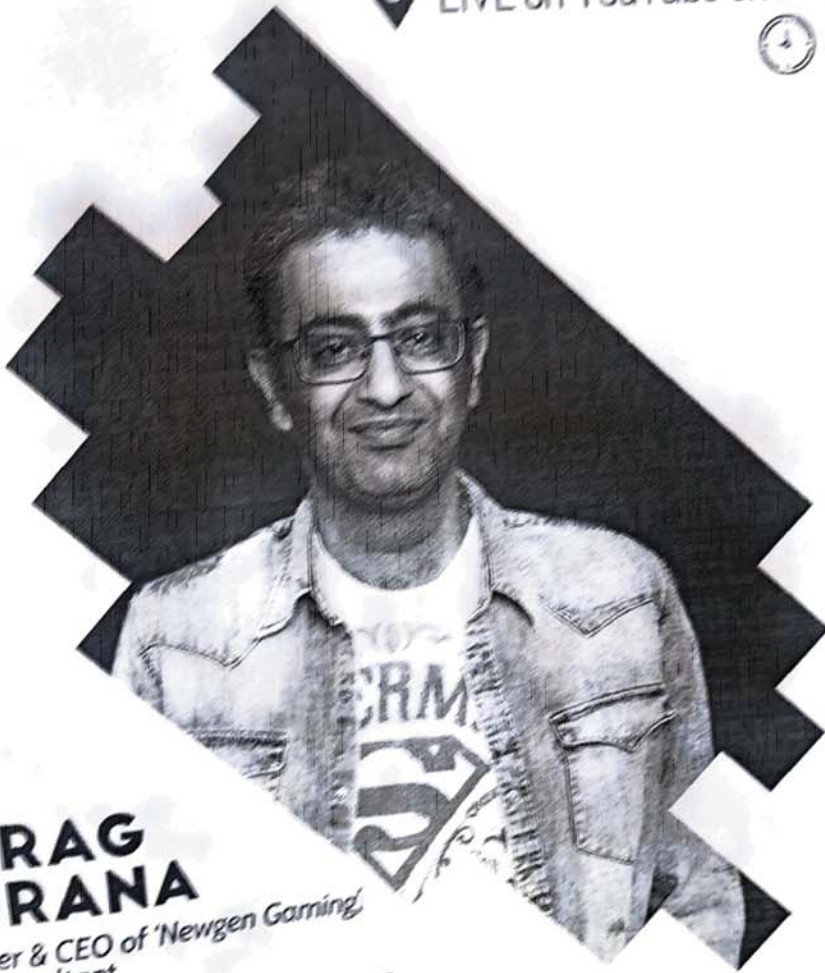

Ms. Saumya Iyer

This Session was all about discussing the future of gaming industry in India.

Seminar Title	Panel discussion – Future of gaming industry in India
Description:	<p>The panel discussion started with our speakers, Mr. Anurag Khurana and Ms. Saumya Iyer, giving us a brief about their journey in the gaming industry. They further talked about the evolution of the gaming industry in the past years and its success. But as every coin has two sides, the speakers also discussed the challenges this industry has been facing and the ways to overcome them. Then, they motivated the students with their personal experiences. Giving a reality check about the gaming industry, the speakers concluded this session by answering some questions of the students.</p>
Objective of this Seminar	<ol style="list-style-type: none">1. Students were motivated to join the gaming industry if they liked making games.2. Youth were given an insight about the rising future of the gaming industry.
Speakers' Profile	<p>Mr. Anurag Khurana – CEO and Co-founder of 'Newgen Gaming', Esports Consultant. Ms. Saumya Iyer – Mobile Game Producer at 'Gear Inc.'</p>

Affiliated to the University of Mumbai.

Academic Year 2019 /2020

Title of Event: Esummit 2020

Date: 5th and 6th March, 2020

Time: 5th March – 9:30am to 3:30pm, 6th March – 10:00am to 6:00pm

Venue: Seminar Hall, VCET

Organizing Committee: E-CELL committee

No. of Students Present: 878

Mr. Chandan Kolvankar

Faculty Incharge

ESUMMIT

E-summit is an event where we call industry bosses to interact with students.

