Criteria Number: 5 **Criteria Name:** Student Support and Progression

Sub criteria Number: 5.1.2 **Sub-criteria Name:** Capacity development and skills enhancement activities

5.1.2 Following capacity development and skills enhancement activities are organized for improving students' capability

Summary Table

Year	Event	Total Number of Events	Event Number	Link
2022-23	Awareness of trends & Technology	103	62-164	Supporting documents
2021-22	Awareness of trends & Technology	78	241-318	Supporting documents
2020-21	Awareness of trends & Technology	67	360-426	Supporting documents
2019-20	Awareness of trends & Technology	49	472-520	Supporting documents
2018-19	Awareness of trends & Technology	40	551-590	Supporting documents

62	2022-23	Awareness of trends of Technology: Industrial Visit to Siyarams Silk Mills. To understand the Supply chain activities in a process industry	30-09-2022	45
63	2022-23	Awareness of trends of Technology: Industrial Visit to Siyarams Silk Mills. To understand the practical aspects of operation research ,inventory management.	30-09-2022	45
64	2022-23	Awareness of trends of Technology: Industrial Visit to Siyarams Silk Mills. To understand the practical aspects of Energy Audit, Energy Efficiency and conservation	30-09-2022	45
65	2022-23	Awareness of trends of Technology: Industrial Visit to M/s Accurate Springs Ltd. Vasai. To understand the use and implimentation of sensors and actuators to solve real life problems	23-03-2023	28
66	2022-23	Awareness of trends of Technology: Industrial Visit to M/s. Hindustan Apparatus Manufacturing Company, Vasai	14-04-2023	93
67	2022-23	Awareness of trends of Technology: Expert Lecture on "Seclection of Industrial Projects"	04-12-2023	65
68	2022-23	Awareness of trends of Technology: Industrial Visit to Airo Tech Compressors, Vasai East. Understanding air compressor design and fabrication processes	27-03-2023	106
69	2022-23	Awareness of trends of Technology: Recent Quality Management Tools and Its Industrial Application	27-03-2023	29
70	2022-23	Awareness of trends of Technology: Industrial Visit to M/s VARDHAMAN INDUSTRIES, Vasai. Industrial product and process development. To understanding recent trends	21-03-2023	96
71	2022-23	Awareness of trends of Technology: Industrial Visit to Alok Textiles Silvassa. To understand the practical aspects of Refrigeration and Air Conditioning in Textile Industry	18-03-2023	26
72	2022-23	Awareness of trends of Technology: Expert Lecture on Gear manufacturrig and industrial applications. Design and Development of Gear pump	03-10-2023	65

73	2022-23	Awareness of trends of Technology: Industrial Visit to M/s Synergy Water Park Rides Pvt. Ltd. Vasai. Design and manufacturing of fibre reinforced plastics and smart materials	04-04-2023	42
74	2022-23	Awareness of trends of Technology: Cadline Infotech	10/01/2023 to 14/01/2023	24
75	2022-23	Awareness of trends of Technology: Energy Conservation Week 2022. To create awareness about Energy. conservation among the citizens	14/12/2022 , 16/12/2022, 19/12/2022	21
76	2022-23	Awareness of trends of Technology: Industrial VIsit to Adani Thermal Power Station. Understand the Electricity Generation & transmission in Thermal Power station	12-10-2022	43
77	2022-23	Awareness of trends of Technology: Industrial Visit to Sunil Enterprise. Lack of Exposure to Industrial Processes.	21-10-2022	35
78	2022-23	Awareness of trends of Technology: Industrial Visit to sunil Enterprises for Lack of exposure to type materials and properties	21-10-2022	35
79	2022-23	Awareness of trends of Technology: Industrial Visit at Avni Enterprises, Dombivali (East). To understand the Biogas Production by using Muncipal Waste	21-10-2022	25
80	2022-23	Awareness of trends of Technology: Induatrial Visit to M/s. Alfa Pump and Systems Pvt. Ltd. Bhiwandi. Design and Development of Gear pump	10-08-2023	110
81	2022-23	Awareness of trends of Technology: Visit at MSRTC Bus Depot, Vasai West. To understand maintenance strategy and methodology used in public transport bus maintenance workshop	10-11-2022	143
82	2022-23	Awareness of trends of Technology: Expert lecture on Application of SAP in LSCM	10-02-2022	17
83	2022-23	Awareness of trends of Technology: Visit to Vasai Industrial Expo	10-12-2022	134
84	2022-23	Awareness of trends of Technology: Expert Lecture on "Industrial Case studies on Condition Monitoring and Machinery Diagnostic"	26-09-2022	142

85	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	22-09-2022	86
86	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	21-09-2022	35
87	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	20-09-2022	98
88	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	19-09-2022	98
89	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	19-09-2022	126
90	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	15-09-2022	98
91	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	15-09-2022	98
92	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	14-09-2022	88
93	2022-23	Awareness of trends of Technology: Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready	09-12-2022	36
94	2022-23	Awareness of trends of Technology: Expert lecture on Supply chain practices in Banking sector	17-08-2022	115
95	2022-23	Awareness of trends of Technology: Expert Lecture by Mr.Rizwan Shaikh , S.Crane, Mumbai. Design of EOT crane and career opportunity in this sector of crane design	22-07-2022	72
96	2022-23	Awareness of trends of Technology: Machine learning Workshop for Lack of Exposure to Machine Learning Concept	11-03-2022, 12-03-2022	50
97	2022-23	Awareness of trends of Technology: 30 Hrs workshop on STM 32	05-08-2022	68

98	2022-23	Awareness of trends of Technology: Poster Making	08-12-2022	40
99	2022-23	Awareness of trends of Technology: Stem Project	30/8/2022, 17/8/2022	120
100	2022-23	Awareness of trends of Technology: VLSI: Emerging Applications	10-08-2022	54
101	2022-23	Awareness of trends of Technology: Industrial Visit: Loqiq Embedded systems	14-10-2022	60
102	2022-23	Awareness of trends of Technology: Introduction to Latex	21-10-2022	50
103	2022-23	Awareness of trends of Technology: Exposure To DSP	21-10-2022	64
104	2022-23	Awareness of trends of Technology: Training Program on Krypton CPLD Board	13/12/2022, 23/12/2022	15
105	2022-23	Awareness of trends of Technology: SDP: Hands on Arduino & MATLAB	01-02-2023	74
106	2022-23	Awareness of trends of Technology: Emerging Trends in VLSI	2/1/2023 to 6/1/2023	70
107	2022-23	Awareness of trends of Technology: Industrial visit: BSNL Earth Station	18-02-2023	40
108	2022-23	Awareness of trends of Technology: Quizzards of Techno'23	14-02-2023	90
109	2022-23	Awareness of trends of Technology: Think Aloud	22-02-2023	26
110	2022-23	Awareness of trends of Technology: Seminar on Machine Learning and Its Industrial Applicatins	27-02-2023	45
111	2022-23	Awareness of trends of Technology: Workshop on RPI	9/3/2023, 11/3/2023	50
112	2022-23	Awareness of trends of Technology: All India Radio Industrial Visit	03-10-2023	30
113	2022-23	Awareness of trends of Technology: Industrial Visit to Accurate Helical Springs Pvt. Ltd.	23-03-2023	20
114	2022-23	Awareness of trends of Technology: TIFR Industrial Visit	25-03-2023	26
115	2022-23	Awareness of trends of Technology: Yantra' 22	23-09-2022	20
116	2022-23	Awareness of trends of Technology: Virtual Industrial Visit	15-09-2022	35
117	2022-23	Awareness of trends of Technology: Internship on "Web Development"	12-06-2023 to 23-06-2023	37

118	2022-23	Awareness of trends of Technology: Internship on "Android Application Development using Kotlin"	12-06-2023 to 23-06-2023	36
119	2022-23	Awareness of trends of Technology: Expert Lecture on "Next Generation Feautres of Modern Intel Processor"	13-04-2023	65
120	2022-23	Awareness of trends of Technology: Seminar on "Android"	28-03-2023	98
121	2022-23	Awareness of trends of Technology: National Webinar on "Digital Forensics Challenges and Future"	23-03-2023	34
122	2022-23	Awareness of trends of Technology: Expert Lecture on Test of Hypothesis for Quantitative Analysis	20-03-2023	52
123	2022-23	Awareness of trends of Technology: Seminar on "Linux uncovered"	15-03-2023	62
124	2022-23	Awareness of trends of Technology: Seminar on "Undertaking Literature Review"	01-02-2023	65
125	2022-23	Awareness of trends of Technology: Workshop on "Introduction to OpenMP and CUDA"	06-01-2023 to 07-01-2023	15
126	2022-23	Awareness of trends of Technology: Expert talk on "Blockchain Technology"	14-10-2022	30
127	2022-23	Awareness of trends of Technology: Workshop for internship with HKI	11-10-2022 to 12-10-2022	11
128	2022-23	Awareness of trends of Technology: Expert talk on "Projects"	22-08-2022	63
129	2022-23	Awareness of trends of Technology: Expert talk on "Introduction to Computational Neuroscience"	03-08-2022	186
130	2022-23	Awareness of trends of Technology: Expert talk on "Software Development Management Tools"	22-07-2022	63
131	2022-23	Awareness of trends of Technology: Expert talk on "Cyber Security"	22-07-2022	63
132	2022-23	Awareness of trends of Technology: SDP on Android Application Development using Kotlin	18-07-2022 to 29-07-2022	189
133	2022-23	Awareness of trends of Technology: SDP on Chatbot Development using Python and DialogFlow	18-07-2022 to 29-07-2022	82
134	2022-23	Awareness of trends of Technology: Seminar on Linux Administration	29-03-2023	38
135	2022-23	Awareness of trends of Technology: Seminar on Data Wrangling with Python	27-03-2023	119

136	2022-23	Awareness of trends of Technology: Seminar on Introduction to Drones and various Avionics Technologies Involved	14-03-2023	116
137	2022-23	Awareness of trends of Technology: Seminar on Microsoft's No Code/Low Code Platform	22-02-2023	212
138	2022-23	Awareness of trends of Technology: Seminar on BI (Business Intelligence) Tools	29-09-2022	112
139	2022-23	Awareness of trends of Technology: Workshop on "Hands-on-Training for IOT Technologies"	08-12-2022	22
140	2022-23	Awareness of trends of Technology: Guest Lecture on "Deep Learning & ANN"	17-09-2022	35
141	2022-23	Awareness of trends of Technology: Expert Lecture on " How to use UML & DFD diagram in their Mini Project"	22-09-2022	57
142	2022-23	Awareness of trends of Technology: Expert Lecture on "Infrastructure Security"	14-10-2022	18
143	2022-23	Awareness of trends of Technology: SDP on "Bootcamp: Java Programming"	12-12-2022 to 23-12-2022	28
144	2022-23	Awareness of trends of Technology: SDP on "Bootcamp: MERN"	12-12-2022 to 23-12-2022	20
145	2022-23	Awareness of trends of Technology: Seminar on "Secure the Unsecured"	01-09-2023	104
146	2022-23	Awareness of trends of Technology: Expert Lecture on "Application of Image Processing"	04-05-2023	16
147	2022-23	Awareness of trends of Technology: Guest Lecture on "Data Visualization using Tableau"	04-07-2023	46
148	2022-23	Awareness of trends of Technology: Guest Lecture on UI/UX Design	04-08-2023	11
149	2022-23	Awareness of trends of Technology: Industrial Visit	21-09-2022	60
150	2022-23	Awareness of trends of Technology: Industrial Visit	24-09-2022	63
151	2022-23	Awareness of trends of Technology: HACKATHON'22	07-10-2022 & 08-10-2022	230
152	2022-23	Awareness of trends of Technology: Seminar on "Straight from a CEO"	10-08-2022	28
153	2022-23	Awareness of trends of Technology: Know More about CapGemini	13-10-2023	80

154	2022-23	Awareness of trends of Technology: A seminar on "Role of Civil Engineering in Project Management".	21-07-2022	92
155	2022-23	Awareness of trends of Technology: Expert lecture on Plastic Waste Management	11-10-2022	47
156	2022-23	Awareness of trends of Technology: Engineering Geology Visit to Gargoti museum	24-12-2022	37
157	2022-23	Awareness of trends of Technology: STTP om Analysis and Design of Structure using E-TABs Software	29-05-2023 - 3-06-2023	17
158	2022-23	Awareness of trends of Technology: Awareness of Green Building Certification	08-04-2023	25
159	2022-23	Awareness of trends of Technology: SDP on development in Structural Engineering	3-02-2023 - 12-02-2023	14
160	2022-23	Awareness of trends of Technology: A seminar on "Importance of Research and Lab Teaching"	24-05-2023	39
161	2022-23	Awareness of trends of Technology: Product Vidya	23-09-2022	52
162	2022-23	Awareness of trends of Technology: Code-O-Fiesta	30-08-2022	22 Teams
163	2022-23	Awareness of trends of Technology: Code-o-fiesta	30-07-2022	22 Teams
164	2022-23	Awareness of trends of Technology: Product showcase	23-09-2022	50

62_Industrial Visit to Siyarams Silk Mills. To understand the Supply chain activities in a process industry

Date: 27/09/2022

To,
The Principal
VCET, Vasai West

Subject: Seeking permission for Industrial Visit on dated 30/09/2022

Industrial Visits inculcate exposure to practical applications and recet trends in the field of given subject. To provide practical experience to the final year mechanical engineering students and to understand the basics of Energy Management and Operation Research, an industrial visit is proposed at **Siyaram Silk Mills, Silvassa** on dated **30/09/2022 (Friday)**.

We have obtained permission from Siyaram Silk Mills Private Limited, Silvassa. The instruction time is not hampered as it's a project day for the students.

I would hereby request you to kindly grant permission to carry out industrial visit. The rules and regulations will be followed as per laid down by the University of Mumbai for Industrial visit.

We are total of **60** students and **03** faculties from the Mechanical Engineering Department.

01- S.R.Mane
02 - V.M. Palve
03 A.S. Prabhu

Yours faithfully

Prof. S. R. Mane
Assistant Professor
Mechanical Engg Dept.
VCET, Vasai West

Dr. U. V. Asolekar
HOD Mechanical
VCET, Vasai

Attachment:
1. **Itinerary for the visit.**

- Permitted
- Undertaking from parents to be ensured
- Students should follow protocol & ensure discipline

Industrial Visit Report

Date of Industrial Visit: 30/09/2022
Place of Industrial Visit: Siyarams Silk Mills Pvt Ltd

A visit to Siyaram Silk Mills, Silvasa was organized for BE students of Mechanical Engineering department for the subject Logistics and Supply chain Management. Students were explained the following things-

Introduction:

The goal of this industrial visit was to gain knowledge of where the company stands in its domain's Supply Chain and its functioning with regards to Inventory, Logistics, Maintenance & Quality Control. This report gives us a high-level overview of the industry that is from the raw materials to the completed products.

Inventory:

The company, maintains a Raw Materials Inventory, wherein their raw material, i.e., Yarn is maintained by their Head Office itself, and is sufficient for each order as it arrives from the head office. This shows us that the company works on a Order based system, meaning, they wait until a new order arrives before starting any manufacturing for future orders.

Logistics:

The company handles it's logistics via 3PL or 4PL system, clarification upon which was not disclosed by them except that they outsource it. Considering their business model, it would seem feasible to outsource their logistics, as there is a standard travel network between the company's yarn supplier as well as their further customer

Supply Chain:

Based on the business model as well as the product, it is safe to say that the company stands at a Secondary level Supplier/Distributor since they do not work with end customers, nor do they supply basic raw material. Their SC Drivers tend to be dependent on Location, Information & Procurement, as Logistics & Transportation are outsourced.

Quality Control:

In order to endure a standard quality for their line of fabric, the company performs a number of

tests on each of their products, that being:

1. Thread fine check, where the thickness, length and density of the threads is used to find its mass which should fall in a standardized range
2. Yarn Strength Testing, this testing is based on deflection and elastic limit principles to ensure a certain level of strength to all manufactured fabric
3. Color check is done based on shade card.
4. Threads are also checked for twists and intertwined threads.

This industrial visit enabled the students to understand basic engineering knowledge, environment and sustainability by knowing the industrial standard practices they followed and improved their communication skills during QnA session in the industry.

Siyaram Silk Mills Industrial Visit Report **1/10/2022**

A visit to Siyaram Silk Mills Industrial Visit was organized for BE Students of the Mechanical Engineering Department for the subject of Operation Research. Mr Swapnil Mane, Ms Priti Vairagi, Ms Avantika Prabhu along with 60 students of BE A and BE B visited 30/9/2022 Siyaram Silk Mills Industrial Visit. Students were divided into groups of 4. Engineers from plant explained the Inventory Management, Operation of Industry, etc to the students. Students were asked to write a report on it after the visit. The attendance sheet is attached.

Students were explained the Following :

1) Store Management
2) Inventory Management
3) Operation of working
4) Quality Control

Report by : Ms Priti Vairagi
Subject Incharge, Operation Research

64_Industrial Visit to Siyarams Silk Mills. To understand the practical aspects of Energy Audit, Energy Efficiency and conservation

Date: 27/09/2022

To,
The Principal
VCET. Vasai West

Subject: Seeking permission for Industrial Visit on dated 30/09/2022

Industrial Visits inculcate exposure to practical applications and recet trends in the field of given subject. To provide practical experience to the final year mechanical engineering students and to understand the basics of Energy Management and Operation Research, an industrial visit is proposed at **Siyaram Silk Mills, Silvassa** on dated **30/09/2022** (Friday).

We have obtained permission from Siyaram Silk Mills Private Limited, Silvassa. The instruction time is not hampered as it's a project day for the students.

I would hereby request you to kindly grant permission to carry out industrial visit. The rules and regulations will be followed as per laid down by the University of Mumbai for Industrial visit.

We are total of **60** students and **03** faculties from the Mechanical Engineering Department.

01- S.R. Mane
02 - V.M. Palve
03 A.S. Prabhu

Yours faithfully

Prof. S. R. Mane
Assistant Professor
Mechanical Engg Dept.
VCET, Vasai West

Dr. U. V. Asolekar
HOD Mechanical
VCET, Vasai

Attachment:
1. Itinerary for the visit.

- Permitted
- Interfacing for parents to be ensured
- Students should follow protocol & ensure discipline

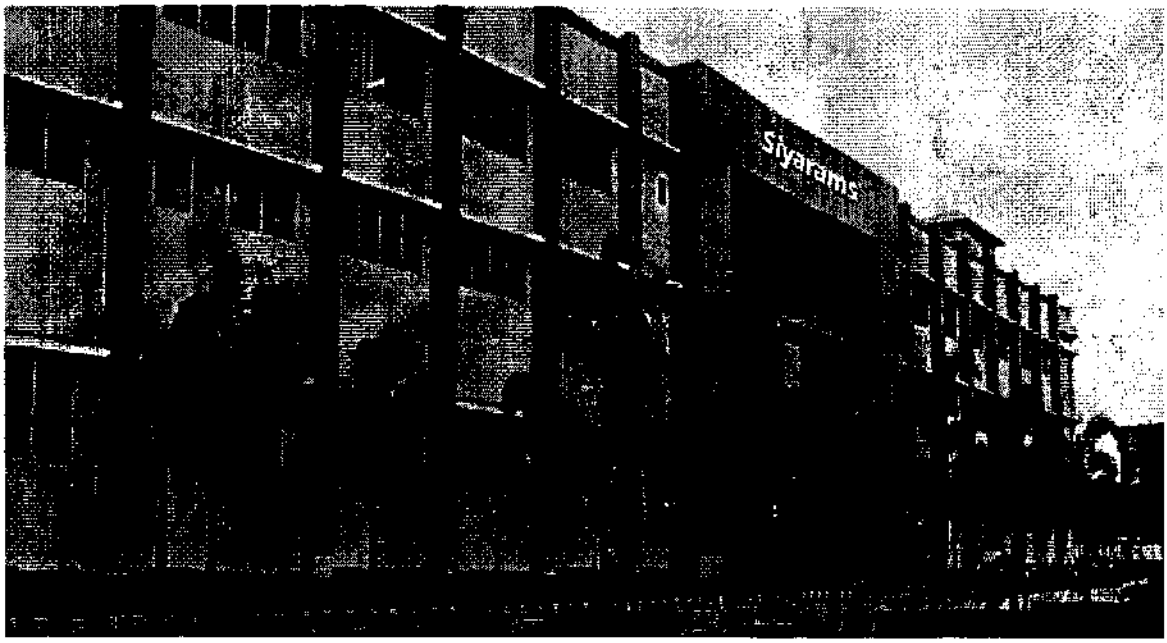
Department of Mechanical Engineering Vasai (W), Pin-401202



Industrial Visit Report

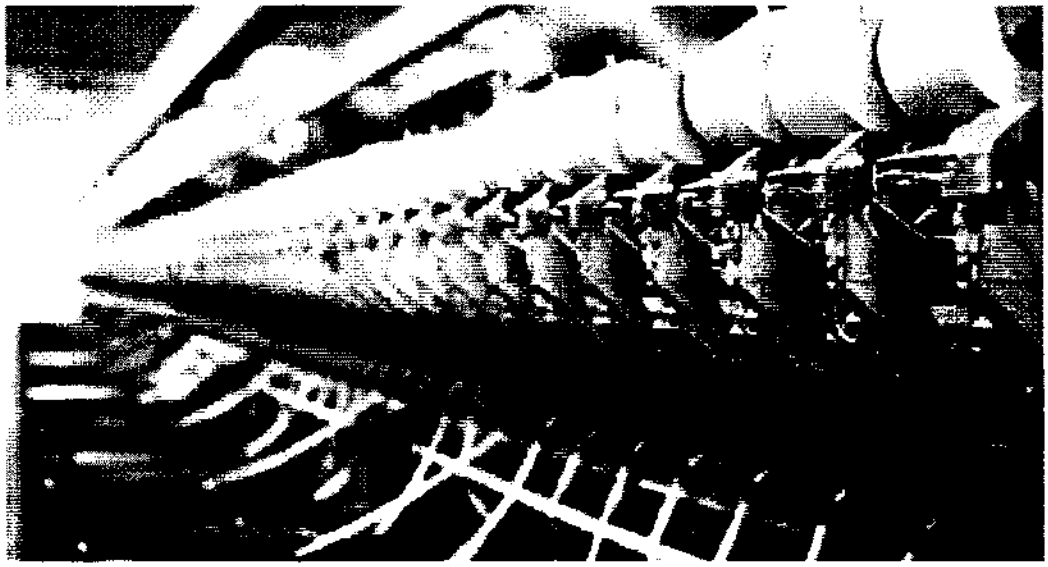
Date of Visit:
30/09/2022
Place of Visit:
Siyarams` Silk Mills Pvt Ltd
Plot No. 367, Saily Road, Opp. Castrol,
Silvassa. - 396230, Dadra & Nagar Haveli

On the 30th September 2022, the students visited the famous 'Siyarams industry' at Silvassa Siyaram Silk Mills Ltd, also known as Siyaram's and as SSM is an Indian fabric & garment manufacturing unit. It has associated chain of retail stores and branded showrooms. Siyaram's was incorporated in 1978. It has its headquarters in lower Parel, Mumbai and silk mills in Silvasa. They have mainly three weaving techniques and make specially handcrafted suiting fabrics which are ideal for every season. They employ in air jet weaving (92.20%), Pinacol weaving (93.01%) and in Sulzer weaving (91.42%).

They mainly work with lycra, polyester, cotton, wool, PV yarns (35%viscose and 65%polyester) and cotton lycra yarns. They source the yarns from various yarns manufactures like reliance and indulge themselves in weaving processes. Students were divided into 3 groups, each consisting of 10 students and each group was led by the Siyaram's coordinator. He explained them about the weaving techniques, quality control and weaving process that takes place in the mills. They were given safety lessons and were told to take necessary precautions while visiting the plant.

Group photo and weaving machinery at Siyarams Industry

Wrap reel machine was used for measuring the fineness and count in the fabric. The students calculated the counts for a cotton yarn. An evenness tester was also used for testing the evenness of the yarns. The unevenness of yarns will deteriorate the mightiness of yarns, and increase the end breakage rate in the spinning, and the increase of the end breakage rate will directly limit the speed of the machines and reduce the productivity. The tensile strength was also measured by the tensile machine to know the level of strength provided by fibres or yarns. The yarn was stretched and its strength was determined.



After testing the yarns are separated according to their quality and strength, and are sent for weaving. When a fabric returns from the weaving machine it is sent for grading test. Manual grading takes place in the presence of huge lights. The worker checks for defects and if there are any weaving defects it is sent to repairing department. A fabric is checked minimum 5 times by 5 different workers. The fabrics are then segregated according to maximum and minimum defects and are sold at different prices in the market.

Wrap reel machine at Siyarams Industry

Once the whole grading and checking process is done the fabric is rolled neatly, creases are removed and is sent for garment manufacturing. This was the whole process which was explained to the students, and it was a learning experience for students. They learned many new processes and techniques and were amazed at the elaborate process of weaving. The students got a lot of exposure and an idea of work at industry. The trip was very important for an aspiring designer. Students not only gained knowledge but also had loads of fun learning and exploring.

The meeting ended with the faculty in charge thanking the entire managing team at Siyaram's Textiles, Silvassa.

65_Industrial Visit to M/s Accurate Springs Ltd. Vasai. To understand the use and implimentation of sensors and actuators to solve real life problems

Vidyavardhini's

Academic Year 2022-23

Report on IV to Accurate Helical Springs Pvt. Ltd. 2022-23

Program	Industrial Visit To **Accurate Helical Springs Pvt. Ltd.**
Date	23rd March 2023
In association with	IEEE
Faculties	Dr. Sunayana Jadhav, Ms. Trupti Shah, Mr. Sanjay Lohar, Mr. Yogesh Pingle
Description	The IEEE Student Branch organized an enriching Industrial Visit to Accurate Helical Springs Pvt. Ltd. on the 23rd of March, 2023. This visit was meticulously planned and executed under the guidance of our esteemed faculties, Dr. Sunayana Jadhav, Ms. Trupti Shah, Mr. Sanjay Lohar, and Mr. Yogesh Pingle. During this visit, students had the unique opportunity to explore the inner workings of Accurate Helical Springs Pvt. Ltd., a leading company in the field of helical springs manufacturing. The event provided students with practical exposure to the industry, allowing them to witness the latest technologies and best practices in action.
Objectives of Visit	**The objectives of Visit are:** 1. Practical Learning: To provide students with practical insights into real-world industrial processes. 2. Networking and Career Opportunities: To facilitate connections with industry professionals and explore potential internship and career pathways.
Event Highlights	1. Hands-On Experience: Students gained firsthand knowledge by observing manufacturing processes and technologies at Accurate Helical Springs Pvt. Ltd. 2. Expert Insights: Industry professionals generously shared their expertise, offering valuable insights into the latest trends and innovations in the field. 3. Networking Opportunities: The visit provided a platform for students to connect with professionals, potentially opening doors to future career opportunities and internships. 4. Bridge Between Theory and Practice: The event successfully bridged the gap between theoretical knowledge acquired in the classroom and practical application in an industrial setting. 5. Enhanced Career Development: This experience not only enriched students' academic knowledge but also contributed to their professional growth and development, setting the stage for future success.

Feedback from Participants

Attributes	Average Score of marking given by participants (out of 3)
1. Kindly rate the organization and management of the Visit.	2.763754
2. Are you able to analyze the utility/performance benefits of products?	2.689223
3. Are you able to apply your knowledge of Electronics and Communication to understand how the product works?	2.597613
4. Are you interested in providing sustained technical solutions to society's social problems?	2.812267

Which section you liked the most?

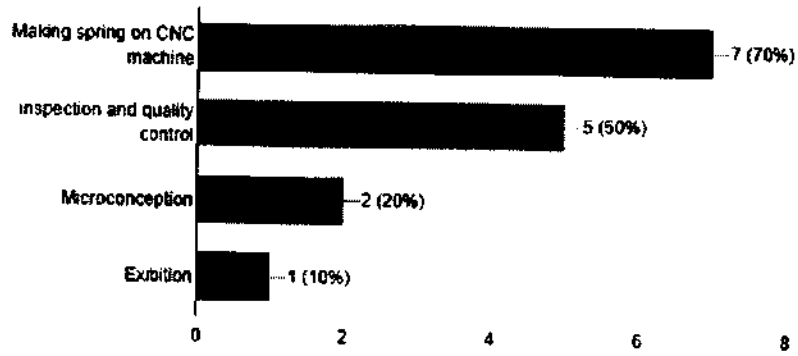
10 responses



Outcomes of the Visit

1. Practical Knowledge: Students gained practical insights and a deeper understanding of industrial processes, enhancing their knowledge.
2. Networking Connections: Participants established valuable connections with industry professionals, potentially opening doors for internships and future career opportunities.
3. Career Readiness: The visit contributed to the students' career readiness by providing real-world exposure and a bridge between academic learning and industry application.

66_Industrial Visit to M/s. Hindustan Apparatus Manufacturing Company, Vasai

To,

Date: 28th March 2023

The Principal

VCET Vasai

Sub: Industrial visit -Regarding

Respected sir,

The industrial visit is being planned at M/s. Hindustan Apparatus Manufacturing Company(HAMCO) for Second year Mechanical Engineering students of Div. A and Div. B. for the subject Fluid Mechanics The visit will be scheduled as follows

Sr No	Class	Date	Time	No of students
01	S.E. A-Mech	8th April,2023	11. 00 am to 12.15 pm	37
02	S.E. B-Mech	8th April,2023	12.15 pm to 2.30 pm	76

During the visit students will able to learn the different types of fluids, their properties evaluation using measuring equipments, oil properties measurement instrument and such other precision measuring equipments will be demonstrated and may be operated by students.

Students will report to the industry campus by their own transport. We will accommodate students at company premises. So, we request you to allow us to visit the plant on above date. Also I request you to approve one day Office duty leave (ODL) and TA for the same.

The address of industry is

M/s. Hindustan Apparatus Manufacturing Company (HAMCO), 12 / 2, Patel Industrial Estate, Gokhiware, Behind Range Office Vasai (East), Dist: Palghar-401 208 Maharashtra, India. Phone : +91-7977637260/9168656961 / 62.

An Industrial Visit to

Hindustan Apparatus Manufacturing Company (HAMCO Bhiwandi

8th April 2023

Report of Expert Session

Objective-
To create awareness of fluid properties and their measurement

Session Outcomes

1. To understand the types of fluid
2. To evaluate the properties of the fluid mathematically
3. To experiment the different fluid property measuring instrument
4. To measure the properties of the fluid

Description
The students of SE Mechanical were successfully completed the industrial visit to M/s. **Hindustan Apparatus Manufacturing Company (HAMCO)** on 8th April 2023. The details of the visit are as follows

- The students undergone the types of fluid and their behaviour with pressure, temperature during the course Fluid Mechanics.
- They were used many different properties of the fluid during the numerical solutions in class.
- However they were unaware of those properties that are evaluated experimentally using measuring instruments.
- The method of measuring the properties of the fluid using the instruments like density measuring instrument, viscometer, bomb calorimeter, flash point measuring instrument, specific gravity measuring instrument are available for experiment for different liquids.
- The students were able to see the manufacturing of the instruments at the industry premises ,their mechanical components and their relative motion.
- The students were seen the pully and belt motion transmission, gear drive, Geneva mechanism for relay operation.
- During the visit Mr. Chirag Shah, the sales Manager introduces about the viscometer and density measuring instrument to all the students.
- The students were themselves measure the viscosity and density of the fluid.
- Bomb calorimeter was also experimented with the petrol fuel sample. The students were seen the real practical performance in front of them.
- Prof. Vinay Patel also guide the students and demonstrate the flash point instrument to the students
- Total 93 students were visited the industry. The visit in overall was very successful and students were very happy with the field visit to **Hindustan Apparatus Manufacturing Company (HAMCO)**
- Mr. Chirag, gave a presentation of their product line where all series of fluid measuring devices were demonstrated to the students. He also demonstrated the autoclave for pharmaceutical industries, the furnace and cooling freezers also to the students.

He make students aware of importance of their product in hazardous applications where manual safety is a major concerned like oil industries for boiler oil, Grease , pharmaceutical industries etc.

- Students were visited to store where the spares of the all measuring instruments both mechanical as well as electronic panels were kept for service applications. The students were

To,

The Principal,

VCET,

Vasai (West)

Report On,

"Expert Lecture on Selection of Industrial Projects"

Date And Venue:

The session took place on 12th April 2023, 12.00 noon at Vidyavardhini's College of Engineering and Technology [VCET], Vasai.

Agenda:

The session was organized under the "Student Development Program" by the Department of Mechanical Engineering with the aim of better understanding in selecting the major project for the final year of graduation. The session or knowledge workshop also discussed various areas and domains where the research could be done through the major projects. The session also highlighted the need for industrial projects to be taken up and how to approach the industry for the same. A briefing on how to write conference papers and discussion on various reputable journals was also done. The session was carried out by an experienced speaker **Mr. Anand Bhise, Director of "Mechatol Engineering Solutions"**, a company based in Pune.

Attendance:

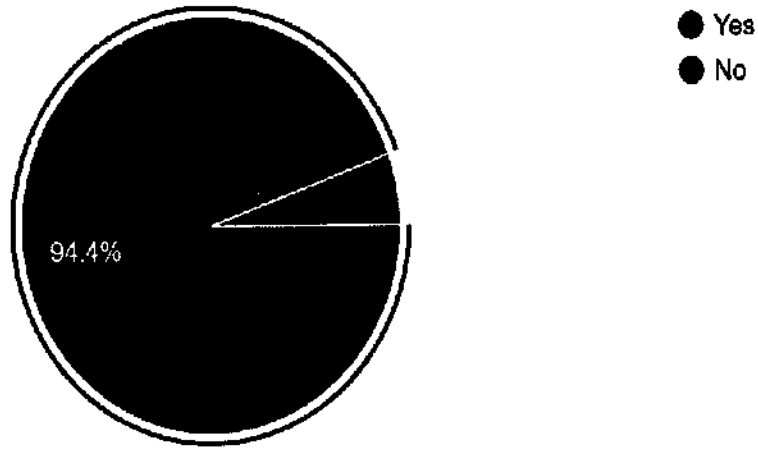
The workshop was specially designed and aimed for TE A and B Div Mechanical Engineering students, in all approximately **65** students participated.

Feedback Form Result:

A feedback form was circulated among the participants of the session to get an idea of how the students thought about the whole program that was conducted. So that the training session can be improved based on the feedback of the participating students

Was the content of entire Workshop Sessions useful to you ?

36 responses



Was the theory and example problems executed to your satisfaction ?

68_Industrial Visit to Airo Tech Compressors, Vasai East.
Understanding air compressor design and fabrication processes

REPORT ON INDUSTRIAL VISIT.

INTRODUCTION

The Department of Mechanical Engineering, Vidyavardhini's College of Engineering and Technology, Vasai had organized a visit to Airo Tech Enterprises, Vasai East on 27 March 2023. The plant deals with the manufacturing and sale of Air Compressors. A total of 106 students from Third Year Mechanical Engineering participated in the visit.

OBJECTIVE

The objectives of this Industry Visit were:

1. To learn the functioning of Reciprocating compressors
2. To learn the functioning of Screw compressors
3. Understand the best and sustainable practices employed in the manufacturing of these compressors

ABOUT AIRO TECH ENTERPRISES

Airo-tech enterprises is a reputed manufacturer of air compressor, industrial air compressors, electric air compressors and compressor spare products. It is a reliable entity in the domain of air compressors and thus offer durable and efficient range of products made in compliance with the market norms. Their sophisticated technical set up and professional team enables them to undertake the production of advanced range of industrial products as per the specifications provided by the customers. They follow innovative techniques to come up with the latest solutions for unmatched air compressors, spare parts, and other products. They also have different types of air compressors to match the requirement of the customers.

PRODUCTS OFFERED:

a) 1 HP to 60 HP Reciprocating, Lubricated, Non-lubricated air compressors,
b) Rotary Screw compressors,
c) Refrigerated Air Dryer,
d) Water Chiller.
e) 5HP To 175HP Rotary Screw Air Compressors,
f) Air Line Filters,
g) Moisture Separators
h) Pneumatic Pipe Line

Mr. Kiran addressing Students at AIRO-Tech Industry

Students learning air compressor fabrication at AIRO-Tech Industry

VISIT QUIZ LINK:

https://docs.google.com/forms/d/14tpsPagjFCp0QLUVSsU4sE4YU4xCiXm6Td4hJ_RsaGw/edit

CONCLUSION:

The Industrial visit aided in understanding the process of compressor selection, components and manufacturing process. The visit also helped the students to understand the functioning and applications of Reciprocating and Screw Compressors.

(V.D. Patel).

69_Recent Quality Management Tools and Its Industrial Application

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

Department of Mechanical Engineering

Vasai (W), Pin-401202

April'2022

REPORT ON:

ORIENTATION SESSION ON RECENT QUALITY MANAGEMENT TOOLS AND ITS INDUSTRIAL APPLICATION

SUBJECT: **TQM**

BE-MECHANICAL

Under the guidance of Prof. **Mukund Kavekar**

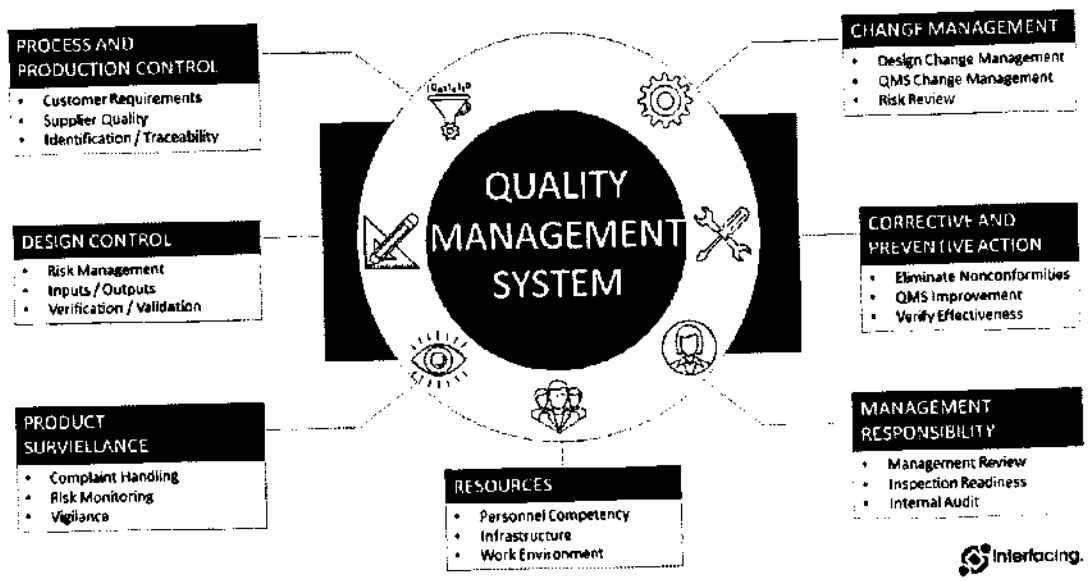
An orientation session on Recent Quality Management Tools and Its Industrial Application was organized by **CADLINE INFOTECH** under the guidance of **Prof. Mukund Kavekar.**

Cadline is a well Experienced & high-quality IT Educational Institute established in 2021 in Palghar District with excellent plus features to offer fully packaged for engineers From Quality basic & vocational training courses and services to CAD, 3D Modelling, FEA , and CMM.

This orientation's main aim was to gain basic knowledge and understanding of Quality Management Systems, LEAN SIX SIGMA.

This report gives us an overview of the industry which is as follows:

Quality management tools are designed to help organizations improve the quality of their products or services by identifying and addressing quality issues. There have been several recent developments in quality management tools, including the following:

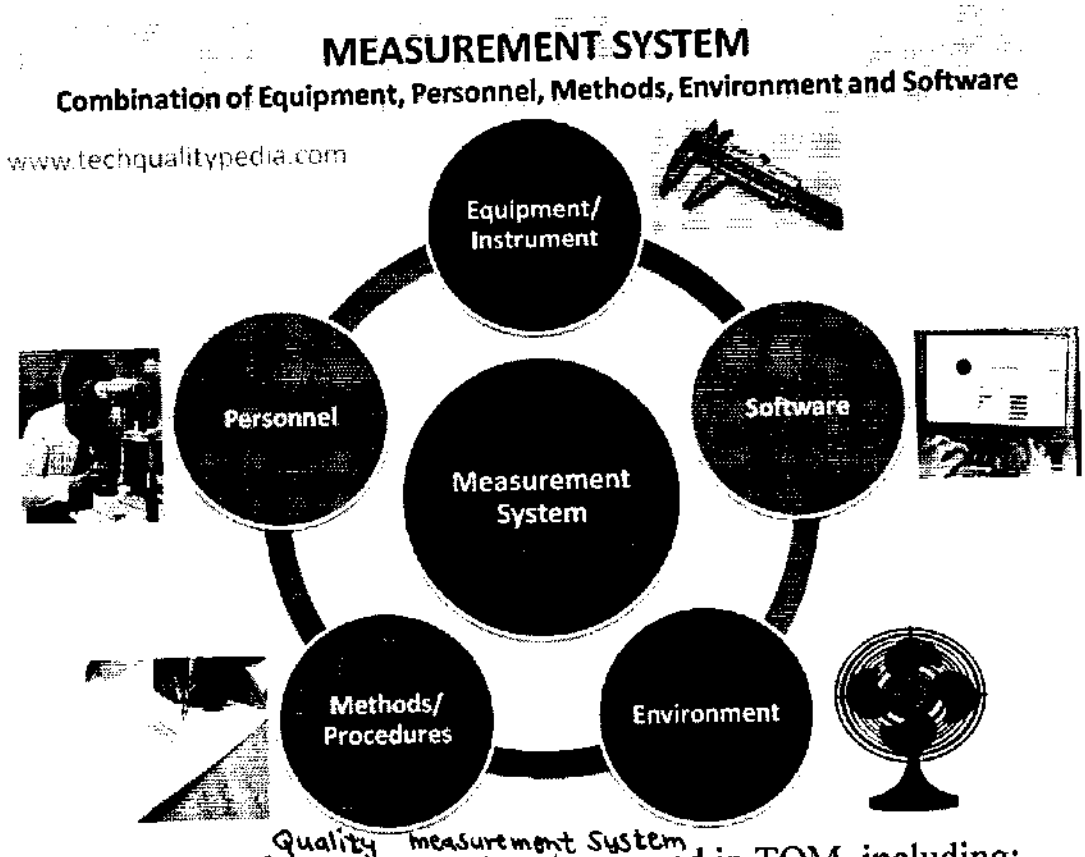


Quality Management tools

1. **Six Sigma**: Six Sigma is a data-driven approach to quality management that aims to minimize defects and improve efficiency. Six Sigma has been widely adopted by

Measurement systems are an essential component of Total Quality Management (TQM) as they enable organizations to track and evaluate their performance in various areas and identify opportunities for improvement. The measurement system used in TQM should be designed to provide accurate and reliable information that can be used to support decision-making processes and drive continuous improvement.

MEASUREMENT SYSTEMS IN TQM



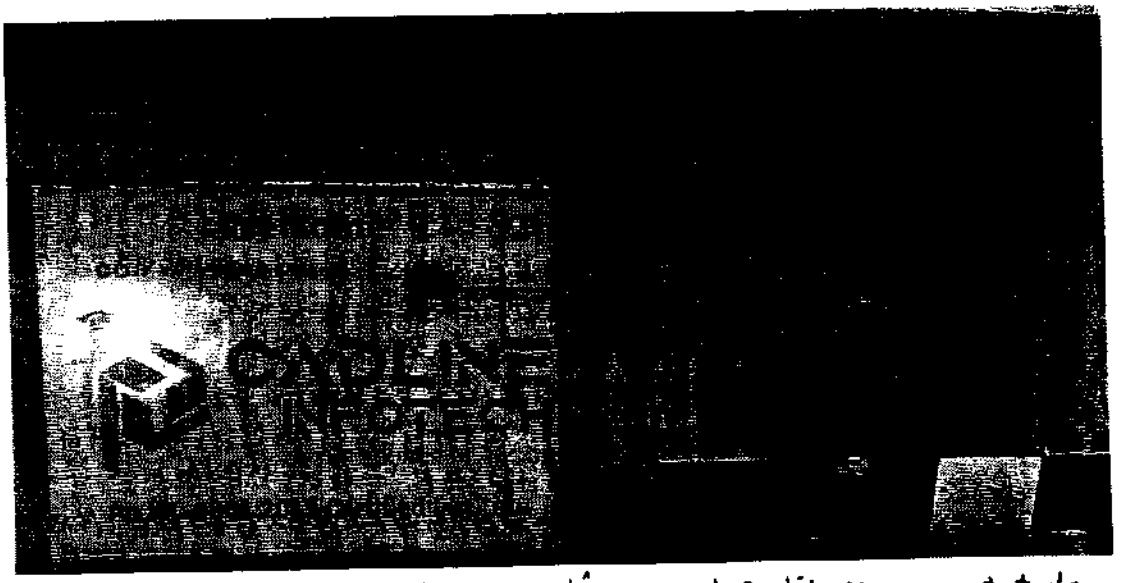
There are several measurement systems used in TQM, including:

1. **Key Performance Indicators (KPIs)**: These are measurements that track progress towards specific goals and objectives. KPIs can include metrics such as customer satisfaction, defect rates, on-time delivery, and employee turnover.
2. **Statistical Process Control (SPC)**: SPC is a method of monitoring and controlling a process by collecting and analyzing data. This involves using statistical tools such as

manufacturing and service industries, including healthcare, banking, and telecommunications.

2. **Lean Manufacturing**: Lean Manufacturing is a production management philosophy that focuses on reducing waste and increasing efficiency. This approach has been widely adopted in manufacturing industries, but has also been applied to healthcare and service industries.
3. **Total Quality Management (TQM)**: TQM is a management approach that focuses on continuous improvement and customer satisfaction. TQM has been widely adopted in manufacturing industries, but has also been applied to service industries such as healthcare and education.
4. **Quality Function Deployment (QFD)**: QFD is a tool used to translate customer needs into product or service requirements. This tool has been widely used in the automotive industry, but has also been applied to other industries such as healthcare and financial services.

Overall, these quality management tools have been widely adopted across various industries, including manufacturing, healthcare, and financial services. Organizations that implement these tools can improve their quality, reduce waste, and increase customer satisfaction.

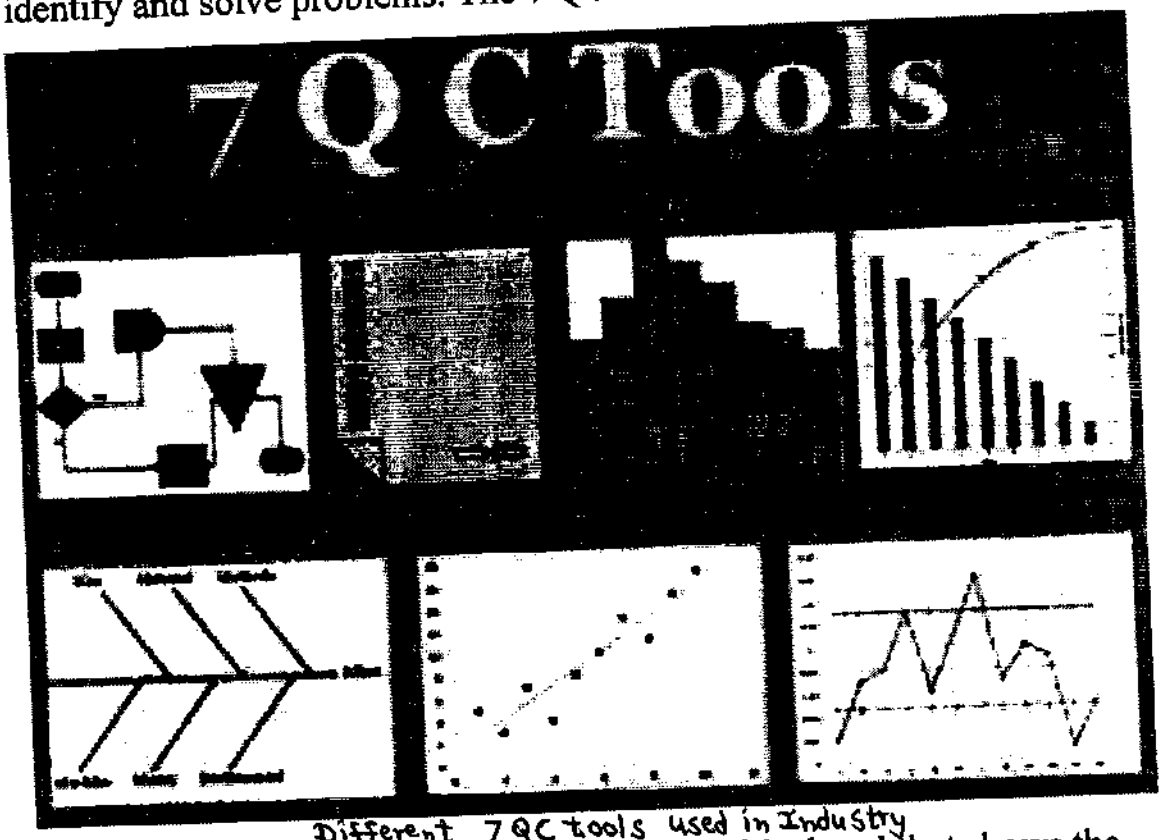


Mr. Nilesh Galfade presenting recent Quality Management tools

Overall, measurement systems in TQM are essential for identifying areas for improvement, monitoring progress towards goals, and ensuring that quality standards are being met. By using these measurement systems, organizations can continually improve their processes and achieve their quality objectives.

SEVEN QUALITY CONTROL TOOLS

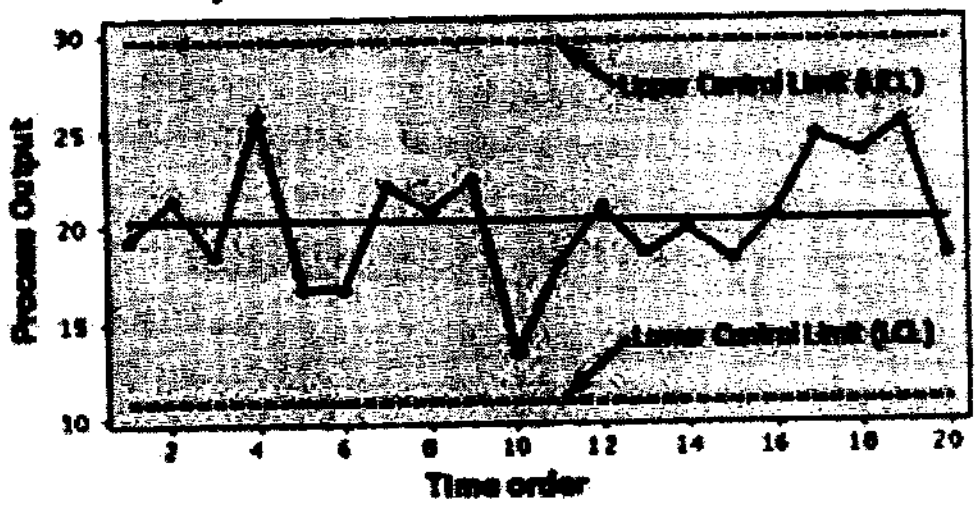
The Seven Quality Control Tools, also known as the 7 QC Tools, are a set of tools used in quality control and quality management to help identify and solve problems. The 7 QC Tools are:

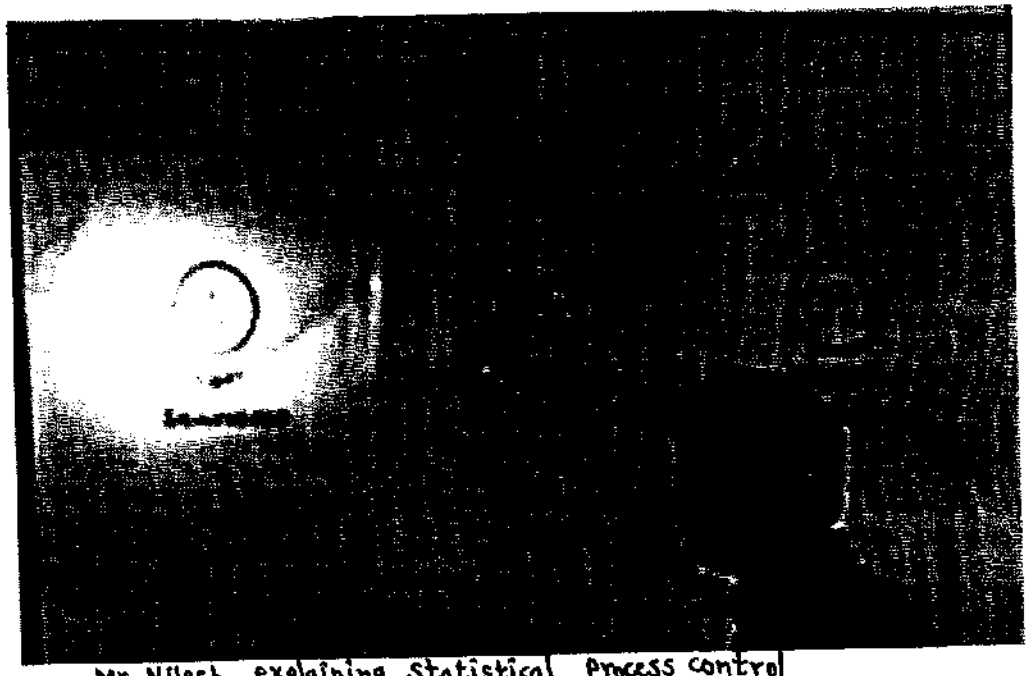


Different 7 QC tools used in Industry

1. **Pareto Chart**: A Pareto Chart is a graphical tool that shows the frequency and cumulative impact of different types of problems. It helps to identify the most significant issues and prioritize them for action.
2. **Cause and Effect Diagram (Fishbone Diagram)**: This tool helps to identify the potential causes of a problem by breaking it

control charts to identify when a process is out of control and needs to be adjusted.





Mr. Nilesh explaining Statistical Process control

3. **Six Sigma**: Six Sigma is a data-driven approach to quality improvement that aims to reduce defects and variation in processes. It involves using statistical tools and techniques to identify and eliminate the causes of defects.
4. **Benchmarking**: Benchmarking involves comparing a company's performance to that of other companies in the same industry. This helps identify areas where the company can improve and provides a basis for setting performance goals.

down into smaller, more manageable components. It is called a Fishbone Diagram because it resembles a fishbone, with the problem at the head of the diagram and the causes branching off like bones.

3. **Check Sheet**: A Check Sheet is a simple tool for collecting data and tracking occurrences. It involves creating a table or form to record data and then using it to track and analyse trends.
4. **Control Chart**: A Control Chart is a statistical tool used to monitor and control a process over time. It helps to identify when a process is out of control and needs to be adjusted.
5. **Histogram**: A Histogram is a graph that shows the distribution of data in a set. It helps to identify patterns and trends in the data.
6. **Scatter Diagram**: A Scatter Diagram is used to show the relationship between two variables. It helps to identify whether there is a correlation between the variables.
7. **Flowchart**: A Flowchart is a visual representation of a process. It helps to identify potential areas of improvement in the process and visualize how the process works.

These 7 QC Tools are widely used in quality control.

70_Industrial Visit to M/s VARDHAMAN INDUSTRIES, Vasai. Industrial product and process development. To understanding recent trends

To,

The Principal,

VCET,

Vasai (West)

REPORT ON INDUSTRIAL VISIT

Name of the Industry - **M/s. Vardhaman Industries. Waliv, Vasai E**
Date- **21/03/2023**

Objective: The objective of visit is making the students aware of practical applications of the course Press Tool Design and to give them an insight about the way industry works in real life.

Mr. Harsad Shah (Proprietor of Vardhaman Industries) gave us a complete insight of the operations performed in his factory which was very much related to the content of the syllabus in the current semester (Sem VI), in the Mechanical Engineering. Basic knowledge of press and die, discussed, and showed some critical deep drawing tools with various defects and try-out problems. He also discussed the design aspect of deep draw tools and means of saving raw material. This was valued learnings to the students for their professional career in mechanical and production engineering.

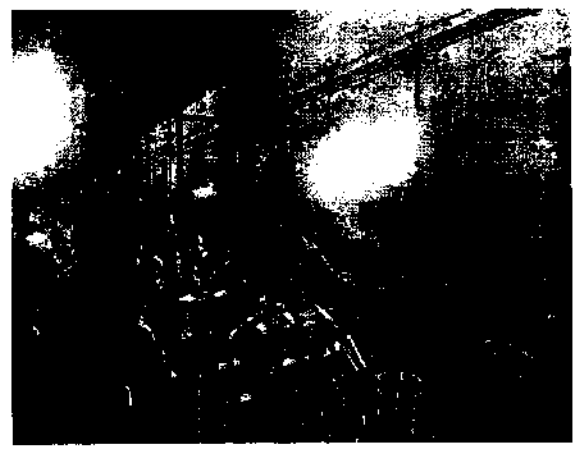
Prof. Sanjay Lohar explained the components and assembly details of hydraulic and mechanical presses and explained how the presses is carried out from raw material to finished component. The difference between the operation and structure of both Mechanical and Hydraulic press was explained.

The components of the Mechanical press were as follows:

1. Bed
2. Rack
3. Guides
4. Eccentric shaft
5. Gear unit
6. Brake
7. Clutch
8. Flywheel

The press was loaded with a blanking die. The press tonnage was specified as 50 tonnes. The material for blank was 0.3 mm thick SS 430, imported from

Taiwan. The plant had manual feeding mechanism and manual winding and unwinding mechanism. As a part of safety press had a pedal operated clutch



Mr. Harshad showing machinery at Vardhaman Industry

Hydraulic Press

Press where designed for deep drawing operations and where termed as deep draw press. The specified press tonnage was 200 tonnes and the material used was SS200 series most preferably SS201 or SS202.

The Sequence of operation was as such-

a. **First Draw-** in order to avoid fracture or tearing of material in drawing operation the drawing operation was done in two stages. The primary aim of this process is radius development. Thereby they ensure a proper radius at the flng and at the base.
b. **Second draw** - Second draw is used to give the blank its predetermined depth.
c. **Spinning** - the third step in the sequence is used to remove wrinkling from blank and this also increases the depth of the component. The wrinkling is inevitable because the shape of drawn component is conical.
d. **Trimming** - this process is carried to remove excessive material from the flange surface. This process was done in two stages-
   i. Trimming
   ii. Fine trimming
e. **Beading** - the trimmed sharp edges of the components were curled inward.
f. **Buffing** - this operation is used to give a good surface finish.

71_Industrial Visit to Alok Textiles Silvassa. To understand the practical aspects of Refrigeration and Air Conditioning in Textile Industry

To,

The Principal

VCET, Vasai West

Subject: Permission for Industrial Visit for the Subject of HVAC & R (TE Mechanical)

Respected Sir,

Industrial Visit inculcate exposure to practical applications and recent trends in the field of given subject. To provide practical experience to the third-year mechanical engineering students and to understand the basics of Heating Ventilation and Air Conditioning, an industrial visit is proposed at **Alok Industries (Textile), Silvassa on dated 18/03/2023 (Saturday).**

We have obtained permission from Alok Industries. Silvassa and the correspondence mail is attached for your reference. The visit is mandatory for the subject of HVAC & R.

We would hereby request you to kindly grant permission to carry out industrial visit. The rules and regulations will be followed as per laid down by the University of Mumbai and College policy for the Visit.

We are a total of **80 students with 03 faculty members** (Mr. Swapnil Mane, Mr. Rishabh Melwanki and Mrs. Mamta Mate) from the Mechanical Engineering Department.

Yours faithfully

S. R. Mane, Asst. Prof.
Mechanical Engg. Dept.
VCET, Vasai West

Dr. U. V. Asolekar
HOD Mechanical
VCET, Vasai

To Principal
For your
Approval

1.Syllabus Copy of HVAC&R

2.Itenary for Visit

3. Industry permission letter

- Permitted.
- Case to be taken
- Undertaking from parent
- Discipline to be maintain

16/3/23.

Industrial visit to Alok Textiles

Vidyavardhini's College of Engineering & Technology

(Approved by AICTE, DTE Maharashtra and Affiliated to University of Mumbai, NAAC Accredited)

Department of Mechanical Engineering

(NBA Accredited)

Alok Industries Limited Visit Report **18/03/2023**

Students of TE A and TE B boarded private bus from college and visited Alok Industries. Mr. Rishabh Melwanki, Mr. Swapnil Mane, Mrs. Mamta Mate faculties visited the plant. The industry is situated at Dadra and Nagar Haveli. It is India's largest fully integrated textile company with a dominant presence in the Cotton and Polyester segments. Students were able to see the HVAC&R ducting system which is required to maintain proper dry bulb temperature and RH near the production line.

Students were explained about importance of relative humidity RH in different processes of textile industry like yarn production, weaving etc. Also students were shown Central air conditioning system and ducting system of Alok industry.

Report by:

72_Expert Lecture on Gear manufacturrig and industrial applications. Design and Development of Gear pump

To

The Principal.

VCET, Vasai

Subject: Report on seminar entitled "Gear Manufacturing and industrial applications" conducted by Dr Deepak Sonwane

Respected Sir

For the subject of kinematics of machinery a seminar on power Gear Manufacturing was conducted by Dr. Deepak Sonwane on 10/03/23. He has explained how to select power transmission devices for specific applications He has briefed the applications of various power trammision devices in industrial applications. He has explained classifications of gears and their applications along with design procedures. He also explained how the material selections for gear can be done. He had explamed various Gears manufacturing processes including coming, forging, extrusion, powder metallurgy, and blanking. He has also explained gear hobbling. The session was ended with question answers about the use, applications of gears in mini project For then session total 78 students were present through online mode on 10/03/23 from 2 to 4 pm

73_Industrial Visit to M/s Synergy Water Park Rides Pvt. Ltd. Vasai. Design and manufacturing of fibre reinforced plastics and smart materials

To,

Date: 31st March 2023

The Principal

VCET Vasai

Sub: Industrial visit -Regarding

Respected sir,

The industrial visit is being planned at **M/s. Synergy Water Park Rides Pvt. Ltd. Vasai** for final year Mechanical Engineering students of Div. A and Div. B. for the subject Department Level Optional Course 5(Composite Materials, Smart Materials and Micro Electro Mechanical Systems) The visit will be scheduled as follows

Sr No	DLO5	Date	Time	No of students
01	Composite Materials	4th April,2023	11. 00 am to 12.00 pm	21
02	Smart Materials(A-Div)		12.05 pm to 1.00 pm	58
03	Smart Materials(B-Div)		1.00 pm to 2.00 pm	46
04	MEMS		2.00 pm to 3.00 pm	20

During the visit students will able to learn the different types of materials, composite reinforcements, matrix, smart materials, resins, automatic machines for composite material manufacturing, testing methods, non-destructive testing of composites, repair of composite and smart materials,

Students will report to the industry campus by VVMC Buses on their own expense. We will accommodate students at company premises. So, we request you to allow us to visit the plant on above date. Also I request you to approve one day Office duty leave (ODL) and TA for the same. The faculty members on duty for Industrial visit are

1. Dr.Ashish J.Chaudhari
2. Mr.Vinay Patel
3. Mr.Gaurav Badwe

The address of industry is

M/s. Synergy Water Park Rides Pvt. Ltd.,

House no 129, Survey no 80, Hissa No 2, Sativali, Haloli, Maharashtra 401404

Thank you sir,

Dr. Ashish Chaudhari **Mr.Vinay Patel** **Mr.Gaurav Badwe**

An Industrial Visit to

M/s. Synergy Water Park Rides Pvt.Ltd
VASAI
04th April 2023

Report of Expert Session

Objective-
To study the manufacturing process of composite materials

Session Outcomes

1. To understand the types of composite materials.
2. To evaluate the properties of different composites
3. To understand the behaviour of smart materials
4. To apply the methods of manufacturing of composite material

Description
The students of BE Mechanical Engineering were visited to M/s. Synergy Water park Rids Pvt. Ltd, Vasai on 4th April 2023 for the actual demonstration of composite material manufacturing, smart material composition . The company is involved in manufacturing of fibre reinforced plastic sheets for water park .
The details of the visit are as follows

- The students were learnt the different constituents of materials required for manufacturing of fibre reinforced plastic sheet composite.
- The students actually seen the fibre glass sheets at the company premises. The fibre glass sheets of different grades are utilized for the manufacturing of FRP sheet as per load.
- The fibre glass is so thin and combined in the form of a fabric and bobbins are available for laying in the mould.
- The fibre glass sheets are cut as required and laid in the very big sizes of mould first. There are two parts of the mould. Once the fabric was laid in the mould. There were two to three layers as per strength requirement are spread in the mould first. The upper part was then kept and clamed in all sides by the c-clamps. Here students were actually visualizing the hand lay up composite manufacturing.
- On other side the resin and dye were heated to required temperature in the furnace. After reaching required temperature, the resin was poured through the gate and process continues till the resin flows out through the risers. The pressure 3 to 4 bar was maintained for the resin during supply in the mould.
- The resin is mixed with hardener and dye for colour of the sheet. The composition of the resin was kept secret and it's a trade policy of the industry.
- It took 24 hours to completely cool the mould and opening for final FRP sheet.
- The vacuum beg process also was observed by the students for delicate components which are difficult by hand lay up process.
- Some water park components like face of a joker was intricate and difficult to manufacture by hand lay up. In such cases , the vacuum begging process was applied.
- In this process the resin moulding was carried out in complete vacuum. The vacuum was created by vacuum pump and a strong plastic bag.
- Here the resin is a smart material as it is in liquid state which after getting in contact with atmosphere, will become solid and hard enough to sustain strength the sheet.
- The students were very happy to see the manufacturing actually that they learned in class.

- After manufacturing of the FRP sheet, the finishing processes was visited by students. Total 42 students and 3 faculty members were visited the industry.
- The finishing process includes grinding of the FRP components for any wastage, Unwanted material during moulding, The students learnt about the grinding operation and efforts needed to do the finishing. The find dust was created during the grinding which was collected in dust collector using vacuum pump mechanism designed and developed by VCET students only. This shows their concerned to the environment protection.
- The quality check of the finished products was carried out by non-destructive testing method.
- The final product was given a barcode. This system is unique and found very much efficient for organizing the store and spares of the water park. Scan the barcode, will gave all information of manufacturing, specification, persons who developed it etc.
- The company managing Director Mr.Noorul Haque was explaining all the plant details to the students with interest. We the faculty members were also enjoyed the visit to the Synergy plant.
- By way of this industrial visit the important programme out comes PO1, PO2, PO3, PO6, PO8, PO10, PO12, PSO1 and PSO2 were achieved.

Thank you,

Dr. Ashish Chaudhari

Report of Adjunct Faculty Lectures

Class: BE MECH A.Y 2022-23

Department of Mechanical Engineering had organized Adjunct Faculty lectures for the student of BE Mech (A & B) Division on topic of **Creo Design Software** on 09 Jan 2023 to 13 Jan 2023 (30 Hrs). The speaker for the lecture was Mr. Milind Patil who is Sr. Engg, Cadline Infotech, Virar.

Prof. Kamlesh Bachkar introduced and welcomed speaker Mr. Milind Patil. Further, Dr. Uday Aswalekar, HOD Mechanical introduced the topic of seminar and elaborated importance of Creo software to the students.

CREO Design software training program was taken on below mentioned topics:

1. Introduction of CREO software.
2. What is Product Design?
3. Role of Design Engineer in manufacturing Industries.
4. Conceptual Part modelling.
5. Sketcher
6. Part modelling.
7. Surface modelling.
8. Sheet metal Modelling
9. Product Assembly.
10. Detailing and Drawing
11 Data Exchange (Import and Export file) and importance.
12. Product Analysis

Program Outcomes relevant to this seminar were – PO1, PO2, PO3, PO5, PO8, PO12, PSO1, PSO2.

75_Energy Conservation Week 2022. To create awareness about Energy. conservation among the citizens

16

Vidyavardhini's College of Engineering & Technology

Academic Year 2022-23

Report on Energy Conservation Day 2022

Program Energy Conservation Day 2021

Date 14/12/2022

Venue

1. Vidyavardhini's College of Engineering
2. Municipal outskirts of Vasai West region for Bicycle Rally
3. Podar School, Vasai West
4. New English School, Nirmal, Vasai
5. St. Annes High School, Vasai West
6. Shree Taramai Vartak Memorial Academy, Virar

Description Every year, Department of Mechanical Engineering, Vidyavardhini's College of Engineering and Technology (VCET), Vasai (west), organizes "Energy Conservation Week". The event is organised on "World Energy Conservation Day" i.e 14th December to highlight the importance of energy consumption and its use in our day-today life.

The contents covered in this program are:

Sr No	Name of Activity	Date	Duration
01	Inauguration of Energy Conservation Week 2021 by Mrs. Rashmi Joshi,	14/12/2022	3 pm to 5 pm
02	Expert Talk on the Roadmap for Electric Vehicles – Earth EV	15/12/2022	3pm to 5 pm
03	**Bicycle rally to create awareness about Energy conservation and energy Efficiency**	16/12/2022	10 am to 12 pm
04	Renewable Energy Startup talk by Mr. Ratnesh Shingrupe, Quasar Innovative Solutions.	19/12/2022	10 am to 12 pm
05	Outreach Activity by the Faculty of Mechanical Engineering Department at various schools in the VVCMC Region	20/12/2022	9 am to 5 pm

Organized By Coordinators: Mr Swapnil R Mane, Assistant Professor, Mechanical Engineering
Chief Guest: Mrs. Rashmi Joshi, Environment Consultant, Mumbai

Vidyavardhini's College of Engineering & Technology

Academic Year 2022-23

Guest Lecture by Mrs. Rashmi Joshi on Energy and Environment
14th December 2022
Venue: Ground Floor Seminar Hall (3pm to 5pm)

About the Guest:
Name: Ms. Rashmi Joshi
Designation: Environment Consultant
No. of Participants: 21
Phone no. 9819599851
Mail id rashmijoshi72@rediffmail.com
Currently working as Environment Consultant for last 10 years with a special focus on Composting,
E-waste Collection Drives, Seed ball making and Kitchen Gardening

Educational Qualifications
M.A. (Greek Philosophy), NET Exam Qualified

Experience
- Lecturer at Ruparel Junior College, Khalsa Degree college, Government Law College and Mumbai University
- Public awareness related to environment issues-
- Creating awareness among students in particular and society in general by delivering lectures, guidance, training and implementation of composting projects at around 50 plus schools, colleges and 100 plus housing societies.
- E-waste collection, plastic waste collection and sending it for recycling – from approximately 50 colleges of Mumbai, Navi Mumbai, Thane, Pen (Raigad) & Ratnagiri; 200 plus housing societies and 25 Schools and other institutions including the corporates.
- Organisation of E-waste collection drives in 40 colleges, 25 schools and 50 residential colonies of Mumbai, Dombivali, Thane & Navi Mumbai and collected around & 20 ton of E-waste and its disposal for scientific recycling to Government approved recycler. This way the E-waste reached the recycling facility instead of reaching the dumping ground.
- Similarly, composting projects were completed at several locations and few hundred tons of wet waste in the form of kitchen waste and garden waste was prevented from reaching the dumping ground.
- Conducted around 2000 plus awareness lectures on Solid Waste Management in various Educational Institutions, Housing Societies & other Institutions.
- I was also involved in organization of Plastic Waste Collection Drives in various educational and other institutions.
- Conducted webinars in around 100 institutions during lockdown till date. Awareness interviews on All India Radio as well as Media Coverage in various Newspapers.

Awards and Achievement
- Felicitated by Thane Municipal Corporation
- Felicitation by F/North Ward of MCGM.
- Naari Swashakti Puraskaar.
- Guru Nanak College Award
- Prasar Bharati Award for work in Swachh Bharat Abhiyan
- Kartrutvavaan Naariratna Gaurav Puraskar 2020
- Corona Warrior Awards (from 4 Organizations)
- Rajyastariy Covid Yodhha Samaj Rakshak Mahasanman 2021
- Adarsh Corona Warrior Award received on 1st May 2021.
- Served a critical cancer patient continuously for two years.

Mrs. Rashmi Joshi addressed about the scientific findings that a global energy transformation is needed to address the growing risks associated with accelerated global environmental change. Anthropogenic pressures on the planet have reached a level where large-scale deleterious impacts, or even catastrophic ones, can no longer be excluded. She also mentioned that such impacts have the potential to undermine human development.

MS. Rashmi Joshi addressing Students during Seminar

This new global social environmental predicament is closely associated with energy. Atmospheric emissions from energy use contribute to multiple environmental impacts. In addition to climate change, atmospheric pollutants may limit net primary productivity of ecosystems, and lead to the acidification and eutrophication of land and seascapes. Energy and Environment

interact, reinforcing impacts on social and environmental systems, in complex ways that are not always well understood. She talked about Climate change and GHG emissions.

Students asked about how they can contribute to reducing the impact of Global Climate change to which she replied to follow the SDG's which can cause a greater impact on the sustainability index of the country.

The session ended with a vote of thanks by Mr. Vishwas Palve, Assistant Professor at the Department of the Mechanical Engineering.

Report of
Expert Talk on Process of Innovation Development Technology Readiness Level(TRL),Commercialization of Lab Technologies and Tech-Transfer
19th Dec 2022

Objective: The process of Innovation Development in Solar Energy Conservation and Start up Strategy

About the Speaker: The guest speaker for the session

1. Speaker:- Mr.Ratnesh Shingrupe

   Founder- and CEO of Quasar Innovative Solutions – India (Qinso),Thane Maharashtra

Brief introduction

Quasar Innovative Solutions – India have received four national awards in System Designing in Renewable Technology. Years of R & D in Industry has gained confidence to attempt for extremely difficult levels of Projects Implementation. Challenges inspires Quasar Innovative Solutions – India to work & resolve them with best possible solutions. Environment & Innovative research are the fields which inspires them to work passionately for betterment of the society. We wish for the better business relations in coming time.

Mr.Ratnesh graduated in Computer Science from Mumbai University established his own start up by this venture. Mr.Ratnesh is a motivational speaker for the students since long time and today he is presenting about the innovation development technologies ,TRL and ways of commercialization

Brief discussion of the event

Mr.Ratnesh is very close to solar energy work and established his own Quasar Innovative Solutions – India (Qinso) for manufacturing of solar panels. Mr.Ratnesh is actively involved in the solar photovoltaic plant installation and commissioning.

Brief Description of the event

Mr. Ratnesh elaborate about the clear goals and vision. In view of Mr.Ratnesh. the vision should be created keeping long term goals. This vision only powers the enterprise to travel on the path of growth. This vison set by the founder of entrepreneur should be the vison of all employee working in the enterprise. Its not only to earn higher salary or higher position in the company.

The broad vision may have small small goals in order to fulfill the vision. Time to time after reaching to set targets, the vision of the company could be improvised.

Mr.Ratnesh highlight of getting inspired by the vision. All employees together will prepare the action plan the vision. If all focused on vision then the small goals are automatically fulfilled.

Mr. Ratnesh emphasis that see the dreams when you are awake not when you are sleeping. Those you can follow and put forward steps towards fulfillment of them.

Mr.Ratnesh established his own competence keep consistency in the technology readiness level with respect to market. Mr.Ratnesh explained about the TRLs for establishing an enterprise rather who could mae his/her way towards entreprises based on TRL, MRL. The review of market should be very important and one should keep the plan in hand to execute the technology on time.

Be diligent and and inspired for technology transfer with industries ,research labs for progess of the product in term consumer market gain.

Overall the session was excellent and may videos shared by Mr.Ratnesh during installation of the solar plants by their venture. The mathematics of calculating the project cost and quoting also discussed in details. Students were actively participated in the Q and A session. Total 52 students and 4 faculty members were participated in the event.

Thank you

highlights of power plant.

- The first power station in the country with two units of 250 MW.
- Commercial operation started in January 1996.
- Employs a blend of washed coal and imported coal as its source of fuel.

Special Features:

Many features distinguish the Dahanu plant as India's one of the finest power generation plants. These include :

- The CW Systems are equipped with concrete volute pumps to facilitate the smooth functioning of Sea water condenser cooling system.
- Complete automatic control & monitoring of the three cylinders reheat condensing turbine, boiler and auxiliaries by Digital Distributed Control, Monitoring and Information System (DDC-MIS) to maintain trouble free output.
- Highly advanced Supervisory Control and Data Acquisition (SCADA) system for complete centralized control over transmission and distribution.
- In a bid to ensure minimization of plant's adverse environmental impact, the ADTPS has installed:
- A chimney of 275.3 mtrs height for proper emission/ dispersion of boiler exhaust
- An Electronic Electrostatic Precipitator (ESP) of 99.9% efficiency to collect fly ash with In-house developed Ammonia dosing system to improve collection efficiency.
- Four ambient air quality monitoring stations to measure hazardous gases such as PM10, PM2.5, SO2 and NOx
- Flue gas Desulphurization unit of 100% capacity having efficiency greater than 90%, for removal of Sulphur and its oxides.
- Advanced air pollution monitoring system.

Energy Conservation:

- ADTPS has made remarkable achievements on parameters of average unit heat rate, Auxiliary power consumption (APC), Specific Oil Consumption & DM water consumption by consistently maintaining them lower than the national average for a generation unit of this size.

76_Industrial VIsit to Adani Thermal Power Station.
Understand the Electricity Generation & transmission in Thermal Power station

A Report on Industrial Visit at Adani Thermal Power station, Dahanu.

Place of Industrial Visit: - Adani Thermal Power Station, Dahanu
Date of an Industrial Visit:- 10/12/2022
Visit duration: - 9.00 am to 4.00 pm.
Total number of Student: - 43
Class: - S.E. Mechanical
Name of the faculty members in this visit
Mr. Vishwas Palve
Mr. Swapnil Mane

Objective:

1. To understand the layout of thermal power plant.
2. To understand the electricity generation and transmission in thermal power plant.
3. To understand the roll of energy conversion in thermal power plant
4. To understand the environmental and safety norms related to thermal power plant.

Outcome:

Students will be able

1. To explain the various components of thermal power plant.
2. To explain the electricity generation and transmission process.
3. To understand environmental impact cause by power plant.

Students reported to college campus at 6.45am Mr. Vishwas Palve addressed the students about the safety and precautions to be taken during the industrial visit. Mr. Swapnil Mane took the attendance count of students and verified the student's safety shoes. Bus departed to Adani thermal power at 7.00am and reached plant at 9.30 am. 9.30am to 10.00 am had breakfast.

Mr. Adesh(Thermal power plant visit Co-ordinator) organised Training from 10.00 am to 12.15pm in Training room. He explained the process & Utilities of thermal power plant using the scale model. Process from coal handling to power generation.

12.15 to 1.00 pm was lunch break.

Site visit started at 1.00pm starting with coal handling, Boiler, control room, Turbine, and flue gas stream. Visit ended at 4.00pm with Vote of thanks.

- ADTPS has proactively adopted following energy conservation measures...
- Replacement of old HP module with refurbished module which has improved efficiency
- Installation of Variable Frequency Drive in Condensate Extraction Pumps, Coal Mill Seal Air Fans, PA Fan.
- Vapour Absorption Air Conditioning systems.
- Energy Efficient lighting systems.
- Solar street lighting.
- Corrocoating of CW Pumps & ACW Pumps.
- Replacement of old IP module with new module which has improved efficiency
- The Energy Management Cell at ADTPS consists of qualified Energy Managers and Auditors, who continuously drive the energy conservation agenda with defined energy policy, procedures and work instructions. Internal and external energy audits of various systems carried out at regular interval.

77_Industrial Visit to Sunil Enterprise. Lack of Exposure to Industrial Processes.

Date: 20/10/2022

To,
Mr. Sunil Panchal
Sunil Enterprises
Padmavati Industrial Estate
Vasai East

Subject: Permission for Industrial Visit.

Respected Sir,

I, Mr. Tusharkumar D. Raut, Assistant Professor, Department of Mechanical Engineering, VCET, Vasai Road West. I would like to bring my Second Year Third Semester Mechanical Engineering students to your esteemed industry on 21/10/2022. The industrial visit is organised to make students aware about actual production systems in plastic and polymers.

Kindly permit for the same.

Thank You.

Mr. Tusharkumar D. Raut
Assistant Professor
Department of Mechanical Engineering
VCET, Vasai Road (West)

Permitted & Student Visited on 21/10/22.

SUNIL ENTERPRISE

A Report on Industrial Visit of S.E. Mechanical Engineering At Sunil Enterprise Padmavati Industrial Estate , Vasai (East)

• Place of Industrial Visit: - Sunil Enterprise & Mangalam Pvt Ltd. Padmavati Industrial Estate , Vasai (East)

• Date of an Industrial Visit:- 21/10/2022

• Time of the Visit:- 10.30 am to 1.30pm

• Total Student Strength Visited:- 35

• Class :- S.E. Mechanical

• Name of the faculty members in this visit: -

1. Prof. T. D. Raut

For the S.E. Mechanical Engineering Students, the visit arranged at Sunil Enterprise Padmavati Industrial Estate, Vasai (East) to give students industrial exposure and to make them familiar with topic moulding of polymers from subject Production Process.

1. The welcome session of students and Professor arranged by Mr. Sunil Panchal.

2. Brief explanation about establishment of industry, major vendors and approx. production.

3. Then students were grouped into batches of 25 and each batch went to visit each section. i.e. injection moulding section, blow moulding section and extrusion section.

4. Principle and working of each section were explained in detail to students by Supervisors present there.

5. The raw material section was introduced along with process of inventory management.

6. After visit of each section student's queries were answered by Sr. Engineer.

7. Mr. Sunil Panchal shared their experience in the field of polymer industry and encouraged students to join polymer industry after graduation.

79_Industrial Visit at Avni Enterprises, Dombivali (East). To understand the Biogas Production by using Muncipal Waste

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

Department of Mechanical Engineering

Vasai (W), Pin-401202

October 2022

Industrial Visit Report

Under the guidance of Prof. Vinay Patel

Date of Industrial Visit: 21/10/2022

Place of Industrial Visit: Avni Enterprises Biogas Plant

The goal of this industrial visit was to gain knowledge of how a biogas plant is being operated by the company to generate electricity. This report gives us an overview about the working of biogas plant that is from the accumulation of biowaste in the digester to the generation of electricity using biogas genset.

Introduction :

The company is an authorized technology holder of BARC NISARGRUNA TECHNOLOGY for the installation of Biogas Projects and has been working in the field of waste management for the past 12 years. They have already installed over 30 Biogas projects. In addition, they work with malls, hotels, and housing complexes to manage waste and provide affordable mechanical composting solutions. They are constantly working to control and reduce the environmental impact of municipal solid waste. Their plants' total installed capacity is 75000 kg of wet waste per day. Since 2008, approximately 10000 MT of waste has been treated in our plants, preventing 500000 m3 of methane from escaping into the atmosphere and saving Rs.2,000,000 in LPG.

Objective :

The sole objective of this industrial visit was to gain an overview knowledge about the processes involved in the biogas generation and electricity generation from it. This report gives us a high-level overview of the NISARGRUNA biogas technology.

Utilities & Processes :

NISARGRUNA BioGas Technology was developed by BARC for the treatment of organic waste. The biogas plant operates on the Biomethanation principle, in which thermophilic microorganisms treat organic waste to produce methane gas and organic manure.

Observation :

Benefits of a Biogas Plant

A very convenient method of dealing with biodegradable waste providing a clean, sanitary, and pollution-free environment. The system's top covers are airtight, so there is no odour or smell as well as no flies, mosquitoes, rats, or rodents. Electricity and water consumption are extremely low, saving on waste transportation. Smokeless fuel can be used for cooking, boilers, and power generation.

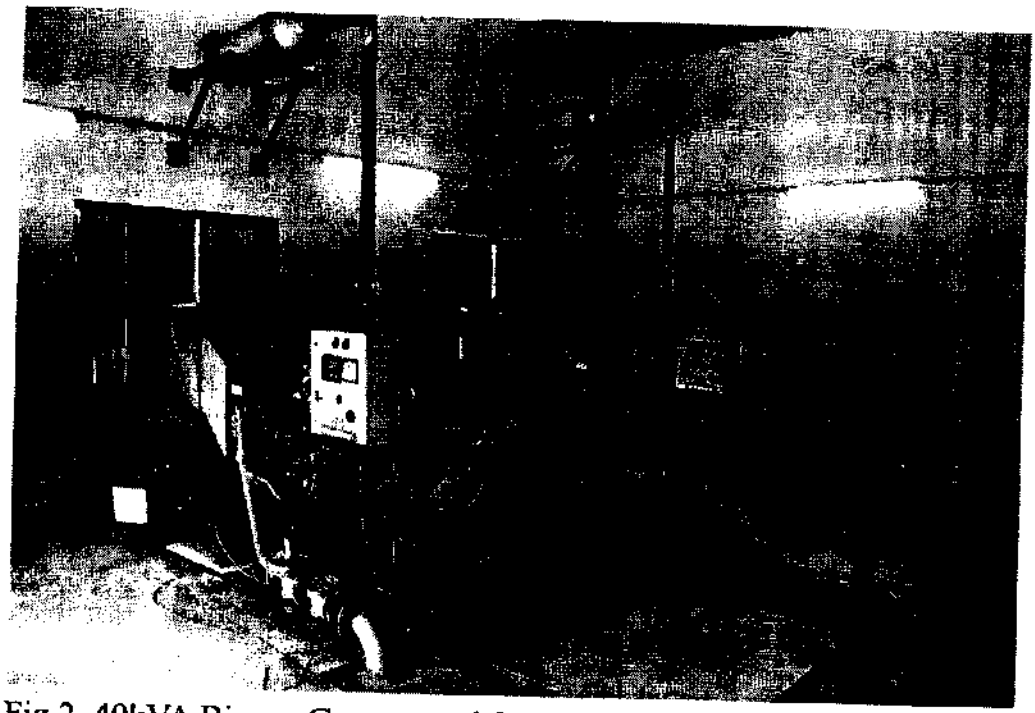

Fig 2. 40kVA Biogas Genset used for electricity generation

By installing special type of burners, gas can be used directly for cooking.
For the production of hot water, gas can be fed into a bio generator or micro turbine, and electricity can be generated to power street lights in the surrounding area eliminating the use of diesel.

The scrubber is used for removing CO2 and H2S from biogas whereas chiller is used for dehumidification in order to be employed in internal combustion engines as well as to cool down the biogas, eliminating corrosive condensations that can compromise the combustion process and damage the engines components.

The biogas plant is made up of the following components.

Mixer / Crusher: Segregated organic waste (free of plastic, paper, metal, clothing, and glass) is charged into a mixer with water. It is crushed here to produce a consistent slurry. The organic waste slurry is mixed with hot water and charged into the primary digester. The primary digester is primarily used as a hydrolysis/acidification tank for the treatment of suspended solids. Compressed air is used, which aids in aeration. After the system reaches equilibrium in the first 4-5 days, the fresh slurry entering the tank will displace an equal amount of digested matter from the top into the main digester tank.

Main Digester: The main digester serves as a methane fermentation tank and is where BOD reduction occurs. A dome collects the bio gas (gas holder). It is submerged in water and fits like a cap on the mouth of the digester. The biogas produced by slurry is collected in a dome and rises upward because it is lighter than air. To transport the biogas, MS / GI piping is provided. The treated overflow of the main digester is connected to sludge drying beds or manure pits. Natural slurry drying yields high-quality organic manure.

