## HEI Response to DVV Findings

**Criteria Number:** 3

**Criteria Name:** Research and Innovation

**Sub criteria Number:** 3.5

**Sub-criteria Name:** Collaboration

3.5.1 Number of functional MoUs/linkages with institutions/ industries in India and abroad for internship, on-the-job training, project work, student / faculty exchange and collaborative research during the last five years: 101

**This document contains the supporting documents for DVV clarification.**

Academic Year	Number of functional MoUs/linkages
2022-23	23
2021-22	18
2020-21	18
2019-20	22
2018-19	20
<b>Total</b>	<b>101</b>

**MEMORANDUM OF UNDERSTANDING (MOU)  
ENTERED BETWEEN  
VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY  
AND  
TECHUSTAADS PRO LEARNING**

**INTRODUCTION:**

**1) Vidyavardhini's College of Engineering & Technology (VCET)**

Vidyavardhini's College of Engineering & Technology was established in July 1994. The institute is affiliated to University of Mumbai for full time four year degree programs in Bachelor of Engineering in six disciplines, viz. Mechanical, Electronics & Telecommunication, Instrumentation, Computers, Information Technology and Civil Engineering.

VCET, Vasai is located at the sprawling campus of Vidyavardhini's spread over an area of 12.27 acres of land out of which college of engineering has 5.00 acres of area. It is in the close proximity to the Vasai Road (West) railway station and hardly takes 45 min journey from Dadar by Western Railway.

Vidyavardhini's College of Engineering & Technology, (VCET) Vasai is committed to enhance the knowledge of its various engineering departments and is engaged in imparting training and developing technical manpower in various front-line areas of importance and is also rapidly contributing to the scientific and technical knowledge professional developments and excellence in Engineering & technology by undertaking industrial applied research and consultancy.

**2) Techustads Pro Learning**

The idea of Techustads Pro Learning took seeds after interviewing many Job Aspirants. Only a handful of these candidates could be termed as suitable for a job. There is a very acute shortage of talent with the right skill set and desirable attitude.

Graduates are usually low on confidence with poor communication skills and perform very poorly in interviews.

Techustaads Pro Learning has been conceptualized to narrow down, if not eliminate, mismatch between the formal education system and the industry. With our Agile-Project Based Learning Approach, we ensure that students not only grasp technology but they also experience software development processes. All our trainers are from the industry, and have varied experience working in Startups, the competitive Corporates and Tech Enterprises. We aim to impart the Right Skills and Right Attitude for an excellent career progression through our fast-paced course curriculum.

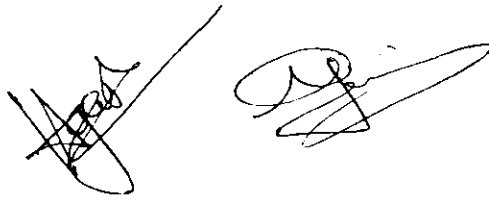

We also offer Internship Programme for eligible students followed by Job opportunities based on performance, where students get to work on Live Projects in the Agile Environments. Students are exposed to various tools and processes that are being used in the Industry to deliver technological advanced projects - ON Time within Budget.

### Scope of MOU

- ❖ This MOU is executed between VCET and Techustaads Pro Learning to foster relations and promoting and reinforcing cooperation between the academic institution and the industry.
- ❖ The Memorandum signed will be the guiding document for both the parties for planning and execution of the actions and initiatives. Both the organizations will encourage its members to define the overall strategy and roadmap to carry out the action plans.

The Memorandum states that the two organizations will honor and do the following with mutual cooperation:

- 1) Sharing knowledge and capability in the concern area for mutual benefits and become trusted partners in the area of knowledge enrichment.
- 2) Facilitate work from VCET students/faculties and vice versa on projects identified for collaborative activities.
- 3) To collaborate, share information and technology to develop the required skills and intend to create a centre of excellence to support this shared efforts.
- 4) To support and sharing the activities related to:

Expert Lecture Report

Report

“Data Wrangling with Python”