Objectives:

1. To motivate students with the life journey of entrepreneurs.
2. To help students get mentors who can handhold them
3. To help students to explore business ecosystem
4. To help students to understand business communication and networking

Frequency: yearly

Operation:

We contact who's who in the industry and invite them for talk. Students, staff and also management members help to communicate with industry leaders. We call 10-12 people over a period of 2 days. Sometimes there are 2 parallel sessions. We display schedule and invite students to attend. According to their interest, they attend seminars. We call entrepreneurs and also professionals who are successful in life. They share their success story, their journey, and also failures with students. Students can ask questions relevant to their field.

A handwritten signature in blue ink, appearing to be 'A. K. S.', with a horizontal line underneath it.

Title- ESUMMIT event 2020

REPORT:

The ECell committee of vidyavardhini's college of engineering and Technology organized ESummit 2018 under the guidance of prof. Chandan Kolvankar. Various speakers and business personalities were invited to the event to mentor the youth, the ones who are aspiring to become entrepreneur.

The event was organizes for exploring the startup ideas and the business nature to the students in the college and also to mentor the students regarding the trends in upcoming technology.

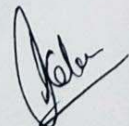

The backbone of the event was the team which organized the event. It takes months and months of planning and approaching the personages of the industry. The committee coordinated well and the team learned the ethics of the communications and work culture. A good amount of crowd attended the event.

E-Summit 2020

Seminar on Content Creation

Speaker(s):

Mr. Shashi Mukherjee

This seminar was to discuss content creation

Seminar Title	Content Creation
Description	
<p>The seminar was very friendly and because of this students were interacting with him. He talked about how his journey started from his engineering to acting in his session. He was from mechanical engineering background and he was staying at hostel in his college life. He recalled his golden days in college and said he was in drama team from where his interest got aroused in acting. He had given many auditions and also worked with TCF as a writer, host and actor during his time. He was one of the writer of TCF's show, Pitchers and it was his great experience with cast and whole team. He used to write dialogue for actors and also there has to lot of changes during shooting with actors. He concluded by saying it was one of the memorable journey to work with TCF and also as a content creator, it teaches us a life lesson in reel as well as real life.</p>	
Objective of this seminar	Students will be able to 1. Understand to keep work life balance 2. Understand to become adaptable to situations
Speaker Profile	Writer, Host, Actor, Ex – TCF
Seminar date	5 th March 2020
Duration	1 hour
Seminar time	3:30 – 4:30 pm
Venue	Vasai

E-Summit 2020

Seminar on Career Advice and Planning

Speaker(s):

Mr. Hitesh Awtaney.

This Seminar was to discuss Career Advice to youngsters.

Seminar Title	Career Advice and Planning
Description	Speaker addresses overview of the seminar planning process that includes needs assessment, program planning, implementation and evaluation has been presented. In addition, Mr. Hitesh talks about necessary platform skills have been identified to help staff members move from the role of planner to that of presenter. With training, either in counselor education programs or as a part of staff development, career counselors can provide a higher quality service to a larger number of students by learning more about the science and art of seminar planning and presentation.
Objective of this Seminar	Students will be able to 1. To know the five stages of career planning i.e. assessment, investigation, preparation commitment and retention. 2. To help students to make decisions while thinking about various career opportunities.
Speaker Profile	Founder and CEO of AmbitionUp, Mumbai and Head of New Initiative at Navayuvak Entrepreneurs
Working date	6 th March, 2020
Duration	1 hr

E-Summit 2020

Seminar on Agriculture as a business

Speaker(s):

