## Description

*Cyber Security Threats and Challenges Facing Human Life* provides a comprehensive view of the issues, threats, and challenges that are faced in the cyber security domain. This book offers detailed analysis of effective countermeasures and mitigations. The financial sector, healthcare, digital manufacturing, and social media are some of the important areas in which cyber-attacks are frequent and cause great harm. Hence, special emphasis is given to the study and analysis of cyber security challenges and countermeasures in those four important areas.

### KEY FEATURES

- Discusses the prominence of cyber security in human life
- Discusses the significance of cyber security in the post-COVID-19 world
- Emphasizes the issues, challenges, and applications of cyber security mitigation methods in business and different sectors
- Provides comprehension of the impact of cyber security threats and challenges in digital manufacturing and the internet of things environment
- Offers understanding of the impact of big data breaches and future trends in data security

This book is primarily aimed at undergraduate students, graduate students, researchers, academicians, and professionals who are