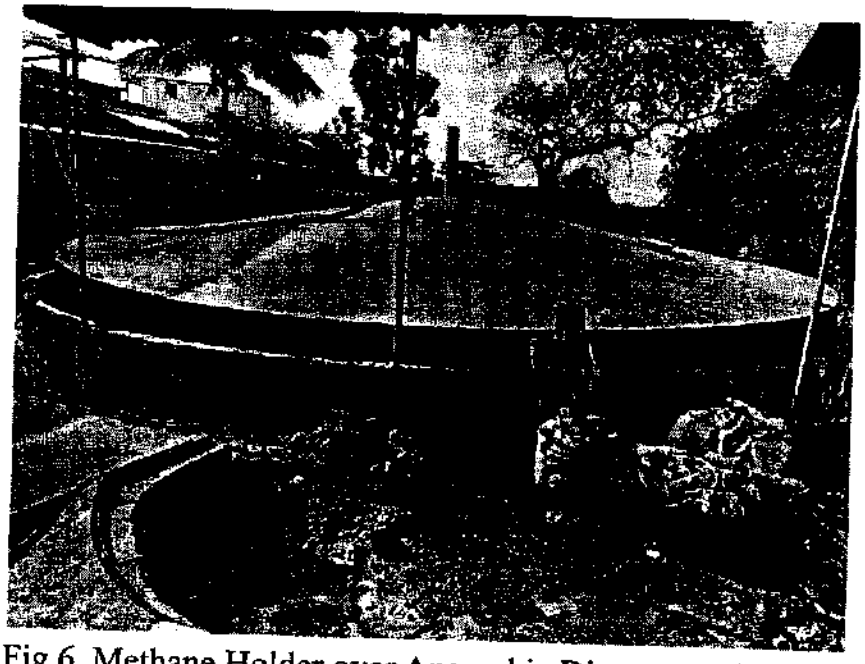

Fig 6. Methane Holder over Anaerobic Digester

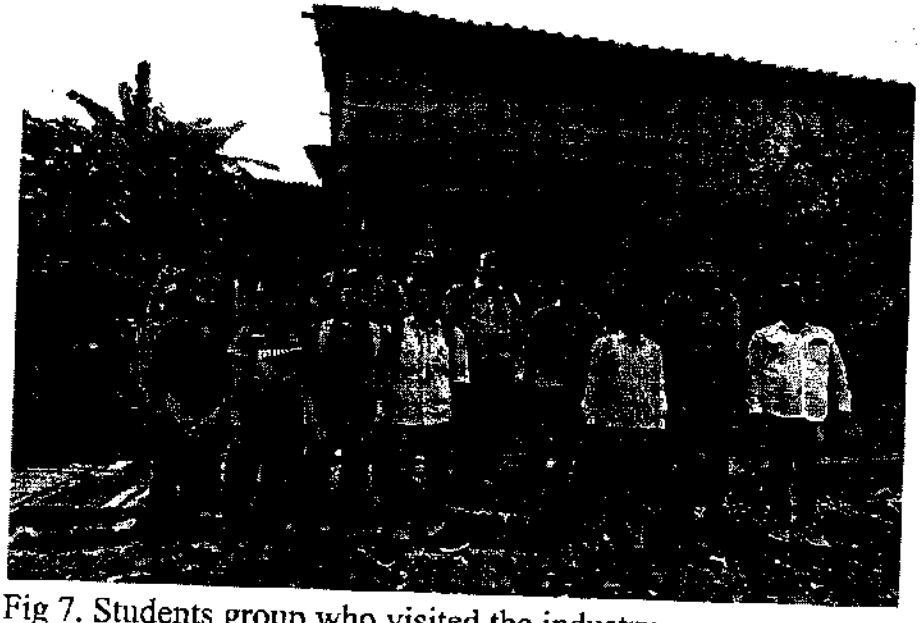

Fig 7. Students group who visited the industry

Conclusion :

The industry visit aided in understanding the process of biogas generation and its application in the generation of electricity through the use of internal combustion engines powered by the generated gas. Aside from that, the students learned about biogas plant infrastructure maintenance strategies.

An Industrial Visit to

M/s. Alfa Pumps and Systems Pvt. Ltd.

Bhiwandi

8th Oct.2022

Report of Expert Session

Objective-

To design and development of gear pump

Session Outcomes

1. To design the gear pump as per industrial specifications
2. To learn manufacturing methods of the components of gear pump such as gears, casing, bearing housing, safety valve, mechanical seals.
3. To assemble the gear pump components and hydraulic testing of it.

Description

The students of BE Mechanical were successfully completed the industrial visit to M/s. Alfa Pumps and Systems Pvt. Ltd., Bhiwandi on 7th Oct 2023. The details of the visit are as follows

- Students have theoretical knowledge of designing the gear pump in their course Design of Mechanical Systems. After visiting the industry they were able to understand the design of gear pump with tolerance, fit, standards for assumptions . Further the construction of gear pump and its working by drawing on solidwork software and animate it.
- Students compared the theoretical design assumptions and actual components used on gear pump, material of construction of the gears, bushes, casings etc were also cleared.
- Students found the unique design considerations and features of the gear pump which was not covered during course. The safety valve design and its attachment on the pump with necessary modifications in the casing was a distinctive practice followed in gear pump design.
- Students understand clearly the importance of seals such as rubber with metal and gland packing for avoiding leakages from the gear pump which was difficult to explain during course delivery. Students were themselves able to identify the locations from where the leakages are possible. Two such locations were identified ie between central casing and end covers and around the driving gear shaft connected to prime mover . The types of seals like o-ring is shown to the students which stops leakages between end cover. The gland packing, mechanical seals, and oil seals are three different seals are demonstrated by their mounting on driving gear shaft. Students clearly understand the importance of those seals and methods of mounting.
- The gear hobbling was experienced by the students where the helical gear manufacturing was carried out. The operating of hobbling machine was also learnt by students. The indexing of the hob was also understood by students. The machine was imported from Germany. The students were actually able to see what is gear hobbing and how teeth being cut. It will be a life long learing to the students
- Mr. Tekade, Owner gave a presentation of their product line where all series of gear pumps were demonstrated to the students. He make students aware of importance of their product in hazardus applications where manual safety is a major concerned like oil industries, Pertol storage tanks etc.
- Students were visited to store where the spares of the gear pump were kept for service applications. The students were actually hand picked any component and measure their dimensions by vernier calliper. The store was well arranged.

Theoretically it is very difficult to understand the operating of gear pump. Students were so excited during visit as they actively interacted with the technicians, supervisors in the industry. The gear pump testing facility was also visited by students where the complete hydraulic system with all measuring devices are attached. The technician shown the actual hydraulic testing of the gear pump. The technician also demonstrated the different capacity pumps mounting on the test rig for testing.

- This visit was very successful and it gives more insights of gear pump which could otherwise difficult through the course Design of Mechanical System. Total 110 students were attended the industrial visit successfully.
- By way of this industrial visit the important programme out comes PO1, PO2, PO3, PO6, PO8, PO10, PO12, PSO1 and PSO2 were achieved.

Thank you,

Dr. Ashish Chaudhari

8th Oct.2022

The Quiz on the Industrial Visit
Max.Marks 10
Questions

1. **The actual number of teeth on the gear of gear pump found to be**
2. **The central casing manufacturing method is**
3. The type of seal used to avoid leakage of oil from around the driving gear shaft
4. The relief valve used in gear pump will function as
5. The clearance between the central casing and outside dia of the gear is
6. The manufacturing of the gears in industry could be carried out by process
7. The special purpose of using herringbone gear in gear pumps is
8. The maximum capacity of gear pump that is seen during the visit is
9. The function of the bush in case of gear pump is
10. The type of couplings used to connect the electric motor shaft with gear pump shaft

81_Visit at MSRTC Bus Depot, Vasai West. To understand maintenance strategy and methodology used in public transport bus maintenance workshop

Date: 10/10/2022

To,
The Principal
VCET. Vasai West

Subject: Seeking permission for Industrial Visit on dated 11/10/2022

Industrial Visits inculcate exposure to practical applications and recent trends in the field of given courses. To provide practical experience to the final year Mechanical Engineering students The University of Mumbai specified visit to maintenance workshop/ Service station for the course Maintenance Engineering **(Course Code: MEL702),** The visit also useful for course content of Vehicle System (MEDLO7033) and Automotive Power Systems (MEDLO7031). an industrial visit is proposed at **MSRTC** Bus Maintenance workshop Depot, Vasai West on dated 11/10/2022 (Tuesday).

We have obtained permission from **MSRTC Bus Maintenance Depot**. I would hereby request you to kindly grant permission to carry out the above mentioned visit. The rules and regulations will be followed as per laid down by the University of Mumbai for Industrial visit.

We are total of **143** students and **03** faculties from the Mechanical Engineering Department.

Yours faithfully

Mr. Mukund Kavekar
Assistant Professor
Mechanical Engg Dept.
VCET, Vasai West

Mr. Sanjay Lohar
Assistant Professor
Mechanical Engg Dept.
VCET, Vasai West

Mr. Swapnil Mane
Assistant Professor
Mechanical Engg Dept.
VCET, Vasai West

Dr. U.V. Aswalekar
Head of Department
Mechanical Engineering
VCET, Vasai

Attachment:
1. MSRTC permission letter for the visit.
2. University Syllabus for Course

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

Department of Mechanical Engineering

K.T. Marg, Vartak College Campus Vasai Road, Vasai (W), 401202

11th September 2022

Industrial Visit Report to

MSRTC Bus Depot

Under the guidance of Prof. Mukund Kavekar & Prof. Sanjay Lohar

Date of Industrial Visit: 11/10/2022
Place of Industrial Visit: MSRTC Maintenance Depot – Vasai West.

The goal of this industrial visit was to gain knowledge of where and how the Maintenance Depot works on a regular basis in the maintenance and repairing of Local Buses.

Type of Maintenance

The industry mainly performs 2 types of maintenance at the depot them being Breakdown (React to Failure) Maintenance and Preventive Maintenance. The RTF Maintenance takes place in cases of accidental malfunctioning of the bus while the Preventive Maintenance takes place at a regular interval of time ie, 1 to 2 months for each bus as per guidelines provided by the Government of Maharashtra.

In RTF Maintenance, there is majorly replacement of parts such as shafts, bearings, suspension leaf springs, radiators, etc. that takes place to ensure that the quality and safety of the vehicle remains a priority and at a standard provided by the Government.

In Preventive Maintenance, as mentioned earlier, maintenance takes place at timely intervals, where the first step is to inspect the vehicle for various failure and possible failures that can be identified.

These include:

1. **Leaf Spring**
   The leaf spring of the vehicle is the main suspension, vibration absorber of the system that bares the majority of the shocks that are experienced by the system during its period of service. The spring is a set of several sheets of metal leaves, these leaves are checked at their ending for cracks, if found it is said to be an unfit leaf spring and removed and replaced in the system.

2. **Radiators**
   Radiators are at the front end of the engine, from where most of the heat from the engine manifolds is radiated off to cool the engine and exhaust gases. It is checked for leaks and cracks, to ensure smooth and appropriate flow of the fluid inside the radiator.

3. **Drivetrain**

   The drivetrain of a vehicle as such is the major power transmission source that consists of shafts, bearings and wheels. This system is checked ultrasonically for shaft cracks and bending, to prevent failure of shafts during period of service. Bearings are visually checked for cracks and missing rollers.

4. **Timing Belt**

   The timing belt is made up of a rubber belt that runs around the engine guiding it to sync and perform its function of cylinder strokes. The belt is checked for cracks and tears in the rubber.

Once the entire inspection is performed, the faulty parts are replaced, it is preferable to replace or repair so as to ensure safety of travellers as well as drivers of the vehicle.

Conclusion

The Industrial Visit was completed on 11/10/2022 at MSRTC Bus Depot and we learnt about the several repairs and Breakdown and Preventive Maintenance that takes place in the industry, it was a very good and helpful experience and we look forward to more such visits.

Dear Sir,

Vidyavardhini's college of Engineering and technology ,Vasai affiliated to the University of Mumbai established in year 1994, offers a four year Bachelor of Engineering Course in the following six disciplines:
1) Mechanical Engineering
2) Electronics and Telecommunication Engineering
3) Artificial Intelligence and Data Science
4) Computer Engineering
5) Information Technology
6) Civil Engineering
7) Computer Science and Engineering (Data Science)

VCET'S Mechanical Engineering Department equipped with teaching staff and laboratories is considered to be one of the best departments among the colleges that offer this course. Our department conducts various workshops under the skill enhancement of Mechanical Engineering Students. I, Ms Avantika Prabhu,on behalf of the Department of Mechanical Engineering, invite you as an expert speaker on the topic "Career opportunities after SAP Certification" for Logistics and Supply Chain Management subject arranged on 2nd October 2022 as per our telephonic conversation. I would be grateful if you took part in the seminar and share your expertise on the topic with the participants. Your Industrial knowledge and exposure would be an excellent addition to our program.

Regards,
Avantika Prabhu,
Assistant Professor,
Department of Mechanical Engineering,
Vidyavardhini's College of Engineering and Technology
Vasai West, Palghar -401202
Mobile No: 8898825000

SANKET JOSHI <sanketjoshi1609@gmail.com> Sat, Oct 1, 2022 at 1:27 PM
To: avantika prabhu <avantika.prabhu@vcet.edu.in>
Cc: hod mech <hod_mech@vcet.edu.in>

Dear Ma'am,

I accept this invitation. Thank you for this opportunity.

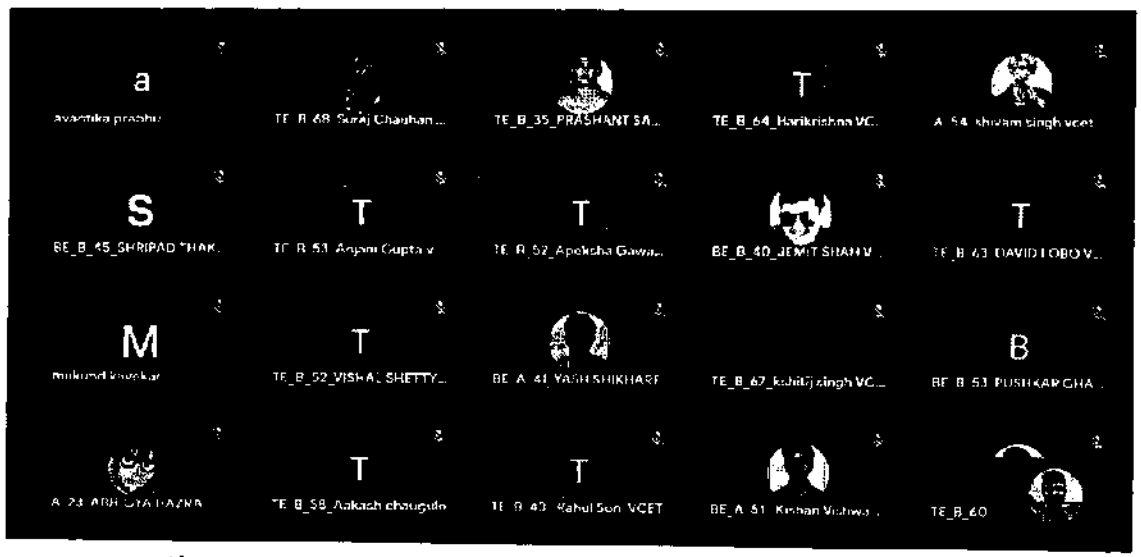
Regards,
Sanket Joshi
Sales Engineer-International Division
Snowbell Machines Pvt. Ltd.
9833540407
[Quoted text hidden]

3) Quality Maintenance
4) Sales Distribution
5) Material Management

SAP Certifications :

- They are divided into 2 types i.e. functional & technical of which levelsdiffer from associate to professional & specialist in a domain.
- Based on the certification, there are three major groups, associate, specialist, and professional.
- For beginners, the associate certification program is the best.
- For trained and candidates who have experience working in a specific field, professional SAP certification is the best.

During the interaction, the students got an overview of modern tool usage and software used to solve engineering problems.



Online Seminar on application of SAP in LSCM

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Expert lecture by Mr. Sanket Joshi

An expert lecture was arranged on 2nd October, 2022 on "Career opportunities after SAP Certification". It was an online session for BE Mechanical students. Following points were covered by Mr. Sanket Joshi.

INTRODUCTION :

- SAP stands for Systems Applications & Products in Data Processing.
- It is also known for the development of Enterprise Resource Planning (ERP) software.
- These types of software's facilitate businesses in effective management of workflow.
- SAP refers to Systems, Applications, and Products in Data Processing.
- Some of the most common subjects covered in these courses include human resource.

SAP Usage :

- SAP software offers businesses a variety of data management and data processing solutions for business intelligence, operations planning, and purchasing and materials.
- SAP software solutions are used by small and medium-sized businesses, as well as large corporations.
- SAP solutions aid in forecast development.
- SAP is used to ensure optimal customer satisfaction in human resources, sales, purchasing, material management, and other business processes.

SAP Modules :

- Every SAP module has a different functional field such as :

1) Plant Maintenance
2) Production Planning

REPORT OF VISIT TO THE 5th EDITION of VASAI INDUSTRIAL EXPO, VASAI (EAST)

10-12 OCTOBER 2022

MEL703 INDUSTRIAL SKILLS

Course Co-ordinator:
Mr. Raahul Krishna,
Assistant Professor,
Department of Mechanical Engineering

The 5th Edition of Vasai Industrial Expo was held during 10-12 October 2022 at Hitendra Thakur Appa Ground, Vasai East. The invitation circulated through print and electronic media is given below. 143 students from BE-A&B Divisions from Mechanical Engineering visited the stalls of 34 industries in and around Vasai and submitted visit report along with selfie for the course MEL703 (Industrial Skills). The list of participating core industries and collage of student selfie is attached below for reference.

To,
The Principal
VCET. Vasai.

Date: 28/09/2022

Report on Expert Lecture

"Industrial Case studies on Condition Monitoring and Machinery Diagnostic"

An online lecture was delivered by Dr. Amit R Bhende, Assistant Professor, Mechanical Engineering Department, St Vincent Pallotti College of Engineering, Nagpur on "Industrial Case studies on Condition Monitoring and Machinery Diagnostics" at Mechanical Department of Vidyavardhini's College of Engineering and Technology, Vasai on 26th Sep 2022 at 11:00 am to 1:15 pm. Mumbai University has introduced a new courses for BE Sem VII students called Machinery Diagnostic and a lab of Maintenance Engineering. The lecture was organized to give the students more practical exposure to industrial problems and solutions. The lecture was attended by 110 students and 5 faculty members of VCET. In the lecture, speaker presented three case studies, one case study from sugar industry, one from an academic project. Speaker also presented one case study on vibration analysis of engine mount isolator as a part of preparing the students for the national racing competitions such as SAEINDIA BAJA, Formula or electric vehicle etc.

The presentation discussed the practical applications of following topics:

1. Condition monitoring in sugar mill
2. Characteristics frequencies of machine
3. Time & frequency domain plot
4. Vibration sensor selection
5. Direction of vibration
6. Sensor mounting
7. Data acquisition system & LabVIEW software
8. Statistical feature extraction from time signal
9. ISO standards of machine vibration
10. Data validation and fault diagnosis
11. Performance analysis of vibration isolator

Dear Bhende Sir,
Good morning .....

With reference to the discussion we had over the phone.
As you know the Mumbai University has introduced a new course for BE Sem VII students called **Machinery Diagnostic.**
On behalf of the Mechanical Department of Vidyavardhini's College of Engineering and Technology, I would request you to conduct an online lecture covering the Industrial Case Studies.
The objective of this lecture is to give our students more practical exposure to industrial problems and solutions.
As discussed we can have the lecture on **19/09/22 (i.e. Monday) at 11:15 am** sharp on GoogleMeet platform.
The link for the same will be shared to you at the earliest.

Request to kindly accept the request and confirm the lecture date and time.

Awaiting for your reply
Warm Regards,
--
Sanjay Lohar
Assistant Professor,
Department of Mechanical Engineering,

Vidyavardhini's College of Engineering and Technology, Vasai Road (W)
Department of Mechanical Engineering

8th September 2022

To,
The Principal,
VCET

Through HOD Mechanical

Subject: Permission for organising a ALUMNI INTERACTIVE SESSION 2022.

Respected Sir,

The Department of Mechanical Engineering is organizing a ALUMNI INTERACTIVE SESSION 2022 from **12th September 2022 to 23rd September 2022** from 4 pm to 5.30 pm on all the days. The session will have experts/speakers from different domains and residing globally. We will have nine Alumni of Mechanical Department as our guests. The session will be conducted through Google meet virtually.

Each expert will brief the students about the recent developments in their respective domain and then the session will be followed by a question answer session. This interactive session will give career guidance to the students as well as enlighten them about the challenges and rewards of each domain.

We kindly request you to grant us the permission to organize the workshop. The schedule is attached for your kind reference.

Thanking you,
Yours sincerely,

Prof. Madhumita Dutta
Asst Prof (Mech)
Department Alumni Coordinator.

85_Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Mr. Parsad Gharat

Date- 22nd September 2022

The meeting started at 11am and. It was a very good session by Mr. Prasad Gharat. He is an experienced IT consultant and HR enthusiast. He is currently working with Godrej Corporate HR as a part of the Centre of Excellence (COE) team. He has an expertise in Stakeholder management, Vendor Management, Recruitment Analytics, Project Management. He is Honours & Awards in Winners of Case-o-thon 2020 conducted by E-cell committee of NLDIMSR. The Alumni Association of Vidyavardhini's College of Engineering & Technology organized "ALUMNI MEET 2022"- a programme to facilitate, consolidate and coordinate Alumni Activities at Vidyavardhini's College of Engineering & Technology at google meet on 22th September 2022. The Alumni Interaction started in college by 11.00 a.m. The meeting was graced by the Assistant Prof Ms. Madumita Dutta.

During the interaction session with the alumni

- He shared his experience, and guided us through the whole session.
- Answered our various questions and queries.

During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well. Alumni also interacted with the students and gave career guidance regarding higher studies and placements. He thanked the various organizers and alumni members of the event. He also thanked the management of Vidyavardhini's College of Engineering & Technology for the support and guidance which has made Alumni Meet 2022 a grand success.

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Mr. Mithilesh Patil

Date- 21st September 2022

The Alumni Association of Vidyavardhini's College of Engineering & Technology organized "ALUMNI MEET 2022"- a programme to facilitate, consolidate and coordinate Alumni Activities at Vidyavardhini's College of Engineering & Technology at google meet on 21st September 2022. The Alumni Interaction started in college by 3:45 p.m. The meeting was graced by the Assistant Prof. Ms. Madumita Dutta. The meeting started at 3:45pm. It was a very good session by Mr. Mithilesh Patil. He is a senior operations officer at IOCL (Indian Oil Corporation Ltd.) LPG bottling plant at Chakan, Pune. Currently he is working as senior LPG officer (safety. He has done his degree in mechanical engineering and he is a passout of 2017 batch. So he has a very good knowledge in the field of mechanical engineering.

During the interaction session with the alumni

- He shared his experience about their career, how he has joined as senior operations officer at IOCL LPG.
- He had guided us very well throughout the session.
- He answered our various questions and queries.

Alumni also interacted with the students and gave career guidance regarding higher studies and placements. During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well. He thanked the various organizers and alumni members of the event. He also thanked the management of Vidyavardhini's College of Engineering & Technology for the support and guidance which has made Alumni Meet 2022 grand success.

Minor edit..

"Venkatraman Prabhu has a rich and diversified work experience of 22+ years. He currently heads the IT Strategy & Planning team for JIO Platforms Limited. He has been a part of the Reliance family for the past 9 years and has worked on several high-value projects, led the Business Process Management CoE and worked in Design thinking and User Experience design domains. Before joining the Reliance Group, for 13 years he has worked as a Process & Business Transformation consultant, leading key strategic projects for several Fortune 100 companies like Microsoft, American Express, AXA Insurance, Barclays bank, etc. He is an IIM Ahmedabad Alumni and has been certified in Design Thinking & UX Design by the Interaction Design Foundation. He was selected to the prestigious Reliance Career Acceleration Program (CAP) in the batch of 2016"

Please disregard the earlier email.

Regards,

Venky Prabhu

Dear Venkatraman

We are pleased to invite you to conduct an Expert Lecture For Alumni Interaction Session 2022 for BE and TE (Mechanical) div A and B on 20th September 2022.

It would be very nice if you share your Industrial Experience and Challenges you faced as an Engineer during your professional career.

Also brief the students about different career options possible as a Mechanical Engineer.

Please send your acceptance to conduct the session.

Regards

Prof. Madhumita Dutta

Asst.Prof, (Mechanical Engg)

VCET, Vasai

Hi Madhumita,

Please pardon my tardiness in sharing my profile.

"Venkatraman Prabhu has a rich and diversified work experience of 22+ years. He currently heads the IT Strategy & Planning team for JIO Platforms Limited. He has been a part of the Reliance family for the past 9 years and has worked on several high-value projects, led the Business Process Management CoE and worked in Design thinking and User Experience design domains. He has an overall experience of 21+ years, 13 years of which he has worked as a Process & Business Transformation consultant, leading key strategic projects for several Fortune 100 companies like Microsoft, American Express, AXA Insurance, Barclays bank, etc. He is an IIM Ahmedabad Alumni and has been certified in Design Thinking & UX Design by the Interaction Design Foundation. He was selected to the prestigious Reliance Career Acceleration Program (CAP) in the batch of 2016"

I will be joining the call at 4 PM.

Thanks & regards

Venky Prabhu

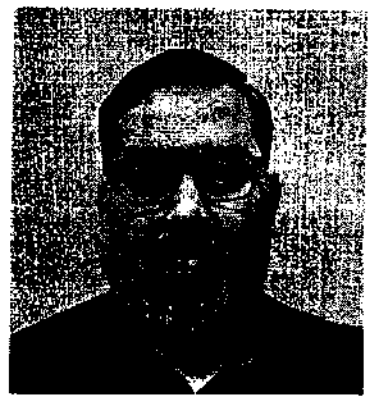
Alumni Interaction By- Mr. Venkatraman Prabhu

Date- 20th September 2022

About Speaker



Starting with the introduction, our today's guest is Mr. Venkatraman Prabhu. He graduated from VCET in the year 1999, which was the second batch of Mechanical Engineering. He has experience of over 20 years in the corporate world. Currently he is the IT Head of Strategy and Planning in Jio Platforms Limited.

He graduated in the year 1999 and got placed in Mahindra & Mahindra Limited as Junior engineer trainee. His profile was to check the quality of the components (Quality assurance department). So as the world was changing he upgraded his skills, learned JAVA and became a JAVA Certified Programmer. After upgrading, he got offers from TCS, Infosys, L&T. By that time, he was a Six Sigma Green Belt Certification holder.

SixSigma Green Belt is a certification course wherein you will receive hands-on understanding on 100+ tools and techniques. These methods are essential to participate in DMAIC improvement projects. DMAIC stands for Define, Measure, Analyze, Improve and Control. He has even worked as a consultant for almost 13 years. Now he is currently working as IT Head of Strategy and Planning in Reliance Jio Platform Limited.

The basic purpose of this meet was to make us aware; we can change our track despite being a mechanical engineer. He suggested to us "If you want to be successful or want to achieve something in the next 5 years, start working from today itself." During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically.

Overall the experience shared by Mr. Venkatraman sir was really helpful for us. It motivated us and encouraged us to work hard and get on the right track. It was a pleasure interacting with Mr. Venkatraman Prabhu Sir. Thank You Vidyavardhini's College of Engineering & Technology, Head of the Department Dr. Uday Asolekar, Prof. Madhumita Dutta and other faculty members of mechanical engineering for arranging this Alumni Session.

Mr. Venkatraman Prahu is 1999 Batch passout from VCET

He has over 20 years of experience spanning IT Strategy, Product Management, BPM, Business Excellence, Process Transformation, Lateral Thinking, Design Thinking & Program Leadership. Extensive experience in leading culturally diverse teams across geographies. Proven expertise in assessment, planning, deployment, and management of large and complex Programs in the manufacturing, BFSI, IT & Telecom domains.

"Venkatraman Prabhu has a rich and diversified work experience of 22+ years. He currently heads the IT Strategy & Planning team for JIO Platforms Limited. He has been a part of the Reliance family for the past 9 years and has worked on several high-value projects, led the Business Process Management CoE and worked in Design thinking and User Experience design domains. Before joining the Reliance Group, for 13 years he has worked as a Process & Business Transformation consultant, leading key strategic projects for several Fortune 100 companies like Microsoft, American Express, AXA Insurance, Barclays bank, etc. He is an IIM Ahmedabad Alumni and has been certified in Design Thinking & UX Design by the Interaction Design Foundation. He was selected to the prestigious Reliance Career Acceleration Program (CAP) in the batch of 2016"

Specialties: Design Thinking, Lateral Thinking, Microservices Architecture, Process Transformation, Business Excellence, Corporate Strategy, IT & ITES Process Consulting.

Present Status: Head - IT Strategy & Planning at Jio Platforms Ltd.

88_Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Mr. Pinakeen Shah

Date- 19th September 2022

Alumni interaction week was arranged by the Mechanical Engineering Department from 12th September 2022 for the course of 9 to 10 days. One such interaction with Mr Pinakeen Shah was arranged on 19th September. Mr Pinakeen Shah has a total of 23 years of Experience of which 19+ years in Engineering Information Systems. The interaction was arranged on google meet for all the students of Mechanical Engineering. The interaction was started with a question asked by our alumni, what are the career options for Mechanical Engineers? There were many responses from the students which included sectors like Automotive, Warehouse Automation, Production, Logistics etc.

The meeting was further continued as Mr Pinakeen Shah explained the various fields that mechanical engineers can pursue for further studies along with the company who excel in those fields. He further continued to explain the importance of Engineering Information Management. He also explained about the various types of EIM and what are the roles of an Engineer doing EIM. He also shared his experience through the various fields he has been working on for the past 19 years. Although the Alumni is the Head of Department (Information Management for Subsea Business) he was very friendly with the students and had a very appealing nature. During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well. Later on in the session doubts of some students were cleared and the meeting ended on a happy note. Overall the meeting can be said as a healthy interaction and an informative session for the students.

About Speaker

Mr. Sharad Malla is an alumnus of Vidyavardhini's College Of Engineering & Technology

- Seasoned professional having 20+ years of experience. Led large transformational projects across sectors like BFSI, Hi Tech, Manufacturing & Distribution, Healthcare/Life Sciences, Education & ISVs
- Strong experience in Product Development, Managed Services, Multi-hybrid cloud, Data Analytics, Cybersecurity, Network Transformation, ERP
- Set up winning teams for Consulting, Sales and Delivery with a stringent focus on process improvement, governance and compliance for delivering targets/outcomes
- Forged strong relationships with C – Level Executives and Industry forums
- Defining and Delivering Outcome based ROI, Innovative Commercial models. Identify target growth areas for maximizing revenue and new logo acquisition
- Group of companies focused on Education, Healthcare, Financial Services and Agriculture.

Session Summary/Conclusion

Following conclusions were drawn from the session,

- How to be Consistent life
- Power of compounding
- Financial Literacy
- Focus on quality of study not on quantity
- Read balance sheet of aspirational company like Tesla, JSW, Adani, TATA Steel
- Develop Communication Skills
- Constantly upskill yourself
- Introduction to 3D printing Technology, IOT, IT, Process Automation, Quality Control

During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well. This was such an interactive session and we all enjoyed the journey of sir from our college till the present company he works.

90_Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Mr. Parin Dave

Date- 15th September 2022

Mr. Parin Dave is an alumnus of Vidyavardhini's College of Engineering & Technology, recently works in Nigeria based Government Company and his profile is selection of Hydraulic, Turbo-machinery which meets process requirements & in compliance with various International codes & standards such as API, ISO.

He introduced himself as an engineer in Tecnimont Pvt. Ltd. He gives a brief description about how material is selected for piping, machining & using concepts of ML. Sir also introduced the tanks in which crude oil, fertilizer, etc are stored statically and also introduced the concept of storing the required material tanks specifications.

He has also done the project of JG summit which is the project of the Philippines reviewing the vendor documents like GAD, P&ID, Data sheets & other Engineering documents. He also works on LSTK for the Poly-ethylene & Revamp of Pol-propylene plant. The equipment used in this project reaction circulation pumps with its lube oil system.

He also introduced how mechanical engineers are using AI and Data Interpretation for integrating & building data analysis products. He also includes the future of mechanical engineering in the domain of AI, ML, Data Analytics,etc. The scope of mechanical engineering in such a domain is also increasing day-by-day. During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well. This was such an interactive session and we all enjoyed the journey of sir from our college till the present company he works. He shared all his experience in this session and also gave us best wishes for future.

91_Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Mr. Rahul Chemburkar

Date- 15th September 2022

Rahul Chemburkar is working as General Manager; Strategic Sourcing in Automotive & Farm Sector of Mahindra & Mahindra Ltd. Sir has joined as a Graduate Engineer trainee. In his career spanning 23 years in M&M Ltd., sir has worked in various sourcing functions like Materials Management, Global Sourcing, and Strategic Sourcing.
Sir has joined Mahindra as a graduate engineer trainee and his first assignment was to source and develop Sheet metal & Safety parts of "Scorpio" SUV; which is a flagship model & image changer for the company. Sir not only worked on the project in India but also led the Global Sourcing team to develop strategic sources in China, Thailand, Japan, South Asia & Middle East Countries for 10 years for various parts & systems.

Sir was deputed for 3 years to SsangYong Motor Company in South Korea as an Expat leading their Global sourcing team. For the last 4 years, he has been leading India Strategic Sourcing for Plastic parts, Seats, Safety Systems, Glasses, and Mirrors etc. for Vehicles & Tractors. He also gave us knowledge about how the industry works in real life and how our balance in work-life should be maintained. He also shares the leading future role and how we can get into Mahindra & Mahindra if we want. He added the needed skills for the future like embedded system design, electric embedded parts, semi-conductor skills, etc. During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well.

This was such an interactive session and we all enjoyed the journey of sir from our college till the present company he works. He also introduced us to the concept of EV- vehicle and the need of skills required joining the automobile industry.

92_Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Dr. Rohit Nehe

Date- 14th September 2022

The alumni meet was held on 14th September 2022. The speaker for the day was Dr. Rohit Nehe, PhD. He is working as a Senior Engineer at Creestaa Elevators India Pvt. Ltd. Pune, Maharashtra, India.

Dr. Uday Aswalekar sir introduced the speaker to everyone. Dr. Rohit Nehe started the meet by telling himself about his journey from our Institute to doing PhD from the USA.

Dr. Rohit Nehe shared with us about his teaching assistant experience during his masters. He shared with us the challenges that he faced during his teaching assistance for aerodynamics about how he managed to teach it when he did not have aerodynamics in his undergraduate course. He also shared about how his attitude of always learning new things helped him to get a full scholarship for his Master's program from the USA.

Dr. Rohit Nehe shared with us about his research on Pressure Measurement of Gas using Photochemistry during his PhD program. He also shared his experience of publishing papers on his own hard work. He shared that he always follow one rule in his life i.e. "Attitude is Important". One should always have a positive attitude towards life, toward the challenges life throws at us.

Dr. Rohit Nehe has one mantra in his life i.e. "Persistent effort is the key", which is completely true. During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well.

In the end, the meet was a very motivating and informative interaction with Dr. Rohit Nehe. His experience will surely help us at some or the other part of our lives.

93_Challenges and advantages in Industrial Career. To prepare students to take up problems and make them industry ready

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Alumni Interaction By- Mr. Sagar Bane

Date- 14th September 2022

The alumni interaction was very interesting in spite of it being conducted online. The speaker for the day was Mr. Sagar Bane who is working as a regional head in Toshiba Johnson's elevators. He shared his experiences regarding how he joined the organization, challenges he faced during his career. He is expert in design domain. He has a good experience in elevator design. Guidance was provided so as how one should select an industry as per one's choice.

Many students took active participation in this interaction and many good questions were asked to him. The answers given by him were appreciable. He also guided us how to get selected in the placement interview. One interesting question that was raised was about the design of bucket elevator. The student wanted to know about the design procedure of bucket elevator. The procedure was explained in detail by Sagar sir.

Bucket elevators are used to lift heavy objects/fluids to a desired height. In short, the session was quite helpful in clearing all the doubts. During the interaction, Problem solving, Analysis ability of the students were enhanced. The students had to investigate the problems methodically. The workshop encouraged the students to analyse individually as well.

94_Expert lecture on Supply chain practices in Banking sector

Vidyavardhini's College of Engineering & Technology

Department Of Mechanical Engineering

Expert lecture by Mr. Alok Singh

An expert lecture was arranged on 17th August, 2022 on "Supply chain practices in Banking sector". It was an offline session for BE Mechanical students. Following points were covered by Mr. Alok Singh.

Corporations and governments in numerous nations want banks to innovate more through supply chain solutions. Relationship banks provide working capital management loans to its major corporate clients. Supply chain financing is often handled by a commercial bank's lending department.

The supply chain management system's performance depends on the flawless coordination of all supply chain stakeholders to achieve the desired results. Majority of financial-based supply chains were depicted as a supportive driver of the manufacturing-based supply chain process. Furthermore, supply chain banking-based research is practically non-existent in the academic community.

The speaker explained his nature of work and followed it with QnA Session.

During the interaction, the students got an overview of common practices in the industry and a gist of financial management.

Report of
Motivational Session by Successful Entrepreneur
18th Sep. 2022

Objective: To share experiences based on observations at an enterprise.

About the Speaker: The guest speaker for the session

1. Mr. Rizwan Sheikh
Project Engineer, S.Crane Pvt. Ltd., Mumbai

Brief introduction of chief guest

Mr.Rizwan graduated from Mumbai University joined the field of electric crane design and development. Presently Mr.Rizwan is the head of Project and recruits the deserving engineers in Mechanical Engineering.

Mr.Rizwan shared his experiences as a employee of an entrepreneurial firm M/s. S.ranes Mumbai. He is more from mechanical engineering background so covered full details of the work environment inside the industry.

The entrepreneurial experiences were also been shared by Mr. Rizwan where in the team of employee should be like a family who targeted to a single vision defined by entrepreneur.

The entrepreneurship skill lies in making the ecosystem of working towards a targeted objective. Each individual in a industry is important and growth of him/her should be parallel look after.

The entrepreneur need to have ability to tackle the situation of negotiation/argument in short show the presence in the market. He/she should have positive attitude such as innovative mindset, risk taking, consistency and should overcome his/her negative attitude.

Being an entrepreneur, the power of creativity and innovation will lead to the target with more features.Mr. Rizwan emphasis over the positive thinker group.

The BE Mechanical engineering students were attended the event wherein the fruitful interactions take place with students on topics of technical discussion with entrepreneurial management.

Total 72 students were attended the session .

Dr.Uday Aswalekar,Head of Mechanical Engineering concluded the session with Vote of Thanks.

Thank you

Dr. Ashish Chaudhari

96_Machine learning Workshop for Lack of Exposure to Machine Learning Concept

Vidyavardhini's College of Engineering & Technology

Academic Year 2022-23

Report on Machine Learning Workshop AY 2022-2023

Program	Machine Learning Workshop
Date	11/03/2023 & 12/03/2023
In association with	VMEA
Speaker	Mr. Ankit Patil – Founder & Director – Techq Konnect Technologies Pvt LTd
Topics Covered	1. Introduction to ML & Data Science 2. Dataset Pre-Processing 3. Prediction Models 4. GUI Development 5. Project Case Study
Objectives of workshop	The objective of Machine Learning workshop is • To understand the basic theory underlying machine learning. • To be able to formulate machine learning problems corresponding to different applications. To understand a range of machine learning algorithms along with their strengths and weaknesses. • To be able to apply machine learning algorithms to solve problems of moderate complexity.

Organizing Committee

POST	NAME	Class
President	Aditya Hendre	BE
Vice President	Sahil Patil	TE
Secretary	Tathansh Joshi	BE
Deputy Secretary	Ved Patil	TE
Treasurer	Raj Sanghrajka	BE

Participation Details

52 (List of students attached)

Feedback from Participants

Sr.No	Attribute	Average Score of marking given by the participants (out 0f 5)
1	Have you understood the basic introduction of Machine learning Such as Data Pre-Processing and Visualization?	4.44
2	Have you understood the sample project of Motor Maintenance using Machine learning?	4.35
3	Do you feel more confident in your ability to apply machine learning concepts after attending the workshop?	4.25
4	Have you understood the basics concept of scripting and contribution of scripting language of Python in Anaconda Distribution or Jupyter Notebook ?	4.44
5	Did the workshop help to clarify any questions or issues you had with Machine Learning?	4.25
6	Was the workshop able to justify your objective of attending it?	4.23
7	Were the instructors knowledgeable and able to effectively communicate the material?	4.44
8	Were you able to link the contents of workshop with your regular course ?	4.33
9	Would you recommend this workshop to others who are interested in machine learning?	YES
10	Would you like to attend the similar kind of workshop in future ?	YES

Outcomesof Workshop

Appreciate the importance of visualization in the data analytics solution
Apply structured thinking to unstructured problems
Understand a very broad collection of machine learning algorithms and problems

Date:28/02/2023

To,
The Principal
VCET Vasai

Through: HOD Mechanical

Subject: Request to conduct Two Day Workshop on 'Machine Learning"

Respected sir,

VMEA Student committee is planning to conduct ' **Machine Learning Workshop "** for SE ,TE and BE Mechanical students, where students will get versed with utilization of Machine Learning Algorithm.

I kindly request you to permit the above activity in our college campus.

Please find the proposed schedule herewith:

Day	Date	Time	Content
Day 1	11th March 2023	05 Hrs.	1. Introduction to ML & Data Science 2. Dataset Pre-Processing 3. Data Visualization
Day 2	12th March 2023	05 Hrs.	1. Prediction Models 2. GUI Development 3. Project Case Study
Assignment will be given on each topic			
Software: Anaconda Distribution /Jupyter Notebook /Spyder			

Registration Cost: - Rs 50/ Participant

Enclosure: Machine Learning Workshop Proposal

Yours faithfully

Ms.Priti S Vairagi,
Assistant Professor,
VMEA In charge
Mechanical Department

Report on FLASH MICROCONTROLLER STM32 WORKSHOP

Event Name	30 Hours Workshop on Flash Microcontroller STM32
Date	05/08/2022
In association with	IETE-SF
Speaker of the Event	Mr. Rajas Patil (Embedded Software Engineer, Faurecia Clarion Electronics.)
Description	This event emphasized the importance of embedded systems in industrial as well as individual growth. The students were explained in brief about STM32 microcontroller specifications and its programming. A discussion on the scope of Embedded System technology not only in India but also out of India and sharing of views on how to approach for getting better placements in the field of embedded system took place. Further in the event the learners were explained with the circuitry of the experiment.
Objectives of Event	The objectives of the event are: 1. To understand the basic pin configuration, timer configuration and connectivity (I2C, USARTs, USB) of STM32. 2. To understand various USART connections based on timer as well as event functions.
Feedback from participants	Students Feedback on Workshop 
Vidyavardhini's College of Engineering and Technology

Department Of Electronics and Telecommunication Engineering

Academic Year 2022-2023

	Outcomes of Event	On successful completion of event: 1. Participants will be able to identify the basic pin configuration and connectivity of STM32. 2. They will be able to demonstrate projects using STM32 and generate constructive feedback from the industry.

Report on POSTER MAKING

Event Name	Digital Poster-Making Competition
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	12th August, 2022 (4:00 pm)
Judge of the Event	Dr, Ashish Vanmali
Topic of Event	Digital Poster making competition
Important dignitaries attended	Dr. Amrita Ruperee, HOD EXTC, IEEE-SB Incharge Dr. Sunayana Jadhav, and Assistant Professor Ms. Ekta Naik.
Objective of the event	1. To understand the importance of group work. 2. To understand how various digital tools can be used for making a poster. 3. To understand the importance of poster making and the ability to explain it.
Brief Report including above information	The "Digital Poster Making" event was organized on the 12th of August 2022. The event was organized by IEEE-SB under the guidance of Dr. Sunayana Jadhav and Mrs. Ekta Naik. The judge for the event was Dr. Ashish Vanmali sir (Assistant professor from the IT department). The theme for the "Digital Poster Making" event was Industry 4.O. The event got a very gigantic response. There were 16 teams, which had participated in the event. Before the event would start a petite introduction was put forth. The HOD of the EXTC department Dr. Amrita Ruperee expressed her views about the event in a few words. The participants were made aware of the rules of the event, such as the size of the poster, software to be used, time duration, etc. After the introductory part was done, one participant from each group came forward to pick a chit from which their topic would be decided. After the search time was over, participants started with their posters. The topics for posters were as follows; IoT, Cloud computing, Robotics, etc. All the participants were very ecstatic about the posters they were composing on their laptops. After the posters were done, they were emailed by the participants for evaluation. The event was a huge success following the efforts put forth by the students of IEEE-SB and the everlasting support of Dr. Sunayna Jadhav and Mrs. Ekta Naik. The winners were announced soon after, and were received with participation certificates, and winners were awarded with cash prize and winning certificates

Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of group work. 2. Understand how various digital tools can be used for making a poster. 3. Understand the importance of poster making and the ability to explain it.

Report on STEM PROJECT

Event Name	Stem Project
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	30th August, 2022 & 17th September, 2022 (9:00 am)
Speaker of the Event	
Topic of Event	Stem Project
Important dignitaries attended	Dr. Amrita Ruperee HOD EXTC, IEEE Incharge Dr. Sunayana Jadhav, and Assistant Professor Ms. Shraddha Gosavi
Objective of the event	1. To understand the importance of electronics to school kids. 2. To make the school students aware of the various electronic circuits. 3. To motivate the students regarding electronics and its importance in our day-to-day life.
Brief Report including above information	Stem Project was an event which was organized by the IEEE committee on The goal behind organizing the Stem Project is to make young school students aware of the electronics engineering branch. For this Stem Project VCET IEEE committee members made ten easy-to-understand experiments using simple PCB board, LED, potentiometer, etc. Students were given hands-on experience with the basic knowledge about conductivity and conversion of mechanical energy to electrical, etc. For the conduction of this event students from the IEEE committee went to two different schools for showcasing of the projects. The two schools were Sheth Vidya Mandir and Isaac Newton Global school in Vasai. Students from those schools were taught about working of basic electronic experiments or projects. The atmosphere was filled with keen eyes and curiosity. The Stem Project was conducted under the guidance of Dr. Sunayana Jadhav (Ph.D. in Electronics Engineering, VJTI, Mumbai), Ms. Shraddha Gosavi (Asst. Professor, VCET), Ms. Ekta Naik (Asst. Professor, VCET), Dr. Amrita Ruperee (Ph.D. in wireless communication SNDT, Mumabi) and all the members of the IEEE committee. The event was a huge success due to the continuous efforts by the IEEE members and professors.

Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of electronics to school kids. 2. Make the school students aware of the various electronic circuits. 3. Motivate the students regarding electronics and its importance in our day-to-day life.

Report on VLSI: EMERGING APPLICATIONS

Event Name	VLSI: EMERGING APPLICATIONS
Date	08/10/2022
In association with	IETE-SF
Speaker of the Event	Dr. Suyog Patil (Senior DFT Engineer, Qualcomm India Pvt. Ltd.)
Description	Vidyavardhini's College of Engineering and Technology, Department of Electronic and Telecommunication in association with IETE- SF organized an amusing event named " VLSI: EMERGING APPLICATIONS". The purpose of this webinar was to introduce students to VLSI technology. Further, the event was concluded with an interactive Q&A session. Participants engaged in a lively discussion, seeking clarification on topics discussed during the session.
Objectives of Event	The objectives of the event are : 1. To understand the VLSI as an emerging tech. 2. To get knowledge about Industry Overview and how to enter the industry.
Feedback from participants	See table below

Attributes	**Average Score of marking given by participants (out of 5)**
1. How good was the Webinar?	4.55000
2. How was the technical arrangement for the webinar?	4.60000
3. Was this webinar informative for you?	-

Students Feedback on Webinar

Report on Industry Visit to Logiq Embedded Pvt. Ltd.

Event Name	Industrial Visit To Logiq Embedded Pvt. Ltd., Vasai
In association with	IETE-SF
Date	14/10/2022
Objectives of the event	The objectives of the event are: 1. To expose students with industrial environment. 2. To understand the technologies used in market. 3. To get an overall knowledge of market processes and applications
Description	Vidyavardhini's College of Engineering and Technology, department of Electronic and Telecommunication in association with IETE-SF organized an Industrial visit to Logiq Embedded Pvt. Ltd., Vasai on 14th October, 2022. Logiq Embedded is one of the leading producers of Elevator Equipment in market. Logiq Embedded Systems India Pvt. Ltd. is a business venture jointly promoted by a seasoned team of technocrats and professionals with over three decades of experience in the building industry and an existing technology company with a proven track-record in the field. Logiq Embedded gave the overview of various products manufactured and answered the doubts of the students and gave them valuable insights.
Feedback from participants	Students Feedback on Industrial Visit 
Vidyavardhini's College of Engineering and Technology

Department Of Electronics and Telecommunication Engineering

Academic Year 2022-2023

	 Outcomes of the event	On successful completion of Industry visit: 1. Students will be exposed to the manufacturing, assembly & design of products. 2. They will be understanding the potential and impact of the microcontrollers in real-time applications. 3. They will be experienced with the overall activities performed in an industry.

Academic Year 2022-2023

Report on Hands-on Session on "Introduction to LaTeX"

Event Name	Hands-on Session on "Introduction to LaTeX"
Date	21/10/2022
In association with	IETE-SF
Speaker of the Event	Ms. Shraddha Gosavi
Description	The workshop emphasized the importance of LaTeX in the context of engineering reports and synopses. LaTeX, it was explained, provides a standardized and structured format ideally suited for conveying technical information, mathematical equations, and graphical content with precision. The session delved into the practical aspects of LaTeX, teaching attendees how to insert images into a LaTeX document. Participants also gained insights into formatting techniques, including text alignment, font styles, and page layout adjustments, to enhance the visual appeal of their documents.
Objectives of Event	The objectives of the event are : 1. To introduce participants to the LaTeX typesetting system, making it accessible and understandable. 2. To emphasize the significance of LaTeX in corporate and professional environments, particularly for creating scannable, professional-quality documents. 3. To understand the importance of LaTeX in engineering reports and technical documentation.
Feedback from participants	**Attributes** / **Average Score of marking given by participants (out of 5)** 1. How good was the technical arrangement for the program? — 3.16000 2. How was your experience? — 3.02000 3. Would you like to participate in more such workshops? — - Students Feedback on "LaTeX" Workshop

Outcomes of Event	On successful completion of event: 1. Participants will have a solid understanding of LaTeX's capabilities and its relevance in professional life. 2. Participants will be able to prepare project reports & technical documents in LaTeX as per the requirement. 3. Participants will be empowered to present technical information with precision and professionalism using LaTeX.

Report on EXPOSURE TO DSP

Event Name	Seminar on 'Exposure to DSP applications in Speech Processing'
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	21st October, 2022 (2:00 pm)
Speaker of the Event	Dr. Ashish Vanmali
Topic of Event	Exposure to DSP applications in Speech Processing
Important dignitaries attended	Dr. Amrita Ruperee, HOD EXTC, IEEE-SB Incharge Dr. Sunayana Jadhav, and Assistant Professor Ms. Trupti Shah.
Objective of the event	1. To understand the importance of Digital Signal Processing. 2. To understand how DSP plays an important role in Speech Processing. 3. To understand the various applications of DSP in Speech Processing.
Brief Report including above information	The seminar was conducted on " Exposure to DSP applications in Speech Processing" on 21st October 2022. The event was organized by IEEE-SB under the guidance of Dr. Sunayana Jadhav and Mrs. Ekta Naik. The judge for the event was Dr. Ashish Vanmali sir (Assistant professor from IT department). The main motive of this seminar was to make students aware about Digital Signal Processing (DSP). The expert lecture talk was conducted especially for third year students of Electronics and Telecommunication branch with respective to Discreet Time Signal Processing subject. Before the event would start a petite introduction was put forth by Mrs. Trupti Shah regarding an introduction to DSP and her views about the event in a few words. The seminar started with the introduction of our honourable speaker Dr. Ashish Vanmali. He explained various techniques for improving the accuracy and reliability of digital communications. Everyone was fascinated by the application of DSP in Speech Processing. The students were curious with matlab coding and different voice samples which was shared by the speaker to explain speech processing technique and process. He nicely explained all the concepts and cleared all the doubts that student had about the DSP application. The event was very informative and successful following the efforts put forth by the students of IEEE-SB and the everlasting support of Dr. Sunayana Jadhav ma'am and Mrs. Ekta Naik ma'am. The seminar was conducted on a sweet and experience note!

Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of Digital Signal Processing. 2. understand how DSP plays an important role in Speech Processing. 3. Understand the various applications of DSP in Speech Processing.

2 Week Program on CPLD

Vidyavardhini's College of Engineering and Technology, Vasai Road (W)
Department Of Electronics and Telecommunication Engineering

Report on CPLD TRAINING

Event Name	Two-Week Training Program on Krypton CPLD board
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	13th December 2022 – 23rd December 2022 (10:00 am)
Speaker of the Event	Dr. Sunayana Jadhav Ms. Sandhya Supalkar
Topic of Event	Digital Circuits and System
Important dignitaries attended	Dr. Amrita Ruperee, HOD EXTC, IEEE-SB Incharge Dr. Sunayana Jadhav, and Assistant Professor Ms. Sandhya Supalkar.
Objective of the event	1. To understand the working of the Quartus software. 2. To understand multiplexers and various types of adders. 3. To understand combinational circuits and BCD addition.
Brief Report including above information	**13/12/2022** **Resource Person:** Dr. Sunayana Jadhav Ms. Sandhya Supalkar **Topics Covered:** • Introduction to Quartus Software • Design of Full Adder using Half Adder • Design of XOR using NAND Gates Students were introduced to Quartus Software, which is a software program used for engineering and design. They started by designing a Full adder using a half adder, then designed an XOR gate using NAND gates. **14/12/2022** **Resource Person:** Dr. Sunayana Jadhav Ms. Sandhya Supalkar **Topics Covered:** • Full Adder using NAND Gates • 4-Bit Adder-Subtractor • Based on the understanding of Full Adder students successfully designed Full Adder using NAND Gates and performed RTL Simulation and Gate Level Simulation.

15/12/2022
Resource Person: Dr. Sunayana Jadhav
Ms. Sandhya Supalkar

Topics Covered:
- Multiplexers
- Design verification on Krypton Board

Faculty described the concept of Multiplexers using a circuit diagram and students with the help of basic gates implemented 2:1, 4:1 and 16:1 Multiplexers. Students were given Krypton Board and downloaded drivers and UrTag Software.

16/12/2022
Resource Person: Dr. Sunayana Jadhav
Ms. Sandhya Supalkar

Topics Covered:
- Combinational Circuits
- BCD Number Addition

Faculty provided the students with a circuit and the students successfully implemented the circuit on Quartus Software and performed RTL Simulation and Gate Level Simulation. The BCD Number Addition circuit was explained to the students and they successfully implemented it.

19/12/2022
Resource Person: Dr. Sunayana Jadhav
Ms. Sandhya Supalkar

Topics Covered:
- Design Verification using Scan Chain

Students performed the Scanchain Based Testing by following the steps mentioned in the manual which was to create svf file, and further burn on to the Krypton Board. To test the results of the Scanchain a task was given to the students.

20/12/2022
Resource Person: Dr. Sunayana Jadhav
Ms. Sandhya Supalkar

Topics Covered:
- Multiplier
- ALU

	The students successfully implemented the circuit on Quartus Software and performed RTL Simulation and Gate Level Simulation. Then using Scanchain implemented the circuit on the Krypton board. Based on the knowledge gained by the students about Multiplier and ALU, they implemented and burned the program on the CPLD Board. **21/12/2021** **Resource Person:** Dr. Sunayana Jadhav Ms. Sandhya Supalkar **Topics Covered:** • String Detector • Sequence Generator Concept of String Detector and Sequence Generator was taught and the behavioural code was explained to the students. Thus, they successfully implemented the String Detector and Sequence Generator. **22/12/2021** **Resource Person:** Dr. Sunayana Jadhav Ms. Sandhya Supalkar **Topics Covered:** Students practised previously performed experiments and asked doubts regarding the experiments. The resource persons cleared the doubts: Dr. Sunayana Jadhav and Ms. Sandhya Supalkar. **23/12/2021** **Resource Person:** Dr. Sunayana Jadhav Ms. Sandhya Supalkar **Topics Covered:** Based on the knowledge of the students an online exam was conducted by IIT Bombay. Where the students were given a problem statement and they had to write a code for it in one hour. After that, a viva was taken by the examiners where the students had to explain how they approached the solution to the given problem.

Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the working of the Quartus software. 2. Understand multiplexers and various types of adders. 3. Understand combinational circuits and BCD addition

Report on SDP on Arduino and MATLAB Hands on Training

Event Name	SDP on Arduino and MATLAB Hands on Training
Date	02/01/2023-06/01/2023
In association with	IETE-SF
Trainers	Ms. Shaista Khanam, Ms. Trupti Shah, Ms. Ekta Naik
Description	The Summer Development Program (SDP) on Arduino and MATLAB Hands-on Training was a comprehensive workshop aimed at providing participants with fundamental knowledge and practical skills in the field of embedded systems, Arduino programming, and MATLAB usage. The program was conducted over the course of five days, with each day focusing on specific topics and hands-on sessions. The training was organized by faculty members Ms. Shaista Khanam, Ms. Trupti Shah, and Ms. Ekta Naik.
Objectives of Event	The objectives of the training are : 1. To understand the fundamental concepts of microcontrollers, input/output devices, and data manipulation. 2. To develop proficiency in MATLAB for data analysis, manipulation, and code optimization. 3. To acquire practical skills in embedded systems, Arduino programming, sensor interfacing, and MATLAB data analysis.
Feedback from participants	

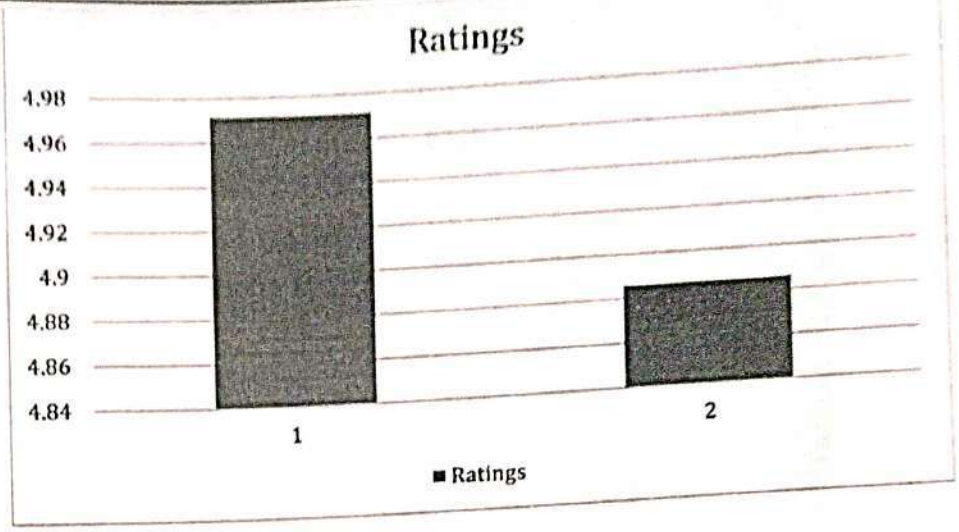
Attributes	**Average Score of marking given by participants (out of 5)**
1. How good was the technical arrangement for the program?	4.97142
2. How was your experience?	4.88571
3. Would you like to participate in more such Student Development Programs?	-

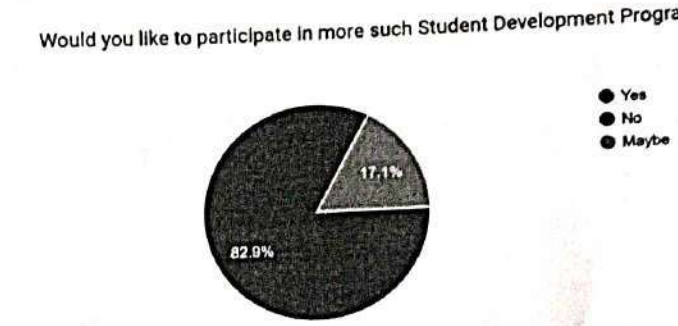
Students Feedback on SDP

Vidyavardhini's College of Engineering and Technology

Department Of Electronics and Telecommunication Engineering

Academic Year 2022-2023





Outcomes of Event	On successful completion of event, 1. Participants will be empowered to create fading LED effects, interface with displays, and utilize MATLAB for data analysis and programming. 2. They will be able to apply knowledge in Arduino and MATLAB projects. 3. They will gain practical experience in controlling LEDs, working with sensors, displays, and wireless communication using Bluetooth.

Report on Industrial Visit to BSNL Satellite Earth Station, Yeur

Event Name	Industry Visit to BSNL Satellite Earth Station
Date	18/01/2023
In association with	IETE-SF
Description	Vidyavardhini's College of Engineering and Technology, along with IETE-SF, hosted an industry visit to BSNL Satellite Earth Station, Yeur, Mumbai, where students were introduced to various aspects of satellite communication and telecommunications. The visit was divided into three sessions. The students were educated about power management, solar power usage, and various electronic components.
Objectives of the event	The objectives of the event are: 1. To aware the students of VCET with the rapid growth of the Satellite Communication field and its increasing demand in the global market. 2. To impart knowledge about Satellite Communication as well as the basics of Optical Communication Networks and Network Management in Telecommunication.

Academic Year 2022-2023

Report on Quizzards Of Techno'23

Event Name	Quizzards Of Techno'23
Date	14/02/2023
In association with	IETE-SF
Description	On the occasion of IETE Day on 14th February 2023, Electronic and Telecommunication Department of Vidyavardhini's College of Engineering and Technology in association with IETE- SF organised an exciting event named "Quizzards of Techno' 23". It was a Technical as well as GK Quiz Competition in which participants from all departments and year of our college participated with great enthusiasm. There were three rounds which was elimination round based on Tech-Gen, then comes the second round which was based on picture related quiz. For last one wasbrainstorming round.
Objectives of Event	The objectives of the event are : 1. To make participants think beyond their textual knowledge and apply their logical reasoning abilities. 2. To encourage participants to work together to solve problems.
Feedback from participants	**Attributes** / **Average Score of marking given by participants (out of 5)** 1. How good was the technical arrangement for the event? — 4.18181 2. How was your experience? — 4.25454 Students Feedback on Quiz Competition

Vidyavardhini's College of Engineering and Technology

Department Of Electronics and Telecommunication Engineering

Academic Year 2022-2023

	Outcomes of Event	On successful completion of event: 1. Participants will be able to boost their knowledge beyond academics. 2. They will be empowered with the competitive spirit for any further challenges.

Report on THINK ALOUD

Event Name	Think Aloud
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	21st february 2023 (4:00 pm)
Speaker of the Event	Prof. Chandan Kolvankar Ms. Shobhna Shirsath Dr. Madhavi Waghmare
Topic of Event	Think Aloud – A group discussion event
Important dignitaries attended	Dr. Amrita Ruperee, HOD EXTC, IEEE-SB Incharge Dr. Sunayana Jadhav, and Assistant Professor Ms. Ekta Naik.
Objective of the event	1. To understand the importance of group discussion. 2. To understand and comply with the rules and regulations of a group discussion. 3. To understand how to smoothly transition in a group discussion.
Brief Report including above information	Think Aloud was organised by IEEE-SB on 21st February 2023 from 4.00 PM to 6.00 PM on the 3rd floor Seminar hall. The purpose of the event was to provide a platform for group discussion where participants could express their views, thoughts, presence of mind and their communication skills. The competition was divided into two rounds, the elimination round and the traditional group discussion round. A variety of topics were provided to the participants prior to the event and they were asked to speak about any one topic selected by the judges. In the second round, all remaining participants were divided into groups of two and each group was given a different topic to discuss. A total of 17 students participated in the competition. The winners of the Think Aloud event were Insha Mullah(1st)(BE-IT),Pritesh Mair(2nd)(BE-COMPS) and Mihir Gosavi(3rd)(SE-EXTC). The winners received prizes from a prize pool of Rs.1500 and all the participants received certificates of participation. Overall, the Think Aloud event was a huge success, and it achieved its objective of organising a group discussion. We hope that such events will continue to be organised in the future to promote academic excellence and enhance the knowledge and skills of students.

Vidyavardhini's College of Engineering and Technology, Vasai Road (W)

Department Of Electronics and Telecommunication Engineering

Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of group discussion. 2. Understand and comply with the rules and regulations of a group discussion. 3. Understand how to smoothly transition in a group discussion

Report on MACHINE LEARNING SEMINAR

Event Name	Seminar on Machine Learning
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	27th February, 2023 (4:00 pm)
Speaker of the Event	Mr. Arun Nambiar (Tech Consultant at Accenture)
Topic of Speaker	Introduction to Machine Learning and Its Industrial Applications
Important dignitaries attended	Dr. Amrita Ruperee, HOD EXTC, IEEE-SB Incharge Dr. Sunayana Jadhav and Assistant Professor Ms. Neha Gharat
Objective of the event	1. To understand the importance of machine learning. 2. To understand how neural networks play a role in machine learning. 3. To understand machine learning and its industrial applications.
Brief Report including above information	A seminar on "Introduction to Machine Learning and Its Industrial Applications" was held at Vidyavardhini's College of Engineering and Technology. The seminar was organized by IEEE-SB of the Department of Electronics and Telecommunication. The speaker for the seminar was Mr. Arun Nambiar, a Tech Consultant at Accenture. The seminar started with the introduction of the speaker and the topic by the host. Mr. Nambiar began the seminar by giving an overview of the basics of Machine Learning (ML) and its applications in various industries. He explained how machine learning algorithms can be used to train models that can make predictions or decisions based on the data provided to them. Mr. Nambiar then went on to explain how different industries are leveraging these technologies to automate various processes and improve their products and services. He also gave several examples of how machine learning is being used in different industries, such as healthcare, finance, and transportation. He explained how machine learning algorithms can be used to predict patient outcomes, detect fraud in financial transactions, and optimize transportation routes, among other things. The seminar was interactive, and the speaker encouraged the audience to ask questions and share their thoughts. The questions asked by the students

HEAD
Dept. of Electronics and Telecommunication Engg.,
Vidyavardhini's College of Engineering & Technology
Vasai Road 401 202.

	ranged from the basics of machine learning to more advanced concepts. Overall, the seminar was highly informative and engaging, it helped the students gain a better understanding of the potential of machine learning to revolutionize different industries. The interactive session allowed the students to ask questions and share their thoughts on the topic. It was a successful event that provided valuable insights to the audience. The IEEE student branch of Vidyavardhini's college of engineering and technology plans to continue organizing similar events in the future to help Students grow their knowledge about the trending technologies around the Globe.
Outcome of the event	On successful completion of event students/learners will be able to: 1. Identify the basic neural networks and its applications. 2. Understand various how deep learning is a sub branch of machine learning. 3. The various industrial applications of machine learning.

Report on RASPBERRY PI WORKSHOP

Event Name	Workshop on Raspberry Pi
Date	09/03/2023 & 11/03/2023
In association with	IETE-SF
Speaker of the Event	Mr. Manoj S. Kavedia (Professor at Thadomal Shahani Engineering College, Mumbai, Maharashtra)
Description	Vidyavardhini's College of Engineering and Technology, in partnership with IETE-SF, hosted a comprehensive "Raspberry Pi Workshop." The event spanned offline and online sessions. It featured introductions, discussions on embedded systems, and practical Raspberry Pi basics. Later on, the workshop was held with hands-on instruction, with students learning Write Pin, Read Pin, and code verification.
Objectives of Event	The objectives of the event are : 1. To understand the basic pin configuration, timer configuration and connectivity of Raspberry Pi. 2. To understand various USART connections and software installation.
Feedback from participants	**Attributes** / **Average Score of marking given by participants (out of 5)** 1. How good was the technical arrangement for the program? — 4.05555 2. How was your experience? — 4.12962 3. Would you like to participate in more such workshops? — -

Report on All India Radio IV

Event Name	All India Radio IV
Centre (name)	IEEE-SB
Venue (College/Institute)	Akashwani (AIR), Churchgate, Mumbai
Date & Time	10th March 2023 (9:00 am)
Speaker of the Event	Mr. Solanki Mr. P.D. Gogate Mr. Rajendra Bagul
Topic of Event	Industrial Visit to All India Radio
Important dignitaries attended	Dr. Amrita Ruperee, HOD EXTC, and Assistant Professor Ms. Trupti Shah.
Objective of the event	1. To understand the importance of satellites. 2. To understand how communication is carried out using various satellites. 3. To understand the importance of various modulation techniques.
Brief Report including above information	The purpose of this report is to provide an overview of the industry visit to Akashwani Churchgate, a renowned broadcasting station located in Churchgate, Mumbai. The visit took place on 10th March, 2023 from 9am to 4 pm, organized by Vidyavardhini's College of Engineering and Technology, Vasai as part of our educational program. The objective of the visit was to gain insights into the operations and functioning of a radio broadcasting facility. We were accompanied by our Head Of Department of EXTC Dr. Amrita Ruperee & Ms. Trupti Shah, Assistant Professor, VCET. Akashwani Churchgate, also known as All India Radio Churchgate, is a prominent radio station operated by Prasar Bharati, India's public broadcasting agency. It serves as a vital medium for disseminating news, entertainment, educational content, and cultural programs to millions of listeners across the country. Prior to the visit, our group was briefed about the history and significance of Akashwani Churchgate. We were instructed to research the radio broadcasting industry, its evolution, and the role of radio in the contemporary media landscape. This preparatory phase helped us better understand the context of our visit and allowed

	us to ask relevant questions during the tour. On the day of the visit, we arrived at Akashwani, Churchgate and were warmly welcomed by the station's staff Mr. Solanki & Mr. Gogate. We were given an introductory overview of the studio by Mr. Solanki. Firstly we were taken to the hall and the speakers gave us a glimpse of the entire building. There were around 32 different studios in the building having different shapes and sizes with different facilities. They also described about the various sections of the studio. There were 3 sections namely Engineering section, Program Section & Administration section. In the engineering section tasks such as maintaining the recordings of the audio signals, equipment maintenance, noise cancellation and amplification, etc. were done. The section serves around 8 channels in 24 hours. The program section generates program for entertainment and news or special events and schedule it and the administration section supervises the broadcasting of the channels. Later the staff gave us an overview of Vacuum tube transmitter and its functionalities. He also briefed us about Magnetic tape which have a recording capacity of maximum 30 minutes. Mr. Solanki explained well what are the various channels and their frequencies, what are the carrier signals and its optimization and how the modulation & demodulation of the signals are done. Every studio generates different frequency signals, hence no mixing of frequencies takes place. Also we were explained about various techniques of modulations the studio utilizes such as AM (Amplitude modulation) & FM (Frequency Modulation) transmission and their differences. The entire control room works for 24 hours constantly and also translates the scripts into various languages. Depending on the transmission region lies near or far, low and high level of modulation of signals were used which were described properly to us. Later we were explained about various amplifiers being used such as for an audio signal Class B amplifier is utilized. Later on the day, we were told to divide in 2 batches of 15 students each and were guided to the recording room. The first batch were taught about the functioning of an AM Tower followed by the second batch. The speaker demonstrated us by recording his

	voice, it was being edited and noise cancellation was applied with the help of tabs and that particular program was ready to broadcast. After our visit from the recording room we were guided to the hall where QnA session was conducted. Students asked questions related to uplink/downlink streams and various applications which were beautifully explained by the staff. Further batch 1 was guided to the music studio and the other batch to the terrace area, Mr. Gogate gave a brief of the giant antenna dish placed on the terrace and the transmission room from where the high frequency signals are being transmitted in the region. The uplink and downlink processes were explained in depth at a cabin on terrace. It includes a captive earth station which have a base band rack and a monitoring rack. A monitoring rack is a receiver used for uplink. Later he proceeded to explain about Waveguide having a frequency range of 3-6 GHz. He also explained about how the dishes changes their position in order to direct or receive waves in/from a particular direction. After the visit from the terrace area students were guided to the Stand-by Studio. In the standby studio, we were explained about a system known as Gain volume controller in which microphonic inputs were recorded. Also, a mixer mechanism was used which mixes about 4-5 outputs and combines them. Later he explained what a tablock is and why it is being used. Then the students were guided to CBS studio which was similar in functioning with the standby studio. After that, we were moved to the music studio. The music studio is an acoustically treated room attached to a control room. The studio consists of five microphones and sufficient musical instruments. The control room consists of workstations/computers and a control console for adjusting and checking the quality of the program. These arrangements together were used for producing musical programs. Live musical programs can be also conducted here. Then we went to the Talk studio. It was similar to the music studio with an acoustically treated live room and a control room. The live room consisted of only 2-4 microphones. The acoustics of the talk studio is entirely different from the music studio. It was

	constructed in such a way that the reverberation time was minimised and no echo is experienced. Talk studio can also be used to produce live chat programs. Then we went to the control room. The Studio console was the major equipment used in the studio control room with the help of the device the different programs that were produced and those that were received from other stations routed to air. With this our visit to Akashwani ended. Dr. Amrita Ruperee appreciated the efforts of the entire staff of AIR and thanked them for being so patient and humble with the students. She showed her gratitude towards them by providing mementos. The industry visit to Akashwani Churchgate provided us with a comprehensive understanding of the radio broadcasting industry and its operational aspects. We appreciated the opportunity to witness the behind-the-scenes activities at a reputable broadcasting station and interact with industry professionals. The visit enhanced our knowledge about the role of radio in contemporary media and its impact on society. We are grateful to the EXTC Department of Vidyavardhinis College of Engineering & Technology and the staff at Akashwani Churchgate for organizing such an insightful and enriching experience.
Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of satellites. 2. Understand how communication is carried out using various satellites. 3. Understand the importance of various modulation techniques

Report on ACCURATE HELICAL SPRINGS IV

Event Name	Accurate Helical Springs IV
Centre (name)	IEEE-SB
Venue (College/Institute)	Accurate Helical Springs Pvt. Ltd.
Date & Time	23rd March 2023 (9:00 am)
Speaker of the Event	
Topic of Event	Industrial Visit to Accurate Helical Springs
Important dignitaries attended	Dr. Sunayana Jadhav, Ms. Trupti Shah, Mr. Sanjay Lohar, Mr. Yogesh Pingle
Objective of the event	1. To understand the importance of springs in our day-to-day life. 2. To understand the mechanism of different types of springs and their applications. 3. To understand the importance of springs in various applications.
Brief Report including above information	The "Industrial Visit" to "Accurate Helical Springs Pvt. Ltd." Was organized on 23rd of March 2023. The event was organized under the guidance of Dr. Sunayana Jadhav and Mrs. Ekta Naik. The faculties present for the visit along with the students were Dr. Sunayana Jadhav, Ms. Trupti Shah, Mr. Sanjay Lohar, and Mr. Yogesh Pingle. The "Industrial visit was organized for the students of honors "Internet of Things" and final year students of "Wireless Networks". The visit exposed the students to the industry of spring making. From the design of springs to the manufacturing of those springs, the entire process was witnessed by the students. The company "Accurate Helical Springs Pvt. Ltd." manufactures over 5000 different varieties of springs which find applications from a switch to air-craft manufacturing. The visit was a great opportunity for the students to not only witness the manufacturing of those springs but also learn about the various applications of those springs. The products ranging from 0.08mm to 2.3mm were observed by the students. The event timeline started with a short film being shown on the history of springs. After watching the film the students were guided to the museum of

	springs, having a variety of springs put on display. After that, the students were taken to witness the manufacturing of the springs, and the person present in explaining the working process was kind enough to answer all the questions that the students had. The visit came to an end with the students being provided a brochure of the company and a pocket diary along with that. The "Industrial Visit" was a huge success following the efforts put forth by the students of IEEE-SB and the everlasting support of Dr. Sunayana Jadhav and Mrs. Ekta Naik.
Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of springs in our day-to-day life. 2. Understand the mechanism of different types of springs and their applications. 3. Understand the importance of springs in various applications.

Report on TIFR IV

Event Name	Tata Institute of Fundamental Research IV
Centre (name)	IEEE-SB
Venue (College/Institute)	Tata Institute of Fundamental Research (TIFR), Mumbai
Date & Time	25th March 2023 (9:00 am)
Speaker of the Event	Mr. Satyanarayana Bheesette Mr. Ravindra Shinde
Topic of Event	Industrial Visit to Tata Institute of Fundamental Research
Important dignitaries attended	Dr. Sunayana Jadhav, Ms. Sandhya Supalkar, Ms. Ashwini Katkar
Objective of the event	1. To understand the importance of physics and the various fundamentals associated with it. 2. To understand the different mechanisms of physics and how it governs the universe. 3. To understand the importance of physics in day-to-day life.
Brief Report including above information	On 25th March, 2023, the IEEE-SB committee of Vidyavardhini's College of Engineering and Technology organized an industrial visit to the Tata Institute of Fundamental Research (TIFR), Mumbai. The visit was attended by 22 students from the IEEE-SB and IETE-SF, along with faculty members Dr. Sunayana Jadhav (IEEE-SB Incharge), Ms. Ashwini Katkar (Assistant Professor), and Ms. Sandhya Supalkar (Assistant Professor) of the Electronics and Telecommunications Engineering Department. TIFR, a magnificent and expansive institute, is renowned for its cutting-edge research in the fields of semiconductors, nanostructured materials, and soft-matter. During the visit, students were awestruck by the sheer size and beauty of the campus, as they had the opportunity to learn about the latest research in these areas, and gain hands-on experience with Field Programmable Gate Arrays (FPGA). The visit was expertly led by Dr. B. Satyanarayana, a distinguished Chair of the IEEE Bombay Section and esteemed faculty member at TIFR. Dr. Satyanarayana provided the students with valuable insights into the ongoing research projects at TIFR, including their real-world applications. He also took time to answer students' questions regarding physics in general and how they could participate in TIFR's research activities. Dr. Satyanarayana's guidance was instrumental in ensuring that the students gained a deeper understanding of the work

	being done at TIFR and its relevance to their future careers in engineering and technology.The visit was an enriching experience for the students, who gained valuable insights into the practical applications of the concepts they had learned in the classroom. They were also able to network with researchers and faculty members at TIFR, and gain a better understanding of the research opportunities available to them in their future careers. Overall, the industrial visit to TIFR was a valuable learning experience for the students of Vidyavardhini's College of Engineering and Technology. It provided them with an opportunity to gain hands-on experience, learn about cutting-edge research, and gain insights into the practical applications of the concepts learned in the classroom. The visit was a valuable addition to their academic experience, and will benefit them in their future careers.
Outcome of the event	On successful completion of event students/learners will be able to: 1. Understand the importance of physics and the various fundamentals associated with it. 2. Understand the different mechanisms of physics and how it governs the universe. 3. Understand the importance of physics in day-to-day life.

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF INSTRUMENTATION ENGINEERING

VCET ISA Student's Section

YANTRA: The Product Showcase

- No of Participants: 20
- Date: 23rd September 2022
- Event Description:

The Product Showcase was held on 23rd September, 2022 from 10 am onwards. Each department in the college had their own product showcase related to their domains. YANTRA is organised by the Department of Instrumentation Engineering in association with VCET ISA SC. The event began with the inauguration ceremony held at the Instrumentation Department at 10:30 am. The Chief Guest for the event was Mr. Acharan Chandel and the Guest of Honor was Mr. Kaustubh Bhalekar. Ms. Riya Raut hosted the ceremony and welcomed the guests and other dignitaries which was followed by the speech from Mr. Mayuresh Kadam, President of ISA SC. Further, Ms. Urmiksha Tawde, Yantra Head gave a brief introduction about the event. After that the lamp lighting ceremony took place along with the saraswati vandana. Moreover, it was followed by the speeches of Mrs. Mugdha Salvi (Faculty Advisor of ISA) and Dr. Deepak Gawali (Head of Department, Instrumentation). The Principal of VCET, Dr. Harish Vankudre felicitated the Chief Guest, Mr. Acharan Chandel. Further, Mr. Acharan Chandel spoke about the event and wished good luck to all the participants and congratulated the team for the amazing organisation of the event. Later, Dr. Harish Vankudre, the Principal of VCET spoke a few words regarding the event. It was followed by a ribbon cutting ceremony which commenced Yantra 22. The inauguration ceremony came to an end with a vote of thanks delivered by Ms. Shraddha Mestry, Secretary of VCET ISA SC.

The products from many reputed companies in the field of instrumentation and automation were displayed namely Vega India, Nippon, etc. The showcase was flooded with the students. Around 300 students attended the product showcase. This event helped to bridge the gap between the students and the industry as it gave students an opportunity to learn what actual products are used in the industry.

The event came to an end in the evening at 5:00 pm with the announcement of Best Exhibitor Competition won by Vega India represented by Mr. Rohan Patil and Mr. Aman Gupta. The Runner-Up for the same were Archerchem Instruments represented by Mr. Peeyush Chourasiya and Riya Dutta. There was a special appreciation category given to Ohmkar Equipments represented by Mr. Darshan Pawar and Ms. Shreya Shetty.

There was also a Lucky draw competition that engaged students from all over the college which was won by Mr. Prathamesh More from BE Mechanical and Ms.Ragini Nair from BE Instrumentation. At the end of the event, the students had a wonderful experience that will be useful for them in the future and the event was a great success.

Virtual Industrial Visit

- Resource Person: Mr. Dilip Sakre (Allied Electricals) , Mr. Sudhakar Shetty and Mr. Shridhar Shetty (Shreenidhi Rubber Pvt. Ltd.)
- No of Participants: 35
- Date: 15th September 2022
- Event Description:

On the occasion of Engineer's Day, VCET ISA SC organised a Virtual Industrial Visit on 15th September 2022, 12:00 pm onwards. The industries visited were Allied Electricals and Shreenidhi Rubber Pvt. Ltd. Mr. Dilip Sakre, representative from Allied Electricals gave detailed information to the students about various control panels along with their design & manufacturing done by them and various other functionalities of the panel.

Coming towards the other company, Mr. Sudhakar Shetty and Mr. Shridhar Shetty, representatives from Shreenidhi Rubber Pvt. Ltd. showed various manufacturing processes of rubber done by them such as mixing, extradition, weighing, processing, and at the end their packaging process. Moreover, they demonstrated various machines that they use consisting of manual, semi-automatic, and fully automatic machines. They also showed various types of dyes and moulds that they use.

In the end, one of our volunteers gave a vote of thanks to the representatives of both the companies, faculty members, and students for gracing the occasion with their presence. At 1:30 pm in the afternoon, the event concluded.

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2022-23

Report on Web Development Internship

The Web Development Internship was conducted from 12/06/2023-23/06/2023. The students from different department of the Vidyavardhini's College of Engineering & Technology along with students from the outside institutes also participated in the internship. The internship covered many technologies such as HTML, Java script, XML, Servlet, JSP, PHP which are useful for the development of the web site.

A total number of 37 students participated in the internship.

Date: 12th June, 2023

Time: 10 AM to 11:30,

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The session began with a brief introduction of the students

The key points discussed in the session were:

1. Introduction to HTML programming
2. World wide web concept
3. Various HTML elements
4. Discussion on a website developed by the industry

The workshop was attended by 30 students

Date: 12th June, 2023

Time: 2 PM to 3:30PM

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Introduction to cascading style sheet
2. Types of cascading style sheet
3. Application of cascading style sheet

The workshop was attended by 28 students

Date: 13th June, 2023

Time: 10 AM to 11:30,

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Introduction to HTML Form
2. Attributes of Form elements
3. Web page design using form

The workshop was attended by 27 students

Date: 13th June, 2023

Time: 2 PM to 3:30PM

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Various types of media
2. Elements to include media on the web page
3. Discussion on sample website

The workshop was attended by 27 students

Date: 14th June, 2023

Time: 10 AM to 11:30,

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Introduction to XML concept
2. Application of the XML concept in maintaining data
3. XML schema and DTD

The workshop was attended by 31 students

Date: 14th June, 2023

Time: 2 PM to 3:30PM

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Accessing XML data on the web page
2. Demonstration of the concept of accessing XML data

The workshop was attended by 30 students

Date: 15th June, 2023

Time: 10 AM to 11:30AM

Speaker: Mrs. Aarti Puthran, Assistant Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Basic concepts of java script
2. Demonstration of java script concept
3. Practice problems

The workshop was attended by 32 students

Date: 15th June, 2023

Time: 2 PM to 3:30PM

Speaker: Mrs. Aarti Puthran, Assistant Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Basic concepts of java script control structures
2. Demonstration of java script control structures

The workshop was attended by 32 students

Date: 16th June, 2023

Time: 10AM to 11:30AM

Speaker: Mrs. Aarti Puthran, Assistant Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Java Script Function
2. Practice problem
3. Application of Java script function in web development

The session was attended by 33 students

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2022-23

Date: 16th June, 2023

Time: 2PM to 3:30PM

Speaker: Mrs. Aarti Puthran, Assistant Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Java Script object
2. Java script form validation
3. Application of Java script object in web development

The session was attended by 32 students

Date: 19th June, 2023

Time: 10 AM to 11:30,

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The session began with a brief introduction of the students

The key points discussed in the session were:

1. Introduction to HTML DOM
2. Application of HTML DOM

The session was attended by 33 students

Date: 19th June, 2023

Time: 2 PM to 3:30PM

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. DOM events
2. Making use of DOM events in handling web document

The session was attended by 21 students

Date: 20th June, 2023

Time: 10 AM to 11:30,

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The session began with a brief introduction of the students

The key points discussed in the session were:

1. Introduction to Dynamic programming
3. Basic concept of servlet
4. Demonstration of servlet using netbeans

The session was attended by 22 students

Date: 20th June, 2023

Time: 2 PM to 3:30PM

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

1. Cookies concept
2. Creation of cookies

The session was attended by 05 students

Date: 21st June, 2023

Time: 10 AM to 11:30,

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The session began with a brief introduction of the students

The key points discussed in the session were:

1. Introduction to JSP programming
2. JSP scripting elements

The session was attended by 26 students

Date: 21st June, 2023

Time: 2 PM to 3:30PM

Speaker: Dr. Dinesh Patil, Associate Professor, Computer Engineering Dept, VCET

The key points discussed in the session were:

3. JSP implicit object

4. Making use of JSP to develop web page

The session was attended by 26 students

Date: 22nd June, 2023

Time: 10 AM to 11:30,

Speaker: Mr, Ahmed Shaikh, Founder, Rigel InfoTech, Mumbai

The session began with a brief introduction of the students

The key points discussed in the session were:

1. Setting up of PHP environment
2. Creating and executing PHP files

The session was attended by 32 students

Date: 22nd June, 2023

Time: 2 PM to 3:30PM

Speaker: Mr, Ahmed Shaikh, Founder, Rigel InfoTech, Mumbai

The key points discussed in the session were:

3. Integration of HTML in PHP
4. PHP operation

The session was attended by 32 students

Date: 23rd June, 2023

Time: 10 AM to 11:30,

Speaker: Mr, Ahmed Shaikh, Founder, Rigel InfoTech, Mumbai

The key points discussed in the session were:

1. Working with Forms using PHP
2. CRUD operation using PHP and MySQL

The session was attended by 31 students

118_Internship on "Android Application Development using Kotlin"

Report on Intra Institutional Internship on

Android Application Development using Kotlin

Two Weeks (10 Days) Summer Internship Program on Android Application Development using Kotlin was organised by Android Development Club (ADC) of Department of Computer Engineering & Industry Institute Interaction Cell of Vidyavardhini's College of Engineering and Technology in association with AutoStrings Pvt.Ltd for students from any discipline of the Engg.college from 12th June 2023 to 23rd June 2023. The sessions were conducted by Prof. Sneha Mhatre, Assistant Professor, Department of Computer Engineering, Vidyavardhini's College of Engineering and Technology.

The details of the Internship were as under:

Day 1 (12/6/23) Session 1:10:00 am to 1:00pm:

Introduction to Android: Overview of Android and Android SDK, History of Android and Android features

Android Architecture overview: Introduction to OS layers, Linux kernel, Libraries, Android Runtime and Application framework

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 2 (13/6/23) Session 1:10:00 am to 1:00pm:

Overview of Android App using Kotlin, Installation of Android Studio

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 3 (14/6/23) Session 1:10:00 am to 1:00pm:

User Interface: View Hierarchy, View Groups and Layouts, UI Events & Events Listener, Building Menus, Notifying users, Creating dialogs, Graphics & Animations and Applying styles and themes to UI.

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 4 (15/6/23) Session 1:10:00 am to 1:00pm:

Getting Started with Hello World App: Creating a Registration Form

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 5 (16/6/23) Session 1:10:00 am to 1:00pm:

Overview of Autostrings Pvt.Ltd , working modules of Autostrings etc.

Day 6 (19/6/23) Session 1:10:00 am to 1:00pm:

Adding Radio Button, Spinner, and Images in App

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 7 (20/6/23) Session 1:10:00 am to 1:00pm:

Creating a Search App and URL request

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 8 (21/6/23) Session 1:10:00 am to 1:00pm:

Overview of project assigned to the students and demonstration of SQLite Database.

Day 9 (22/6/23) Session 1:10:00 am to 1:00pm:

Display Search Result, Playing Video using YouTube API

Session 2:2:00 pm to 4:00pm:

Quiz and Assignments on above topics

Day 10 (23/6/23) Session 1:10:00 am to 1:00pm:

Description of the Mini-Project to be submitted by the students

On all the days 1 n half hour were dedicated for the students for practice. A total of 3 Quizzes and 7 Assignments were given to the participants to gauge their understanding about the topics covered on that particular day.

A total of 36 students took part in this internship, the name of the students has been attached.

119_Expert Lecture on "Next Generation Feautres of Modern Intel Processor"

Vidyavardhini's College of Engineering and Technology
Department of Computer Engineering
Academic Year : 2022-23 (Even Sem)

Report on Expert Lecture
"Next Generation Features of Modern Intel Processor"

Date: 13th April 2023
Time: 2.00 to 3.00 pm

Speaker/Resource Person: Dr. Vinayak D. Shinde. Associate Professor at LRTCE, Mira Road, affiliated to the University of Mumbai, India.

Organized by: Mr. Sunil Katkar, Department of Computer Engineering, VCET

The session began with a brief introduction by Mr. Sunil Katkar.

Participants: SE-Sem-IV all students.

Learning Objectives:

- To revise terms of Microprocessor and Microcontroller.
- To study the evolution of the Intel processor family.
- To understand new instruction set introduced in modern Intel processors in the world.
- To understand basic features vs next generation features of the processor.
- To understand Super SPARC Architecture.
- To understand advanced features of modern Intel family processors.

Outcomes: Appraise the features of advanced Intel family processors.