Mr. Shekhar Bhadsavle

This seminar was to discuss Agriculture as a business

Seminar Title	Agriculture as a business
Description	<p>The seminar was very friendly and because of this students were interacting with him. The presence of a healthy environment plays a crucial role in the sustenance of society, but the Industrial Revolution and subsequent activities have resulted in adverse effects on the environment. Chandrashekhar Bhadsavle has spent most of his life trying to bring harmony between nature and agriculture. He has achieved this at Saguna Baug, where innovations like Saguna Rice Technique have led to recovery of biodiversity. He's also come up with "Agro-Tourism", a method to bring dignity back to the profession of farming and to encourage youth to pursue farming. Chandrashekhar Bhadsavle, is the person behind the success story of Saguna Baug, a popular Agro-tourism hub. After completing his Masters in Food Science and Technology from the University of California, he returned to India in 1976 "to find sustainable, worthwhile livelihood through Farming profession". He has pioneered the Saguna Rice Technique (SRT) a no-till rice cultivation system, which just might be the answer for rice-growing countries like India to tackle problems of Food Shortage and Global Warming.</p>
Objective of this Seminar	<p>Students will be able to</p> <ol style="list-style-type: none">1. Understand importance of Agriculture2. Understand about various career opportunities
speaker profile	Managing Trustee, Saguna Rural Foundation, Karjat, Dist: Thane

Seminar on MSME sector

Speaker(s):

Mr. Ramnik Panchal

This Seminar was to discuss about the MSME Sector

Seminar Title	MSME Sector
Description	<p>Mr. Ramnik Panchal addresses overview of the MSME Sector (Micro, Small and Medium Enterprises), how these enterprises contribute to our country's 8% GDP, around 45% of the manufacturing output, and approximately 40% of the country's exports and according to him they refer as the backbone to the country's economy. In addition, Mr. Ramnik Panchal talks about how MSMEs are an important sector for the Indian economy and have contributed immensely to the country's socio-economic development. It not only generates employment opportunities but also works hand-in-hand towards the development of the nation's backward and rural areas. He also talks about how the Indian MSME sector provides silent support to the national economy and acts as a defense against global economic shock and adversities.</p>
Objective of this Seminar	<p>Students will be able to</p> <ol style="list-style-type: none">1. To understand the role of MSME sector in today's world.2. To know the opportunities for an entrepreneur provided by MSME

Subject: IPR Program - Regarding

Respected sir,

we would like to invite Mr. Parvez Kudrolli, Senior Associate-Software/Electronic, Khurana and Khurana Group for presenting seminar on IPR on 25th Sep. 2019 at 2.30 pm. The line track of seminar consist of patentable inventions, background study, drafting basics, figure drawing and numbering basics, claim writing etc. Mr. Parvez Kudrolli has expertise in consultancy, business development and client relationships relating to patent drafting, searches, analysis, prosecution, training and commercialization. He has been an inventor, Patentee and entrepreneur and have obtained patents for his inventions in India and USA. He has experience in developing and inventing software, drafting and prosecuting patent, conducting patent workshop, commercializing patent rights and managing a software IPR related start-up company. He has a degree in B.Sc.(Math) and is a registered patent agent admitted to practice before the Indian patent office.

We had telephonic discussion and received his consent as guest for the said program. The group of 15 students of TE and BE of all departments will be the audience and guided subsequently. The program will be of two-hour for students and interested faculty members of the institute.

Details of budget provision for IPR program

Sr No	Particular
1	Guest Remuneration
2	Guest Transport reimbursement
3	Memento

IPR VCET-CELL

Report of

Inaugural function of cell and seminar on IPR Activity

25th Sep2019

The Intellectual Property Rights IPR-VCET cell organizes the seminar on "IPR-Patenting and Copy Rights" on 25th Sep.2019 for students of third year and final year from all disciplines. The chief guest of the seminar was Mr. Parvez Kudroli, Senior Associate, Khurana and Khurana Advocates ,Mumbai. Honorable Principal Dr. Vankudre, Dean Academics Dr. Vikas Gupta, HOD Civil were present and enlighten the students with their speech on IPR and related activities.