Event Name	Expert Lecture on Data Wrangling with Python
Date	27 <sup>th</sup> March 2023
Speaker's Profile:	Mr. Sidharth Shah, Founder and CEO of Fafadia Tech; M.S. in Computer Science from University of Southern California.
Description	Data wrangling in Python involves employing more complex and efficient techniques to clean, transform, and prepare data for analysis. This may include using advanced features of libraries like pandas and NumPy, leveraging regular expressions for text data manipulation, implementing custom functions to handle unique data issues, and applying parallel processing for large datasets. Additionally, Data wrangling can involve techniques for handling unstructured data, such as natural language text, and using machine learning to automate some data preparation tasks. Mastery of data wrangling techniques is essential for data scientists and analysts working with real-world, messy data to extract meaningful insights and build robust models.
Objectives of Event	The objectives of data wrangling using Python are to enhance data quality, streamline the process with automation, perform feature engineering for better insights, handle complex data types, ensure scalability, and maintain reproducibility for transparency and collaboration.

Outcomes of the event

The outcome of data wrangling using Python is high-quality, well-structured data that is efficient to work with, enabling data analysts and scientists to extract valuable insights, build accurate models, and make informed decisions. This process enhances data handling, supports the effective management of complex data sources, and ensures scalability and reproducibility, ultimately improving the success of data-driven projects and facilitating collaboration within data teams.

Research Collaboration Proposal

011

Integrated Real Time Sewerage Monitoring & Maintenance System via Digitization &  
Human Enabling Robots

Between

Vidyavardhini's College of Engineering and Technology, Vasai

AND

Janyu Technologies Private Limited, Vasai

on

16<sup>th</sup> day of December 2021

Proposal is as below:

**Gaps in the existing drainage system:**

Though some level of mechanized cleaning is currently in use for sewerage maintenance, there are some serious gaps to be filled:

**Temporary solution:** The current procedures and systems are oriented more towards choke clearance at manholes and restoring the flow of sewer temporarily.

**No solution for Hard settled solids:** There is no effective mechanism to handle hard debris dumped from outside, solids at the manholes that have been piled up and sediment over many years. Hard sludge needs to be broken into smaller pieces and cannot be easily pulled out by suction.

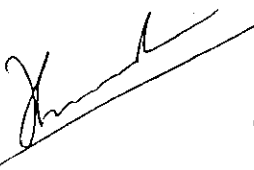

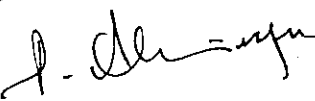

**No solution for inaccessible areas:** There is no effective mechanized system to cut the solids settles, the roots and other legacy solids inside sewer pipes of small to large diameters. There are no tools to effectively reach inaccessible areas like under railway tracks/roads and clear the clogging.

**No Pre/Post Inspection tools:** The entire process is just aimed at maintaining the flow temporarily and inspected visually just at the manhole. The only inspection systems used are First person visual assessment. This does not give any assessment of the solids settled in the pipelir

  
HEAD  
Dept of Computer Engg.,  
Vidyavardhini's College of  
Engineering and Technology,  
Vasai Road 401 202

**Proposed Solution:**

1. **Real-Time Monitoring:** The manholes will be provided with sensors which shall raise the alert and convey the same to the centralized monitoring system in case of any potential overflow. The centralised monitoring system will be located in the ward-wise control room
2. **Inspection:** The pipelines shall immediately be inspected by robotic crawler systems for visual inspection.
3. **Cleaning:** A robot will be deployed in addition to the existing machinery of the municipal corporation which will break the hard wastes blocking the flow at the manholes by agitating and removed by grabbing through a hydraulic robotic arm. There will be an on-board camera to monitor the whole operation from outside the sewer manholes

**Under this Proposal**

First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources and provide each of them with enhanced opportunities.

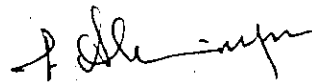

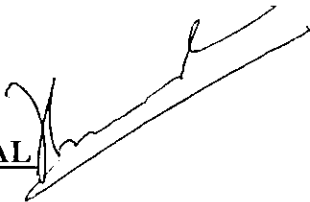

The Parties intent to cooperate and focus their efforts on cooperation within area of Skill Based Training, Education, Placement, Industrial Visit, Expert Lecture.

## **Preamble**

**WHEREAS** Siemens is a leading engineering company in the fields of electrification, automation and digitalisation and supplies to industry.

**WHEREAS** Vidyavardhini's College of Engineering and Technology is a prominent engineering college in Vasal and wishes to train its and other Institute students on Automation and Drive kit to make their students proficient in Automation course and its technology.