Participants: SE-Sem-IV all students.

The workshop was attended by 65 students.

Android Development Club Seminar Report

March 28, 2023

On March 28, 2023, the Android Development Club (ADC) conducted an insightful seminar in our college's third-floor seminar hall.

The Android Development Seminar aimed to provide students with valuable insights into mobile app development, with a focus on Android. The seminar was structured to cover a wide range of essential topics related to Android development, making it an insightful and enriching experience for the participants.

Key Highlights:

1. **Introduction to Mobile App Development with Android:** Students grasped the foundations of mobile app development with a focus on Android.
2. **Basics of Java Programming for Android:** Attendees learned essential Java programming concepts specifically for Android development.
3. **Understanding the Android SDK and Development Tools:** Students acquired knowledge about the Android Software Development Kit (SDK) and the essential development tools.
4. **UI Design for Android Apps:** Participants discovered how to create visually appealing and user-friendly app interfaces.
5. **Building Responsive and User-Friendly Apps:** Understanding the significance of app responsiveness and user-centric design was a key takeaway.
6. **Using Android Libraries and APIs:** Students learned to utilize pre-built Android libraries and APIs to streamline development.
7. **Integrating Backend Services and APIs:** Knowledge was gained on integrating backend services and external APIs for enhanced functionality.
8. **Testing and Debugging Android Apps:** Attendees were equipped with best practices for thorough app testing and debugging.
9. **Q&A Session:** Interactive Q&A reinforced fundamental Android development knowledge.
10. **Student Development Platform:** Introduction of a 10-day workshop for practical Android app development.

11. **Quiz and Prizes:** An engaging quiz rewarded correct answers, adding fun to the event.

In conclusion, the seminar provided an excellent platform for students to enhance their Android development knowledge and connect with like-minded peers. It was a significant step toward empowering the next generation of Android developers.

Thank you for your support in organizing such events that enhance the learning experience of our students.

Subject: Permission for organizing a National Webinar on the topic 'Digital Forensics Challenges and Future'

Respected Sir,

The Department of Computer Engineering wishes to organize a National webinar on the topic 'Digital Forensics Challenges and Future' on 23rd March 2023 from 3:00 pm to 04:00 pm in online mode. The students and the faculty of the institute can benefits from this webinar. The resource person for the same is Lt. Col Santosh Khadsare (Retd), Vice President, Digital Forensics & Incident Response(DFIR), eSec Forte Technologies. Honorarium for the resource person is 1500/-
We hereby request you to grant us permission and sanction the honorarium amount for the same.

Thanking you,

Yours truly

Dr. Dinesh N. Patil

Report on National Webinar on "Digital Forensics Challenges and Future"

Date: 23rd March, 2022

Time: 3 PM to 4 PM

Speaker: Lt. Col. Santosh Khadsare (Retd.), Vice President, eSec Forte Technologies

The session began with a brief introduction by Dr. Dinesh N. Patil

The key points discussed in the session were:

1. Basics of Digital Forensics
2. New domain of the Digital Forensics
3. Challenges faced by Digital Forensics
4. Future issues that may arise in the Digital Forensics domain
5. Question & Answering Session
6. Discussion on a product developed by the industry

The workshop was attended by 34 participants

122_Expert Lecture on Test of Hypothesis for Quantitative Analysis

Report on Expert Lecture on Test of Hypothesis for Quantitative Analysis Course

Date: 20th March, 2023

Time: 2-4 pm

Speaker: Teena S. Trivedi, PhD, Mathematics,

Assistant Professor, Universal College of Engineering

Organized by: Department of Computer Engineering, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Null and Alternative hypotheses
2. Type I and Type II
3. Steps for Hypothesis Testing with example
4. One tailed and Two tailed test and their significance
5. Likelyhood function
6. Neyman-Pearson lemma
7. Most Powerful and Uniformly Most Powerful tests.

The session was attended by 52 students

Prepared by

Dr. Megha Trivedi

Dear Madam,

It was privilege to have you as an esteemed speaker for guiding our students and faculty through the expert session on 'Test of Hypothesis' on 23rd March 2023.

Your rich experience in the field of Mathematics and Statistics was reflected through the insightful session delivered by you. The important concepts of the topic were explained in a very simple manner and well conveyed to the students.

Thank you for sparing your valuable time to deliver the session. We look forward for an association with you and more such interactions in the near future.

thanks and regards

123_Seminar on "Linux uncovered"

BitByteGo Committee

A report on
"Linux uncovered"
15/03/2023

Summary:

On 15/03/2023, a seminar was conducted on the topic of "Linux Uncovered" by Kshitij Patil and Chinmay Sonawane at Vidyavardhini's College of Engineering and Technology. The event was organized byBitByteGo committee under the guidance of Dr. Megha Trivedi and Dr. Tatwadarshi Nagarhalli with the intention of providing a platform to explore the features and functionality of the Linux operating system.

The seminar was attended by a diverse audience, including students, professionals, and enthusiasts who were interested in learning about the open-source software. The speakers, who are well-versed in Linux, shared their knowledge on the subject with great enthusiasm and passion.

The seminar commenced with an introduction to Linux, followed by an overview of its features and benefits. The speakers then delved into the core components of the operating system, including the command-line interface and file systems. They also provided insights on how to use Linux in conjunction with other tools and technologies.

The attendees were intrigued by the demonstrations of the Linux command line, where the speakers showcased how to perform various tasks, such as creating directories, editing files, and managing users. The speakers also elaborated on the different types of distributions available and how to select the right one based on the intended usage..

The seminar concluded with an interactive session where the attendees had the opportunity to ask questions and clarify their doubts. The speakers provided practical insights on how to get started with Linux and shared resources for further learning.

Overall, the seminar on Linux Uncovered was a resounding success. The attendees left with a better understanding of the capabilities of the Linux operating system and how it can be used

in various applications. The event served as an excellent platform for disseminating knowledge and fostering a community of Linux enthusiasts.

Date and Venue:
15/03/2023
Seminar Hall, 3rd Floor.

Speaker:
Chinmay Sonawane (BE Computer Engineering)
Kshitij Patil (TE Computer Engineering)

Contents:
1) Introduction to BitByteGo Club
2) Operating Systems
3) Why switch to Linux
4) Linux commands and packages
5) Virtualization
6) Setting up Linux(Virtual Box)
7) Dual Boot Windows with Linux

Participants:
There were over 50 students who attended the seminar in the offline mode.

BitByteGo Coordinator: Dr. Tatwadarshi Nagarhalli

Duration: 06st - 07th January 2023

Participants: Faculties and Students from Colleges of Engineering.

- **Course Objectives:-**
  1. To understand the fundamentals of parallel programming
  2. To understand the OpenMP and its use in Loop parallelization
  3. To explore the GPU architecture
  4. To understand the fundamental of the CUDA programming
  5. To understand the visual profiling and asynchronous streaming in parallel computing

Faculty Involved:

1. Convener
   - Dr. Megha Trivedi
2. Coordinator
   - Dr. Dinesh Patil
   - Mrs. Sneha Mhatre
3. Organizing Committee
   - Mr.Sunil Katkar
   - Mrs.Swati Varma
   - Mr.Sanjiv Vedhpathak

DAY 1 – 06/01/2023 (Friday)

Inauguration Function:

The two days online workshop was organized from 6th January - 7th January 2023 on **"Introduction to OpenMP and CUDA"**. Programme started with a welcome note by HOD, Dr. Megha Trivedi and address note by Principal, Dr. Harish Vankudre. Prof. Swati Varma gave the overview of contents to be covered in this programme along with schedule. The function concluded with a Vote of Thanks presented by Coordinator Dr. Dinesh Patil.

The Online workshop was attended by about 40 participants.

The Meet link for the sessions is as follows and same for all the sessions:

http://meet.google.com/yyj-bqsv-dbw

Session details are as follows:-

➢ **Day 1 Report (06th January 2023)**

❖ **Session 1 (10:00 am –11.30 am) :**
Speaker:- Dr.Tausif Diwan

Topic:- Introduction to OpenMP

Dr.Tausif Diwan has described following points

- Introduction to Parallel Programming
- Microprocessor, Trend, Shared Memory

❖ **Session 2(11.45 am -1.15 pm) :**
Speaker:- Dr.Tausif Diwan

Topic:-

- Introduction to OpenMP– Process VsThreads,
- Creation of Threads,
- Fork-join model,
- Hello World Program to understand thread organization

❖ **Session 3(02:00 pm -3:30 pm) :**
Speaker:- Dr.Tausif Diwan

Topic:-

- Loop Parallelization– Case Study vector addition,
- Data environments

❖ **Session 4(03:45 pm -5:15 pm) :**
Speaker:- Dr.Tausif Diwan

Topic:-

- Work Scheduling-Static, Dynamic,and Guided

➢ **Day 1 Report (06th January 2023)**

❖ **Session 1 (10:00 am –11.30 am) :**
Speaker:- Mr.Sandip Mane

Topic:- Introduction to CUDA

Mr.Sandip Mane has described following points

- Introduction to CUDA
- GPU Architecture

❖ **Session 2(11.45 am -1.15 pm) :**
Speaker:- Mr.Sandip Mane

Topic:-

- CUDA Thread Organizations,
- Handson Write on NVIDIA platform,
- Compile and run a simple Hello World CUDA Program

❖ **Session 3(02:00 pm -3:30 pm) :**
Speaker:- Mr.Sandip Mane

Topic:-

- Loop Parallelization– Command line profiling
- Fundamental course on CUDA on NVIDIA

❖ **Session 4(03:45 pm -5:15 pm) :**
Speaker:- Mr.Sandip Mane

Topic:-

- Visual Profiling and Asynchronous streaming

The function concluded with a Vote of Thanks presented by Coordinator Mrs. Sneha Mhatre.

126_Expert talk on “Blockchain Technology”

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2022-23

14/10/2022

Report on an Expert lecture on “Blockchain Technology: The Future”

Date: 14th Oct, 2022

Time: 12 PM to 1 PM

Speaker: Mrs. Sonali Gorade, CEO, Infotech Pvt. Ltd. Nashik

The session began with a brief introduction by Dr. Dinesh N. Patil

The key points discussed in the session were:

1. Detailed information on Sumago Infotech Pvt Ltd
2. Blockchain Technology and its types
3. Bitcoin Ecosystem
4. Challenges in Blockchain
5. Discussion on a product developed by the industry

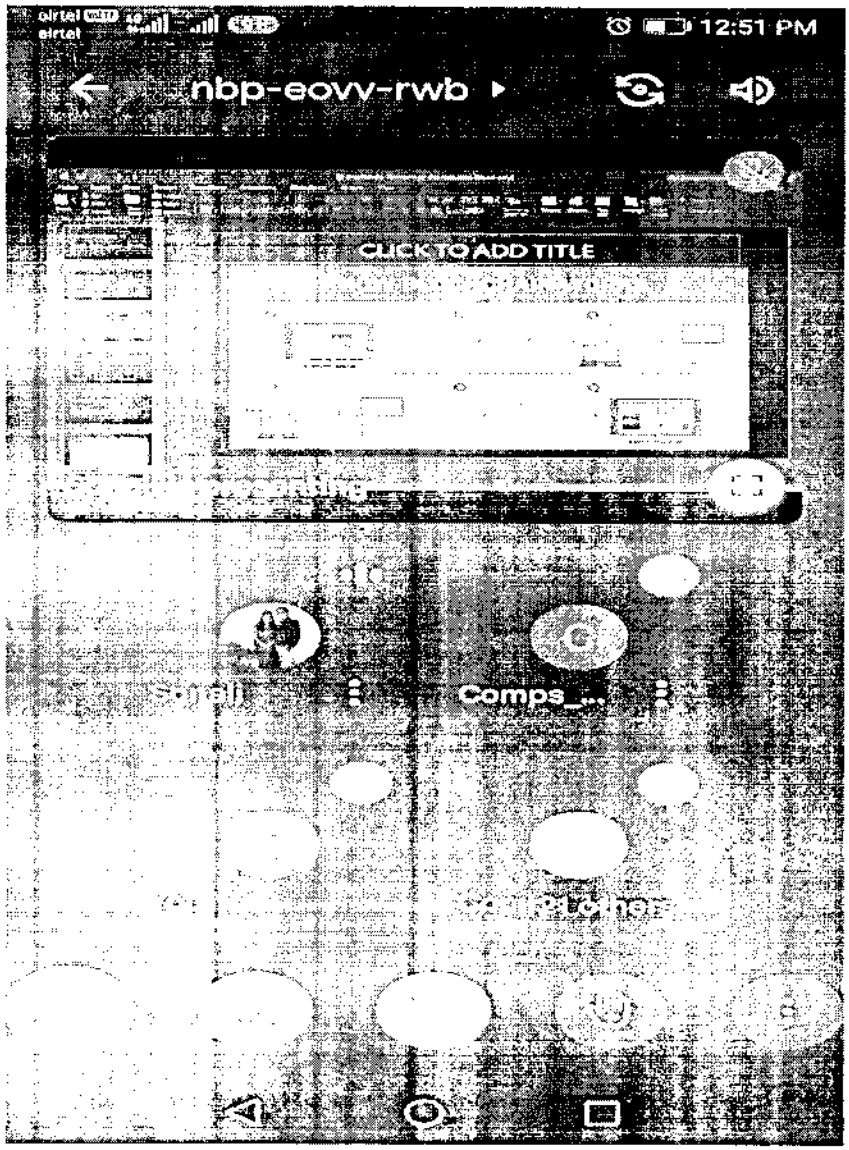
The workshop was attended by 30 students

Prepared by

Dr. Dinesh N. Patil

Associate Professor

Dept. of Computer Engg.



Session Conduction by the speaker

Workshop on Web Development

Department of Computer Engineering and BitByteGo-Codechef VCET chapter had organised this workshop and was take by **Mr. Dharmendra Jain Founder of HKI Infotech.**

Workshop continued for two days,

Day 1:- Mr. Dhamendra Jain mentioned about his project and shared details of the same. He explained how a ERP/Retail software works and gave insights about how to design the same. Moving forward he explained about all the tech stacks used in the project which included
Angular 7, .Net core and MsSQL. Things taught on first day:-

1. Overall project description and scope of the project
2. Problem statement
    a. Problem statement was to migrate the existing ASP .Net project to latest Typescript framework Angular
3. Technologies to be used in the process:-
    a. Angular 7
    b. .NET core API
    c. MsSQL
4. The next step thing done was setting up the project locally, tools used to setup project locally:-
    a. Visual Studio Code
    b. Visual Studio
    c. Swagger for API testing
    d. Microsoft SQL Management Server

Day 1 was wrapped up here

Day 2 :- Things done on second day

Once the project setup was done locally it was time for getting hand-on experience. Mr. Dharmendra Jain guided on how to get started with frontend framework angular, started with creating a normal app on angular. Things done on second day:-

1. Briefing about what angular is and what is the plan of action for migrating the existing project to angular
2. Creating the very first app in Angular
3. Later the session progressed with Mr. Dharmendra jain showing how to make a production level component in Angular
4. After the frontend part was over, the next chapter was to write the API for handling database queries.
5. Mr. Dharmendra Jain explained how API works for fetching and updating the data to and from the database
6. Given hands-on training on how to write API in .Net core and how to call them when and where needed
7. How to test API on swagger.

Thus at end of the day the full working component of Sales Order was ready capable of updating data to MsSQL server via API.

A total of 11 students of TE Computer Engineering attend this workshop

Dr. Tatwadarshi P.N.

128_Expert talk on "Projects"

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2022-23

22/08/2022

Report on Expert talk: Projects

Date: 22nd August, 2022

Time: 2.00pm - 3.00 pm

Speaker: Mr.Atharva Deshpande , Software engineer at Igmite Solutions, Mumbai

Organized by: Department of Computer Engineering

The session began with a brief introduction by Dr. Swapna Borde

The key points discussed in the talk were:

1. Project
2. Co-curricular Activities
3. Industry experience on projects

The talk was followed by a question-answer session.

The seminar was attended by 63 Third Year students

Prepared by

Dr.Swapna Borde

129_Expert talk on "Introduction to Computational Neuroscience"

Report on Expert Lecture

Introduction to Computational Neuroscience

Date: 3rd August, 2022

Time: 2PM – 3:30PM

Speaker: Dr. Srinivasa Chakravarthy, Computational Neuroscience Laboratory, IIT Madras

Organized by: Computer Engineering Department, VCET

Mode: Google Meet, Students were offline

Few important points covered in the Expert Lecture

1. A general idea about the Field of Computational Neuroscience was given.
2. The project that have been undertaken at the Computational Neuroscience Laboratory, IIT Madras were explained.
3. An overview of the ongoing projects in the field was given.
4. Demystifying the brain, what it entails were explained.
5. The details of the Meso Brain Project was also given.

The Guest Lecture was attend by 186 TE students Computer and allied branches.

Prepared by

Dr. Tatwadarshi P. N.

130_Expert talk on "Software Development Management Tools"

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2022-23

22/07/2022

Report on Expert talk: Software Development Management Tools

Date: 22nd July, 2022

Time: 2.00 pm – 3.00 pm

Speaker: Mr. Swapnil Vaidya , Software Engineer, PayPal, IL&FS Financial Centre, 2B Plot C, 22, G Block BKC, Bandra East, Mumbai,

Organized by: Mr. Anil Hingmire

The session began with a brief introduction by Mr. Anil Hingmire

The key points discussed in the talk were:

1. Development tools can be of many forms like linkers, compilers, code editors, GUI designer, performance analysis tools etc.
2. IT project management software features
3. Mandatory Features of Good Project Management Tools
4. Tools: Pipefy; NoteTabPro; Harvest: Heroku; Zapier etc

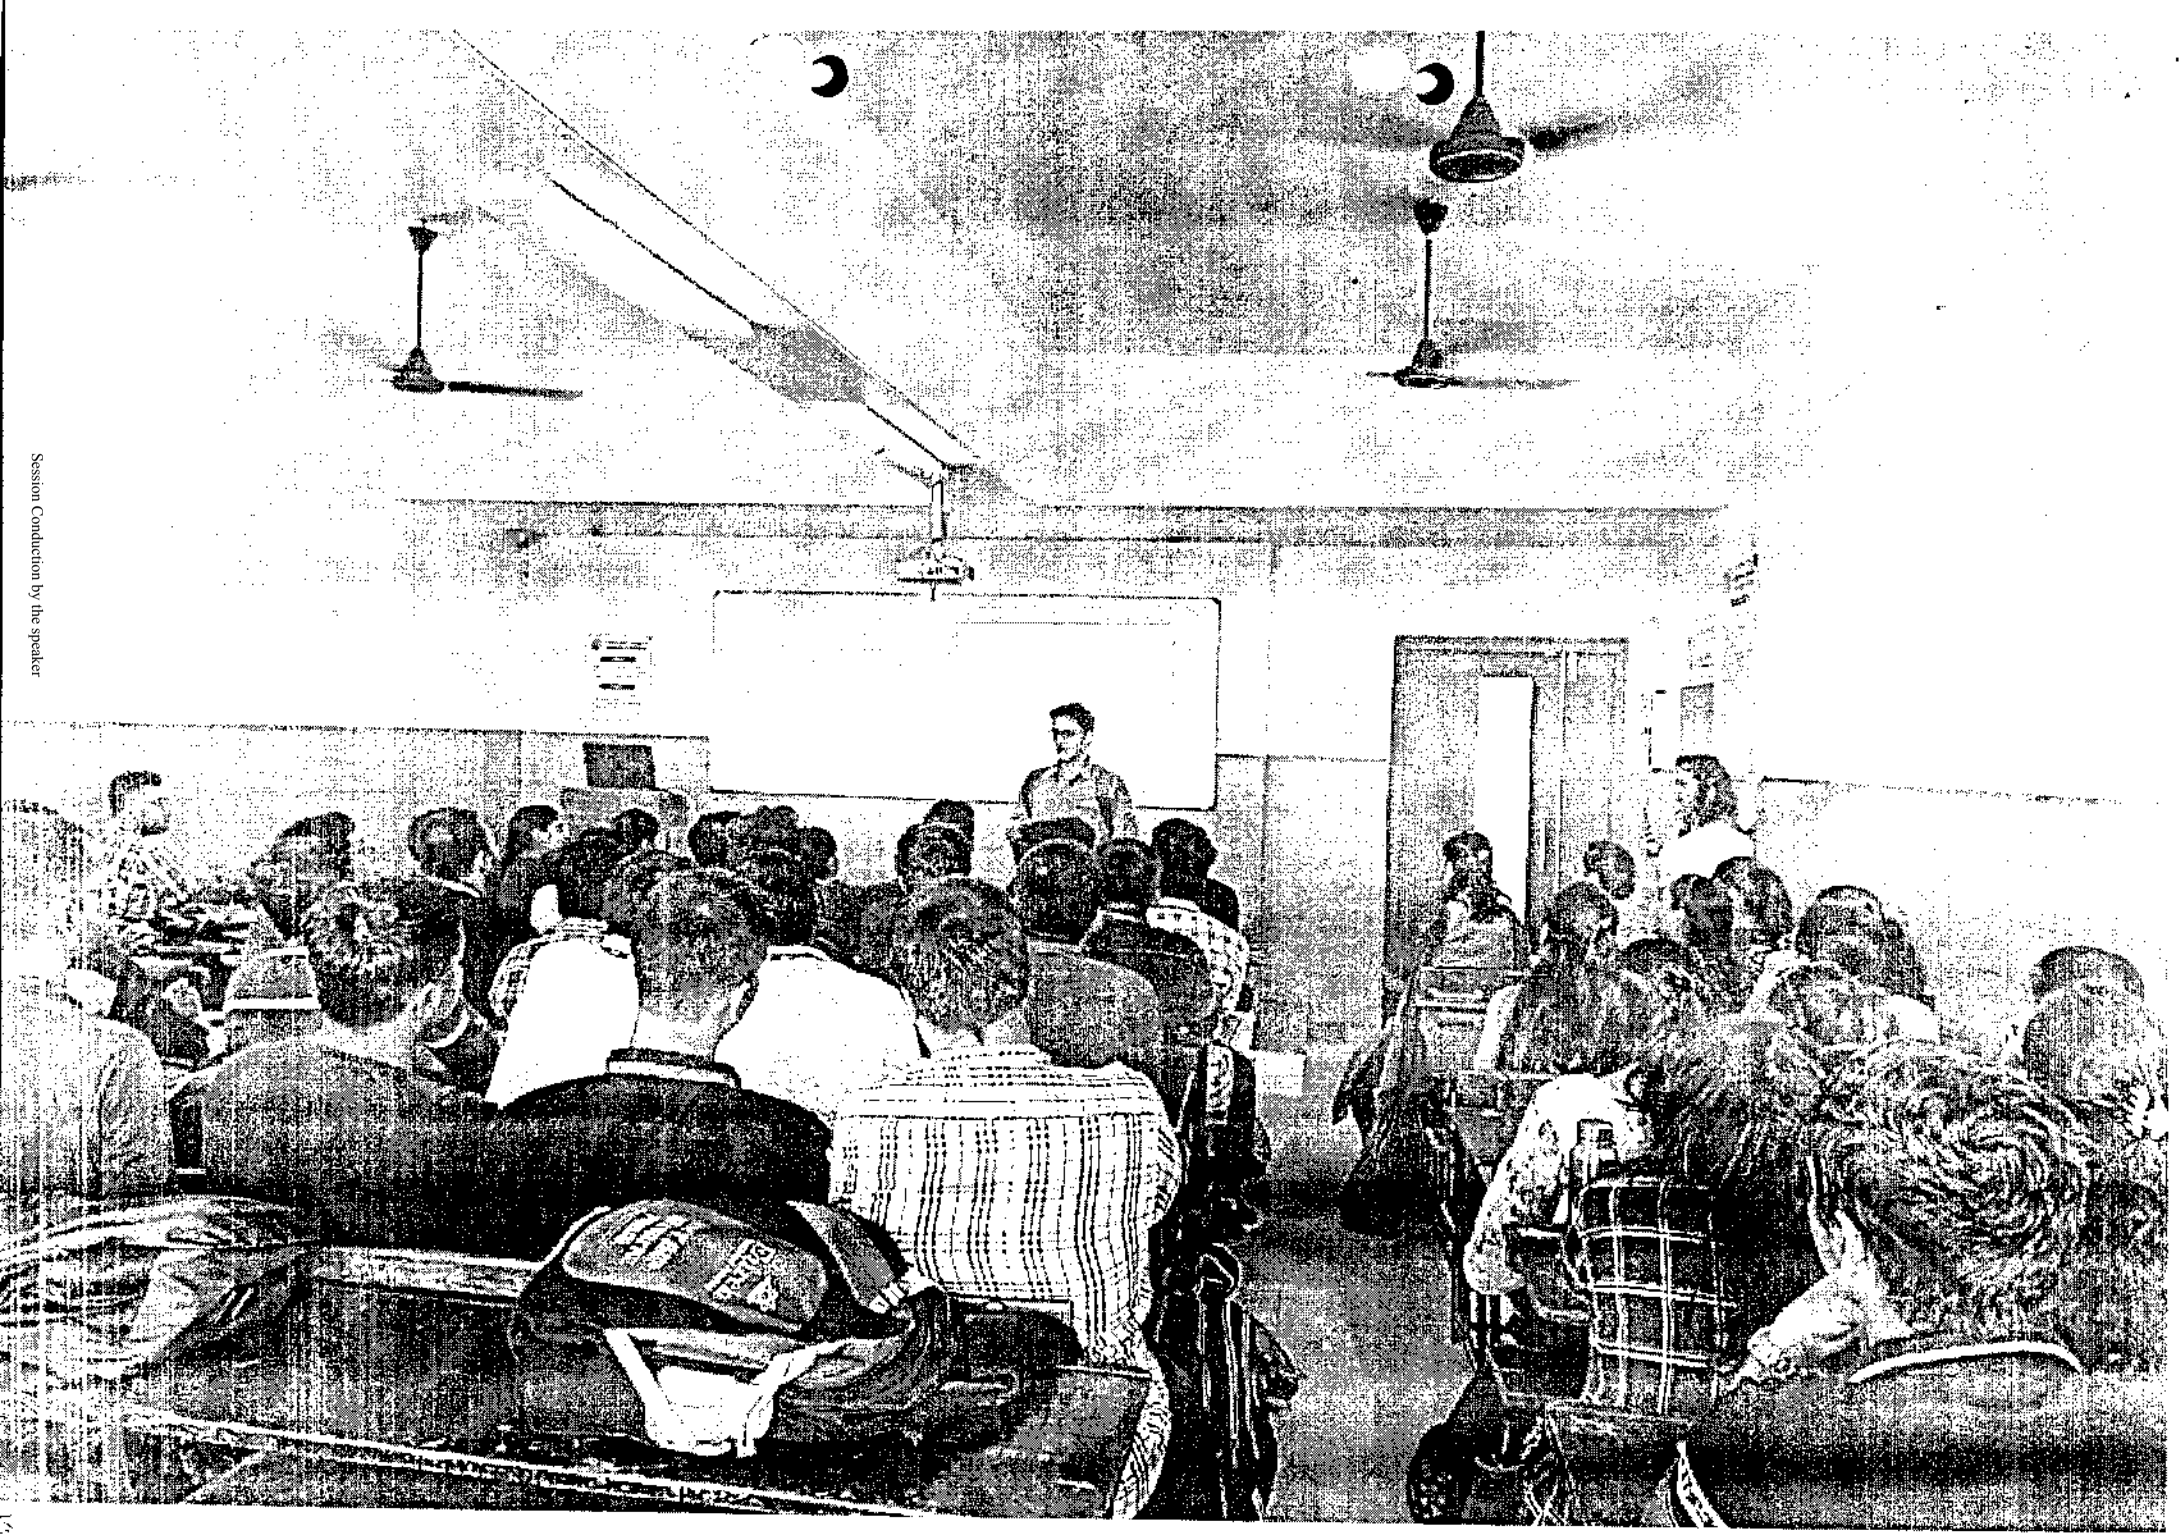
The talk was followed by a question-answer session.

The seminar was attended by 63 Third Year students

Prepared by

Mr. Anil Hingmire
Asst. Professor,
Department of Computer Engineering

Dr. Megha Trivedi
Head, Department of Computer Engineering



Session Conduction by the speaker

Report on Student Development Program on

Android Application Development using Kotlin

Two Weeks (10 Days) Student Development Program on Android Application Development using Kotlin was organised by Department of Computer Engineering & Industry Institute Interaction Cell of Vidyavardhini's College of Engineering and Technology for the Computer Engineering, Information Technology and Electronics and Telecommunication Engineering students of the college from 18th July 2022 to 29th July 2022. The sessions were conducted by Prof. Sneha Mhatre, Assistant Professor, Department of Computer Engineering, Vidyavardhini's College of Engineering and Technology.

The details of the Student Development Program were as under

Day 1 (18/7/22) 2:00 pm to 5:00pm:

Introduction to Android: Overview of Android and Android SDK, History of Android and Android features

Android Architecture overview: Introduction to OS layers, Linux kernel, Libraries, Android Runtime and Application framework

Day 2 (19/7/22) 2:00 pm to 5:00pm:

Overview of Android App using Kotlin, Installation of Android Studio

Day 3 (20/7/22) 2:00 pm to 5:00pm:

User Interface: View Hierarchy, View Groups and Layouts, UI Events & Events Listener, Building Menus, Notifying users, Creating dialogs, Graphics & Animations and Applying styles and themes to UI.

Day 4 (21/7/22) 2:00 pm to 5:00pm:

Getting Started with Hello World App: Creating a Registration Form

Day 5 (22/7/22) 2:00 pm to 5:00pm:

Adding Radio Button, Spinner and Images in App

Day 6 (25/7/22) 2:00 pm to 5:00pm:

Creating a Search App and URL request

Day 7 (26/7/22) 2:00 pm to 5:00pm:

Display Search Result, Playing Video using YouTube API

Day 8 (27/7/22) 2:00 pm to 5:00pm:

Introduction to Navigation Component, Architecture Component

Day 9 (28/7/22) 2:00 pm to 5:00pm:

Advanced Navigation Application Examples

Day 10 (29/7/22) 2:00 pm to 5:00pm:

Description of the Mini-Project to be submitted by the students

On all the days 1 n half hour were dedicated for the students for practice. A total of 3 Quizzes and 5 Assignments were given to the participants to gauge their understanding about the topics covered on that particular day.

A total of 189 students took part in this SDP, the name of the students has been attached.

133_SDP on Chatbot Development using Python and DialogFlow

Report on Student Development Program on

Chatbot Development using Python and DialogFlow

Two Weeks (10 Days) Student Development Program on 'Chatbot Development using Python and DialogFlow' was organised by Department of Computer Engineering & Industry Institute Interaction Cell of Vidyavardhini's College of Engineering and Technology for the Computer Science and Engineering (Data Science), Artificial Intelligence & Data Science and Electronics and Telecommunication students of the college from 18th July 2022 to 29th July 2022. The sessions were conducted by Dr. Tatwadarshi P. Nagarhalli, Associate Professor, Department of Computer Engineering, Vidyavardhini's College of Engineering and Technology.

The details of the Internship was as under

Day 1 (18/7/22) 2:00 pm to 5:00pm:

Introduction to Chatbot: Overview and importance of Chatbot and the technologies involved.

Day 2 (19/7/22) 2:00 pm to 5:00pm:

Overview of Python for chatbot development.

Day 3 (20/7/22) 2:00 pm to 5:00pm:

Overview of Regular Expression and Chatbot development using RE.

Day 4 (21/7/22) 2:00 pm to 5:00pm:

Hands on chatbot development using RE.

Day 5 (22/7/22) 2:00 pm to 5:00pm:

Overview of Chatbot using Chatterbot package.

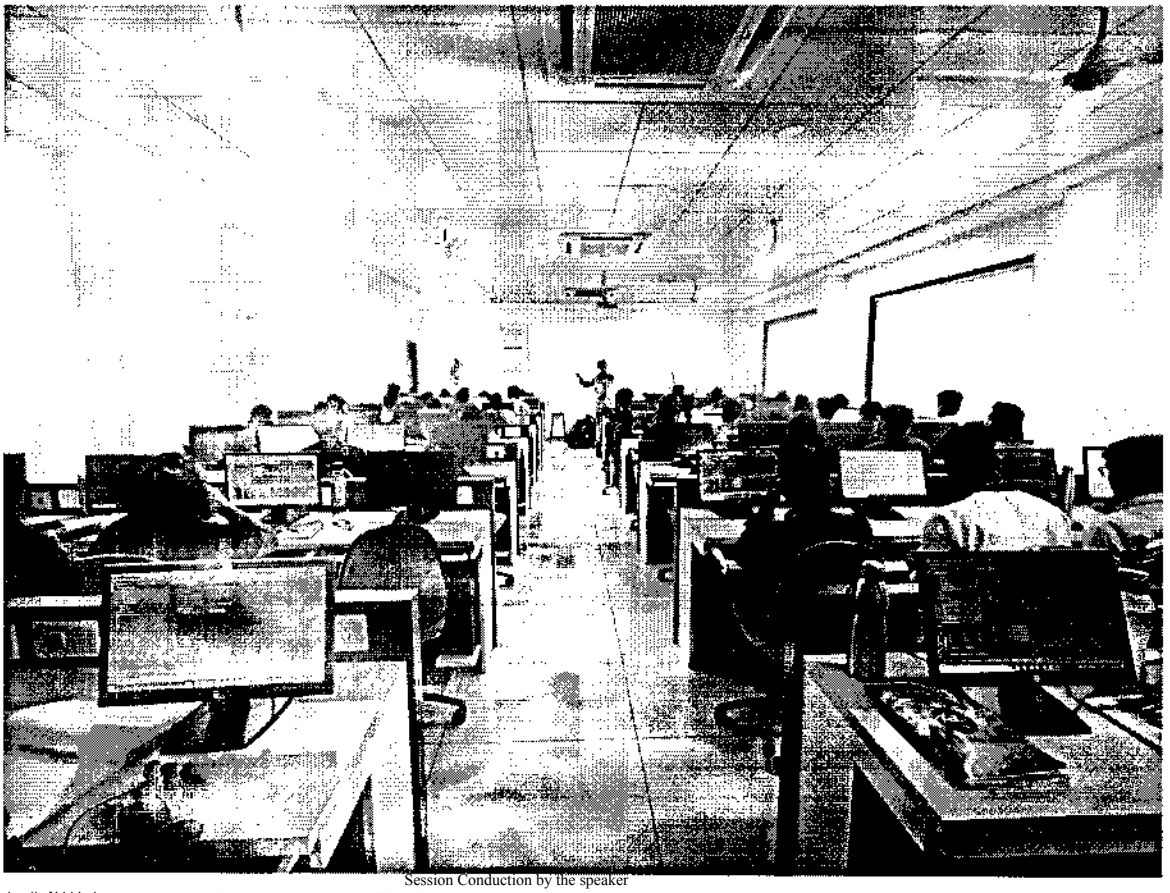
Day 6 (25/7/22) 2:00 pm to 5:00pm:

Chatbot development using Chatterbot package

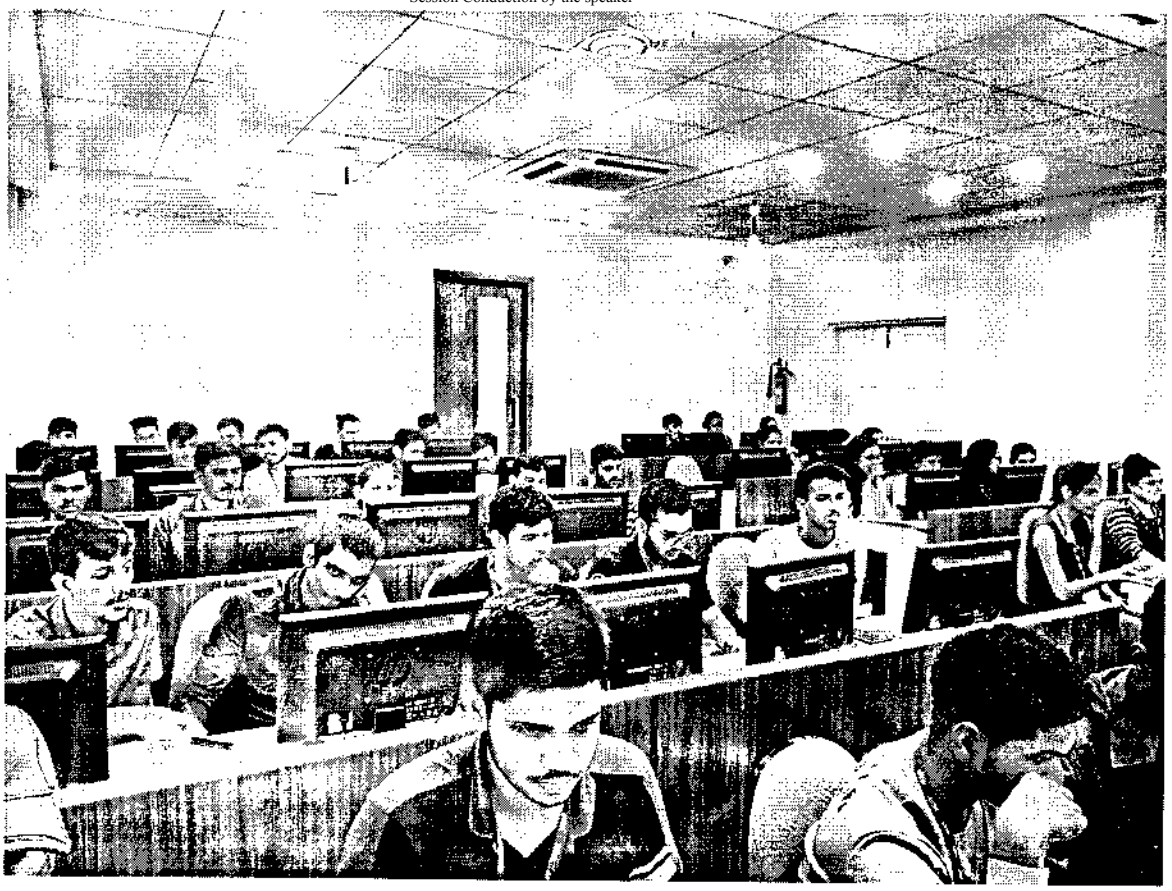
Day 7 (26/7/22) 2:00 pm to 5:00pm:

Chatbot development using Chatterbot package

Day 8 (27/7/22) 2:00 pm to 5:00pm:



Session Conduction by the speaker



Hands-on session

Introduction to DialogFlow and its components

Day 9 (28/7/22) 2:00 pm to 5:00pm:

Chatbot Development using DialogFlow

Day 10 (29/7/22) 2:00 pm to 5:00pm:

Chatbot Development using DialogFlow

On all the days 1 n half hour were dedicated for the students for practice. 3 Chatbot development assignments were given to the participants to gauge their understanding about the topics covered on that particular day.

A total of 82 students took part in this SDP, the name of the students has been attached.

134_Seminar on Linux Administration

CSI-VCET

Vidyavardhini's College Of Engineering & Technology, Vasai(w)

Report on Linux Administration Seminar

The CSI committee of Vidyavardhini's College of Engineering and Technology has been a proud host of many technologically intriguing events and activities. This time the CSI Committee came up with an interesting seminar on "Linux Administration".Linux administration refers to the management and maintenance of Linux operating systems in a computing environment. The seminar was held on 29th March, 2023 from 4pm to 6pm. About 38 participants attended the seminar.

Objective:

This Seminar cover essential topics such as

- Getting started with command line
- File and File Systems
- Linux Administration and Scripting
- Effective command line

Speaker's Profile:

Mr. Akash Jha, Founder of Learn10x.

Success:

The guest speaker gave a brief description about Linux Administration. The expert speaker shared their knowledge and experience in Linux administration, providing tips and best practices that students can use in their daily work.

Conclusion:

Conducting such seminars would be a great choice to stay updated with the latest trends and technologies in the corporate world. Hence, our students would get more familiar with today's technologies.

135_Seminar on Data Wrangling with Python

CSI-VCET

Vidyavardhini's College Of Engineering & Technology, Vasai(w)

Data Wrangling with Python

The CSI Committee of Vidyavardhini's College of Engineering and Technology has conducted several amazing seminars based on the trending technologies. Similarly, this time CSI committee came up with an admirable seminar on the topic "Data Wrangling with Python". The seminar was held on 27th March,2023 (Monday) from 2pm to 4pm.

Data Wrangling is the process of gathering, collecting, and transforming raw data into another format for better understanding, decision-making, accessing, and analysis in less time. Data Wrangling is also known as Data Munging.

Objective:

The main objective of this seminar was to let our students learn the fundamental concepts of data wrangling, including data cleaning, transformation, and preparation. They would also learn how to use Python libraries like Pandas and NumPy to handle data in a powerful and efficient manner.

Speaker's Profile:

Mr. Sidharth Shah, Founder and CEO of Fafadia Tech;
M.S. in Computer Science from University of Southern California.

Success:

The seminar received an overwhelming response with a total of nearly 100+ participants. The objective of organizing this seminar was successful. Mr. Sidharth Shah gave a brief description about the whole concept of Data Wrangling with Python. He also demonstrated some applications of Data Wrangling on the screen for the student's better understanding. This seminar gave students a complete idea of Data Wrangling and also knowledge about different Python libraries like Pandas and NumPy. Mr. Sidharth Shah resolved the student's doubts regarding the Data Wrangling technology at the end.

Conclusion:

Such seminars would be a great choice to stay updated with the technologies in the world. Hence, our students would get more familiar with today's technologies and get the latest updates about such technologies and get on with these technologies in their further career life.

Thus, like always the event proved to be a triumph for the department.

136_Seminar on Introduction to Drones and various Avionics Technologies Involved

CSI-VCET

Vidyavardhini's College Of Engineering & Technology, Vasai(w)

An Introduction to Drones and various Avionics Technologies Involved

The CSI Committee of Vidyavardhini's College of Engineering and Technology has conducted several amazing seminars based on the trending technologies. Similarly, this time CSI committee came up with an admirable seminar on the topic "An Introduction to Drones and various Avionics technologies involved". The seminar was held on 14th March,2023 (Tuesday) from 2pm to 4pm.

Drones have been around for more than a couple of decades. However, drone technology has evolved and thrived in recent years, from technically staffing critical military regions to enticing enthusiasts all over the world. The last decade has been noteworthy in terms of drone acceptance, industry utilization, development, and worldwide awareness. One of the biggest reasons for the widespread use of drones is their ability to traverse and maneuver through areas that would be dangerous for humans to be in.

Objective:

The main objective of this seminar was to let our students know about the latest advancements in drone technology, including the various avionics systems and software algorithms used for navigation, obstacle avoidance, and autonomous flight. The students should also gain insights into the wide range of applications for drones in industries such as agriculture, construction, real estate, and more.

Speaker's Profile:

Mr. Eric Kotwal, Senior Electronics Embedded Systems Design Engineer, ideaForge, Mumbai.
Mr. Girish Giri, Junior Embedded Engineer R & D Hardware Department, ideaForge, Mumbai.

Success:

The seminar received an overwhelming response with a total of nearly 100+ participants. The objective of organizing this seminar was successful. Mr. Eric Kotwal gave a brief description about various types of drones and various Avionics Technologies to the students. He also conducted a quiz for the students to check the understanding of the students and also gave goodies to the students for their active participation in the quizzes.

This seminar gave students a complete idea of drones and various avionics technologies which was amazingly interesting for the students. Mr. Eric Kotwal resolved the student's doubts regarding the avionics technology at the end.

Conclusion:

Such seminars would be a great choice to stay updated with the latest drones and avionics technologies in the world. Hence, our students would get more familiar with today's technologies and get the latest updates about such technologies and get on with these technologies in their further career life.

Thus, like always the event proved to be a triumph for the department.

137_Seminar on Microsoft's No Code/Low Code Platform

CSI-VCET

Vidyavardhini's College Of Engineering & Technology, Vasai(w)

Microsoft's No Code/Low Code Platform

The CSI committee of Vidyavardhini's College of Engineering and Technology has been a proud host of many technologically intriguing events and activities. This time the CSI Committee came up with an amazing seminar on "An Overview of Microsoft's No Code/Low Code Platform". Writing Code is a tedious process as it involves a number of manual steps, such as moving code between environments, testing for bugs, and more, which is time-consuming and doesn't work in today's fast-moving environment.

Thus, Microsoft's No Code/Low Code Platforms are used for the efficiency of the enterprises. The seminar was held on 22nd February, 2023 from 11am to 1pm. About 212 participants attended the seminar.

Objective:

Enterprises in all industries can gain a competitive advantage when they use no-code/low code platforms. No-code/low code development fundamentally shifts how enterprises build applications, allowing users to construct complex workflows without writing a single line of code. It's a customizable, secure, and cost-effective solution that's driven by ideas, not technical expertise.

Speaker's Profile:

Mr. Avinash Badgujar, Project Manager in Dynamisity Pvt. Ltd., Partner of Microsoft.

Mr. Rakesh Badodekar, Business Analyst in Dynamisity Pvt. Ltd., Partner of Microsoft.

Success:

The guest speaker Mr. Avinash Badgujar sir gave a brief description about Power Platform which is a well known No Code/Low Code Platform.

Sir introduced the Power Automate Flow to the students along with an example for better understanding of the students. Sir also gave an idea about the Power BI, Power Pages and Power-Virtual Agents to the students.

At the end of the session, Mr. Rakesh Badodekar sir gave an overview of Microsoft TechBridge Program Detail to the students.

Conclusion:

Conducting such seminars would be a great choice to stay updated with the latest technologies in the corporate world. Hence, our students would get more familiar with today's technologies and get the latest updates about those technologies.

Thus, like always the event proved to be a triumph for the department.

138_Seminar on BI (Business Intelligence) Tools

CSI-VCET

Vidyavardhini's College Of Engineering & Technology, Vasai(E)

Report on BI (Business Intelligence) Tools Seminar

The CSI committee of Vidyavardhini's College of Engineering and Technology has been a proud host of many technologically intriguing events and activities. This time the CSI Committee came up with an interesting seminar on "BI (Business Intelligence) Tools". Business Intelligence (BI) solutions are becoming an essential part of every company's operations. They enable businesses to transform massive amounts of data into useful insights. The seminar was held on 29th September, 2022 from 2pm to 4pm. About 120 participants registered for the seminar.

Objective:

Business Intelligence tools help eliminate the need to gather, record, and organize the data manually. These tools also help prepare data for analysis so that you can create reports, dashboards and data visualizations. According to the trend, BI tools are used on a larger scale in almost every organization to replicate the captured data in a structured format.

Speaker's Profile:

Ms. Shrishti R. Shukla, is an ETL Developer at Tata Consultancy Services.

Success:

The guest speaker Ms. Shrishti Shukla gave a brief description about various BI (Business Intelligence) Tools. She also introduced one of the best ETL Tools i.e. Pentaho to the students and also explained the working of the ETL. She also gave the explanation on managing the database using SQL and also showed the demo for better understanding of the students.

Conclusion:

Conducting such seminars would be a great choice to stay updated with the latest trends and technologies in the corporate world. Hence, our students would get more familiar with tech technologies.

139_Workshop on “Hands-on-Training for IOT Technologies”

Vidyavardhini's College of Engineering & Technology
Department of Information Technology

Workshop on
Hands-on Training for IoT Technologies
(AY: 2022-23)

Date / Time	12th August 2022 3.00 pm to 5.00 pm
Venue/Platform	Room No. 507/511, VCET, Vasai
Speaker	Prof. Yogesh Pingle
Coordinator	Dr. Ashish Vanmali
Target audience	Students of BE-IT, TE-CSE(DS) and TE-AIDS
No. of attendees	BE-IT = 22 TE-CSE(DS) = 25 TE-AIDS = 09
Points discussed in the session	• Microcontrollers, Arduino Uno • Programming of Arduino Uno • Sensors and Actuators • Interfacing of sensors of Arduino Uno • Connection with ThinkSpeak Cloud
Link of recording	NA

Dr. Ashish Vanmali
Associate Professor,
IT Dept., VCET.

140_Guest Lecture on "Deep Learning & ANN"

Guest Lecture on
"Deep Learning & ANN"

Speaker(s):

Mr. Ravi Singh, AI Lead, AiBorne Tech, New Delhi

Mr. Ninad Mohite, CoFounder, AiBorne Tech, New Delhi

Faculty Incharge/ Coordinator(s):

Mrs. Anagha J. Patil, AP, VCET

Title	Deep Learning & ANN
Description	This lecture was organized to give students an introduction to Deep Learning & ANN implementation from industry perspective as it is a part of the syllabus for the subject AI & DS - II. This lecture focused on various topics like: • Introduction to Deep Learning and role of features 1. Low Level features 2. Medium Level features 3. High Level features • Examples of Deep Learning platforms 1. DALL-E 2. Google Duplex, etc • Introduction to Artificial Neural Network (ANN) • Architecture of Neural Network • Working of Artificial Neural Network (ANN) and its python implementation • Forward & Backward Propagation in Neural Network • Activation Functions 1. Sigmoid 2. Tan h 3. ReLU & Leaky ReLU • Error Functions 1. Mean squared error 2. Cross Entropy
Objectives	1. To expose participants to Deep Learning & ANN. 2. To orient participants to the Working & Implementation of ANN. 3. To expose participants to the applications of Deep Learning & ANN in real-world.

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY
DEPARTMENT OF INFORMATION TECHNOLOGY
K.T. Marg, Vasai Road (W), Dist-Palghar - 401202, Maharashtra

Participants	Students of BE-IT
No. of Participants	35
Learning outcomes	1. Students were able to get an overview regarding Deep Learning & ANN. 2. Students learned about the architecture, working and implementation of ANN. 3. Students learned about different applications of Deep Learning and ANN used in real-world.
Faculty Incharge's profile	Assistant Professor Department of Information Technology
Session Date	17th September, 2022
Duration	1.30 hours
Session time	10:00 am - 11:30 pm
Platform / Venue	Online (Microsoft Teams)
Registration fee	Free of cost

141_Expert Lecture on " How to use UML & DFD diagram in their Mini Project"

Expert Lecture

on

"How to use UML and DFD diagram in their Mini Project"

Date / Time	22nd Sept 2022 3.00 pm to 4 pm
Venus/Platform	Google Meet
Speaker	Prof. Smita Jawale
Coordinators	Dr. Madhavi Waghmare, INFT
Target Audience	TE-IT
Objectives of this Guest Lecture	Students would be able to:- • Understand how to draw UML diagram in their mini project. • Understand how to draw DFD diagram in their mini project.
No. of attendees	
Points Discussed in the session	Following points were elaborated in the session UML and DFD diagram for their mini Project. Queries of the students were also addressed by the speaker.

Department of Information Technology

Expert Lecture on “Infrastructure Security”

Date / Time	14th October 2022 9:00 am to 10:00 am
Venue/Platform	Room No 416
Speaker	Dr. Thaksen Parvat, VCET
Coordinators	Dr. Archana Ekbote INFT
Target Audience	BE-IT
Objectives of this Guest Lecture	• Understand the Security in networking • Understand the concept of Web Security • Understand Firewall working
No. of attendees	18
Points Discussed in the session	This session was organized to give brief understanding of security related concepts for network, operating system, web etc. Queries of the students were also addressed by the speaker.

143_SDP on "Bootcamp: Java Programming"

Seminar on
Bootcamp on Java Programming

Date / Time	12th December 2022 – 23rd December 2022 9.30 AM – 5.00 PM
Venue/Platform	Room number 309
Duration	60 hrs.
Speaker	Mr. Nilesh More, Architect, 3i Infotech Mr. Arun Gupta, Tech lead, EnKash Mr. Kaushik Raikar, Software Developer, Zeus learning. Mr. Vikrant Agaskar, Assistant Professor, Computer engineering. Ms. Smita Jawale, Assistant Professor, Computer engineering. Mr. Chandan Kolvankar, Assistant Professor, Information Technology.
Coordinator	Mrs. Madhavi Waghmare, IT VCET
Target audience	SE IT
Objectives of this seminar	Students would be able to: - 1. Understand the Basic coding. 2. Understand the full power of Java 3. Understand how to manage data.
No. of attendees	28
Participants	SE IT
Registration Fee	500
Points discussed during the workshop	Students had their first year 'C' programming course taught in 2 months. This was because their first-year admission was delayed. University had to finish both their semesters in 8 months. Students had some problems with coding. To solve those problems and learn java properly this workshop was organized. The following topics were covered during this workshop. 1. Coding fundamentals 2. Core java 3. Java collection 4. Java multithreading 5. Regular expressions 6. Database design. 7. Introduction to NoSQL databases. To enable students to develop applications and to expose them to professional app development following topics were introduced 8. Spring framework

	9. Hybernate 10. Project development using Spring Boot.

Vidyavardhini's College of Engineering & Technology
Department of Information Technology

Seminar on
"Secure the Unsecured"

Date / Time	9th January 2023 10:00 pm to 12:30 pm
Venue/Platform	Ground floor seminar hall
Speaker	Mr. Anil Keshav, Senior software engineer security SAP, SE Walldorf Germany
Coordinators	Prof. Thaksen Parvat
Target Audience	Students and faculty
Objectives of this Guest Lecture	• Understand the website vulnerabilities • Understand the concept of SQL injection attack • Understand the new technology in wireless Network
No. of attendees	SE – 56 TE – 20 BE - 28
Points Discussed in the session	• SQL injection • DNS cache poison • Open-source vulnerabilities- apache stratos • Web security • Application of Wireshark Queries of the students were also addressed by the speaker.

146_Expert Lecture on “Application of Image Processing”

Vidyavardhini's College of Engineering & Technology
Department of Information Technology

Expert Lecture on

“Applications of Image Processing”

Date / Time	5th April 2023 12:15.00 pm to 01.15 pm
Venus/Platform	Room No. 315
Speaker	Dr. Ashish Vanmali, Associate Professor, Dept. of IT, VCET
Coordinators	Dr. Archana Ekbote, Assistant Professor, IT
Target Audience	TE-IT
Objectives of this Guest Lecture	Students would be able to:- • Understand importance of image processing in real time • Understand various applications of image processing
No. of attendees	16
Points Discussed in the session	This session was organized to give brief understanding of applications of image processing in various domain, real time applications, etc. Queries of the students were also addressed by the speaker.

Dr. Archana Ekbote
Assist. Prof, IT

147_Guest Lecture on "Data Visualization using Tableau"

VIDYAVARDHINI'S COLLEGE OF ENGINEERING
DEPARTMENT OF INFORMATION TECHNOLOGY
K.T. Marg, Vasai Road (W), Dist-Palghar - 401202, Maharashtra

Guest Lecture on
"Data Visualization using Tableau"

Speaker(s):

Mrs. Pooja Vartak, Assistant Associate Professor, DJ Sanghvi College of engineering and technology

Faculty Incharge/ Coordinator(s):

Mrs. Anagha J. Patil, AP, VCET

Title	Data Visualization using Tableau
Description	This lecture was organized to give students an introduction to Data visualization using Tableau implementation from industry perspective as it is a part of the syllabus for the subject Data Science using Python Lab. This lecture focused on various topics like: • Introduction to Data Visualization using Tableau • Different Types of Data visualization • Various Data Visualization Tools • Introduction to Tableau • Case studies
Objectives	1. To expose participants to Data Visualization using Tableau. 2. To orient participants about various Data visualization techniques. 3. To expose participants to the applications of Data Visualization using Tableau in the real-world through case-studies.
Participants	Students of TE-IT
No. of Participants	46

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY
DEPARTMENT OF INFORMATION TECHNOLOGY
K.T. Marg, Vasai Road (W), Dist-Palghar - 401202, Maharashtra

Learning outcomes	1. Students were able to get an overview regarding Data Visualization. 2. Students learned about the working and implementation of Tableau. 3. Students learned about different applications of Data Visualization using Tableau used in the real-world.
Faculty Incharge's profile	Assistant Professor Department of Information Technology
Session Date	7th April, 2023
Duration	2:00 hours
Session time	10:00 am - 12:00 pm
Platform / Venue	Online (Google Meet)
Registration fee	Free of cost
Link of meeting	https://meet.google.com/ikb-hhau-inx
Feedback link	https://docs.google.com/forms/d/e/1FAIpQLSc4Shj3g63uQ8pBneGRJAIKo7Cxaayli0IhL1Tc5QAi9tuq1A/viewform?usp=sf_link

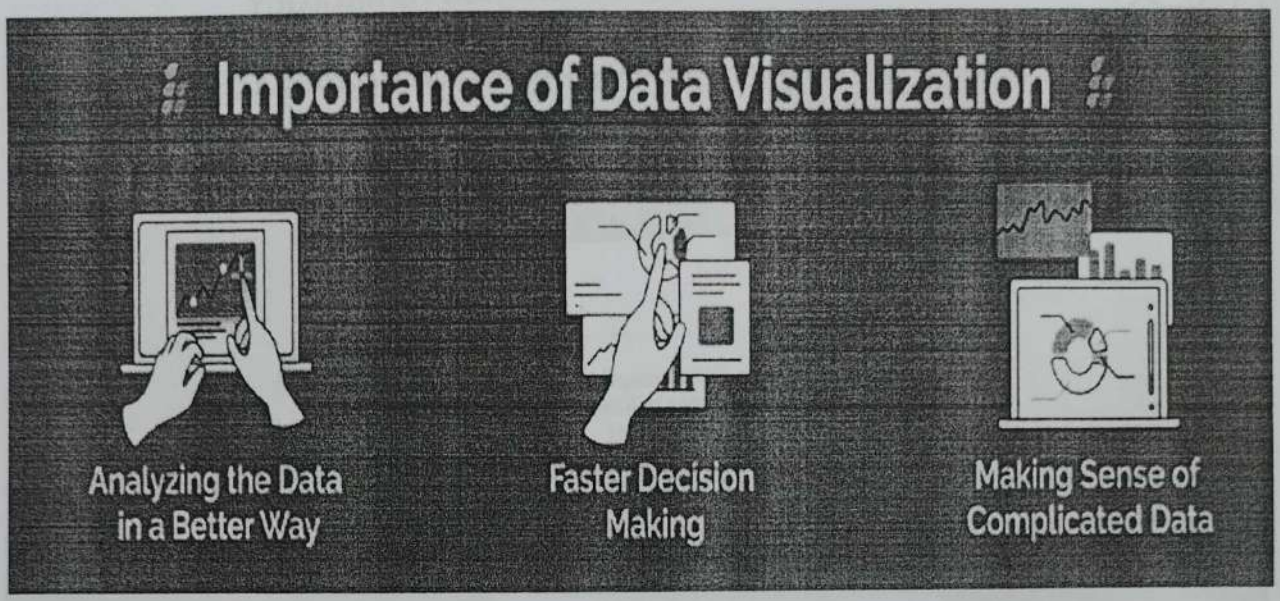
K.T. Marg, Vasai Road (W), Dist-Palghar - 401202, Maharashtra

fig 2. Outline for Data Visualization

Outline

1. Introduction to Data Visualization
2. Different Types of visualizing data
3. Various data visualization tools
4. Introduction to Tableau
5. Case Studies.



Types of Data Visualization

- **Correlation**
  - Scatter plots,
- **Temporal:**
  - Line graph.
- **Hierarchal:**
  - Tree diagrams, Ring charts
- **Network:**
  - Node-link diagrams, Word clouds
- **Multidimensional:**
  - Pie chart, Venn diagrams, Stacked bar graph, Histograms
- **Geospatial:**
  - Density map, Heat maps

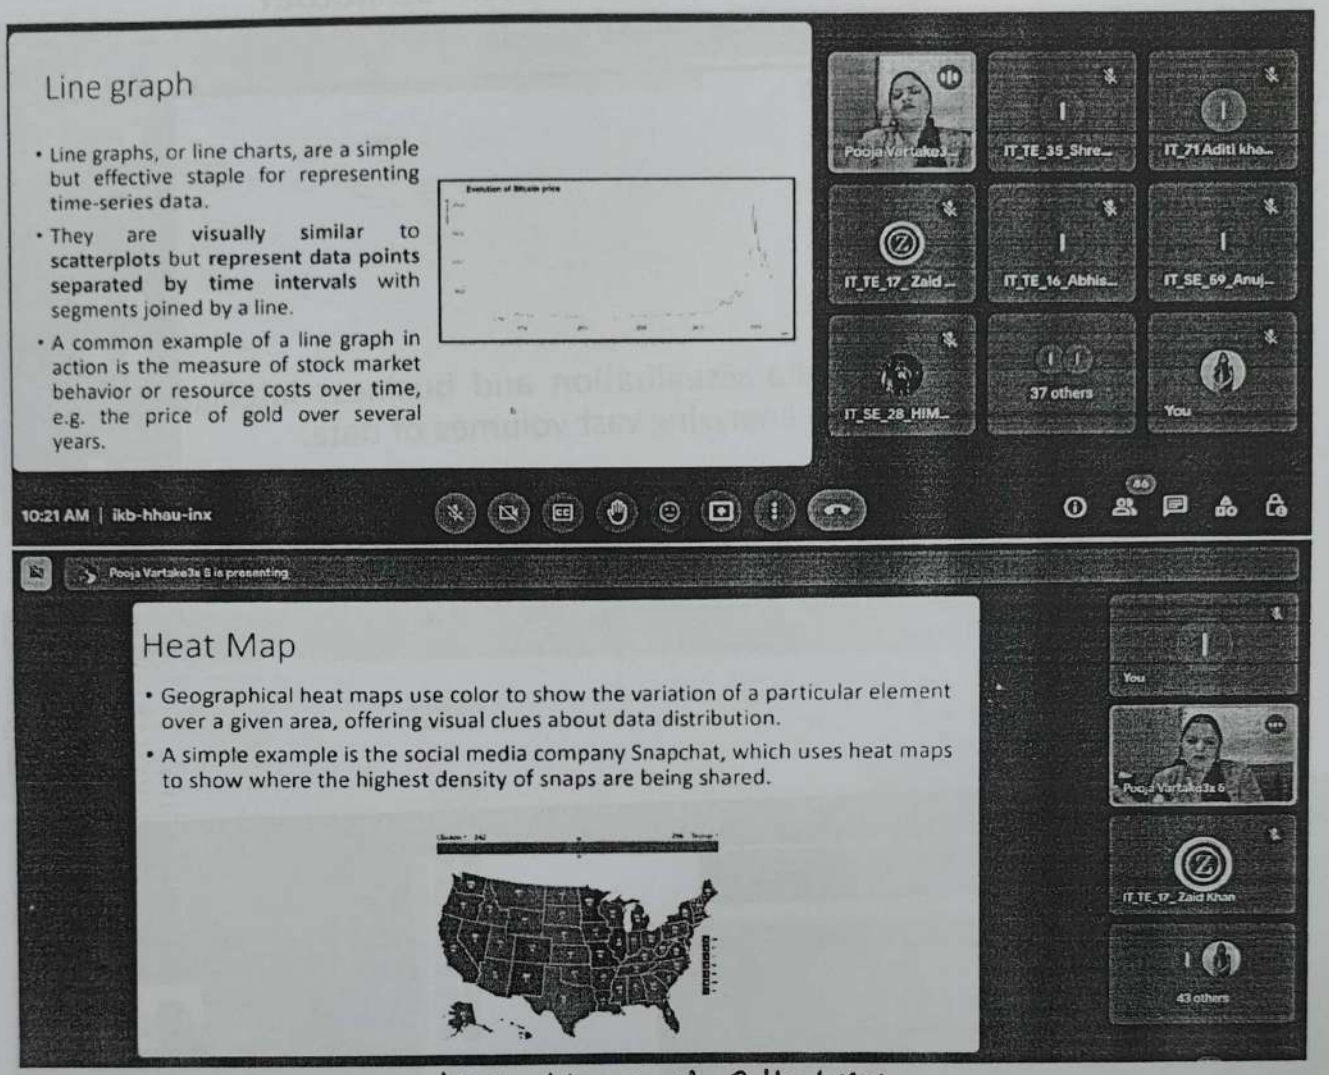

fig 5 Line graph & Heat map

What is Tableau?

- Tableau is an excellent data visualization and business intelligence tool used for reporting and analyzing vast volumes of data.
- It helps users create different charts, graphs, maps, dashboards, and stories for visualizing and analyzing data, to help in making business decisions.

148_Guest Lecture on UI/UX Design

Guest Lecture on

"UI/UX Design"

Date / Time	8th April 8, 2023 10.00 am to 12.30 pm
Venus/Platform	Google Meet
Speaker	Prabhakar Waghmare, Associate Director , Cognizant
Coordinators	Dr. Madhavi Waghmare, INFT
Target Audience	BE-IT
Objectives of this Guest Lecture	Students would be able to:- • Understand how to Design UI and UX • Understand how to do data visualization
No. of attendees	11
Points Discussed in the session	Following points were elaborated in the session : How to do interaction, how to interface with design. How to design any web-site with 5 golden rules. He shared his experience in M.Des. Interface and Interaction design 5 sensory organ help for any design Queries of the students were also addressed by the speaker.

149_Industrial Visit

Report

Event: Industrial Visit

Venue: Process Precision Instruments(PPI)
Vasai West

Date: 21st September 2022

Following points were conducted during field Visit at PPI Vasai (West)

- The students from second year (Number 53) and Third Year (Number 07) of Information Technology Department were involved in this visit.
- We started our visit at 3 pm., students were divided into 2 batches.
- During the visit, Mr. Shivang Desai Employee of PPI , explained their product manufacturing process, different types of sensors and their applications.
- We visited different departments like R&D, Q.C., Packaging etc.
- During visit, We staff members, Dr. Ashish Vanmali, Dr. Madhavi Waghmare, Dr. Archana Ekbote also discussed and corelated academic subject like Big Data, Cloud Computing and Internet of Things with students.
- We end our visit at 5:00 pm.

150_Industrial Visit

Report

Event: Industrial Visit

Venue: AMUL Industry
Kaira dist co-oprative Milk producers Union Limited
Virar West

Date: 24th September 2022

Following points were conducted during field Visit at AMUL Industry, Virar (West)

- The students from second year (Number 56) and Third Year (Number 07) of Information Technology Department were involved in this visit.
- We started our visit at 9 am., students were divided into 2 batches.
- During the visit, Mr. Dhiraj Chauhan Employee of AMUL , explained their Milk product manufacturing process, different types of sensors and their applications.
- We visited different departments R&D, Q.C., pasteurized , homogenized milk Packaging etc.
- During visit, We staff members, Mr Chandan Kolvankar, Dr. Madhavi Waghmare, Mr Sainath Patil also discussed and corelated academic subject like Internet of T hings with students.
- An automatic Milk Collection System was established that could identify and test the quality/quantity of milk. This leads to time saving since over 1000 producers enter a village cooperative each day and increased transparency.
- Enterprise-wide Integrated Application Systems were used to align various sub software systems in place. A Geographic Information System was also established to view supply disparities in real time. Cyber stores have been recently launched as well.
- We end our visit at 2:00 pm.

VCET HACKATHON 2022

Date	7th - 8th October, 2022
Venue/Platform	Discord Channel - VCET HACKATHON 2022
Duration	30 hrs.
Coordinators	Mr. Sainath Patil
Objective	1. To orient students towards building a team. 2. To orient students towards innovative thinking 3. To expose students to professional business applications. 4. To drive students towards tireless pursuit of problem-solution
Target Audience	Undergraduate Engineering Students
No. of Participants	230 Participants 58 Teams from different colleges
Registration Fee	Rs.500 per Team
Problem Statements	Domain - Cyber Security 1. Call Tracking for VoIP 2. Network Security Scanner 3. Email Monitoring Domain - AI & ML 1. Metadata Farmer Assistance 2. System Vulnerability using AI / ML 3. Recommendation for Career/Resume Building Domain - Web Dev & App Dev 1. Testing Tool for Phone Apps 2. Bus Tracking System 3. CRM Business
Juries and Judges	Juries for First Round : Mr. Prathamesh Pradhan - Technical Cloud Architect, Accenture Technology Solutions Mr. Amey Raut - CEO, OTET Infosystems Mr. Raunak Joshi - Freelancer Mr. Yadnesh Zhagade - CEO, Techcryptors Ms. Urja Pawar - Research Scholar, Munster Technological University Mr. Sujit Singh - Sr. Software Engineer, paypal Juries for Second Round : Mr. Sanket Samant - Software Engineer, Infosys Mr. Dhaval Dave - Senior Developer, DearDigital Mr. Mahesh Jadhav - CEO, Bracket Infinity

	Mr. Swapnil Mistry - Software Developer, Dream Eleven Mr. Siddhesh Tambe - Area Manager, East India,Castrol Mr. Tarun Singh - Developer Engineer, Raw Engineering Judges for Judging Round : Mr. Mehul Sutariya - Sr. Software design engineer, Apple Mr. Suvamoy Roy - CEO, Abner Security Solutions Mr. Prabhodhan Patil - Sr. software engineer, TechMahindra XDS BOrngroup Mr. Rahul Mhatre - Software Developer, Software AG Mr. Milind Chavan - Consultant, TCS Mr. Amod Nerurkar - Devops Engineer, RAW Judges for Pitching Round : Mr. Satanik Roy - Co-Founder hyperXchange Mr. Chetan Manjeshwar - Product Manager, Google Inc Mr. Hemal Shah - Engineering Lead, Lloyd Finance Mr. Arif Bhatkar - Security Engineer, Godrej Infotech Mr. Boston Cherian - Leader, CRED
Winners	Winners : Team 7 - Thadomal Shahani Engineering College. 1st Runner up : Team Encryptors - St. Francis Institute of Technology. 2nd Runner ups : Team Error By Night - Vidyavardhini's College of Engineering & Technology Team Pegasus - Universal College of Engineering Team Bug Breakers - Vidyavardhini's College of Engineering & Technology
Outcome	Students will be able to 1. Analyze the functional requirements of the given problem statement. 2. To design a cost-effective solution and deploy the same. 3. To analyze the business value of the application 4. To provide innovative and progressive solutions.

152_Seminar on "Straight from a CEO"

Seminar on
Straight from a CEO

Date / Time	8th October 2022 9:00 AM – 11.00 AM
Venue/Platform	Third-floor Seminar Hall
Duration	2 hrs.
Speaker	Mr. Nishant Patel, founder RAW Engineering
Coordinator	Mrs. Anagha Patil, IT VCET
Target audience	BE
Objectives of this seminar	Students would be able to: - 1. Think big. 2. Analyzing market 3. Managing resources, financial and human
No. of attendees	28
Participants	BE Students of 2022-23 batch (IT, Comps, EXTC)
Registration Fee	None
Points discussed in the session	Many students wanted to know about trends in IT industry, global markets, and the future. Mr. Nishant Patel shared his thoughts on the industry. Learning Outcomes: Students will be able to: 1. Get insights on IT industry. 2. Analyze market requirements. 3. Financial health of IT industry

153_Know More about CapGemini

Interactive session on
"Know more about Capgemini"

Speaker(s):

Mr. Saurabh Pandey, Project Lead, Capgemini

Faculty Incharge/ Coordinator(s):

Mrs. Anagha J. Patil, AP, VCET

Mr. Chandan Kolvankar, AP, VCET

Title	"Know more about Capgemini"
Description	This session was arranged in order to give students a brief idea about the company, the Assessment & Recruitment Process of Capgemini. The session also helped in solving many queries of students such as: • Job Roles Capgemini offers • Interview Process after the Assessments • Time period of the Bond with Capgemini • Training period on joining the company • When would the Off-Campus drive take place for Capgemini and how can the students apply • Job Location
Objectives	1. To orient students regarding Capgemini. 2. To solve different queries of students about the company and the process.
Participants	Students of BE-COMPS, IT, EXTC, MECH, CIVIL
No. of Participants	80
Session outcomes	1. Students were able to gain valuable insights about Capgemini from the speaker's experience. 2. Students had all their queries resolved from the speaker regarding the company and the process.

2022-23

154_A seminar on "Role of Civil Engineering in Project Management".

Date: 21/07/2022

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY, VASAI ROAD (W)

Department of Civil Engineering

Awareness of project management software like MSP

Mr. Laukik Dongre

(Project Engineer, Best Geotechnics Pvt. Ltd)

Title: A Lecture on Role of Civil Engineer in Project Management.

Mr. Laukik Dongre has conducted this lecture to discuss project management tools like MSP. He briefly discussed that Microsoft Project (MSP) is a widely recognized project management software that has been used for many years by organizations and project managers. It provides a set of tools and features to help plan, execute, and manage projects effectively.

He then further described these points of MSP,

1. Overview of Microsoft Project (MSP):

Microsoft Project is a project management software application developed and sold by Microsoft. It is available as part of the Microsoft Office suite and as a standalone product. Microsoft Project allows users to create project plans, track progress, allocate resources, manage budgets, and analyze workloads.

2. Key Features of Microsoft Project:

- Gantt Charts: MSP is known for its Gantt chart view, which provides a visual representation of project tasks, dependencies, and timelines.
- Task Management: It helps users define and manage project tasks, sub-tasks, and milestones.
- Resource Management: You can allocate and track resources, including human resources and materials.
- Cost Management: It enables budgeting and tracking project costs.

- Integration: It integrates with other Microsoft Office applications and can work with other project management software.

SPEAKER ADDRESSING STUDENTS ABOUT IMPORTANCE OF PROJECT MANAGEMENT SOFTWARE

He went on to further discuss that civil engineers play a crucial role in project management, particularly in projects related to civil engineering and construction. Their expertise and responsibilities in project management include planning, designing, executing, and overseeing various aspects of a project. Here are the key roles and responsibilities of civil engineers in project management:

1. Project Planning:

- Civil engineers are involved in the initial project planning phase, where they help define project objectives and scope.
- They work to establish the feasibility of the project, considering factors such as site conditions, environmental impact, and regulatory requirements.
- They contribute to the development of project schedules and budgets.

2. Design and Engineering:

- Civil engineers are responsible for designing the various components of a project, such as structures, roads, bridges, water supply systems, and more.

- They ensure that designs meet safety and regulatory standards while optimizing for efficiency and cost-effectiveness.
- Collaboration with architects, structural engineers, and other professionals is often required.

3. Budgeting and Cost Control:

- Civil engineers help estimate project costs and develop budgets.
- They monitor project expenses, track spending, and work to control costs to ensure the project stays within budgetary constraints.

4. Project Execution:

- During the execution phase, civil engineers oversee construction activities, ensuring that work is carried out according to the design and specifications.
- They manage construction teams, subcontractors, and labor to maintain project schedules and quality standards.

The lecture was received with admiration by the students and they found the lecture informative and motivational. The lecture ended with a question answer round followed by a vote of thanks by Mrs. Puja Kadam.

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during your Seminar on "Role of Civil Engineers in Project Management" held on 21st July 2022.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

155_Expert lecture on Plastic Waste Management

Report of Expert Lecture on Plastic Waste Management

Objective of the Session: To provide in-depth knowledge and understanding of the various aspects of managing plastic waste effectively and sustainably.

Date of Session: 11th October 2022, Saturday at 04:00 PM

No. of Participants: 30

Name of the Speaker: Mr. Manoj Kumar Mishra, Senior Executive- Sustainable Development at Supreme Petrochem Ltd.

About the Speaker:

Mr. Manoj Kumar Mishra completed his graduation in Civil Engineering from Mumbai University in 2017. From 2017-2018, he worked as Site Engineer at Antony Lara Enviro Solutions Pvt Ltd where he held the responsibility of Handling of a waste load of 3000TPD, maintaining the roads for proper transportation, coordinate with a surveyor for taking as-built, coordinate with machine Contractor for Execution, Erection & Commissioning, provide the entire civil solutions as per requirement, including construction and repairing of roads, tipping platforms, maintaining slopes, maintain the DPR, check the entire work according to approved drawings and coordinate with MCGM for all approvals. Then from 2018 to 2022, he worked as Project Coordinator with Sampurn(e)arth Environment Solutions Pvt. Ltd., Mumbai where he held the responsibility of designing waste management plans for BWG/Corporates, souring of Plastic waste, vendor Management, management of Dry Waste Collection Centers, Managed the CSR&EPR projects for HUL, Bisleri, Asian Paints, and Tetrapak., liasoning with Local Bodies, tie up with informal sector waste aggregators, tie up and design waste management plant with NGOs and Corporates and conducting Awareness Campaigns for corporates and Municipalities.

And presently he is working as Senior Executive- Sustainable Development at Supreme Petrochem Ltd. where he is relied upon for inventory levels, maintenance checks, inspecting, monitoring work areas to ensure safety, and planning & supervising the project. His aim is to create a Sustainable

clarifications on various aspects of plastic waste management. Mr. Manjo Mishra provided insightful answers and practical tips for addressing specific concerns.

Conclusion:

The expert lecture on plastic waste management was an informative and eye-opening event, shedding light on the critical issue of plastic pollution. Attendees left with a better understanding of the problem and a sense of empowerment to contribute to plastic waste reduction in their daily lives. The event served as a valuable platform for raising awareness and promoting sustainable practices in plastic waste management.

Overall, the lecture was a significant step towards addressing the plastic waste crisis and fostering a culture of responsible plastic consumption and waste management.

156_Engineering Geology Visit to Gargoti museum

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY, VASAI (W)

VISIT TO GARGOTI MUSUEM, SINNAR , NASHIK

DATE OF VISIT : 23rd Dec. 2023

CLASS:- S.E.CIVIL (Sem III)

SUBJECT:- ENGINEERING GEOLOGY

A.Y. 2022-23

Date: 09/12/2022

To,

The Principal,

VCET, Vasai (W).

Subject: Permission for Engineering Geology Visit on 23rd December 2022.

Respected Sir,

We would like to take the S.E. Civil (Sem III) students to the Gargoti Museum, Malegaon MIDC, Sinnar, Nashik, for an engineering geology visit. The visit is expected to involve about 40 students, and three staff members will accompany them. The students' visit will be extremely educational and add value to their engineering geology course as students get to interact with on field experts and observe a plethora of mineral and rock specimens.

The date of visit is 23rd December 2022 (Friday)

The visit will be entirely student funded and undertaking from both parents & students will be collected.

We kindly request you to approve the visit and OD to the faculty members.

Thanking You.

Yours faithfully,

Prof. Prakash Panda 09/12

(Subject In charge)

To, The Principal

To,

Director,

Superb minerals India Pvt. Ltd,

Malegaon MIDC,

Sinnar, Dist.- Nashik

Subject: Permission for Gargoti Visit of second year students.

Respected Sir,

We intend to take the students of S.E. CIVIL of Vidyavardini's College of Engineering, Vasai (W) for educational visit to Gargoti museum, Malegaon MIDC, Sinnar, Nashik. This visit is relating to Engineering Geology subjectof second year degree course (Third Sem). About 39 students are intended to do the visit and 3 staff members would be accompanying them.

We discussed in the office about the visit on telephone on 14/12/2022

We want to visit Gargoti on 23rd December 2022 i.e. Friday 11:00 am onwards.

Kindly give us permission to visit the premises.

Thanking You,

Regards,

22/12/22

GPS Map Camera

Plot No:- D-60, MIDC, Malegaon Industrial Area, Malegaon, Maharashtra 422113, India Lat 19.871841°

Long 73.972368°

23/12/22 02:00 PM GMT +05:30

Objectives of the Visit:

1. To comprehend how minerals and rocks naturally originate.
2. To comprehend the stratigraphy of one of the world's greatest continental flood basalt provinces, Maharashtra, also known as "The Deccan Traps."
3. Identifying and understanding the qualities of different minerals was part of visiting the Gargoti Mineral Museum.
4. To determine which minerals, make up the majority of the earth's crust.

About the Museum:

Gargoti is the reference given to the world's most spectacular and marvelous zeolites. It is the Epicenter of Indian Zeolite minerals in global mineral map. Gargoti museum houses the personal world class collection of connoisseur Mr. K.C. Pandey. His collection consists of minerals, zeolites, gemstones, precious stones and metals, fossils and handicrafts from all over the world.

The displayed world-class collection is the result of Mr. Pandey's patience and consistency over the last 40 years.

The monument is classified into two main sections "The Deccan Plateau Gallery", boasting the best of Indian zeolite minerals and "The prestige gallery" displaying the worldwide collection.

Each zeolite mineral in the museum is a startling 65 million years or more old. It was very astonishing for the students to know that our very own deccan region of India has one of the richest deposits of zeolite minerals in the world which are very supreme in quality.

Attractions of the museum:

Gargoti Museum displays the personal collection of Connoisseur Mr.K.C.Pandey which is the result of his consistency since past 40 years.

It is divided into two galleries namely -

1) Deccan Plateau Gallery: The Deccan Plateau as the name suggests mainly displays Zeolite Minerals & Crystals excavated from the Deccan region of Mother India mainly Maharashtra & surroundings States. The well-designed Deccan Plateau Gallery has numerous showcases of fantastically displayed:

- Zeolite, Mineral & Crystal Specimens
- 2.Fossils of Shells Extinct Dinosaurs & Mammoth
- 3.Finest quality of Statues carved out of Precious/Semi-Precious stones
- 4.The Florescent Mineral Display
- The Prestige Gallery as the name suggests displays the exclusive & the rarest finds of our mother.

2) Prestige Gallery. This Gallery houses the finest of Natural:

- Gem, Precious/Semi-Precious Stones
- Precious/Semi-Precious Metals
- Rocks from Moon & Mars
- The best of Indian Zeolite Minerals

The Prestige Gallery, designs are inspired by the Indian Parliament's Monument and showcases a glimpse of the spell bounding treasures of Nature.

Collection in the Gargoti Museum majorly consists of -

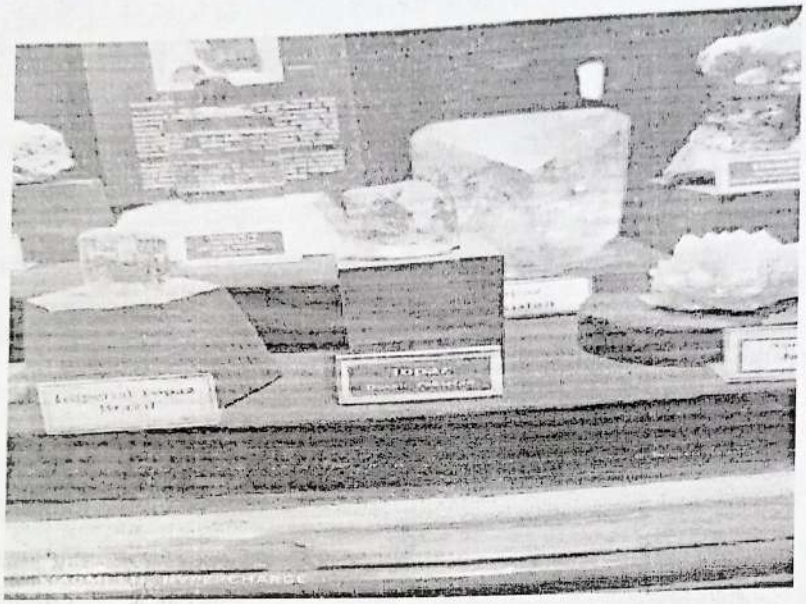
1. Natural Indian Zeolite Minerals & Crystals
2. Natural Gems Stones
3. Natural Precious/Semi-Precious Stones
4. Naturals Precious/Semi-Precious Metals
5. Fossils
6. Stone Handicrafts (Statues) Collected from all around the world.

Outcome of the Visit:

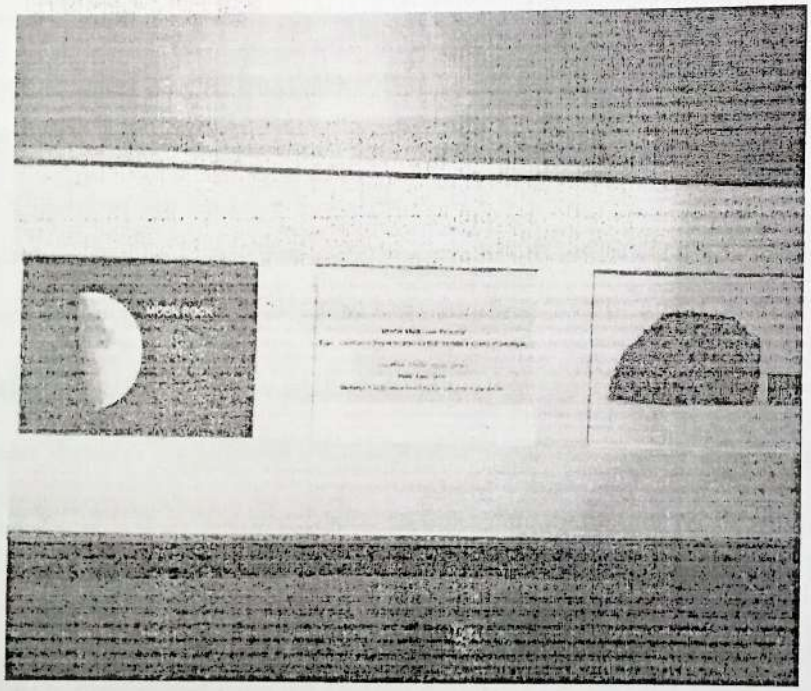
1. To become knowledgeable about certain mineral specimens, their characteristics, and their importance.
2. To understand the potential cultural or historical significance of minerals or gemstones

3. To acquire understanding of the geological mechanisms underlying the genesis of various minerals.

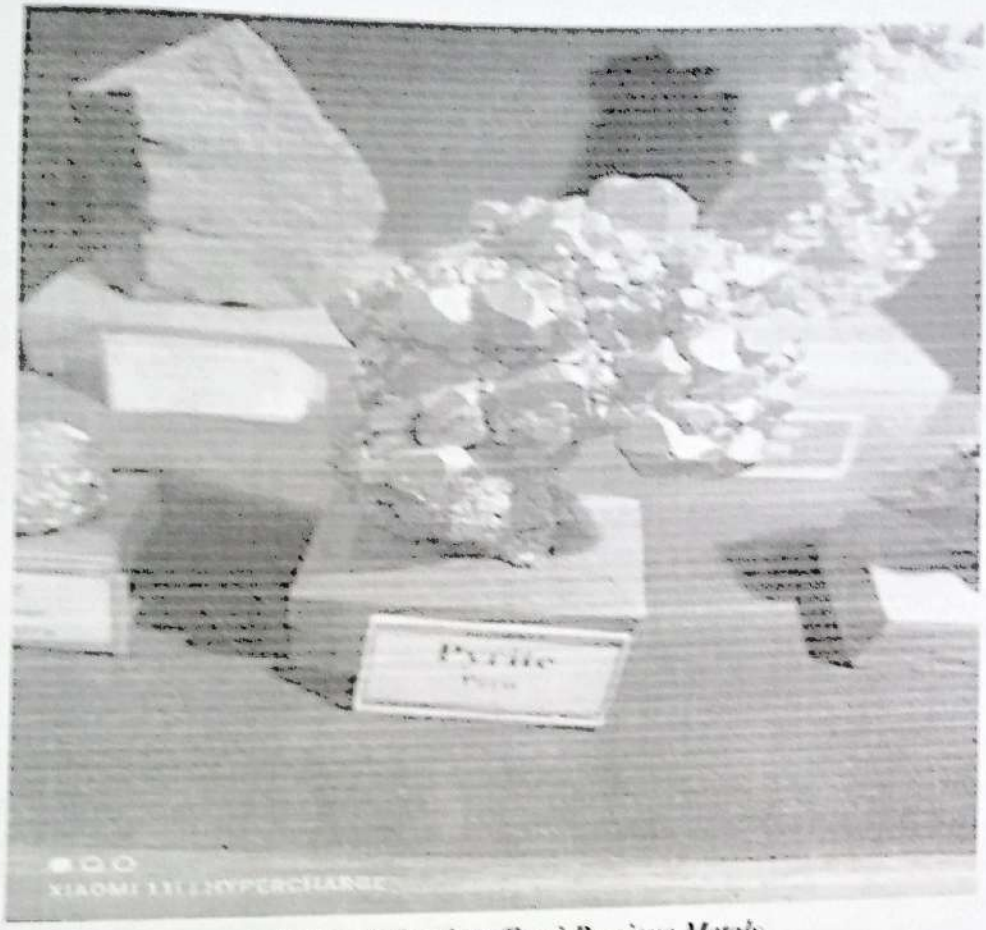
Glimpses:



Natural Precious/Semi-Precious Stones observed in the museum.



Information about rock samples from Moon



Naturals Precious Semi-Precious Metals

Undertaking by Students

By signing this undertaking, I Mr. Venketesh metku, a student of Department of Civil Engineering at VCET, Vasai agree that I would be going to the visit of Gargoti Museum at Nashik on 23/12/2022 Friday at my own risk and I have received my Parents/ Guardians consent for the visit.

Further the institute or any its authorized staff members would not be liable or held accountable under any circumstances in case of injury /loss /damage to me or my belongings.

The institute or any its authorized members are also indemnified from any damage, loss/injury of any other person or body during the visit on account of my negligence or misdemeanour and I alone would be liable and responsible to the aggrieved person or body.

Further I also undertake that I would abide by the following rules & follow guidelines of the accompanying staff.

1) I shall not engage in any misbehaviour or activity of indiscipline and follow the code of conduct laid down by the accompanying staff.
2) I shall not carry or consume tobacco or its product, alcohol, liquor or narcotics during the visit.