The salient points of seminar include

- The difference between patent and copy rights was nicely explained by Mr. Kudroli with practical examples
- Different categories of patent and method of identifying the particular category for the research undergoing. Very fluently explained stating practical examples of day to day activities.
- Importance of patent filing and different categories of patent filing such as provisional and final patent filing.
- How to write the draft of patent , the content of it was discussed with a case study
- Different government patenting organizations worldwide provide facility to Indian Patent was elaborated nicely.

Students were motivated with the in depth knowledge shared by Mr. Parvez Kudroli. Students were participated in question answering session which last long even after finished the program on office cabin.

Students were discussed about their own design and discussed with Mr. Kudroli . Mr. Kudroli also enjoyed the question answering and assiduously satisfy each one. Mr. Kudroli assure for assistance of anysort on behalf of M/s. Khurana and Khurana IPR Associates.

Dr. Kudrolli shared is contact details with students . After two hours of long continuous delivery of seminar, Prof. Vinay D. Patel perform the valedictory function and honoured by memento with honorarium to the invited guest. According to the capacity of seminar hall, 20 students from third year and 20 students from final year of all disciplines were invited for the seminar. As such there were 129 students were attended the seminar. The overwhelming response of student really encourage the IPR VCET cell committee to work more and provide all inputs to students to protect their rights on behalf VCET.

Udyam Samman- 2020

(Industry Meet)

Udyam Samman 2020 is an initiative Vidyavardhini's college of Engineering ,Vasai to bridge the gap between industry & academia by bringing professionals from different verticals on a single platform so they can share their valuable experience in terms of skills required for fresher to get into the industry.

Topic for Industry Meet 2020 - Why Aptitude is so important in recruitment process & Role of Cutting-Edge Technology.

Date: 07/02/2020

Time: 10:30 am onwards

Venue: Ground floor Seminar Hall, VCET

Objective of Industry Meet 2020

- 1) To identify the gap between industry and academia.
- 2) To create awareness of the current scenario of the industry amongst faculties and students.
- 3) To identify the shortcomings of the academia, w.r.t placement and training activities.
- 4) To strengthen the mutual relation between industry and academia.

Description:

Inauguration of Udyam Samman-2020 (Industry meet) was done in the presence of Mr.abc, Chairman of TIMA, followed by his speech. In his speech when he addressed other industry delegates, he mentioned about the significance of Internship/trainings to be provided to engineering students. Also, he whole heartedly declared to continue this relation with Institute to help students gain practical knowledge and bridge the gap between Industry and academia. After the speech of Chief Guest, panel discussion was started wherein industry delegates form different areas were invited on dais to share their views.

Whole session was divided into 2 Phases:

Phase I- Panel Discussion with all the industry delegates together.

Phase II – Discipline specific session for students by the Industry Delegates of respective branch

Phase I

Pannel discussion started with the 1st question

“How we could bridge the gap between college and Industry?”

To which all the panel members shared their views out of which some are mentioned below,

- By having training: Students can go to offices & get trained on various courses.
- By inculcating discipline in them which is required in industry
- By developing string basics
- By Inculcating practical knowledge in students.
- Retention: Students should stay back with industry to work for long time.
- Students should have knowledge beyond text-books.
- Positive approach towards work.
- Students should be versatile & ambitious.
- Every engineering stream in the Institute should make small groups and try to communicate with the Industry.

Next Question on which panel shared their views was:

Why is aptitude and programming important?

Some of the views of Industry delegates are:

- If the student is qualified for a job, aptitude is way from which company can understand students IQ level.
- To check the general concepts and basics of the student.
- Technology is the bread and butter of every company; hence students should know the basics of technology.
- To know the problem-solving ability of the student in restricted time frame.
- General attributes of the student can be tested easily with aptitude tests.
- Programming knowledge will help students to feel comfortable to start with their industry experience.