**WHEREAS** Vidyavardhini's College of Engineering and Technology has approached Siemens for support in getting its other institute students trained on the Automation technology. **WHEREAS**, Siemens has agreed to provide on a non-exclusive basis the training support at reasonable charge on the basis of the representations and undertakings provided by Vidyavardhini's College of Engineering and Technology.

**NOW THEREFORE**, the Parties heroby agree as follows:

### **Article 1 – Annexes and Order of Precedence**

The following annexes to this Agreement shall form an integral part of this Agreement.

- (a) Annexure 1: Special Terms and Conditions
- (b) Annexure 2: Terms and conditions for Domestic Business (attached as SST 1 Service \_rev\_GST\_rev\_GST.pdf)

In the event of conflicts between the provisions of the Annexes and those in the body of this Agreement, the provisions in the body of the Agreement shall take precedence over those in the Annexes, with Annex 1 taking precedence over Annex 2 unless some other meaning or intent is apparent from the context.

### **Article 2 - Legally binding provisions and Governing Law**

All provisions of this Agreement are intended by the Parties to be legally enforceable by the Parties. The Parties by executing this Agreement legally bind themselves to every provision. This Agreement shall be governed by, and all disputes in connection with it shall be resolved in accordance with the substantive law of India.

### **Article 3 - Dispute Resolution**

All disputes arising in connection with this Agreement including any question regarding the termination or any subsequent amendment of this Agreement, shall be finally settled in accordance with the Arbitration and Conciliation Act, 1996 and any modifications thereto and re-enactments thereof from time to time by a sole arbitrator who shall be mutually appointed. In case of a disagreement between the parties in this regard, Parties shall approach the appropriate court for appointment of an arbitrator. The seat of arbitration shall be Mumbai, India. The language to be used in the arbitration proceeding shall be English. Any order for the production or disclosure of documents shall be limited to the documents on which each Party specifically relies in its submission(s). Each Party submits to the jurisdiction of courts of Mumbai for the purposes only of compelling compliance with the above arbitration provisions and for enforcement of any arbitration award made in accordance with the above provisions.

### **Article 4 - Miscellaneous**

4.1 No modification to this Agreement will be binding, unless made in writing. Any waiver of this requirement for the written form shall likewise be in writing. Written form or in writing shall mean that the respective notification, statement, agreement, decision, resolution is signed by one or more representative(s) of the Party.

- 4.2 If a provision of this Agreement is not legally effective, this shall not affect the efficacy of the remaining provisions of this Agreement. In such a case the Parties shall endeavour to agree upon a legally effective provision which in terms of its economic effect comes closest to the original provision.
- 4.3 This Agreement constitutes the entire agreement between the Parties and supersedes and extinguishes all previous agreements, promises, assurances, warranties, representations and understandings between them, whether written or oral, relating to its subject matter.
- 4.4 No delay or omission by Siemens in exercising any right, power or remedy provided by law or under this Agreement shall affect, impair or operate as a waiver of such right, power or remedy of Siemens
- 4.5 All correspondence, notices and other communications shall be sent by mail, courier, in person, or e-mail at the respective addresses set forth in the introductory portion of this Agreement or at such other addresses as the respective Parties shall designate by notice given in accordance herewith.
- 4.6 The language of this Agreement shall be English. Correspondence, technical and commercial documents as well as any other information exchanged between the Parties relating to this Agreement shall be in English.

IN WITNESS WHEREOF, both the Parties have caused this Agreement to be signed by their respective duly authorised officers identified below on the day, month and year hereinafter written.

**MEMORANDUM OF UNDERSTANDING (MOU)  
ENTERED BETWEEN  
VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY  
AND  
TECHUSTAADS PRO LEARNING**

**INTRODUCTION:**

**1) Vidyavardhini's College of Engineering & Technology (VCET)**

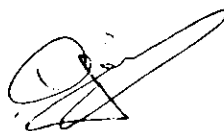

Vidyavardhini's College of Engineering & Technology was established in July 1994. The institute is affiliated to University of Mumbai for full time four year degree programs in Bachelor of Engineering in six disciplines, viz. Mechanical, Electronics & Telecommunication, Instrumentation, Computers, Information Technology and Civil Engineering.