Thanking You,
Yours Faithfully

Undertaking by Parents/Guardians

To,

The Principal,

VCET, Vasai Road (W)

Sir,

I/We Radha Chavan parents / guardians of Satyam Chavan studying in your institute in the department of Civil Engineering hereby voluntarily submit the undertaking.

We as parents/ guardians confirm that we have studied the following conditions for the visit to _____.

We as parents/ guardians declare our willingness to abide by terms and conditions as well as rules and regulations of the institute, its code of conduct and rules of discipline.

We are willing to send our ward for the above mentioned visit and accept that all the activities undertaken during the visit and accept that all the activities undertaken during the visit would be at my ward's own risk and under no circumstances would be institute , Principal, teachers body and corporate or any authorized individual of VCET would be held liable for any claims or would be held accountable for any loss, damage and injury to my wards or his/her property/belongings.

Thanking You,

Yours Truly

157_STTP om Analysis and Design of Structure using E-TABs Software

Vidyavardhinis College of Engineering and Technology, Vasai Road (W)
Department of Civil Engineering

Academic Year 2022-23

A Report on

"One Week STTP on Analysis and Design of Structures in ETABs Software"

Duration: 29th May 2023 to 3rd June 2023

Department of Civil Engineering of Vidyavardhini's College of Engineering and Technology organized a One Week STTP on Analysis and Design of Structures in ETABs Software for B.E Civil & M.E Structure Students. Sessions were conducted on the Analysis and Design of Structures; also hands-on training was given to students on ETABs software.

About the STTP:

ETABS plays a significant role in civil engineering due to its importance in the design, analysis, and evaluation of building structures. ETABS allows civil engineers to perform advanced structural analysis of building systems. It can simulate the behaviour of structures under different loading conditions and accurately predict their response to forces such as gravity, wind, and earthquakes. This helps in ensuring the structural integrity and safety of buildings. ETABS provides powerful design capabilities that enable engineers to optimize the design of structural components. It automates the process of generating design loads, performing code-based design checks, and producing detailed design reports. This helps in producing efficient and cost-effective structural designs. This STTP will provide a deep insight into the Design of RCC (Reinforced Cement Concrete) Structures and Steel Structures in ETABs software. Also, the STTP will develop interest among the students in the field of Structural Design.

Vidyavardhinis College of Engineering and Technology, Vasai Road (W)
Department of Civil Engineering

Following are the details of sessions conducted during the one-week STTP: -

Course Content and Schedule:

Time: 9 AM to 4 PM each day

Sr. No	Date	Description of Session	Name of Resource Person
1.	29th May 2023	Introduction to Design and detailing of RCC Framed structures in Software.	Mr. Arbaz Kazi
2.	30th May 2023	Modelling of RCC Framed Structure in ETABs.	Mr. Nikhil Gavad
3.	31st May 2023	Design of RCC Framed Structure in ETABs	Mr. Nikhil Gavad
4.	1st June 2023	Detailing of RCC Framed structure designed in ETABS	Mr. Ravindra Muke
5.	2nd June 2023	Introduction to Design and Detailing of Steel Structures in Software	Mr. Ravindra Muke
6.	5th June 2023	Design and Detailing of Steel Structures in ETABs	Mr. Ravindra Muke

Day	Description
Day 1	Topic: **Introduction to Design and detailing of RCC Framed structures in Software.** A Session on drafting the actual building plan was conducted so that the students get to learn about drawing plans in AutoCAD. The session included introduction of various commands used for drafting, detailing of an actual building plan in AutoCAD, Structural planning of that plan to assign Beam, columns and footings. In the second session students were introduced to Design of RCC Framed Structures, theories of design, Detailing of the designed RCC framed structure and various Softwares available for design. Dr. Ajay S Radke, HOD Civil Engineering

	Department added important points related to Analysis of Building and Materials used for construction.

Day	Description
Day 2	Topic: **Modelling of RCC Framed Structure in ETABs.** This session included a detailed training on design of RCC framed structure. Students were introduced to ETABS software that is used for design. Design and detailing of an actual building were done in this session. The building frame was drafted in AutoCAD in the previous session and imported in ETABS for Modelling. Students were made aware of various tools, loads, sections, materials and Analysis of the Building Frame. After analysis of the building frame the SFD and BMD of the Frame were studied.

Day	Description
Day 3	Topic: **Design of RCC Framed Structure in ETABs** This session mainly focused on the Design of RCC Framed Structure that was modelled in the previous sessions. The Structural elements that were analysed for different types of loads were designed for different types of Sections assigned in the software. After the Design part the students were made aware of checking the design and revising the elements that failed in the design. Also, the students were introduced to various documentation work necessary for Structural design and execution work. Students were given an insight on use of IS 456:2000 design code based on which the design was done. They also studied various clauses necessary for design of RCC Frame structures.

Day	Description
Day 4	Topic: **Detailing of RCC Framed structure designed in ETABS.** After Designing an RCC Building frame the next necessary stage is to prepare detailed report of the design for execution. In this session students were introduced to the detailing part of the designed structural elements. Students were given an insight about IS 13920 for detailing of RCC Building frame. Also, students were given training on earthquake resistant design of Building frame in ETABS.

Day	Description
Day 5	Topic: **Introduction to Design and Detailing of Steel Structures in Software** This session highlighted the design of Steel Structures and philosophies of it. In this session an Industrial Shed was modelled in ETABS and assignment of loads. Structural planning of the industrial steel structure was also explained to the students. Various sections used in steel shed design were introduced to the students.

Day	Description
Day 6	Topic: **Design and Detailing of Steel Structures in ETABs** This session was based on Design of the modelled Industrial steel shed in the previous session. All the requirements of the design, load combinations, design check were highlighted in this session. After the design part, detailing of the structural elements and report generation were explained. In the afternoon session students were introduced to earthquake analysis of Industrial steel shed and Wind load assignment.

Chief Structural Engineer, Crown Consultants.

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the Short-Term Training Program on Analysis and Design of Structures using ETABs Software held between 29th May 2023 to 3rd June 2023.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

158_Awareness of Green Building Certification

Report on

Awareness of Certification process of Green Building

Objective of the Session: To create an awareness about green building and requirements to certify as a green building.

Date of Session: 8th April 2023

No. of Participants:

Name of the Speaker: Mr. Bhavesh Mehta (Core Committee Member, IGBC Mumbai Chapter)

About the Speaker:

Mr. Bhavesh Mehta Started the Introduction by paying homage to Dr. Prem Jain, founding Member of Indian Green Building Council (IGBC) since 2001 and Chairman from 2007 to 2018. He further explained roles and importance of Building with an overview of the Indian Building sector which included characteristics of well-designed Houses, Schools, hospitals and malls with aspects of sustainability. Then he elaborated on the formation of IGBC in 2001 and its flagship project CII-Sohrabji Green Business Centre, Hyderabad which is India's 1st Platinum rated green building and a Net Zero Energy Building. He mentioned various future activities of IGBC Student's chapter through PowerPoint presentation. He also explained various Green Building rating systems and encouraged the students to work on Green Building certification of SPCE building in Bhavan's campus.

About the session 1:

An expert lecture on certification of green building was organized to promote green buildings and also steps to acknowledge as Green structure. There are various different parameters involved such as designing, constructing, and operating buildings with a strong emphasis on minimizing their environmental impact. These structures prioritize energy efficiency, water conservation, sustainable materials, and indoor air quality. The goal is to reduce the carbon footprint of buildings and create healthier, more efficient spaces for occupants.

Mr Bhavesh Mehta started his session with his introduction and made students familiar with IGBC main guidelines. IGBC certifies the green projects which are conceptualized, designed, constructed

and operated as per IGBC ratings. Till date, more than 3,088 projects (approx 1,315 million square feet (122.2×10^6 m^2)) have been rated by IGBC. Green projects rated by IGBC fall under one of the following levels (in ascending order): Certified, Silver, Gold and Platinum. The Green Building Movement in India traces its roots to the early 2000s. It has evolved significantly since its inception. Organizations like the Indian Green Building Council (IGBC) and the Green Rating for Integrated Habitat Assessment (GRIHA) have played pivotal roles in setting standards and certifying green buildings. Additionally, the adoption of international rating systems like LEED (Leadership in Energy and Environmental Design) has provided further impetus.

Later he moved on to the important aspect of the session: how to get the certification of green building? Certification of a green building involves a structured process to evaluate and verify that a building meets specific sustainability and environmental performance criteria. The certification process typically follows a standardized system or rating scheme.

The steps to be followed:

1.Project Registration
2.Pre-Design and Documentation
3.Design and Construction Phase
4.Submission of Documentation
5.Third-Party Review
6.Certification and Rating
7.Post-Occupancy Evaluation
8.Display and Recognition
9.Ongoing Monitoring and Reporting

At end of the session Mr Bhavesh Mehta summarized the important specific steps and requirements can vary depending on the chosen certification system. Each system has its unique criteria and processes, but they all share the common goal of promoting sustainable building practices and recognizing buildings that meet specific environmental and performance standards. Additionally, the level of rigor and complexity in the certification process may vary, with some systems being more comprehensive than others.

About the session 2:

After the break Mr Bhavesh Mehta continued his session with case study "Operational Excellence in Managing Green Campus". While addressing the college students, he made sure to specify the points that a students can take on their level to help make a campus green. He covered the points like to upgrade to energy efficient LED lighting in campus buildings, implement comprehensive recycling programs for paper, plastics etc & installation of renewable energy sources.
As a educational site, we can form sustainability committee to engage students in sustainable practices, promote eco-friendly options.

Later moved on to "Operational Excellence in Managing Green Campus". Mr Bhavesh Mehta went forward explaining managing a green campus involves efficiently and effectively implementing sustainable practices to minimize environmental impact, reduce resource consumption, and enhance the overall quality of campus operations. This approach contributes to the well-being of the campus community, supports environmental conservation, and often results in cost savings.
Campuses can upgrade to energy-efficient lighting systems, implement advanced heating, ventilation, and air conditioning (HVAC) technologies, and optimize building operations. Through these measures, energy consumption is significantly reduced, leading to both environmental and financial benefits. Green building design and operation align with sustainability goals. Constructing new buildings and retrofitting existing ones to meet green building standards, such as LEED, enhances energy efficiency, reduces environmental impact, and creates healthier indoor environments. This practice exemplifies the commitment to responsible construction and long-term operational efficiency.

Conclusion:

The expert lecture by Mr. Bhavesh Mehta on "Green Building Movement in India" & "Operational Excellence in Managing Green Campus" in summary, green building is essential for reducing the environmental impact of the construction industry, conserving resources, saving money, and creating healthier, more comfortable living and working spaces. As the world continues to address pressing environmental challenges, the importance of green building practices and sustainable construction will only increase in significance.

Glimpses of session:

To,

The Principal,

VCET, Vasai (W).

Sub: Proposal for "6 Days' Student Development Program" (SDP) on "Developments in Structural Engineering".

Respected Sir,

We The Department of Civil Engineering propose to organize a 6 Days' Student development program on "Developments in Structural Engineering", which will be considered a value-added course for students. The SDP will be beneficial to the students of Civil Engineering Department, who wish to pursue career in Structural Engineering field.

The resource persons details or the student development program are as follows,

Date of session and duration	Resource Person	Topic
3rd Feb 2023	Prof. P R Barbude	Professional Practices in Structural Engineering
4th Feb 2023	Prof. Nilesh Lende	Technical Writing and Presentation
5th Feb 2023	Prof. P V Mule	Need of Earthquake Resisting Structures
10th Feb 2023	Prof. S A Rasal	Application of Prestressed Concrete
11th Feb 2023	Dr. A S Radke	Repairs and Retrofitting of RCC Structures
12th Feb 2023	Prof. J B Chougale	Software Applications in Design of Multistorey RCC Structures

Proposed Schedule of Student development program: Dates : 3rd Feb, 4th Feb. 5th Feb, 10th Feb, 11th Feb 2023 and 12th Feb 2023 Time : 10am to 12 noon and 1.00 pm to 4.00 pm.

We request you to kindly grant us the permission.

Thanking You,

Jaydeep Chougale
Program Coordinator

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

K.T MARG VASAI (WEST)

DEPARTMENT OF CIVIL ENGINEERING

ACADEMIC YEAR 2022-23 Date:

A Report on

"6 days Student Development Program (SDP) on developments in Structural Engineering" for B.E Civil & M.E Structure Students.

Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology organized a 6 days Student Development Program (SDP) on developments in Structural Engineering" for B.E Civil & M.E Structure Students. A guest lectures were conducted on various different topics on each by various professional industrial experts as follows: -

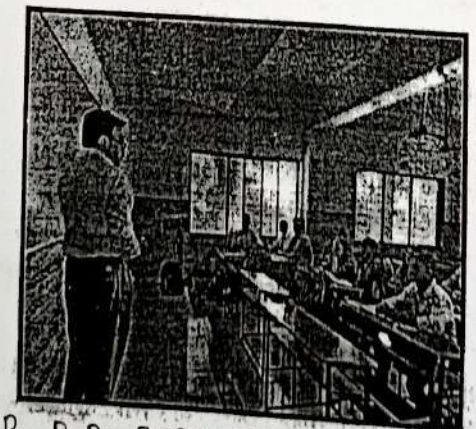
Day: 1

Date: 3rd Feb,2023.

Time: 10:00 am to 12:00 pm & 1:00 pm to 4:00 pm

Topic: "Professional Practices in Structural Engineering" for B.E Civil & M.E Structure Students.

Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology organized a Lecture on "Professional Practices in Structural Engineering" on 3rd February 2023 was delivered by Prof. P. R. Barbude. The lecture included the importance of understanding client requirements, following IS codes and standards, and efficient project management. He also highlighted the need for good communication skills and ethical practices in the field of structural engineering.



PROFESSOR P.R. BARBUDE ADDRESSING STUDENTS.

Overall, the lecture was informative and thought-provoking, providing valuable insights to the students. The lecture was well-received by the audience and received positive feedback from students.

Day: 2

Date: 4th Feb,2023.

Time: 10:00 am to 12:00 pm & 1:00 pm to 4:00 pm

Topic: "Technical Writing and Presentation" for B.E Civil & M.E Structure Students.

On 4th February 2023, Prof. Nilesh Lende delivered an informative lecture on "Technical Writing and Presentation" to the students of the Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology. The lecture aim was to improve the technical writing and presentation skills of the students, which are essential skills for professionals in the field of engineering.

Prof. Nilesh Lende began by discussing the importance of clear and concise writing, highlighting the need for accurate documentation and effective communication. He also introduced students about various known writing formats like IEEE & APA for research paper.

Overall, the lecture was engaging and informative, providing attendees with valuable insights into the essential skills required for technical writing and presentation. A vote of thanks was given by Jaydeep Chougale of Civil Engineering Department and also valuable feedback of the students was collected at the end of the seminar.

Day: 3

Date: 5th Feb,2023.

Time: 10:00 am to 12:00 pm & 1:00 pm to 4:00 pm

Topic: "Need of Earthquake Resisting Structures" for B.E Civil & M.E Structure Students.

On 5th February 2023, Prof. P. V. Mule delivered a guest lecture on " Need of Earthquake Resisting Structures" to the students of the Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology. The lecture highlighted the importance of building structures that can withstand the devastating impact of earthquakes. Prof. P. V. Mule emphasized the need for proper design by using IS Codes 1893:2015 part-I and 13920:2016 for design of structures. He also highlighted the use of advanced technologies and materials for construction like use of various types of shear walls and dampers.

The lecture was informative and thought provoking, and it provided the students better understanding of importance of earthqual e resisting structures. The lecture was later concluded by giving a voted of thanks by Prof. Nikhil Gavad of Civil Engineering Department and also valuable feedback was given by students.

Day: 4

Date: 10th Feb,2023.

Time: 10:00 am to 12:00 pm & 1:00 pm to 4:00 pm

Topic: "Application of Prestressed Concrete" for B.E Civil & M.E Structure Students.

Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology organized a Guest Lecture on "Application of Prestressed Concrete" on 10th February 2023 was delivered by Prof. S A Rasal. The lecture focused on the principles and applications of prestressed concrete in modern construction. Prof. Rasal highlighted the advantages of using prestressed concrete over traditional reinforced concrete, including its higher ability to withstand higher loads and resist cracking. He also discussed various methods used for prestressed concrete like pre-tensioning and post-tensioning.

Overall, the lecture was a valuable addition to the field of civil engineering and lecture was concluded by vote of thanks given by Prof. Ashutosh Dabli of Civil Engineering Department and valuable feedback by students.

Day: 5

Date: 11th Feb,2023.

Time: 10:00 am to 12:00 pm & 1:00 pm to 4:00 pm

Topic: "Repairs and Retrofitting of RCC Structures" for B.E Civil & M.E Structure Students.

On 11th February 2023, Dr. A. S. Radke delivered an informative guest lecture on Repairs and Retrofitting of RCC Structures to the students of the Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology. Dr. Radke began by discussing the common causes of deterioration in reinforced concrete structures and the need for repairs and retrofitting. He emphasized the importance of timely repairs and maintenance to ensure the safety & serviceability of the buildings and infrastructure. The lecture covered the various methods of repairs and retrofitting of RCC structures, including epoxy injection, jacketing, and carbon fiber reinforcement. Dr. Radke explained the pros and cons of each method and shared examples of successful repairs and retrofitting projects.

Overall, the lecture was informative and insightful, providing students with valuable insights into the methods and techniques used in repairs and retrofitting of RCC structures. The students & faculty appreciated the practical advice and guidance provided by Dr. A. S. Radke, and the lecture received positive feedback from students. Lastly, the lecture was concluded giving a

vote of thanks by Prof. Vikrant kothari of Civil Engineering Department and valuable feedback by students.

Day: 6

Date: 12th Feb,2023.

Time: 10:00 am to 12:00 pm & 1:00 pm to 4:00 pm

Topic: "Software Applications In Design of Multi-storey RCC Structures" for B.E Civil & M.E Structure Students.

On 12th February 2023, Prof. J B Chougale delivered an enlightening guest lecture on "Software Applications in Design of Multi-storey RCC Structures" at the Vidyavardhini's college of Engineering and Technology. The lecture was attended by students and faculty from the Civil Engineering department. The importance of software applications in the design of multi-storey RCC structures was the first topic Prof. Chougale addressed. He emphasized the need for precise and efficient software tools to assist civil engineers in designing complex

structures. The lecture covered the various software applications used in the design of multi-storey RCC structures, including ETABS, SAFE, STAAD PRO, Tekla and SAP2000. Prof. Chougale provided examples of successful projects that made use of these software tools as well as an explanation of the features and capabilities of each software.

Overall, the lecture was a valuable addition to the field of civil engineering and lecture was concluded by vote of thanks given by Prof. Viren Chandanshive of Civil Engineering Department and valuable feedback by students.

160_A seminar on "Importance of Research and Lab Teaching"

Department of Civil Engineering

Report on "The Importance of Research and Lab Teaching in Education"

Date of Lecture- 24th May 2023, Wednesday from 11:00 a.m. to 01:30 p.m.

No. of Participant- 30

Name of the Speaker- Mr. Nissar Khan (Technical Officer, Civil Engineering Dept., IIT Bombay)

Introduction: The seminar on "The Importance of Research and Lab Teaching in Education" took place on 24th May 2023 at IIIrd floor Seminar Hall, VCET, Vasai. The aim of the seminar was to shed light on the significance of integrating research and lab teaching in the education system and how these components contribute to a comprehensive learning experience.

Keynote Speaker:

Mr. Nissar Khan is currently working as Technical Officer in the department of civil engineering at IIT Bombay. He holds professional degree in Bachelor of engineering (B.E) in Civil Engineering and Master of Technology (M. Tech) in Structural engineering. He has a vast experience in the field of concrete, structural engineering and all the civil engineering experimentation work.

Description of the lecture:

Expert lecture on "The Importance of Research and Lab Teaching in Education" was conducted on 24th May 2023, Wednesday from 11:00 a.m. to 01:30 p.m.

The first session focused on how research and lab teaching enrich the learning experience. The speaker highlighted that hands-on experiences provide students with a deeper understanding of theoretical concepts. Practical applications encourage critical thinking and creativity, ultimately enhancing the overall educational journey.

The discussion revolved around how lab work cultivates practical skills, including experimentation techniques, data analysis, and equipment operation. Participants agreed that these skills are invaluable in preparing students for future careers. Furthermore, he explored how research and lab teaching spark curiosity and foster innovation. The participants engaged in a discussion about the role of these components in encouraging students to explore beyond the classroom, develop new ideas, and contribute to the advancement of knowledge.

In the next session, the focus shifted to the importance of collaboration and communication skills. Participants shared experiences of how research projects and lab activities encourage teamwork and effective communication, essential skills for success in any field. Also he highlighted the personal and professional growth that stems from engaging in research and lab work. Participants discussed how these experiences boost students' confidence, self-esteem, and sense of accomplishment, thereby preparing them for challenges in their careers. Additionally, he underscored the significance of faculty-student interaction in research and lab settings. Attendees agreed that mentorship from faculty members not only enhances the quality of research but also establishes meaningful connections between students and educators.

The seminar concluded with a discussion on how research and lab experiences instill a passion for lifelong learning. Participants shared insights into how these experiences encourage individuals to stay updated with the latest developments in their fields throughout their lives.

Conclusion:

The seminar on "The Importance of Research and Lab Teaching in Education" provided a comprehensive exploration of the various dimensions of research and lab teaching. It was evident that these components not only enhance the educational journey but also nurture essential skills, foster innovation, and prepare individuals for future challenges. The seminar served as a platform for rich discussions and valuable insights, emphasizing the significance of incorporating research and lab teaching into the education system.

PRODUCT VIDYA 2022

Company's name:	NCC telecom pvt. Ltd
Product name:	Home automation : Smart switches
Owner's name:	Chirag Ajmera, Pinakin Ajmera
Product's Description: Infinity collection of smart switches is a custom made solution for homes. The switches are made with desired materials ranging from wood, marble, stone to ceramics to seamlessly blend with the interior décor . They come with a haptic touch response and have a user friendly design. The company provides assistance and solutions for automating home by digitizing the electrical controls tailor made to suit customers budget and requirements.

PRODUCT VIDYA 2022

Company's name:	DEKRYPTOR (ISAGON CREATIVES LLP)
Product name:	3D Printed Robotic Arm
Owner's name:	Mr. Kunal Kashikar

Product's Description: **This arm has a 5 degree of freedom(5DOM) and is controlled by 6 servo motors**

Description about motors is as follows

3 MG995 motors for high torque

3 SG90 servo motors for accuracy

This robotic arm is controlled via an self generated app having 3 modes of control

1) Generic control
2) Voice control
3) Gesture control

The app Acts as interface to communicate to arm via Wifi or Bluetooth

ABOUT SERVO MOTORS:

3MG995 MOTOR: 3 MG995 Metal Gear Servo Motor is a high-speed standard servo can rotate approximately 180 degrees (60 in each direction) used for airplane, helicopter, RC-cars and many RC model. It Provides 10kg/cm at 4.8V, and 12 kg/cm at 6V. It is a Digital Servo Motor which receives and processes PWM signal faster and better.

3SG90 MOTOR:Micro Servo Motor 3 SG90 is a tiny and lightweight server motor with high output power.

Servo can rotate approximately 180 degrees (90 in each direction), and works just like the standard kinds but smaller. You can use any servo code, hardware or library to control these servos.

APPLICATIONS:

Welding
Material Handling
Machine tending
Space Exploration

FEATURES:

Control System: The CPU that directs a robot's task at high level
Sensors: A component that provides electrical signals to allow a robot to interact with the world
Actuators: The motor parts that are responsible for a robot's movement

PRODUCT VIDYA 2022

Company's name:	Janyu Tech
Product name:	Throwbot
Owner's name:	Mr. Abhimanyu Raja

Product's Description:

Remote controlled investigation machine that can be controlled or operated by humans for dissimilar operations. Robot is built as a defense mechanism for military purposes. It is helpful for the army as it has the ability to capture motions or actions of enemies using cameras. It has a wide-range communication system that has a range up to 1 km which can climb an inclined plane up to 45 degrees.

Application: Used as a Defense & NSG Indian Army

Features:

It has 4 cameras placed on 4 sides.

1 km range of wireless communication (2.4gHz).

Speed:3km/hour

24 volt batteries

Army can allot frequency

Report on Code-O-Fiesta

Event Name	Code-O-Fiesta
Date	28th September 2022
In association with	Computer Science Engineering and Data Science
Coordinators	Dr. Vikas Gupta, Prof. Yogesh Pingle and Prof. Sejal D'mello
Description	The Code-O-Fiesta event, hosted at Vidyavardhini's College of Engineering & Technology in Vasai West on September 28, 2022, was a dynamic confluence of technology, innovation, and industry-academia collaboration. With a mission to bridge the gap between technology and human emotion, this event served as a platform for students to showcase their creativity, while also offering industry leaders an opportunity to witness cutting-edge projects and engage in knowledge exchange. It aimed to underscore the importance of industry-institute collaboration and explore the mutual benefits of such partnerships. The event's primary objectives included promoting innovation, nurturing academic-industry synergies, and providing students with networking and career opportunities. It ultimately celebrated the fusion of technology and human expression, positioning itself as a catalyst for growth and innovation in the field of engineering and technology.
Objectives of Event	• Promote innovation and technological advancements. • Foster collaboration between academic institutions and industries. • Provide students with opportunities to showcase their skills. • Facilitate knowledge transfer and networking among participants.

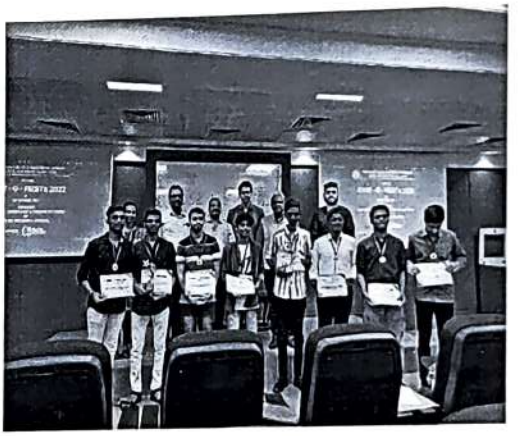
Feedback from participants	Outcomes of the event	Code-O-Fiesta 2022 successfully bridged the gap between technology and emotion by promoting industry-institute collaboration, knowledge transfer, and showcasing innovative solutions. It provided a valuable platform for students to connect with the industry and gain insights into the practical applications of their academic knowledge.

Inauguration of Code-o-Fiesta 2022-23

Winner and Runner-Up of Code-o-Fiesta 2022-23
[Winner – Naveen Arora, Karan Patra, Parth Puri, Chetan Jawale, Jayesh Wadhe, Dept of AIDS, VCET]



Organizing Team of Code-o-Fiesta 2022-23

Coding Competition (Code – o – Fiesta)

SRS (Software Requirement Specification) 28 Sep 2022

Problem Statement 1: **social networking for entrepreneurs**

This application is meant for business people only where they can

1. Create their profile
2. Show case their products
3. Post updates (like linked in /facebook)regarding thier products or projects (file upload limited to 1 photo compressed size if possible)
4. Participate in forum of different subjects related to business.

Subscription management included. 1 year membership.

Direct messaging to individual members in the forum.

Updates on new member joining. Network/ friend list updated automatically

Search by name, profession, company name.

User profile which includes their info (professional/ personal) and their achievements.

Problem statements 2: online **data collection of business meeting of a group**

A group of entrepreneur meet every week to help each other get business. Objective is to record data of events happening in the meeting.

Data to be recorded

1. References shared - member
2. One to one meetings done- member
3. Thank you slip- member
4. Visitor invited- group leader(form with name and contact details, invited by which member)
5. Testimonial shared- member
6. Absentism/ late – group leader

In this portal member can

1. Create their profile
2. Show case their products

Subscription management included. 1 year membership. (future scope integration with payment gateway)

Multiple such groups will operate at different location and on different days

Data collection of all such group on monthly . quarterly . 6 month basis for reporting purposes for office level supervision.

Access levels

1. Member level- data entry for self
2. Group head level- meeting stats entry, approval of weekly data entered by member
3. Office level- create new member, subscription alerts and management.
4. Super admin – overall control

Report on Product Showcase 2022-23 Product vidya

Event Name	**Product Showcase 2022-23- Product Vidya**
Date	23rd September 2022
In association with	Computer Science Engineering and Data Science
Trainers	Dr. Vikas Gupta, Prof. Yogesh Pingle and Prof. Sejal D'mello
Description	The Product Showcase 2022, which took place on September 23rd, 2022, marked a noteworthy occasion for individuals within the field of Artificial Intelligence and Data science. This event brings technological advanced Electronics, IOT and software-based products under one roof. A brief list of products is as follows. 1. DALL-E 2. Solmon CMS 3. Hospital Management 4. Alexa 5. Drone 6. Nvidia Canvas 7. DashCam 8. Parkingpal Students visited these companies and understood the working of products, then on the day of event students explained these products very confidently to visitors visited the stall. The primary goal of the showcase was to foster the exchange of knowledge and facilitate networking opportunities among industry professionals, companies, engineers, and product developers.
Objectives of Event	1. Providing students with insights into industry advancements. 2. Facilitating interaction between industry and students to enhance their practical understanding of the real world. 3. Extending invitations to companies and industries interested in recruiting, offering internships. 4. Enhancing soft skill of students

Feedback from participants	Outcomes of the event	The Product Showcase in the field of Artificial Intelligence and data science was a resounding success. It provided valuable insights into the latest advancements in this industry, highlighting products and technologies with the potential to shape the future of infrastructure development. These innovations prioritize sustainability, efficiency, and safety. This event fostered meaningful interactions among professionals and created a platform for potential collaborations that could drive progress in the field. It is crucial for both the Data Science community within Artificial Intelligence and data science and industry stakeholders to closely track these innovations as they continue to transform the landscape of Data Science within Artificial Intelligence Engineering.

241_Application of Machine Learning in Mechanical Engineering

Report on Guest lecture on

Application of Machine Learning in Mechanical Engineering

Guest lecture was arranged for second year students of Department Mechanical Engineering on 1th May 2022 from 9 AM to 1.00 PM on Google meet for subject of Automation & Artificial Intelligence. The topic of the guest lecture was "**Application of Machine Learning in Mechanical Engineering**". Guest speaker for the seminar was Dr. Shubhangi Vaikole, Associate Professor DMEC, Vashi, Navi Mumbai.

The contents of the guest lecture were

- Introduction to AI and ML
- Scope and application of AI and ML in relevance of Mechanical Engg.
- Type of Machine Learning
- Decision Tree
- Clustering, K-Means, KNN Algorithm
- Learning with Regression
- Artificial Neural Network
- ANN model for fatigue prediction

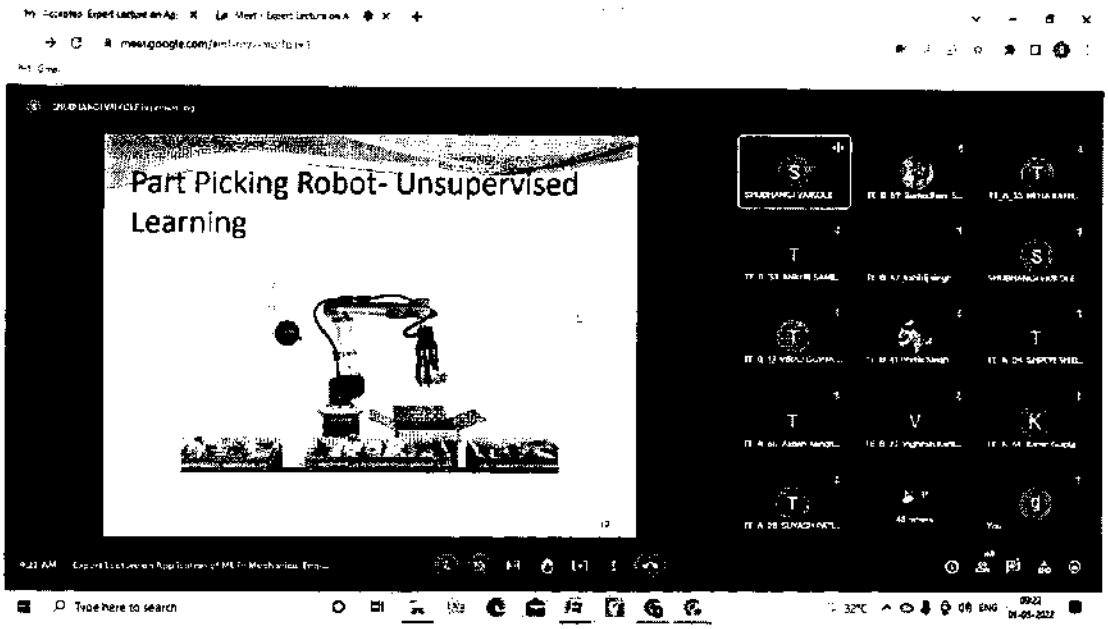
The following is attached after the report

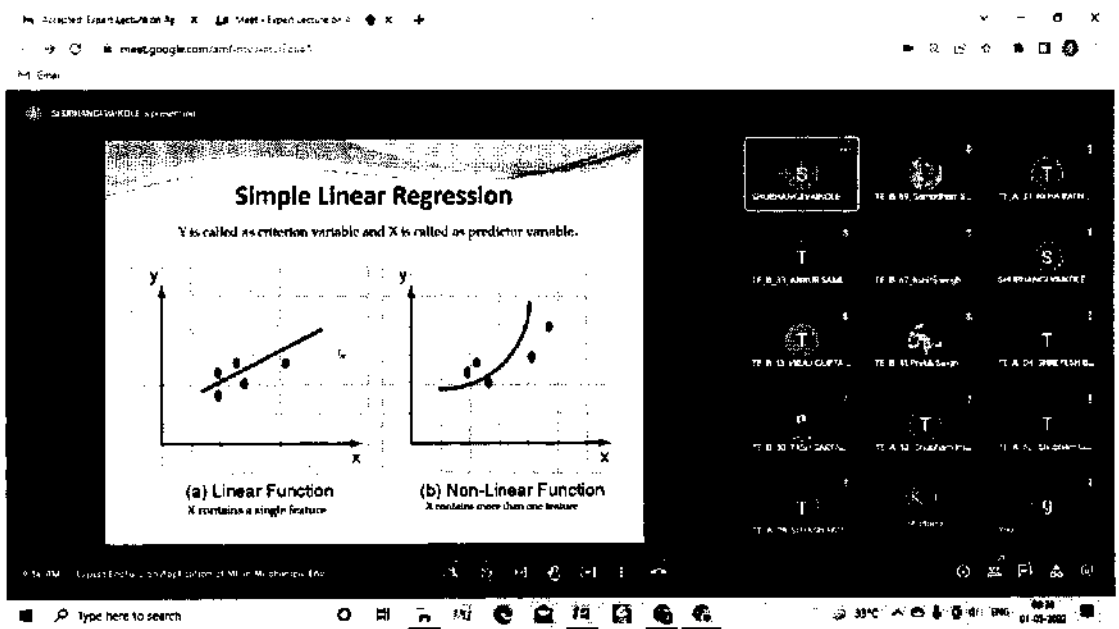
- Sample screenshot of lecture,
- Attendance of students
- Invitation to students,
- Invitation to Guest
- Feedback analysis.

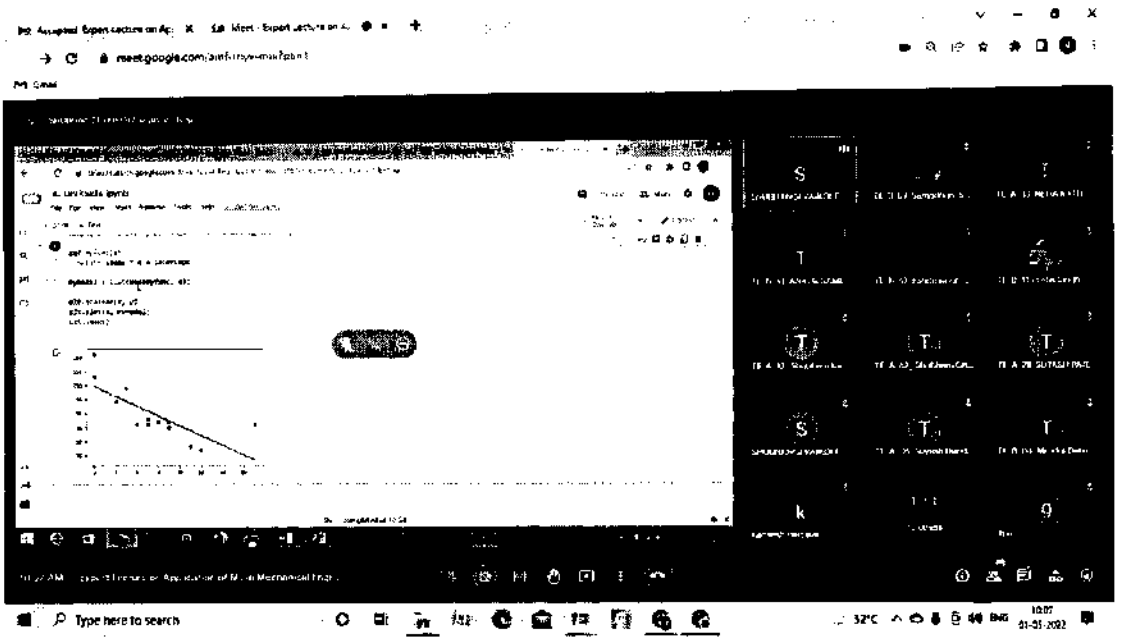
Mr. Ganesh Wahile
Assistant Professor,
Department of Mechanical Engineering,
VCET, Vasai
(Subject Incharge-Automation & Artificial Intelligence)

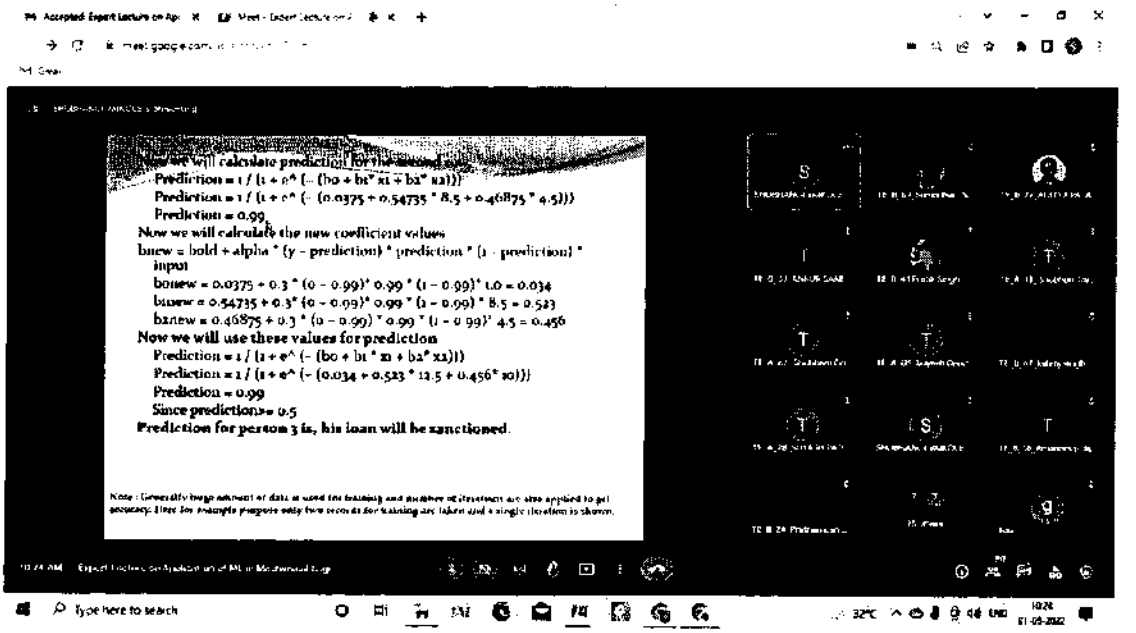
HEAD
Dept. of Mechanical Engg.,
Vidyavardhini's College of
Engineering & Technology
Vasai Road 401 202.

1) Screen Shot from Online Guest Lecture

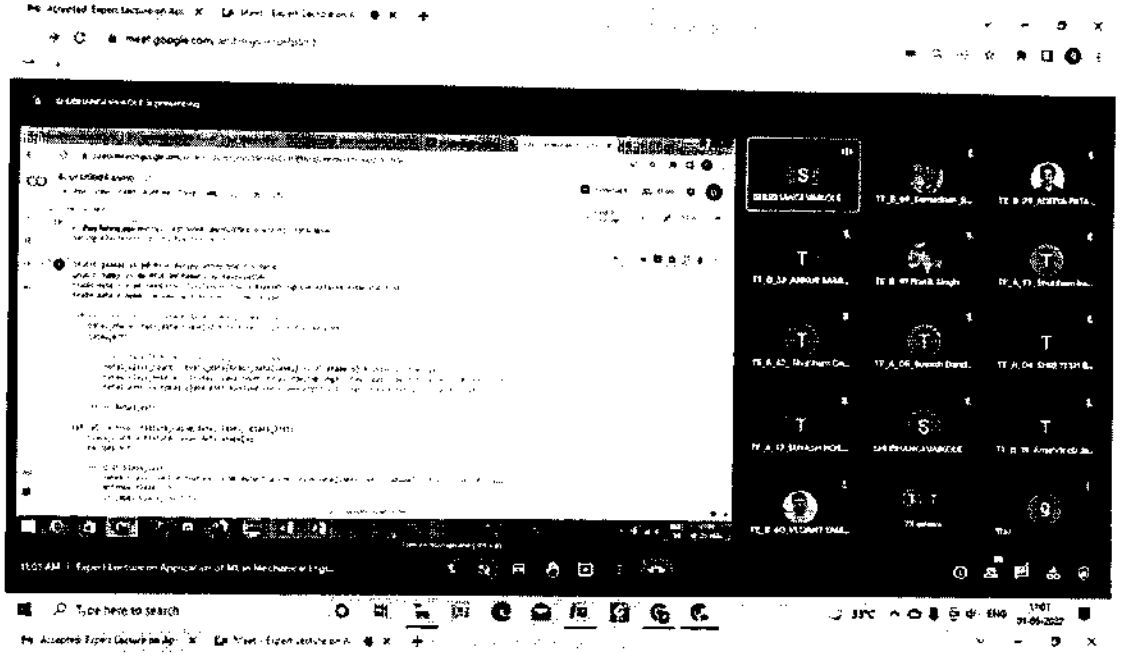


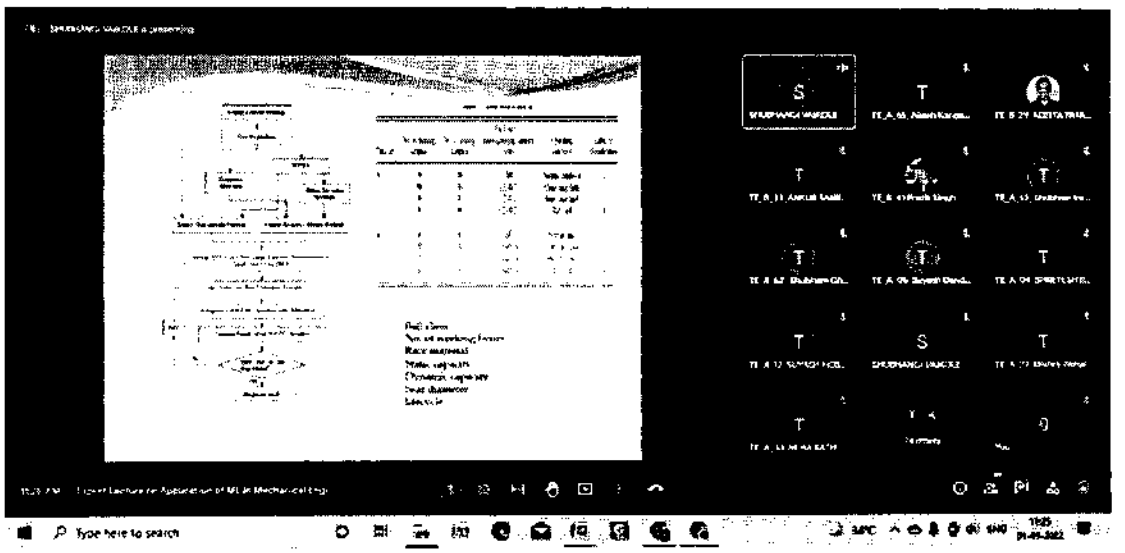


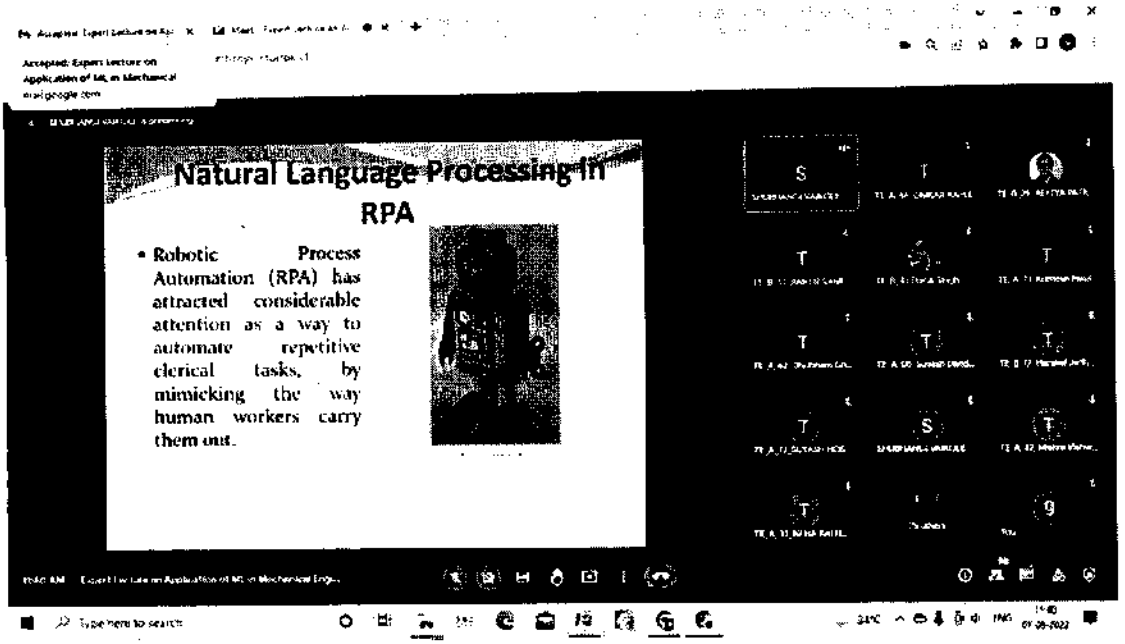




Prediction = 1 / (1 + e^ (- (bo + b1* x1 + b2* x2)))
Prediction = 1 / (1 + e^ (- (0.0375 + 0.54735 * 8.5 + 0.46875 * 4.5)))
Prediction = 0.99
Now we will calculate the new coefficient values
bnew = bold + alpha * (y - prediction) * prediction * (1 - prediction) * input
b0new = 0.0375 + 0.3 * (0 - 0.99) * 0.99 * (1 - 0.99) * 1.0 = 0.034
b1new = 0.54735 + 0.3 * (0 - 0.99) * 0.99 * (1 - 0.99) * 8.5 = 0.523
b2new = 0.46875 + 0.3 * (0 - 0.99) * 0.99 * (1 - 0.99) * 4.5 = 0.456
Now we will use these values for prediction
Prediction = 1 / (1 + e^ (- (b0 + b1 * x1 + b2* x2)))
Prediction = 1 / (1 + e^ (- (0.034 + 0.523 * 12.5 + 0.456* 10)))
Prediction = 0.99
Since prediction>= 0.5
Prediction for person 3 is, his loan will be sanctioned.







Natural Language Processing in RPA
• Robotic Process Automation (RPA) has attracted considerable attention as a way to automate repetitive clerical tasks, by mimicking the way human workers carry them out.

2) Attendance taken on Google meet is attached below

Apollo Industrial Corporation Visit Report 22/04/2022

Visit to Apollo Industrial Corporation was organized for TE students of Mechanical Engineering department for subject of HVAC&R. Mr. Rishabh Melwanki, Mr. Swapnil Mane, Mr. Raahul Krishna along with students of TE A and TE B visited on 22/04/2022 to Apollo Heat Exchangers. Students were divided in groups of 20 and Engineers from the plant explained the complete heat exchanger manufacturing process. Quiz was taken based on visit and all students were asked to write report on visit. Attendance sheet is attached.

Students were explained following:

1. Stores management-FIFO
2. Fin types and manufacturing
3. Heat exchanger assembly
4. Heat exchanger aluminium brazing
5. Heat exchanger leak testing.
6. Heat exchanger painting.

Mr. Naresh R Shah, Chairman & MD of Apollo Industries Corporation also interacted with the students.

Report by: Mr. Rishabh Melwanki, Subject Incharge, HVAC&R.

Apollo Industrial Corporation Industrial Visit Report **22/04/22**

A visit to Apollo Industrial Corporation was organised for TE Students of the Mechanical Engineering Department for the subject of Machine Design.Ms M Dutta, Ms Priti Vairagi, Mr Raahul Krishna along with 142 students of TE A and TE B visited 22/04/22 Apollo Industrial Corporation. Students were divided into groups of 20. Engineers from plant explained the punching operation, the Manufacturing process of the Heat Exchanger, Welding operation, Spray painting Technique etc to the students. Students were asked to write a report on it after the visit . The attendance sheet is attached.

Students were explained the Following :

1) Store Management
2) Fins Manufacturing and Punching operation
3) Assembly of Heat exchanger
4) Spray Painting
5) Aluminium Brazing

Mr Naresh Shah, Chairman & MD of Apollo Industrial Corporation also interacted with Students

243_Visit to Apollo Heat Exchanger

Date: 21/04/2022

To,

The Principal,

VCET, Vasai.

Subject: Seeking permission for Industrial visit at Apollo Industrial Corporation

As a part of the curriculum of the Third-year Mechanical Engineering for the course of Machine Design (MEC 601) and to understand Design of Machine Elements, Punching Machine, and manufacturing process of Defence Equipment, I would hereby request you to kindly grant permission to visit Apollo Industrial Corporation on 22/04/2022. All the formalities regarding the visit will be followed as per norms and college policy.

Four faculty members from the Mechanical Department will visit the Industry along with students for smooth conduction.

Following faculties will be visiting Apollo Industrial corporation

1. Ms Madhumita Dutta
2. Ms Priti Vairagi
3. Mr Rishabh Melwanki
4. Mr. Raahul Krishna
5. Mr Swapnil Mane

Thanking You

Yours faithfully

Dr. U. V. Aswalekar
Professor, Head,
Mechanical Engg. Dept.

244_Boilers manufacturing process and its working

To,
The Principal,
VCET,
Vasai (W).

Sub: **Permission letter to visit Uni-Therm Boilers Pvt.Ltd., Naigaon (E).**

Respected Sir,

Our T.E. (Sem.VI) Mechanical Engineering students of Div. -A & B have a subject Turbomachinery in which an industrial visit to Thermal Power Plant is compulsory which is a part of their term work.

In this connection, I discussed on telephonic with Mr. Ashok Grover, Director (Steam O Tech Engineers) and he arrange the visit with Uni-Therm Boilers Pvt.Ltd., Naigaon (E) and allow our students for industry visit.

The total number of students are 144 along with 2-3 faculty members visit the industry on **7th April 2022 at 2pm.** The necessary formalities and permission we completed the same.

Therefore, I requested to kindly allow us to visit the industry.

Thanking you.

Your faithfully,

V.D. Patel,
(Subject Teacher)

A Report on Industrial Visit to Uni-Therms Boilers Pvt. Ltd.

Organized by:

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (W.), PALGHAR-401202
DEPARTMENT OF MECHANICAL ENGINEERING

Introduction

The Department of Mechanical Engineering, Vidyavardhini's College of Engineering & Technology, Vasai had organized an Industrial visit to Uni-Therm Boilers Pvt. Ltd. Which is a company that deals in the manufacturing & selling of Boilers, the Visit was conducted on 7th April 2022.

Visit was organized with the prior permission and guidance of Head of Department Dr. Uday V Aswalekar. It was coordinated by Prof. Raahul Krishna and was attended by around 144 students including both divisions of TE Mechanical on 7th April 2022.

Objective

The objectives of this Industrial Visit were:

1. To learn the functioning of Water-Tube Boilers
2. To learn the functioning of Electric Boilers
3. Understanding the best & sustainable practices in the manufacturing of these boilers

About Uni-Therm Boilers Pvt. Ltd.

Uni-Therm Engineers is a professionally managed, fast growing, multi-faceted engineering company which started its operations with specialization in the fields of designing and manufacturing of Fired Heaters like Steam Boilers, Thermic Fluid Heaters, Pressurised & Non pressurised Hot Water Generators, Direct & Indirect fired Hot Air Generators and Unique design electric electrode type Steam Generators with a view to serve small & medium scale industry.

It has now diversified and added many more environment friendly & highly efficient products in its range which are helping the industries to achieve higher productivity with improved profitability. We provide single point solutions & complete turnkey projects to meet the customer's needs in a diverse range of industries.

About Lecture Session

1. **Water Tube Boilers:**

A water tube boiler is such kind of boiler where the water is heated inside tubes and the hot gasses surround them. This is the basic definition of water tube boiler. Actually this boiler is just opposite of fire tube boiler where hot gasses are passed through tubes which are surrounded by water.

It consists of mainly two drums, one is upper drum called steam drum other is lower drum called mud drum. These upper drum and lower drum are connected with two tubes namely down-comer and riser tubes as shown in the picture.

Water in the lower drum and in the riser connected to it, is heated and steam is produced in them which comes to the upper drums naturally. In the upper drum the steam is separated from water naturally and stored above the water surface. The colder water is fed from feed water inlet at upper drum and as this water is heavier than the hotter water of lower drum and that in the riser, the colder water push the hotter water upwards through the riser. So there is one convectional flow of water in the boiler system.

Boiler Specifications:

- Heating coil capacity: 300□C
- 3 Pass of Flue gases and 1 Pass of Water.
- 1st Pass between outer shell & tubes
- 2nd Pass between the tubes
- 3rd Pass from core to tubes.
- Designed for handling pressures upto 15 bar

  At 10 bar, we get temperatures of approximately 185□C

To get superheated steam, we heat the steam coming out of the boiler using an isobaric process, i.e. at constant pressure.

Reflective materials are used in the boiler lining to prevent the shell from melting due to the high temperatures of flue gases formed inside. The boilers can be designed for Horizontal & Vertical setups.

Applications: Where the heat energy is required in the form of steam i.e.,

- Textile Industry
- Reaction chambers used in Pharmaceutical companies

Water Tube Boiler seen at Uni-Therm Boilers Pvt. Ltd.

2. Electric Boiler

Small electric water boilers are portable household appliances, used to prepare hot beverages or other food items. They may provide a reservoir of hot water to be kept at a fixed temperature or to allow tea to be steeped at a controlled temperature. They are manually filled with water every time hot water is desired.

An electric steam boiler is intended to produce steam for process industry or other uses, such as drying, heat treating, and others. These are generally permanently installed systems with connections to a water supply and piping to transport product steam to the point of use. In places where electric power is relatively low cost compared to fossil fuels, it may be economically practical to use an electric boiler for steam central heating. For example, in Winnipeg, Canada, during the Second World War, large central electric steam boilers were used for a district heating system, using surplus hydroelectric power. The intent was to conserve coal fuel for more critical wartime needs.

Electric boilers may rely on immersion heater resistance heating elements to heat water, or may use electric current passing directly through the water as an electrode boiler.

Boiler Specifications:

Operating cost is quite high

Consumes 20kW of Electrical Power (can go upto 70kW as well).

Consists of 3 suspended electrodes to heat the water with 3 phase supply.

The control mechanism of pump and electrical supply are housed in the controller box.

Requires a certain amount of electrical conductivity of water for effective heating, that depends on its purity, viscosity, and these factors can lead to increase or decrease in the amount of current drawn for heating.

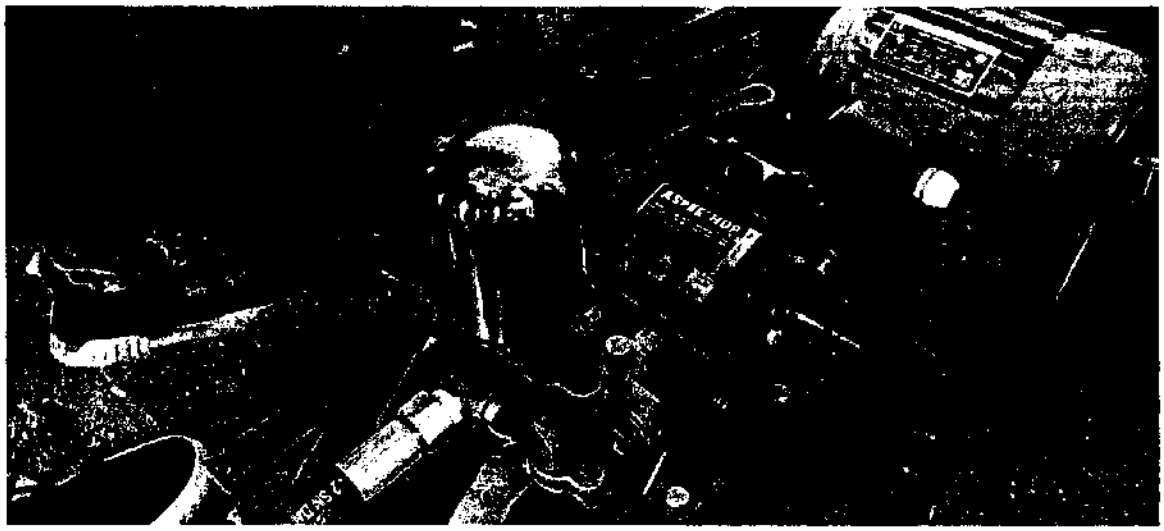
Non Return Valve is present to prevent water from coming out of the highly pressurized boiler chamber.

Air Vessel is also used to increase the efficiency of boiler.

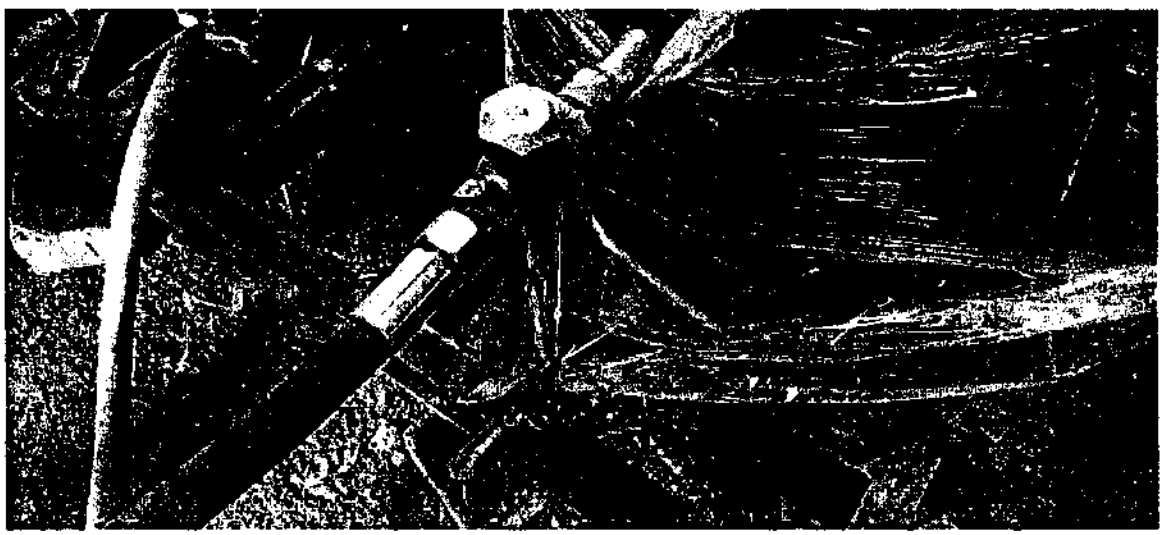
Applications: used when steam rate required is around 100 kg/hr

Manufactured in small capacities for laboratory purposes

Electric Boiler as seen at Uni-Therm Boilers Pvt. Ltd.



Air Vessel



Non-Return Valve

Conclusion:

It was a great experience to actually see how the industry works and the processes that are done which co relate to the studies we have done. The faculties and employees were very helpful in entertaining and meticulously explaining our doubts. The visit was appreciated by all the students and I would like to express my gratitude and hope for more such visits to understand Engineering deeply.

245_Hands-on Training session on Machine Learning Algorithms using Python software

Date:24/03/2022

To,
The Principal
VCET Vasai

Through: HOD Mechanical

Subject: Request to conduct Three Day Workshop on 'Hand on Training on **Machine learning** Algorithms using python'.

Respected sir,

In the updated R-2019 Syllabus under new subject Automation & Artificial Intelligence, there is Introduction to various Machine Learning Algorithms, where focus is only given on theoretical aspect.

In regard to that, Department of Mechanical engineering is planning to conduct **'Hands-on Training session on Machine Learning Algorithms using Python software'** for TE and BE Mechanical students, where students will get versed with utilization of Python software.

I kindly request you to permit the above activity in our college campus.

Please find the proposed schedule herewith:

Day	Date	Time	Content
Day 1	31st March 2022	03 Hrs.	Introduction to Machine learning, Supervised & Unsupervised Learning
Day 2	01st April 2022	06 Hrs.	Linear Regression, Hands-on basics of Python
Day 3	07th April 2022	03 Hrs.	Logistic Regression, Hands-on session on Regression problems
Day 4	08th April 2022	06 Hrs.	Classification Algorithm, Hands-on session on Classification Trees

Yours faithfully

Kamlesh Bachkar

A Report on "Hands-on Training session on Machine Learning Algorithms using Python software'

A.Y 2021-22

Hands on Training session on Machine Learning Algorithms using python software was conducted from 31/03/22 to 08/04/22 for 18 hrs. Total 20 students participated for the training.

Resource Person - Asst. Prof Kamlesh Bachkar

Software Used - Python (Jupyter Notebook as IDE)

Contents covered for workshop were:

1. Introduction to Machine learning.
2. Supervised & Unsupervised Learning.
3. Linear Regression
4. Logistic Regression
5. Classification & Decision Trees
6. K means clustering

Case study problems covered in the workshop were from manufacturing domain using machine learning algorithm and consumer Service domain using machine learning algorithm.

COURSE OUTLINE

Day	Date	Time	Content
Day 1	31st March 2022	04.00 pm – 7.00 pm	Introduction to Machine learning, Supervised & Unsupervised Learning
Day 2	01st April 2022	09.30 am – 11.00 am	Linear Regression, Hands-on Jupyter Notebook Software
		11.00 am– 11.15 am	Break
		11.15 am – 1.15 pm	Logistic Regression
		1.15 pm– 02.00 pm	Lunch
		2.00 pm – 5.00 pm	Hands-on session on Regression problems
Day 3	07th April 2022	04.00 pm – 7.00 pm	Logistic Regression, Hands-on session on Regression problems
Day 4	08th April 2022	9.30 am – 11.00 am	Classification Trees Algorithm
		11.00 am– 11.15 am	Break
		11.15 am – 1.15 pm	Hands-on session on Classification Trees

		1.15 pm– 02.00 pm	Lunch
		2.00 pm – 4.00 pm	Hands-on session on Classification Trees
		4.00 pm – 4.30 pm	Quiz
		4.30 pm – 5.00 pm	Feedback

This course provided good practical exposure to students about various machine learning algorithms through Hands on Practice.

Department of Mechanical Engineering

Impact Analysis

- Ideas and concepts related to Machine learning algorithms were clearly presented
- Session was useful from knowledge and practical point of view of Jupyter notebook software.
- Student were able to implement Linear regression model to a given problem,
- For next session algorithms like GBM, AGM, Neural networks to be implemented to solve a problem.

246_Industrial VIsit to M/s.Ekta Cranes Pvt.Ltd.,Vasai

To,

Date: 18th Feb 2022

The Principal

VCET Vasai

Sub: Industrial visit -Regarding

Respected sir,

The industrial visit is being planned at M/s. EKTA Crane Engineering Works, Vasai East for final year Mechanical Engineering students for subject Design of Mechanical Systems. The visit will be scheduled as follows

Sr No	Class	Date	Time	No of students
01	B.E.Mech	21st Feb.2022	1.15 pm to 5.30pm	65

This visit will be useful to students as they will see the components of Electrical Overhead Travelling Crane, their working, manufacturing, assembly which students designed them on paper in the DMS Course. This will clear their concept of theoretical design and actual component/product after manufactured based on design. Students will report to the industry campus by their own transport. I and Mr. Parag Sarode will accommodate students at company premises. So, we request you to allow us to visit the plant on above date. Also I request you to approve one day Office duty leave (ODL) and TA for the same.

The address of industry is

Unit No. 5, Hi-tech Industrial Estate, Agarwal Golani Road, Golani Vasai East, Near Goiani Naka, Vasai, Thane-401208, Maharashtra, India

Mfg. Plant- Mumbai-Ahmedabad Highway, Near Udipi Restaurant, Waliv Phata, Vasai East

Thank you sir,

EKTA CRANE ENGINEERING WORKS

Manufacturer, Supplier and Girder Cranes, Electric Wire Rope Hoist,
End Carriages, EOT Cranes & Lifting Accessories & Trading etc.

Department of Mechanical Engineering

An Industrial Visit on
"Electrically Overhead Travelling Crane Design, Manufacturing and Working"
at
M/s. Ekta Crane Engineering Works,Vasai East
21st Feb.2022

Industrial Visit Report

Objective: To familiarize with the mechanical system that is designed with that of actual product

Outcome: The EOT Crane Design as per industrial specification and experiencing the actual product of same specifications

Methodology:

- The students of BE Mechanical were successfully completed the industrial visit to M/s. EKTA Crane Engineering Works,Vasai East on 21st Feb.2022. The details of the visit are as follows
- Students were able to understand the construction of Electric Overhead Travelling (EOT) Crane and its working by operating it themselves.
- Student groups were designed the EOT Crane for actual specification as manufactured in M/s. EKTA Crane Engineering Works, evaluated the dimensions of hook, pulley, rope, hoisting drum gear box size, motor capacity etc.
- During Industrial visit, those designed components are actually handled by students and measured for their dimensions using measuring equipment and analyze the error between theoretical dimensions and actual dimensions.
- Based on Analysis, students put their comments about the possible variation in dimensions.
- Students were utilized their expertise for recording the measurements.
- Mr. Dharmendra, Owner gave a presentation of their product line where trolley box of 3 Ton and 10 Ton capacity EOT Crane was demonstrated to the students. Mr.Dharmendra highlight the customized requirements of customers according to space available, type of materials to be delivered, loading capacity, method of unloading etc. are important while designing the crane.
- Theoretically it is very difficult to understand the operating of EOT Crane. Students were as excited during visit as they actively interacted with the technicians, supervisors in the industry. Students visit the lathe machine where hoisting drum machining was in progress and the length of rope drum is 1000 mm and diameter is 300mm . The technician explained about the groove measurement and precision lever measurement as well. It will be a lifelong learning experience to the students
- 60 students were present for the industrial Visit.

- The purpose of visit to fulfilled the CO with POs as below:

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PS01	PSO2
CO1	3	2	2					2		2		3	3	
CO2	3	2	3	2	2			3	3	3		3	3	

So, We are thankful to you for allowing us to undergo this industrial visit to M/s. Ekta Crane Engineering Works, Vasai. I assure you that in future also we will organize such industrial visits to product specific industries.

Thank you sir,

Dr. Ashish J. Chaudhari

247_Discussion on Recent material and Advanced manufacturing process

To,
The Principal
VCET. Vasai.

Date: 03/12/2021

Report on Guest lecture on

"Discussion on Recent Material and Advance Manufacturing Process"

A guest lecture was arranged for second year (III[rd] sem) students of Department Mechanical Engineering on 01/12/2021 at 12:00 noon. The topic of the lecture was "**Discussion on Recent Material and Advance Manufacturing Process**" to give some additional knowledge on the subject Production Process. Guest speaker for the topic was Mr. Ashok Khopkar. General Manager, PAM System Ltd.
Students were given brief knowledge of new material in the industry, with its application and advantages. A case study was discussed as how Duplex stainless steel is used, its properties, specific application, and fabrication techniques etc. Modern production techniques for the use of special alloys and steels were discussed. Performance aspect and effect on project costing was also discussed for making it a learning for profession career.

The following is attached with the report

- Sample screenshot of lecture,
- Attendance of students
- Invitation to students,
- Invitation to Guest
- Feedback analysis.

248_Rapid Prototyping Applications and Scope

Date 20/10/2021

To,
Mr. Kanan Rediyyar
Director
Nebula Technologies Pvt. Ltd.
Vasai West

Subject: - Expert lecture on Rapid Prototyping Applications and Scope.

Dear Sir,

On behalf of Department of Mechanical Engineering, Vidyavardhini's College of Engineering and Technology, Vasai Road, Vasai, Dist. Palghar, Mumbai, Pin-401202. We would like to invite you for online guest lecture on topic "Rapid Prototyping Applications and Scope" **on 30 October 2021 at 07 PM to 08 PM** for subject of CAD/CAM/CAE for final year mechanical engineering students.

Your expertise, guidance, continue support and encouragement to our student, will help them in career.

We look forward for your cooperation.

Thanking you,

Subject Teacher

Mr. Tusharkumar Raut

Report on Guest lecture on

Rapid Prototyping Applications and Scope.

Guest lecture was arranged for final year students of Department Mechanical Engineering on 30th October 2021 from 07 PM to 08 PM on Google meet for subject of CAD/CAM/CAE semester seventh Mechanical Engineering. The topic of the guest lecture was "Rapid Prototyping Applications and Scope.". Guest speaker for the seminar was **Mr. Kanan Rediyyar, Director Nebula Technologies Pvt. Ltd. Vasai West**

The contents of the guest lecture were

- Introduction to CAD/CAM/CAE
- Components of CAD/CAM/CAE System
- Contemporary Hardware System.
- Contemporary Software System.
- The Product Cycle in CAD/CAM
- CAD Tools required for system design.
- The Present State of CAD-CAM Industry and career.
- RP Applications
- RP Present Market Status
- As entrepreneur in RP domain.

Mr. Mayur Jagtap
Pearl marine services
Mumbai

Dear Sir,
On behalf of the Department of Mechanical Engineering of Vidyavardhini's College of Engineering & Technology, Vasai West, I feel immense pleasure to invite you to deliver an Expert Lecture on **"Non destructive testing"** on dated 28 Oct 2021 from 4 pm onwards
The participants are students of SE Mechanical
The event will be arranged on Google meet platform. The link for the same is as follows.
Seminar "Non destructive testing"
Thursday, 28 Oct 2021. at 4.00 pm to 5.30 pm
Google Meet joining info

Dipak J Choudhari
Asst. Professor
Vidyavardhi's College of Engg
Vasai Road (W)

Seminar on "'Non destructive testing an experimental approach'

Guest Speaker — **Mr. Mayur Jagtap**
N.D.T Consultant, Pearl Maritime services,
Mumbai

Date — **28/10/21**

Venue — **Online Google meet**
Seminar 'Non destructive testing an experimental approach'
Thursday, 28 October 21 · 3.30 – 5.00 pm
Google Meet joining info
Video call link: https://meet.google.com/bkw-nfdv-soq
Or dial: (US) +1 262-885-7041 PIN: 623 139 486#

Time — **3.30 to 5.00 pm**

Objective:
1) To Identify different N.D.T methods
2) To get familiar with procedure of Non-Destructive testing.

Outcomes: Student should be able to understand the theory of NDT and apply it for the testing.

Description

Mr. Mayur Jagtap Started a seminar at 3.30 pm. All together 59 students were present for this online seminar.

Initially he explains the importance of non-destructive testing and when to use these NDT methods in the different area of mechanical engineering.

Mr. Mayur Explains the NDT methods for following industrial applications

1) Flow detection and evaluations
2) Leak detections
3) Location Determination
4) Dimensional Measurement
5) Structure and microstructure.

For Above application Mr. Mayur Explains the following NDT Methods

1) Liquid penetration method
2) Magnetic particle testing
3) Radiographic testing

4) Eddy current testing
5) Ultrasonic Inspection.

In the last part of his speech he explains through video how NDT is done for aircraft testing, rail track inspection.

At the end Mr. Mayur also explains various job opportunities available in the field of NDT and related exams and certifications.

Since this seminar was arrange to bridge the gap of syllabus and it was really helpful for the student to enhance their knowledge.

Dear Sir,

On behalf of the Department of Mechanical Engineering, VCET Vasai, I would like to invite you to deliver an expert session on **"Demo of Minitab software"** in online mode for the students of Third year Mechanical Engineering.

As per our discussion an expert lecture is scheduled on 22nd October 2021 from 3 pm to 5 pm.

Please accept our invitation and kindly send a confirmation email.

Thank You.

Best Regards,
Kamlesh Bachkar,
Assistant Professor,
Mechanical Department,
VCET Vasai

Department of Mechanical Engineering

Report of Guest Lecture arranged on 22nd October 2021

Department of Mechanical Engineering had organized Guest lecture for the student of TE Mech (A & B) Division on 22/10/21 from 3.00 to 05.00 pm. The speaker for the lecture was Dr. Raju Bhosale who is working as Assistant Professor, Mechanical Department, BSCOER, Narhe, Pune. Title for seminar was 'Demonstration of Minitab Software'.

Prof. Kamlesh Bachkar introduced and welcomed speaker Dr. Raju Bhosle. Further, Dr. Uday Aswalekar, HOD Mechanical introduced the topic of seminar and elaborated importance of Mini Tab software to the students.

In his lecture, Dr. Raju Bhosle initiated with introduction of Design of Experiments subject with an practical example of 'TEA MAKING PROCESS'. He further explained the concepts like factor, level, Factorial methods, Null and Alternate hypothesis, etc. Further he showcased method to solve problem using hand calculation method, and problems associated with solving it in higher factors.

Dr. Bhosle initiated to solve the problem on Minitab software. He explained and demonstrated to students the interface of Minitab software. Further, he solved the same problem of 5 factors on the Minitab software. Lastly, Dr. Bhosle explained the result obtained and discussed various scenarios for designing the process.

Finally, Dr. Bhosle concluded the seminar discussing on importance of 'Design of Experiments' for Higher studies & Research positions in Industry.

Program Outcomes relevant to this seminar were – PO1, PO2, PO3, PO4, PO5, PO8, PO12, PSO1, PSO2.

251_Engineering Information Management

Report on Expert Lecture by Mr. Pinakeen Shah

Venue : Google Meet

Date: 29th Sept 2021

An expert lecture by Mr. Pinakeen Shah (Alumni 1998) was organized by Vidyavardhini's college of Engineering and Technology, Vasai on 29th September 2021 from 4pm to 5.30pm on google meet virtually.

Mr. Pinakeen Shah has an experience of 19+ years in Engineering Information Management. He gave a brief overview on what exactly is Engineering Information Management (EIM), its types, what are the emerging trends in this sector and the career opportunities in EIM. He explained the concept of upstream and downstream. He also explained the phases of information, how to manage it.

There were some queries raised by the students. He answered all the questions very well and guided us for future.

At last, we were very thankful to Mr. Pinakeen Shah for their priceless time and college to arrange such a webinar.

During the interaction the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well

252_Healthcare Technology

Report on Expert Lecture by Mr. Avin Joshi

Venue : Google Meet **Date: 25th Sept 2021**

An Expert lecture was arranged by the Mechanical department of Vidyavardhini's college of engineering and technology on Tuesday. This lecture on online mode using Google meet to guide the students in the domain of healthcare and entrepreneurship. The Expert Invited was Mr. Avin Joshi an alumni of VCET 1998 Mechanical batch.

The session started with Prof. Dutta introducing the guest and listing all his numerous achievements both in academics and entrepreneurship. Mr. Avin started by listing his journey through the college; he highlighted his time in transmedia a leading healthcare information technology company based in Troy, New York. He later explained how the values he learnt during his engineering years helped him in his entrepreneurial endeavour.

The next part of Mr Joshi's presentation detailed healthcare and specifically the opportunities in the domain. The points of impact highlighted many different fields through which new business opportunities can be produced. The last part of the presentation was about the skills and traits that he found to be most important for anyone willing to choose a similar path.

The session ended with a interactive Q&A where Mr. Avin took up questions from both professors and students. He also advised a group for their final year project and guided them for proper use of components/methods.

253_Sourcing- Supply Chain Management

Report on Expert Lecture by **Mr Rahul Chemburkar**

Venue : Google meet **Date : 27th Sept 2021**

Mr Chemburkar is a Strategic Souring Manager with Mahindra & Mahindra ltd. He has over 22 years of experience in different roles which includes leading Global Sourcing team, Supply Chain, Souring of sheet metal parts, etc. He focuses on Strategic Sourcing and Supply Chain Logistics and has advised leading OEMs and suppliers across India, Middle East, and Europe in key strategic and operational projects.

To start, Mr Chemburkar gave the insight of current market scenario in the field of engineering along with the experiences he possesses in better understanding of the field. He described the current scenario as VUCA world (Volatile, Uncertain, Complex, Ambiguous). He gave information on Purchasing vs. Strategic Sourcing in which he explained the complexity and opportunity in this field.

He shared the objectives of strategic planning and different parameters related to it. The working of organization structure in the sourcing and how it works was also mentioned. He also gave the sourcing strategies and the roadmap in developing it by explaining the concept of Kraljik Matrix. The Kraljik Matrix helps in understating and deciding the best strategy for sourcing.

He then put some light on Cost Management and Supplier Capacity Planning and how to develop new product using these strategies. Using these techniques, one can also assess the risk associated with the techniques. He also explained how these techniques helps in assessing the scenario in an efficient way by comparing it with the VUCA world.

To conclude, he shared the challenges, the roles and responsibilities along with the emerging trends in the field of Strategy Sourcing. Along with this, he described the skillsets required in this field and how to start the career in the field of Purchasing and Logistics.

During the interaction the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well

254_Strategy & Business Consulting - Automotive & Industrial

Report on Expert Lecture by Mr. Jeffry Jacob

Venue : Google meet

Date : 24th Sept 2021

Mr. Jeffry is a Partner with the KPMG Business Consulting team in India. He has over 21 years of experience in market entry & growth strategies, M&A, due diligence, and large-scale transformation projects. He focuses on automotive and industrial sectors and has advised leading auto OEMs and suppliers across India, Middle East, and Europe in key strategic and operational projects.

He has previously worked with Tata Strategic Management Group and also held leadership positions globally with GE, Toyota, and Lexus in India and overseas in the areas of corporate strategy, finance, six sigma, and business development.

Highlights of Meet

To start with Mr. Jeffry gave us insight into what management consulting is and what value consultants add to any industry. Then he shared with us some of his personal experiences which lead us to a better understanding of the field. We got to know the pros and cons of being a consultant. Then he shared his advice on how we will know if we want to pursue this career, also he guided us on if we want to pursue this career then where we should start and which path we should follow.

During the meet, he shared with us his experiences and cases as a business consultant he handled and led to success. He gave us an idea of which big management consulting players are in the market, what they do, and what they are looking for in their future partners. We also got introduced to the hiring process of consultants. He shared his experience as a hiring manager and gave us guidance on that too.

To conclude, the overall experience of the meeting was good. The lecture was very interactive, and he also addressed all the questions very well. We are grateful to have such sessions with our seniors and grateful for the opportunity faculty members and the mechanical engineering department facilitated for us.

During the interaction the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as

255_Product Engineering and Product Development

Report on Expert Lecture by Mr. Mandar Padgoankar

Venue : Google Meet **Date: 23rd Sept 2021**

Mr. Mandar Padgaonkar was the topper of the First batch i.e., Mechanical '98 Batch. Mr. Mandar has an experience of **22 Years** in the field of **Product Engineering.** He has designed various one of a kind and innovative product for Industry, Scientific Establishments, Pharma, Defence, Department of Atomic Energy & Space sectors including ISRO, BARC, NPCIL, NCRA, IGCAR Etc and also in development of Robot Museum in Gujrat. He has worked with Mahindra & Mahindra as well as L&T and is currently working with TATA Consulting Engineers Limited as a General Manager in the Product Engineering sector.

Mr. Mandar started the session by describing what Production Engineering is about and how the technology, demand from client and expectations from the Industry is changing day after day and exclaimed how great the demand is in the market for Skilled Mechanical Engineers who can fulfil this by generating and using new ideas. Product Engineering is a broad concept of effective and efficient generation and development of ideas through a design process that leads to new products. A great point was stated by Mr. Mandar that *'If you can give the Right product at the Right time then only you can sustain in the market'* i.e., we always have to keep ourselves updated about the recent trends and how to fulfil them. Further he discussed the Factors affecting the Product Design, viz. Technical, Design and the Economic factors. There are 7 stages of development of a New Product that are - Idea Generation, Idea Screening, Concept Development & Testing, Market Strategy, Product Development, Market Testing and Commercialization.

Nowadays the challenges faced by the industry are product risk, changing needs, demanding environment and thrust on automation and thus to fulfil this the requirements are to be agile, take quick turnarounds, shortest design phase, reliability and sustainability. When we go into detail, we can observe that the process of Product Engineering is divided into 2 parts viz. Basic design process and Detail engineering process. Here the Basic design process comprises of Specs of product, high level design, design review and ECN/ECO. Whereas the Detail engineering process comprises of detail engineering, validation, final review, and acceptance.

The career opportunities in the Product Engineering domain are vast for example the sectors like Industrial Automation, FEA/CFD Analysis, Life remnant and asset life assessment, CAD migration, 3D Printing, Reverse Engineering etc. To be a part of Product Engineering the skills required are Clarity of fundamentals, Concept development, Detailed engineering, Engineering drawing, CAD/PLM, Codes / Standards of the industry.

Further in the doubt's session, many students interacted with Mr. Mandar and guidance was provided by him to the students. Mr. Mandar made sure to make the concept of Product Engineering clear enough for the students to understand what the challenges are, prospects, applications as well as requirements of the industry. The session was very interactive thanks to everyone present in the meeting.

Report on Expert Lecture by Mr. Kiran Naik.

Venue: Google Meet Date:22nd Sept 2021

Mr. Kiran currently works at Kapiva, which is a startup of Ayurvedic Products. She also told that he had previously worked for Hindustan Unilever Limited, TITAN and for SC JOHNSON. She then handed over the session to Mr. Kiran. Mr. Kiran also gave a short introduction about himself, where he worked and how he determined his field. Then he began to casually speak about how we should think about our career. He said that there are a lot of choices, and the question comes down to what you should choose at the end of the day. He then mentioned that the most important before deciding on any career, we should first question ourselves that "What do I like? Do I like interacting with machines? Do I like Interacting with people? Do I like travelling? Do I like doing math?". He mentioned that we should ask ourselves such questions which will help us deduce our career choices. He told to figure out who you are and what your strengths are by yourself these questions. He then continued that after you find out your strengths, Get more information on these strengths. He stated that there are a lot of opportunities in the end. He once again emphasized that should always try to search our strengths. He stated that he also asked these questions to himself, and the answers that he got helped him in his career choice & that he never regretted his choice. Then he proceeded for the Q&A, where the first question rolled up which was like what we should do when we like a topic on but there are some parts that we find hard dealing with. He answered that even if we consider a trivial topic, there's always a lot to learn about it. If you genuinely like the topic, even if there's a part that you dislike, you'll overcome that dislike as it is related to topic that you like. The next question came which was like how we can start looking out for jobs of our liking how we should pursue as there's a slim chance of getting the desired job during campus placement. He replied to it that once we've found out our likes and strengths, we should start shortlisting the careers that match those likes and strengths. Shortlist companies in that career and try to approach them directly. He advised to use connections if you know any. He made a remark that even if you get disappointed once, just make a fresh start. The subsequent question was about how to create/develop networking. Mr. Kiran explained that we can always start 2 with our surrounding. While working always do such a job that will impress your superior. Maintain a genuine good relationship with them. He told that following this will improve your network. The next question was about what you should do if you don't get job in field you like. He replied to this question that if you don't get opportunity in the field you like, look for a field which is like it or is related to it. Start there and try to look for opportunity where you can get the job that you like internally (like job shuffling). Many more questions turned in which he very passionately answered.

During the interaction the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well.

257_Information Technology - Cloud

Report on Expert Lecture by Mr. Ketan Patel

Venue : Google Meet **Date: 21st Sept 2021**

The session was delivered by our honorable expert Mr. Ketan Patel, Alumni 1998 batch who was professional at IT sector and have a working experience of over twenty years.

The session began with a brief introduction about his perspective on career selection procedure and how he started his journey toward his aim and what are the difficulties or advantages he faced in that process and how he had reached the position where he is currently. He had planned the session with the topic of "Cloud Computing", so the lecture initiated with background introduction of the topic, that what are the traditional ways of computing that is through servers, and related appliances. In continuation he discussed the construction, working, advantages and demerits of using traditional large hardware, server systems within data center for each an every big scale organization.

After that he initiated the comparison between Cloud computing and the traditional computing procedure and how the modern solution is advantageous or particularly how it is efficient to cover the downsides of the traditional computing procedure. Then he began with the fundamentals for the topic, what is the detail concept, how it is been originated and about its working and significance along with the terminologies related to the topic.

Shortly he started discussing the opportunities that are available for the freshers in the field of Cloud computing where they can expertise themselves in coming future. He also added that how one can enter the filed, what are the processes involved, different certifications options and how to get them through training courses available.

At the end he shared some of the practical tips that everyone should inculcate in their life based on his experiences and hurdles that he faced in the path of success followed by a summary of the session in short points and thereafter a question answer session began. The questions from the student side are regarding the challenges he faced in a different domain than the under graduation, certification procedure, etc. After this the session ended with a vote of thanks from the students and faculties for a wonderful session.

During the interaction the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well

258_Manufacturing Process for Die and Tool Design

Report on Expert Lecture by Mr. Davesh Chawla

Venue- Google Meet

Date-20th September 2021

An expert lecture by **Mr. Davesh Chawla** (Alumni 1998) was organized by **Vidyavardhini's Department of Mechanical Engineering.** Mr.Davesh Chawla was from manufacturing sector and also he owns a manufacturing unit. The main purpose of this webinar was to share experience and give a rough idea about how to go about manufacturing of plastic moulds.

In this webinar he explained mouldable engineering materials and types of moulding of non-ferrous materials in short. He elaborated us about types of moulding of plastic powder as well as non-metals and their applications. He told us advantages and disadvantages of different types of moulding of different materials. After this he explained mould designing process and parts of mould in detail. He also showed some mould manufactured by their manufacturing unit. At ending there was some time allocated to answer queries of students. He answered all questions very well and guided us for future.

259_Career opportunities in Analytics and Bussiness Analysis

Report on Expert Lecture by Mr. Santosh Tamhane

Venue : Google Meet **Date: 17th Sept 2021**

The students were very fortunate to have Mr. Santosh Tamhane (VCET Alumni) address them about the prospects of having a Career in ANALYTICS. Mr. Santosh is the Founder-Foretelics Tech helping brand managers with logo detection in video content using AI. His expertise are Marketing Analytics, Sales Analytics, Data Analysis and Computer Vision.

In the session, Mr. Santosh briefed the students about the various ways in which analytics contributes to the development of the industry and the various organisations of which the industry consists of. The pros of using analytics in an industry and their substantial contribution to the individual manufacturers or companies is noteworthy and a necessity in modern competitive scenarios.

Analytics plays a crucial role in increasing the efficiency of the systems. This is achieved by advanced analytics across Six Sigma DMAIC framework which fuels continuous improvement. Greater visibility into supplier quality levels, and greater accuracy in predicting supplier performance can be easily achieved with the involvement of analytics in the process the system carries out. Machine level performance and traceability can be achieved as well with the blend of analytics in the industry.

The noteworthy role that analytics plays in the promotion of revenue made by the organization was stressed. The strategic service and the monitoring of products are essential contributions of analytics to get the industry a step closer to the customers' expectations.

Mr. Santosh gave very understandable insights to the students about the working of analytics and the concepts of trends and clustering or classification.

The students were introduced to the vast use of analytics in all kinds of organizations such as Banks, Health care, education, ,manufacturing and even the government and social media. The exact scenario where the analytics comes into play for Mechanical Engineering and the aspects of Predictive maintenance.

The session was made very understandable and yet very informative broadening the spectrum of students with respect to various job opportunities. The prospects of analytics and the broad applications creating innumerable career options for students. Students were enlightened by the knowledge acquired in the session.

The students present their gratitude towards their guest, Mr. Santosh and the faculty for arranging such an essential meet bridging the gap between the theoretical knowledge and the actual industry scenarios.