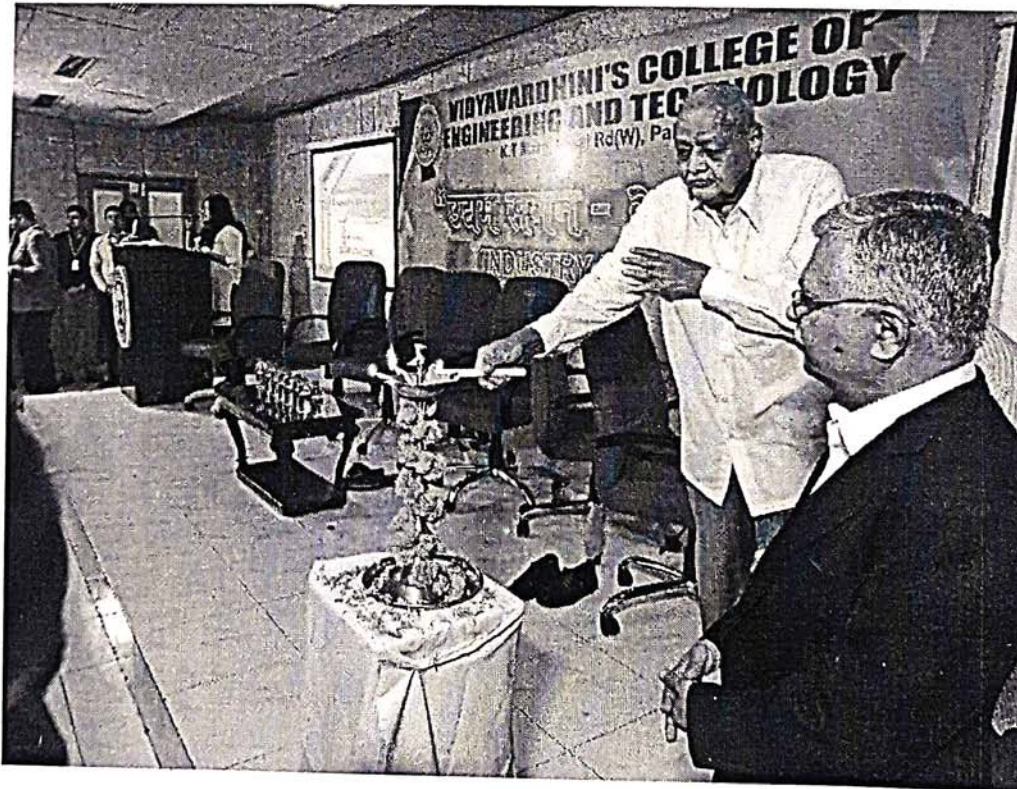

UDYAM SAMAN2020

(Industry Meet)

07/02/2020

Udyam Saman 2020 Inaugural Function

Udyam Saman 2020 Inaugural Function lamp lightening

Next Question on which panel shared their views was:

How to make students aware about employability & professionalism?

Some of the views of Industry delegates are:

- By introducing more and more practical knowledge to all students of different streams.
- This kind of preparation starts from students' level only, students can become professionals by inculcating practical environment.
- Industry and Institute should focus on long lasting relationship, so that could benefit maximum students for industry exposure.
- According to survey 1.5 million engineers pass in India every year but only 7% i.e. about 1 lakh students get relevant job. This scenario should be made aware to the students to make them aware about the current scenario of the industry.
- Make some committees/clubs dedicated to post or publish employment news in the student's groups on regular basis.
- Make students practical oriented instead of theory oriented.

This is how the Industry delegates shared their experience and guided us with their thoughts and views for above mentioned questions.

All the industry delegates were appreciated for their time and support for making this meet a successful one.

After the end of *Phase I*, some of the Industry delegates addressed their respective branch students in *Phase II* i.e. after lunch.

Enclosed herewith are the reports of respective *Phase II* sessions.

To,
The Principal,
VCET

Subject: Permission for organising a seminar on "Importance of Research at Undergraduate Level."

Respected Sir,

The Department Of Electronics and Telecommunication Engineering in association with the IEEE VCET SB is organizing a seminar on "Importance of Research at Undergraduate Level" on 6th February, 2020 from 10 am to 12 pm.

We kindly request you to grant us the permission to organize the event.