VCET, Vasai is located at the sprawling campus of Vidyavardhini's spread over an area of 12.27 acres of land out of which college of engineering has 5.00 acres of area. It is in the close proximity to the Vasai Road (West) railway station and hardly takes 45 min journey from Dadar by Western Railway.

Vidyavardhini's College of Engineering & Technology, (VCET) Vasai is committed to enhance the knowledge of its various engineering departments and is engaged in imparting training and developing technical manpower in various front-line areas of importance and is also rapidly contributing to the scientific and technical knowledge professional developments and excellence in Engineering & technology by undertaking industrial applied research and consultancy.

**2) Techustaads Pro Learning**

The idea of Techustaads Pro Learning took seeds after interviewing many Job Aspirants. Only a handful of these candidates could be termed as suitable for a job. There is a very acute shortage of talent with the right skill set and desirable attitude.

Graduates are usually low on confidence with poor communication skills and perform very poorly in interviews.

Techustaads Pro Learning has been conceptualized to narrow down, if not eliminate, mismatch between the formal education system and the industry. With our Agile-Project Based Learning Approach, we ensure that students not only grasp technology but they also experience software development processes. All our trainers are from the industry, and have varied experience working in Startups, the competitive Corporates and Tech Enterprises. We aim to impart the Right Skills and Right Attitude for an excellent career progression through our fast-paced course curriculum.

We also offer Internship Programme for eligible students followed by Job opportunities based on performance, where students get to work on Live Projects in the Agile Environments. Students are exposed to various tools and processes that are being used in the Industry to deliver technological advanced projects - ON Time within Budget.

### Scope of MOU

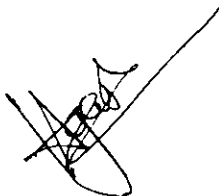

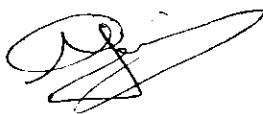

- ❖ This MOU is executed between VCET and Techustaads Pro Learning to foster relations and promoting and reinforcing cooperation between the academic institution and the industry.
- ❖ The Memorandum signed will be the guiding document for both the parties for planning and execution of the actions and initiatives. Both the organizations will encourage its members to define the overall strategy and roadmap to carry out the action plans.

The Memorandum states that the two organizations will honor and do the following with mutual cooperation:

- 1) Sharing knowledge and capability in the concern area for mutual benefits and become trusted partners in the area of knowledge enrichment.
- 2) Facilitate work from VCET students/faculties and vice versa on projects identified for collaborative activities.
- 3) To collaborate, share information and technology to develop the required skills and intend to create a centre of excellence to support this shared efforts.
- 4) To support and sharing the activities related to:

- 9.4 Resource Exchange: Both parties acknowledge that exchange of students or personnel from one party to the other shall be subject to the availability of funds and shall comply with the regulations and policies of the First party and the Second party.
- 9.5 Entire Agreement: This Agreement, (i) embodies the final, complete and exclusive understanding between the Parties with respect to its subject matter; (ii) replaces and supersedes all previous oral or written agreements, understandings or arrangements between the Parties; (iii) may be signed in counterparts, each of which will be an original and all of which will constitute one and the same document; and (iv) may only be amended in a writing signed by an authorized representative of each Party hereto.
- 9.6 Further Assurances: Each of the Parties will, from time to time, at the request of the other Party and without further consideration, execute and deliver other documents and take other actions as the other Party may reasonably request, to consummate more effectively the transactions contemplated by this Agreement.
- 9.7 Compliance with Laws: This Agreement and the performance of this Agreement is subject to all present and future applicable laws, rules, orders, statutes and regulations of governmental authorities having jurisdiction over the Parties, the deliverables or the Services. Both Parties will comply with all applicable laws, rules, orders, statutes, and regulations.
- 9.8 Force Majeure: Either Party shall be excused from any delay or failure in performance required hereunder if caused by reason of any occurrence or contingency beyond its reasonable control, including acts of God, acts of war, fire, insurrection, strikes, lock-outs riots, earthquakes, floods, explosions. The obligations and rights of the Party so excused shall be extended on a day-to-day basis for the time period equal to the period of such excusable interruption. When such events have abated, the Parties' respective obligations hereunder shall resume. In the event the interruption of the excused Party's obligations continues for a period in excess of ten (10) calendar days, either Party shall have the right to terminate this Agreement upon seven (7) calendar days' prior written notice to the other Party.
- 9.9 Construction: Should any provision of this Agreement be held invalid or unenforceable, such invalidity will not invalidate the whole of this Agreement, but rather that invalid provision will be amended to achieve as nearly as possible the same economic effect as the original provision and the remainder of this Agreement will remain in full force. There shall be no deemed waiver of any provisions of this