During the interaction the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well

260_Build Your PCB

Academic Year 2021/2022

Title of Event: BUILD YOUR OWN PCB

Date: 12th October 2021

Time: 2:00 - 5:00 PM

Venue: ONLINE

No. of ~~Staff~~ Students Present: 190

Faculty Incharge

HOD

Report on Build your own PCB

Event Name	Build your own PCB
Centre (name)	IETE- SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	13th October, 2021 (10.30am)
Speaker of the Event	Mr. V. V. Kale (Director, Phenix Electronics, Mumbai)
Topic of Chief Guest Speech	-
Important dignitaries attended	-
Brief Report including above information	On 13th October 2021; **VCET's Electronic and telecommunication department in association with IETE- SF** organized an informative workshop named " **Build your own PCB**". In this workshop the participants were taught an effective PCB formation layout designing. This workshop provided a more knowledge about PCB layout on Eagle Software. The workshop was inaugurated at 10:30am, it was conducted on Google Meet. Later, on Mr. V. V. Kale, Director, Phenix Electronics, Mumbai gave insights about Eagle software and its uses and spoke about future aspects in research field and encouraged students to participate in same. Starting with the important aspects of PCBs Mr. V. V. Kale, explained us each and every point about the same and gave us a brief idea of what we are going to learn. After the brief description Mr. V. V. Kale then introduced us about EAGLE CAD which was an online software specially designed to create and simulate schematic PCB layouts. He described each and every step so well, the tools, the various functions, etc. He also made us aware about the common mistakes students do while performing the simulation which will be really very helpful for MINI PROJECTS and other various technical projects. After the online session on simulation, Mr.V.V.Kale demonstrated us practically about how to build our own PCB. It was a fun experience watching apparatus that we all seen for the first time. After a great two-hour session Mayank, IETE student body, had given the vote of thanks and appreciated Mr. V.V. Kale with kind words that he shared their wonderful knowledge and time with us, the students of EXTC, VCET. Everyone learned about different ideas and would look forward to apply it. So, the workshop was all about learning, while being a sport!

261_Seminar on VLSI 1.0

Academic Year 20[illegible]/20[illegible]

Title of Event: VLSI 1.0 [253]

Date: 13th of October, 2021

Time:

Venue: VCET

No. of ~~Staff~~ Students Present: 253

Faculty Incharge

HOD

Report on VLSI TECHNOLOGY 1.0

Event Name	VLSI TECHNOLOGY 1.0
Centre (name)	IETE- SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	13th October, 2021 (2.00pm)
Speaker of the Event	Mr. Mrugendra Vasmatkar (Assistant Professor EXTC, Vivekanand Education Society's Institute of Technology, Chembur, Mumbai.)
Topic of Chief Guest Speech	-
Important dignitaries attended	Dr. Amrita Ruperee, associate professor and IETE-SF incharge Prof. Shaista Khanam
Brief Report including above information	**Vidyavardhini's College of Engineering and Technology,** department of Electronic and telecommunication in association with **IETE- SF** organized an amusing event named **"Learning of VLSI Technology 1.0"**. For this event students of different college were present too, the event was conduct through google meet. For this event the chief guest and specker was Mr. Mrugendra Vasmatkar; Assistant Professor EXTC, Vivekanand Education Society's Institute of Technology, Chembur, Mumbai. Dr. Amrita Ruperee, associate professor and dean students and IETE-SF incharge Prof. Shaista Khanam, were present for this event along with other faculty members. VLSI event was inaugurated at 2pm. Later on, Dr. Ruperee ma'am expressed her views on the event and welcomed the guest speaker Mr. Vasmatkar. Mrugendra Vasmatkar sir taught the VHDL Programming and IP implementation on the software named XILINX. Sir discussed on the scope of VLSI technology not only in India but also out of India. He also shared his views on how to approach for getting better placements in this field. Every doubt of students regarding VSLI Technology were solved. Later the event was ceased by vote of thanks given by Nikhil, member of IETE Committee. Through this event students got well introduced to VLSI Technology and got very cleared to choose this field as their carrier building path.

262_Think Aloud

Academic Year 2021/20 22

Title of Event: Think Aloud.

Date: 8th & 11th Oct, 2021

Time: 3pm

Venue: Online (160)

No. of Staff Present:

Faculty Incharge

HOD

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Report on "Think Aloud"

Event Name	Think Aloud (A group Discussion Competition)
Centre (name)	**IEEE-SB**
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	8th Oct & 11th Oct 2021
Judges	Dr. Pathan, Mr.Sainath Patil Dr.Ashish chaudhari, Dr. Madhavi Waghmare Dr. Amrita Ruperee, Dr.Archana Ekbote Dr.Vikas Gupta, Dr. Ashish Vanmali
Important dignitaries attended	

Brief Report	Department of Electronics and Telecommunication in association with IEEE-SB Think Aloud (A group Discussion competition) was organised on 8th Oct &11 Oct,2021 on the occasion of IEEE day. Eliminations was organised on 8th of Oct and Finals was organised on 11th of Oct respectively. The event was divided into tracks for SE,TE &BE. The main motive of this event was to boost students confidence and make sure they even have fun at the same time. Students from every branch participated in this event. a good number of students participation was seen. Students had strong points on the topic given to them, they were confident and they followed all the rules given to them by the committee members and due to that the event followed smoothly. Their points and remarks were up to the mark and only relatable to the topic. They respected each others temperaments and some followed to speak on others points. From elimination 2 students from each year were selected and a total of 6 students were considered for the finals. For the Finals Dr. Vikas Gupta and Dr. Ashish Vanmali as our judges for the day. They welcomed the participated with their wise words and cheered them up even Dr. Sunayana Jadhav (IEEE branch Counsellor) & Prof. Ekta Ma'am's presence was felt. Even the finals was worth listening and watching. The topic for the finals was given 15 mins prior the event. the winners of the finals were Shamini Iyer (BE), Manisha Kushwaha(TE) & Shriraj Patil (BE). The event was concluded on a thankful note!

Report on "Lyx:Tool for writing papers/report "

Event Name	Lyx:Tool for Writing papers/report
Centre (name)	**IEEE-SB**
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	21st Oct 2021
Chief Guest	Dr. Ashih Vanmali (HOD IT)
Topic of Chief Guest	To brief about how to write technical reports using lyx
Important dignitaries attended	

SP

Brief Report	VCET's Department of EXTC in association with IEEE-SB organized a very informative webinar on Lyx : Tool for writing papers/reports on 21st October 2021. The speaker of the webinar was Dr. Ashish Vanmali, Associate Professor and HOD IT. The webinar was live streamed on YouTube so that the majority of students can actively participate in this enlightening session. The webinar was two and a half hours long. Our speaker for the day introduced the topic and explained the importance of using such softwares for writing reports/papers. He briefly explained Lyx and some other alternative tools/softwares for technical paper writing.He explained everything fluently beginning from the installation of the software. He demonstrated writing and editing and gave detailed instructions on how to use this software effectively. Writing technical papers/reports on such softwares has multiple benefits. He also explained the proper formats in which a technical report/paper should be presented and how to effectively convey ideas in Journal or Conference through papers/reports.Insights of the software were briefly explained by the speaker.The session really helped students to understand the importance of using such technological advancements to write certain documents. Overall session was interactive and To make it even more interactive, a Q & A session was held after briefly discussing the topic. Students and Professors actively participated in this questionnaire. Each and every question was answered and discussed by the Speaker.Such webinars are vital for students in near future and at present. Positive feedback was received from the audience.The webinar was a success with a great turnout.

.

Good

Lyx

We came to know how to write tech docs and reports using lyx software

Practical explanation

The LyX application

Technical paper writing using this made very easy

Technical paper writing using this made very easy for all of us

method

Importance of Lyx and its features and how to incorporate them in reports and journals.

We learnt something new

to ease the ppt work

...

Now I will be able to write good research/report paper

Nothing to add

All functions of lyx

Use of Lyx

Writing chapters as well as adding library....

The functions of the toom explained by sir was interesting & at the same time easy to grasp.

Use of LyX for writing paper.

LYX tool features

Skills to write reports on a particular topic and project to convey the idea in a better way

Use of lyx

.

Now we can prepare effective reports and papers

The webinar was greatly helpful for getting information of different tools

Excellent guidance

Knowledge abt Lyx

Uses of tools to write reports

A new and improved tool for writing research papers

Everything was explained well

Good session

Got to know about LyX for the first time.

Everything was explained in a logistic way

everything

..

Skills to write report on projects and topic

Everything

Yes

How to make tech documents and report

Presenting ideas in segregated manner using Lyx tools

To write reports

Got idea about new tool LYX

Demonstration

To give detailed use of the application

Learning LyX was interesting.

This webinar helped us know about how we can present our work in the right manner and format for any journals or conference proceedings.

Learning about lyx.

Got information about Lyx

It was best way

It was an informative webinar

Lyx,latex ,book ,report,journal ,conference format

knowing the new tool

Advantages and disadvantages of LyX, installation

The webinar was very informative.

Beneficial

Information about Report writing

It was good

New software

technical paper writing using software this made very easy . even the documentation part was impressive

Any suggestions and feedback you want us to consider

170 responses

No

.

-

no

..

Excellent

Everything was good

More such session in future

No suggestions

Good session

It was great.

NO.

.

Nothing

Nothing to add

Please keep hands on for participants as well.

It was a really smooth functioned meet & I really have no complaints.

It was informative and helpful.

No thankyou

Excellent session

Make it more lively

We need such technical knowledge building webinars in future also

Take this type of webinar more

Excellent and very informative session

The session was nice and it is useful in future.

Informative session

It was good

No suggestion

Great session

Useful info was shared

No

Less Time preferably

Thanks for giving us this kind of knowledge.....

Excellent session More such session need to be kept

Wrong message's in the live chat section.
Intruders must not break in

Very Informative session

No Thank you for such a informative session.

More such session in future.

It was good.

NA

Should heve more session like this,or should have handon session

Great session

It was informative and joyful

Zoom/meet if possible

It was informative

nope

No any suggestions

Report on Quizzards Of Techno

Event Name	Quizzards of Techno
Centre (name)	IETE- SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	15th September 2021
Chief Guest	Dr.Vikas Gupta
Topic of Chief Guest Speech	-
Important dignitaries attended	Mrs. Shaista Khanam Dr Vikas Gupta, HOD Electronics and telecommunication
Brief Report including above information	On the occasion of Engineers Day 15th September 2021, **Electronic and Telecommunication Department** of Vidyavardhini's College of Engineering and Technology in association with IETE-SF organized an exciting event named **"Quizzards of Techno"**. It was a Technical as well as GK Quiz Competition in which participants from all departments and year of our college participated with great enthusiasm. The Event "Quizzards of Techno" was inaugurated with a great opening ceremony at 4:00 pm. There were many dignitaries present at the opening ceremony, Dr. Harish Vankudare principal of VCET, Dr. Vikas Gupta HOD of EXTC department, Mrs. Shaista Khanam IETE-SF incharge and various other professors and HOD of all departments were present. The inauguration was started with a candling ceremony to the great civil Engineer **Mokshagundam Visvesvaraya**. The inauguration ended with motivational speeches given by dignitaries. After the

inauguration the participants were asked to join their respective slots. There were two slots and a total of 16 teams participated, that is 48 students in this event. Each team consisted of 3 members. The competition had started by 4:30 pm. The Quiz was unique in itself because it was held on a virtual platform. The Quiz had three rounds. Rules and regulations of the quiz were explained at the beginning. Three-round competition includes Technical-GK Quiz, image recognising and Brainteaser round, which engaged the students for one and half hours. Top 3 teams from both slots made their way to finals, which is Round 3 . The students enthusiastically participated and showcased their brilliance by rapidly answering the questions. Though some of the questions were very tricky, the students tried to answer them with confidence. They found this competition very informative and knowledge enriching. The event came to an end at 6:00 pm and winners were announced on our Instagram page. The winners were Harsh Dodiya, Amey Morye and Yash Barot. First runner ups were Suyash Shelar, Sanika Patil ,Pranaya Gore and Second runner ups were Divya Mandavia, Parthenon Puri, Karan Patra .All the winners were rewarded with cash prizes. Finally Quizzards of Techno took a final note and came to an end. All the participants showed their competitive side and were up to the mark. It was an opportunity for each and everyone as it was not just about winning it was all about participating in competition and being a part of it. Everyone learned about different ideas and would look forward to applying it. So the event was all about

	learning, while being a sport!

Report on "Webinar on Industrialized AI for business and sustainability"

Event name	Webinar on Industrialized AI for business and sustainability
Centre(name)	**IEEE-SB**
Venue(College/Institutions)	Vidyavardhini's College of Engineering and Technology
Date and time	15th of September, 2021
Professors/Industry experts	Dr. Bhushan Jagyasi

Brief Report	Department of Electronics and Telecommunications in association with IEEE-SB organized a day Webinar on Industrialized AI for business and sustainability which was organized virtually by the VCET's Department of Electronics & Communication Engineering in association with IEEE-SB on the 15th of September 2021. The informative webinar was organized for Second Year students. The main objective of this webinar was to provide the fundamental knowledge of how AI can be used for business and sustainability. The topics covered in the webinar were how AI is changing the business world and making it more sustainable. This informative workshop was taken by Dr. Bhushan Jagyasi (a research scientist at Accenture). With the help of this workshop, IEEE-SB has tried to instill a basic knowledge of industrialized AI in students which will be very useful to them for their future entrepreneurship.

Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	5th August,2021 3pm
Chief Guest	Mr. Deepak Kumar Mandal, (Co-founder at Edutrang Technology) Mr. Prashant Jaiswar, (Co-founder at Edutrang Technology).
Topic of Chief Guest	A brief introduction on Robotics and its relatable application used in various fields.
Important dignitaries attended	Dr Aarti Karande, Chair member of IEEE Sight Prof. (Dr.) Vikas Gupta, HOD of EXTC, VCET, Dr. Sunayana Jadhav(IEEE Vcet-SB Branch Counsellor)

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Brief Report	On 5th August 2021; The Department of Electronics and Telecommunication of Vidyavardhini's College of Engineering and Technology in association with IEEE-SB and IEEE-Sight organized an introductory webinar on "Introduction to Robotics". The webinar was inaugurated in the presence of Dr Aarti Karande, Chair member of IEEE Sight, Prof (Dr). Vikas Gupta, HOD EXTC VCET and he briefed us about IEEE-SB activities and its importance for students. The webinar was conducted by Mr. Deepak Kumar Mandal, Co-founder at Edutrang Technology and Mr. Prashant Jaiswar, Co-founder at Edutrang Technology. Benefits of becoming sight member were explained by Dr Aarti Karande and Mr. Saurabh Soni briefed on the IEEE Sight project. In the session the speaker introduced us to the world of robotics and shared the knowledge related to robotics. From its making to production they explained us all. In automotive industries the robotics is used extensively as here robots are deployed for making production faster and cheaper. Brief information about the applications of robotics in military, domestic, packaging and medical industries was explained. Educational robots are used to learn and apply the knowledge of robotics. The participants got to learn about artificial intelligence and when it is applied with robotics what wonders can take place was shown. Robotics related to every domain were introduced and explained. All over it was an great opportunity for every student to learn all the things related to robotics and hence apply the knowledge in their projects. The webinar was concluded by a wonderful Q&A and it was ended on a thankful note!

267_Fundamentals of Embedded C

Academic Year 2021 /20 22

Title of Event: FUNDAMENTALS OF EMBEDDED - C 92

Date: 9th APRIL, 2022

Time:

Venue: VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY.

No. of Staff Present: 92

Faculty Incharge

HOD

Vidyavardhini's College of Engineering & Technology
Department of Electronics and Telecommunication

Report on Fundamentals of Embedded C

Event Name	Fundamentals of Embedded C
Centre (name)	IETE- SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	9th April, 2022
Important dignitaries attended	Mrs . Shaista Khanam, IETE Student forum incharge.
Brief Report including above information	On 9th April 2022; VCET's Electronic and telecommunication department in association with IETE- SF organized an informative webinar named " Fundamentals of Embedded C". In this workshop the participants were taught the basic fundamentals of Embedded C. The workshop was inaugurated at 11:00 am, it was conducted on Google Meet. The event was hosted by Sumant, IETE student body. Later on, Mr. Rajas Patil (Embedded Software Engineer, Faurecia Clarion Electronics) gave insights about Embedded C and its uses and spoke about its future aspects. Starting with the important aspects of C language Mr. Rajas Patil, explained us each and every point about the same and gave us a brief idea of what we are going to learn. After the brief description, Mr. Rajas Patil then introduced us about data types and explained the basic data types one by one . He described each and every step so well, the storage classes in C , the various functions, etc. He also made us aware about the common mistakes students do while performing the code . Mr. Rajas Patil then performed 3-4 codes on Online GDB Compiler. Mr. Rajas Patil also shared his interview experiences and gave us insights about the same . Then there was Question and Answer session. Mr. Rajas Patil answered every question briefly which was very informative and cleared the doubts of students. He also gave 2 assignments to students. After a great two hour session Sumant, IETE student body, had given the vote of thanks and appreciated Mr. Rajas Patil with kind words that he shared his wonderful knowledge and time with us. Everyone learned about different ideas and would look forward to apply it. So the webinar was all about learning, while being a sport!

Event name	Webinar on Emerging trends in Wireless Technology
Centre(name)	**IEEE-SB**
Venue(College/Institutions)	Vidyavardhini's College of Engineering and Technology
Date and time	18th April 2022.
Professors/Industry experts	Mr. Neil Sawant

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Brief report	The Department of Electronics and Telecommunications in association with IEEE-SB organized a Webinar on Emerging trends in Wireless Technology was conducted on 18th April 2022. This webinar shed light on how signals are being transmitted over the air. Students were made aware of the electromagnetic spectrum and how different frequencies are transmitted without interfering with each other. The webinar also talked about the numerous applications of wireless technology that are appearing each passing day. The webinar was concluded after a quick question and answer session. The guest who was speaking at this webinar was Mr. Neil Sawant (Founder of NUOS Home Automation and co-founder of NUOS Medtech). The event was successfully organized by the efforts of the entire IEEE committee.

Very best

very good initiative

It was great.

Excellent Session Thank you for arrangement

The session was very informative

No it's very informative

Not much

Excellent session

Really informative, The session really helped grasped about the actual situation about AI in today's time.

The session was so informative

Great

Excellent session with lots of knowledge

The session was very helpful

Everything is good

Pls take such session more

Best

Nope

nope

Session was good and and it only focus on the point that was suggested to be focused

It's was good

none

The session was very helpful

session is informative

no,

Great Session

Very Informative session,would like to attend more such webinars

Nothing from my side

It was good and enough to build my knowledge

excellent session, do more sessions for the same

It was a great session

Nothing! it was a great session.

It was good

Thank you for arranging such an informative session for us and letting us know something more special technology.

No

Na

It was a great session!

The session was nice. Very informative.

Everything was proper and in order so no complaints

It was great

Keep more sessions

Nice

Report on "Webinar on Modulation Techniques in Air Navigation"

Event name	Webinar on Modulation Techniques in Air Navigation
Centre(name)	**IEEE-SB**
Venue(College/Institutions)	Vidyavardhini's College of Engineering and Technology
Date and time	21st April, 2022.
Professors/Industry experts	Mr. Akshay Gaitonde

Brief report	Department of Electronics and Telecommunications in association with IEEE-SB organized the webinar on "Modulation Techniques in Air Navigation" which proved to be very useful as it made students aware about the modulation techniques that are currently being used. The speaker for the event was Mr. Akshay Gaitonde. He started explaining from the basic modulation techniques of amplitude and phase and frequency modulation and then moved on to the more difficult techniques such as Orthogonal phase shift keying and pulse width modulation. The webinar also shed light on how different techniques compare with each other. The webinar was a huge success. The webinar was successfully conducted with the constant efforts of the committee of IEEE.

270_STEM Ptoject

Academic Year 2021 /2022

Title of Event: IEEE - STEM PROJECT

Date: 15/08/2022, 21/08/2022

Time:

Venue: SETH VIDYA MANDIR ENGLISH HIGH SCHOOL, MG PARULEKAR SCHOOL.

No. of Staff Present: 116
स्टाफमेंबर्स

Faculty Incharge

HOD

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Report on "Stem Project"

Event name	Stem project
Centre(name)	**IEEE-SB**
Venue(College/Institutions)	Dr. M.G. Parulekar School, Sheth Vidya Mandir English High School.
Date and time	15th March 2022, 21st of March 2022

Brief report	Stem project was an event which was organized by the IEEE committee on 15th and 21st of March 2022. The goal behind the Stem Project is to make young school students aware of the electronics engineering branch. For this Stem Project, students made ten easy-to-understand experiments using a simple PCB board and led, potentiometer, etc. students were given hands-on experience with the basic knowledge about conductivity and conversion of mechanical energy to electrical, etc. For the conduction of this event students from the IEEE committee went to two different schools for showcasing of the projects. Students from those schools were taught

	about the working of basic Electronics projects. The atmosphere was filled with keen eyes who were eager to learn about those circuits and projects. The Stem Project was conducted under the guidance of Mrs. Shaista Khanam(Asst. Professor, VCET), Mrs. Trupti Shah(Asst. Professor, VCET), Dr. Sunayana Jadhav(Ph.D. in Electronics Engg, VJTI, Mumbai) and Dr. Amrita Ruperee(Ph.D. in wireless communication SNDT, Mumbai) and all the members of the IEEE committee. The event was a huge hit due to the continuous efforts put in by the IEEE members and professors.

271_Arduino Workshop

Academic Year 20 /20

Title of Event: ARDUINO WORKSHOP

Date: 4|03|2022 ~ 7|03|2022

Time:

Venue: VGET /COMPUTER LAB

No. of ~~Staff~~ Students Present: (70)

Faculty Incharge

HOD

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Report on "Arduino Workshop"

Event Name	Arduino Workshop
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	1st -3rd Feb,2021 2.00-4.00pm
Chief Guest	Prof. Shaista Khanam (Asst. Prof,VCET)
Topic of Chief Guest	The topic was based on Arduino and its programming and how the students can make various interesting projects out of it.
Important dignitaries attended	

Brief Report	A Three Day workshop on Arduino was organized by the VCET's Department of Electronics & Telecommunication Engineering in association with IEEE-SB from 1st-3rd February,2021 from 2:00 -4:00 pm . The workshop was organized for Second Year students.The main objective of this workshop was to provide the fundamental knowledge of Arduino Programming . The topics covered in the workshop include – Hardware and Software Programming. The outcome of the workshop was to brush our skills on arduino as well as its simulator. This informative workshop was taken by Prof.Shaista Khanam (Asst.professor,VCET). On the first day, Prof.Shaista Khanam started the event workshop by giving a brief description of the components which will be used during the workshop along with the basic coding required for coding Arduino UNO .On second day we got to know How to use the Arduino IDE (Integrated Development Environment),Powering and connecting your Arduino to your computer and Uploading programs to your Arduino board. By the end of the third day students had in-depth knowledge of arduino and hence were able to technically know how to work with arduino and its application in various domains of the present technological era. During the session of three days , the students were given an insight into Introduction to Open Source platform system tools, Interfacing of I/O devices, LEDs, Switch, Buzzer. The students were also taught about Interfacing of Display Devices. With the help of this workshop, IEEE -SB has tried to instill a basic knowledge of Arduino on students which will be very useful to them for their future projects.

REPORT workshop on "Ultimate guide to FPGA design flow."

Event Name	Workshop on "Ultimate guide to FPGA design flow."
Centre (name)	IETE-SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	24th, 25th, 28th February 2022, 2.00pm onwards
Chief Guest	Mr. Shailendra Kadre, (Digital Transformation and Machine Learning Lead Data Analyst, HP Inc, Bangalore)
Highlights of Workshop	The workshop was all about learning the verilog language and its implementation on an FPGA board.
Important lecturers for the workshop	Dr. Sunayana Jadhav (Assistant Professor and IEEE-SB in charge, EXTC,VCET), Ms. Shaista Khanam (Assistant Professor and IETE-SF in charge, EXTC,VCET), Ms. Trupti Shah (Assistant Professor, EXTC,VCET), Ms. Ekta Naik (Assistant Professor, EXTC,VCET).
Brief Report including above information	VCET's Electronics and Telecommunications department in association with IETE-SF of VCET organized a workshop on "Ultimate guide to FPGA design flow". The workshop was a three day event full of curiosity and excitement for the students to learn and build something using new technology. On 24th February 2022 (1st day of workshop) was introduced by the introduction of FPGA, its importance, usage, benefits, advantages and its role in today's upcoming technology. The lecturer also covered the points of why verilog is mostly preferred as a language to program FPGA boards. Later, as the workshop continued the students got to know various tools necessary for the FPGA programming. Also, the interface of the Xilinx software was explained. On 25th February 2022 (2nd day of workshop), the day was

followed by some verilog code writing. The lecturer also explained the difference between the VHDL code and the verilog code. Some verilog codes like 2-bit adder, 4-bit adder, 2-bit mux, etc, were implemented on Xilinx software, providing a hands-on session to the students. Students were also provided with an assignment to perform decoder on Xilinx on their own. The workshop had become exciting as there were challenging programming codes that needed to be implemented.

On 28th February 2022 (3rd day of workshop), as the students had got the knowledge of writing and implementing the code on Xilinx software, now it was turn to learn about its implementation on the actual FPGA board. On the last day of the workshop, there was a hands-on session of implementing codes on an FPGA board i.e ALBERT V2 Spartan 3A. Students were hyped up on the last day of the workshop as it was a fun time playing and learning about the board. The lecturer also explained about the FSM for building a model using an FPGA with various examples like soda vending machines. The workshop was concluded by giving an assignment to the students to perform 4-bit ALU on the FPGA board.

Report on "OSCILLATIONS'22 INAUGURATION- IN

TRODUCTION TO MACHINE LEARNING & IT'S INDUSTRY APPLICATIONS"

Event Name	OSCILLATIONS'22 INAUGURATION - INTRODUCTION TO MACHINE LEARNING & IT'S INDUSTRY APPLICATIONS
Centre (name)	IETE Mumbai Centre, IETE-SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	18th February 2022, 4.00pm
Chief Guest	Mr. Shailendra Kadre, (Digital Transformation and Machine Learning Lead Data Analyst, HP Inc, Bangalore)
Topic of Chief Guest Speech & Highlights.	The speakers gave an impressive insight on Machine Learning and its industrial applications.
Important dignitaries attended	Dr. Harish Vankudre, Principal VCET, Dr. Vikas Gupta (HOD EXTC), Mr. Parag Walinjkar, Chairman, IETE Mumbai Centre
Brief Report including above information	On 18th February 2022; VCET's Electronics and Telecommunications department in association with IETE Mumbai Centre and IETE-SF of VCET organized "Inauguration ceremony for Oscillations'22" followed by a Technical Lecture on "**Introduction to machine learning and its industry applications**". Oscillations-2022 was inaugurated at 4:00 pm. It was conducted on Zoom online platform. The event was hosted by Samriddhi Dubey, Deputy Secretary of IETE Student body and Omkar Salunkhe, President of IETE Student body of our college. The event started following our holy tradition of worshipping our Goddess Saraswati and dedicating a prayer in her respect. Later, on Dr. Harish Vankudre, Principal VCET, he spoke and encouraged student participation after that Dr. Vikas Gupta, HOD Electronics and Telecommunication spoke about future aspects in research field and encouraged students to participate in same. Ms. Shaista Khanam , IETE-SF in charge also welcomed everyone with her kind words and gave insights about Oscillations. Our Chief Guest for the event was Mr. Shailendra Kadre, Digital Transformation and Machine Learning Lead Data Analyst, HP Inc, Bangalore, enlightened us with wise words and started the technical lecture. Mr.

Parag Walinjkar, IETE Mumbai Centre was also present with us and gave Mr. Shailendra Kadre Sir a humble appreciation.

The technical lecture started with the history of Machine learning and its literature review and research works in different fields. Mr. Shailendra Kadre beautifully explained how machine learning is not only related with only science and technology but also with a versatile aspects of life. Then he stated why machine learning is important and which are the affiliated machine languages will help us in learning the same. One can observe a great simplicity and understanding in problem statement and its explanation delivery by Mr. Shailendra Kadre Sir which showed his professionalism in this field. Further with real life examples and industrial applications of ML, the whole lecture went like a journey. The event was concluded with a QnA session where Sir covered all the doubts of the students and faculties and left a mark of knowledge and curiosity to us.

After a great two hour session, Dr. Harish Vankudre thanked Mr. Shailendra Kadre and asked for further association with us, after that Dr. Vikas Gupta with their kind words appreciated Mr. Shailendra Kadre that he shared their wonderful piece of knowledge with us. Vote of thanks was given by Ms. Shaista Khanam, IETE-SF in charge for making this precious occasion memorable. Everyone learned about a new idea which will surely help us not only in our academic life but also in our career.

Department of Electronics and Telecommunication Engineering

REPORT workshop on "LEARN WITH OCTAVE"

Event Name	Workshop on "LEARN WITH OCTAVE"
Centre (name)	IETE-SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	11th February 2022, 2.00pm onwards
Chief Guest	Ms. Trupti Shah (Assistant Professor, EXTC,VCET)
Highlights of Workshop	The workshop was all about learning the octave basics as an alternative to matlab.
Important dignitaries for the workshop	Dr. Vikas Gupta (HOD EXTC), Dr. Sunayana Jadhav (Assistant Professor and IEEE-SB in charge, EXTC,VCET).
Brief Report including above information	On 11th February 2022; VCET's Electronics and Telecommunications department in association with IETE-SF organized an informative workshop named "LEARN WITH OCTAVE". In this event the participants were taught with the basics of OCTAVE- a highly advanced programming language. This workshop provided more knowledge about OCTAVE software, MATLAB and its simulation. The workshop was inaugurated at 2:00 pm, it was conducted on Google Meet. The event was hosted by Shraddha Kobnak, IETE student body. She warmly welcomed our HOD Dr. Vikas Gupta Sir and assistant professor Dr. Sunayana Ma'am. HOD Sir with their kind words greeted everyone and gave his wonderful piece of knowledge about Octave and its uses in industry. Later on, Ms. Trupti Shah, Assistant professor, VCET, gave insights about Octave software and cheerfully invited us to join her in this journey. Ms. Trupti Shah, then presented the outlines of this workshop which included a presentation on MS

powerpoint and a simulation on an online free software. She further started with the terms and basics such as what is MATLAB/OCTAVE? , MATLAB Screen, OCTAVE Screen, Variables, array, matrix, operators and display facilities which will help us in learning this programming language. After explaining all these, Ma'am simulated and showed us each of this on OCTAVE software. Later she taught us how to code and create programs on it and get desired outputs such as waveforms, matrices, pie diagrams and many more. In the end, Ms. Trupti Shah took an interactive session and asked us for our doubts and queries.

After a great two hour session, IETE Student Forum in charge Shaista ma'am appreciated the efforts of Ms. Trupti Shah that she shared their wonderful knowledge with us, the students of VCET. Vote of thanks was given by Samriddhi Dubey, Deputy Secretary of the IETE Student body of our college. Everyone learned about different ideas and would look forward to applying it. So the work was all about learning and developing skills, while being a sport!

HOD

Report of webinar on "SCOPE OF EMBEDDED SYSTEM AND ITS REAL LIFE APPLICATIONS"

Event Name	SCOPE OF EMBEDDED SYSTEM AND ITS REAL LIFE APPLICATIONS
Centre (name)	**IETE -SF**
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	1st February 2022
Chief Guest	Mr.Rajas Patil (Embedded Software Engineer, Faurecia Clarion Electronics)
Topic of Chief Guest Speech	Mr. Rajas Patil gave some impressive insights of Embedded systems, Microcontrollers and Microprocessors .This webinar provided more knowledge about Arduino and Embedded C language.
Important dignitaries attended	-
Brief Report including above information	Center: IETE -SF Date: 1st FEBRUARY 2022 Chief Guest: Mr. Rajas Patil On 1st February 2022;VCET's Electronic and Telecommunications department in association with IETE-SF on the occasion of IETE Day-2022 organized an informative webinar event named "Scope of Embedded systems for real life applications". In this event the participants were taught with the basics of Embedded systems, Microcontrollers and Microprocessors .This webinar provided a more knowledge about Arduinos and Embedded C language. The webinar was inaugurated at 2:00 pm, it was conducted on Google Meet. The event was hosted by Chandan Thakur, IETE student body. Later, on Mr. Rajas Patil, Embedded Software Engineer, Faurecia Clarion Electronics gave insights about Embedded Systems and gave introduction about Microcomputers. He further explained various communication protocols

such as USBs,I2Cs,SPI,Can bus and UART.Also in the session, he elaborated about uses of Embedded systems such as microcontrollers, microprocessors and SOCs in various fields such as AI & ML, Smart health, Aerospace ,Robotics, Smart transports and infotainment sectors.

Later in the session, Mr. Rajas Patil taught how these Embedded systems are made with the help of some key factors and he also elaborated the differences between Microcontrollers and Microprocessors. The importance of C Language was beautifully taught by Mr. Rajas Patil Sir that how this language play a prominent role in these Embedded Systems.

In the end, Mr. Rajas Patil took a quiz regarding the event and a quick QnA session. He also showed us a real Embedded system which he and his colleagues made and explained various features and insights it carries. Mr. Rajas Patil Sir shared his personal experiences and gave suggestions to us, the students of VCET which will surely help us in our academics as well as in our career.

After a great two hour session, IETE Student Forum incharge Shaista ma'am with her kind words appreciated Mr. Rajas Patil that he shared their wonderful knowledge . Vote of thanks was given by Chandan Thakur, IETE student body for making this precious occasion of IETE day-2022 memorable. Everyone learned about different ideas and would look forward to apply it. So the webinar was all about learning, while being a sport!

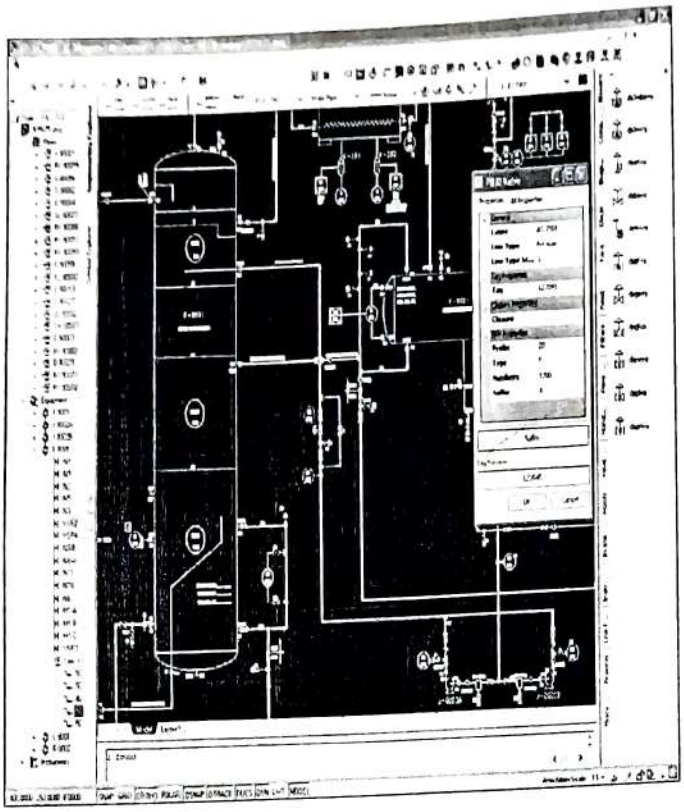
Internship Programme on AVEVA P&ID Report

277_Internship for Third year students on AVEVA P&ID software



AVEVA P&ID: .An Intelligent, AutoCAD-based P&ID Design Application

AVEVA P&ID is a P&ID drafting program that enables users to create intelligent, project-wide data as the P&ID is designed, using the familiar AutoCAD drafting system. It enables a wide range of documents (drawings, isolation, reports, list …) to be generated.

AVEVA P&ID is suitable for basic and detailed engineering, for EPCs and Owner Operators. AVEVA P&ID has been used in the development of many projects worldwide, in all Plant and Marine sectors including nuclear.

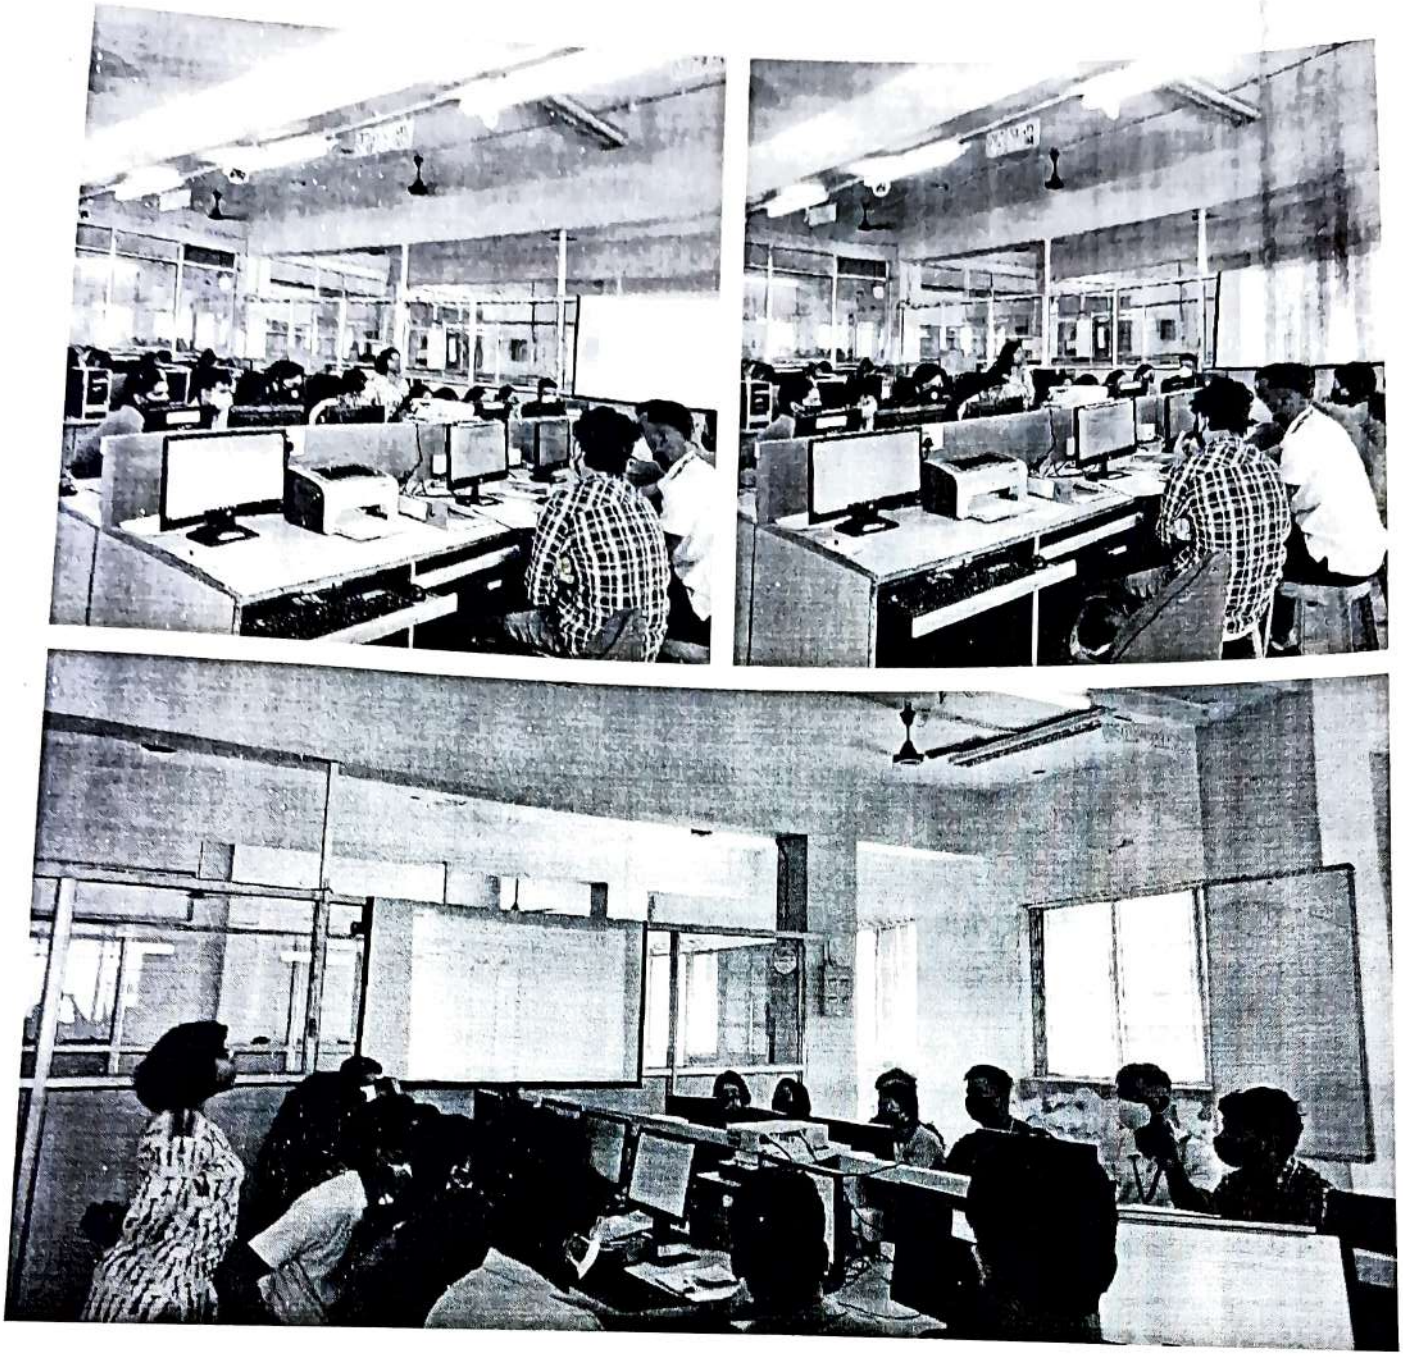
AVEVA P&ID Application Software includes following three modules:

1) AVEVA P&ID Administration
2) AVEVA P&ID User
3) AVEVA P&ID Report

Total 19 Students registered and attended this internship programee from 06-12-2021 to 17-12-2021.

In the starting students were introduced to AVEVA P&ID and AVEVA Instrumentation software modules by Dr. Deepak Gawali. In the beginning students were introduced to AVEVA P&ID Administrator module and then students asked to implement P&ID by following the steps given in AVEVA P&ID User manual.

Microsoft Excel is one of the vital tool for Design Engineering. This module was covered by Ms.Deepti Patne. Basic Excel Features and formulas were discussed. Students were asked to do various exercises based on it.



AVEVA is an instrumentation documentation software for industrial projects. The students were introduced to concepts of instrumentation symbols and standards such as ISA and SAMA which are helpful in developing P&ID diagrams, loop diagrams, etc. using the AVEVA modules. The students developed flow and temperature loop diagrams along with tag names and numbers. The students were introduced to various project deliverables which need to be prepared for industrial projects.

The students attempted a quiz at the end of the session where they were able to analyze their understanding of the symbols and standards used in the industry. The correct answers were discussed with the students and they enjoyed doing it.

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
K. T. Marg, Vasai Road (West), Dist.- Palghar, Maharashtra

CERTIFICATE OF COMPLETION

This is to certify that

Kalpesh S. Jalora

Has successfully completed **Two Weeks Internship** on

Instrumentations for Project Industry

from 6th December, 2021 to 17th December, 2021. Organized by Industry Institute Interaction Cell in association with AVEVA Center of Excellence at Vidyavardhini's College of Engineering and Technology

Prof. Prafulla Patil
IIIC Coordinator

Dr. Harish Vankudre
Principal

278_Expert Lecture on "Application of GC, HPLC and UPLC in Industry and Career Opportunities in Analytical Instrumentation"

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Expert Lecture on "Application of GC, HPLC and UPLC in Industry and Career Opportunities in Analytical Instrumentation"
Seminar /Visit conducted by	Mr. Aditya Tarphe,Instrumentation Engineer in Zelle Biotechnology Pvt. Ltd.
Seminar /Visit Organized by	Ms.Mugdha Salvi
Date and Timing	14-10-21
Seminar /Visit for SE/TE/BE/faculty	SE TE BE
No students /faculty attended	126
Topics covered/visit Summary	Application of different analyzers Application of GC,HPLC and UPLC in different industry Challenges of using different analyzer Career sector in Analyser sector Abroad opportunities for Analyser sector

279_Expert Lecture on "Biomedical Instrumentation: Current trends and Career Opportunities in India

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Expert Lecture on Biomedical Instrumentation
Seminar conducted by	Mr. Tarun Nair
Seminar Organised by	ISA-VCET Students' Chapter
Date and Timing	14-10-2021, 2.00 to 4.00pm
Seminar for	BE students
No students attended	126
Topics covered	Various opportunities that await in the field along with advancements in the field. Insights needed to make a sound career in this field. Lecture ended with a very interactive Q&A session. 
Mrs. Mugdha Salvi
Faculty Advisor, VCET-ISA Students' Chapter

Vidyavardhini's College of Engineering & Technology

280_seminar on “Flow Transmitters for Process Industry"

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Seminar on "FLOW TRANSMITTER FOR PROCESS INDUSTRIES"
Seminar /Visit conducted by	MR.HEMAL DESAI,Vice President (ENDRESS+HAUSER)
Seminar /Visit Organized by	Mrs.Deepti Patne
Date and Timing	12/8//21 at 3.00pm
Seminar /Visit for SE/TE/BE/faculty	BE+TE students
No students /faculty attended	74
Topics covered/visit Summary	1.Flow transmitter types 2.flow transmitter application according to industry 3.job opportunities in instrumentation. 4.Job opportunities especially in Sales in instrumentation.

Deepti

281_seminar “Mechatronics for Instrumentation”

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Seminar on MECHATRONICS FOR INSTRUMENTATION"
Seminar /Visit conducted by	MR.NAVEEN CHAGANTI ,Senior Data Engineer at Databricks AND NISHANT KAKU,Software Architect at Leonberg
Seminar /Visit Organised by	Mrs.Deepti Patne
Date and Timing	28/7/21 at 9.00am
Seminar /Visit for SE/TE/BE/faculty	TE students
No students /faculty attended	42
Topics covered/visit Summary	1.Role of Mechatronics in todays era. 2.emedded system and automation 3.job opportunities in this area 4.journey of speaker after graaduation

Ms.Deepti Patne
Asst.prof.
Instrumentation Department

282_Seminar on Functional Safety

Seminar on Safety by M on 21/0

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic	Seminar on Functional Safety
Seminar conducted by	Mr. Lalit S. Shaiwale, FS Trainer under TVC Functional Safety Services
Seminar Organised by	ISA-VCET Students' Chapter
Date and Timing	21-04-2022, 2.00 to 4.00pm
Seminar for	BE and TE students
No students attended	52
Topics covered	Mr. Lalit spoke about various topics like applicable Functional Safety Standards and their environments, Hazard identification and Risk assessment, importance of Safety requirement speciation, importance of Proof testing, etc. He also discussed other such topics which are included in the basic Functional Safety. 
Mrs. Mugdha Salvi
Faculty Advisor, VCET-ISA Students' Chapter

283_Software Engineering, industry approach of the subject and practical knowhow of Scrum and Kanban

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year 2021-22

11/08/2021

Report on Expert talk: Software Engineering...industry approach of the subject and practical knowhow of Scrum and Kanban

Date: 11-08-2021

Time: 12.00 – 01.00 pm

Speaker: Mr. Nilesh Jain. Founder – Techustaads Pro Learing.

Organized by: Department of Computer Engineering

The session began with a brief introduction by Mr. Vikrant A. Agaskar

The key points discussed in the talk were:

1. Industrial approach of Agile Process Model
2. Implementation of Scrum in industries
3. Implementation of Kanban in industries

The talk was followed by a question-answer session steered by Mr. Nilesh Jain.

The workshop was attended by 52 students

Prepared by.

Mr. Vikrant A. Agaskar
Asst. Professor,
Department of Computer Engineering

Dr. Megha Trivedi
Head, Department of Computer Engineering

Speaker Student interaction

Speaker presenting on google meet.

284_Undertaking literature review

Report on Seminar

Literature Review

Date: 28th October, 2021

Time: 11:30 am

Speaker: Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Types of Projects
2. Types of Research Papers
3. Conducting Review of Literature
4. Documenting your Review findings
5. Sources of Research Paper

The seminar was attend by 60 students and all the faculty member of the department.

Prepared by

Dr. Tatwadarshi P. N.

285_Seminar on "DynamoDB"

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2021-22

Report on Delivery of Content Beyond Syllabus

Class: TE/V **Date of Conduction: 14/10/2021**

Course Name: Advanced Database Management System **Course Code: CSDLO5013**

Gap Identified: DynamoDB is not covered in the syllabus

Relevance to POs, PSOs: PO1,PO3,PO5,PO12,PSO1,PSO2

Action Taken: Expert Lecture on DynamoDB

Resource Person: Mr. Yogesh Jadhav, Adjunct Faculty ,School of Data Science and Business Intelligence, Mumbai

Description:

The key points discussed in the lecture were:

- Database Technology
- Top NOSQL databases
- Amazon DynamoDB
- Redis

A Lecture was attended by 54 students.

Outcome: Students have learned that AWS customers have chosen DynamoDB as their key-value and document database for mobile, web, gaming, ad tech, IoT, and other applications that need low-latency data access at any scale. Redis offers purpose-built in-memory data structures and operators to manage real-time geospatial data at scale and speed.

286_Seminar on "Importance of coding in placements"

BitByteGo Committee
Computer Department of VCET

A report on
A seminar on "Importance of coding in placements"

09/10/2021

Summary:
The BitByteGo committee of the Computer Department of Vidyavardhini's College of Engineering and Technology had organised a seminar on "Importance of coding in placements" under the guidance of Mrs. Swapna Borde and Dr. Megha Trivedi on 09/10/2021. This seminar was held in online mode on google meet.

The seminar was based on the experience of the three BE Computer Engineering students who were placed at Interactive Brokers as Software developers. The aim was to prepare the students of SE and TE for interviews and show them the correct path to develop skills that are required in the current software industry.

Date and Venue:
09/10/2021
Online Mode.

Speaker:
Mr. Rithwik Vedapathak (BE Computer Engineering)
Ms. Neha Sah (BE Computer Engineering)
Mr. Abhishek Bhingle (BE Computer Engineering)

Contents:
1) Interview experiences of each speaker
2) Importance of DSA
3) Importance of relevant projects
4) Building relevant resume
5) Q&A

Participants:
There were over 100 students who attended the seminar in the online mode.

BitByteGo Coordinator: Mrs. Swapna Borde

287_Seminar on "Coding Skills"

BitByteGo Committee
Computer Department of VCET

A report on
A seminar on "Coding skills"

09/09/2021

Summary:
The BitByteGo committee of the Computer Department of Vidyavardhini's College of Engineering and Technology had organised a seminar on "Coding Skills: Competitive Programming on Codechef" under the guidance of Mrs. Swapna Borde and Dr. Megha Trivedi on 09/09/2021. This seminar was held in online mode on google meet.

The seminar was based on one of the most important aspects of programming i.e. Data Structures and Algorithms, and Competitive Programming. Three speakers had delivered a speech on various topics related to the theme of the seminar. The speakers were successful in fulfilling the agenda of the seminar. The seminar was targeted to the SE and TE level computer and IT engineering students. It began at the expected time and was summed up within the given time period.

Date and Venue:
09/09/2021
Online Mode.

Speaker:
Mr. Saumya Parikh (BE Computer Engineering)
Ms. Rachna Pandey (BE Computer Engineering)
Mr. Sharvin Dedhia (TE Computer Engineering)

Contents:
1) Count sort Algorithm
2) Graph theory based algorithm
3) Binary Search
4) Kadane's Algorithm
5) Selection Sort
6) 3 Past codechef contest questions

Participants:
There were over 100 students who attended the seminar in the online mode.

BitByteGo Coordinator: Mrs. Swapna Borde

288_Seminar on "Research Paper Writing and Referencing Tools: An Overview"

Vidyavardhini's College of Engineering & Technology
Department of Computer Engineering

Report on Seminar

Research Paper Writing and Referencing Tools: An Overview

Date: 27th August, 2021

Time: 2:00 pm

Speaker: Dr. Shafi Pathan, Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Types of Research Papers
2. Components of Review paper
3. Components of Implementations paper
4. Review, Proposed System and Implemented Research paper examples
5. Presenting and Publishing guidelines
6. Downloading, installing and configuring Mendeley tool
7. Highlighting and Referencing using the Mendeley tool

The seminar was attend by 60 students and all the faculty member of the department.

Prepared by

Dr. Tatwadarshi P. N.

289_Seminar on "Competitive Coding Strategies"

Vidyavardhini's College of Engineering & Technology
Department Of Computer Enineering
Academic Year 2021-22

Report on Webinar : Competitive Coding Strategies and its Importance

Date:-13/8/2021

Time:-2 to 3pm

Speaker:-Ms. Najiba Halim

Organized by:-Department of Computer Engineering

The webinar started with a general welcome to all the attendees. Then a brief description on the topic of Coding was explained by the host Pritish Mair followed by the introduction to the speaker of the webinar , Ms Najiba Halim

Ms Najiba halim started her presentation by illustrating the platform of codechef. Tricks and tips on codechef and basic code submission was explained by her. Then she went on to illustrate the other platforms of hackerrank and hackerearth while stating the differences in each of them and its usage. General other platforms and competitions crucial to a software engineer were shown by her. And she finished her presentation by explaining the platform of pramp which is an online interview preparation website.Pritish then ended the webinar by giving a vote of thanks to the speaker and the meeting organizer.

Webinar was attended by 23 students

Prepared by:

Dr.Swapna Borde

290_Refresher Course

Report on

Refresher Course

Date: 1st to 5th August, 2021

Time: 2 – 9 PM

Speaker: Smita Jawale, Sneha Mhatre and Tatwadarshi P. N.

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

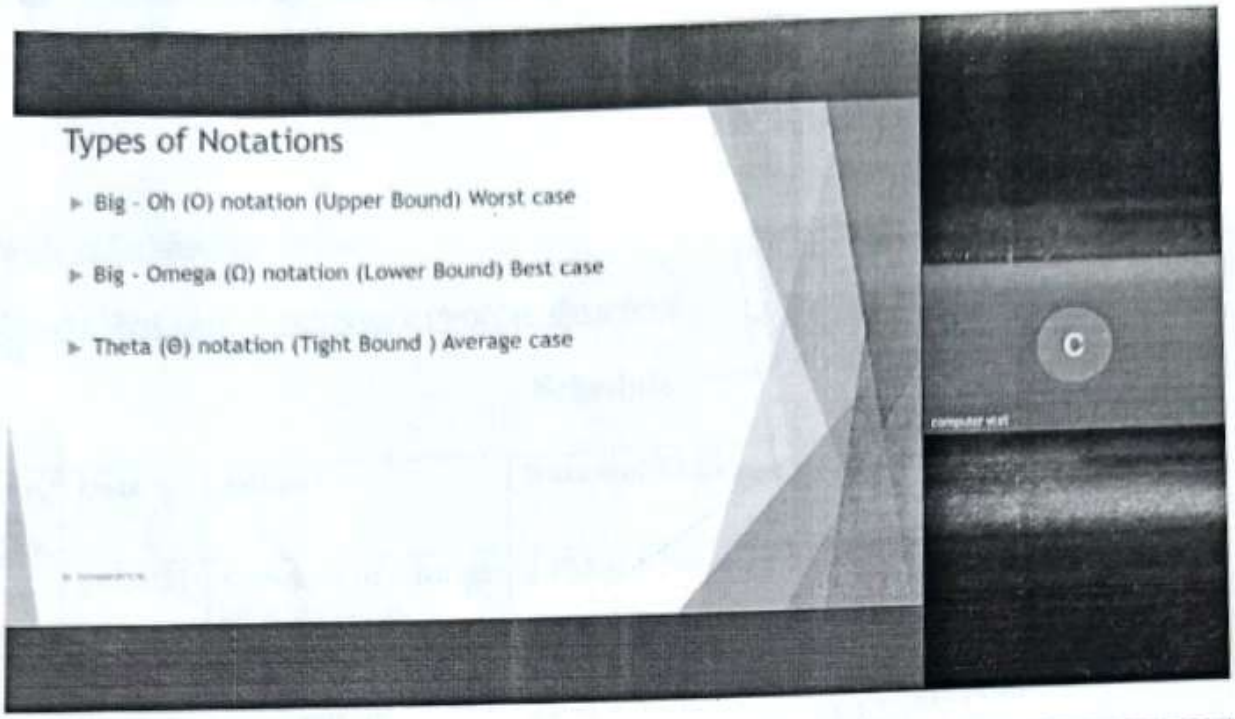
Refresher course on the following subject were taken

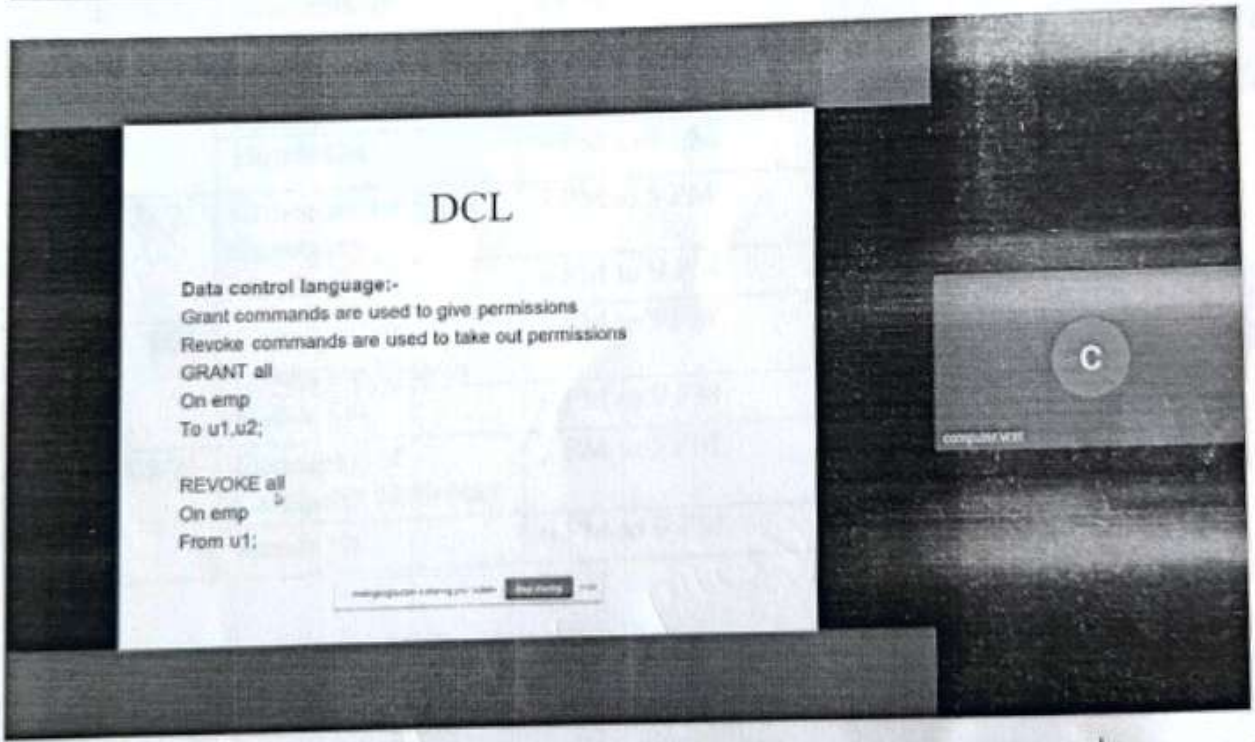
1. Analysis of Algorithm
2. Database Management System
3. Data Structures
4. Operating System
5. Computer Networks

The Refresher course was attend by all the students of the BE class.

Prepared by

Dr. Tatwadarshi P. N.





Speaker presenting on google meet.

291_Workshop on Full Stack Development

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2021-22

17/07/2021

Workshop on Full Stack Development

Date: 15/7/2021 to 17/7/2021

Time: 10.15 am - 11.15 am

Speaker: Ms.Najiba Halim(Alumni) , Senior Software Engineer, Cimpress, India

Organized by: Department of Computer Engineering

Workshop Objectives:-

1) To introduce students with the basics of Web Development using React

2) To orient students with the API development using node.js

3) To expose students to node.js applications using express framework.

The session began with a brief introduction by Ms.Sakshi Mhatre

Following topics were covered for the Full Stack Development with demonstration of programming implementation.

1)Web development using React

Introduction, Components of React, JSX props and state, Event handling and Bindings, Styling Using Refs, Understanding lifecycle, Using Higher order components (HOC), Context, HTTP

2)API development using Nodejs

Introduction and setting up the server, Understanding API structure and JSON, Setting up database server (MySql or MongoDB) Optional, Request and response, Structuring controller and services, Best practices and using design patterns, node.js applications using express framework.

3) API testing

Material of Full Stack Development (Shared by Ms. Najiba with the students)

1) https://github.com/najibahalim/post

292_Seminar on "Literature Review"

Vidyavardhini's College of Engineering & Technology
Department of Computer Engineering

Report on Seminar

Literature Review

Date: 31st May, 2022

Time: 3 PM

Speaker: Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Department of Computer Engineering, VCET

Key points shared with students among others include:

1. Types of Projects
2. Types of Research Papers
3. Conducting Review of Literature
4. Documenting your Review findings
5. Sources of Research Paper

The seminar was attend by 54 students and the faculty members of the department.

Prepared by

Dr. Tatwadarshi P. N.

AY: 2021-22

Report on Guest Lecture 293_Seminar on "Hypothesis Testing"

Hypothesis Testing

Date: 12th April, 2022

Time: 11AM – 1 PM

Speaker: Dr. Teena Trivedi, Assistant Professor, Universal College of Engineering

Organized by: Computer Engineering Department, VCET

Mode: Google Meet, Students were offline

Few important points covered in the Guest Lecture were

1. Importance of Hypothesis testing
2. Techniques for testing
3. One tailed and Two tailed test
4. Simple and Composite hypothesis

The Guest Lecture was attend by 28 students of the TE class.

Prepared by

294_Webinar on "Augmenting Non-Functional Requirements of Projects"

CSI-VCET

Vidyavardhini's College Of Engineering & Technology, Vasai(w)

Report On Webinar 2021-22

Augmenting Non-Functional Requirements of Projects

The CSI committee of Vidyavardhini's College of Engineering and Technology has been a proud host of many technologically intriguing events and activities. It was back with a virtual seminar on 7th April 2022 on 'Augmenting Non-Functional Requirements of Projects' at Vidyavardhini's College of Engineering and Technology. The event was conducted on Google Meet. There were 110 participants.

Objective:
Non-functional requirements are the criteria for evaluating how a software system should perform and a software system must have attributes in order to meet non-functional requirements.

Speaker's profile:
Mr. Prasad Padalkar ,is an Assistant Professor of DBIT , Lead Auditor ISO 27001:2013

Success:
Our honorable guest speaker Mr. Prasad Padalkar gave an explanation about the topic and explained to the students about it.It has an interactive session students put forward their queries and our speaker guided them. The webinar was conducted through google meet and received an overwhelming response.

Conclusion:
Webinars like these prove to be an amazing opportunity to adapt oneself to the changing contours of education in a technology-driven society.
Thus, like always the event proved to be a triumph for the department.

295_Seminar on "Demonstration of Database Connectivity"

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year : 2021-22

30/03/2022

Report on an Expert lecture and Hands-on session on "Demonstration of Database Connectivity"

Date: 30th March, 2022

Time: 2 PM to 4 PM

Speaker: Ms. Deepali Patil and Ms. Aarti Patil, Assistant Professor, Dept of Information Technology, SLRCTE, Mira Rd.

The session began with a brief introduction by Mrs. Smita Jawale

The key points discussed in the session were:

1. Steps to install Tkinter
2. Python GUI connectivity
3. Steps to create database table
4. How to create form
5. Steps to do connectivity with database

The workshop was attended by 70 students

Prepared by

Ms. Smita Jawale

296_Seminar on "Natural Language Processing"

Vidyavardhini's College of Engineering & Technology
Department of Computer Engineering

Report on Guest Lecture

Natural Language Processing

Date: 11th March, 2022

Time: 3 – 5 PM

Speaker: Mr. Sachin Pawar Scientist at TCS and Nitin Ramrakhiyani Scientist at TRDC, TCS

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

Few important points covered in the Guest Lecture were

1. Introduction to NLP
2. Importance and Challenges
3. Binomial Naïve Bayes
4. Word Embedding
5. BERT
6. Zero Shot Learning

The Guest Lecture was attend by 71 students of the BE class.

Guest Lecture on
"DevOps and Advance DevOps Lab"

Date / Time	25th September 2021 2:00 pm to 5:00 pm
Venue/Platform	Google Meet
Speaker	Dr. Bhushan Jadhav, Assistant Professor, TSEC
Coordinators	Mr. Chandan Kolvankar and Mr. Yogesh Pingle, INFT
Target Audience	TE-IT
Objectives of this Guest Lecture	• Understand the concepts of DevOps Lifecycle • Understand the operations of Jenkins Pipeline tool. • Recognize the difference between Ansible and Puppet • Understand the operations of Terraform tool and AWS Lambda
No. of attendees	72
Points Discussed in the session	This session was organized to give hands on experience on DevOps Tools Following points were demonstrated in session • Working of DevOps Life Cycle • Jenkins installation • Jenkins Pipeline and Master Slave Configuration • Terraform installation in AWS and AWS Lambda Application Queries of the students were also addressed by the speaker.

298_Guest Lecture on " Backend-Frontend Development"

Guest Lecture on "Backend-Frontend Development"

Date / Time	22nd September 2021 2:00 pm to 4:00 pm
Venue/Platform	Google Meet
Speaker	Mr. Sanmesh Sankhe, Mainframe Developer, DXC Technology Ms. Sweta Mishra, Java Developer, Barclays
Coordinators	Ms. Vaishali Shirsath, INFT
Target Audience	SE-IT
Objectives of this Guest Lecture	• Understand the concepts of Frontend Languages • Understand the operations of Different tools for frontend development. • Understand the concept of Connectivity between Frontend and Backend
No. of attendees	63
Points Discussed in the session	This session was organized to give the knowledge and experience on Backend Developments Tools Following points were discussed in session • Working of AS 400 • Control Language • Development in Corporate • Spring Framework, Spring Boot • NoSql databases, JSON Database Queries of the students were also addressed by the speaker.

Guest Lecture on

"Latest Technologies in Network and Web Security"

Date / Time	18th September 2021 10.00 am to 12.00 pm
Platform	Google Meet
Speaker	Mr. Prathamesh Karambe, Security Operations Centre Analyst, Infosys Ltd.
Coordinators	Dr. Archana Ekbote, Assist. Prof. IT, VCET Mrs. Bharati Gondhalekar, Assist. Prof. IT, VCET
Objectives	• To update students related to latest tools used in industry for Network and Web Security
No. of attendees	96 (TEIT=65 , BEIT=31)
Points Discussed in the Seminar	This session was organized to give awareness to students regarding " Latest Technologies in Network and Web Security". Following points were elaborated in the session • Active and Passive attacks • Countermeasures • Tools • Certifications available online Queries of the students were also addressed by the speaker.

One day Workshop on "React: A project based approach"

Date / Time	2nd June, 2022 9:00 am to 5:00 pm
Venue/Platform	Room number 223
Speaker	Mr. Swapnil Mistry, Senior React developer, Dream11
Coordinators	Mr. Chandan Kolvankar, INFT
Target Audience	TE-IT
Objectives of this Guest Lecture	• To orient students towards professional application development using React • To expose students to React coding best practices • To expose students to application deployment
No. of attendees	16
Points Discussed in the session	This session was organized to give hands on experience on React Following points were demonstrated in session • To implement application packaging using webpack • To deploy React application on nginix • To code using best practices Queries of the students were also addressed by the speaker.

301_Guest Lecture on "Implementing Recommendation System using PYTHON"

Guest Lecture on "Implementing Recommendation System using Python"

Date / Time	19th April, 2022 11.15 am to 1.15 pm
Venue/Platform	Google Meet
Speaker	Dr. Nilesh Patil, Associate Professor, D J Sanghavi COE
Coordinator	Ms. Vaishali Shirsath, AP, IT Dept., VCET Ms. Anagha Patil, AP, IT Dept., VCET Ms. Swati Varma, AP, IT Dept., VCET
Target audience	Students of T.E IT and B.E IT
No. of attendees	88
Objectives	1) To understand the concepts of recommendation system and types. 2) To implement movie recommendation system using python. 3) To implement customer segmentation. 4) To solve queries of students
Points discussed in the session	This guest lecture was organized on the topic "Implementing Recommendation System using Python". The speaker explained the concepts like recommendation system, it's types, customer segmentation. He selected the dataset of movie recommendation and explained how to implement it using Python. He then implemented the concept of customer segmentation. The session was interactive where in the speaker solved all the queries of the students.

302_Guest Lecture on "Emerging Trends in Wireless Technology"

Guest Lecture on
"Emerging Trends in Wireless Technology"

Date / Time	18th April 2022 4:00 pm to 5:00 pm
Venue/Platform	Online: Google meetlink: https://meet.google.com/gfy-yaoi-iam
Speaker	Mr. Neil Savant, Founder-NUOS Home Automation
Coordinators	Dr. Archana Ekbote INFT
Target Audience	TE-IT
Objectives of this Guest Lecture	• Understand the basics of Wireless Sensor Network • Understand the concept of LORA-WAN • Understand the new technology in wireless Network
No. of attendees	42
Points Discussed in the session	• NUOS Home Automation • Technologies available for smart home • How sensor Network works • Retail Automation Queries of the students were also addressed by the speaker.

303_Expert Lecture on "Python Programming"

Expert Lecture on "Python Programming"

Date / Time	11th April 2022 2:00 pm to 5:00 pm
Venue/Platform	Room No 416
Speaker	Mr. Yogesh Pingle, Assistant Professor, VCET
Coordinators	Mrs. Vaishali Shirsath INFT
Target Audience	SE-IT
Objectives of this Guest Lecture	• Understand the concepts of Object-Oriented Programming • Understand the concept of Multithreading. • Understand the different GUI tools (TKinter, PyQt) • Understand the operations of File handling
No. of attendees	52
Points Discussed in the session	This session was organized to give hands on experience on OOPS Following points were demonstrated in session • Classes, Object, Constructors • Multithreading, • Exception handling • GUI Tool Queries of the students were also addressed by the speaker.

304_Seminar on " AGILE METHODOLOGY"

Expert Lecture on
"AGILE METHODOLOGY"

Date / Time	19th August 2021 12:30 pm to 1:50 pm
Venue/Platform	Google Meet
Speaker	Mr. Nilesh Jain , CEO, Vervali Systems & Co-founder, TechUstaads
Coordinator	Mrs. Anagha J. Patil, AP, IT Dept., VCET Mrs. Madhavi Waghmare, AP, IT Dept., VCET
Target audience	TE/BE – IT
Objective of this seminar	Students would be able to:- 1. Understand how to go ahead with job opportunities in software testing careers.. 2. Understand Scrum related terms like Sprint, Product backlog and Burndown charts. 3. Use Kanban board to fix the bugs. 4. Understand Extreme programming.
No. of attendees	TE(55), BE(54). 107
Points discussed in the session	The speaker covered Product Backlog, Scrum, Sprint backlog, Burndown charts and Kanban. After this seminar, students will be able to: 1. Efficiently prepare for their job opportunities in Software Testing.. 2. Efficiently approach companies for internships. 3. Apply Scrum to their mini/major projects. 4. Get a knowledge of various tools for software testing. 5. Prepare and work towards improving their technical proficiency using certifications. 6. Plan and execute their ideas in the form of startups.

305_How to use UML & DFD diagram

Guest Lecture on

"How to use UML and DFD diagram in their Mini Project"

Date / Time	17th and 21st August 2021 12.00 am to 1.30 pm
Venus/Platform	Google Meet
Speaker	Prof. Smita Jawale and Dr. Madhavi Waghmare, INFT
Coordinators	Dr. Madhavi Waghmare, INFT
Target Audience	TE-IT
Objectives of this Guest Lecture	Students would be able to:- • Understand how to draw UML diagram in their mini project. • Understand how to draw DFD diagram in their mini project.
No. of attendees	81
Points Discussed in the session	This session was organized to give awareness to students regarding" 8085 Microprocessor". Following points were elaborated in the session UML and DFD diagram for their mini Project. Queries of the students were also addressed by the speaker.

307_Seminar on "Career Guidance"

Career Guidance Seminar : SE 2021-22
(21st Jan 2022)

Date / Time	21st Jan 2022 2.00 pm to 3.00 pm
Platform	Google Meet
Speaker	Dr. Ashish Vanmali, HOD IT Ms. Anagha Patil, AP, VCET
Coordinator	Dr. Madhavi Waghmare, AP, VCET
No. of attendees	51
Points Discussed in the Meeting	This Seminar was organized to give awareness to Career Guidance. Following points were elaborated in the meeting • Basic course for all students • Career Prospect • Career Options • Placement activities • Internship • Software requirement Queries of the studentss were also addressed by Anagha Patil
Link of recording	https://drive.google.com/file/d/1v4puBfrpwKSDFLO4qDoWTdLdjHQJLvxY/view?usp=sharing

308_Hackathon Reloaded

HACKATHON'21 RELOADED

The department of Information Technology of Vidyavardhini's College of Engineering has been a proud host of the esteemed coding battle HACKATHON for the **5th consecutive year**.

OBJECTIVE:

"HACKATHON" is a prestigious technical event which involves **30 hours** of incessant coding. The theme of the event was **'NEED OF THE HOUR'**. Participants were given **5 problem statements** and they were supposed to give abstracts for all the five problem statements. The aim was to promote a strong Programming and Product Building Culture among students that will help them develop Problem Solving, Critical Thinking and Software Development Skills to take on challenging problems that revolve around us all the time and crack them down. The event was a sincere attempt to provide a wonderful platform to showcase one's coding skills wherein an experienced panel of jury from reputed companies provide a critical analysis and feedback of your performance. It is one of the few chances for the participants to gain substantial experience, analyze and evaluate outcomes and uncover personal aptitude.

After the grand success of the first ever Virtual Hackathon of our college, VCET HACKATHON'21 RELOADED was conducted virtually once again on the **1st and 2nd of October, 2021.** To mark the commencement of the event, there was an inauguration through YouTube live streaming (https://www.youtube.com/watch?v=wHZGHtTAhaM).

The institution was honored to have **Mr. Prasad Shetye** as our chief guest who communicated with us live via YouTube live stream. Mr. Prasad is an **Executive vice President-Capgemini Engineering**. He has an Overall IT experience of more than 20 Years. He is the Head of Digital Engineering and Manufacturing Services India. He is a member of Digital Engineering and Manufacturing Services EXCOM, and also the Location Head (Pune). His key responsibilities are to manage the P&L for Digital Engineering and Manufacturing Services India. The audience was enlightened by the words of wisdom and appreciation by our chief guest.

Despite several challenges that a virtual event comes with, Hackathon'21 has witnessed an overwhelming response with **31 teams** summing up to **120 participants**. There were participants who worked relentlessly for 30 hours and pitched their brilliant ideas in front of an experienced panel of juries/judges. The

cash prize this year was worth **₹50,000**. There were consolation prizes and goodies as well by our generous sponsors.

PRACTICE:

The event commemorated right after the inauguration at **8.00am sharp** on 1st October and continued for a stretch of 30 hours. As the event was conducted virtually, the mode of communication used to interact with the teams was "Discord". A server was created on Discord in which each team had been assigned their personal channel for communication. A "HELPDESK" channel was also created with an aim to resolve all the queries posted by the participants. There were 2 jury rounds in which the progress of the teams was tracked and was conducted through Google Meets. The first jury round began at around 5 pm on 1st October, with the valuable presence of our juries- Mr. Rahul Thakar, Mr. Amey Raut, Mr. Yadnesh Zagde, Mr. Shahbaz Khan, Mr. Amey Chaudhary.

After the completion of the first jury round, there was a Mid-Hackathon Entertainment Session organized and streamed on YouTube (https://www.youtube.com/watch?v=PNlWUcqcj9s) at around 9pm for all the participants to relax and have a small break and then start coding with a refreshed mindset. The session witnessed some melodious singing from many singers.

On the next day, that is the 2nd of October, the second jury round took place at 8 am in the presence of our esteemed juries- Ms. Radhika Mhatre, Mr. Ujwal Bagwe, Mr. Dhaval Dave, Mr. Arun Gupta, Mr. Sachin Wandre

On the 2nd October 2021, after the completion of EXTENSIVE thirty hours of coding, there was a Judging round held at 2pm in which the teams had to showcase their final output to the judges present and try to fix their spot to be qualified in the final pitching round.

After acquitting themselves with the insights of all the projects, the best 5 teams (one from each problem statements) were shortlisted for the final pitching round based on their final scores. The pitching round commenced at 5 pm and was conducted through Google Meet and was simultaneously being streamed live on YouTube for the audience (https://www.youtube.com/watch?v=LXFYw7afkQQ). The institute had the privilege of hosting some acclaimed personas like Mr. Suvamoy Roy, Mr. Mihir Dave, Mr. Prashant Dongre, Mr. Harshil Shah, Mr. Chetan Manjeshwar and Mr. Vijay Aggarwal. The shortlisted teams had to go through a ten minutes presentation followed by a five-minute Q&A session wherein the teams were

bombarded with insightful questions, constructive criticism and all possible suggestions by the judges.

WINNERS:

Finally, we had the 1st winner from Sardar Patel Institute of Technology (SPIT), team name **'ACCESS DENIED'** [Mansi Dwivedi, Pranjal Patil, Dishita Ashar, Pranav Kumar]. They provided a solution for the problem statement 'Monthly expenses analysis from all types of bills'and their project was named as 'MY WALLET'

The 2nd prize was bagged by team **'UKKU'** from K. J. Somaiya Institute of Engineering and Information Technology, [Vedant Kokate, Mohil Khare, Keshav Mishra, Jaideep More] wherein they created a 'College Recommendation System for Engineering admissions'.

The teams securing the 3rd place were **'BREAKING CODES'** [Ansh Mehta from D. J Sanghvi College of Engineering and Aniket Shah, Shlok Shah, Himanshu Bhalala from Vidyavardhini's College of Engineering and technology] wherein they built a 'Flood detection system' using IoT, **'HALF BYTE'** [Siddhesh Mane, Harsh Mishra, Rahul Prajapati, Ninad Patil] from Thakur College Engineering and Technology. They made a Dashboard for Covid Care Centre, **'VAMP TECHNOLOGY'** [Vaama Nikam from Lokmanya Tilak College of Engineering and Monish Meher, Abhinav Laxman Panmand, Pratik Lomte from Fr. Conceicao Rodrigues Institute of Technology, Vashi] made a project on 'Realtime Traffic control system'.

CONCLUSION:

Competitions like these encourage students to adopt innovative techniques and develop their ideas and skills. It is one of the very few opportunities in the average student life to provide such exposure and realistic outlook towards the competitive nature of real life.

To sum it all, HACKATHON'21 RELOADED was a grand success, proving to be another feather in the cap for the institution.

C3 Katta

Basic Web Development Workshop

Date/Time	20th January 2022, 10 am
Venue/Platform	Google Meet
Speaker	Mr. Tejas Kolwankar, TE IT Mr. Akshay Hegde,TE IT Mr. Asim Churihar, TE IT
Faculty Coordinator	Mr. Chandan Kolvankar
Target Audience	Second year (all branches)
Objective	1. To introduce SE students to basic fundamentals of web development 2. Introduction to responsive design and CSS frameworks 3. Introducing Students to javascript and DOM manipulation and Frontend Development fundamentals
No. Attendees	45
Points Discussed	1. Basic CSS properties and CSS integration methods. 2. Introduction to Media Query and Responsive Design 3. Introduction to Bootstrap CSS Framework. 4. Basic Javascript Fundamentals including datatypes,loops,etc 5. Es6 features and OOPS 6. DOM manipulation and event handling and an integrated application.

314_Seminar on " Hangout with ALUMNI(2021)

Seminar on

HANGOUT WITH ALUMNI(2021) FOR 2022 BATCH

(14th August 2021)

Date / Time	14th August 2021 10AM – 11:30PM
Venue/Platform	Google Meet
Speaker	Mr. Abhinav Mahajan, Assistant System Engineer, TCS Mr. Dhruv Parikh, Associate Application Engineer, Contentstack India Pvt. Ltd. Mr. Kaushik Raikar, Software Engineer, Zeus Learning
Coordinator	Mrs. Anagha J. Patil, AP, IT Dept., VCET
Target audience	BE – IT
Objective of this seminar	Students would be able to:- 1. Understand how to go about academics more productively. 2. How to tackle the different problems faced by a student. 3. How to approach startup ideas and job opportunities. 4. How to balance academic life and personal life. 5. How to prepare for coding competitions. 6. Conducting a session where the students can ask all their doubts and questions to their seniors in order to facilitate a better academic life.
No. of attendees	50
Points discussed in the session	This session was conducted on the 14th of August 2021, which was addressed by the alumni of the 2021 batch of the Information Technology department, where they candidly covered all the different aspects of leading a successful student life from their personal experiences. Students will be able to: 1. Be able to efficiently prepare for their job aptitudes exams and interviews. 2. Be able to plan their academic curriculum better 3. Be able to efficiently approach companies for internship 4. Be able to prepare and work towards improving their technical proficiency 5. Be able to plan and prepare for Hackathons and Coding competitions. 6. Be able to plan and execute their ideas in the form of startups.

315_Industrial Visit

Report - INDUSTRY VISIT
2021-2022

Name of Coordinator : Mr. Yogesh Pingle, Dr. Madhavi Waghmare, Ms. Vaishali Shirsath

Department : IT Semester: V

Resource Person: Mr. Ajay Naidu, Senior Manager, L&T Corporate Technology and Engineering Academy (CTEA) Madh

Date : 21 Dec 2021

Venue : L&T Corporate Technology and Engineering Academy (CTEA)
Madh Jetty Rd, Raheja Exotica, Pascal Wadi, Madh, Mumbai, Maharashtra 400061

Following points were conducted during Field Visit:

- The students from third year engineering (Number – 38) and 03 staffs of Information Technology Department are involved in this visit.
- Following was the agenda for the visit:

1. Assemble at STA Auditorium – 10 am
2. Welcome, L&T Campus Safety film, L&T Corporate Film – Ajay Naidu/ Rohit Parashare
3. L&T STA Film and briefing – B A Damahe (Head-STA)
4. L&T CTEA Presentation & briefing – Rajanikant Ghodasara
5. CTEA Lab tour
6. Manufacturing Excellence Lab tour
7. Safety Excellence Centre Tour
8. STA Lab tour
9. Tea & Biscuits
10. Group photo at STA entrance and visit end

- We end our visit at 2.00 pm.

Signature of Coordinator:

Remark of HOD with Signature:

316_Expert lecture on Repair Implementation Process

Report on Expert lecture on "Repair Process Implementation and Safety During Building Repairs"

Objective of the lecture-To understand the process of Repairs and Safety measures to be adopted during repair works.

Date of Lecture-24th September 2021, Friday at 2.00 p.m onwards

No. of Participant- 65

Name of the Speaker- Er. Ratnakar B Choudhari, Owner R.B Chaudhari and Associates, Goregaon, Mumbai.

About the Speaker-

Mr. Chaudhari garnered his degree in Civil engg. in the year 1985 from VJTI Mumbai. His first workplace after graduation was stated to be Raheja Builders where he gained an experience from 1985 to 1991. With 7 years of experience, he transformed himself form a site supervisor to a chief engineer. Moving forward he started a contracting firm in the year 1991 and undertook strengthening works of highly dilapidated buildings and structures. He is proclaimed to be one of the first civil engineers who embraced the field of building repairs, restoration and retrofitting works in Mumbai. With his ever-amplifying experience he has achieved successful completion of more than 400 building structures. His firm is well acquainted with repairs of single floored structures to up to 25 storied structures. His firm has worked for many renowned PSUs like BHEL, BEML, Indian oil, Central bank, Allahabad bank, reserve bank, fiat etc. In the year 2007 he entered a new phase of his work life where in he indulged in new construction activities and constructed many housing projects in Lonavala, Goa, Cochin. To share his abundant knowledge and experience he further started an INTERNAL SKILL DEVELOPMENT SOCIETY to develop internal skills of average students

Description of the lecture:

Expert lecture on **Repair Process Implementation and Safety During Building Repairs** was conducted on 24th September 2021 from 2.00 p.m. onwards. The lecture was conducted online on Google meet platform. The speaker started the session by explaining about APPOINTMENT OF PROJECT MANAGEMENT CONSULTANT (PMC) FOR STRUCTURAL AUDIT, TENDERING &

EXECUTION OF WORKS. Speaker touched upon various type of estimates required for any repair works as listed below:

1.STRUCTURAL REPAIRS ON EXTERNAL FAÇADE

2. STRUCTURAL REPAIRS IN STILT AREA

3. STRUCTURAL REPAIRS INSIDE FLATS

4. STRUCTURAL REPAIRS IN COMMON AREAS

5. PLINTH PROTECTION

6. LEAKAGES & SEEPAGES THROUGH EXTERNAL WALLS

7. LEAKAGES & SEEPAGES THROUGH TERRACE, TOILETS, SUNSHEDS, WATER TANKS, BASEMENTS ETC

8. RISING DAMPNESS BY CAPILLARY ACTION

9. EFFLORESCENCE/ PEELING OF THE PAINT

10. GENERAL DAMPNESS

11. CRACKS IN PLASTER, RCC, BRICK WALLS & PATTERNS

12. CRACKS IN CEILINGS

13. EXPANSION JOINT DETAILING

14. LEAKING TAPS/ VALVES

15. FUNGUS ON WALLS

16. VEGETATION GROWTH

17. HOLLOW AND DEBANDED PLASTER

18. TERMITE ATTACK

19. CARPENTARY WOODWORK

20. STRUCTURAL STEEL

Procedures of Repairs and flowcharts related to it were demonstrated by the speaker in the latter half of the session. VED Analysis (VITAL ELEMENTS, ESSENTIAL ELEMENTS, DESIRABLE

ELEMENTS) for Structural Stability was one of the interesting and important discussion done during the session. Students were keen to know about the site conditions of the dilapidated building, what all are the aspects that we need to consider while at the site and what are the favorable conditions for safety of the labors.

The aspects of Tendering process were also seen that how the tendering process is taking place, step by step was discussed. Safety measures to be kept in mind while carrying out Repair works was covered during the session.

Various Formats to prepare Estimate were shared with students, so that they can get a rough idea on what are the essential parameters to prepare Estimate of Repairs.

Feedback-

Kindly fill the following feedback which would allow us to improve . Pick the response from one of the categories mentioned below:

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the expert lecture on the "Repair Implementation Process" held on 24th September 2021.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

Report on Guest lecture on "Disposal of Solid Waste"

Objective of the lecture-To understand various concepts behind the disposal of solid waste.

Date of Lecture-14th October 2021, Thursday at 2.00 p.m

No. of Participant- 56

Name of the Speaker- Dr. Vikas Balasaheb Varekar (Asst. Prof. Civil and Environmental Engineering, VJTI, Mumbai)

About the Speaker-

Dr. Vikas Balasaheb Varekar is currently working as an Assistant Professor in the department of civil and environmental engineering at Veermata Jijabai Technological Institute, Mumbai. He holds professional degree in Bachelor of engineering(B.E) in Civil Engineering from Shivaji University Kolhapur, Master of Technology (M.Tech) in Civil-Environmental engineering from Walchand College of Engineering Sangli and PhD in Environmental Engineering from IIT Bombay. He has a vast experience in the field of GIS and Remote sensing, Solid waste management, Wastewater treatment etc. He has several research papers in national as well as international journals. He has delivered various expert sessions in several FDPs, Seminars and Webinars. He is a lifetime member of Indian Water Work Association (IWWA), member of Indian Society of Technical Education (ISTE), member of Institutions of Engineers, India.

Description of the lecture:

Guest lecture on Disposal of solid waste was conducted on 14th October 2021 at 2.00 p.m. The lecture was conducted through online platform Google-meet. The focus of the lecture was how to dispose the municipal solid waste by different ways and how they are adopted. Sanitary landfills were discussed, its land requirements and where they can be used, how much volume of waste can be disposed. Other than this leachate was also discussed that how they are used for the waste disposal. The formation of leachate, its different features etc were taken care of during the lecture.

Different research papers showing variation in the collection of waste, its uses and how much is disposed off was shown. Various live examples were also shown through the presentation that how in reality the methods are adopted.

Different landfill systems, the gases that are produced after that, which kind of waste to be dumped in the landfill were also seen during the lecture. The difference between all the methods were also discussed with the students.

Conclusion:

The research results that were discussed on landfill systems, incinerations etc showed that the disposal of waste depends on various criteria, its shapes, and sizes. It was also concluded that the waste should be segregated at the source point itself, so that which method of disposal should be adopted can be selected accordingly. Waste creates a lot of pollution to the environment as well as to the human health, the waste disposal method that are adopted should be seen that how safely it can be used.

Organizer: Prof. Jaydeep Chougale

Speaker: Prof. Shashikant M Nagargoje

No. Of Participants: 44

Introduction:

An expert lecture on the design of Reinforced Concrete (RCC) beams using various methods was conducted on Google Meet on 19/04/2022. The event aimed to provide insights into different methods and techniques used in the design of RCC beams and their applications in the construction industry. The lecture was delivered by Prof. Shashikant Nagargoje, Head of Civil Engineering Department, Jaihind College of Engineering, Pune.