Thanking you,
Yours sincerely,

A. Rupera

Dr. Vikas Gupta,

J
5/2/2020

Topic: Why and how to UG research in an academic institution?

Speaker: Dr. B. Satyanarayana, Scientific Officer (H), Tata Institute of Fundamental Research, Mumbai

Bio-data: Dr. Satyanarayana did his B. Tech in Electronics and Communication Engineering from J.N.T. University, Hyderabad and Ph.D. in Physics from IIT Bombay.

He is working in the Department of High Energy Physics, TIFR since 1983 – and is currently a Scientific Officer (H). He is also a Visiting Professor at the Applied Science Department of the American College, Madurai. His areas of interest include 'Detectors and Instrumentation for high energy and nuclear physics experiments'. He worked on many major experiments, including a series of underground experiments at Kolar Gold Fields, D-Zero experiment at Fermilab, Chicago and CMS experiment on LHC at CERN, Geneva. Currently, he is fully engaged in building a mega science experiment called ICAL at the proposed India-based Neutrino Observatory (INO) near Madurai.

Dr. Satyanarayana is a Fellow of Institution of Electronics and Telecommunication Engineers (IETE) as well as Institute of Engineers (IE). He is a member of the Governing Council of Instrument Society of India as well as a Member of Indian Physics Association. He is a Senior Member of IEEE. He is a member of the Executive Committee, Secretary and Chair of Signal Processing Society of the IEEE Bombay Section. Until recently he also served as the Chair, Technical and Professional Activities of the Section as well as an Executive Committee member, and Vice Chair (Technical Activities) of the IEEE India Council. He won IEEE Bombay Section's Outstanding Volunteer Award for 2014 and IEEE Head Quarter's MGA Achievement Award for 2016.

Dr. Satyanarayana has published over 220 research papers and proceedings in national and international journals and conferences, besides scores of invited talks. His very first paper won the best paper award by Institution of Electronics and Telecommunication Engineers (IETE).

He guided and co-guided a large number of undergraduate, master and doctoral students. He served on many of doctoral and expert committees as well as on college/universities' academic councils, boards of studies and advisory boards. He is on editorial and refereeing teams of several prestigious science and engineering journals.

ESummit

Title- ESUMMIT event 2019**REPORT:**

The ECell committee of vidyavardhini's college of engineering and Technology organized ESummit 2019 under the guidance of prof. Chandan Kolvankar. Various speakers and business personalities were invited to the event to mentor the youth, the ones who are aspiring to become entrepreneur.

The event was organizes for exploring the startup ideas and the business nature to the students in the college and also to mentor the students regarding the trends in upcoming technology.

The backbone of the event was the team which organized the event. It takes months and months of planning and approaching the personages of the industry. The committee coordinated well and the team learned the ethics of the communications and work culture. A good amount of crowd attended the event.

Chandan Kolvankar

Event: E-Summit'19

Date: 4th April, 2019

Sr. no	Name	Company	Topic	Time
1	Mr. Varun Kodollikar	Creative wedding photographer, Mumbai	Wedding photography as a business and lifestyle	2pm - 3pm
2	Mr. Abhishek Gharat	Director, KraftPixel, Vasai	From a Golden KT in Maths-3 to growing a 4 year young company	3pm - 4 pm
3	Ms. Neha Joshi	Cofounder, Finden godigital, Mumbai	Panel discussion: Swayamsiddha- Woman who have achieved on their own	2pm - 3pm
	Ms. Remya Narayanankutty	Head, South Asia revival rugs, Mumbai		
	Ms. Gayatri Kale	Cofounder, Finden godigital, Mumbai		
4	Ms. Amruta Joshi	Weschool and Galaxy coating., Vasai	Design Thinking and Innovation.	4pm - 5pm
5	Mr. Sumer Singh	YouTuber, Last Moment Tutions.	Content developing and YouTubing	4pm - 5 pm
6	Mr. Subhash Gangaram Talekar	President, Mumbai Dabbawala Association, Mumbai.	Business Experience	9.30am - 10.30am
7	Mr. Gejo Sreenivasan	Mentor, Career Launcher Edu. Pvt. Ltd, Mumbai	How to become rich	12 noon - 1pm
8	Mr. Gopal Rai	Chairman, Dhirendra Group of company, Mumbai	Challenges and Achievements	11.30am - 12.30
9	Mr. Gaurav Mishra	Founder and Managing Director, Navayuvak Entrepreneurs, Mumbai	Start-ups	3pm - 4pm