Agreement, for any waiver to be valid it must be in writing and signed by authorized representative of the Party giving such waiver. Waiver by either Party of the breach of any provision of this Agreement by the other Party will not operate or be construed as a waiver of any subsequent, similar or other breach by the breaching Party. The captions and headings appearing in this Agreement are for reference only and will not be considered in construing this Agreement. L&T & IT DEPT., VCET have both had the opportunity to have their advisors & advocates examine this Agreement and to incorporate terms to protect their interests and to propose changes to clarify any ambiguities. Accordingly, in any interpretation of this Agreement, an ambiguity shall not be resolved by interpreting the Agreement against the drafter. The language of this Agreement shall be interpreted according to the true interpretation of the relevant clause and fair meaning of such provisions and not for or against either party.

- 9.10 Limitation of Liability: Neither Party shall be liable to the other Party for any indirect or special damages. Nothing in this Agreement shall be taken to exclude or limit IT DEPT., VCET 's liability under or arising out of this Agreement whether based in contract, tort (including negligence and strict liability) or otherwise arising out of IT DEPT., VCET 's breach of confidentiality obligation, infringement of intellectual property rights or breach of representations and warranties.
- 9.11 No Assignment: Neither this Agreement nor any of the rights or obligations of either Party hereunder may be assigned or transferred without the other Party's prior written consent, which consent will not be unreasonably withheld. Nothing set forth in the preceding sentence shall restrict L&T from assigning this Agreement or its rights or obligations to its affiliate/subsidiary. This Agreement will be binding upon and inure to the benefit of L&T & IT DEPT., VCET and their respective successors and permitted assigns.
- 9.12 Independent Contractor: IT DEPT., VCET 's relationship with L&T will be that of an independent contractor and nothing in this Agreement will be construed to create a partnership, joint venture, principal-agent or employer-employee relationship. IT DEPT., VCET will (i) be solely responsible for payment of all compensation due to IT DEPT., VCET 's employees and contractors in connection with this Agreement, (ii) file on a timely basis all tax returns and payments required to be filed or made to any central, state or local tax authority with respect to IT DEPT., VCET 's performance under this Agreement and receipt of compensation by IT DEPT., VCET and its

## Memorandum of Understanding

Vidyavardhini's College of Engineering and Technology, Vasai

Date: 19<sup>th</sup> November, 2018

Texas Instruments Innovation Center (A partner of Texas Instruments India University Program)

### 1. Introduction

India has become a promising investment destination for foreign companies looking to do business here. Our Honorable Prime Minister of India has launched the 'Make in India' initiative with the aim to give the Indian economy global recognition. This initiative is expected to spur development, economical growth and thereby improving the living standard of Indian Citizen.

Engineering education has to play very important role in providing huge pool of skilled and knowledgeable, and industry ready engineers. The future success of Indian industry depends on the growth of quality engineering education in India, especially since Indian industry is competing globally in areas such as software and hardware electronics, automobiles, pharmaceutical, chemicals, engineering equipment etc. In India, the brightest students opt for engineering after the 12th standard. This has resulted in a spurt of engineering colleges. However, the reality is that only a very small percentage of these students are readily employable (@25% or less as per the survey by Nasscom) and most lack industry specific skills. In order to bridge this gap between the academia and the industry and to ensure ready deployment in regular work streams, structured industry specific training is necessary.

### 2. Brief Introduction about Vidyavardhini's College of Engineering and Technology, Vasai.

Vidyavardhini means a Body committed to enhancement of Knowledge. Vidyavardhini was established as a registered society in 1970 by late Padmashri H. G. alias Bhausaheb Vartak for the noble cause of education in rural areas.

Vidyavardhini Society received approval from AICTE to start the new college of Engineering & Technology with effect from July, 1994. The college is affiliated to the University of Mumbai for the four year degree program leading to the degree of Bachelor of Engineering.