Key Highlights of the Lecture:

Introduction to RCC Beams:

The lecture began with a comprehensive introduction to RCC beams. [Insert Speaker's Name] explained the fundamental concepts of RCC, its composition, and its role in structural engineering. Participants gained a clear understanding of why RCC beams are widely used in construction.

Design Codes and Standards:

The speaker emphasized the importance of adhering to design codes and standards, such as ACI (American Concrete Institute) and IS (Indian Standards), when designing RCC beams. These codes provide guidelines and safety measures to ensure the structural integrity and safety of buildings.

Design Methods:

The lecture covered various design methods for RCC beams, including:

a. Working Stress Method: This method is based on the concept of permissible stresses and factors in the safety margin for the concrete and steel components.

b. Limit State Design Method: A more advanced approach that considers both the ultimate limit state and the serviceability limit state. It focuses on the maximum load-bearing capacity and the structural serviceability of the beams.

c. Load and Resistance Factor Design (LRFD): A method that combines load factors and resistance factors to ensure safety against overloading and various load conditions.

Design Process:

Prof. Shashikant Nagargoje detailed the design process, which includes the following steps:

a. Calculation of loads and forces acting on the beam.

b. Selection of materials and concrete grades.

c. Determination of dimensions and reinforcement requirements.

d. Verification of design using appropriate codes and standards.

e. Ensuring structural stability and safety.

Design Software:

The lecture introduced participants to modern design software and tools that aid in the efficient and accurate design of RCC beams. Software such as ETABS, STAAD.Pro, and AutoCAD were discussed, showcasing their role in automating and streamlining the design process.

Practical Examples:

Prof. Shashikant Nagargoje presented practical examples of RCC beam designs, allowing participants to observe how different design methods are applied in real-world scenarios. This practical approach helped attendees grasp the concepts better.

Q&A Session:

The lecture concluded with an interactive Q&A session where attendees could seek clarification on various aspects of RCC beam design. Prof. Shashikant Nagargoje provided insightful answers and additional guidance on specific design challenges.

Conclusion:

The expert lecture on the design of RCC beams using different methods was highly informative and beneficial for all participants. It enhanced their understanding of the complexities involved in RCC beam design and provided practical insights into the application of different design methods. The event successfully promoted best practices in structural engineering and reinforced concrete design, contributing to the overall safety and durability of buildings.

Overall, the lecture was a valuable learning experience, and participants left with a deeper understanding of the design processes, methods, and software tools employed in the construction industry.

Department of Civil Engineering

Date: 19/04/2022

To,

Mr. Shashikant M Nagargoje

HOD (Civil),

Jaihind College of Engineering, Pune

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the expert lecture on "Design of RCC Beam by different methods" held on 19th April 2022

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

Dr. Ajay Radke

HOD

Civil Engineering Department,
VCET

Dr. Harish Vankudre

Principal

Civil Engineering Department,
VCET

360_Career and Scope in CAD/CAM Industry

20-21-(1)

Report on Guest lecture on

Career and Scope in CAD/CAM Industry

Guest lecture was arranged for second year fourth semester students of Department Mechanical Engineering on 30th May 2021 from 07 PM to 08 PM on Google meet for subject of CAD-CAM semester fourth Mechanical Engineering. The topic of the guest lecture was "Career and Scope in CAD/CAM Industry". Guest speaker for the seminar was Mr. Prasad Ausekar, Senior Design Engineer, Verispring Engineering Solutions India Pvt. Ltd. Pune.

The contents of the guest lecture were

- Introduction to CAD/CAM/CAE
- Components of CAD/CAM/CAE System
- Contemporary Hardware System.
- Contemporary Software System.
- The Product Cycle in CAD/CAM
- CAD Tools required for system design.
- The Present State of CAD-CAM Industry and career.

The following is attached after the report

- Sample screenshot of lecture
- Attendance of students
- Invitation to students
- Sample student report
- Invitation & Appreciation letter
- Feedback analysis
- Impact analysis

REPORT

Expert lecture on "Industrial Applications and Methodology of Non Destructive Testing"

Date: 25th May, 2021

Industry Institute Interaction Cell and Department of Mechanical Engineering had arranged Expert lecture on "Industrial Applications and Methodology of Non Destructive Testing ". This seminar was delivered by Mr. Yash Jain, NDT Engineer, Advanced Institute of Non- Destructive Testing and Training.

Expert lecture was conducted on 25th May 2021, From 04:00 pm to 05:30 pm through online mode for students of TE (Mechanical Engineering) and faculty members.

Details of the expert lecture is as below

Expert lecture was arranged for the third year mechanical department's subject "Metrology and quality engineering" to help students learn about the topic of Non destructive testing and related concepts from a highly qualified Industry Personnel such as Mr. Yash Jain.

In this session Mr. Yash Jain had covered various concepts related to NDT its significance over other testing methodologies, He had thoroughly explained responsibilities of NDT technician like how to calibrate and maintain equipment, conducting test of terms, interpretation of results, preparation of reports, developing processes and procedures.

During session he had focused upon career opportunities in NDT. During session Mr. Jain Briefly explain various level of NDT professionals like Level1, Level 2, Level 3, Training and process to acquire this levels and various exams to qualify this levels.

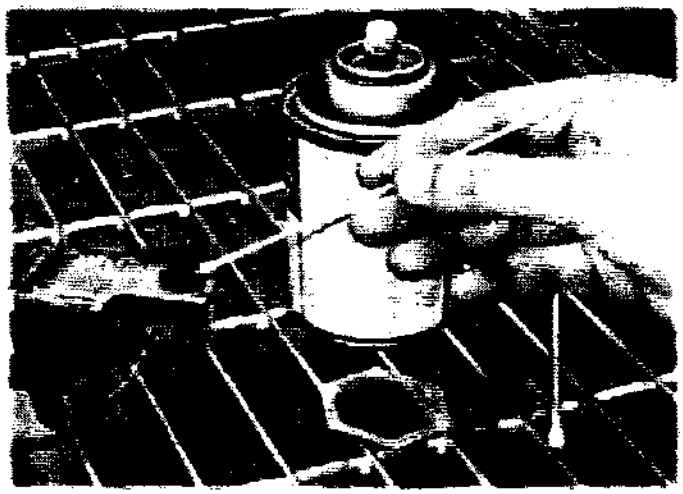
Mr. Yash Jain had briefly explained about NDT methods, visual testing, requirements of visual inspection, advantages of video horoscope, liquid penetrate testing. Mr. Yash enlighten all important points related to basic steps like pre clean, application of penetrant, penetrant dwell time, excess penetrant removal, application of developers, developer dwell, interpret the results, post clean.

In this session subject expert explained magnetic particle inspection, introduction of magnetic field, steps used in MPI, and its application. He also explained other testing methods like ultrasonic testing, Radiographic testing, electromagnetic testing in details with application, advantages, disadvantages, etc. This part was the most important as students learnt lot of things of non-destructive testing. He gives brief knowledge regarding codes, general codes, heat transfer

equipment, major codes, list of documents to be presented to TPI, etc. In a very short time Mr. Yash breezed past these topics in form of definitions as well as informative pictures.

some highlights from the Seminar

Application of penetrant



Pre Cleaning

Career Opportunities

- NDT trainee
- NDT Technician
- NDT Manager
- NDT Consultant
- NDT Engineer in QAQC departments

Trained and Experienced NDT technicians are often hired by Organizations as NDT engineers so they can get required suggestions regarding the NDT test of products, review, and verification of the NDT tests carried out by NDT subcontractors. Moreover in some articles of CODE Manufacturer are made responsible for the review, interpretation, evaluation, and accept the test results

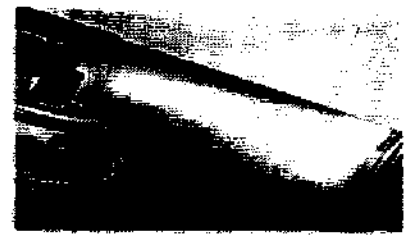
- TPI

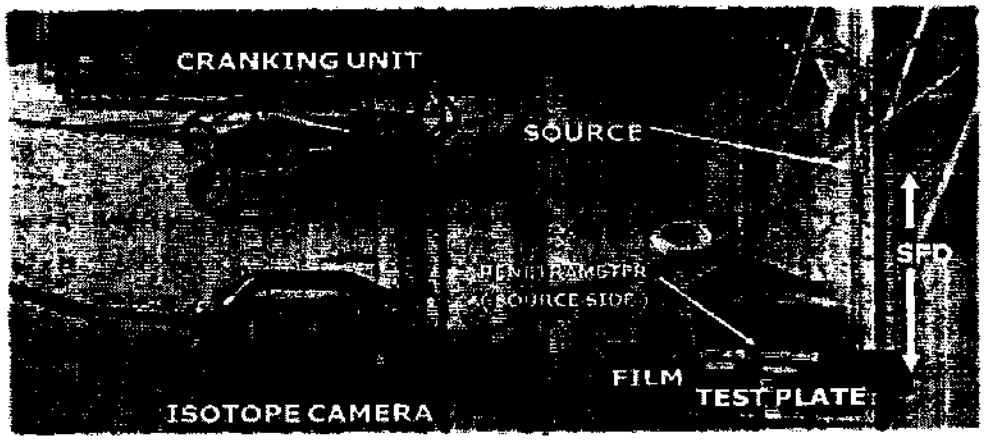
Dept. of Mechanical Engg.,
Vidyavardhini's College of
Engineering & Technology
Vasai Road 401 202.

Indication

Excess Penetrant Removal

Application of Developer





Non destructive Testing Equipment

Conclusion

In this technical knowledge sharing session, students get benefited with valuable tips important for their career as a professional quality control engineer. Session was concluded with note- Non Destructive Testing is an important testing technique most commonly used in industry to evaluate properties of material, various defects in components without destruction. 56 students and faculties attended this expert lecture.

Dear Sir,

The Department of Mechanical Engineering, Vidyavardhini's College of Engineering and Technology, Vasai (W) would like to invite you to deliver an expert lecture on " **Thermal Power Plant and Environmental Issues - Need for Sustainable Development and Project Management**" in online mode (Google meet) for final year students of Mechanical Engineering both divisions.

Please find enclosed syllabus copy and Course Outcomes of the course **POWER ENGINEERING** (Sem. VIII - Final year Mechanical Engineering).

As per our discussion, the expert lecture is scheduled on 2nd May 2021 from 11.00 am to 12.00 pm.

Please accept our invitation and send confirmation by return mail.

Thanking you,

Your faithfully,

Vinay D. Patel
Assistant Professor,
Department of Mechanical Engineering,
Vidyavardhini's College of Engineering and Technology,
K.T. Marg, Vasai (W), District Palghar 401202.

363_Mechanical Design and career opportunity in Industry

Report on Expert Lecture

Mechanical Design and Career Opportunities in Industry

Expert lecture was arranged for final year students of Department of Mechanical Engineering on, 16 May 2021, from 4 PM to 6 PM on Google meet for subject of Design of Mechanical System. The topic of expert lecture was "Mechanical design and career opportunities in industry". Expert speaker for the seminar was Mr. Amol Taur, Mechanical Design Engineer, Pawan Precision, Aurangabad.

The contents of the expert lecture were:

- Mechanical design fundamentals
- Basics of Materials
- Design parameters for components
- Theories of failures
- Types of failures in components
- Various industrial components
- Career opportunities in Design industry
- Q & A session

As the lecture was taken on online mode google meet, recording of the session is also available.

The following is attached after the report:

- Sample Screenshots of the lecture
- Attendance of students
- Invite letter
- Appreciation letter
- Sample students report
- Feedback analysis

20/5/21

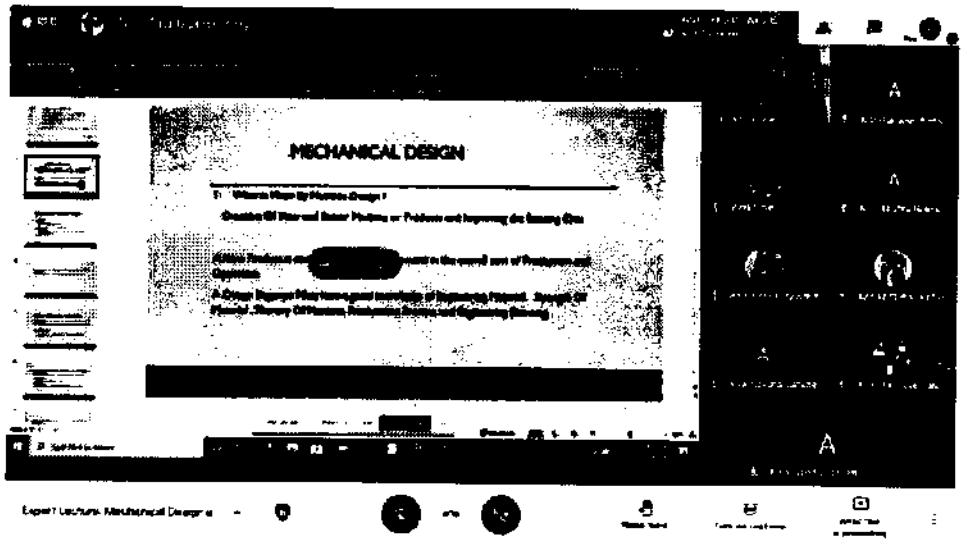
Mr. Parag S. Sarode,

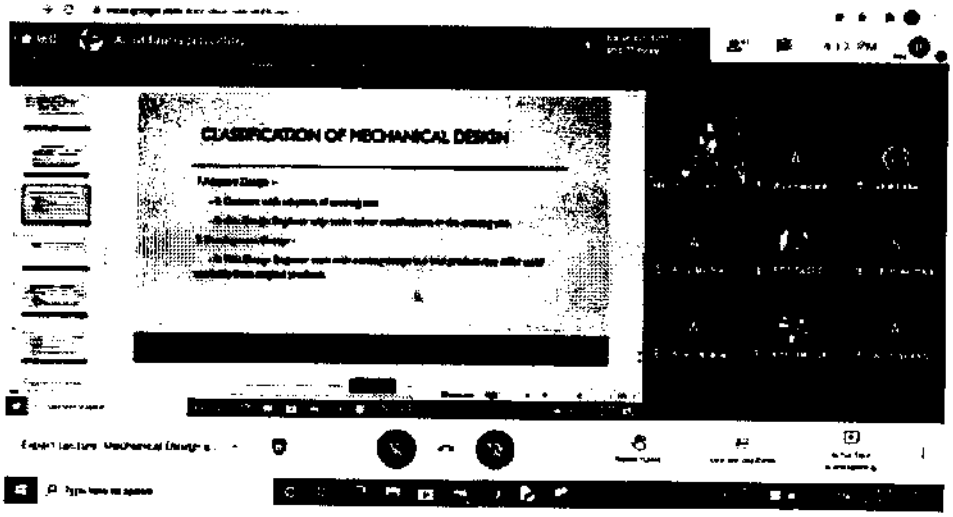
Assistant Professor,

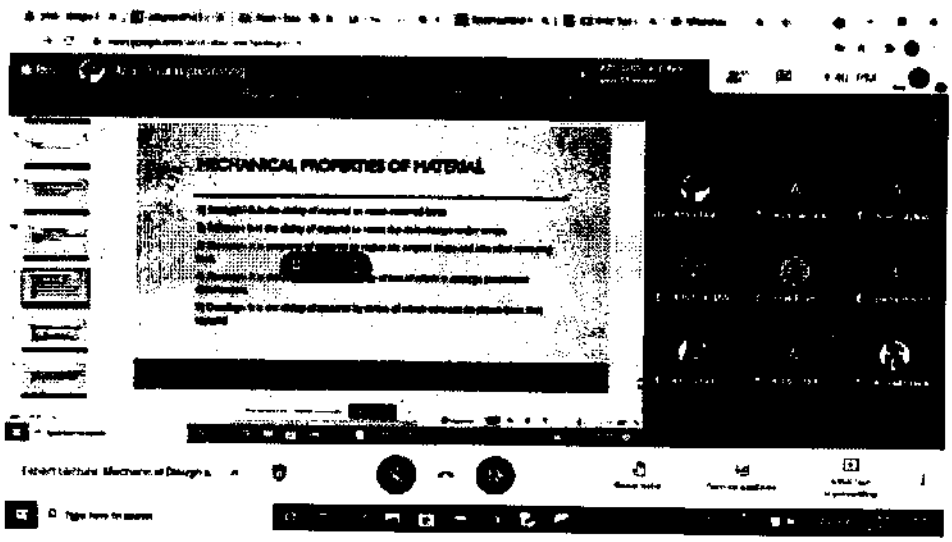
Department of Mechanical Engineering,

VCET, Vasai.

HEAD
Dept. of Mechanical Engg.,
Vidyavardhini's College of
Engineering & Technology
Vasai Road 401 202



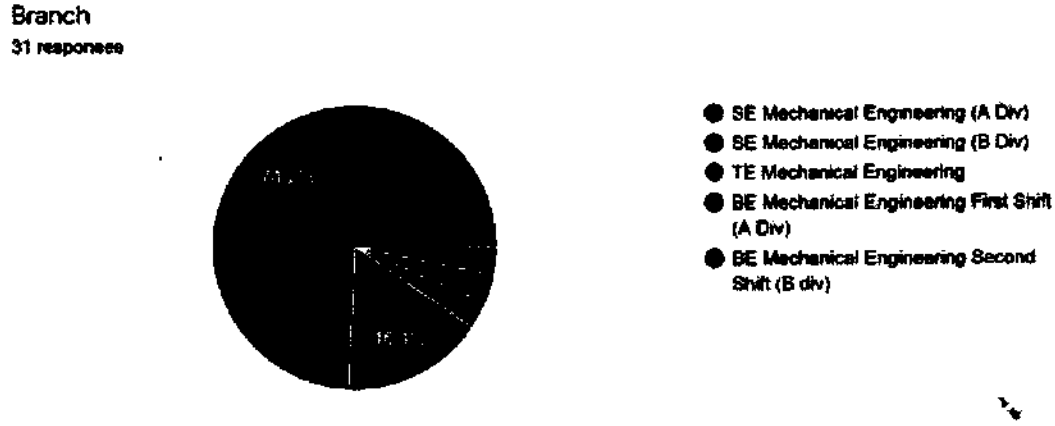


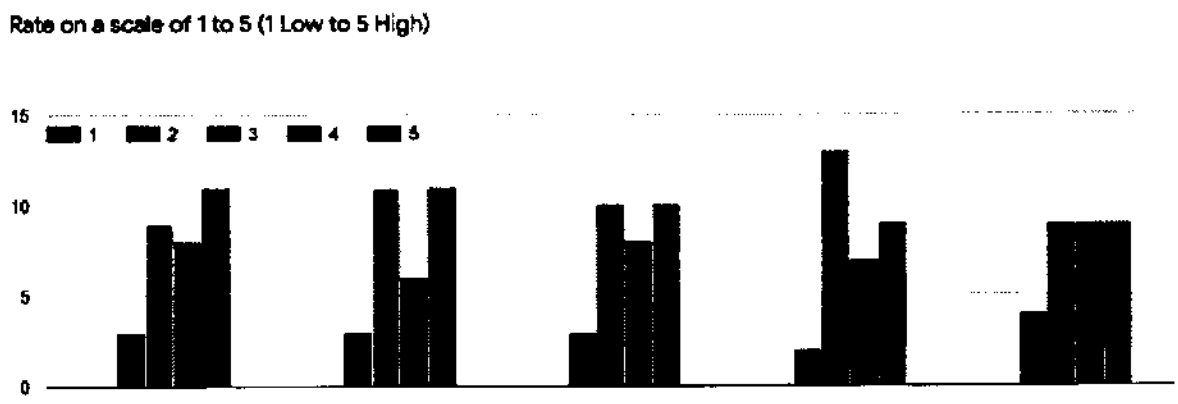


Mr. Amol explaining mechanical design in Industry

22824

Feedback Analysis



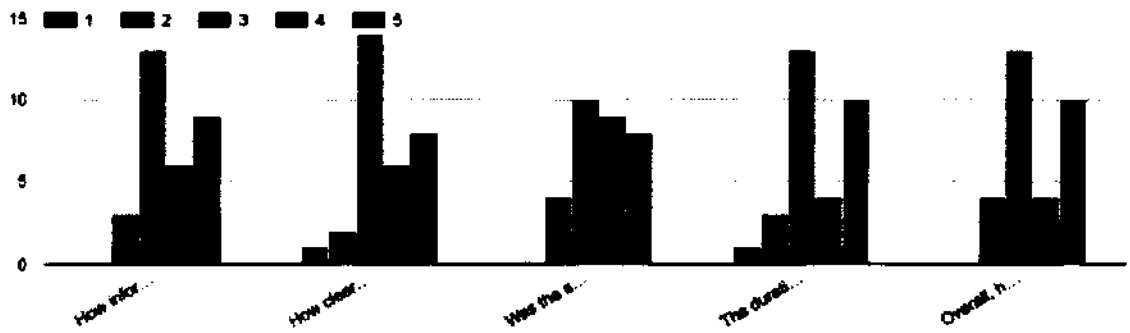


X - axis parameter:

1. How much this session was useful from the knowledge and information point of view.
2. Session content was helpful to make you aware of societal issues and relevant professional engineering practices.
3. Session content helped you understand impact of engineering solutions in societal and environmental context.
4. Session content helped you understand need for sustainable development.
5. Did the session helped for understanding the mechanical design in industrial context.

Y – axis parameter:

Number of students



X – axis parameter:

1. How informative did you find our expert talk?
2. How clear were the ideas and concepts we presented?
3. Was the speaker responsive to questions and comments reflecting diverse opinions and experiences
4. The duration of the event was just right. (Not too long or not too short)
5. Overall, how satisfied were you with the session?

Y – axis parameter:

Number of students

HEAD
Dept of Mechanical Engg.
Vidyavardhini's College of
Engineering & Technology
Vasai Road 401 202.

Impact Analysis

Guest lecture industry person on "Mechanical Design and Career Opportunities in Industry" met the student's expectations.

Students are interested to have more such sessions in near future.

Future sessions will be arranged on Mechanical design industry which focuses on automotive or product development.

364_Industrial Automation on Process Industries

Invitation to Deliver Expert Lecture on 'Industrial Automation' on 12th May 2021

kamlesh bachkar <kamlesh.bachkar@vcet.edu.in> Tue, May 11, 2021 at 11:51 AM
To: isai.hemant007@gmail.com
Cc: hod mech <hod_mech@vcet.edu.in>

Dear Hemant,

On behalf of the Department of Mechanical Engineering, VCET Vasai, I would like to invite you to deliver an expert lecture on **"Industrial Automation"** In online mode for students of Third year Mechanical Engineering.

As per our discussion an expert lecture is scheduled on 12th May 2021 from 2 pm to 3.30 pm.

Please accept our invitation and send a confirmation email.

Thank You.

Best Regards,
Kamlesh Bachkar,
Assistant Professor,
Mechanical Department,
VCET Vasai
9890852702

2020-21 (6)

To,

The Principal,

VCET Vasai

Report on Guest Lecture held on 12th May 2021 by Mr. Hemant Isai.

Department of Mechanical Engineering have scheduled an expert Guest lecture of Mr. Hemant Isai, Director, Genesis Engineering Solution Vasai on topic of Industrial Automation for TE Mechanical Students on 12th May 2021 from 2 pm to 3.30 pm.

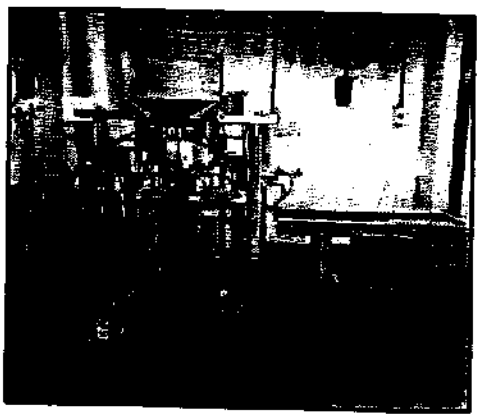
Mr. Hemant Isai is Alumni of Mechanical Department from 2017 Batch, also Director, Genesis Engineering Solution, Vasai having expertise in providing Automation solution in Industrial Engineering field.

Dr. Uday Aswalekar, HOD, Mechanical introduced topic of seminar to the students and Prof. Kamlesh Bachkar introduced speaker.

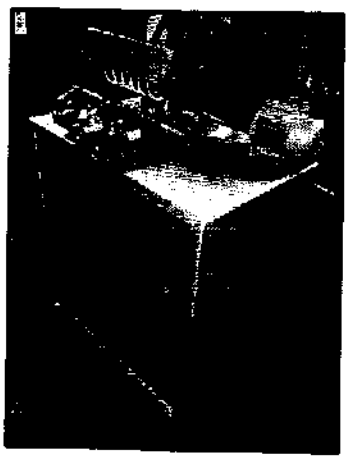
In his lecture, Mr. Hemant Isai, started with explaining basics of Automation to students.

- CAMS
- Geneva Mechanism
- Gears
- Pneumatics
- Basic of sensors
- PLC

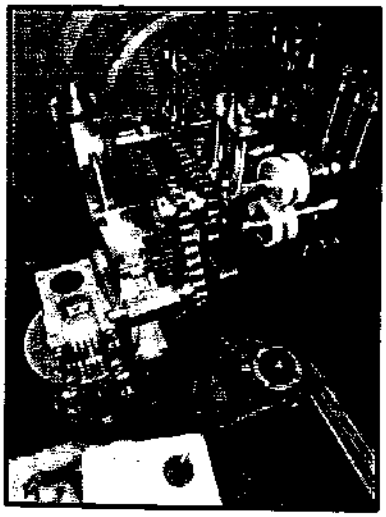
Further, Mr. Isai explained his Projects done in Industry as a case study to students. Projects which he discussed were 0.5 mm Klick Pencil Assembly Machine, FRP Multishot Cutting Machine, Collection conveyor Built, Bottle printing machine, semi auto cap pressing machine.



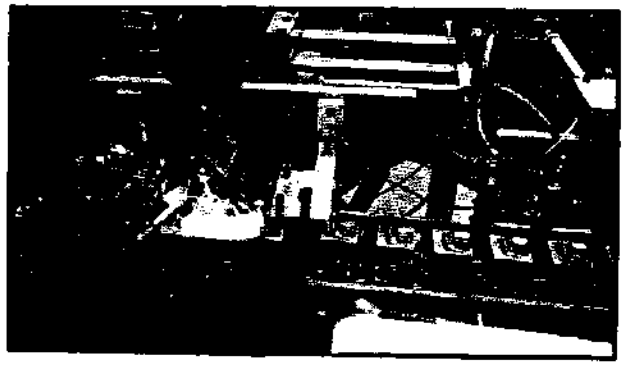
0.5mm Klick Pencil Assembly Machine



FRP Multislot Cutting Machine



Pipe Feeder



Bottle Printing Machine

Finally, Mr. Hemant explained the upcoming trends in Automation to students and also cleared doubts of students related to Arduino, sensors.

Prof. Kamlesh Bachkar

Mechanical Department

Dr. Uday Aswalekar

HOD, Mechanical Department

Expert Lecture: Industrial Automation - (Date: 12 May 2021)

Report on Guest lecture on

Industrial Automation

Guest lecture was arranged for third year students of Department Mechanical Engineering on 7th May 2021 from 10.30 AM to 11.30 AM on Google meet for subject of Mechatronics. The topic of the guest lecture was "Industrial Automation". Guest speaker for the seminar was Mr. Samadhan Gadade, Director and CEO, Accuon Project & Solution, Pune.

The contents of the guest lecture were

- Introduction to automation
- Scope of automation in industry
- Pneumatic system
- PLC
- SCADA
- Electric control panels
- Career opportunities in industrial automation
- How to become entrepreneur

The following is attached after the report

- Sample screenshot of lecture,
- Attendance of students
- Invitation to students,
- Sample student report,
- Invitation & Appreciation letter
- Feedback analysis.

Mr. Ganesh Wahile
Assistant Professor,
Department of Mechanical Engineering,
VCET, Vasai
(Subject Incharge- Mechatronics)

Expert Lecture on Energy Audit & Management

Introduction to Speaker

Mr. Sachin Deshpande

Accredited Energy Auditor,

Director, A R S Energy Auditors.

- Carried out an Energy audit of more than 130 industries.,.
- EA of cogeneration plants (@ 26 MW) for Maharashtra Electricity Regulatory Commission
- EA of various Govt sector organizations
- DPRs of solar thermal/ pv projects
- Implemented projects in Energy Service Companies
- Energy Monitoring services
- Energy auditor for Power plant
- Carried out Safety audits
- Conducted various Training programmes in the field of energy
- Lead Auditor for Energy management systems

Honors & Awards

- Empanelled Energy Auditor
- Faculty, Petroleum Conservation Research Association
- Sr. Consultant
- Photovoltaic System Technician
- Valuer

Patent

Parabolic Solar Rays Concentrator with heat Absorption using water or oil for heat absorption

Head of the department introduced the speaker to the audience who were students from TE and BE Mechanical (approx 72 students) and faculty members of Mecahanical Engineering Department.

Mr. Sachin deshpande started his presentation and the key points discussed by him is as follows

1 ABOUT ENERGY AUDIT

1.1 Introduction

Energy audits are a powerful tool for uncovering operational and equipment improvements that will save energy, reduce energy costs, and lead to high performance. Energy audits can be done as a stand-alone effort but may be conducted as part of a larger analysis across a group of facilities, or across an owner's entire portfolio.

The purpose of an energy audit (sometimes called an "energy assessment" or "energy study") is to determine where, when, why and how energy is used in a facility, and to identify opportunities to improve efficiency. Energy auditing services are offered by energy services companies (ESCOs), energy consultants and engineering firms. The energy auditor leads the audit process but works closely with building owners, staff and other key participants throughout to ensure accuracy of data collection and appropriateness of energy efficiency recommendation.

The audit typically begins with a review of historical and current utility data and benchmarking of your building's energy use against similar buildings. This sets the stage for an onsite inspection of the physical building. The main outcome of an energy audit is a list of recommended energy efficiency measures (EEMs), their associated energy savings potential, and an assessment of whether EEM installation costs are a good financial investment.

1.2 Types of Energy Audits :

Energy audits typically take a whole building approach by examining the building envelope, building systems, operations and maintenance procedures, and building schedules. Whole building audits provide the most accurate picture of energy savings opportunities at your facility.

Alternately, energy audits can be targeted to specific systems (i.e., lighting or heating, ventilation and air conditioning). Targeted audits may miss significant bigger picture energy savings opportunities, but may be a good route if you have specific energy efficiency retrofit projects in mind and limited funds to invest.

1.3 Energy Audits Identify:

- ✔ No-cost operational or maintenance adjustments that will save energy
- ✔ Short-term, low-cost energy efficiency retrofit recommendations
- ✔ Action plans for energy efficiency capital investments
- ✔ Comfort and code issues that can be addressed immediately
- ✔ Opportunities for better adherence to lighting and comfort standards

His address to the students particularly insisted upon how the trends in the industries are changing and preferring to conduct energy audits and how it will affect the future. He also insisted that our nation has to adapt and accept the technologies that the developed nations are following and use them to our full advantage. He also gave an awareness on how we should adapt green technologies as global warming is increasing and pollution is increasing day after day, the idea was clear as he explicitly insisted on eco-friendly technologies to adapt to a greater extent in the near future.

Overall the session concluded with career opportunities in the field of energy audit and management. The students were very enthusiastic and asked a wide range of questions which were answered by the speaker in a very informative manner.

367_Power transmission and Manufacturing of Gears

To,

The Principal,

VCET, Vasai

Subject: Report on seminar entitled 'Power transmission and Gear Manufacturing process' conducted by Dr Deepak Sonwane

Respected Sir

For the subject of kinematics of machinery a seminar on power Gear Manufacturing was conducted by Dr. Deepak Sonwane on 27/04/21. He has explained how to select power transmission devices for specific applications. He has briefed the applications of various power transmission devices in industrial applications. He has explained classifications of gears and their applications along with design procedures. He also explained how the material selections for gear can be done. He had explained various Gears manufacturing processes, including casting, forging, extrusion, powder metallurgy, and blanking. He has also explained gear hobbling. The session was ended with question answers about the use , applications of gears in mini project For then session total 117 students were present through online mode on 27/04/21 from 2 to 4 pm

368_Application based Industrial Materials and Process Selection

Subject: **Report of Expert lecture on**

Applications Based Industrial Materials and Process Selections

Expert lecture was arranged for Second year Mechanical students on 23th April 2021 from 11.30 am to 1.00 pm on Google meet platform. This lecture was organized to bridge the gap for the course Production Process (MEC303). The topic of the guest lecture was "Applications Based Industrial Materials and Process Selections". Guest speaker for the webinar was Mr. Anand Bhise, Director, MECHTOL Engineering Solutions, Pune.

The contents of the lecture are given below

- Introduction to manufacturing process
- Discussion on conventional mfg. process
- Discussion on advance mfg. process
- Classifications of materials
- Selection of materials
- Properties of materials
- Use of Standards for material selection
- New materials (Composite, Ceramic etc)
- Case Study - Applications and use of various material and process

Enclosed event related documents

- Sample screenshot of lecture,
- Attendance of students
- Discussion with Guest lecturer
- Invitation to students,
- Invitation & Appreciation letter
- Feedback analysis.

REPORT

Expert Lecture "LEAN MANUFACTURING SYSTEM-AN OVERVIEW"

Date: 19/04/2021

Industry Institute Interaction Cell and Department of Mechanical Engineering had arranged expert lecture on "**Lean Manufacturing System-An Overview**". This seminar was delivered by Dr. Viraj Atre, Senior Technical Faculty at Unique Skill Development Centre (USDC), Faculty in Operations and Projects- NMIMS.
Expert lecture had conducted on 19th April 2021, From 12:30 pm to 2:30 pm. For Final Year Students of Mechanical Engineering through online mode.

Details of the expert lecture is as below

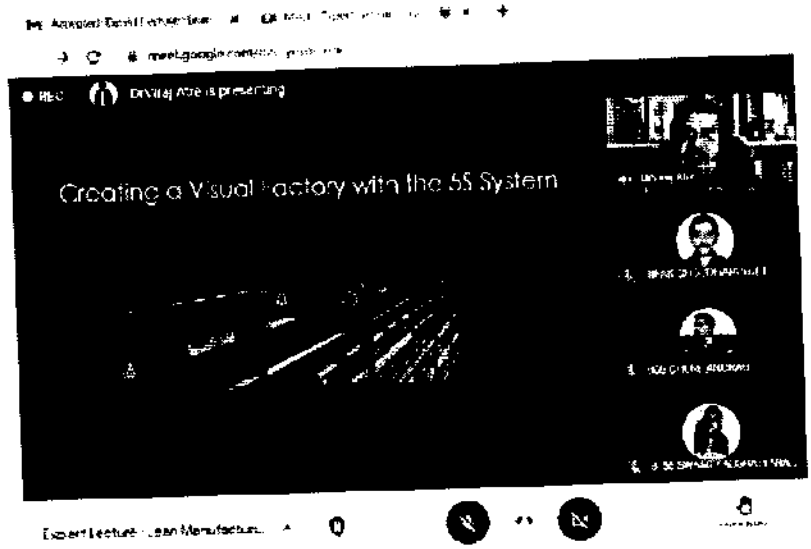
This mid-day session was arranged under the final year mechanical department's subject "Industrial Engineering and Management" to help students learn about the topic of Lean Manufacturing and related concepts from a highly qualified Industry Personnel such as Dr. Viraj Atre. Expert lecture was carried out in two separate sections, In first section subject expert focused on giving examples of various industries on the techniques used to maintain the demand and supply equilibrium with minimum wastage or losses. Focus of second section was on theoretical topics related to lean manufacturing and various lean manufacturing concept with practical applications.

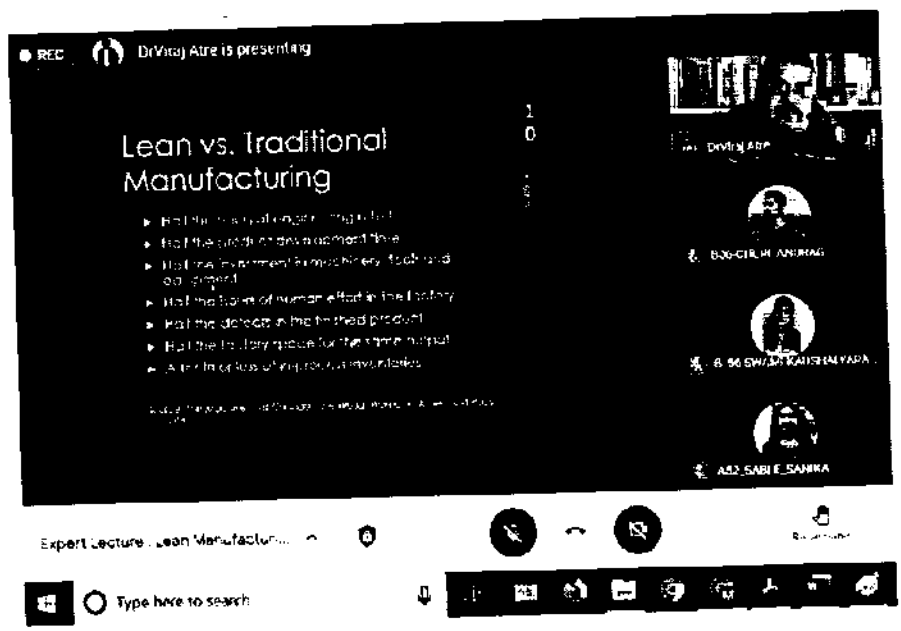
In this two hours session Dr. Atre had covered various concepts related to manufacturing and management, which was 5 S Technology. He expertly stated 5 S is housekeeping technique to reduce scrap, waste and manufacturing time, Dr Atre explain each and every term of 7 M's. These 7 M's are: Man, Machine, Material, Machine, Money, Method, Measurement, Marketing. He further went on to explain how these all factors affected an industry positively and negatively.
During session Lean expert shown some pictorial representations of Visual Factories demonstrating lean manufacturing. While going through it he pressed upon some details and features which were important to be brought into attention. In this session Dr. Atre explained that in order to introduce lean manufacturing in industry, the process begins right from design of the company. The topic also included brief information about application of lean technic in the industry as well as its importance in daily life.
Dr. Atre enlighten all important points of lean manufacturing like 5S, Kaizen, PDCA, JIT and their requirements as per the nature of industry, He splendidly explain theoretical point like Overall Equipment Effectiveness (OEE), Scheduling and its types, etc

Various parameter of traditional manufacturing and lean manufacturing were compared in this session by giving the reference of a well-known book "The machine that changed the world" by

'Wormack, Jones and Roos'1990. This part was the most important as there was a lot of things to be learnt directly served on plate which would have been hard to find otherwise on the internet or books. In a very short time Dr. Atre breezed past these topics in form of definitions as well as informative pictures. The images of how an activity is planned and displayed on the board in an Industry Floor was demonstrated as well.

Following are some highlights from the Seminar





Dr. Viraj explaining traditional manufacturing

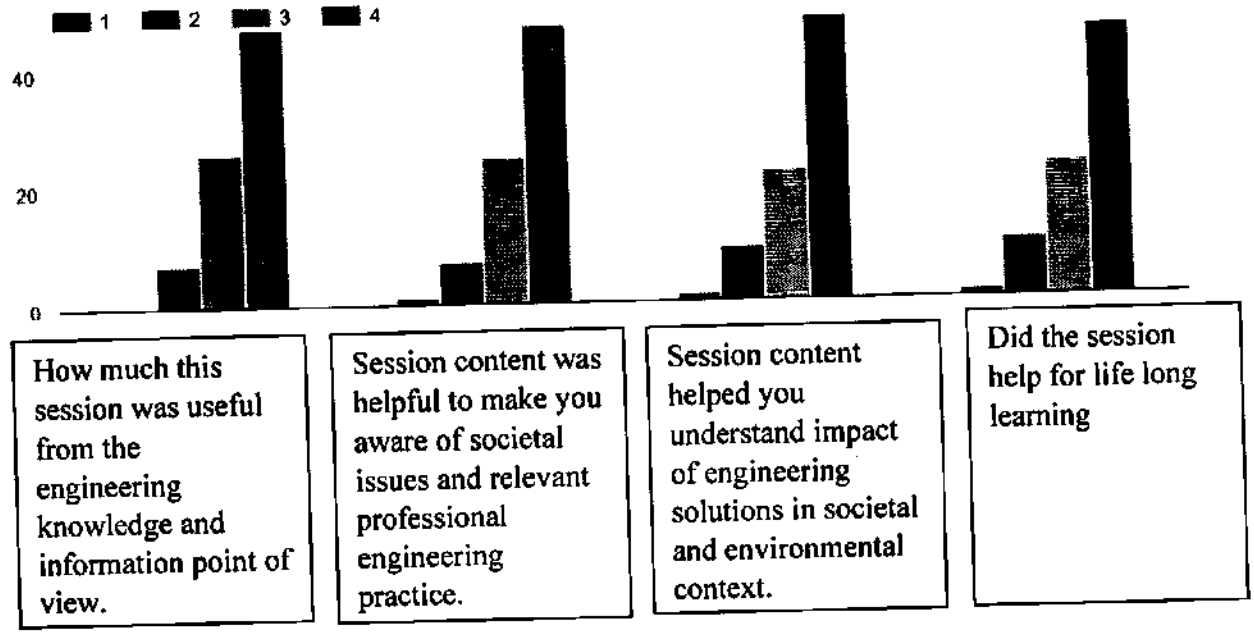
Dept. of Mechanical Engg.,
Vidyavardhini's College of
Engineering & Technology

CONCLUSION

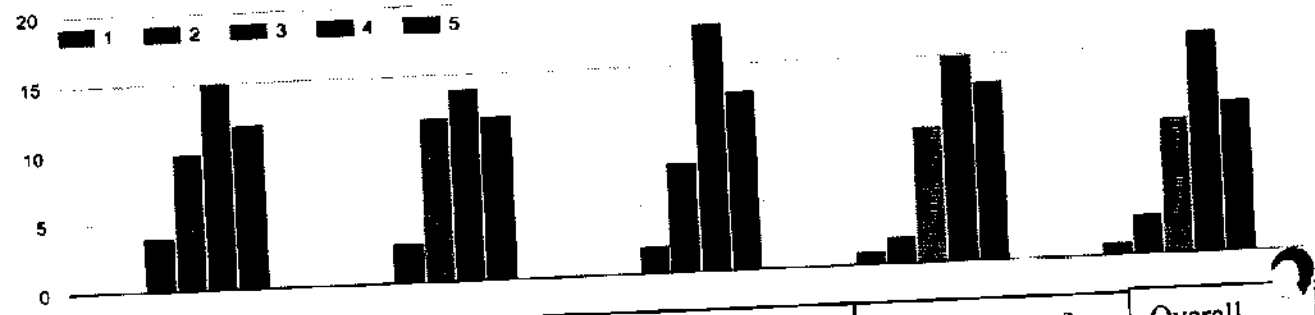
In two hours of technical knowledge sharing session, students get benefited with valuable tips important for their careers as a Professional Engineer. Dr. Atre given precious mantra to students "If you enjoy, learn it. And if you learned, apply it.". In this interactive session Dr. Atre had answered many questions related to the topic as well as his own academic marathon. Mechanical students and faculties attended this expert lecture.

Feedback Analysis

Rate on a scale of 1 to 5 (1 Low to 5 High)



Rate on a scale of 1 to 5 (1 Low to 5 High)



How informative did you find this expert lecture?	How clear were the ideas and concepts presented?	Was the speaker responsive to questions and comments reflecting diverse opinions and experiences	The duration of the event was just right. (Not too long or not too short)	Overall, how satisfied were you with the session? of NDT.

Report on Guest lecture on

Basics of AHU and career guidance in HVAC

Guest lecture was arranged for third year students of Mechanical Engineering department on 20th March 2021 from 12 noon to 2 pm on google meet for subject of Refrigeration and Air Conditioning. The topic of the guest lecture was " Basics of AHU and career guidance in HVAC". Guest speaker for the seminar was Ms. Krisha Dhamecha, Sales Engineer, Citizen Industries Ltd, Daikin group, Mumbai.

The contents of the guest lecture were

- HVAC
- Basics of VCRS
- Psychrometry
- Comfort zone for humans
- AHU and its applications
- Different configurations of AHU
- HVAC filters
- Coil types
- UVGI
- Types of fans
- Air washer
- Wet scrubber unit
- Dampers
- Career options in HVAC industry
- Q & A session

As the lecture was taken on online mode google meet recording of the session is also available.

The following is attached after the report

- Sample screenshot of lecture,
- Attendance of students
- Invite letter,
- Appreciation letter,
- Email conversation with Ms. Krisha Dhamecha,
- Sample student report
- Feedback analysis

372_Quality management system - An Overview

REPORT

Expert Lecture "Quality management system- An Overview"

Date: 02/01/2021

Industry Institute Interaction Cell and Department of Mechanical Engineering had arranged expert lecture on **"Quality Management System-An Overview"**. This seminar was delivered by Mr. Ashish Chaudhari- Works Manager (Nevatia Steel and Alloys Pvt. Ltd.)
Expert lecture was conducted on 02nd April 2021, From 7.00 pm to 8.00 pm. For Final Year Students of Mechanical Engineering through online mode.

Following points were discussed during online seminar:

(1) Introduction of QMS System

(2) Details of ISO 9001:2015 revision

(3) Process of ISO 9001 certification

(4) ISO 9001 resources

Definition: 9001 is defined as the international standard that specifies requirements for a quality management system (QMS). Organizations use the standard to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements.

Use of ISO 9001 : Organizations of all types and sizes find that using the ISO 9001 standard helps them:

- Organize processes
- Improve the efficiency of processes
- Continually improve.

Benefits: ISO 9001 specifies the requirements for an effective quality management system, organizations find that using the standard helps them:

- Organize a QMS
- Create satisfied customers, management, and employees
- Continually improve their processes
- Save costs.

Seven principles of quality management system.

Customer Focus: Organizations depend on their customers and therefore should understand current and future customer needs, should meet customer requirements and strive to exceed customer expectations.

Leadership: Leaders (top management) establish unity of purpose and direction of the organization. They should create and maintain the internal environment in which people can become fully involved in achieving the organization's objectives.

Engagement of People: People at all levels are the essence of an organization and their full involvement enables their abilities to be used for the organizaton's benefit and allow the organization to achieve common goals including quality objectives.

Process approach: A desired result are achievable more efficiently when activities and related resources are managed as a process. The process approach incorporates the Plan-Do-Check-Act (PDCA) cycle and risk-based thinking.

Improvement: Continual improvement of the organization's overall performance should be a permanent objective of the organization. Undertaking internal audits at regular intervals can assist with identifying opportunities for improvement.

Evidence-based Decision Making: Effective decisions are based on the analysis of data and information. It is important to make decisions based on the facts, plan change

Relationship Management: An organization and its interested parties (including suppliers) are interdependent, and a mutually beneficial relationship enhances the ability of both to create value. Communication is key to maintaining and improving the quality management system (QMS).

In this session Mr. Ashish Chaudhari has explained structure of ISO 9001, He has briefly explained 10 clauses of ISO 9001 as below

1. Scope
2. Normative references
3. Term and definitions
4. Context of organization
5. Leadership
6. Planning
7. Support
8. Operation

Expert talk by Mr. Ashish on Quality Management

CONCLUSION

Students and faculties of Mechanical Engineering had benefited by this one hour of interactive technical knowledge sharing session, students gain valuable knowledge about QMS, ISO 9001, Zero defect concept, Quality policy. Seventy seven Mechanical Engineering students and faculties attended this expert lecture.

Attendance: Expert Lecture "Quality management system- An Overview"

373_Seminar on CATIA V5 Automotive design software and industrial application

A seminar and hands on

"CATIA V5 Automotive design software and industrial application"-

Date:21st Nov.2020

Report of Expert Session

Objective-

To educate the students in era of modern software tools in Mechanical Engineering

Session Outcomes

1. Develop the design drawings using CATEIA V5 software
2. Interpretation of the drawings with reviewers
3. Adapt the drawings made using design dimensions for manufacturing.

Description

Mr. Chaudhari guide the students about the different soft wares being utilized for Development of automotive components.

Expert is working in domain of interior design of car dashboard of automotive vehicle. Many components like lower panel, control panel. head liner etc are designed in the industry and further manufacture it.

Industry supports TATA, Mahindra, Bajaj for development. Dashboard is instrumental board where in many number of parts and their correlation with the wiring, sizes etc becomes important. Designer should be confirming that all components should be fitted properly following guidelines from OEM. It must maintain 3 mm gap from all direction for each components.

Expert explained about the process of part development of dashboard of automotive car which begins with concept CAD development using CATIA software. Using animation tool in software it could be clearly understood the physical location of all components.

Expert demonstrates the actual dashboard designed in their industry. Also hands on tools of the CATIA software environment to develop the Dashboard drawing in 3D. However the work was confidential, to fulfil curiosity of students and practical applications of CATIA software, expert demonstrate their designs to all students.

All the factors during design like vibration, type of mountings, type of welding, type of loading are important to design well before going for CAD drawing.

Students interacted actively with the exert and discussed during question answer session. Questions like air bag in dashboard, door of car and its mechanism were discussed during the lecture.

The session was excellently executed by the expert and students get the flavour of CATIA software and its utilization professionally. Also finds new era of career path of CAD drawing expert and demand in industry.

Thank you.

Report on "Training on Tinkercad"

Event Name	Training on Tinkercad
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	25th June,2021
Chief Guest	Prof. Trupti Furia (Asst. Prof, Vcet) Prof. Shaista Khanam (Asst. Prof, Vcet)
Topic of Chief Guest	A detail introduction based on tinkercad and how it can be used to make various projects.
Important dignitaries attended	Dr. Harish Vankudre, Principal of VCET, Prof. (Dr.) Vikas Gupta, HOD of EXTC, VCET, and Dr. Amrita Ruperee(Dean of Students Affair) Dr. Sunayana Jadhav(IEEE Vcet-SB Branch Counsellor)

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Brief Report	VCET'S Career Counselling Cell in association with IEEE-SB on 25th June,2021 Training on Tinkercad was organized by the VCET's Career Counselling Cell in association with IEEE-SB on 25th June,2021 from 4pm onwards. Training on tinkercad was a great opportunity, to learn something new and to apply all the examples in real life applications. The honourable speakers for the webinar were Prof.Trupti Furia and Prof.Shaista Khanam. The webinar started by warmly welcoming the students by by Dr. Harish Vankhudre sir (Principle, Vcet). Then Prof Amrita Ruperee Maam (Dean of Students Affairs) introduced all the students related to career counselling cell and its overall work in helping students and their growth. Next Dr. Sunayana Jadhav Maam (IEEE branch counsellor) gave a brief insight on IEEE committee and explained its global influence and importance. The webinar was started by Trupti maam by introducing the students with all the electronic components and how it would be useful for the projects. As the First year students were new towards every approach, Trupti maam simply made it easy for them. She also provided a brief knowledge in every component and showed various projects and demonstrations. The second half of the webinar was taken by Shaista Maam. She introduced everyone with what is tinkercad and explained that how one can easily make some projects out of it! She also introduced the students with various microcontrollers and where and how it can be used in real life applications. She indulged students while being interactive with them. Students got to learn that Tinkercad is a free online collection of software tools that help people all over the world to think create and make. They also learned that they can bring their 3D designs to life with circuit assemblies using tinkercad. As it provides both electronics and coding features in a proper way!

	The webinar was a great insight on overall use of tinkercad and it was concluded by Q&A and ended on a thankful note!

Report of webinar on "IoT 4.0: Industrial IoT and Smart Factory"

Event Name	IoT 4.0: Industrial IoT and Smart Factory
Centre (name)	**IETE -SF, ISA-SC I center**
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	15th, June 2021
Chief Guest	Mr. Asim Sinha, CEO, IIoTexpert
Topic of Chief Guest Speech	Mr. Asim Sinha gave some impressive insights on IOT 4.0 and also gave a great impression on its future scope. This gave students better clarity on their future planning IOT industry.
Important dignitaries attended	Prof (Dr). Vikas Gupta, HOD EXTC VCET, HOD INSTRUMENTATION Dr. Deepak Gawali and IETE student forum incharge prof. Shaista Khanam and VCET ISA incharge Trupti Furia.
Brief Report including above information	Center: IETE -SF, ISA-SC Date: 15th, June 2021 Chief Guest: Mr. Asim Sinha The VCET's department of Electronics and Telecommunication in association with IETE-SF and ISA-SC, organized an educative webinar on " 4.0: Industrial IoT and Smart Factory" The webinar was inaugurated in the presence of, Prof (Dr). Vikas Gupta, HOD EXTC VCET, HOD INSTRUMENTATION (Dr). Deepak Gawali and IETE student forum incharge prof Shaista Khanam and VCET ISA incharge Trupti Furia. The webinar was conducted by Mr. Asim Sinha CEO, IoT Texpert. The **Fourth Industrial Revolution** (or **Industry 4.0**) is the ongoing automation of traditional manufacturing and industrial practices, using modern smart technology. The webinar was two and half long, Mr. Asim Sinha gave some impressive insights on this subject. He explained what exactly is Industry 4.0 and IoT. He spoke about the challenges faced by industries in today's world and discussed the solutions for the same.

	He spoke about the futuristic approach in Internet of Things and career opportunities, he also mentioned a few courses for our young undergrads. The webinar was concluded with a long Q&A session, the gusto among the students was seen during this session. The speaker briefly answered all our doubts and misgivings. A Vote of thanks was given by Ms. Shaista Khanam, IETE ISF In- charge. The webinar was a huge success with a great turnout and excellent feedback from all our students and faculty.

Report of workshop on "Octave alternative to MATLAB"

Event Name	Octave alternative to MATLAB
Centre (name)	IEEE-SB center
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	28th April 2021
Chief Guest	Prof. Trupti Shah, assistant professor at VCET.
Topic of Chief Guest Speech	Prof. Trupti Shah gave a glimpse on the Online Octave Website, an alternative to the costly MATLAB. She shared various tricks and syntax for solving the questions in the Online Octave Website. The workshop had completed by solving some of the questions in interaction with the students.
Important dignitaries attended	Prof (Dr). Vikas Gupta, HOD EXTC VCET, IETE-SF incharge Prof. Shaista Khanam and assistant Professor at VCET Prof. Ekta Naik.
Brief Report including above information	Topic: Workshop on "Octave alternative to MATLAB" Centre: IETE- SF Date: 28th, April 2021 Chief Guest: Prof. Trupti Shah The VCET's department of Electronics and Telecommunication in association with the IEEE-SB center organized an educative workshop on " Octave alternative to MATLAB". The Workshop was inaugurated in the presence of Prof (Dr). Vikas Gupta, HOD EXTC VCET, IETE-SF incharge Prof. Shaista Khanam and assistant Prof. at VCET Prof. Ekta Naik. Prof. Trupti Shah started the workshop by elaborating the difference in the features of MATLAB and Octave Online. Also, she justified the reason for using Octave online as a better alternative to MATLAB. Later on, she

online as a better alternative to MATLAB. Later on, she started by explaining all the windows in the Octave Online and also explained the format and syntax for writing the code in the online editor.

The workshop was a two-sided interactive workshop, i.e. the questions were solved simultaneously with the students. Prof. Trupti Shah explained the different types of codes necessary for Matrix operation, Signal processing, etc. She also gave a brief explanation on solving difficult level questions in Online editor. The workshop had extended till 2 hours.

The workshop was concluded with a small Q&A session, the gusto among the students was seen during the workshop. The speaker briefly answered all our doubts about the students.
A vote of thanks was given by Ms. Shaista Khanam, IETE ISF In- charge. The workshop was a huge success with a great turnout and excellent feedback from all our students and faculty.

Report on "How to get a job in VLSI"

Event Name	How to get a job in VLSI
Centre (name)	IETE-SF
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	25th April,2021 3.00pm
Chief Guest	Mr. Sourabh Mestry (SOC design engineer at Intel Technology, India. Mr. Suyog Patil (Engineer at Qualcomm, India)
Topic of Chief Guest Speech & Highlights.	The speakers gave an impressive insight on actual VSLI industry and its various career opportunities.
Important dignitaries attended	Dr. Vikas Gupta (HOD EXTC)
Brief Report including above information	On 25th April 2021, VCET's Electronic and Telecommunication department in association with IETE-SF organized an informative webinar on How to get a job in VLSI with an expert lecture on Importance of hardware descriptive language. The webinar was conducted virtually from 3pm onwards. The honourable speakers for the webinar were Mr. Sourabh Mestry and Mr. Suyog Patil experts in the field of VLSI respectively. The webinar started by warmly welcoming the speakers and all the students who were present for the webinar. The speakers gave an impressive insight on actual VSLI industry and its various career opportunities. Students got to know that VLSI is the foundation of all the industries! As VLSI is one of the best career options those who are looking for core job. VlSI is the back bone of upcoming technologies like AI and Machnine learning. There was overview of VLSI from the scratch. Speakers made it simple and fun to make students understand its importance. Even VLSI design flow was explained. Speakers answered all the possible questions through out the session. Students showed a keen interest in the subject and poured and asked a lot of relatable questions and all of their doubts were cleared. Students learned that the electronics industry has achieved a phenomenal growth over the last few decades, mainly due to the rapid advances in large scale integration technologies and system design applications. With the advent of very

	large scale Integration (VLSI) designs, the number of applications of integrated circuits (ICs) in high-performance computing, controls, telecommunications, image and video processing, and consumer electronics has been rising at a very fast pace. VLSI offers diverse job profiles with excellent career growth and pay packages in India and Abroad. Lastly the webinar was concluded by explaining the importance of Hardware descriptive Language(hdl) following by a Q&A session. Lastly Dr. Vikas Gupta (hod extc) and Mrs. Shaista Khanam gave vote of thanks respectively.

Report of webinar on "Cybersecurity and it's now-a-day application"

Event Name	Cybersecurity and it's now-a-day application
Centre (name)	IETE-SF and IETE-MUMBAI center,
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	25th February 2021
Chief Guest	Mr. Anirudh Iyer, Cybersecurity solutions architect, Cisco, Canada.
Topic of Chief Guest Speech	Mr. Anirudh Iyer gave some impressive insights on this subject. He spoke about the challenges faced by industries in today's world and discussed the solution for the same. He spoke about the futuristic approach in Cybersecurity and career opportunities. The webinar was concluded with a long Q&A session
Important dignitaries attended	Mr.Parag Walinjkar, Chairman , IETE Mumbai Center, Ms.Smita Ionkar, Treasure, IETE Mumbai Center , Prof (Dr)..Vikas Gupta , HOD EXTC VCET. Prof.(Dr) J.W .
Brief Report including above information	Mumbai : Cybersecurity Center : IETE Mumbai Center Date : 25th, February 2021 Chief Guest : Mr. Anirudh Iyer The VCET's department of Electronics and Telecommunication in association with IETE-SF and IETE-MUMBAI center, organized an educative webinar on "Cybersecurity Landscape -Tools, technologies and frameworks to defend against threat actor" to celebrate IETE students Day. The webinar was inaugurated in the presence of Mr.Parag Walinjkar, Chairman , IETE Mumbai Center, Ms.Smita Ionkar, Treasure, IETE Mumbai Center , Prof (Dr)..Vikas Gupta , HOD EXTC VCET. Ms.Smita read the President , Prof.(Dr) J.W .Bakal message on IETE students day. Prof (Dr). Vikas Gupta brief about IETE

	ISF activities and its importance for students. Mr.Parag walinjkar talked about the benefits of IETE Society.The webinar was conducted by Mr. Anirudh Iyer, Cybersecurity solutions architect, Cisco, Canada. Cybersecurity is important because it encompasses everything that pertains to protecting our sensitive data. It is crucial and the need of the hour to understand such profound technologies and tools as the global world progresses. The webinar was an hour and half long, Mr. Anirudh Iyer gave some impressive insights on this subject. He spoke about the challenges faced by industries in today's world and discussed the solutions for the same. He spoke about the futuristic approach in Cybersecurity and career opportunities, he also mentioned a few courses for our young undergrads. The webinar was concluded with a long Q&A session, the gusto among the students was seen during this session. The speaker briefly answered all our doubts and misgivings. Vote of thanks was given by Ms. Shaista Khanam, IETE ISF In- charge. The webinar was a huge success with a great turnout and excellent feedback from all our students and faculty. Report of Webinar on "Introduction and code walkthrough Embedded System"

Event Name	Embedded systems and understanding the coding rules.
Centre (name)	**IETE-SF**
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	24th February 2021
Chief Guest	Mr. Manish Iyer, Tech Lead in Capgemini.
Topic of Chief Guest	He gave a detailed introduction about the embedded system and also elaborated its Practical uses. He explained the difference between C language and embedded C
Important dignitaries attended	Mr. Parag Walinjkar, Chairman of IETE- Mumbai center, Dr. Harish Vankudre, Principal of VCET, Prof. (Dr.) Vikas Gupta, HOD of EXTC, VCET, and Prof. Shaista Khanam, in-charge of IETE-SF. Prof. Shaista Khanam

Brief Report	On **24th February 2021; The Department of Electronics and Telecommunication** of Vidyavardhini's College of Engineering and Technology in association with **IETE-SF** organized an Introductory webinar on **"Introduction and code walkthrough Embedded System".** The Webinar was inaugurated in the presence of Mr. Parag Walinjkar, Chairman of IETE- Mumbai center, Dr. Harish Vankudre, Principal of VCET, Prof. (Dr.) Vikas Gupta, HOD of EXTC, VCET, and Prof. Shaista Khanam, in-charge of IETE-SF. Prof. Shaista Khanam gave a brief introduction about the IETE-SF and its activities performed in the college. She also gave a glimpse of the importance of attending the webinar. The Webinar was conducted by Mr. Manish Iyer, Tech Lead in Capgemini. Also, he is an alumnus of VCET. He gave a detailed introduction about the embedded system and also elaborated its Practical uses. He explained the difference between C language and embedded C. Also, shared some knowledge about why language C is mostly preferred in embedded systems. The Webinar concluded with some interactive Q&A session, the enthusiastic feeling among the students were seen during this session. At the end of this session, Prof. Shaista Khanam delivered the vote of thanks. The webinar was a huge success with a tremendous turnout and excellent feedback from all our students and faculty.

Report on "Arduino Workshop"

Event Name	Arduino Workshop
Centre (name)	IEEE-SB
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	1st -3rd Feb,2021 2.00-4.00pm
Chief Guest	Prof. Shaista Khanam (Asst. Prof,VCET)
Topic of Chief Guest	The topic was based on Arduino and its programming and how the students can make various interesting projects out of it.
Important dignitaries attended	

Vidyavardhini's College of Engineering & Technology

Department of Electronics and Telecommunication Engineering

Brief Report	A Three Day workshop on Arduino was organized by the VCET's Department of Electronics & Telecommunication Engineering in association with IEEE-SB from 1st-3rd February,2021 from 2:00 -4:00 pm . The workshop was organized for Second Year students.The main objective of this workshop was to provide the fundamental knowledge of Arduino Programming . The topics covered in the workshop include – Hardware and Software Programming. The outcome of the workshop was to brush our skills on arduino as well as its simulator. This informative workshop was taken by Prof.Shaista Khanam (Asst.professor,VCET). On the first day, Prof.Shaista Khanam started the event workshop by giving a brief description of the components which will be used during the workshop along with the basic coding required for coding Arduino UNO .On second day we got to know How to use the Arduino IDE (Integrated Development Environment),Powering and connecting your Arduino to your computer and Uploading programs to your Arduino board. By the end of the third day students had in-depth knowledge of arduino and hence were able to technically know how to work with arduino and its application in various domains of the present technological era. During the session of three days , the students were given an insight into Introduction to Open Source platform system tools, Interfacing of I/O devices, LEDs, Switch, Buzzer. The students were also taught about Interfacing of Display Devices. With the help of this workshop, IEEE -SB has tried to instill a basic knowledge of Arduino on students which will be very useful to them for their future projects.

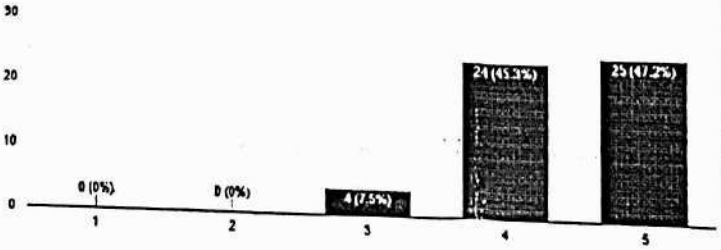
How was the technical arrangement for the workshop?

53 responses



What you liked most about the workshop?

53 responses

.

The practical and knowledge displayed

It was interesting and got to know more about what Arduino exactly is

The workshop was too helpful and it gave us a lot of insight about LCD seven segment display

Great explanation,clearing doubts

Arduino

Led,7 seg display, infrared sensor

Doubts were cleared properly

Precise explanation about working of Arduino

Any sugesstions/opinions

53 responses

No

No.

.

Nothing

Would love to attend more workshop in future

Na

No suggestions as everything was conducted smoothly

NO

Very good teaching

"Report of webinar on "How to be industry ready for Telecom sector"

Event Name	How to be Industry ready in the telecom sector
Centre (name)	**IETE-SF** and **IETE-MUMBAI** center
Venue (College/Institute)	Vidyavardhini's College of Engineering and Technology
Date & Time	31st, October 2020
Chief Guest	Ms Rakhee Sonawane, Deputy General Manager, Tata communication.
Topic of Chief Guest Speech	Ms Rakhee Sonawane gave a really good insight on what are the current telecom sector demands. This gave students better clarity on their future planning regarding the telecom industry.
Important dignitaries attended	Mr. Parag Walinjkar, Chairman, IETE Mumbai Center, Dr Harish Vankudre, Principal VCET Vasai Ms.Smita Lonkar, Treasure, IETE Mumbai Center, Prof P Prabhakar, Wing Commander, Vice president IETE, Prof (Dr). Vikas Gupta, HOD EXTC VCET.
Brief Report including above information	On **31st, October 2020**; The **VCET's department of Electronics and Telecommunication** in association with **IETE-SF** and **IETE-MUMBAI** center, organized an informative webinar on **"How to be industry ready in the Telecom sector"**

	The webinar was inaugurated in the presence of Mr. Parag Walinjkar, Chairman, IETE Mumbai Center, Ms.Smita Lonkar, Treasure, IETE Mumbai Center, Prof P Prabhakar, Wing Commander, Vice president IETE, Prof (Dr). Vikas Gupta, HOD EXTC VCET. Ms.Smita read the President, Dr Harish Vankudre, Principal VCET Vasai. Prof (Dr). Vikas Gupta brief about IETE ISF activities and its importance for students. Mr.Parag Walinjkar talks about the benefits of IETE Society. The webinar was conducted by Ms Rakhee Sonawane, Deputy General Manager, Tata communication. The Telecom department has shown its worth more than ever in such catastrophic times of COVID-19. Communication was made possible by the telecom department which helped friends and family to stay connected even during the period of complete lockdown. The webinar was attended by 73 students in total, Ms Rakhee Sonawane gave a really good insight on what are the current telecom sector demands. This gave students better clarity on their future planning regarding the telecom industry. The webinar concluded with an interactive Q&A session which helped students

	clearing their doubts regarding the industry. It was a wonderful webinar that lasted little over an hour. Vote of thanks was given by Ms. Shaista Khanam, IETE ISF In- charge. The webinar was a huge success with a great turnout and excellent feedback from all our students and faculty. **YouTube link for webinar:** **https://youtu.be/c8UPNOUW34Y**

383_Seminar on Preparing for Campus Recruitment

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF INSTRUMENTATION ENGINEERING

VCET ISA Student's Section

Seminar for Campus Placement

The seminar was conducted by Mr. Abhishek Singh and Mr. Pritesh Hariyan on 28th January 2021 from 09:30 am to 11:00 am. During this period, they spoke about resume building, important things a resume should contain for it to look aesthetic as well as to give complete information about the person. They focused on Personal interviews and shared a few points that need to be remembered while attending interviews.

Vidyavardhini's College of Engineering and Technology

385_Online Seminar on Latex

Department of Instrumentation Engineering

VCET ISA Students' section

ISA Students' Chapter of Vidyavardhini's college of Engineering and Technology organized a seminar for the final year students on the LaTex software which can be used for preparing reports, technical paper's, presentations and many other technical documents in a very convenient way. The eminent speaker of the seminar was Dr. Sharad Jhadhav, HOD instrumentation at RAIT. Seminar was held on 7th December, 2020 from 11:30 am till 1:30pm. The seminar started by a welcome speech given by the president of the committee Mr. Smit Desai. The seminar then continued with a brief introduction to latex followed by installation of latex, Dr. Jhadhav also shared the benefits of using the latex software over other applications that are used for preparation of reports or any other sort of technical document. Later the seminar continued on how to use latex. At the end of the seminar there was a question answer round for students, so they can ask questions they have and finally the seminar ended with vote of thanks given by the Vice president of the committee Ms. Mrunali Phad to Dr. Sharad Jhadav for lending us his precious time.

388_On-line seminar on Control Panel and Control room Design

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Control Panel & Control Room Design
Seminar /Visit conducted by	Mr. Atul Sawant RCF
Seminar /Visit Organised by	Kanchan Sarmalkar
Date and Timing	12/5/2021,12 pm to 11.30 am
Seminar /Visit for SE/TE/BE/faculty	BE students
No students /faculty attended	29
Topics covered/visit Summary	1. Panel size selection 2. IP classification 3. NEMA standard 4. GA drawing 5. Power wiring and distribution 6. I/o module wiring 7. Earthing scheme 8. Panel ventilation cooling and illumination 9. Different panel component 10. Panel purging

Kanchan 12/05/2021

Mrs. Kanchan Nehal Sarmalkar
Assistant Professor, Department of Instrumentation Engineering

Expert Lecture On Control Room & Control Panel Design By Mr. Atul Sawant, RCF, Chembur_ISD Sem VIII (2020 - 21) _12 May 2021

Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

Feedback on Expert Lecture on Control room Design & Control Panel Design _ by Atul Sawant (Responses)

390_Student Development Program(SDP),Documentation and Execution of Instrumentation Projects

REPORT

Program Title	Student Development Program on "Documentation & Execution of Instrumentation Projects"
Speaker	Mr.Rajesh Shah. Raj Engineering Consultant
Organised by	Department of Instrumentation Engineering Chairman: Dr. Harish Vankudre Convenor: Dr. Deepak Gawali Co-ordinator: Mrs. Mugdha Salvi Organising Team: Mrs. Kanchan Sarmalkar, Mr. Prafulla Patil, Mr. Vishal Pande, Mrs. Deepti Patne, Mrs. Trupti Furia, Mr. Sandeep Pawar, Mrs. Priyanka Bhoir, Mr. S. Konar.
Date and Timing	13th to 17th of April 2021
Organised for	BE students
No students attended	50
Topics covered	Day 1: Introduction to instrumentation Brief introduction to the hard core instrumentation Job Profiles Brief introduction to the Design & Detailed Engineering in Instrumentation Introduction to P&ID Understanding legends and symbols Reading the P&ID Preparation of the Instrument List / Index Preparation of the Input & Output List Question & Answers Day 2: Preparation of Instrument datasheets Pressure Temperature Flow

	Level Control Valves On-Off Valves Analysers Fire & Gas Detectors Question & Answers Day 3: Preparation of hookup drawings Preparation of Instrument location layouts Preparation of Instrument cable routing layouts Preparation of Junction Box termination details Preparation of Instrument cable schedule 3D model Question & Answers Day 4: Preparation of Loop Diagrams Knowing about control systems - DCS / PLC / ESD / SCADA "Knowing about instrumentation softwares SPI InTools, COMOS, AVEVA" Question & Answers Day 5: Summary of Day 1 to 4

Seminar o
& it's applicatio
Shah on 10/2

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Seminar on "Control Valve And It's application"
Seminar /Visit conducted by	Mr.Rajesh Shah, Proprietor ,Nice consultancy
Seminar /Visit Organised by	Mrs.Deepti Patne
Date and Timing	10/2/21 and timing 11.30 am to 2pm
Seminar /Visit for SE/TE/BE/faculty	SE,TE and BE
No students /faculty attended	103
Topics covered/visit Summary	❑ What is control valve ❑ Terminology related to control valve ❑ Types of control valve ❑ Characteristics of control valve ❑ Application of control valve ❑ Industry application of control valve ❑ Industry requirement for instrumentation Engineering

Deepti

Ms.Deepti Patne
Asst.prof.
Instrumentation Department

Quiz Response: 103 Students.

393_On-line seminar on Instrumentation in Power Plant

Sem in P Hemant Pati

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Seminar on "INSTRUMENTATION IN POWER PLANT"
Seminar /Visit conducted by	MR.HEMANT PATIL,Asst.Engg C&3 500*2 MW Chandrapur Super Thermal Power Plant
Seminar /Visit Organised by	Mrs.Deepti Patne
Date and Timing	3/3/21 at 11.30am
Seminar /Visit for SE/TE/BE/faculty	BE students
No students /faculty attended	25
Topics covered/visit Summary	1.Thermal Power plant overview 2.Components involved in thermal power plant 3.Layout of thermal power plant 4.sensors involved in thermal power plant 5.DCS graphics of thermal power plant 6.JOb opportunities in PSU 7.How to prepare for PSU test and interview.

Deepti

Ms.Deepti Patne
Asst.prof.

F/B of quiz - 18 students.

394_Virtual Industrial Visit

Virtual Industrial Visit Report

Subject: Industrial visit in Ratna Electronic Services at Boisar

Guests: Mr. Sanket Bang, Mr. Madhusudhan Bang

B.E. members went for visit: Mr. Athang Sankhe and Mr. Aniruddha Patil

On February 5th 2021, the Department of Instrumentation of Vidhyavardhini's College of Engineering held an online Virtual Industrial visit to Ratna Electronic Services, which focused on equipping the students with the practical knowledge of Electromagnetic flow-meters & valves used in Waste-water treatment plants.

The company has an expertise in instrument calibration, validation, & repairing. The Proprietor of the company Mr. Sanket Bang & Mr. Madhusudhan Bang who is the Alumni (Batch:2013) of the college were the guide/expert for the visit. They also shed light on various steps to be taken in the direction to flourish the Indian Process Industry for a fresher.

Thereafter at 3p.m. the virtual industrial visit started. During the visit, the participants had the opportunity to learn about the practical application of electromagnetic flow-meters, solenoid valves, digital indicators, temperature transducers, level transducers and their modbus communications used generally in water treatment plants. The last 10 minutes of the lecture was the Q&A session where students were encouraged to ask questions or queries to the expert regarding to the topic/field which made the interaction more productive and at around 4 pm visit was over.

All in all the lecture helped the students to have a better insight to the practical use of various industrial devices in a Modbus communication.

Kanchan 5/02/2021

Mrs. Kanchan Nehal Sarmalkar

Assistant Professor, Department of Instrumentation Engineering

VCET, Vasai

395_Digitalisation in manufacturing Industry

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECH... Y

DEPARTMENT OF INSTRUMENTATION ENGINEERING

VCET ISA Student's Section

Digitization in manufacturing industry

A seminar on "Digitization in Manufacturing Industry" was held on 30th January,2021 from 9:30 am to 11:30 pm. The speaker for the seminar was Mr. Lalit Bangera, Process Design Specialist, Siemens Pvt Ltd Singapore. He gave a brief overview of the manufacturing industries and asked students to map down their passion to a certain industry and study it in depth. And also spoke on smart manufacturing in industries that connect OT with IT.

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY

396_Online Alumni Talk on Applications of Gas Analyzers

VASAI ROAD (WEST)

DEPARTMENT OF INSTRUMENTATION ENGINEERING

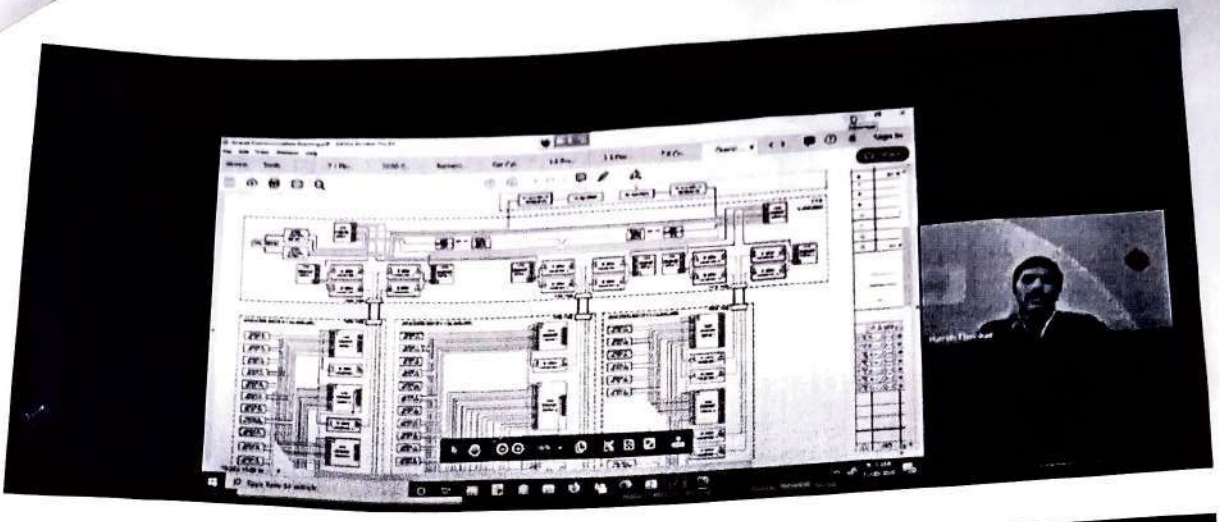
REPORT

Seminar Topic/Visit at	Applications of Gas Analyzers
Seminar /Visit conducted by	Mr. Harsh Thankar (Alumni 2000 Batch) Sr. Project Engineer, CSPCIC Co. Ltd., Jubail, Saudi Arabia
Seminar /Visit Organised by	Kanchan Sarmalkar
Date and Timing	20/11/2020, 10.30 am
Seminar /Visit for SE/TE/BE/faculty	BE students
No students /faculty attended	49
Topics covered/visit Summary	1. Principle of Gas Chromatography 2. Chromatographic Columns 3. Detector types 4. Programmer 5. Applications in Industries.

Kanchan 20/11/2020

Mrs. Kanchan Nehal Sarmalkar

Assistant Professor, Department of Instrumentation Engineering



Industrial Automation Expert Lecture by Mr. Harsh Thankar

Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

397_Expert session on Process Control Technology

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY

VASAI ROAD (WEST)

DEPARTMENT OF INSTRUMENTATION ENGINEERING

REPORT

Seminar Topic/Visit at	Seminar on "Process Control Technology"
Seminar /Visit conducted by	MR.HEMAL DESAI,Vice President (ENDRESS+HAUSER)
Seminar /Visit Organized by	Mugdha Salvi
Date and Timing	5/11//20 at 10.00 am
Seminar /Visit for SE/TE/BE/faculty	BE+TE students
No students /faculty attended	35
Topics covered/visit Summary	1. Process Control 2. Sensors & Transmitters 3. Transmitter application according to industry 4. Job opportunities in instrumentation. 5. Job opportunities especially in Sales in Instrumentation.

Mrs. Mugdha Salvi
Assistant Professor
Department of Instrumentation

Vidyavardhini's College of Engineering & Technology
Department of Instrumentation Engineering
Academic Year 2021-22

399_On-line Technical Session on Transmitters

Instrumentation Department

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY
VASAI ROAD (WEST)
DEPARTMENT OF INSTRUMENTATION ENGINEERING
REPORT

Seminar Topic/Visit at	Seminar on "TRANSMITTER"
Seminar /Visit conducted by	MR.DhANJAY Bhavsar
Seminar /Visit Organized by	Mrs.Deepti Patne
Date and Timing	3.00pm 13/09/2020
Seminar /Visit for SE/TE/BE/faculty	BE+TE students
No students /faculty attended	92
Topics covered/visit Summary	1. transmitter types 2. transmitter application according to industry 3.job opportunities in instrumentation. 4.Job opportunities especially in Sales in instrumentation.

Deepti

Ms.Deepti Patne
Asst.prof.

Respected Sir,

Virtual lab nodal center 17, Vidyavardhini's College of Engineering & Technology, Vasai in association with Virtual Lab portal, College of Engineering Pune successfully organized and completed a two-week SDP "Parikshan-2020 Experiment on click" from 22nd June to 3rd July 2020. Participants for this program were students of Engineering colleges and Polytechnics across the India. Each participant was provided by the laboratory experiment link every second day. Participant had performed assigned work for every two days. i.e. performed experiments and attempted quiz based on experiments performed. Total five quizzes were assigned. Eligibility criteria for a certificate was decided to score minimum average 40% marks of all the quizzes. Program Coordinators supervised their presence on portal. Participant who performed all the experiments and completed all the task were awarded with a eCertificate from Vidyavardhini's College and Virtual lab COEP.

Total 3000 plus students of 14 Universities from 8 different states across India participated in this program. 408 participants completed all the tasks and awarded with a certificate.

401_Workshop on How to register on Virtual Lab & How to perform practical for FE students

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year 2020-21

26/05/2021

Report on a Workshop on "How to register on Virtual Lab and How to perform Practical's"

Date: 26th May 2021

Time: 2 pm to 4 pm

Speaker: Mrs. Sneha Mhatre, Assistant Professor, Vidyavardhini's College of Engineering and Technology

Organized by: Vidyavardhini's College of Engineering and Technology

The session began with a brief introduction by Mrs.Sneha Mhatre

The key points discussed in the workshop were:

1. What is Virtual Lab?
2. How to register on COEP Virtual Lab?
3. Step wise demonstration of registration process on COEP Portal
4. Hands-on session of Experiments on Virtual Lab
5. Benefits of Virtual lab usage in pandemic situation.

The workshop was arranged for all FE Students and attended by 324 students

Prepared by

Mrs.Sneha Mhatre

Assistant Professor, Department of Computer Engineering

Feedback on "How to register on Virtual Lab & How to perform practical" Workshop

Timestamp	Email Address	Name	Roll No	Branch	Was this se	Did it fulfill	The session	Overall Feedback/ Suggestions
5/26/2021 11:21:52	jayesh.203018105@	Jayesh Berde	2	Computer Science	Yes	Yes	Yes	The virtual labs are very important. Thank you.
5/26/2021 16:05:15	aniket.200582107@	ANIKET BARKADE	2	Mechanical Engine	Yes	Yes	Yes	Good
5/26/2021 11:20:20	aashish.200602101	Aashish Shamrao Bhin	4	Mechanical Engine	Yes	Yes	Yes	No suggestion
5/26/2021 11:20:04	shivani.200071201	Shivani Sandesh Falar	8	Electronics and Te	Yes	Yes	Yes	NO
5/26/2021 11:22:00	deepali.203759201	Deepali Kothari	9	Artificial Intelligenc	Yes	Yes	Yes	Informative
5/26/2021 11:20:15	hasti.201253201@	Hasti Datar	10	Computer Enginee	Yes	No	Yes	It was okay
5/26/2021 11:21:08	harshkumar.20309	Harshkumar Devmurar	10	Computer Science	Yes	Yes	Yes	Very good session
5/26/2021 11:21:21	anish.201914101@	Anish Subhash Dalvi	10	Information Techn	Yes	Yes	Yes	Nicely explained about the Virtual Lab.
5/26/2021 11:28:45	riddhi.200091201@	Riddhi Garudkar	10	Electronics and Te	Yes	Yes	Yes	Nice
5/26/2021 11:32:54	rohit.200662101@	Rohit choudhary	10	Mechanical Engine	Yes	Yes	Yes	Nice
5/26/2021 11:20:44	vaishnavi.2012632	Vaishnavi Deshmukh	11	Computer Enginee	Yes	Yes	Yes	It was informative
5/26/2021 11:20:53	soham.203108101(	Soham Dey	11	Computer Science	Yes	Yes	Yes	Explanation
5/26/2021 11:20:58	chandrashekhar.20	Chandrashekhar Mishr	11	Mechanical +Civil I	Yes	Yes	Yes	Good
5/26/2021 11:21:36	divyah.203779101(	Divyah Mandavia	11	Artificial Intelligenc	Yes	Yes	Yes	It was a very good and informative Session
5/26/2021 11:22:00	vaishnavi.2019242	Vaishnavi Deokar	11	Information Techn	Yes	Yes	Yes	The session was really useful.!!
5/26/2021 13:32:26	deven.200101105@	Deven Gharat	11	Electronics and Te	Yes	Yes	Yes	It was very helpful
5/26/2021 11:19:17	Shravani.2019342(	Shravani Nitin Gavali	12	Information Techn	Yes	Yes	Yes	Nice initiative
5/26/2021 11:19:22	vaidehi.20011201@	Vaidehi Gohil	12	Electronics and Te	Yes	Yes	Yes	.
5/26/2021 11:19:57	siddharth.2012731(	Siddharth Dhodi	12	Computer Enginee	Yes	Yes	Yes	Everything was good
5/26/2021 11:20:18	dhruv.203789101@	DHRUV MEWADA	12	Artificial Intelligenc	Yes	Yes	Yes	.
5/26/2021 11:20:59	krutarth.200682101	Krutarth Deshpande	12	Mechanical Engine	Yes	No	Yes	Average
5/26/2021 11:19:09	vishal.201944101@	Vishal Gupta	13	Information Techn	Yes	Yes	Yes	It was good
5/26/2021 11:20:05	prerna.201283202(	Prerna Gawali	13	Computer Enginee	Yes	Yes	Yes	It was really helpful
5/26/2021 11:20:15	kaustubh.20312811	Kaustubh Gawade	13	Computer Science	Yes	Yes	Yes	No
5/26/2021 11:20:39	manohar.20069210	Manohar Devadiga	13	Mechanical Engine	Yes	Yes	Yes	.
5/26/2021 11:20:40	viraj.203799102@v	Viraj Mhaske	13	Artificial Intelligenc	Yes	Yes	Yes	Good explanation.
5/26/2021 11:22:13	aastha.200121205(	Aastha Gulhane	13	Electronics and Te	Yes	Yes	Yes	Overall all experiments are here it's very helpfull virtually
5/26/2021 11:18:54	divyen.201293101(	Divyen Purvesh Ghara	14	Computer Enginee	Yes	Yes	Yes	-
5/26/2021 11:20:39	sakshi.203809207(	Sakshi Anil Mhatre	14	Artificial Intelligenc	Yes	Yes	Yes	The session was informative
5/26/2021 11:20:40	divyen.201293101(	Divyen Purvesh Ghara	14	Computer Enginee	Yes	Yes	Yes	-
5/26/2021 11:21:17	vishal.200702103@	Vishal vishram dhinde	14	Mechanical Engine	Yes	Yes	Yes	It's very useful for the practical session
5/26/2021 11:21:51	nilesh.200131101@	Nilesh Jangid	14	Electronics and Te	Yes	Yes	Yes	Very nice
5/26/2021 11:22:30	vedant.203138102(	Vedant Gholap	14	Computer Science	Yes	Yes	Yes	Great session
5/26/2021 11:22:40	manaswi.20195420	Manaswi Jadhav	14	Information Techn	Yes	Yes	Yes	it was quite an informative work shop where we got to learn how to perfor
5/26/2021 11:20:11	shubham.2001411(	Shubham Jha	15	Electronics and Te	Yes	Yes	Yes	Nice session overall
5/26/2021 11:20:19	parth.201303101@	PARTH GHARAT	15	Computer Enginee	Yes	Yes	Yes	It was a very Informative session
5/26/2021 11:20:59	omkar.200712101@	Omkar Dhuri	15	Mechanical Engine	Yes	Yes	Yes	It is very useful for us for performing practical it is good session
5/26/2021 11:21:15	omkar.201964101@	Omkar Jadhav	15	Information Techn	Yes	Yes	Yes	It was very informative about how to perform practicals on virtual lab.
5/26/2021 11:21:52	vedantika.2031482	vedantika ghorpade	15	Computer Science	Yes	Yes	Yes	good
5/26/2021 11:22:29	arpit.203819101@v	ARPIT SUWASHCHAN	15	Artificial Intelligenc	Yes	Yes	Yes	NA
5/26/2021 11:20:48	sakshi.201313207@	Sakshi Ghonge	16	Computer Enginee	Yes	Yes	Yes	Its very easy to use
5/26/2021 11:22:05	shlok.202324101@	Shlok shetty	16	Information Techn	Yes	Yes	Yes	Appreciate your hardwork
5/26/2021 11:22:30	Prashant.2007221(	Prashant Arvind Dubey	16	Mechanical Engine	Yes	Yes	Yes	Too many people logged in at the same time so the sites crashed and tha
5/26/2021 11:23:58	diksha.203829201(	Diksha Mulik	16	Artificial Intelligenc	Yes	Yes	Yes	Very nice

Report on Seminar

Undertaking Literature Review

Date: 16th June, 2021

Time: 11:00 am

Speaker: Dr. Tatwadarshi P. Nagarhalli and Prof. Sneha Mhatre

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

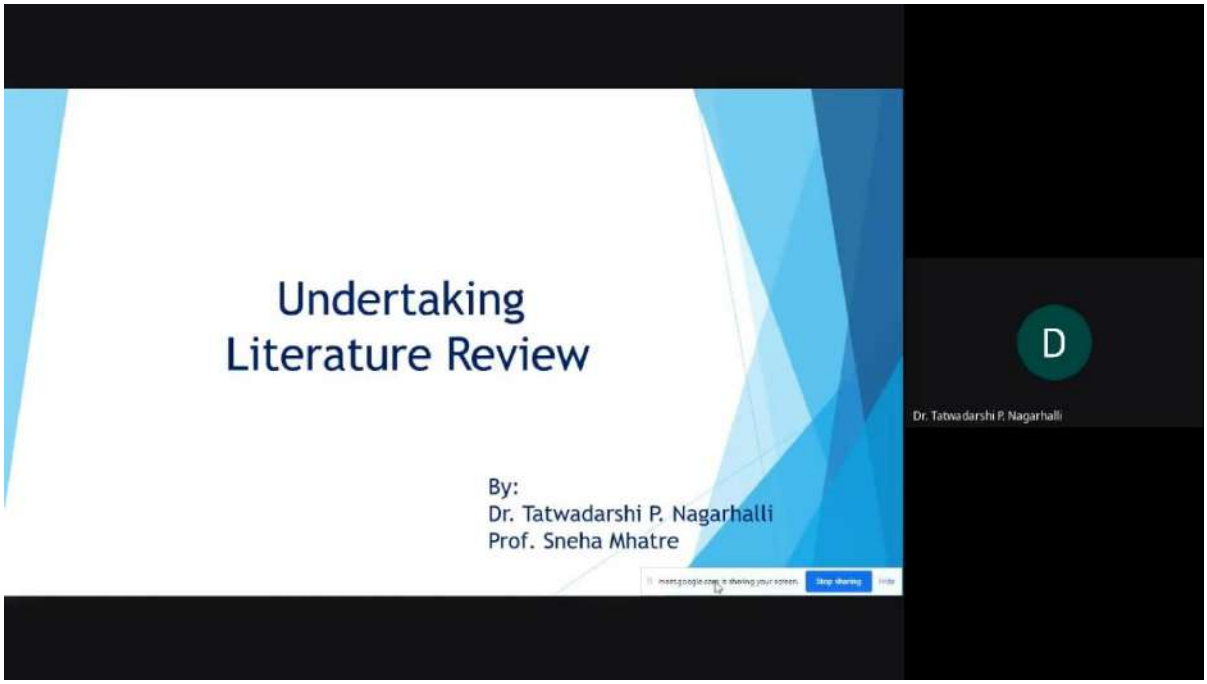
Key points shared with students among others include:

1. Types of Projects
2. Types of Research Papers
3. Conducting Review of Literature
4. Documenting your Review findings
5. Sources of Research Paper

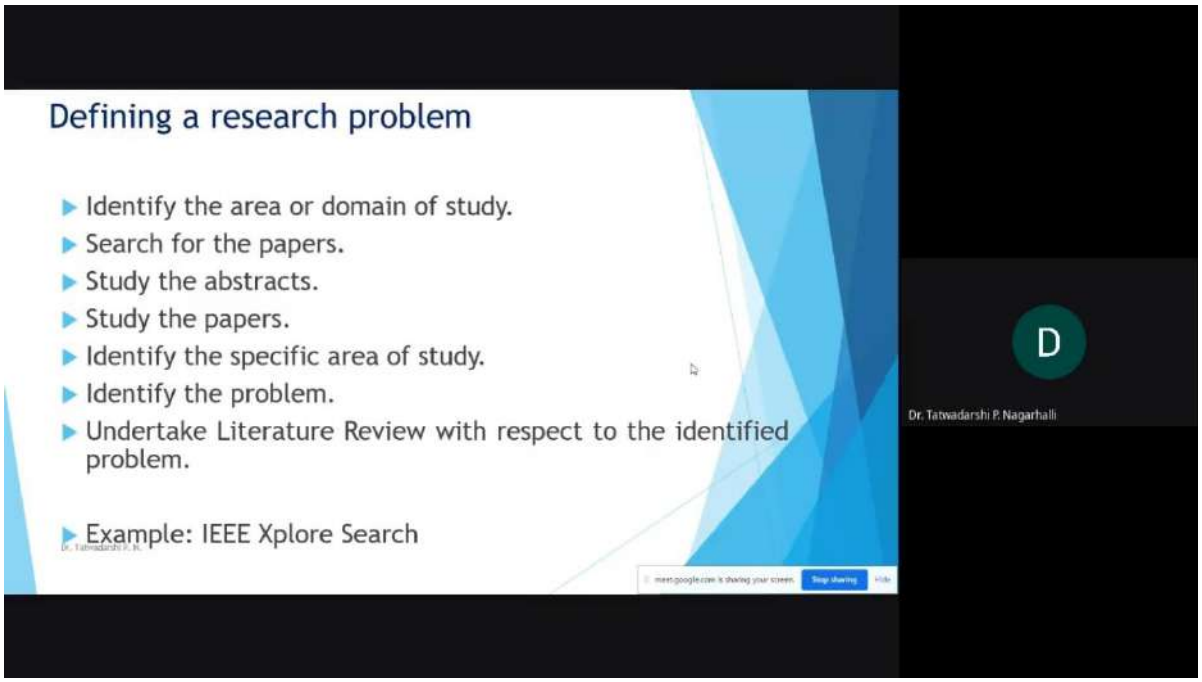
The seminar was attend by 60 students and all the faculty member of the department.