E-Summit 2019

Seminar on Wedding photography as a business and lifestyle

Speaker(s):

Mr. Varun Kodollikar

This Seminar was to discuss about Wedding photography as a business and lifestyle

Seminar Title	Wedding photography as a business and lifestyle
Description:	Kodoclicker is a brainchild of Varun Kodollikar, a candid & creative wedding photographer with a knack for capturing intimate moments. After working with top industry photographers, Kodoclicker was formed to focus on people & emotions, top notch service and fast turnaround time. Our shooting style is photojournalistic , raw , real and aimed at giving your fairy tale romance a picture perfect story
Objective of this Seminar	Students will be able to 1. It is a session for photography enthusiasts. 2. It will also let them know about the scope and hurdles faced in the way of becoming professional photographer .
Speaker Profile	Creative wedding photography, Mumbai.
Working date	4 th April, 2019
Duration	1 hr
Seminar time	2:00-3:00 pm
Venue	Vasai

Seminar on From a Golden KT in Maths – 3 to growing a 4 year young company

Speaker(s):

Mr. Abhishek Gharat

This seminar was to discuss from getting golden kt in M3 to growing a 4 year young company

Seminar Title	From a Golden KT in Maths – 3 to growing a 4 year young company
Description	<p>In this seminar, he talked about that in his second year of engineering, he had Golden KT in M3 which is considered to be one of the nightmare of every engineer in his journey. He considered himself as average student as it was not the thing which he use to admire and also it was roller coaster ride while starting up KraftPixel from his small room. A group of friends started freelancing for many local companies in surroundings and slowly and steadily they grow big and become one of the reputed company. At last, he concluded that engineering teaches you a lot in making you good personality and if you work smart, you will definitely get it.</p>
Objective of this seminar	Students will be able to 1. Understand difficulties in startup 2. Understand how to overcome such situations
Speaker Profile	Director, KraftPixel
Working date	4 th April 2019
Duration	1 hour
Seminar Time	3:00 – 4:00 pm

E-Summit 2019

Seminar on Design Thinking and Innovation

Speaker(s):

Ms. Amruta Joshi.

This Seminar was to discuss Design Thinking and Innovation.

Seminar Title	Design Thinking and Innovation
Description	Design Thinking being a design methodology that provides a solution-based approach to solving problems, is extremely useful in tackling complex problems that are ill-defined or unknown. Speaker also pointed out crucial points to articulate the institution's strategy for innovation and entrepreneurship for the institutional community and the broader community, including partners and contacts in industry, business and the wider labor market. In their strategic planning, institutions should allow for the fact that it is expensive and time-consuming to build an innovation ecosystem.
Objective of this Seminar	Students will be able to understand the 5 stages of Design Thinking which are as follows: 1. Empathize. 2. Define the problem. 3. Ideate. 4. Prototype. 5. Test the product.
Speaker Profile	Weschool and Galaxy coating, Vasai
Date	4 th April, 2019
Duration	1 hr
Seminar time	4:00-5:00 pm
Venue	Seminar hall, VCET Vasai.

Seminar on Content developing and YouTubing

Speaker(s):

Mr. Sumer Singh

This seminar was to discuss Content developing and YouTubing

Seminar Title	Content developing and YouTubing
Description	<p>The seminar was very friendly and because of this students were interacting with him. He talked about his journey started from his engineering to Last Moment Tuition . Any great work has to be initiated with the raw things, as said by him focus on Execution and don't wait for DSLR where he highlights his story of recording video with almost no camera accessories but all he had with him was determination , he used his friends phone and at the first step he made all 150 videos and posted them on YouTube and bought himself a new smartphone , and now he has all accessories required for recording and he majorly focused on starting the job and not waiting for any other accessories (opportunity)</p>
Objective of this Seminar	<p>Students will be able to</p> <ol style="list-style-type: none">1. Get a proper idea about content creation2. Understand the YouTube and social media sector.
speaker profile	YouTuber, Last Moment Tutions.
Working date	4 th April, 2019

Challenges and Achievements

Speaker(s):

Mr. Gopal Rai

This seminar was to discuss about Challenges and Achievements.