The Department of Electronics and Telecommunication Engineering (EXTC) was established along with the college in the year 1994 with intake 60 and is known to provide best academic facilities across University of Mumbai. The Course is accredited by National Board of Accreditation(NBA), New Delhi for three years wef 2012.

### 3. Brief Introduction about EdGate Technologies Private limited

EdGate Technologies Private Limited are Texas Instruments India University Program Partners. EdGate has an extensive presence all over the country and well established connectivity within the

academic and corporate communities. Our aim is to reach out to the Corporate, educators and the engineering student community to help them achieve more in their research and their learning initiatives.

Services offered to Universities under Texas Instruments India University Program

- Presales Guidelines
- Sales and Continuous Post Sales support
- Installation and Training
- Train the Trainer Program (Customized)
- Seminar/Workshop (Customized)
- Faculty Development programs (Customized).

EdGate has setup Texas Instruments Labs in various Engineering colleges across India. EdGate has signed 150 + MOU's and 25 TIIC's with Engineering colleges under Texas Instruments University Program

EdGate Technologies provide a whole range of services by leveraging its business expertise by strategic alliances with leading technology providers & are Sole authorized distributors of following Partners

- Mango Communication, USA : Mango has its roots in the Rice University Wireless Open-Access Research Platform (WARP) project, originally an NSF-funded research project that has grown into a self-sustaining open-source wireless research platform.
- SoftDB, Canada ( Texas Instruments – Third party developer)
- Technosoftmotion, Switzerland ( Texas Instruments – Third party developer)
- Next Dimension Technology, Korea ( Texas Instruments – Third party developer)
- Rowley Associates, United Kingdom
- Embest Technology Co Ltd, China ( Texas Instruments – Third party developer)

- Link Research, USA ( Texas Instruments – Third party developer)

### Texas Instruments University Program

The TI University Program is the intersection between TI technology, educators and the engineers of tomorrow. Our advanced analog and embedded processing technologies fuel the passions of students and educators in university labs worldwide. Established in 1982, the TI

University Program is a global program dedicated to supporting educators, researchers and students in facilitating the inclusion of TI analog and embedded processing in engineering classrooms, teaching and research labs, textbooks, design projects and course curriculum. By building relationships with educators, TI works to bridge the gap between the business and academic world. Incorporating TI technology into curriculum provides educators with the ability to teach real world concepts and complement this with a unique hands-on learning experience utilizing TI tools, making it more exciting, relevant and valuable to the student. Working with TI increases the knowledge base of future engineers so they interact with industry-standard technology before they graduate. TI helps develop the skills needed to tackle tomorrow's most challenging problems. By providing students access to the largest and most advanced analog and embedded processing portfolio, the TI University Program provides the tools necessary to inspire innovation and take engineering concepts from the book to the breadboard.

1. **Contribution and Expectation of EdGate Technologies under Texas Instruments India University Program**

As on-ground deliverables, EdGate Technologies will provide the following:

- a) **Curriculum:** EdGate will provide the Curriculum for Texas Instruments Labs . Vidyavardhini's College of Engineering and Technology, Vasai should find ways to incorporate curriculum in there syllabus.
- b) **Lab Setup:** The College will set up a lab as Centre of Excellence which will be entitled "Texas Instruments Innovation Lab " at its premises.
- c) **Faculty Development Program:** College Name will organize at least one faculty development program in its premise for its faculty members and faculty members of other Indian engineering institutions to teach TI Platform. The College will provide the infrastructure facility for conducting the faculty development program. EdGate Technologies Pvt Limited will help the college in conducting this program.
- d) **Workshops/Events:** If the College wishes to organize a national event in the area of TI Platform, EdGate Technologies Pvt limited will provide speakers.
- e) **Training Programs:** EdGate Technologies Pvt Limited will assist the college in organizing training programs/tutorials on topics related to TI Platform. Faculty members from the college who have undergone train-the-trainer program and who are certified by EdGate Technologies Pvt Limited as trainers may run certified training programs. College Name will provide certificates for the participants of such programs.(Valid for 1 year only). After 1 Year college can print the Certificates & Send to EdGate Technologies Pvt Ltd for approval.
- f) **TI Lab Engagement Program:** EdGate Technologies Pvt. Limited will help the College Name to get engaged into the TI Innovation Center Labs under this program

over a period of 3 months at three different levels i.e., Basic, Intermediate and Advanced.