Prepared by

Dr. Tatwadarshi P. N.



Slide show by the speaker



Speaker conducting the session

AY: 2020-21

Attendance list for Seminar on

'Undertaking Literature Review'

Sr. No.	Name of the Student
1	SARANG DATTATRAYA WAGHMARE
2	UMESH SUKRYA KHARPADE
3	VINAY SURESH DEVIKAR
4	JASH MAYUR GHELANI
5	ANIKET SATYAPRAKASH SINGH
6	DAIDEEPYA RAJENDRA VANMALI
7	VINAYAK VISHRAM DHINDE
9	PARIKSHIT GANESH JADHAV
10	HITESH KAMALAKAR GOSAVI
11	KALYANI RAMESH SANAP
12	SALMAN SARVAR ANSARI
14	ABHISHEK BALASAHEB BHINGLE
15	RUTUJA SURESH CHAWARA
18	SIDDHI NARESH DABHOLKAR
19	PARTH JAYESH DESAI
20	PRANJALI KIRAN DESHMUKH
21	VIRESH SHASHIKANT FEGADE
22	KSHITIJ BHARAT GIRKAR
23	TANUSHREE JIVRAJ GORASIYA
24	ANUSHKA NARENDRA GORE
25	LOUKIK JITENDRA HOUZWALA
26	DIMPLE NITIN INGALE
27	SIDDHANT SUNIL VASAIKAR
28	RITHWIK SANJIV VEDPATHAK
29	ABHISHEK ASHOK WALINJKAR
30	SAHIL DEEPAK CHOWKEKAR
31	HEMANGI ASHOK JADHAV
32	PRANJAL ARVIND MANE
33	MANASVI RAMESH MHATRE
34	AARATI HIRAMAN PATIL
35	SHUBHAM MANOJ PATIL
37	SNEHAL SANJAY PATIL

38	SHRUTI PRAMOD SHEDGE
39	SAKSHI MANISH MHATRE
40	HARSH RAJKUMAR MITTAL
41	VINIT VIPIN MORE
42	DIVYA RAJ PALEKAR
45	PIYUSH KRIPASHANKAR PANDEY
46	RACHNA RATNESH PANDEY
47	PROMITA PRABIR PANJA
48	SAUMYA AJAY PARIKH
49	VEDANT DEVENDRA PATIL
50	RUTUJA MANOJ SHINKAR
51	YASH RAGHUNANDAN SHIVADE
52	SWARAJ SARJERAO SONAWANE
53	SANKET RASIKBHAI SUHAGIYA
55	SANDESH MOHAN THAKARE
56	MIHIR ASHISH THAKUR
57	ANAND SANTOSH TIWARI
58	SIDDHARTH SANJAY VARTHA
59	PRANJALI VILAS SAWANT
60	DARSHAN PARSHOTTAMBHAI SENTA

403_Expert talk on Product development using Microcontroller/ Microprocessor

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Report on Seminar on

Product development using Microcontroller / Microprocessor

Date: 05th May, 2021

Time: 11:00 am

Speaker: Mr. Tejas Pawaskar, Sr. Embedded Engineer, Mindteck Software Malaysia Sdn Bhd., Pinang, Malaysia.

Organized by: Computer Engineering Department, VCET, in association with Industry Institute Interaction Cell, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Introduction to Microcontroller and Microprocessors
2. Introduction to Embedded systems
3. Practical implementations of product development using embedded technology
4. Hardware and Software requirements of the embedded product development

The Seminar was attend by 96 students and 5 faculty members.

Prepared by

Mr. Sunil Katkar

Product Development using Microcontroller / Microprocessor

404_SDP on Big data analytics

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Report on Student Development Program

Big Data and Analytics

Date: 30th April, 2021

Time: 3:30 pm

Speaker: Mr. Dibyendu Ghosh, Associate Consultant, Tata Consultancy Services (TCS), UK

Organized by: Computer Engineering Department, VCET

Mode: Google Meet

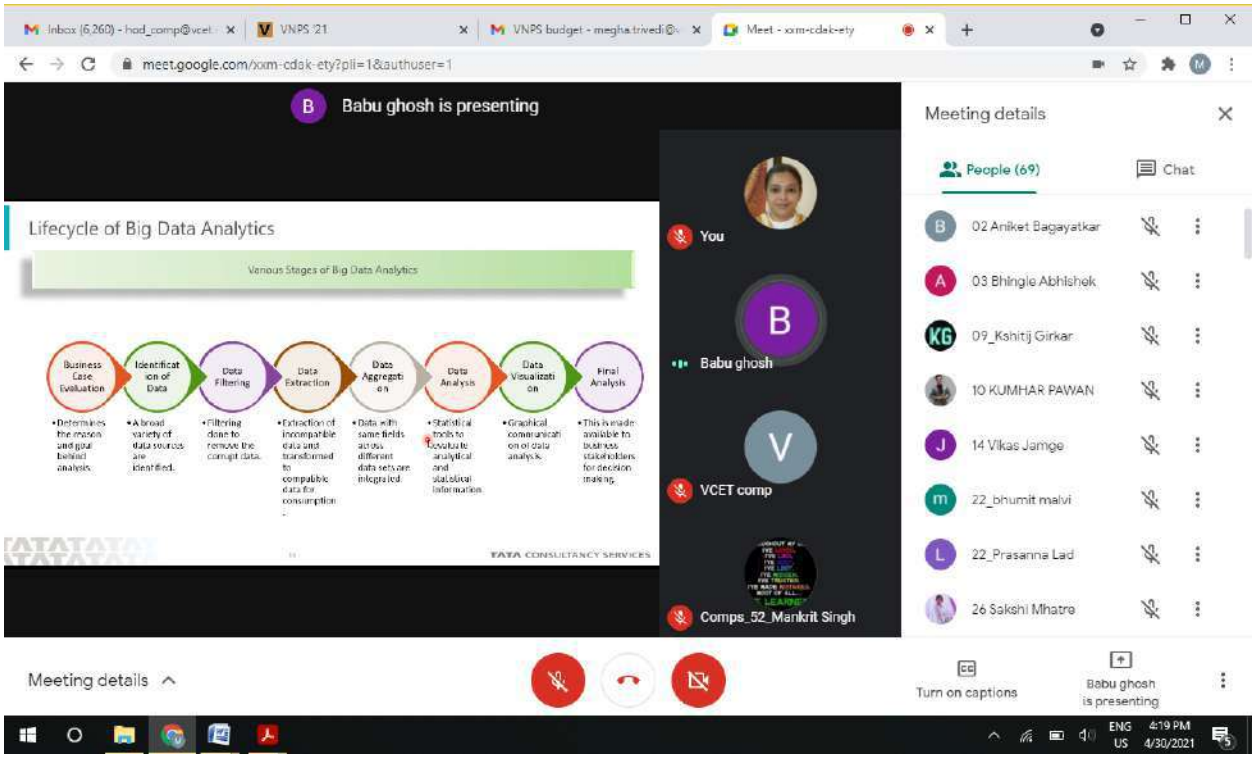
Key points shared with students among others include:

1. Introduction to Big Data and Analytics
2. Life cycle of Big Data Analytics
3. Types of Big Data Analytics
4. Data Architecture of a Big Data
5. Case studies on how TCS is working with Big Data Analytics

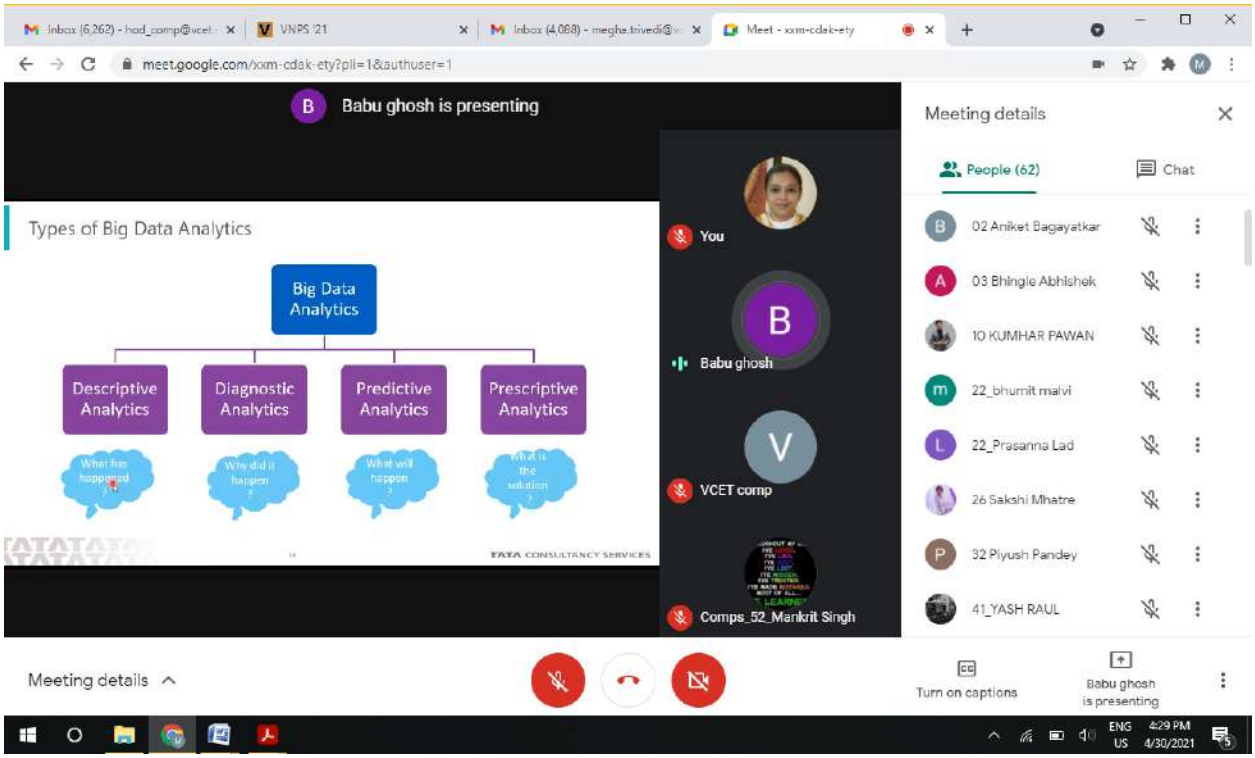
The Students Development Program was attend by 83 participants.

Prepared by

Dr. Tatwadarshi P. N.



Session conduction by the speaker



Explanation of Types of Big Data Analytics by the speaker

405_Expert Lecture on Demonstration of database connectivity

AY: 2021-22

Report on an Expert lecture on "Demonstration of Database Connectivity"

Date: 12th April, 2021

Time: 11.20 am to 12.10 noon

Speaker: Alumni Mr. Dominic Lopes Quality Engineer at Josh software, Pune

Organized by: Department of Computer Engineering

The session began with a brief introduction by Mrs. Smita Jawale

The key points discussed in the session were:

1. How to install Xampp server
2. How to create database table in PhpMyAdmin
3. How to create form
4. How to do connectivity with database
5. How to open and close session

The workshop was attended by 78 students

Prepared by

406_Expert talk on Human machine inetraction: Industry approach of the subject and practical know how of UX and UI

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year 2020-21

31/03/2021

Report on Expert talk: Human Machine Interaction…industry approach of the subject and practical knowhow of UX and UI

Date: 31st March, 2021

Time: 12.30 – 01.40 pm

Speaker: Mr. Nilesh Jain, Founder – Techustaads Pro Learing.

Organized by: Department of Computer Engineering

The session began with a brief introduction by Mr. Vikrant A. Agaskar

The key points discussed in the talk were:

1. What is UX?
2. UX Design
3. What is UI?
4. UX vs UI
5. Good Product Dcsign
6. Q & A

The talk was followed by a question-answer steered by Mr. Nilesh Jain.

The workshop was attended by 52 students

Prepared by,

Mr. Vikrant A. Agaskar
Asst. Professor,

407_Expert Lecture on Basics of electrical and electronics

Date 15th March 2021

To,

The principal

VCET, Vasai

Subject: Proposal for organize online expert lecture on **'Basics of Electrical and Electronics'**

Respected sir,

As a subject in charge for BEE, we like to organize online expert lecture on 'Basics of Electrical and Electronics' for first year students of Artificial Intelligence and Data Science and Computer Engineering on 20th March 2021 from 11.00 am to 12.00 pm. A Guest speaker (Mr. Pratik Jain) for the seminar is having 10 years of experience in relevant area and currently working as head research and development Process Precision Instruments, Vasai Road (East)

His wide experience will be useful for our students of Artificial Intelligence and Data Science and Computer Science Engineering. Please permit us for necessary arrangement.

Please do the needful.

Thanking you

Prof. Prafulla Patil
Subject In charge BEE &
Class In charge AI and DS

Dr. Megha Trivedi
Subject In charge BEE &
HOD, Computer Engineering

Permitted

15/03/2021.

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY * VASAI ROAD *

Report on Expert Lecture on Basics of Electrical and Electronics Engineering

Date: 20th March, 2021

Time: 11 am to 1 pm

Speaker: Mr. Pratik Jain, Analog Engineer, Process Precision Instruments, Vasai (East)

Organized by: Department of Computer Engineering, VCET and IIIC, VCET

Mode: Google Meet

Key points shared with students among others include:

1. Basics of electricity: current, charge
2. Effects of electricity
3. Conductor, Semiconductor
4. AC, DC supply
5. Transformers-need, types
6. Types of losses
7. Simulation using Circuit Maker Pro

The session was attended by 73 students

Prepared by

Dr. Megha Trivedi

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY * VASAI ROAD *

Vidyavardhini's College of Engineering & Technology
Department of Computer Engineering
Academic Year 2020-21

08/03/2021

Report on a webinar on "Linux and Network Administration"

Date: 07th March 2021

Time: 10am to 11:30am

Speaker: Mr. Parag Khuman, Data Center Linux and Hardware Engineer at Amazon Web Services.

Organized by: Department of Computer Engineering
The session began with a brief introduction by Dr. Swapna Borde

The key points discussed in the workshopwere:

1. Installation and Initialization
2. Package management & Process monitoring
3. Services, Utilities, Important Files and Directories
4. File System Security and Management.
5. Advanced File System Management.

The webinar was arranged for all TE Studentsand attended by 65 students

Prepared by

Dr. Swapna Borde
Assistant Professor, Department of Computer Engineering

409_Guest Lecture on Natural Language processing for text analysis and topic modeling

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year 2020-21

11/02/2021

Report on Expert talk: Natural language processing for text analysis and topic modelling

Date: 10th Feb., 2021 "

Time: 3.00 - 5.00 pm

Speaker: Mr. Shaswat Tiwary, Assistant Consultant, Data Analytics and Business Intelligence team, TCS Mumbai.

Organized by: Department of Computer Engineering

The session began with a brief introduction by Dr. Megha Trivedi

The key points discussed in the talk were:

1. Issues in Digital Transformation of Central Government Organization
2. Text mining applications
3. Morphological Analysis
4. Tools for text mining
5. NLP libraries
6. Topic Modeling
7. Demonstration of topic modeling on Jupiter
8. Text summarization

The talk was followed by a question-answer steered by Mr. Anil Hingmire.

The workshop was attended by 52 students

Prepared by

Mr. Anil Hingmire
Asst. Professor,
Department of Computer Engineering

Dr. Megha Trivedi
Head, Department of Computer Engineering

410_Alumni talk on Case study on Machine Learning

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year 2020-21

11/02/2021

Report on a talk on "Case Study on Machine Learning"

Date: 9th Feb., 2021

Time: 11.30 am to 12.00 noon

Speaker: Alumni Ms. Kritika Rao, Assistant System Engineer, TCS Mumbai.

Organized by: Department of Computer Engineering

The session began with a brief introduction by Dr. Megha Trivedi

The key points discussed in the talk were:

1. Steps involved in developing a ML application
2. Case study-Prediction of Skin Disease using ML
3. Issues in data set collection
4. Web resources for obtaining ML data sets
5. Guidance regarding participation in Avishkar Research Convention and other project Competitions, paper presentation

The workshop was attended by 51 students

Prepared by

Dr. Megha Trivedi

Head, Department of Computer Engineering

411_SDP on Agile software development

Vidyavardhini's College of Engineering & Technology

Department of Computer Engineering

Academic Year 2020-21

05/11//2020

Report on a workshop on "Agile Software Development"

Date: 05th November 2020

Time: 3 pm to 5 pm

Speaker: Ms. Radhika Pillai & Ms. Noorusubba Shayan,TCS experts

Organized by: Department of Computer Engineering
The session began with a brief introduction by Mrs.Sneha Mhatre

The key points discussed in the workshop were:

1.Software Methodologies

2.Failure of waterfall model

3.Rise of Agile way of working

4.Agile values and principles

5.Agile behavior

6.Various Agile frameworks

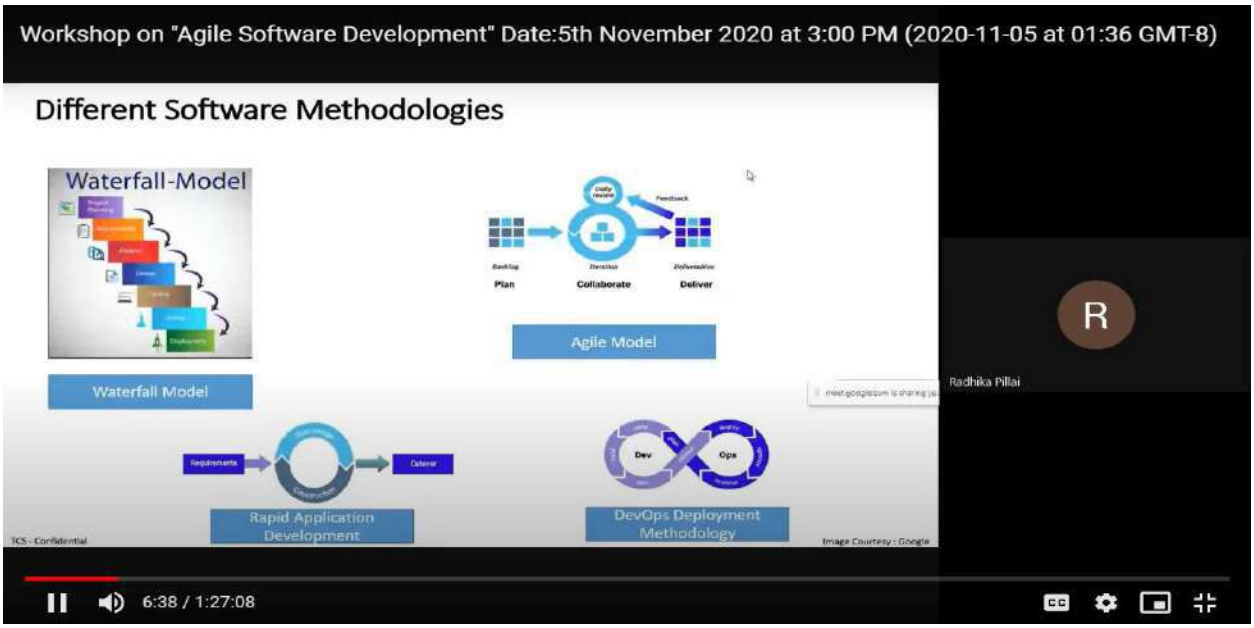
7.Agile Career Path

The workshop was attended by 52 students

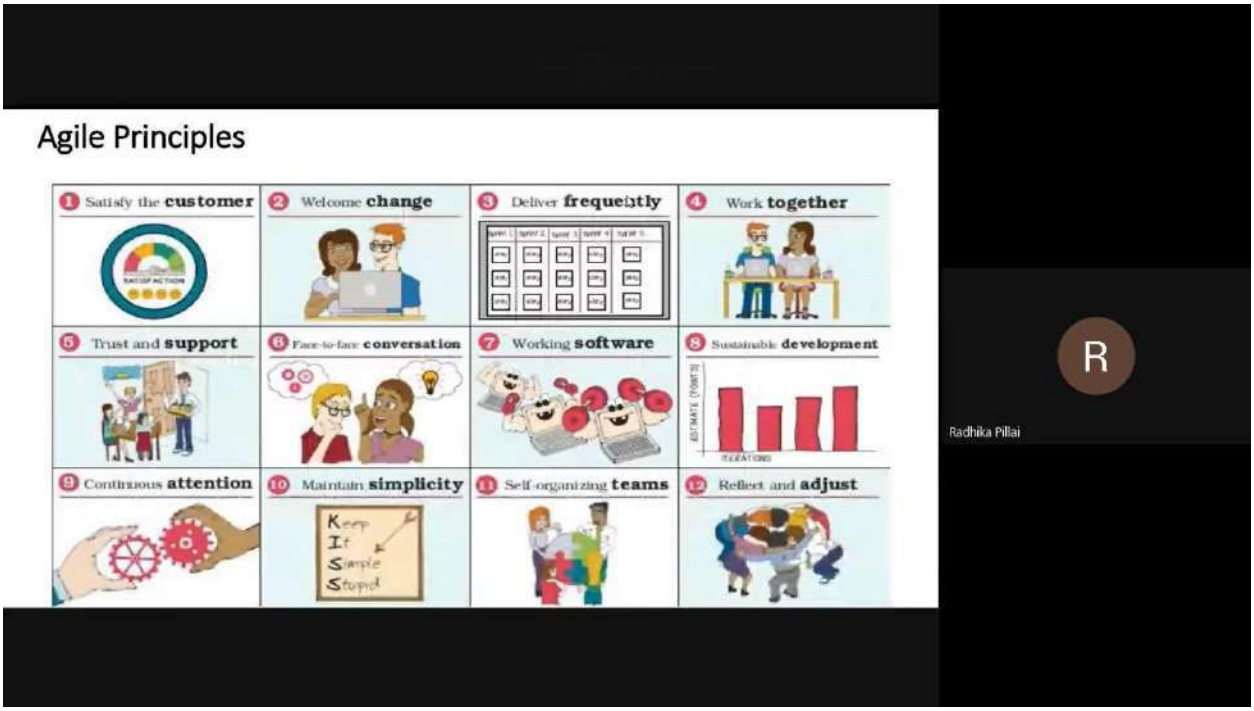
Prepared by

Mrs.Sneha Mhatre

Assistant Professor, Department of Computer Engineering



Speaker conducting the session



Speaker explaining Agile Principles

Department of Information Technology

Seminar on
Hangout With Alumni
(06th Feb 2021)

Date/Time	06/02/2021
Venue	Google meet
Speaker	Mr. Sanchit Singh, Amazon Mr. Shreyans Gosaliya, Morgan & Stenly Mr. Aditya Manze, Zeus Learning Mr. Tarun Singh, Raw Engineering Pvt Ltd. Mr. Raj Kotadia, Mr. Akash Rajpurohit
Coordinator	Mrs. Anagha J. Patil, AP,IT Dept, VCET
Target Audience	BE-IT
Objectives of this Seminar	Students will be able to:- 1. Understand how to go about academics more productively. 2. How to tackle the different problems faced by a student 3. How to balance academic life & personal life 4. How to prepare for coding competitions
No. Of Attendees	45
Points discussed in the session	1. Be able to efficiently prepare for their job sptitudes exam and interviews 2. Be able to plan their academic curriculum better 3. Be able to efficiently approach companies for internships 4. Be able to plan and execute their ideas in the form of Startups

Techtalks

Date	:	October 21, 2020
Name	:	Ms. Radhika Mhatre
Profile	:	BE(Information Technology) from VCET BI Consultant at Fractal Analytics
Topic	:	Data Visualization
Link	:	https://rb.gy/dvbuu5

Description:

1 Following topics were discussed in seminar.

Introduction to Data Visualization, Need of visualization, step by step procedure, tools and techniques.

2 She also showed a Demo

C3 Coding Competition

Title	C3 Coding Competition
Date	13th May 2021
Time	8.00am to 4.00pm
Platform	HackerRank
Total no. of Participants	108
Coding Language	SE = Python TE = C

C3 Coding Competition

C3 committee of department of Information Technology VCET organized a virtual coding competition on hackerrank. It was a platform for students to showcase there coding skills and standout in the crowd. The competition was conducted on 13th May 2021 from 8am to 4pm for Second Year and Third Year Students. The competition was 8 hours long with python language for second year students and C language for third year students.

C3 coding Competition is event where the participants are given several questions related to there language that is C and Python and they have to solve the problems in limited time hours. The difficulty level of the problems where bifurcated into three parts easy, medium and hard. The participants were judged on their rank which has been displayed on the hackerrank website. There were total 200 students from Second year and third year from every department who participated in this competition.

The Felicitation Ceremony was conducted on google meet platform. Kajal Mahajan our host warmly welcomed our respected Principal Sir, Judges and Winners. Our Principal Sir Dr. Harish Vankrude delivered an amazing speech to all and motivated the students for performing well. And the wait was over for once and all as the results were announced by the sir. The runner up and Winner of the event was "Aditi Kadam" and "Shingte Suyash" from Second Year respectively and from third year "Sweety Singh" and "Nirmiti Lakhani" respectively.

So, the event was successfully conducted by the amazing committee member of C3 committee and the Staff of Information Technology.

Webinar on "Overview of Networking Concepts in Virtualization"

Speaker(s):

Mr. Mr. Gaurav Sevekar Subject Matter Expert VMware, Bengaluru

Coordinator:

Ms. Archana Ekbote, Assistant Professor (IT)

This seminar was arranged to get overview of networking in virtualization.

Title	Overview of Networking Concepts in Virtualization
Description	Webinar covered topic related to virtualization and networking, cloud computing, Hypervisor, Data center and VPN.
Objective of this workshop	Students will be able to:- 1. To understand virtualization concept 2. To understand cloud computing basics 3. To understand Data center, VPN
Participants	Students from second year IT
No. of participants	43
Learning outcomes	Students will be able to: 1. Apply networking concepts to virtualization.
Date/time	24th April 2021, 10 am to 11 am
Venue	Google meet

HACKATHON 2021

Report

The department of Information Technology of Vidyavardhini's College of Engineering has been a proud host of the esteemed coding battle HACKATHON for the **4th consecutive year**.

OBJECTIVE:

"**HACKATHON**" is a prestigious technical event which involves **30 hours** of incessant coding. This year the event demanded the participants to create a software application based on real life problem statements. Participants could choose to impact upon any of the domains such as education, logistics, health management, etc. The event was a sincere attempt to provide a wonderful platform to showcase one's coding skills wherein an experienced panel of jury from reputed companies provide a critical analysis and feedback of your performance. It is one of the few chances for the participants to gain substantial experience, analyse and evaluate outcomes and uncover personal aptitude.

The first ever Virtual Hackathon of our college was conducted on the **19th and 20th of March, 2021**. To mark the commencement of the event, there was an inauguration through YouTube live streaming (https://www.youtube.com/watch?v=vGi6ZWCOEhk&t=532s). The institution was honoured to have **Mr. Mandar Kelkar** as our chief guest who communicated with us live from the US via YouTube live stream. Mr Mandar is a Sr. Engineering Manager at COGNIZANT TECHNOLOGY SOLUTIONS. He has an Overall IT experience of 20 Years in Software Design, Architecture, RPA & Machine learning area. The audience was enlightened by the words of wisdom and appreciation by our chief guest.

Despite several challenges that a virtual event comes with, Hackathon'21 witnessed an overwhelming response with **39 teams** summing up to **138 participants**. There were participants from **Coimbatore, Hubli, Chennai, Nagpur, etc.**, who worked relentlessly for 30 hours and pitched their brilliant ideas in front of an experienced panel of juries/judges. The cash prize this year was worth **₹50,000**. There were consolation prizes and goodies as well by our generous sponsors.

PRACTICE:

HACKATHON/> 2021

The event commemorated right after the inauguration at **8.00am sharp** on the 19th March and continued for a stretch of 30 hours. As the event was conducted virtually, the mode of communication used to interact with the teams was "Discord". A server was created on Discord in which each team had been given their personal channel for communication. A "HELPDESK" channel was also created with an aim to resolve all the queries posted by the participants. There were 3 jury rounds on which the progress of the teams was tracked and was conducted through Google Meets. The first jury round began at around 10am on the 19th March, with the valuable presence of our juries- Mr. Sagar Trivedi, Mr. Allan Francis, Mr. Abhitesh Das, Mr. Prasad Padalkar, Ms. Tanvi Zunzarrao and Ms. Aditi Telang. On the same day at around 6pm, we had our second jury round. The juries for this round were- Mr. Ujjwal Bagwe, Mr. Rahul Thakar, Mr. Amey Raut, Mr. Amey Chaudhary, Mr. Prathamesh Pradhan and Mr. Akash Shah.

After the completion of the second jury round, there was a Mid-Hackathon Entertainment Session organised streamed on YouTube (https://youtu.be/TA3QO--zIJc) at around 9pm for all the participants to relax and have a small break and then start coding with a refreshed mindset. The session saw some melodious singing from Mr. Saurabh Shetye, a singer and music composer, Mr. Vikrant Kothari, assistant professor of VCET which was followed by an instrumental session by Mr. Bhavesh Deshpande and many more.

On the next day, that is the 20th March, the third jury round took place at 10am in the morning in the presence of our esteemed juries- Mr. Arun Gupta, Mr. Sameer Pathan, Mr. Omkar Salkar, Mr. Prashant Bhat, Mr. Mihir Dave and Mr. Shahbaz Khan.

On the 20th March 2021, after the completion of EXTENSIVE thirty hours of coding, there was a judging round held at 2pm in which the teams had to showcase their final output to the judges present and try to fix their spot to be qualified in the final pitching round.

After acquitting themselves with the insights of all the projects, the best 10 teams were shortlisted for the final pitching round based on their final scores. The pitching round commenced at 4pm and was conducted through Google Meet and was simultaneously being streamed live on YouTube for the audience (https://www.youtube.com/watch?v=s-l6O640AAk). The institute had the privilege of hosting some acclaimed personas like Mr. Prabodhan Patil, Ms. Manini Puranik, Mr. Rajnikant Pujari, Mr. Amit Manjrekar, Mr. Abhishek Gharat and Mr. Ghanshyam Sharma. The shortlisted teams had to go through a ten minutes presentation followed by a five minute Q&A session

wherein the teams were bombarded with insightful questions, constructive criticism and all possible suggestions by the judges.

WINNERS:

Finally, we had the 1st winner from Vivekanand Education Society's Institute of Technology (VESIT), team name '**LINKERS**' [Priyanka Patil, Sonal Misal, Jyotsna Dusane, Vidya Katara] securing the 1st place. they worked on 'Augmented Reality' and created a fun learning and interactive 3D application for kids which will prove to be very helpful in their early education.

The 2nd prize was bagged by team '**NEURONS**' from Vivekanand Education Society's Institute of Technology (VESIT), [Mohit Balani, Navin Kachhela, Rohit Vadhya, Bhavesh Bathija] where in they created a 'Mask detection system', using Machine Learning.

The team securing the 3rd place was '**UKKU**' [Vedant Kokate, Jaideep More, Keshav Mishra, Mohil Khare] from K.J Somaiya College of Engineering, where in they built a mobile application for pooling of transport of agricultural produce to reduce cost of transportation'.

CONCLUSION:

Competitions like these encourage students to adopt innovative techniques and develop their ideas and skills. It is one of the very few opportunities in the average student life to provide such exposure and realistic outlook towards the competitive nature of real life.

To sum it all, HACKATHON 2021 was a grand success, proving to be another feather in the cap for the institution.

422_Expert lecture on Shear and Torsion Reinforcement for RCC Member

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

K.T MARG VASAI (WEST)

DEPARTMENT OF CIVIL ENGINEERING

ACADEMIC YEAR 2020-21 DATE: 22nd Nov,2020

A Report on expert session on "Shear and Torsion Reinforcement in RCC Structures" for B.E Civil Students

Date: 21st Nov,2020.

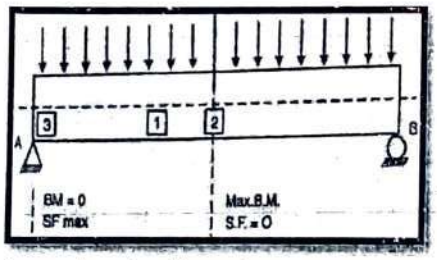
Time: 9:00 am to 12:00 pm

Via Google Meet

Topic: "Shear and Torsion Reinforcement in RCC Structures" for B.E Civil Students

Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology organized a Guest Lecture on "Shear and Torsion reinforcement for RCC structure" on 21st November 2020 for a duration of 3 hours on Google Meet platform. The lectures eminent speaker was: Mr. Dada Patil, a renowned lecturer in structural engineering field for 20 years. The lecture was attended by final year students and other faculty members of the department. The guest speaker was heartily welcomed by Mr Jaydeep Chougale (Class in charge) of Civil Engineering Department.

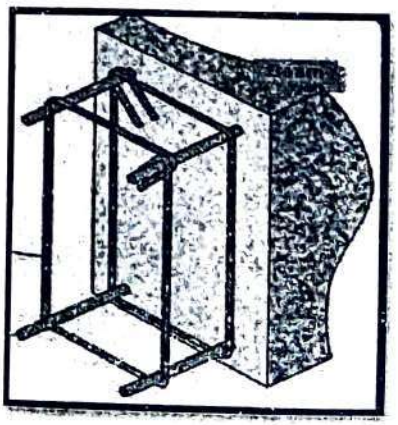
The speaker started right from the basic concept of transverse loads i.e. shear and also bending moment in beams. With the help of the below diagram he explained pure shear, max shear and combination of bending and shear stresses along the section of the beam.



From point 3 shown in the diagram, he clarified that how pure shear could lead to diagonal tension at 45°and develop crack splitting the beam along the diagonal.

He thus helped us to understand how vertical, inclined stirrups and bent up bars are vital reinforcements to prevent crack widening.

He provided us with the design steps of vertical strirrups based on IS 456 and reasoned them with all the codal provisions. All the images were so



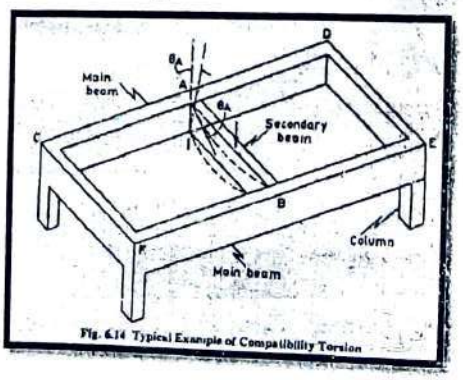


Fig. 6.14 Typical Example of Compatibility Torsion

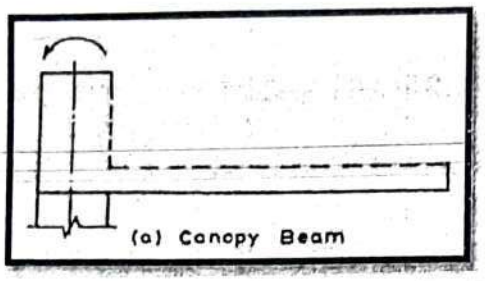
collectively straight to the point that helped in clearing all the concepts very smoothly. The guest also solved some numericals stating the different criteria where only minimum reinforcement were required and where desigining shear reinforcements was very well necessary. Numericals covered spacing requirements of vertical ,inclined stirrups ,combination of bent up and vertical stirrups, magnitude of shear stresses that shear reinforcements can resist.



Then the seminar was further continued with concept of torsion in beam. Initially he exolained that how Torsion occurs in combination with flexure and torsion shear and pure cases of torsion were less to be practically possible. The guest than explained primary torsion also called as equilibrium torsion with the example of canopy beams ,L-beams and how equilibrium conditions were self sufficient to analyse primary torsion and further added with examples for secondary torsion or compatibillity torsion.

To explain the design steps in a mannered way he started with a sum wherein we understood that when moment and torsion are acting together an equivalent moment needs to be calculated and in a similar fashion an equivalent shear too and the sums were further justified with the cases when moment of resistance of the section were greater or less than the equivalent moment calculated initially. The codal provisions were covered altogether with the sums.

The seminar was concluded by putting a question to the students mind that whether torsion and bending – a confusion or a fact- are actually the same thing or not while designing in beams and finally a 10 minute doubt session was conducted where curious questions were raised up and answered by the guest conceptually.

A vote of thanks was given by Jaydeep Chougale (Class incharge) of Civil Engineering Department and also valuable feedback of the students was collected at the end of the seminar. It was a great learning experience for the students and also for the faculty members who attended the seminar and garnished their knowledge along with the students.

Thank you.

423_Expert lecture on Development of building plan with 3-D Walk through by using Google SketchUp software

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

K.T MARG VASAI (WEST)

DEPARTMENT OF CIVIL ENGINEERING

ACADEMIC YEAR 2020-21

Date: 29th November, 2020

A Report on expert session on "Development of building plan with 3-D Walk through by using Google sketchup software"

Department of Civil Engineering of Vidyavardhini's college of Engineering and Technology organized a Guest Lecture on "Development of building plan with 3-D Walk through by using Google sketchup software" on 29th November 2020 for a duration of 2 hr.30 min. on Google Meet platform. The lectures eminent speaker was: Khushbu Parmar –an expert in Building Information Modelling. The lecture was attended by second year students and other faculty members of the department.

The lecture began with introduction to the importance of any building model and the precision that is required. She followed by explaining the steps to install Google sketchup on a computer. Initially all the basic commands were explained to the students to make them comfortable with this new interface. Then they were taught to open and save a file in Google sketchup with a particular format. Few drawing commands were explained to illustrate the procedure of drafting an elevation plan for any building. Different parts in an elevation plan were introduced to the students followed by their variations. Students started to find it user friendly and continued asking small doubts that made the session more interactive.

Further lecture was utilized in learning and inculcating uses of different functions used in drafting an elevation or section plan. Mam explained in detail on different views of walkthrough with the help of files that she had created earlier. In the world of 3D printing and fast paced technology, it is now necessary to get in touch with such software's to enable a smooth transition from 2D plans to 3D Building information modeling.

At the last again a 10 minute doubt session was conducted where curious questions were raised up and answered by the guest efficiently.

A vote of thanks was given by Jaydeep Chougale of Civil Engineering Department and also valuable feedback of the students was collected at the end of the seminar. It was a great learning experience for the students and also for the faculty members who attended the seminar and garnished their knowledge along with the students.

VIDYAVARDHINI'S COLLEGE OF ENGINEERING & TECHNOLOGY

K.T MARG VASAI (WEST)

DEPARTMENT OF CIVIL ENGINEERING

ACADEMIC YEAR 2020-21 DATE: 7th December, 2020

A Report on expert session on

"APPLICATION OF FLEXIBILITY METHOD FOR ANALYSIS OF STRUCTURE"

The Department of Civil Engineering of V.C.E.T, Vasai, organized a guest lecture for the students of SEM 5-T.E. Civil on the above mentioned topic on 6th of December 2020, from 3:00 pm to 5:00 pm via the Google Meet platform. The guest lecture gather eminent speaker: **Mr. Dada Patil**, Assistant Professor- Civil Engineering at AIKTC, Panvel.

The guest speaker was heartily welcomed by Mr. Jaydeep Chaugale, subject in charge of Structural Analysis- II for T.E. Civil students. The guest speaker Mr. Dada Patil, having 20 years of teaching experience in AIKTC, SOET, Panavel and prior to that a 4 years of experience as assistant professor and HOD at SJCET, Palghar, has helped him gain comprehensive knowledge in the practice about Analysis of Structures. The session was very interactive and students participated enthusiastically.

In the beginning, Mr. Dada Patil gave the introduction of the Flexibility method for analysing structures which is actually a force method. Later the presentation prepared by our guest was skilfully explained to us students. Definition of some of the important terms as well as its significance in the method was explained. The step methodology was introduced and enticingly simplified with the help of some examples.

The examples solved by Mr. Dada Patil, which included problems analysing the redundant forces for a beam as well as a portal frame, this had fairly given us an idea about how the application of the Flexibility method is done. On the basis of this informative lecture, students happen to understand efficiently such a complicated method in the simplest way with the great help of our guest speaker. A Q&A session was conducted in the end solving the doubts of us students.

A special vote of thanks was given by Mr. Jaydeep Chaugale appreciating our valuable guest. It was a great learning experience for the students and also for the faculty members who attended the seminar and garnished their knowledge along with the students.

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the expert lecture on Application of Flexibility Method for Analysis of Structure held on 6th December 2020

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

425_Expert lecture on Building Engineers of Tomorrow

Report of Webinar on "Building Engineers of Tomorrow" by TIKITAR DANOSA INDIA PVT.LTD

Objective of Webinar: To make students understand and aware of the advancements in the methodologies and materials for Water Proofing and Building Envelope Insulation

Date of Webinar: 24th April 2021, Saturday at 10:00 AM

Organized By: Asst. Prof. Puja Kadam

No. of Participants: 63

Name of the Speaker: Ms. Ruchita Nar (Alumni of Civil Engineering Department- 2018 Batch, VCET and Senior Technical Analyst, TIKITAR DANOSA INDIA PVT.LTD)

About the Industry:

TIKI TAR DANOSA India Pvt. Limited is an Indo-Spanish venture of TIKI TAR INDUSTRIES (India) and DANOSA (Spain) which markets its products in South Asia under the brand name "TIKIDAN". With a combined market presence of more than 100 years in Construction Chemicals and Building Materials and presence in more than 70 countries worldwide, the joint venture aims to provide Quality and Innovative solutions to the construction industry in South Asia.

As a "Solution Provider" rather than "Product Seller", TIKIDAN provides holistic 360- degree tailor-made solutions from Design, Materials & Application Support to its customer needs in the following range of Solutions/Products.

- Waterproofing
- Flooring (Epoxy & Polyurethanes)
- Sound Insulation
- Thermal Insulation
- Bridge Deck Protection
- Sealants,

- Pipe Wraps, etc.

The house of TIKI TAR Industries also offers a range of Bitumen, Bitumen Mixes and Bituminous Speciality products for the Road Construction Industry.

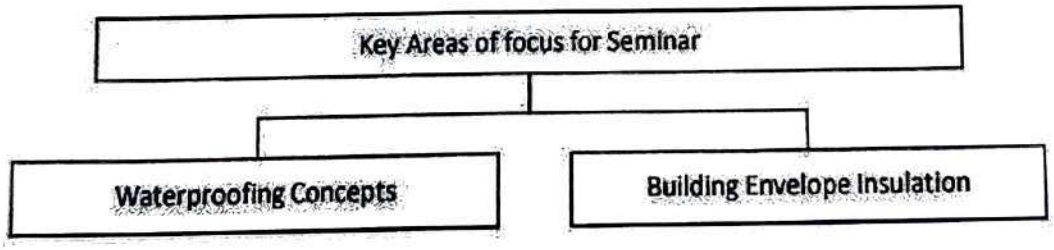
Some reference landmark projects worth mentioning are Chennai Metro, Nagpur Metro, Lodha World One Mumbai, Mumbai International Airport, Seawoods Grand Central Navi Mumbai, Narmada Bridge Bharuch, Royal Russell School UK, Ditton Park Academy UK, IKEA Spain, Barajas Airport T4 Madrid, Morocco Mall Morocco, iGate Navi Mumbai, and many more.

Description of the Webinar:

Webinar on "Building Engineers of Tomorrow" by TIKITAR DANOSA INDIA PVT LD. was conducted on 24th April 2021, Saturday at 10: 00 AM on Google Meet Platform

Waterproofing is the process of making an object or structure waterproof or water-resistant so that it remains relatively unaffected by water or resisting the ingress of water under specified conditions. Such items may be used in wet environments or underwater to specified depths.

Thermal insulation is an important technology to reduce energy consumption in buildings by preventing heat gain/loss through the building envelope. Thermal insulation is a construction material with low thermal conductivity. These materials have no other purpose than to save energy and protect and provide comfort to occupants. The key areas of focus for seminar is as follows:



The following are the list of topics that the speaker covered in Waterproofing Concepts:

1. Issues created by water.

2. Waterproofing Concepts i.e. how water enters a structure? What is Waterproofing? Why it is required? Concept of Positive and negative side waterproofing, etc.

3. Important components of waterproofing system.

4. Customers' Expectations on Waterproofing.

5. Why waterproofing fails?

6. Waterproofing Techniques – Conventional and Modern

7. Part of the structure that require waterproofing

8. Different types of Waterproofing materials and its major properties

The following are the list of topics that the speaker covered in Building Envelope Insulation:

1. Demographic challenges forcing the need for Resource Conservation

2. Demographic challenges sets the stage for the future

3. Megatrends in construction

4. India's Energy Scenario

5. Heat Gain / Energy Consumption in a Building

6. What are our Alternatives???

7. Growth Drivers for Thermal Insulation of Buildings

8. Concept of Building Envelope Insulation

9. Different types of Thermal Insulation materials and its major properties.

Conclusion:

Waterproofing is one of the most critical yet neglected subjects because the common man is not exposed to the concrete technology. Water infiltration causes major problems to a structure. Water damages a building first cosmetically then structurally. It is important to realize that by the time a stain shows up on the interior of your building most likely irreversible damage has been caused to the exterior. Water-soaked roof insulation will never dry out.

Also, when thinking about efficiency, the first strategy to apply should be saving energy. It's important to understand that limiting the waste of energy resources such as internal heating is essential. Thermal insulation is a great solution to reduce energy consumption by preventing heat gain or loss through the building envelope. This reduction of unwanted temperature changes decreases the energy demand of heating and cooling systems. By incorporating thermal insulation in every elements of the thermal envelope: walls, roofs and floors, you will maintain the energy generated inside your home while improving the thermal comfort.

The webinar arranged by the TIKIDAN industry highlighted on the various advancements and improvements in the technologies and materials used for water proofing and thermal insulation of buildings.

426_Expert€lecture on Sustainability- The Key to the future

Report of Expert Lecture on "Sustainability- The Key to the Future"

Objective of Expert Lecture: To make students understand and aware of the importance of sustainability in these growing global environmental concerns, towards a brighter future.

Date of Expert lecture: 05th May 2021, Wednesday at 09:00 AM

Organized By: Asst. Prof. Puja Kadam

No. of Participants: 79

Name of the Speaker: Mr. Ronak Shetty (Sustainability Analyst, Smarter Dharma Company, Bangalore)

About the Company:

Since 2012, Smarter Dharma has been delivering sustainable, data driven solutions to some of the most complex business and social challenges to governments and multinational organizations. Businesses want to quickly adapt to the changing needs of their customers and suppliers, business ecosystems and their people, while navigating the financial and operational challenges in this dynamic business ecosystem. The data analytics platforms of the company help organizations to sustainably scale by providing predictive decision making & intelligence backed actions. From unbridled consumption and then reining in with business efficiency, company have started to see earlier and farther, to acknowledge the need for effectiveness and responsibility for business continuity and excellence. Sustainability is a complex ecosystem challenge.

Company's approach is to provide leadership through design, data driven implementation and policy support for scaling; always mapping outcomes to global sustainability parameters and more. They empower government bodies, policy makers and industry bodies with quick decision-making capabilities and through ecosystem solutioning for effective results.

Company's goal is to mobilize and enable businesses, governments, communities towards sustainability action with real time data intelligence and business acumen for empowered decision making. They get involved from the beginning, right from designing and innovating on challenges, providing a holistic ecosystem solution backed with analytical data models and assisting in implementation.

Description of the Expert Lecture:

Expert Lecturer on "Sustainability- The Key to the Future" by Mr. Ronak Shetty, Sustainability Analyst, Smarter Dharma Company, Bangalore was conducted on 05th May 2021, Wednesday at 09: 00 AM on Google Meet Platform

Businesses across the globe have recognized that embracing sustainability is no longer a choice. They realize that they need to be mindful of their operations in order to maintain overall profitability. Climate change is one of the most imminent threats that has unprecedented implications on how people live, work and play. Changes in temperature and weather patterns, and the rising sea levels are putting the existing ecosystem at risk. Corporates and the civil society need to be collectively aware of and own the changes immediately. With enhanced globalization in recent times, the concept of Sustainability has graduated from being a support function to becoming the nucleus of a profitable enterprise. The rise in population and the subsequent increase in the demand for energy resources and supplies has led to serious environment concerns. Waste creation and disposal have also become a major challenge for civilizations to survive. With the issue of climate change looming large and increased pressure on limited natural resources, more organizations are embracing sustainable business practices to maintain their overall long-term growth. So the speaker explained that with an astute focus on people, planet and profitability, sustainability is all about meeting the requirements of the current generation as well as facilitating the future for the upcoming ones.

Conclusion:

Everyone has a role to play in shaping a sustainable future and each one of us needs to do their bit in securing our shared resources and solving the climate change puzzle. Increased collaboration between the government and the private and public sectors can help break down barriers to sustainable growth. What matters today is the way businesses build their successes in sustainable practices and initiatives to pursue similar improvements across new digitized processes and business models. This requires industry-wide collaborations with partners across the value chain. Achieving inclusive growth at a global level calls for multi-pronged sustainable interventions and for that to happen organically, we need to cultivate a fresh-thinking approach.

Date: 05/05/2021

To,

Mr. Ronak Shetty

Sustainability Analyst, Smarter Dharma Company, Pune

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the expert lecture on "Sustainability the key to the future" held on 5th May 2021.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

Dr. Uday Aawalekar

HOD(Incharge)

Civil Engineering Department,
VCET

Dr. Harish Vankudre

472_Industry visit to Utensil Manufacturing Company to observe and study various Press Tool and Production Processes in Industry

To,

The Principal,

VCET,

Vasai (West)

REPORT ON INDUSTRIAL VISIT

Name of the Industry - **M/s. Vardhaman Industries. Waliv, Vasai E**
Date- **17/10/2019** and **22/10/2019**

Objective: The objective of the industrial visit was to see different kinds of presses, press nomenclature, operations, sequence of operations and plant layout.

Mr. Harsad Shah gave us a complete insight of the operations performed in his factory which was very much related to the content of the syllabus in the current semester (Sem V), in the Mechanical Engineering. Basic knowledge of press and die, discussed, and showed some critical deep drawing tools with various defects and try-out problems. He also discussed the design aspect of deep draw tools and means of saving raw material. This was valued learnings to the students for there professional career in mechanical production engineering.

Prof. Sanjay Lohar explained the components and assembly details of hydraulic and mechanical presses and explained how the presses is carried out from raw material to finished component. The difference between the operation and structure of both Mechanical and Hydraulic press was explained.

The components of the Mechanical press was as follows:

1. Bed
2. Rack
3. Guides
4. Eccentric shaft
5. Gear unit
6. Brake
7. Clutch
8. Flywheel

The press was loaded with a blanking die. The press tonnage was specified as 50 tonnes. The material for blank was 0.3 mm thick SS 430, imported from Taiwan. The plant had manual feeding mechanism and manual winding and unwinding mechanism. As a part of safety press had a pedal operated clutch

Sanjay Lohar

Mr. Harshad Shah explaining various Press-Tool engineering process and some critical deep drawing tools.

Asolkar

Dept. of Mechanical Engg.
[illegible] College of
Engineering & Technology,
Vasai Road 401 208.

The Sequence of operation was as such-

a. **First Draw-** in order to avoid fracture or tearing of material in drawing operation the drawing operation was done in two stages. The primary aim of this process is radius development. Thereby they ensure a proper radius at the flng and at the base.
b. **Second draw** - Second draw is used to give the blank its predetermined depth.
c. **Spinning** - the third step in the sequence is used to remove wrinkling from blank and this also increases the depth of the component. The wrinkling is inevitable because the shape of drawn component is conical.
d. **Trimming** - this process is carried to remove excessive material from the flange surface. This process was done in two stages-
   i. Trimming
   ii. Fine trimming
e. **Beading** - the trimmed sharp edges of the components were curled inward.
f. **Buffing** - this operation is used to give a good surface finish.

PLANT LAYOUT OF HYDRAULIC PRESS-

Report on

Expert lecture on Exposure to Augmented Reality & Industry 4.0

Vidyavardhini College Of Engineering had organized a Expert lecture on Augmented Reality & Industry 4.0 for the students of Second year Mechanical Engineering Department , on 03 October' 2019 ,Third floor seminar Hall, VCET, Vasai. Experts for Lecture were Dr. Rajesh Buktar, who is presently working as Dean Academics in Department of Mechanical Engineering Department, SPCE – Andheri, & Mr. Pritam Kudale Assistant Professor, Guru Gobind Singh College of Engg. & Research Centre

Prof. Apurva Pendbhaje, Assistant Professor, VCET, introduced the speakers and the topic of the lecture to the students. Dr. Uday Asawalekar, Head Of Department ,VCET felicitated Dr. Rajesh Buktar & Mr. Pritam Kudale for the Expert Lecture.

In Morning session , Dr. Rajesh Buktar discussed the Industrial Revolution 4.0. He gave us history about evolution of Industrial revolution with suitable examples from 1920 to current year. He also introduced the participants to many exclusive examples and challenges in the worlds of industrial revolution 4.0. He gave us information about scope of research & development in this field, various skills required to get job in this field and many more with suitable examples. He also encourage us to study different branch of engineering such as IT department, Computer Department, Electrical department etc. After the introduction of topic, he demonstrated Augmented Reality. Basically, Augmented Reality can be defined as a system that fulfills three basic features: a combination of real and virtual worlds, real-time interaction, and accurate 3D registration of virtual and real objects. AR and VR are completely Different terms from each other. Augmented reality also has a lot of potential in the gathering and sharing of tacit knowledge. Subsequently, augmented reality applications have spanned commercial industries such as education, communications, medicine, and entertainment. In education, content may be accessed by scanning or viewing an image with a mobile device or by using marker less AR techniques. Dr. Rajesh Buktar Also showed us video about how the Augmented Reality works and how can you create your own object in AR.

In Afternoon session, Prof. Mr. Pritam Kudale conducted hands on session on augmented reality by using Vuforia software. students got opportunities to learn and perform augmented reality by using Vuforia software.

The Vuforia App gives its users three modes of view their assemblies, components.

The students built their components using the Vuforia software by creating account on Vuforia web application.

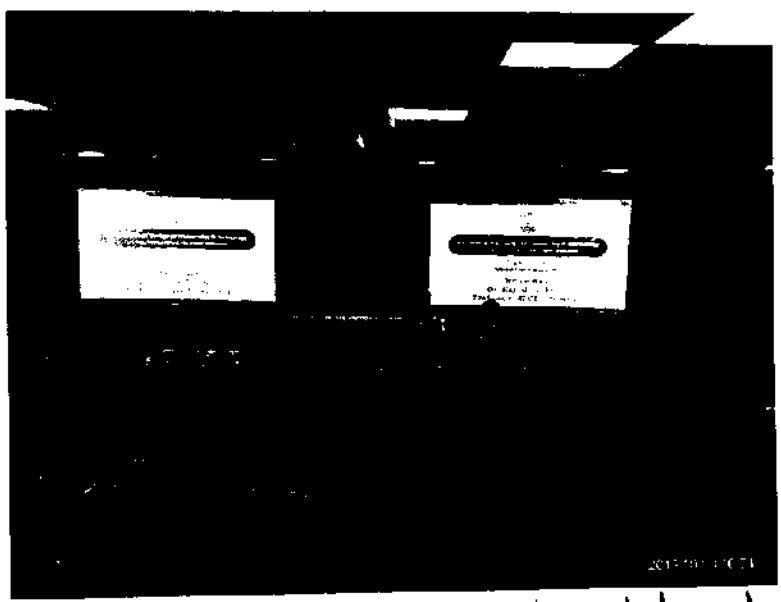
Using one of the methods, the mobile phone app, the students were able to view their component in AR.

This included three major steps:

- Creating Component.
- Making a label/Code
- Scanning Code through mobile phone camera

During afternoon session Dr. Rajesh Buktar discussed the real-life application of following topics

- AR, VR
- Internet of Things (IOT)
- Artificial Intelligence
- Cloud competing (Cyber security), etc.
- ROBOTICS/COBOTS.



PO1: The seminar helped students to recall the knowledge of basic sciences & pre-requisits of engineering graphics.

PO5: In the seminar students got insights of Vuforia Software.

PO12: Students built their own component in Vuforia software & explored the software at their end.

The seminar helped students to acquire knowledge & skills in the field of modelling of components & creating its QR code which can be scanned to get the real view of object which will be useful in their career

To,

Date: 25th Sep 2019

The Principal

VCET Vasai

Sub-Report of Inaugural function of cell and seminar on IPR Activity

Respected sir,

The Intellectual Property Rights IPR-VCET cell organizes the seminar on "IPR-Patenting and Copy Rights" on 25th Sep.2019 for students of third year and final year from all disciplines. The chief guest of the seminar was Mr. Parvez Kudroli, Senior Associate, Khurana and Khurana Advocates ,Mumbai. Honorable Principal Dr. Vankudre, Dean Academics Dr. Vikas Gupta, HOD Civil were present and enlighten the students with their speech on IPR and related activities.

The salient points of seminar include

- The difference between patent and copy rights was nicely explained by Mr. Kudroli with practical examples
- Different categories of patent and method of identifying the particular category for the research undergoing. Very fluently explained stating practical examples of day to day activities.
- Importance of patent filing and different categories of patent filing such as provisional and final patent filing.
- How to write the draft of patent , the content of it was discussed with a case study
- Different government patenting organizations worldwide provide facility to Indian Patent was elaborated nicely.
- The pripor art search and its importance and its ethical value along with legal laws are discussed in details.

Students were motivated with the in depth knowledge shared by Mr. Parvez Kudroli. Students were participated in question answering session which last long even after finished the program on office cabin.

Students were discussed about their own design and discussed with Mr. Kudroli . Mr. Kudroli also enjoyed the question answering and assiduously satisfy each one. Mr. Kudroli assure for assistance of anysort on behalf of M/s. Khurana and Khurana IPR Associates.

Dr. Kudrolli shared is contact details with students . After two hours of long continuous delivery of seminar, Prof. Vinay D. Patel perform the valedictory function and honoured by memento with honorarium to the invited guest. According to the capacity of seminar hall, 20 students from third year and 20 students from final year of all disciplines were invited for the seminar. As such there were 129 students were attended the seminar. The overwhelming response of student really encourage the IPR VCET cell committee to work more and provide all inputs to students to protect their rights on behalf VCET.

BY way of this session the important program outcomes achieved are PO1,PO2,PO3,PO6,PO8,PO9,PO10,PO12,PSO1 and PSO2.

So, I am thankful to you for allowing us to undergo such seminar on IPR whereby students were able to innovate or create something which could be their own intellectual property. I assure you that in future also, we will organize such seminars.

Thank you sir,

Dr. Ashish Chaudhari
IPR COordinator

SEMINAR ON- IPR PATENTING AND COPY RIGHTING

25th Sep.2019

Time	Process
1.30 pm	Guest arrives to the campus
1.30 to 2.15 pm	Lunch (Guest + Principal)
2.00 to 2.15 pm	Students gathered in seminar hall
2.20 pm	Move towards seminar hall accompanied with Principal and Dean, Academics
2.25 pm	Program begins
2.25 pm	Welcome by anchor
2.30 pm	Sarswati Vandana
2.35 pm	Introduction of guest.
	Felicitation with bouquet. From Principal to Guest
2.35 pm	Coordinator address about IPR cell
2.40 pm	Dean Address
2.45 pm	Principal address
2.55 pm	Guest speech begins
4.30 pm	Felicitate guest with memento and letter of appreciation
4.35 pm	Certificate distribution to outgoing (final year) students
4.40 pm	Vote of thanks
4.45 pm	National Anthem
	End of program

Date- 23/08/2019

To,
The Principal,
VCET, Vasai.

Subject - Report on the expert lecture by Miss Drishti Parikh

The VMEA a student committee of department of Mechanical Engineering organised a seminar on 22 August 2019 for 7th Sem Mechanical Engineering Student.

The seminar is delivered by Miss Drashti Parikh, Executive business development & Training coordinator, Ask me Engineer, Goregaon Mumbai on "Awareness of 3D printing, Industrial perspective & Scope"

Objcetive:

To make student aware about the recent technology use in Industry.

The workshop started with the introduction of guest Miss Drishti Parikh and her team from Ask Me Engineers by Prof. Dipak Choudhari. With brief introduction of need of the seminar.

Miss Parikh started the seminar immediately after the introduction, she first introduces all the recent technology to the student like 3 D printing, reverse engineering, rapid prototyping Digital Sculpting.

In the next part of her presentation Miss Drishti focused on Various parameters, Importance and future scope of all above mention technology.

Then she introduced the concept of Reverse Engineering and circulated the components which she had brought with her. The components to be reverse engineered were a wheel rim and a machine component.

She also show the demonstration of 3D printing and show some critical part which are printed on 3D printer.

IMPERIAL SOCIETY OF INNOVATIVE ENGINEERS
National Youth Award Winner 2015-16, Ministry of Youth Affairs, GOI

ERH

Two Days Workshop on

ON CAMPUS MENTORSHIP

Date : 20th July & 21st July 2019

IMPERIAL SOCIETY OF INNOVATIVE ENGINEERS

FORMULA IMPERIAL-2020 (ON-CAMPUS MENTORSHIP)

Topics to be covered-

- Background
- Team formation
- Planning, Communication & Review
- Design

Day 1 (Session 1)

1. **Inauguration & Background**
    - Opening Ceremony
    - Introduction to the event
    - Introduction to the speakers
    - Introduction to Motorsports
    - Workshop Agenda
2. **Team Formation**
    - Individual Roles
    - Importance of Team Work
    - Work Distribution amongst the team members
3. **Planning Communication & Review**
    - Importance of Planning in the team
    - Student activity & interaction
    - Rectify & Explain proper planning concept
    - Major Planning activity
    - Importance of vision & communication
4. **Designing & Software Session**
    - Introduction to Designing Software
    - How to master designing

Lunch Break – ***Please note that Session 2 will start sharply at 2 pm***

Day 1 (Session 2)

5. **Designing & Software Session**
    - Designing of subsystems through software
        - ✓ Chassis & Bodyworks
        - ✓ Suspension
        - ✓ Braking
        - ✓ Powertrain
        - ✓ Axle & Wheel Assembly
        - ✓ Steering Assembly

Day 2

Topics

- Procurement
- Vehicle build
- Testing
- Refinement
- Final build & testing
- Final Event management (planning, budgeting, logistics, spares,vehicle tuning, technical inspection clearance, data collection)

Day 2 (Session 1)

1. **Procurement**
    - Understanding the needs
    - Shortlisting & obtaining components
2. **Vehicle Building Session**
    - Planning & Task allocation
    - Verification of the design
    - Progress check & Efficiency management
    - Prototype Designing
    - Jigs manufacturing, Part fitting, Assembly process
    - Material & Tool Handling, Safety precautions
    - Welding, Painting, Wiring
    - Vehicle Presentation
    - Student Activity

Lunch Break – Please note that Session 2 will start sharply at 2:00 pm

3. **Testing**
    - Importance of Testing
    - Proper Testing Methods
    - Design Validation Plan (DVP)
    - Student Activity
4. **Refinement**
    - Student Interaction & inputs
    - Open Discussion
5. **Final Build**
    - Documenting the changes
    - Explaining the importance of documentation
6. **Final Event**
    - Preparation for tech inspection
    - Importance of rulebook considerations
    - What to expect at the final event?

    - Sketching Activity
    - Online Test
    - Electrical & Electronics
    - Hybrid Powertrain
    - Safety Considerations

7. **Sketching Activity**
    - Car Design & Structure hand sketch activity
8. **Electrical & Electronics**
    - Motor Selection
    - Battery Selection
    - Wiring & Connections
    - Electrical Safety
9. **Online Test (Rulebook Test)**
10. ***Hybrid Powertrain***
    a. What do you understand by hybrid?
    b. Types of Hybrids
    c. Developing hybrid Powertrain
    d. Efficiency Management of Hybrid Powertrains
11. **Safety & Precautions**
12. **Closing Ceremony & Guest Speech**

ETHAN RACING

A FORMULA STUDENT RACING TEAM

Title: Two-day program on Campus Mentorship.

Preamble:

A Two days Program has been conducted at Vidyavardhini's College of Engineering and Technology, Mumbai in order to mentor about Upcoming Formula Imperial 2020 Event and give basics on FSAE car design and manufacturing. This program was in association with Imperial Society of Innovative Engineers (ISIE) India.

Participants Profile:

A total of 45 participants consisting of members of Team Ethan Racing and upcoming budding engineers of India.

Description about this program:

On inauguration function, Mr. Sanjay Lohar, Incharge of Team Ethan Racing, attended Speakers Mr. Deepak Shirsage, Mr. Vatsal Raithatha and Mr. Rohan Sonawala in the presence of our Head of the Department of Mechancial Engineering Mr. Uday Asolekar.

Commencement of this program was started by Mr. Uday Asolekar giving speech on importance of learning new technology and why it is important for the development of our nation as a whole.

Mr. Sanjay Lohar also briefed about importance of conducting such programs in the college and building up learning skills within ourselves.

Mr. Deepak Shirsage, FMSCI Professional Driver Certification Holder, spoke on what it takes to be a driver for FSAE Team and knowing its responsibility and also discussed about latest technology related to brakes and other subsystems which were given as assignment to be discussed on second day of program. Also he spoke about sponsorship and maintaining relationships with them as it is important for any FSAE team for manufacturing a car. Also how to approach sponsors and on Business Plan Presentation was discussed.

Mr. Vatsal Raithatha, Judge of SAE SUPRA India, spoke on teambuilding and working in hegemony with other team members as for building successful cars, one should first build a successful team. This topic was giving maximum time and explanation as to make juniors of our FSAE Team understand decipher and grasp the secret behind it. Furthermore, on day 2, he spoke more about manufacturing different parts and went into detail on using manufacturing tools, materials to be considered and what

ETHAN RACING
A FORMULA STUDENT RACING TEAM

upgradation we could do to improve our car, basically he was talking about thinking out of the box i.e innovative thinking.

Mr. Rohan Sonawala, Project Manager at Deepak Vacuum Technologies, spoke on design techniques as before manufacturing, it is important to design components. Before that it was crucial to know what types of design software are available, so he briefed it for us. On the next day, he spoke on various subsystems of the F1 car and also new technologies available to perform in our new car.

All in all, it was a very interactive session. Many questions raised by the participants were solved/answered by the speakers. It was fun experience interchanging knowledge of our own and additional knowledge of the speakers. As the speakers once worked on making Go-Kart and Baja SAE, they were very well informed about FSAE event too. They shared their past experiences of their youth and showed some videos of their cars, FEA models, their animations, Dynamic events of Go-Kart and Baja SAE were awe-inspiring given their videos and their reactions based on that as if memories and nostalgia began to flood back in the seminar hall engulfing the participants too.

The session ended with speakers properly analyzing our car back in our FSAE Room and giving us professional feedback and important tips of improving our car. Also flaws about our previous competition failure was discussed in brief. Finally, a group photo with speakers and participants along with the presence of faculty incharge Mr. Sanjay Lohar was taken.

Feedback:

All the participants expressed their sincere gratitude to the speakers on mentoring for our upcoming Formula Imperial and SAE SUPRA India in July 2020.

Shoutout for co-ordinating this event:

Ethan Racing Team Captain Mr. Ashutosh Mohol, Co-ordinating faculty : Mr. Jinesh Pathak, Mr. Parth Buha and Ms. Mrinmayee Bahadkar.

Report made by: Mr. Vinit Firke.

477_One-week Refresher course in Ansys, CFD, and MATLAB with Industrial

Date: 06-07-2019 to 10-07-2019

Topic: REFRESHERS COURSE ON ADVANCED ANSYS, CFD AND MATLAB

Venue: 3rd floor Seminar Hall, V.C.E.T. Vasai(W).

Resource Persons: Mr. K.Vijay, Mr. Paresh Wadekar, Mr. Sumit Nalawade, Mr. Trushank

On the first day we started our training with an introduction of an ANSYS software and its major applications. The first step was to know the three terms of the software which was pre-processor, processor and postprocessor. Basic SOM terms was also explained by the training faculty. The actual session was started with a basic load example.

Our second was started with the work bench which was on time sharp at 9 o clock. Initially we did the basic beams analysis in work bench. Then another task was to create the model of pipe T joint on the work bench and also learned to set boundary conditions for the same.

On the Third day Mr. Paresh Wadekar given a lecture on CFD. Introduction about CFD, what are the tools available in Ansys library browser, working and usage of the tools in Ansys system as well as commonly used blocks. The aim of workshop is to expose the participants to the use of CFD and its applications. This workshop will also provide hands on experience with CFD software starting from rudiments to the end of designing a circuit.

On the Fourth day Mr. Sumit Nalawade given a lecture on CFD in Ansys. How the simulation involved in the projects like M.Tech. projects and B.Tech. projects. He explained Meshing of designed part, boundary condition of any system and How to apply boundary condition on system. In his lecture how to assign the values related to the problem and finally verified the results.

On the Fifth Day The session started with the introduction of MATLAB as a computational Software, it's application, capabilities and the level of complexity of the problem it can handle, the mentor familiarised is with the user interface of the software including the directory browser, working folder, workspace windows where in all the variables used in MATLAB are supposed to be stored, the command window for giving the user inputs in the form of commands, variable inputs, etc. The students were introduced with the different tools present in the toolbox which can be readily used.

During the workshop the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. Modern Tools like ANSYS, CFD and MATLAB were used for the analysis. The workshop encouraged the students to analyse Individually as well as a team, works on different types of Real world and Industrial projects during practice sessions.

ADVANCED ANSYS

Date: 07-07-2019

Topic: REFRESHERS COURSE ON ADVANCED ANSYS, CFD AND MATLAB

Venue: 3rd floor Seminar Hall, V.C.E.T. Vasai(W).

Resource Persons: Mr. K.Vijay

Our second was started with the work bench which was on time sharp at 9 o clock. Initially we did the basic beams analysis in work bench. Then another task was to create the model of pipe T joint on the work bench and also learned to set boundary conditions for the same.

After setting boundary conditions were set the next task was to do the fluid flow analysis. The thing that we observed was tithe stagnation region at the bent area of the pipe which we had to study during the analysis.

In the second half, sir showed us the example of the ship model that was built in APDL. Various videos were shown on resonance, explaining the need of CFD.

Also, sir showed us the method to import file from another 3D software into workbench. We learned various Boolean operations to edit the workbench.

We also had a doubt solving session for half an hour that included Ethan team followed by individual projects. The session was very useful for us. The session ended by 5:00 pm, with vote of thanks.

Venue: 3rd floor Seminar Hall, V.C.E.T. Vasai(W).

Resource Persons: **Mr. Paresh Wadekar**

VCET, Vasai(W), 08th July 2019 – In a bid to provide insight into virtual instruments and technical computing, widely used for industry academics and research. Mechanical branch of VCET had conducted a one-day workshop to introduce students about "CFD". The event serves as the culmination of "Connecting the basic studies done by the students and practically observing them by simulating them" and the advantages of using this software platforms which are very helpful for them in future to implement their innovative ideas.

The aim of workshop is to expose the participants to the use of CFD and its applications. This workshop will also provide hands on experience with CFD software starting from rudiments to the end of designing a circuit.

Mr. Paresh Wadekar given a lecture on CFD. Introduction about CFD, what are the tools available in Ansys library browser, working and usage of the tools in Ansys system as well as commonly used blocks.

MATLAB

Date: 10-07-2019

Topic: REFRESHERS COURSE ON ADVANCED ANSYS, CFD AND MATLAB

Venue: 2nd floor Internet Center, V.C.E.T., Vasai(W).

Resource Persons: Mr. Trushank, COGNITIO

The session started with the introduction of MATLAB as a computational Software, it's application, capabilities and the level of complexity of the problem it can handle, the mentor familiarised is with the user interface of the software including the directory browser, working folder, workspace windows where in all the variables used in MATLAB are supposed to be stored, the command window for giving the user inputs in the form of commands, variable inputs, etc. The students were introduced with the different tools present in the toolbox which can be readily used. The session proceeded with a presentation covering each of the basic command required to solve various set of problems, it included different data types the software can handle, variable assignment, basic keywords, operators which included logical & arithmetic operators, priority order of the operations performed in MATLAB, etc. Matrices which is the true power of MATLAB. Matrix processing examples were done which included extracting the elements of the Matrix, converting row matrix to column and vice-versa, calculating the inverse of a Matrix, solving the gauss elimination method for evaluating variables in a simultaneous equations, etc, thereafter the session also covered data visualisation which included plotting data or a equation, different plotting techniques were discussed which included pie charts, scatter diagram, bar chart and a histogram many such examples were solved. The last part which was discussed was introduction to MATLAB Simulink wherein we can design a control system by using simple building blocks, the students were introduced with the Simulink library which contained large number of functional blocks.

Parin Dave,

Design Engineer

Technimont, Mumbai.

Subject: Invitation to conduct an Expert Lecture

Dear ~~Madam~~ Sir,

We are pleased to invite you to conduct an Expert Lecture on Machine Design for BE (Mechanical) div A and B.

It would be very nice if you share your Industrial Experience and Challenges you faced as a Design Engineer.

Also brief the students about different career options possible as a Designer.

Please inform about the date and time it would be possible for you to conduct the session.

Regards

REPORT ON THE EXPERT LECTURE BY Mr. PARIN DAVE

Mr, Parin Dave had conducted an Expert lecture on Machine Design on 13th February 2019.

He shared his Industrial experiences with the BE div A and TE div B students.

He gave a complete insight on all the design projects he has worked on. He also shared with the students the design methodology adopted in Technimont ICB.

He gave a brief insight on the Placement requirement in Technimont, the preparation required and the probable questions which can be asked during interview process. He also briefed the students about the different areas Technimont works in.The session ended with a thanks giving speech by Prof. Madhumita Dutta.

During the workshop the Problem solving ,and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well as a team, works on different types of Real world and Industrial projects during practice sessions

TO

Gauri Parker

Design Engineer

Goregoan, Mumbai.

Subject: Invitation to conduct an Expert Lecture on Machine Design I

Dear Madam

We are pleased to invite you to conduct an Expert Lecture on Machine Design for TE (Mechanical) div A and B.

It would be very nice if you share your Industrial Experience and Challenges you faced as a Design Engineer.

Also brief the students about different career options possible as a Designer.

Please inform about the date and time it would be possible for you to conduct the session.

Regards

21/1/19

Prof. Madhumita Dutta

Asst.Prof, (Mechanical Engg)

VCET, Vasai.

Dr. Uday Asolekar

HOD Mechanical Engg

I'll take the expert lecture on 24th Jan 2019, 11-12pm. for TE Mechanical

GNParkar

GAURI N. PARKAR.

REPORT ON THE EXPERT LECTURE BY Ms. GAURI PARKER

Ms. Gauri Parker had conducted an Expert lecture on Machine Design on 23rd January 2019.

She shared her Industrial experiences with the TE div A and TE div B students.

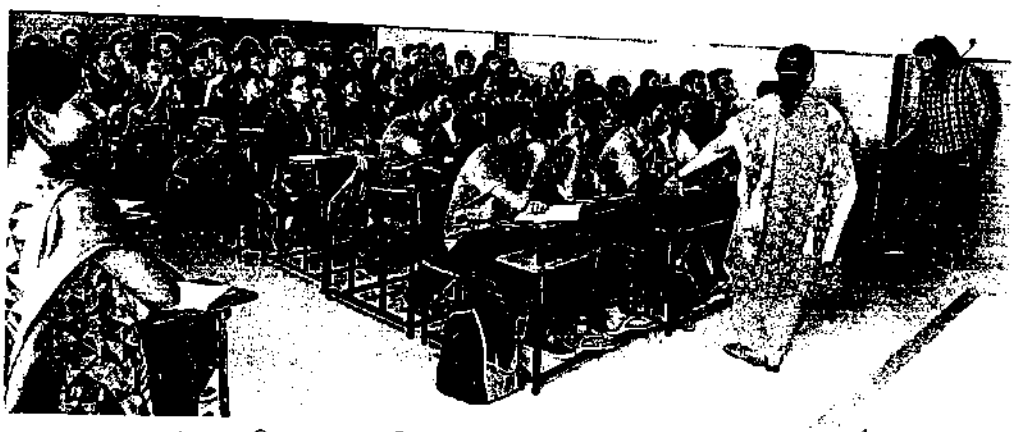
She gave a complete insight on all the design projects she has worked on. She also shared with the students the design methodology adopted.

She gave a brief insight on the methodology to prepare a Design proposal and a Design Planning. She shared with the students her own Design Proposal and Planning Documents.

She also briefed the students about admission procedure to IDC, IIT Powai and NID Ahmedabad.

The session ended with a thanks giving speech by Prof. Madhumita Dutta and Prof. Manisha Dhanokar.

During the workshop the Problem solving and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. The workshop encouraged the students to analyse Individually as well as a team, works on different types of Real world and Industrial projects during practice sessions.



Miss Gauri Parker addressing students.

ANVESHAN 2019- A Product Showcase

Date of Event: 19/09/2019

Chief Guest: Mr. Prasad Patnaik, Director, Oditronics Technology Private Limited

Product Showcase, also known as Anveshan is one of the annual events held by the IEEE and IETE committees of EXTC department. Showcasing products from major industries as well as local industries in the neighbouring area. This event is an eye-opener to all the technology students. It introduces students to the new technologies around us showcased by various companies and students.

The event was inaugurated by Mr. Prasad Patnaik, the CEO of Oditronics Technologies Pvt Ltd. He started off the event by giving a speech focussing on skill needed by industry and shared his own journey.

Products ranging from smart lights and elevator panels to humanoids and 3d printers, there were products from over more than 30+ companies which were an eye-opener towards the current technologies. There were also products from medical domain such as automated injections and a replica of a production line. Boasting some products from major companies like Siemens, Verma Brothers, Bosons machines, Fox Domotics Pvt Ltd etc. Anveshan is one of the important events which helps to introduce the current trends in the industry and even in this year. Anveshan fulfilled its expectation. This event bridges the gap between the students and companies, which also helps students for their projects and future ventures. This year's event was concluded with a substantial increase in footfall as compared to last year's event.

List of Companies: ANVESHAN 2019- A Product Showcase

Sr.No	PRODUCTS	COMPANY
1	Home Automation System	Responsenet

REPORT ON 2 DAY- DRONE WORKSHOP

A Drone workshop was organised on 28TH and 29th September by IETE VCET in collaboration with Drona Aviation and Eduvance to give the first-hand experience about drones to First- & Second-Year students. It was much needed for everyone considering the momentum it has caught for the masses. The workshop was held in the presence of two faculties from Eduvance, Mr. Dushyant Pal and Mr. Paramshivam Konar. The seminar was arranged under the guidance of IETE VCET Counsellor Mrs. Shaista Khan.

The seminar started with a warm welcome of both of them. Further, the workshop started gaining its flight as all students were introduced to the basic mechanics of drones and aviation. Beginning from aviation to mechanics behind planes, helicopters, drones, knowledge about every associated domain was provided to the students. The workshop was divided into 2 days. The first day witnessed the basic prerequisite right from history to the present day about Arial vehicles. The day ended with the students assembling drones from their DIY kits. The second day foreseen the explanation of all parts of the drones. Once done, the students flew their drones. Various flight techniques and tutorials were provided to them in terms of speech, VR and simulations as well.

The event was concluded by the vote of thanks followed by the distribution of certificates for students. Indeed, the workshop was very fruitful for the students as they got to learn about the science behind drones as well as in-hand experience which is of utmost importance.

IEEE Day

01/10/2019

The Department of EXTC in association with VCET IEEE-SB had organized a seminar on the auspicious occasion of **IEEE Day**, dated 1st October 2019. The seminar was organized for the students of N.G. Vartak Junior College, Virar on the topic "Communication Engineering: The Essence of Technology". The main motive was to make them aware about an international technical organization called IEEE and create an interest about the grassroots of communication engineering and their evolution till this present day.

The students as well as the faculty members of N.G. Vartak Junior College visited our campus. The seminar started at 11a.m with an Introduction to Communication Engineering which was delivered by the members of the committee. They explained the students about the evolution of the communication networks and career in communication engineering. At the end the members made them aware of the IEEE society. A lab visit was organized for the students after the seminar to make them aware about the different aspects related to Electronics & Telecommunication Engineering The day ended by cutting the cake on the auspicious day of IEEE. The entire program was coordinated with the support of the Principal, faculty and students of Department of EXTC, VCET. All the students and faculty members of the college expressed their gratitude to the members of IEEE for creating awareness about IEEE Community. The department of EXTC of VCET has been always looking forward to organize future seminars in order to create awareness of IEEE.

Seminar on pathways after engineering

Date: 24/01/2020

On 24th January 2020, the IEEE-SB committee of EXTC department of VCET organised a seminar on the various pathways students can opt for after completing their engineering.

The seminar was held by Ms. Swati Khedekar, an alumni of our institution. The session began with a short motivational speech by our Dean of academics, Prof. Vikas Gupta sir, followed by felicitation of the speaker.

The 2 hour long session was very informative. Students got insights on many career opportunities after graduating with a BE degree- both from the technical and non-technical areas. Our speaker herself was a management student with specialization in finance, after a BE in electronics and telecommunication engineering. Students became aware of several pathways like research & development, business & management studies, MS from abroad, government exams for civil services, GRE or IELTS examinations amongst many other such areas.

For a better understanding, the speaker was thoughtful enough to make use of a white board to draw and illustrate with diagrams and pie charts. By the end of the session, students had a much clearer idea about where they were standing right now in life and where they would like to see themselves 10 years down the line.

The seminar was concluded with an intense ½ an hour-long question and answer round where the speaker addressed many questions and provided each student with a brief answer to solve their misgivings. This seminar left the faculties, students and all the committee members pleased and satisfied.

Seminar on 'Scope Of VLSI'

Date: 29/01/2020

Resource Person: Mr. Chaitanya Amin, Sr. ASIC Engineer at Nvidia, India

On 29th January 2020, the IETE committee of EXTC department of VCET organised a seminar on "SCOPE OF VLSI".

The seminar was held by Mr. Chaitanya Amin, an alumnus of our institution. The session began with a short motivational speech by our Dean of academics, Prof. Vikas Gupta sir, followed by felicitation of the speaker.

The important points discussed in the seminar are as follows:

- General eligibility / skills required
- Importance of the subject
- Job scope in the industry
- Future Scope of these subject for the job

The main objective of this seminar is to introduce students to Scope and importance of VLSI. This seminar showed the importance of VLSI as a trending field to be pursued by the students after their graduation. It also showcased the various opportunities available for students in this sector.

The seminar was concluded with an intense ½ an hour-long question and answer round where the speaker addressed many questions and provided each student with a brief answer to solve their doubts. This seminar left the faculties, students and all the committee members pleased and satisfied.

Seminar on 'Importance of research for undergraduates'

Date: 04/02/2020

06th February 2020, the IEEE Committee of Electronics and Telecommunications Dept of Vidyavardhini's college of engineering Vasai, organized a seminar on "Importance of research for undergraduates" as it is very important in today's world. It was conducted by Dr. B. Satyanarayana, Scientific Officer (H), Tata Institute of Fundamental Research, Mumbai.

Dr. Satyanarayana has published over 220 research papers and proceedings in national and international journals and conferences, besides scores of invited talks. His very first paper won the best paper award by the Institution of Electronics and Telecommunication Engineers (IETE).

The session started with the basic explanation of What does Research means! He emphasized the understanding behind the research to be exposed at the level of Under graduation. He quoted 'Where there is a will there is a way', which is very important during a research. Students were exposed to innovative ideas, fields, and topics. New technologies introduced and coming up in future were given a brief explanation.

Dr. Satyanarayana used his research works as simple examples to motivate the students! The seminar covered many applications of technology. At the end session concluded that research based on technologies can be done anywhere, from an agricultural land to a fully equipped laboratory.