Seminar Title	Challenges and Achievements
Description	Mr. Gopal Rai states that having enough cash to cover the bills is a must for any business, but it is also a must for every individual. Whether it is your business or your life, one will likely emerge as a capital drain that puts pressure on the other. To avoid this problem, small business owners must either be heavily capitalized or able to pick up extra income to shore up cash reserves when needed. This is why many small businesses start out with the founders working a job and building a business simultaneously. While this split focus can make it difficult to grow a business, running out of cash makes growing a business impossible. And how to overcome this situations and clear every hurdle in the way and achieve success is what he discusses briefly.
Objective of this workshop	Students will be able to 1. Understand challenges faced in any business 2. Understand how to overcome them and achieve the desired goal.

Title – Bizmaster'19

Report:

This was the fourth year of bizmaster organized by Ecell 2018-19 committee. The bizmaster'19 saw maximum participation from students. Again the committee members worked hard to flourish the event well. This year few participants got an opportunity for funding.

This time judges were from business background and investor. The total prize money distributed to students were worth of Rs. 40000/-

The judges were:

Mr. Gaurav Mishra, Navyuvak entrepreneurs

Mr. Swapnil Gharat, founder Craftpixel

Chandan Kulkarni
Ecell Incharge

The Business Plan Competition

Win prizes worth
₹40,000

On,

5th April 2019

At,

Vidyavardhini's College of Engineering and Technology
K.T. Marg, Vasai Road (W), Dist. Palghar, 401202

About Us

The Vidyavardhini Society was established in 1970 by late H.G.Vartak also known as Bhau-sahab Vartak for the noble cause of education. VCET was established on 1994 and spread over an area of 12.27 acres and affiliated to the University of Mumbai for four year degree program leading to the degree of Bachelor of Engineering

About Ecell

Started in the year 2015 and now comprises an overwhelming strength of 40 students across various branches of V.C.E.T. Myriad of activities like lectures, talks with entrepreneurs, prototype building of the ideas are conducted for the students.

Ecell VCET provides a platform for aspiring students to compete with the variety of ideas from various institutes from all over the country.

So come, have a flavor of this unique amalgamation of entrepreneurs to drive the mission of

#startupindia

Rules

1. Participate in the group of 2 to 4 persons.
2. Registration fees are ₹150 per head.
3. Email your abstract on the mentioned email id before 28th March 2019.

For further queries and assistance, please call us or send an email. Contact details are given at the back.

Registration

Registration for this event should be done by sending an email with Bizmaster as subject abstract attached to it.

Abstract should strictly be in the format as mentioned on Bizmaster section of the website. Failing to do so may lead to disqualification of team.

Above details are important for us so that we can give you the best possible convenience to showcase your project.

Send your entries till 28th March 2019

A confirmatory email will be sent to you after the successful registration.

What we expect from you?

1. Idea
2. Company registration (prop., partnership, private limited)
3. Infrastructure required.
4. Manpower required.
5. Raw material required.
6. Logistics requires.
7. Finance (self contribution, family & friends contribution, loan, credit, investors, other plan for raising funds).
8. Process or work culture.
9. Target market
10. Expected revenue.
11. Competitors.
12. Market survey and marketing strategy
13. Advertisement
14. Budget (expenses for 1 yr/5yrs. Vs. Revenue for 1yr/5yrs).
15. Fall back in case something goes wrong.
16. Research & development to maintain product.
17. Customer loyalty and service.

Include above aspects in your B-Plan Presentation