- g) Under TI Lab Engagement Program, Vidyavardhini's College of Engineering and Technology, Vasai in association with EdGate Technology Pvt. Limited, may organized and conduct Summer/Winter Training Program for the students from all the nearby engineering institutes along with students from there college by charging moderate fees. EdGate Technologies will provide experts for such program on subsidies charges. EdGate will certify those students.
- h) In future if college wishes to upgrade lab with new tools. EdGate will provide university discounted price.

**2 Contribution from Vidyavardhini's College of Engineering and Technology, Vasai**

Faculty Mentor: Qualified Faculty of Electronics & Communication Engineering, Instrumentation & Control Engineering, Biomedical Instrumentation, Computer Engineering, and Information Technology (preferably with programming knowledge on C; C++) will be made point of contacts and will mentor interested students.

Vidyavardhini's College of Engineering and Technology, Vasai should set up lab based on below:

Sr. No.	Item	Quantity	Cost
	Cost of Texas Instruments Innovation Center: Below items will be delivered	Below Package	4.6 LAKHS

- a) Center: Institute will identify and maintain Texas Instruments Innovation Center with at least 10 desktops / laptops on latest home/ office configuration.
- b) Peripheral components: Institute will make arrangement for other equipment required for setting up the lab and for the maintenance of the lab.
- c) Financial: Institute will operate the center with the help of existing staff.

**Vidyavardhini's College of Engineering and Technology, Vasai – Texas Instruments Innovation Center (TIIC)**

EdGate Technologies aimed at establishing a collaborative bridge between companies and colleges with the objective of making students in the Engineering Colleges and Schools have a greater hands on experience in technologies related to :-

- a. Embedded systems
- b. Ultra Low Power Applications
- c. Analog System Design
- d. Internet of Things (IOT)
- e. Robotic lab
- f. DSP

These programs would go a long way to get the students hands on project experience in state of the art Micro-controller boards which are being developed by Texas Instruments. The experience will include hands on software and hardware skills which are highly desired by industry. These projects will provide an experiential appreciation of the latest technologies giving the students significant edge across multiple dimensions like, knowledge, enhanced employability, project experience, etc.

Vidyavardhini's College of Engineering and Technology, Vasai – TIIC will bring in the following core values:-

**Colleges:**

- Analog System Design Lab using ASLK PRO

- Ultra Low power Microcontroller Lab
- Internet of Things technology is based on the traditional Internet technology, development and extension, due to its extremely wide range of applications, involving almost all walks of life, and therefore in order to meet the needs of industry professionals, a growing number of colleges and universities applied for Internet of Things engineering professional, in teaching programs arranged in Internet of Things technology courses.
- Strong Branding and ability to attract better quality students
- Better ranking amongst the competition

**Students:**

- Exposure to state of the art technologies through hands on learning experience
- Better employability opportunities
- Showcase talent and innovation
- Participating in Texas Instruments Innovation Challenge.( If Texas Instruments conducts any contest centre will be connected with the same)

**Vision forward**

Texas Instruments hopes that once these Innovation centres are in place and running, If Texas Instruments conducts any contest centre will be connected with the same.

b. Should either Party be prevented from carrying out its contractual obligations as a result of a force majeure event lasting continuously for a period of 30 days, either Party shall be entitled, after due consultation with the other Party in an effort to come to a mutually acceptable arrangement, to terminate the MoU on written notice to the other Party, without liability.

**10. TERMINATION**

a. This MoU can be terminated on account of the following:  
i. If either party does not follow the terms & conditions  
ii. Can be terminated by either party by giving 15 business days advance notice in writing without any obligation or to assign any reason  
b. Should either Party breach or otherwise be in default of any of its obligations under or in terms of this Agreement and remain in default or fail to remedy such breach, if such breach is indeed capable of remedy, within 7 business days of receipt of written notice calling upon it to do so, the other Party will be entitled,

but not obliged, in addition to any other rights which it may have or remedies which may be available to it:  
i. To cancel this MoU, with or without claiming damages, provided that such breach constitutes a material breach; or  
ii. To obtain an order against such defaulting Party for specific performance, with or without claiming damages.