The entire session was interactive and certainly different. They flooded their doubts and made them clear. Students from various departments attended the workshop, including TE's and BE's. The workshop ended with a feedback session where many students suggested ideas and topics for research! And the reviews suggested on inviting more workshops based on this workshop

Arduino workshop

Date: 26th and 27th February 2020

Department of Electronics and Telecommunications Engineering in association IEEE-SB organized a one-day workshop on Arduino on 26th and 27th February 2020. It was conducted by

Ms. Shaista Khanam, Assistant Professor, EXTC Department, VCET

Mrs. Trupti Shah, Assistant Professor, EXTC Department, VCET

Arduino board is widely used board in academics and industry. It is an Open-source electronic prototyping platform enabling users to create interactive electronic objects. The focus of the workshop is to understand Arduino board, have hands on practice on it and able to use in applications. The session started with introduction to microprocessor, microcontroller, Arduino board and its I/O pins (Digital and Analog). Various applications of Arduino were also discussed. More stress was given to IOT application which can be implemented with Arduino.

Hands on session began with Installation procedure of Arduino IDE. The open-source Arduino Software (IDE) makes it easy to write code and upload it to the board. It runs on Windows, Mac OS X, and Linux. Also Explained Various selections like port, board is done in Arduino IDE.

Various Lab sessions conducted for better understanding of I/O ports and its usage. Following Lab sessions demonstrated, and students practiced the same.

- Blinking of LED
- Tri color LED with Push Button
- LED Fading
- LCD Interfacing
- Interfacing of Ultrasonic sensor
- Interfacing of Temperature and Humidity sensor (DHT 11)

Some assignment and Arduino Applications were discussed. Students participated very actively in the hands-on session. 62 students along with supporting staff participated in the workshop. The session ended with Question answer and Feedback

The report on FE Quiz 2020

FE Quiz was a quiz conducted by the IETE committee for the first-year students. This was a two-day event which was conducted on 3rd & 4th March 2020 in the seminar hall located on the ground floor. The quiz was based on the genres like sports, cinema, science and technology, history, geography.

The first day of the event was a qualifying round with MCQ based questions. This round was for all the participants who participated, they were given a question set with each group having 3 participants and had 30 minutes of time. Out of all the teams the first six groups were selected for the finales of the quiz which was held on 4th March 2020.

The first day saw only the inclusion of participants but on the second audience and the teachers were also invited to the finals. The six teams which were elected had to go through 5 different rounds with the end of second round the elimination of the teams started based on the points they scored. The rules were simple, each round gave you a specific number of points when the round ended the team with the lowest point was disqualified. The five rounds were as follow:

- 1st round: General MCQ: - This was MCQ based round which had questions from different genres and topics.
- 2nd round: The memory round: - This round had a series of photos which showed different things the team members had to remember them in the sequence of their projection.
- 3rd round: Locate the picture: - a photo of an Important landmark was displayed to the contestants and they had to guess where it was located.
- 4th round: The game changer: - This was a bonus round and the teams had to choose from 4 different genres that were science, geography, sports and cinema. Then they were asked questions regarding the genres.

Gadhav

- 5th round: **The finals:** - This was a buzzer round only three teams were left, when the questions were asked, teams were supposed to hit the buzzer. The first team to do so had a chance to answer the questions. And if the answer were correct, they were awarded with the points.

These rounds were intervened with some extra general knowledge-based questions for the audience and the teachers present. The winners of the quiz were awarded by the cash prize. The winners for the quiz were Ms.Riya Patil and Ms.Isha Pise.

Visit to TATA Institute of Fundamentals Research (TIFR)

Date: 14th March 2020

The students of the EXTC department were taken to the TATA Institute of Fundamental Research (T.I.F.R.) for the industrial visit under IEEE-SB. Students were taken to the conference hall and were introduced to the history and the on-going research at the research facility by Dr. Satyanarayan Beeshte, Scientific Officer-Head at TIFR.

The sessions at TIFR. started with an intriguing and in-depth explanation of the practical aspects and design flow of an FPGA system by a senior scientist team lead at BARC. Later, a session on Signal Processing and DAQ systems was conducted by Dr. Satyanarayan Beeshte(Scientific Officer-H) which he introduced students to High Energy Physics and experiments related to it conducted at TIFR.

The final session was the explanation of the setup of stacks of gypsum plates and DSP circuits operating simultaneously to detect Cherenkov Effect and tracing the path of photons generated due to subatomic particles and the entire working of the system to detect the presence and trajectory of subatomic particles used to gain useful insights for advance research and development at TIFR.

This Industrial Visit provided an exposure to the students of EXTC department to an entirely different domain of advance research where their knowledge gained from their course curriculum can be applied.

Webinar Series on "Technological advancements in the field of electronics & telecommunication engineering"

Date: 5th - 9th May 2020

Due to COVID-19, we all got an unexpected break so to make use of these break. The EXTC department of VCET brought a series of webinar on "TECHNOLOGICAL ADVANCEMENTS IN THE FIELD OF ELECTRONICS AND TELECOMMUNICATION ENGINEERING" in association with IETE-SF & IEEE-SB from 5th - 9th May 2020.

Due to the Advancement in the field of robotics, Extc department arranged their first webinar session on "Introduction to wireless sensor networks and IOT" and was presented by Dr. Saurabh Mehta, who is currently a Chief Academic Officer & professor in VIT, Mumbai. The seminar started with the Introduction to some wireless technologies and then he gave an detailed introduction to Wireless sensors. After giving some basic information of sensor networks, then students were being introduced to numerous Application used in the field of IOT and on Wireless sensor networks i.e., some agriculturally based applications. The last but not the least, but the important thing of the session i.e., learned skills or the skills required to get a job and lastly it ended with an Q&A session.

After Robotics, the second advancing field in the industry is "Embedded System and its Application" and that's the topic of the second session of the webinar. Which was being presented to students by Mr. Maneesh Singh, who's currently working as a Sr. Embedded Software Engineer at Tesseract Imaging Pvt. Ltd.? The webinar session started with the small introduction of our owned faculty Prof. Shaista khanam who is also a branch counsellor of IETE-SF and then a quick introduction of the speaker the webinar started with the most important point i.e. understanding what Embedded System is. After that why and where we going to use it in the industry after discussing these two things, two major questions were being solved which came into every student mind i.e. What is Career opportunity in embedded Systems with different types of job role and What are the Skillset required for Embedded system. As Embedded system is nothing but using Software + Hardware, so which programming language is used and Why C is the most widely used programming language for Embedded System. And then the session was concluded.

The third and the most important session of the webinar series is the "Internet of Things opens doors to endless Application". The webinar was presented by Dr. Rita Jain, Co-founder of AVRN labs, Bhopal. The seminar started with the small introduction by our owned faculty Prof. Sunayana Jadhav and after a small introduction by the Speaker Dr. Rita Jain. At the Start of the webinar session the speaker showed us some series of videos which tells us about the How IOT would help in changing and making our life easier in the future? And which also shows us the usage of the Smart mirror, and How AR technologies used in the future restaurant, and many more things and then the session started with Understanding the Internet of Things and how IOT some Applications like Home Automation, Agriculture etc. After that a short explaination of how industry is being revolutionized by various technologies used and different types of technologies used in the development of IOT and what are the career opportunities and what are the Skillsets required to find a job and then the session ended with the Q&A session.

The main motive of these webinar series is to show the students about the technological advancements in the electronics and telecommunication field, so the other important thing is "Microwave Engineering for Strategic and Societal Applications". This amazing session was presented to the students by Dr. Harish Dixit, BITS Pilani Hyderabad. The seminar started with the basics of the microwave engineering and also some examples based on day-to-day life were given and also exposed to innovative technologies based on microwave engineering. And later, an in-depth explanation of how microwaves are used extensively in today's world and how microwave engineering is used to design and develop various machines such as a two cavity - klystron. A brief explanation was given about several applications such as backward wave oscillators and how they're used to generate microwaves.

The last session of the webinar series which not much related to the electronics & telecommunication field but it's the most trending technology in the tech world i.e. "Machine Learning and Artificial Intelligence" This amazing session session was being hosted by Mr. Pratik Tirodkar, CEO/Founder: Build My Project. Although, the seminar started with the Quick introduction by Prof. Shraddha Gosavi. So, the session started with "What is AI?" and then he explained us some explained us the applications of the AI in the real world, what it is related to and how it going to change the world in the future and as we all that it's a developing field, so it going to take some time to get develop. And what is its application

and most importantly he cleared the myth and that how machine learning and Artificial Intelligence is different, and their applications are also different and then later on he talked about the Machine learning and its Application and later on the Q&A session was held and that's how the webinar series and session ended.

Webinar has covered various emerging technologies in Electronics and Telecommunications Engineering and has given insight of all technologies. It was very enlightening session for faculty and students.

Report on
"An international-level tech trivia challenge "

Event Name	"An international-level tech trivia challenge "
Centre (name)	IEEE-SB
Venue (College/Institute)	Online(Google meet platform), Vidyavardhini's College of Engineering and Technology, Vasai
Date & Time	2nd June 2020 to 8th June 2020
Important dignitaries attended	Dr. Vikas Gupta, HOD EXTC and IEEE-SB Incharge Dr. Sunayana Jadhav
Objective of the event	1. Present the triumph and impact of the international tech trivia event hosted by Vidyavardhini's College. 2. Emphasize the broad spectrum of tech topics covered, showcasing the event's comprehensive approach to technology education. 3. Recognize and appreciate the significant role played by IEEE-SB in organizing and conducting the successful event. 4. Illustrate how the event reflects the college's commitment to providing a holistic learning experience, extending beyond traditional academic boundaries.
Brief Report including above information	Vidyavardhini's College of Engineering and Technology, located in Vasai West, recently hosted an exhilarating and intellectually stimulating event – an international-level tech trivia challenge. This innovative competition took place from June 2nd to June 8th, 2020, embracing the virtual realm through an online mode conducted via Google Meet. The event garnered participation from an impressive count of 331 enthusiastic individuals, all eager to test their tech knowledge at the basic level. Organized by the esteemed Institute of Electrical and Electronics Engineers Student Branch (IEEE-SB), this tech trivia contest aimed to engage participants in a mind-fizzing experience, blending entertainment with education. The platform allowed participants to showcase their understanding of various technological domains,

	from programming languages and computer hardware to the latest developments in artificial intelligence and cybersecurity. The Google Meet platform served as the virtual arena where participants, regardless of geographical boundaries, connected to compete and demonstrate their prowess. The event not only provided a platform for healthy competition but also fostered a sense of camaraderie among tech enthusiasts. The questions, carefully curated to be both challenging and accessible at the basic level, ensured that participants were both tested and enlightened. Vidyavardhini's College, known for its commitment to academic excellence and technological advancement, took pride in hosting this international-level event. The success of the tech trivia challenge underscored the college's dedication to fostering a culture of learning beyond the traditional classroom setting. As the participants engaged in this intellectually enriching experience, the event served as a testament to the college's commitment to providing a well-rounded education that extends beyond textbooks and into the dynamic world of technology.
Outcome of the event	On successful completion of event students/learners will be able to: 1. Students who participated in the tech trivia event gained a deeper understanding of various technological domains, broadening their knowledge beyond the classroom curriculum. 2. The virtual nature of the event facilitated connections among students, fostering a sense of community and providing networking opportunities with peers sharing similar tech interests. 3. Successfully participating in an international-level event can boost students' confidence in their technological abilities, motivating them to pursue further challenges and projects. 4. Students' involvement in a well-recognized event adds to their academic

	and extracurricular achievements, potentially contributing to future opportunities such as internships, scholarships, or employment in the tech industry.

Report On Adobe Photoshop Workshop

VCET ISA student chapter conducted " Adobe Photoshop Workshop" for SE students on 27th August 2019. The speakers for event were Miss Kadimbini Tendulkar and Mr. Gaurav Parab .The workshop started with a brief introduction about the basic tools in Photoshop. To have a practical knowledge about the same, they asked the students to implement these tools on a raw image. It was an interactive session wherein the students cleared their queries related to Photoshop. Thus the event was successful one which gained an overwhelming response from the students.

Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

A Seminar on "How to write a Literature Review"

- Resource Person: Mr. Vishal Pande, (Assistant Professor, VCET)
- No. of participants: 60
- Date:13th September 2019
- Event Description:

A literature review is a survey of scholarly sources (such as books, journal articles, and theses) related to a specific topic or research question. Students are often required to write literature review as part of their final year dissertation, or research paper, in order to situate their work in relation to existing knowledge. With this in mind, VCET ISA Students' Section organised a seminar on "How to write a literature Review" by Prof. Vishal Pande, to enable students to write their own literature review for the final year projects.

REPORT

An Exhibition of the Engineering Products "Product Showcase -YANTRA 2019"

- Resource Person:

  Mr. Ketan Dodia (Director, Ronak Automation)

  Mr. Dattatray Sawant (President, ISA Maharashtra Section)

  Mr. Rushikesh Bhagat, (Strategic Manager, Honeywell India)

- No. of participants: 267
- Date:30th September 2019
- Event Description:

Every year ISA Students' Chapter of Vidyavardhini's College of Engineering and Technology (VCET) organises 'YANTRA'. It is a single day event wherein the students from Instrumentation department approach various Electrical and Instrumentation companies to showcase their products. This year 'YANTRA 2019' officially commenced on 19th September, Thursday around 9am. It started with an imposing Inauguration by Mr. Ketan Dodia (Director, Ronak Automation), Mr. Dattatray Sawant (President, ISA Maharashtra Section) wherein all the students assembled and YANTRA took its flight. Soon after Inauguration, the judges 'Mr. Rushikesh Bhagat' and 'Mrs. Mughda Salvi' began with judging the best exhibitors' competition. The event observed participation from various enormous companies like Honeywell Automation, Baumer Technologies, Jumo India Pvt. Ltd., VEGA India Level and Pressure Measurement Pvt. Ltd., and many more. The purpose of organizing such an event was to encourage student's participation, help them build skills and confidence for future endeavours. 'YANTRA 2019' witnessed a footfall of more than 200 visitors, including students from different schools, colleges and officials from different companies. 'YANTRA 2019' concluded at around 5pm by announcing the winners and runner ups of the best exhibitors' competition.

REPORT

A Seminar on "Scope of Instrumentation"

- Resource Person:

  Mr. Shantanu Kelkar, Senior Offering Manager - Software and Integrated Services in Honeywell International

- No. of participants: 108
- Date: 4th October 2019
- Event Description:

  Every year, VCET ISA Students' Section organizes a seminar on "Scope of Instrumentation" to guide the students of FE and SE Instrumentation Engineering regarding the opportunities and prospects for them as an Instrumentation Engineer and how to prepare for the successful career. This year we had a privilege of having our own alumni Mr. Shantanu Kelkar to guide the students on 4th October 2019. This session is specifically useful for students to interact with the industry professionals and prepare accordingly in terms of requirements of core companies.

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

A seminar on "Financial Accounting and Management"

- Resource Person:

  Mrs. Mugdha Salvi, (Assistant Professor, VCET)

- No. of participants: 53
- Date: 4 October 2019

Event Description:

In today's workplace, it is nearly impossible for an engineer to perform without considering the financial impact of every action on the organization's bottom line. Traditional industrial engineering decision-making tools are not always sufficient to help cut through to the bottom line. Make your profit center shine with sound financial management to supplement good engineering and other technology, VCET ISA Students' Section organised a seminar on "**Financial Accounting and Management**" by Mrs. Mugdha Salvi. In this seminar students were made aware of the financial aspect of the project management.

VCET ISA Students' Section

REPORT

Seminar on "Automation Workshop"

- Resource Person:

  Mr. Kalpesh Kadam, (Kaizen Automation)

  Mr. Rushikesh Bhagat, (Strategic Manager, Honeywell, India)

  Mr. Krishna Niranjan Bhise, (NB Engineers & Control Proprietor)

  Mrs. Jaanvi Hotwani, (Sales and business Development, Kaizen Automation)

- No. of Participants: 106
- Date: 18th &19th October 2019
- Event Description:

  VCET ISA Students' Section successfully organized a two-day automation workshop where students were provided training on PLC programming and provided with sessions on various trends in automation industry.

  Students were trained on professional software of PLC programming by industry experts on 18th October 2019 thereby their programming skills were improved. We had a privilege of having Mr. Kalpesh Kadam from Kaizen Automation to train the students. A series of lectures were delivered to the students on 19th October 2019 by industry experts.

  The first session was engaged by Mr. Niranjan Bhise, CEO of NB Engineers and Control Proprietors, on "Hazardous Area" and students became aware of hazardous areas in the plant and remedies.

  The second session was engaged by Mr. Rushikesh Bhagat, working as Strategic Manager, Honeywell, India where students came to know about the role of Instrumentation Engineer in automation Industry.

497_A seminar on Digital Marketing – use of social media for professional sales and marketing

-Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

A seminar on "Digital Marketing – use of social media for professional sales and marketing"

- Resource Person:Mrs. Jaanvi Hotwani, (Sales and business Development, Kaizen Automation)
- No. of participants: 70
- Date: 20-October 2019

Event Description:

In today's workplace, it is nearly impossible for an engineer to perform without considering the financial impact of every action on the organization's bottom line. Traditional industrial engineering decision-making tools are not always sufficient to help cut through to the bottom line. Make your profit center shine with sound financial management to supplement good engineering and other technology, VCET ISA Students' Section organised a seminar on "**Digital Marketing**" by Mrs. Jaanvi Hotwani. Students are acquainted with the procedures for using social media for professional sales and marketing of engineering products.

498_Seminar€on €LaTeX

-Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

Seminar on LaTeX

- Resource Person:

  Dr. Megha Trivedi, (Associate Professor, VCET)

- No. of participants: 59
- Date: 25th October 2019

Event Description:

LaTeX is a tool for typesetting professional-looking documents. LaTeX's mode of operation is quite different to many other document-production applications such as Microsoft Word or LibreOffice Writer, those tools provide users with an interactive page into which they type and edit their text and apply various forms of styling. LaTeX works very differently: instead, your document is a plain text file interspersed with LaTeX *commands* used to express the desired (typeset) results. To produce a visible, typeset document, your LaTeX file is processed by a piece of software called a *TeX engine* which uses the commands embedded in your text file to guide and control the typesetting process, converting the LaTeX commands and document text into a professionally typeset PDF file. You only need to focus on the *content* of your document and the computer, via LaTeX commands and the TeX engine, will take care of the *visual appearance* (formatting). VCET ISA Students' Section organised a seminar on "**LaTeX**" by Dr. Megha Trivedi. In this seminar students were introduced to a software where they can write technical papers, project papers just by writing lines of code to have hassle free experience. Which at times would not be possible for any other Text Editing software. Students are equipped with the knowledge of generating technical documents.

499_Arduino €Workshop

Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

Arduino Workshop

- Resource Person:

  Mrs. Kanchan Sarmalkar, (Assistant Professor, VCET)

  Mrs. Trupti Furia, (Assistant Professor, VCET)

- Date: 12th &13th March 2020
- No. of participants: 35

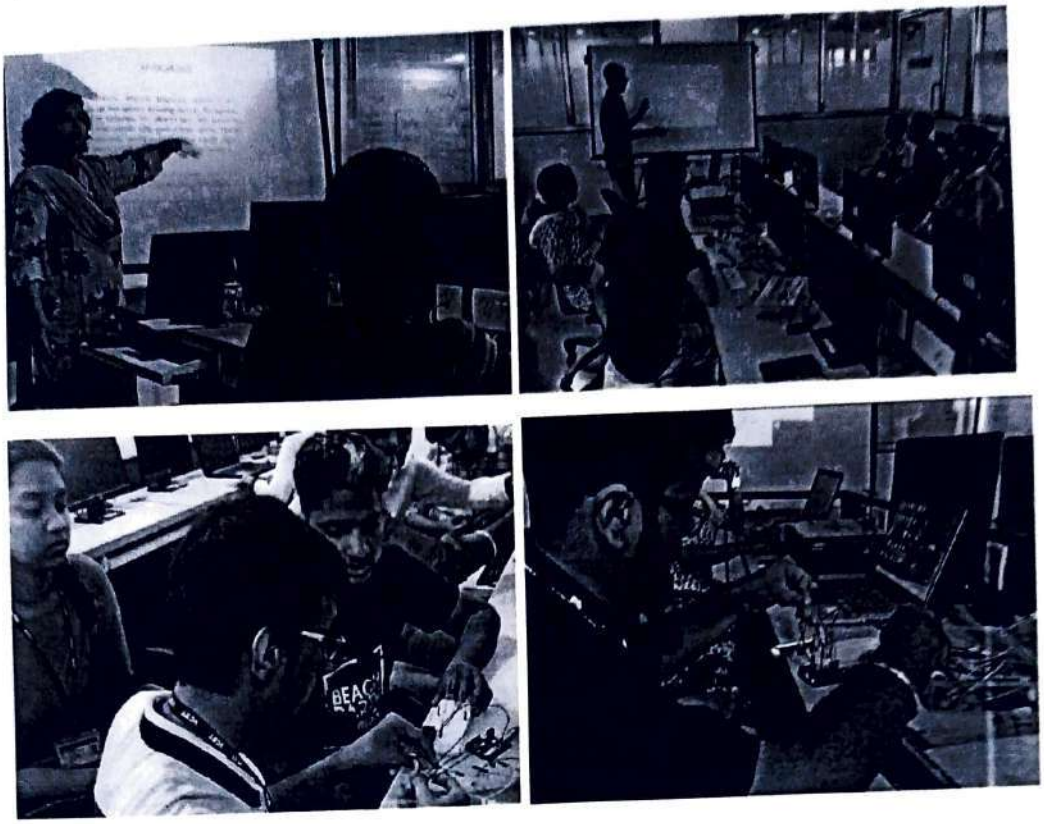
Event Description:

VCET ISA Studnets' Chapter organized a Two-Day Workshop on "Basics of Arduino UNO and its Applications" on 12th and 13th March 2020 for the students. The event was conducted by Prof Kanchan Sarmalkar and Prof Trupti Mane Furia who work as Assistant Professor in department of Instrumentation of VCET, as the technical resource person. This workshop was offered free of cost to the first, second- and third-year students of Instrumentation. Only the cost of the kit containing Arduino UNO board, breadboard, sensors, interfacing ICs, other components and connecting wires etc., was taken from the students as they kept the kit with themselves after the workshop.

The workshop began with the explanation of basics of Microcontroller, its evolution and how Arduino boards were invented. The Arduino board architecture was introduced in detail with its pin description. Also, after explaining how Arduino board is connected with PC/laptop, the programming language module (IDE) for same was explained. The basics of resistors, capacitors. LEDs, Switches etc and how to make breadboard connection was overviewed.

After all the basics were revised, students were taught to interface various components such as LEDs, Pushbuttons, LCDs, DC Motors, 7-segment LED, ADC etc., and sensors such as humidity and temperature (DTH) with the Arduino board and execute the codes so as to realise various applications.

The workshop was very successful amongst the students as evident from their feedback, and would be helpful for them during the execution of mini-projects, Robotic Competitions, final year projects etc.



Arduino Workshop 12th &13th March 2020

TechTalk 2020

13th to 15th Maye 2020

A Report on a webinar series "TechTalk 2020"

- Resource Person:

  Mr. Lalit Bangera, (Process design Specialist, Siemens Pvt Ltd)

  Mr. Omprakash Barure, (Principal Automation Trainer, BAGESHREE Consultants)

  Mr. Naveen Hinduja, Principal Application Consultant, AVEVA India

- No. of participants: 489
- Date: 13th, 14th and 15th May 2020
- Event Description:

  Instrumentation Department in collaboration with VCET ISA Students' Section organized a webinar series "TechTalk 2020" on 13th, 14th and 15th May 2020, with experienced industry experts as speakers. Through this event, students were acquainted with the basic concepts and current trends required in process and automation industry as well as documentation software used in EPC industry.

  The first session on 13th May 2020 was engaged by Mr. Lalit Bangera, working as Process Design Specialist in Siemens Pvt. Ltd., Singapore who spoke on "Recent Developments in Instrumentation, Control & Automation from manufacturing industries perspective".

  The second session on 14th May 2020 was engaged by Mr. Omprakash Barure, working as Principal Automation Trainer in BAGESHREE Instrumentation Trainers and Consultants, Mumbai, who spoke on "Evolution on Automation Technology".

  The third session on 15th May 2020 was engaged by Mr. Naveen Hinduja, working as Principal Application Consultant in AVEVA Information Technology India, who spoke on "Role of VAEVA in industrial Instrumentation and Control".

Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

An online seminar on "New Applications in Automation"

- Resource Person:

  Mr. Rushikesh Bhagat, (Strategic Manager, Honeywell, India)

- No. of Participants: 150
- Date: 8th June 2020
- Event Description:

Automation is the use of technology to perform tasks with where human input is minimized. This includes enterprise applications such as business process automation (BPA), IT automation, network automation, automating integration between systems, industrial automation such as robotics, and consumer applications such as home automation and more. Automation improves productivity by reducing time. An engineer can run a testing script in the background and can work on other productive tasks in parallel. Automation improves quality. Everything is done by the software/script. This reduces the chance of human errors. And results in improved quality. Automation increases efficiency. The rapid development of intelligent automation is ushering in a new era of productivity and innovation. As intelligent automation applications set new standards of quality, efficiency, speed, and functionality, companies that successfully employ it may surpass competitors that do not. Automation tools rapidly simplify operations, allowing a provider to deliver a much higher degree of customer service, while connecting the technology side to the business side of a network, boosting productivity. VCET ISA Students' Section organized a seminar on **"New Applications in Automation"** by Mr. Rushikesh Bhagat. Students were acquainted with current trends of automation in the field of medical, agriculture, infrastructure, IIoT, pharma etc.

International Student Internship Program

8th to 19th June 2020

A Report on
Two Week International Level Faculty Development Program on PLC And SCADA

- Resource Person:

  Mr. Vilas Chitnis, (CEO, Cietro Control Pvt. Ltd. LLP)

  Mr. Soju Sasindran, (Senior Product Trainer Education from Omron Automation India Pvt. Ltd.)

- No. of participants: 599
- Date: 8st to 19th June 2020
- Event Description:

VCET ISA Students' Section successfully organized a Two-Week International Students' Internship Program "Automatus 2020" from 8th to 19th June 2020 wherein students received hands on training on SCADA, PLC and HMI programming from industry experts which led to rise in technical skills of students. This might make their resume strong as the participants received certificate of internship from the organizing companies.

In the midst of the lockdown, when everyone was forced to stay at home, the engineering fraternity like you and me were looking for the opportunities to learn new things on-line and strengthen our skillset. So, the department of Instrumentation at VCET came up with the training program for students based on the most trending field of technology that is Automation. Luckily, we could also collaborate with the industry to make it an internship program as well and this is how Automatus 2020 came into existence. Around 600 engineering students from Maharashtra, Andhra Pradesh, Goa and various other parts of India enrolled for the program and made it a great success. We also had some international students enrolled for the program

The DAY 1 began with the session on 'Supervisory Control and Data Acquisition' by Mr. Vilas Chitnis (CEO, Cietro Control Pvt Ltd. LLP). In the Session he briefed about

SCADA as technology and use of Indusoft Web Studio (IWS) software in detail. The guidelines were provided to the participants to download and install the IWS software on their PCs/Laptops. Mr Megha Jantre from Cietro Control Pvt. Ltd. Provided necessary technical support in installation. By the end of the day, a quiz was given to the participants based on the technical session and installation guidelines to test their knowledge.

The hands-on training on IWS continued from Day 2 to Day 7. The Video Tutorial links were posted on the telegram group every day to generate SCADA mimic diagrams. All the participates were asked to prepare a Course journal for each day which included Learning Outcome of the Day and screenshot of IWS screen for each video. The participants were provided with the link to attempt daily quiz based on video tutorials where they also attach the daily course journal in the same link.

The hands-on training on PLC then took place from Day 8 onwards. The Day 8 began with a technical session on 'New Applications in Automation' by Mr. Rishikesh Bhagat, Strategic manager, Honeywell Automation India Pvt. Ltd. wherein he briefed about importance of automation in the various fields. Students were acquainted with current trends of automation in the field of medical, agriculture, infrastructure, IIoT, pharma etc.

Then Mr. Soju Sasindran, Senior Product Trainer, Education from Omron Automation India Pvt. Ltd conducted three technical sessions for two days based on introduction to the basics of PLC, HMI and its programming using programming tools of OMRON. After the hands-on training, participants were asked to develop ladder logic programs on Day 8 and 9, which were also made a part of course journal. The participants attempted quiz on both the days as well.

The Day 10 was engaged by Mr. Vagish Nishad and Mr. Sunish Suresh from Allied Electricals Pvt. Ltd. with a technical session on Zeliosoft PLC software, its introduction, installation as well as programming. This very simple and user-friendly software helped the participants perform ladder logic programming easily. The software exercise was done till Day 11 and 12. To make the learning sessions more exciting for students, activities based on various Gaming Pedagogies were conducted like puzzles, crosswords, snake and ladder etc., based on topics covered.

Students' Internship Program

automatus 2020

8st to 19th June 2020

8th June 2020	Technical Session 1 on Automation
	PLC Training Session 1
	PLC Training Session 2
	Technical Quiz 1
9th June 2020	PLC Training Session 3
	Technical Quiz 2
10th June 2020	PLC Training Session 4
	Technical Quiz 3
11th June 2020	PLC Training Session 5
	Technical Quiz 4
12th June 2020	Technical session on SCADA
	SCADA Module 1 Part 1 Training
	Technical Quiz 5
13th June 2020	SCADA Module 1 Part 2 Training
	Technical Quiz 6
14th June 2020	SCADA Module 2 Training
	Technical Quiz 7
15th June 2020	SCADA Module 3 Training
	Technical Quiz 8
16th June 2020	SCADA Module 4 Training
	Technical Quiz 9
17th June 2020	SCADA Module 5 Training
	Technical Quiz 10
18th June 2020	Completing Pending Work
19th June 2020	Exam Based on Entire Training
	Valedictory Function

Vidyavardhini's College of Engineering and Technology, Vasai(West)

Department of Instrumentation Engineering

Automatus 2020 ISIP

List of Participants Unique IDs

Unique ID	Salutation	Name of Participant (As to appear on Certificate)	Name of Organisation	Name of Department	Type of Engineering Course	Country of current university
AM20SIP-001	Mr.	Ananthu Ajith Nair	Vidyavardhini's College of Engineering and Technology, Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-002	Ms.	Diptee S. Patil	Ramrao Adik Institute of Technology, Navi Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-003	Mr.	Chandan Vijay Pawar	Bharati Vidyapeeth College of Engineering, Navi Mumbai	Instrumentation	Degree	India
AM20SIP-004	Mr.	Jay Dilip Rathod	Vidyavardhini's College of Engineering and technology	Instrumentation engineering	Degree	India
AM20SIP-005	Mr.	Nitin Amarnath Galugade	Vidyavardhini's College of Engineering and technology	Instrumentation	Degree	India
AM20SIP-006	Ms.	Tanvi Bhosle	Vidyavardhini's college of engineering and technology	Instrumentation	Degree	India
AM20SIP-007	Mr.	Gaurav Sunil Parab	Vidyavardhini's College of Engineering and technology, Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-008	Mr.	Nilesh dadarao kolte	Rajiv Gandhi institute of technology,mumbai	Instrumentation engineering	Degree	India
AM20SIP-009	Mr.	VIRAG VINOD NIKAM	Vidyavardhini's College of Engineering and Technology,Mumbai	Electronics and Telecommunications	Diploma	India
AM20SIP-010	Mr.	PRITHVIRAJ RAJU MUDALIAR	Bharatividyapeeth college of engineering	Instrumentation	Degree	India
AM20SIP-011	Mr.	Shivdas B. Vaidya	Vidyavardhini's College of Engineering And Technology	Instrumentation Engineering	Degree	India
AM20SIP-012	Ms.	Shivani Sanjay Karande	Rajarambapu Institute of Technology	Electrical engineering	Degree	India
AM20SIP-013	Ms.	Riya Robinson	BVCOE, Navi Mumbai	Instrumentation	Degree	India
AM20SIP-014	Mr.	TIWARI SHIVAM ANIL	SHIVAJIRAO S. JONDHLE POLYTECHNIC ASANGAON (EAST)	ELECTRICAL ENGINEERING	Diploma	India
AM20SIP-015	Mr.	SARKATE SIDDHANT DNYANDEO	Shivajirao S Jondhle Polytechnic Asangaon	Electronics and Telecommunication Engine	Diploma	India
AM20SIP-016	Mr.	Sachinkumar Narsingh Sala	Bharati Vidyapeeth College of Engineering Navi Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-017	Ms.	Srushti Sandeep Vichare	MCT Rajiv Gandhi Institute of Technology	Instrumentation Engineering	Degree	India
AM20SIP-018	Ms.	Isha Paithankar	Cummins College of Engineering for Women	Instrumentation and control engineering	Degree	India
AM20SIP-019	Ms.	Tanisha Hemant Gite	Cummins College of Engineering for women	Instrumentation and control	Degree	India
AM20SIP-020	Mr.	Jiten Telang	Shree L.R. Tiwari College Of Engineering, Mira Road (E), Thane-401107.	Electronics And Telecommunication	Degree	India
AM20SIP-021	Ms.	Monikasingh Jadaun	Bharati Vidyapeeth College Of Engineering	Instrumentation	Degree	India
AM20SIP-022	Mr.	Ashishchand E. Ramola	Vidyavardhini College of Engineering and Technology	Instrumentation	Degree	India
AM20SIP-023	Mr.	Abhishek Sutaria	Dwarkadas J Sanghvi College of Engineering	Electronics and Telecommunication Engine	Degree	India
AM20SIP-024	Mr.	Prathamesh Madhukar Jagtap	Vidyavardhini's College of Engineering and Technology	Instrumentation Engineering	Degree	India
AM20SIP-025	Mr.	Madhur Mahadev gawas	Vidyavardhini's College Engineering and technology, Mumbai.	Instrumentation engineering	Degree	India
AM20SIP-026	Mr.	Desai Smit Dinesh	Vidyavardhini's college of engineering and technology	Instrumentation	Degree	India
AM20SIP-027	Mr.	Vipinkumar Sharma	Konkan Gyanpeeth College of Engineering	Instrumentation	Degree	India
AM20SIP-028	Ms.	Aadnya Ajit Bhaip	Mksss's Cummins College of Engineering for Women, Karvenagar , Pune	Instrumentation and Control Engineering	Degree	India
AM20SIP-029	Mr.	B PAVAN KALYAN	Don Bosco College of engineering, fatorda,GOA	Electronics and telecommunication	Degree	India
AM20SIP-030	Mr.	Dikshant Ashok Solanki	Vidyavardhini College of engineering and technology, vasai west.	Instrumentation Engineering	Degree	India
AM20SIP-031	Mr.	Siddhant kunde	Don Bosco college of engineering, fatorda	Electronics and telecommunication depart	Degree	India
AM20SIP-032	Ms.	Madhu Sanjeev Athanikar	MKSSS CUMMINS COLLEGE OF ENGINEERING FOR WOMEN,PUNE	Instrumentation and control	Degree	India
AM20SIP-033	Mr.	Arman Lalani	Dwarkadas J Sanghvi College of Engineering	Electronics and Telecommunication	Degree	India
AM20SIP-034	Ms.	Sayali Kulkarni	Cummins college of engineering for women, Pune	Instrumentation and control engineering	Degree	India
AM20SIP-035	Mr.	DHADUK GAURAV K.	Amrutlal Virpal Parekh Technical Institute,Rajkot	Instrumentation and Control	Diploma	India
AM20SIP-036	Mr.	MADDINENI RAGHUNADHCHOWDARY	Prakasam engineering college, kandukur	Electrical and electronics engineering	Degree	India
AM20SIP-037	Ms.	Mahitha Gurram	AUTOMATUS 2020	Electrical and electronic engineering	Post Graduation	India
AM20SIP-038	Mr.	Adesh Nilkanth Mane	st.vincent pallotti collage of engineering and technology,nagpur	Mechanical engineering	Degree	India
AM20SIP-039	Mr.	Shaktiman N. Prajapati	St. Vincent Pallotti College Of Engineering and Technology, Nagpur	Mechanical Engineering	Degree	India
AM20SIP-040	Mr.	AMAN GUPTA	Galgotias College of Engineering and Technology, Greater Noida	Electronics & Instrumentation Engineering	Degree	India
AM20SIP-041	Mr.	Gaurav Shahaji Gunjal	Rajiv Gandhi Institute of Technology,Mumbai	Instrumentation Engineering	Degree	India

AM20SIP-042	Mr.	Rathod Gajanan Gulabrao	Amrutvahini Polytechnic, Sangamner	Electronics and telecommunication	Diploma	India
AM20SIP-043	Mr.	Yash Vipul Mistry	Rajiv Gandhi Institute of Technology, Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-044	Mr.	MOHAMMED AJMAL T	NSS COLLEGE OF ENGINEERING, PALAKKAD	INSTRUMENTATION AND CONTROL ENGINE	Degree	India
AM20SIP-045	Mr.	Debasis Damodar Nayak	SHREE L.R.TIWARI COLLEGE OF ENGINEERING	Electronic Engineering	Degree	India
AM20SIP-046	Mr.	VISHNU V	NSS COLLEGE OF ENGINEERING PALAKKAD KERALA	Electrical and Electronics engineering	Degree	India
AM20SIP-047	Mr.	Vishal Keshao Bhure	St. Vincent pallotti college of engineering and technology Nagpur	Mechanical engineering	Degree	India
AM20SIP-048	Ms.	Ritika Mondal	Dwarkadas J Sanghvi College of Engineering	Electronics and Telecommunication Engineer	Degree	India
AM20SIP-049	Mr.	PARMAR VISHAL PRAVINBHAI	A.V.Parekh Technical Institutestitute	INSTRUMENTATION AND CONTROL	Diploma	India
AM20SIP-050	Mr.	Dhruv Hemendrasingh Kanval	DharmSinh Desai University	Instrumentation and control	Degree	India
AM20SIP-051	Mr.	Suvog Jitendra Aswar	St. Vincent Pallotti College Of Engineering and Technology Nagpur	Mechanical	Degree	India
AM20SIP-052	Ms.	Aarohi Kapadia	U.V. Patel College of Engineering, Gujarat	Biomedical engineering	Degree	India
AM20SIP-053	Mr.	Davalmalik Maula Nagare	N. B. Navale College Of Engineering, Solapur	Electrical Engineering	Degree	India
AM20SIP-054	Ms.	Mousumi Baruah	Central Institute of Technology, Kokrajhar	Instrumentation Engineering	Degree	India

AM20SIP-393	Mr.	Kulkarni Shubham Raghavendra	Padmabhooshan Vasantraodada Institute of Technology , Budhgaon	Instrumentation Department	Degree	India
AM20SIP-394	Mr.	SHUBHAM GOPAL MANDWALE	Rajiv Gandhi Institute of Technology	Instrumentation Engineering	Degree	India
AM20SIP-395	Mr.	Aniket Pradip Lande	Jhulelal Institute Of Technology	Electrical Engineering	Degree	India
AM20SIP-396	Mr.	Ashish Dyaneshwar Thombre	Jhulelal institute of technology Nagpur	Electrical engineering department	Degree	India
AM20SIP-397	Ms.	Sakshi Nagnath Bhosale.	Y. B. PATIL. Polytechnic. Akurdi. Pune	Electronics and Telecommunications	Diploma	India
AM20SIP-398	Mr.	Tejas Subhash Desai	Rajarambapu institute of technology Sakharale	Electrical Engineering	Degree	India
AM20SIP-399	Mr.	B . Pavan Kalyan	Don Bosco College of Engineering ,Fatorda ,GOA.	Electronics and Telecommunication	Degree	India
AM20SIP-400	Mr.	Buddhabhushan Bramhane	Government College Of Engineering Jalgaon	Electrical Engineering	Degree	India
AM20SIP-401	Mr.	Vikas Rajendra Dindegave	N.B.Navale Sinhgad College of engineering kegoan, Solapur	Mechanical	Degree	India
AM20SIP-402	Mr.	Mohammad Hirani	Atharva College of Engineering	Computer Engineering department	Degree	India
AM20SIP-403	Mr.	Adarsh Ashokan	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation	Degree	India
AM20SIP-404	Mr.	HARINARAYAN DWARIKA JAISWAL	VIDYAVARDINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY	INSTRUMENTATION ENGINEERING	Degree	India
AM20SIP-405	Mr.	SREEYOGESH.N.R	NSS COLLEGE OF ENGINEERING	INSTRUMENTATION AND CONTROL ENGINE	Degree	India
AM20SIP-406	Mr.	Ajinkya Waghe	St. Vincent Pallotti college of Engineering and Technology, Nagpur	Mechanical Department	Degree	India
AM20SIP-407	Mr.	Amit Balu Kanase	Vivekanand Education Society's Institute of Technology	Instrumentation engineering	Degree	India
AM20SIP-408	Mr.	Shubham Bhanudas Gaikwad	Vivekanand Education Society's Institute of Technology	Instrumentation engineering	Degree	India
AM20SIP-409	Mr.	Athang Ravindra Sankhe	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation engineering	Degree	India
AM20SIP-410	Ms.	Maheshwari Satpute	MIT Academy of Engineering, Pune	Electronics and Telecommunication	Degree	India
AM20SIP-411	Mr.	Aniruddha Patil	Vidyavardhini's College Of Engineering & Technology, Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-412	Mr.	Tanmay Kulkarni	Atharva Educational Trust's Atharva College of Engineering, Mumbai	Electronics Engineering	Degree	India
AM20SIP-413	Mr.	ASHIN PRAKASH	Nss college of engineering, Palakkad, Kerala	Instrumentation and Control engineering	Degree	India
AM20SIP-414	Mr.	Yash Goshikwar	St. Vincent Pallotti College of Engineering and Technology, Nagpur.	Mechanical Engineering	Degree	India
AM20SIP-415	Ms.	Vishakha Prashant godbole	Jhulelal institute of tech.	Electrical engineering	Degree	India
AM20SIP-416	Ms.	Shreeraksha S	Ramaiah Institute of Technology, Bangalore	Electronics and Instrumentation	Degree	India
AM20SIP-417	Ms.	Aparna Sanjay Sadiwal	N.B.Navle Sinhgad College of Engineering Solapur	Electronics and Telecommunication	Degree	India
AM20SIP-418	Mr.	Kachhatiya Shivam D	Government engineering College, Rajkot	Instrumentation and control engineering	Degree	India
AM20SIP-419	Mr.	Omkar Dhondi Shivalkar	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-420	Ms.	Sejal Attarde	Vivekanand Education Society's Institution of Technology	Instrumentation	Degree	India
AM20SIP-421	Ms.	Shyamal balasaheb dhane	AC Patil college of engineering kharghar	Instrumentation	Degree	India
AM20SIP-422	Mr.	Suheb Khan	Vishwakarma Institute of Technology, Pune	Instrumentation and Control	Degree	India
AM20SIP-423	Mr.	Soham Bhingarde	SUNY University at Buffalo	Mechanical	Degree	United States
AM20SIP-424	Ms.	Gupta Neha Gopalprasad	Vivekananda Education Society's Institute of Technology, Chembur	Instrumentation	Degree	India
AM20SIP-425	Mr.	Parth Gupta	Mukesh Patel School of Technology, Management and Engineering, Mum	BTech (Mechatronics)	Degree	India
AM20SIP-426	Mr.	Advet Vijay Jadhav	Mit Academy of Engineering, Pune	Electronics and Telecommunication Engine	Degree	India
AM20SIP-427	Mr.	HRITIK YASHWANT NAGOTHKAR	A. C. Patil College of Engineering Kharghar, Navi Mumbai	Instrumentation	Degree	India
AM20SIP-428	Ms.	Pooja Gopalprasad Gupta	Vivekananda Education Society's Institute of Technology, Chembur	Instrumentation	Degree	India
AM20SIP-429	Mr.	Shubhamsingh Pardeshi	Brahmdevdada Mane Institute Of Technology, Solapur	Electronics & Telecommunication Engineeri	Degree	India
AM20SIP-430	Mr.	Aaqil Ahmed Kamal	St.Joseph's College of Engineering	Electronics and Instrumentation Engineering	Degree	India
AM20SIP-431	Ms.	Akshata Shinde	Cummins college, pune	Instrumentation and control	Degree	India
AM20SIP-432	Ms.	Ruchita Wani	Cummins College of Engineering for Women,Pune	Instrumentation and control	Degree	India
AM20SIP-433	Ms.	Gauri Mukund Kadam	Vidyvardhini's College of Engineering & Technology, Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-434	Ms.	Karale kshitija suresh	Mksss's Cummins college of engineering for women	Instrumentation &control engineering	Degree	India
AM20SIP-435	Ms.	Akanksha Tanaji Gadekar	Mksss's Cummins college of engineering	Instrumentation and control engineering	Degree	India
AM20SIP-436	Mr.	Justin vimal t t	NSS College of Engineering, Akathethara,Palakkad	Instrumentation and control engineering	Degree	India
AM20SIP-437	Mr.	Sameer Nagesh Deshpande	Y.B.Patil Polytechnic ,Akurdi, Pune	Electronic and Telecommunication	Diploma	India
AM20SIP-438	Mr.	MAYURBHAI ARJANBHAI DHADUK	(Vidyavardhini's College of Engineering and technology, Mumbai	INSTRUMENTATION ENGINEERING	Degree	India
AM20SIP-439	Ms.	Suvidha suhas sawant	Cummins college of engineering pune	Instrumentation and control	Degree	India
AM20SIP-440	Ms.	Harshada Sanjay Surve.	Shivanagar Vidya prasarak Mandal college of Engineering Malegoan (DA)	Electrical Engineering	Degree	India
AM20SIP-441	Mr.	Shreyas Amit Dongre	St Vincent pallotti college of engg	Mechanical Engineering	Degree	India

AM20SIP-442	Mr.	SOHAN MOHAN SHETTY	Vivekanand education society's institute of technology, Mumbai	Instrumentation	Degree	India
AM20SIP-443	Mr.	KARLEKAR VAIBHAV VASANT	TOLANI MARITIME INSTITUTE	Electrical and Electronics	Degree	India
AM20SIP-444	Mr.	JITESH VINOD AGNIHOTRI	Vidhyavardhini's college of engineering and technology	Instrumentation	Degree	India
AM20SIP-445	Mr.	Raj Kubal	Don Bosco College of Engineering, Fatorda, Goa	Electronics and Telecommunication Engine	Degree	India
AM20SIP-446	Mr.	Rizan Vasani	Dwarkadas J Sanghvi College of Engineering	Electronics Engineering	Degree	India
AM20SIP-447	Ms.	SIMRAN VERNEKAR	Don Bosco college of Engineering, Fatorda	Electronics and telecommunications	Degree	India
AM20SIP-448	Mr.	Sourabh Shibe	College of Engineering Pune (COEP)	Instrumentation and Control	Degree	India
AM20SIP-449	Ms.	Komal Jagmohan Yadav	Jhulelal Institute of technology	Electrical	Degree	India
AM20SIP-450	Mr.	Samuel Brayel D'silva	Don Bosco Institute of Technology, Kurla	Mechanical Engineering	Degree	India
AM20SIP-451	Mr.	Ameya Amol Carvalho	Don Bosco Institute of Technology	Mechanical	Degree	India
AM20SIP-452	Mr.	Pranav Shashank Khairnar	Mct's Rajiv Gandhi Institute Of Technology,versova	Instrumentation department	Degree	India
AM20SIP-453	Ms.	Chetna Kakde	Jhulelal Institute Of Technology	Electrical Engineering	Degree	India
AM20SIP-454	Mr.	Pawaskar Shrinidh Ganesh Sanyogita	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-455	Mr.	Roshan Belekar	Jhulelal institude of technology	Electrical	Degree	India
AM20SIP-456	Mr.	NARE VENKATESH	PRAKASAM ENGINEERING COLLEGE	Electrical and electronical engineering	Degree	India
AM20SIP-457	Mr.	HARIOM MEENA	SHRI VISHWAKARMA SKILL UNIVERSITY, PALWAL (HARYANA)	B.VOC IN AUTOMOTIVE MECHATRONICS	Degree	India
AM20SIP-458	Ms.	Darshana Balaram Varma	D.Y.Patil College of Engineering, Akurdi, Pune-44	Instrumentation and control	Degree	India
AM20SIP-459	Ms.	Snehal Madan Shingate	SVPM COE Malegaon bk (Baramati)	Electrical Engineering	Degree	India
AM20SIP-460	Ms.	Karale Kiran Suresh	Shri Saibaba Institute of Engineering, Rahata	Electrical	Degree	India
AM20SIP-461	Mr.	Sahil Shailendra Kajale	Ramrao Adik Institute of Technology,Navi Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-462	Ms.	Vasumathi k s	Ramaiah Institute of Technology,Bangalore	Electronics and Instrumentation Engineerin	Post Graduation	India
AM20SIP-463	Ms.	Pratiksha Shivaji Kokare	Shivanagar Vidhyaprasarak Madal's College of engineering, Malegaon BK	Electrical Engineering	Degree	India
AM20SIP-464	Ms.	Swati Bhashkar chute	Jhulelal institute of technology	Electrical	Degree	India
AM20SIP-465	Mr.	DEEPAK GORAKH DOIPHODE	D.Y. Patil College of Engineering,Akurdi	Instrumentation & Control Engineering	Degree	India
AM20SIP-466	Mr.	Rahul Patil	A.C Patil College of Engineering,Kharghar,Navi Mumbai	Department of Instrumentation	Degree	India
AM20SIP-467	Mr.	Mathew Joe Idichandy	A. C Patil College of Engineering and Technology, Kharghar	Instrumentation	Degree	India
AM20SIP-468	Ms.	Swati Bhashkar Chute	Jhulelal institute of technology nagpur	Electrical	Degree	India
AM20SIP-469	Mr.	Aakash Menon	Y.B. Patil Polytechnic, Pune	Electronics and Telecommunication	Diploma	India
AM20SIP-470	Mr.	ANIMESH.H.CHAUHAN	SHIVAJIRAO.S.JONDHLE POLYTECHNIC ASANGOAN	Electronics and telecommunications	Diploma	India
AM20SIP-471	Mr.	Sivakumar S	SRM TRP Engineering College , Tamil Nadu	Electrical and Electronics Engineering	Degree	India
AM20SIP-472	Mr.	Ahmad Monye	Vivekanand Education Society Polytechnic	Instrumentation Engineering	Diploma	India
AM20SIP-473	Mr.	Afrid Mulla	Vidyavardhini's College of Engineering and Technology	Instrumentation	Degree	India
AM20SIP-474	Mr.	Piyush Kailas Somwanshi	Dr.D.Y.Patil College of engineering	Instrumentation and control	Degree	India
AM20SIP-475	Ms.	Shikha Negi	Vivekanand Education Society Institute of Technology	Instrumentation	Degree	India
AM20SIP-476	Mr.	Darshan Rahangdale	Government Engineering College Rajkot	Instrumentation and Control	Degree	India
AM20SIP-477	Mr.	MARU KARAN H.	Government engineering college	Instrumentation and control engineering	Degree	India
AM20SIP-478	Mr.	Chalamala Srinivas Goud	Amity School of Engineering and Technology (ASET), Mumbai	Department of Electrical and Electronics En	Degree	India
AM20SIP-479	Mr.	Nikhil Prabhakar Tapone	Godavari Engineering college Jalgaon	Electrical Engineering	Diploma	India
AM20SIP-480	Mr.	UDDHAV DATTATRAY JAGTAP	GODAVARI COLLEGE OF ENGINEERING JALGON	ELECTRICAL ENGINEERING	Degree	India
AM20SIP-481	Mr.	KURKURE ISHWAR RAJENDRA	Y.B. PATIL POLYTECHNIC PUNE	ELECTRONIC AND COMMUNICATION	Diploma	India
AM20SIP-482	Ms.	Mayuri verma	Jhulelal Institute of technology	Electrical engineering	Degree	India
AM20SIP-483	Ms.	Manvi Makan	Manipal Institute Of Technology, Karnataka	Mechatronics	Degree	India
AM20SIP-484	Ms.	Rutuja Thorat	DY Patil college of Engineering, Akurdi	Instrumentation and control	Degree	India
AM20SIP-485	Mr.	Sakshat Ajit Mhatre	Vidyavardhini's College of Engineering and technology	Instrumentation Engineering	Degree	India
AM20SIP-486	Mr.	Yash Santosh Lad	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation	Degree	India
AM20SIP-487	Mr.	ROHAN JITENDRA PANDYA	Dharmsinh Desai University, Nadiad	Instrumentation and Control	Degree	India
AM20SIP-488	Mr.	Raj Surendra Raut	Vidyavardhini's College of Engineering and technology	Instrumentation	Degree	India
AM20SIP-489	Ms.	Yashashree Pradip Kamanwar	G. H. Raisoni Institute Of Engineering And Technology, Nagpur	Electrical Engineering	Degree	India
AM20SIP-490	Mr.	PRIYANK SURESH RATHOD	Vidyavardhini's College of Engineering & Technology	INSTRUMENTATION	Degree	India
AM20SIP-491	Ms.	Komal Dillip Swain	Vidyavardhini's College of Engineering and technology	Instrumentation	Degree	India

AM20SIP-492	Mr.	Bhargav Addepalli	Vishwakarma Institute of Technology, Pune	Instrumentation	Degree	India
AM20SIP-493	Mr.	Siddhant Nilesh Kunde	Don Bosco college of engineering ,fatorda	Electronics and Telecommunication depart	Degree	India
AM20SIP-494	Ms.	NIKITA MARUTI SONTAKKE	Rajarambapu Institute of Technology, Islampur	Electrical Engineering	Degree	India
AM20SIP-495	Mr.	Chirag Bhanushali	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation	Degree	India
AM20SIP-496	Ms.	DARSHANA T SONWANE	G.H Raisoni Institute Of Engineering And Technology, Nagpur	Electrical Engineering	Degree	India
AM20SIP-497	Mr.	Kush Garg	Shri Bhagubhai Mafatlal Polytechnic	Industrial Electronics	Diploma	India
AM20SIP-498	Mr.	Runeet Vinayak Palekar	Vidyavardhini's college of Engineering and technology, Mumbai.	Instrumentation	Post Graduation	Germany
AM20SIP-499	Mr.	Ritesh Rajeshbhai Borsaniya	Government Engineering College-Rajkot	Instrumentation and Control Engineering	Degree	India
AM20SIP-500	Mr.	Pankaj	Aanasheb Dange College Engineering and Technology,Ashta	Mechanical and Automation Engineering	Degree	India
AM20SIP-501	Ms.	Sakshi Anil Thool	Jhulelal Institute of technology Nagpur	Electrical Enggineering	Degree	India
AM20SIP-502	Ms.	Mohit Singh	Ashoka Institute of Technology and Management Varanasi	Electrical Engineering	Degree	India
AM20SIP-503	Mr.	Nikhil Deorukhkar	Vidyavardhinis College Of Engineering and Technology	Instrumentation	Degree	India
AM20SIP-504	Ms.	Divya Kannan	Ramaiah Institute of Technology, Bangalore	Electronics and Instrumentation	Degree	India
AM20SIP-505	Mr.	Harsh Mandal	Haldia Institute Of Technology	Instrumentation And Control Engineering	Degree	India
AM20SIP-506	Ms.	Pooja Gopalprasad Gupta	Vivekanand Education Society's Institute of Technology, Chembur	Instrumentation	Degree	India
AM20SIP-507	Mr.	Ankit Paramanand Singh	Rajiv Gandhi institute of technology	Instrumentation	Degree	India
AM20SIP-508	Mr.	Kiran Dalawai	M.S.Ramaiah Institute of Technology,Bangalore	Electronics and Instrumentation Engineerin	Degree	India
AM20SIP-509	Mr.	Gaurav Balwant Patil	Vishwakarma institute of technology, Pune.	Instrumentation and control	Degree	India
AM20SIP-510	Mr.	Harshal R Gunjal	GF's Godavari College OF Engineering , Jalgaon	Electrical Engineering	Degree	India
AM20SIP-511	Mr.	Amitkumar mansukh Bhai Tandel	Government engineering College Rajkot	Instrumentation & control	Degree	India
AM20SIP-512	Mr.	Sagar Sahebrao Kedar	Dr. D. Y. Patil College of Engineering ,Akurdi,Pune	Instrumentation & Control Engineering	Degree	India
AM20SIP-513	Mr.	Wren Dsilva	Don Bosco Institute Of Technology, Kurla	Mechanical	Degree	India
AM20SIP-514	Mr.	Harshal Ramesh Gunjal	Gf's Godavari College Of Engineering , Jalgaon	Electrical Engineering	Degree	India
AM20SIP-515	Ms.	Sharmila R	St. Joseph's College of Engineering	Electronics and Instrumentation Engineerin	Degree	India
AM20SIP-516	Ms.	Mayuri Rajendra Chamle	Vidhyavardhini College of Engineering ,Vasai	Instrumentation and control	Degree	India
AM20SIP-517	Ms.	Tanishqa Shekhar Karle	Cummins College of Engineering for Women	Instrumentation engineering	Degree	India
AM20SIP-518	Ms.	Shruti Swami	Lucent Marcons Pvt. Ltd, Noida, Uttar Pradesh	Control and Automation	Post Graduation	India
AM20SIP-519	Mr.	Niraj Selokar	St.Vincent pallotti college of engineering and technology Nagpur	Mechanical Engineering	Degree	India
AM20SIP-520	Mr.	FATANIYA ANKIT A	GOVRNMENT ENGINEERING COLLEGE RAJKOT	INSTRUMENTATION AND CONTROL	Degree	India
AM20SIP-521	Ms.	Shivani Rajshekhar Shete	N.B.N Sinhgad College of Engineering ,Solapur	Electrical	Degree	India
AM20SIP-522	Mr.	Viradiya Bhargav H.	Vidyavardhini's College of Engineering and technology	Instrumentation and control	Degree	India
AM20SIP-523	Ms.	Saniya Godbole	MKSSS's Cummins College of Engineering for Women, Pune	Instrumentation and Control	Degree	India
AM20SIP-524	Mr.	Shende Anikesh Gunwant	A.P Shah institute of technology, thane	Mechanical engineering	Degree	India
AM20SIP-525	Mr.	Yadav Akash Ramugrah	Shivajirao S Jhondhale Polytechnic Asangaon	Electronics and telecommunication	Diploma	India
AM20SIP-526	Ms.	Shreya Kashinath Adsul	Cummins College of Engineering pune	Instrumentation and control engineering	Degree	India
AM20SIP-527	Mr.	Shende Anikesh Gunwant	A P Shah Institute of Technology, Thane	Mechanical Engineering	Degree	India
AM20SIP-528	Mr.	Swaraj Makarand Kulkarni	All India Shree Shivaji Memorial Society's, Institute Of Information Techno	Instrumentation and Control	Degree	India
AM20SIP-529	Ms.	Vasudha D	Ramaiah Institute of Technology	Electronics and Instrumentation Engg	Degree	India
AM20SIP-530	Ms.	POOJA T THOKAL	AMITY UNIVERSITY MUMBAI, MUMBAI	ELECTRICAL AND ELECTRONICS	Degree	India
AM20SIP-531	Mr.	Rohitkumar Bhagwan Yadav	Konkan Gyanpeeth College of Engineering	Instrumentation	Degree	India
AM20SIP-532	Ms.	Srushti Thakur	Vidyavardhini's College of Engineering and technology	Instrumentation Engineering	Degree	United States
AM20SIP-533	Mr.	Viraj Vijay Patil	Vidyavardhini's College of Engineering and technology, Mumbai	Instrumentation engineering	Degree	India
AM20SIP-534	Mr.	NAGULAVANCHA SUBRAHMANYAM	VELAGAPUDI RAMAKRISHNA SIDDHARTHA ENGINEERING COLLEGE, VIJAYA	ELECTRONICS AND INSTRUMENTATION ENG	Degree	India
AM20SIP-535	Mr.	JAGANI VISHALKUMAR ISHVARBHAI	Vidyavardhini's College of Engineering and technology, Mumbai	Instrument & control engineering	Degree	India
AM20SIP-536	Ms.	Yogini Eknath Belhekar	VPM Polytechnic Thane	Instrumentation	Diploma	India
AM20SIP-537	Mr.	TARUN SAJIVE NAIR	Vidyavardhini's College of Engineering and technology,Mumbai,	INSTRUMENTATION ENGINEERING	Degree	India
AM20SIP-538	Ms.	Eesha Kolambkar	Vidyavardhini's College of Engineering and technology, Mumbai	Instrumentation	Degree	India
AM20SIP-539	Ms.	Tejal Navinchandra Girme	D.Y.Patil College of Engineering,Akurdi,Pune-44	Instrumentation and Control Engineering	Degree	India
AM20SIP-540	Mr.	SHIVANG DATTATRAYA PRABHU	Vidyavardhini's College Of Engineering And Technology	Instrumentation	Degree	India
AM20SIP-541	Ms.	Snehal Haresh Kulabkar	Vidyavardhini's college of engineering and technology,Mumbai	Instrumentation	Degree	India

AM20SIP-542	Ms.	JAMADAR MUSKAN MUNSHI	Vidyavardhini's College Of Engineering and Technology,Mumbai.	INSTRUMENTATION	Degree	India
AM20SIP-543	Mr.	Bipin Bibeesh Nair	Vidyavardhini's College of Engineering and Technology, Mumbai	Instrumentation Engineering	Degree	India
AM20SIP-544	Mr.	Vishal Raut	Hochschule Karlsruhe Technik und wirtschaft	Electric and Information technology	Post Graduation	Germany
AM20SIP-545	Ms.	Ashwini Krishna Kate	Vidhyavardhini's College of Engineering & Technology	Instrumentation Engineering	Degree	India
AM20SIP-546	Ms.	Sree Lakshmi Balachandran	Vidyavardhini's College of Engineering and Technology	Instrumentation	Degree	India
AM20SIP-547	Ms.	Anushka George	MKSSS'S CUMMINS COLLEGE OF ENGINEERING FOR WOMEN	Instrumentation and Control	Degree	India
AM20SIP-548	Ms.	Veeramurugalakshmi N P	St. Joseph's college of engineering	Electronics and Instrumentation Engineering	Degree	India
AM20SIP-549	Ms.	Ishaa Amod Mulye	Vidyavardhini's College of Engineering and technology, Mumbai	Instrumentation	Degree	India
AM20SIP-550	Ms.	Nikita	Govt. Polytechnic manesar	Electrical	Degree	India
AM20SIP-551	Mr.	Mahesh Gopal Mishra	Pillai College of Engineering, New Panvel	Mechanical Engineering	Diploma	India
AM20SIP-552	Ms.	Surabhi Shivankar	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation Engineering	Post Graduation	India
AM20SIP-553	Mr.	Tanmay Sharma	B&R industrial automation	Instrumentation	Degree	India
AM20SIP-554	Mr.	Akhilesh Kumar	Shri Vishwakarma Skill University,Dudhola,Palwal	Automotive Mechatronics	Degree	India
AM20SIP-555	Mr.	Dwij Mukesh Reddy	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation	Degree	India
AM20SIP-556	Mr.	Devender	Shri Vishwakarma skill University	B.voc mechatronics	Degree	India
AM20SIP-557	Mr.	Abhishek S Nikam	D Y Patil College of Engineering,Akurdi,Pune	Instrumentation and control Engineering	Degree	India
AM20SIP-558	Ms.	Sanjog Ukunde	Jhulelal Institute of technology Nagpur	Computer science engineering	Degree	India
AM20SIP-559	Mr.	Rajkumar	Shri vishwakarma skill university	B. Voc Mechtronics	Degree	India
AM20SIP-560	Ms.	Manasi S	St.Joseph's College of Engineering, Chennai	Electronics and Instrumentation Engineering	Degree	India
AM20SIP-561	Mr.	Amol lalasaheb chormale	Shivnagar vidya prasarak mandal clg of engg malegaon bk	Electrical	Degree	India
AM20SIP-562	Ms.	Mrunali Vilas Phad	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation	Degree	India
AM20SIP-563	Mr.	Shubham Nitin Sawant	Vidyavardhinis College of Engineering and Technology, Mumbai	Instrumentation engineering	Degree	India
AM20SIP-564	Mr.	Omkar Ardalkar	Vidyavardhini's College of Engineering and technology,Mumbai	Instrumentation engineering	Degree	India
AM20SIP-565	Mr.	Deepak Sharma	Shri vishwakarma skill university Haryana	Online training on Industoft Web Studio - a S	Degree	India
AM20SIP-566	Ms.	A.kiruthiga	St.Joseph's College of Engineering	Electronics and InstrumentationEngineering	Degree	India
AM20SIP-567	Mr.	Prathamesh Prakash Devrukhkar	Vidyavardhini's College of Engineering and Technology vasai (W)	Instrumentation Engineering	Degree	India
AM20SIP-568	Mr.	Manthan Anant Birajdar	NB Navale sinhgad college of engineering, solapur	Mechanical engineering	Degree	India
AM20SIP-569	Ms.	Ruchira Pradip Nabar	Ramrao Adik Institute Of Technology,Nerul	Instrumentation Engineering	Degree	India
AM20SIP-570	Ms.	Samiksha Shivaji Gaikwad	Shivnagar Vidhya Prasark Mandal's college of Engineering Malegaon (bk)	Electrical	Degree	India
AM20SIP-571	Mr.	Preetam Premdas Nandagawali	Konkan Gyaanpeeth College Of Engineering	Mechanical	Degree	India
AM20SIP-572	Ms.	Shreya Anand Pandit	K K Wagh Institute Of Engineering Education And Research,Nashik	Electronics and telecommunications	Degree	India
AM20SIP-573	Ms.	Priyanka choudhari	Jhulelal institute of technology, nagpur	Electrical department	Degree	India
AM20SIP-574	Ms.	Pradnya Dattatray Titkare	Vidyavardhini's College of Engineering and technology,Mumbai	Mechanical	Degree	India
AM20SIP-575	Mr.	mayur naresh patil	vidyavardhinis college of engineering and technology	Instrumentation	Degree	India
AM20SIP-576	Mr.	Ravi Kumar gaur	Shri vishwakarma skill University	Automotive mechatronics	Degree	India
AM20SIP-577	Mr.	MANISH SHRICHAND POPTANI	JHULELAL INSTITUTE OF TECHNOLOGY ,LONARA,NAGPUR	MECHANICAL ENGINEERING	Degree	India
AM20SIP-578	Mr.	Chintan K Vakharia	A.P. SHAH INSTITUTE OF TECHNOLOGY	Mechanical	Degree	India
AM20SIP-579	Ms.	Snehal Haresh Kulabkar	Vidyavardhini's college of engineering and technology,Mumbai	Instrumentation	Degree	India
AM20SIP-580	Mr.	Mutha Dhawal Vikas	KJ College of Engineering management and research	Electrical	Degree	India
AM20SIP-581	Mr.	Aamos Ravindra Sawale	St. Vincent Pallotti College of engineering and technology	Mechanical engineering	Degree	India
AM20SIP-582	Ms.	Rutuja Bharat Yadav	KJ College of Engineering and Management Research Pune	Electrical Engineering	Degree	India
AM20SIP-583	Ms.	Kamini Kamlakar katale	KJ College of Engineering Management Resrach pune	Electrical	Degree	India
AM20SIP-584	Ms.	Bondge Samruddhi Devendra	KJ College of Engineering and Management Research	Electrical engineering	Degree	India
AM20SIP-585	Mr.	Abhijeet Nanasaheb Raut	Rajarambapu Institute Of Technology,Islampur.	Electrical	Degree	India
AM20SIP-586	Mr.	Ram Shripad Alshi	Dr. D y patil college of engineering, Akurdi	Instrumentation and control	Degree	India
AM20SIP-587	Ms.	Sumana S	ETC International college	Electrical Electronics	Degree	India
AM20SIP-588	Mr.	Akshat Sharma	M S RAMAIAH INSTITUTE OF TECHNOLOGY BANGALORE	Electronics and instrumentation	Degree	United Kingdom
AM20SIP-589	Mr.	Tanmay N Ubhate	Datta Meghe Institute of engineering technology and research sawangi	Mechanical	Degree	India
AM20SIP-590	Mr.	Nikhil A Dighe	Dharmsinh Desai University	Instrumentation & Control	Degree	India
AM20SIP-591	Mr.	Jaykumar S Mistry	Dharmsinh Desai Institute of Technology, Nadiad	Instrumentation and control engineering	Degree	India

AM20SIP-592	Ms.	Praneeta Phadke	ETC International College, Bournemouth, UK	Electrical	Diploma	United Kingdom
AM20SIP-593	Mr.	Ashish Pandey	Birla Vishvakarma mahavidyalaya, Anand	Electronics and communication	Degree	India
AM20SIP-594	Mr.	Pankaj Vishwakarma	Vidyavardini's College of Engineering and Technology	Instrumentation	Degree	India
AM20SIP-595	Mr.	Ghadigaonkar Ankush Vijay	Vidyavardhini's college of Engineering and Technology.Mumbai	Instrumentation	Degree	India
AM20SIP-596	Mr.	Mohammed Rafey	MCT Rajiv Gandhi Institute of technology	Instrumentation	Degree	India
AM20SIP-597	Mr.	Soham Satish Sawant	Vivekanand Education Society Chembur	Instrumentation	Degree	India
AM20SIP-598	Ms.	Sai Priya Dandothkar	ETC International College, Bournemouth, UK	Electrical	Diploma	United Kingdom
AM20SIP-599	Mr.	Yash Meshram	Rajarshi Shahu college of Engineering,Pune	Mechanical engineering	Degree	India

Vidyavardhini's College of Engineering and Technology

Department of Instrumentation Engineering

in collaboration with

ISA Students' Chapter & Forum for Instrumentation

VCET ISA SC

Presents

automatus 2020

"Make Automation Yours"

An On-line Two Week International Student Internship Program Based on PLC & SCADA Training

8th to 19th June 2020

About VCET

Vidyavardhini was established as a registered society in 1970 by late Padmashri H. G. alias Bhausaheb Vartak for the noble cause of education in rural areas. Vidyavardhini Society received approval from AICTE to start the new college of Engineering & Technology with effect from July, 1994. The college is affiliated to the University of Mumbai for the four year degree program leading to the degree of Bachelor of Engineering in six branches. (For more information: vcet.edu.in)

About Department

The Department of Instrumentation was established in the year 1994, has 8 well equipped laboratories , has a dynamic team of 9 qualified and experienced faculties, headed by Dr. Deepak Gawali. The department has two Centres of Excellence, AVEVA and Siemens where industrial training is provided to students and industry professionales.

No Registration Fees!!

Event Highlights

- Diploma, Degree and Masters Engineering Students can apply
- Online training on Indusoft Web Studio a SCADA Software
- Online training on PLC Programming
- Laptop/Desktop is mandatory for hands-on training on simulation softwares
- Participants successfully completing the SIP would be awarded with E-Certificate from the institute

Department of Computer Engineering
Academic Year : 2019-20

Report on Webinar: Introduction to IOT

Date:-May 20,2020

Time:-10:30 am to 12 noon

Speaker:-Mr. Sachin Sadre

Organized by: Dr.Swapna Borde

The key points discussed in the webinar were:

1) Introduction to Internet of Things
2) Architecture
3) Types
4) Devices
5) Applications

The webinar was attended by 267 participants.

Prepared by

Dr.Swapna Borde

/ardhini's College of Engineering & Technology
Department of Computer Engineering
Academic Year:2019-20

21st May 2020

Report on Webinar: Blockchain Technology

Date: 5th May, 2020

Time: 10:00 am to 12:00 noon.

Speaker: Mr.Amey Tambe, Director of SoftTech Data Securities & Alka Technology

Organized by: Mrs.Sneha Mhatre from Computer Engineering Department,VCET

Mode of Conducted webinar:YouTube Live

The key points discussed in the webinar were:

- Introduction on Block chain
- Distributed Ledger-all information record available to all
- Hashing Functions-SHA/SHA-256/SHA-512
- Online Hash Calculator
- Bitcoin Wallet information-Practical Example
- Mining- Mymonero,XMR stack
- Incentives-Immutable distributed ledger,Client database server,Blockchain Architecture
- Smart Contract-Examples Election,Migration Contract.

The workshop was attended by 167 participants.

Prepared by

Mrs.Sneha Mhatre

Report on Guest Lecture

Department of Computer Engineering organized a guest lecture on **Machine Learning** on **30th January 2020** from 9.30 am to 11 am for the SE, TE and BE Students. The resource person for the same was Mr. Mustafa Fatakdawala, TCS Expert.

The Key points discussed in the session are as follows:

- Digital Disruption
- Career in Artificial Intelligence and Machine Learning
- Latest trends in Computer Science
- Data Science Project Lifecycle
- Different Avenues of Data Science
- Top 4 skills of the future: Creativity
- Problem-solving
- Innovation
- Critical thinking
- Various e-Learning platforms

The talk was followed by Question-Answer session. It was attended by 115 Students

Report on Guest Lecture

Department of Computer Engineering organized a Guest lecture on **Artificial Intelligence** on **7th October,2019** from 10 am to 12 pm for TE and BE Students. The resource person for the same was Mr. Hemant Tendolkar, TCS Expert.

The Key points discussed in the lecture on Artificial Intelligence as follows:

- The session introduced the students to the real-world applications of AI and Machine Learning in the area of Customer Relationship Management (CRM)/ Customer Experience (CX).
- There was a short briefing about how customers purchase their software products from the respective vendors and then customise these products as per their specific needs.
- This is where IT industries come into picture who add the extra tweaks to the original product.
- This was followed by information about data sources and how the extensive growth of data production in the past few years had lead to the rise of AI and how 90% of the advancements in AI have been made in these few years.
- The benefits of having AI and Machine Learning programs in CRM were highlighted next, explaining how it could be used in marketing, sales and in providing after sales services.
- A demonstration of the same was given in the form of an 'Email classifier'. This program would be used in providing the after sales services by helping the employees separate different types of Customer grievances that they receive through mails and thus making it easier to provide solutions to those customers as soon as possible.

The Talk was attended by 185 Students

Vidyavardhini's College of Engineering & Technology
Department of Computer Engineering
Academic Year : 2019-20

Report on Expert Lecture

The Expert Lecture on 'Analog and Digital Circuits' for S.E. semester-III students was organized on **Monday, 30th September 2019 from 10.00 AM to 11.00 AM** on the 3rd floor seminar hall.

The guest for the talk was Mr. Pratik Jain who is presently the head of Research & Development in Process Precision Instruments, Vasai Road.

Following topics were discussed in this talk:

- History of Electricity and Electrons.
- History of atoms.
- Importance of ground in the electronic circuits.
- Idea about Thermocouple.
- Basics of analog verses digital.
- Electrons and its motion in the circuits.
- Basics of Semiconductors.

All students were inspired after knowing the insights of the prospects in the basics of Electronics Circuits and Digital Logic Design & Analysis. Mr. Pratik appreciated the response of the students.

Prof. Sunil N. Katkar

09th September, 2019

To
Mr. Pratik Jain,
Head Research & Development,
Process Precision Instruments,
Vasai Road (East)

Subject: Invitation for a talk on 'Analog and Digital Circuits'

Dear Sir,

We co-cordially invite you for a talk '**Analog and Digital Circuits**' for the students of second year Computer Engineering on 30th September, 2019 from 10.00 am to 11.00 am to deliver an expert talk on Electronic Circuits and Digital Logic Design & Analysis. This talk would give them an insight of the prospects in this area.

Thank you in anticipation.

Yours truly,

Prof. Sunil N. Katkar
Subject Incharge

ANDROID APP DEVELOPMENT WORKSHOP REPORT

The CSI committee of Vidyavardhini's College of Engineering and Technology has been a proud host of many technologically intriguing events and activities. This year it was back with a workshop on **'ANDROID APP DEVELOPMENT'.**

Objective:

The workshop was a sincere attempt in giving a head start towards Android development career with mentors guiding us to create our very own Android Application. The main motive considered while organizing this workshop was to provide a platform to encourage students to foster their technical skills and thereby adding to the overall grooming of oneself.

Mentors' profile:

The workshop was conducted by Mr. Yadnesh Mohan Zagade and Mr. Onkar Kishor Nagarkar.

Mr. Yadnesh has been associated with Mr. Onkar and they have together worked in different technologies and trending software like Android Studio, UNITY, Arduino and many more. They have conducted a number of seminars and internship training courses in different engineering colleges all over India. Mr. Yadnesh has been working in Research & Development since 2014 and is now the CEO in Tech Cryptors.

Success:

The workshop received an overwhelming response with a total of 68 attendees. At the end of the workshop, the students were able to create an effective customized android application using Android Studio combined with Java which helped to broaden one's horizons.

Conclusion:

Workshops like these prove to be an amazing opportunity to adapt oneself to the changing contours of education in a technology-driven society.

Thus, like always the event proved to a triumph for the department.

MACHINE LEARNING WORKSHOP

The CSI committee of Vidyavardhini's College of Engineering and Technology has been a proud host of many technologically intriguing events and activities. This year it was back with a seminar on 12 March 2020 **'MACHINE LEARNING '** at Vidyavardhini's College of Engineering and Technology.

Objective:

The seminar was a sincere attempt in giving students an insight in Machine Learning as a new venture in career with mentors guiding us to discover patterns in your data and then **make** predictions based on often complex patterns **to** answer business questions, detect and analyse trends and help **solve** problems. The main motive considered while organising this seminar was to provide a platform to encourage students to foster their technical skills and thereby adding to the overall grooming of oneself.

Mentors' profile:

The seminar was conducted by

1. Mr. Manish Kaushik

(Microsoft student partner)

2. Ali Mustufa Shaikh

(Software innovator, Intel)

3. Ganesh Tiwari

(Microsoft student partner)

4.Smit Jethwa

(Microsoft student partner)

5. Pratik Pathak

(Senior software engineer
People Interactive)

Success:

The seminar received an overwhelming response with a total of 118 attendees. At the end of the seminar, the students perceived that complex and larger data can be processed and analysed along with the desired results achieved such as determining customer trends, detecting fraud, spotting buying trends and other primary objectives.

Conclusion:

Seminars like these prove to be an amazing opportunity to adapt oneself to the changing contours of education in a technology-driven society.

Thus, like always the event proved to a triumph for the department.

510_Seminar€on€Cupcarbon€and €Cooja,Contiki

Vidyavardhini's College of Engineering & Technology

Department of Information Technology

Seminar on Cupcarbon and Cooja, Contiki

Speaker(s):

Mr. Likhesh Kohle, Assistant Professor, Terna College of Engineering, Nerul

Coordinator:

Mr. Yogesh Pingle, Assistant Professor (IT) and

Ms. Bharati Gondhalekar, Assistant Professor (IT)

This seminar was arranged to discuss Cupcarbon and Cooja, Contiki

Title	Cupcarbon and Cooja, Contiki
Description	Cooja Simulator is a network simulator specifically designed for Wireless Sensor Networks. Contiki is an operating system with a focus on low power IoT devices. Cooja is the Contiki network simulator. Cooja allows the large and small networks of Contiki motes to be simulated. This seminar took the students through the process of programming IoT with Contiki and Cooja.
Objective of this workshop	Students will be able to:- To understand installation of Contiki, Cooja To understand designing in Cupcarbon by adding mote
Participants	Students from Third year and Final year IT
Maximum enrolment	52
Learning outcomes	Students will be able to: 1. How to run Cooja Simulator. 2. How to debug an application using Cooja Simulator.
Date/time	8th Feb 2020, 9am to 12pm
Venue	Third Floor Seminar Hall

Hackathon

Name of Organizing Committee	IT department
Academic Year	2019-20
Date	27th & 28th September 2019
Venue/Place	Seminar hall, Labs of IT department, Computer Center
Faculty In-Charge/Coordinator	Chandan Kolvankar

❖ **Event Details (Hackathon)**

Sr. No	Particular	Details
1.	Brief Description	VCET-Hackathon is an inter-collegiate national level coding competition which involves 30 hours of incessant coding followed by the pitching round.
2.	Objectives	To promote a strong Programming and Software Development culture among students that will help them develop their problem solving, critical thinking, and software development skills.
3.	No of Participants	140

HACKATHON'19

The department of Information Technology of Vidyavardhini's College of Engineering has been a proud host of the esteemed coding battle HACKATHON for the 3rd consecutive year.

OBJECTIVE:

"HACKATHON" is a prestigious technical event which involves 30 hours of incessant coding. This year the event demanded the participants to create a software application based on real life problem statements. Participants could choose to impact upon any of the domains such as education, logistics, health management, etc. The event was a sincere attempt to provide a wonderful platform to showcase one's coding skills wherein an experienced panel of jury from reputed companies like Google provide a critical analysis and feedback of your performance. It is one of the few chances for the participants to gain substantial experience, analyse and evaluate outcomes and uncover personal aptitude.

Hackathon 2019 was conducted on the 27th and 28th of September,2019. To mark the commencement of the event, there was an inauguration through live video conference. The institution was honoured to have Mr Laxman S Maheshwar as our guest who communicated with us via Skype. Mr. Laxman is a senior IT profession with over 13 years of experience in Cloud Architecting. The audience was enlightened by the words of wisdom and appreciation of the students.

The event witnessed an overwhelming response as this year it was back with even better prospectus with 40 teams summing up to 140 participants. There were participants from 20 different colleges. The cash prize this year was worth ₹50,000. There were consolation prizes as well by our generous sponsors.

PRACTICE:

The event commemorated right after the inauguration at 8.00am sharp on the 27th September and continued for a stretch of 30 hours. There were 2 jury rounds on which the progress of the teams was tracked. The team members also got an opportunity to interact with the jury and get their doubts cleared. The first jury round began at around 6pm with the valuable presence of Mr. Ujjwal Bagwe, Ms. Radhika Mhatre, Mr. Rahul Thakar, Mr. Gaurav Purandare and Mr. Mohit Shah. On the next day that is 28th September, for the second jury round we had the presence of Mr. Arun Gupta, Mr. Amey Raut, Mr. Aakash Singh and Mr. Nikhil Save.

On the 28th September 2019, after the completion of EXTENSIVE thirty hours, the participants were awaiting the pitching round, where in the judges from various IT domains were present, obliging us enormously by their presence.

After acquitting themselves with the insights of all the projects, the best 10 teams were shortlisted for the final pitching round based on their final scores. The institute had the privilege of hosting some acclaimed personas like Mr. Gajanan Palsule, Mr. Sanket Raut, Mr. Nilesh Jain, Mr. Amod Nerulkar and Mr. Bhavik Shah. The shortlisted teams had to go through a ten minutes presentation and a three minutes question and answer session wherein the teams were bombarded with insightful

questions, constructive criticism and all possible suggestions by the judges in the final pitching elaborating their project ideas.

WINNERS:

FINALLY WE HAD THE WINNERS FROM FR.CONCEICAO RODRIGUES NAMED 'KEDS' [KEVLYN KADAMALA, DARLENE NAZARETH, SHERWYN D'SOUZA, ELITA MENEZES] SECURING THE 1ST PLACE WHERE IN THEY WORKED ON 'DEPRESSION DETECTION' AND CREATED A PERCEPTIVE APPLICATION WHICH WILL PROVE TO BE A HELPING HAND TO ALL THOSE WHO HAVE BEEN BATTLING DEPRESSION.

THE 2ND PRIZE WAS BAGGED BY TEAM 'BITS&BOTS' FROM DJ SANGHVI & THADOMAL [YASH CHACHAD, SAKSHI UPPOOR, SIDDHI JHAUNJHUNWALA, SAURAV UPPOOR] WHERE IN THEIR TOPIC WAS 'LANGUAGE TRANSLATOR'.

THE TEAM SECURING THE THIRD PLACE WAS 'VOID' [ADNAN HAKIM, BHAVESH SINGH, ALI ABBAS, ARSH SHAIKH] FROM DJ SANGHVI, WHERE IN THEY BUILT AN APPLICATION ON 'LIVE WHITEBOARD'.

CONCLUSION:

Competitions like these encourage students to adopt innovative techniques and develop their ideas and skills. It is one of the very few opportunities in the average student life to provide such exposure and realistic outlook towards the competitive nature of real life.

TO SUM IT ALL, HACKATHON 2019 WAS A GRAND SUCCESS, PROVING TO BE ANOTHER FEATHER IN THE CAP FOR THE INSTITUTION.

Report on Workshop Conducted by HERE Solution India Pvt Ltd.

Date(s): 22nd Aug 2019

Title: HERE Map Workshop/Creator Project

Preamble:
A Seminar related to HERE Creator Project/ Training Workshop has been conducted on 22th Aug 2019, at Vidyavardhini's College of Engineering, Vasai ,in order to spread the knowledge about HERE Maps, and workshop regarding Map Toolkit of HERE.

Participant's Profile:
Students from two departments i.e. Information Technology, Computer Engineering participated in the workshop.

Description about the Program:
Mr. Abhiram Athavale, (an HERE industry representative) was the Speaker of seminar. He addressed the audience on the topic: **HERE map toolkit and various operations on maps**. In his speech, he emphasized on how maps work and how to create Polylines on map and make changes in HERE map using toolkit.
He discussed various topics About HERE industries and how maps are used worldwide.

According to Mr. Abhiram Athavale, HERE industries stands #1 in location platform used worldwide in navigation services in high tech cars also in Mobile devices. Also they talked about the public sector and infrastructure , Automotive industries, Transportation and logistic platforms where HERE maps are used.

He explained in the workshop about how Toolkit works , how to do operations such as add missing roads on map , correction in maps, Polylines for routing etc. He also conducted a Practical Representation and showed how things work , also solved our doubts and students queries. The entire programme was coordinated with the support of the Principal, faculties, PAT Cell of Vidyavardhini's College of Engineering And Technology, Vasai

Feedback:
All the students were able to ask their doubts about the Software toolkit and got a good response from the representative.

Conclusion:
The Seminar conducted was effective as the students were able to clear their doubts and got the guidance from Mr. Abhiram Athavale.

To,

The Principal,

VCET, Vasai.

Subject : Permission to conduct training workshop on 24th August, 2019 by HERE Technologies.

Respected Sir,

HERE Technologies has invited students of VCET Computer and IT department for their project training on HERE Map Creator. They will also like to give insights on the GIS based technologies. After the training, students will have an opportunity to work on their live projects. After successful completion of the projects, students will be awarded certificate.

We can conduct such training workshop under Industry Institute Interaction, and our students will get benefits after working on live projects.

I will be highly obliged if the college gives permission to conduct the same on 24th August 2019 from 10.00 a.m to 1.00 p.m. in the Internet Center. Kindly grant permission for the same.

Thank You!

Mrs. Anagha Patil	Dr. Megha Trivedi	Dr. Ashish Vanmali
Placement Coordinator, IT	HOD, Comp	HOD, IT

Permitted.

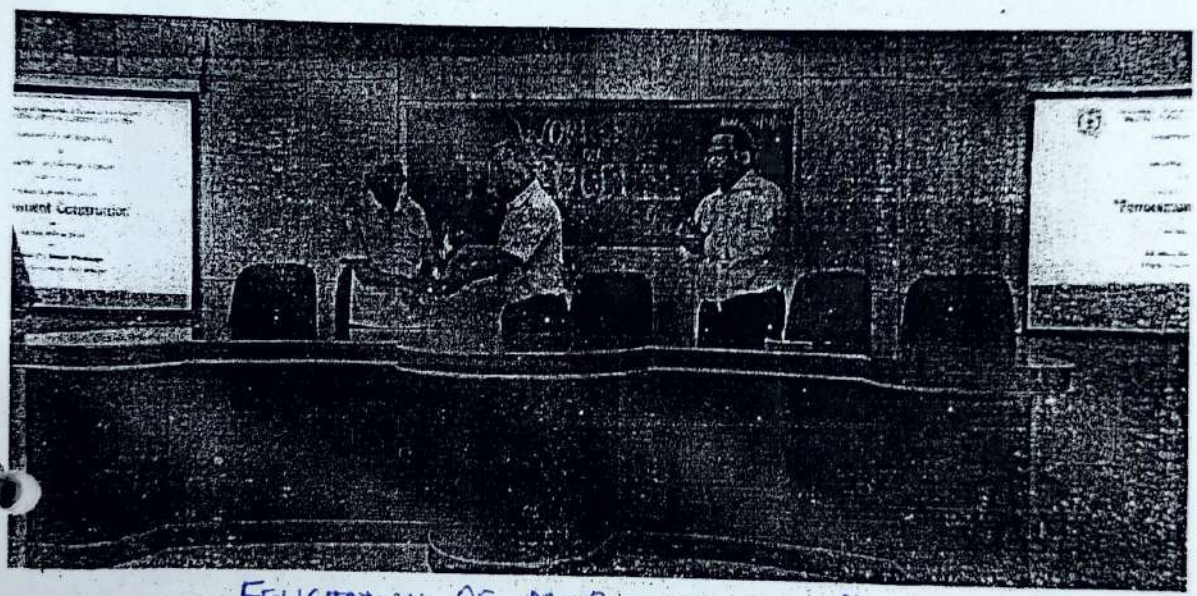
REPORT ON THE WORKSHOP TITLED

" FERROCEMENT TANK DESIGN AND APPLICATIONS IN CIVIL ENGINEERING "

A workshop on "Ferrocement tank Design and Applications in Civil Engineering" was organized on 4th and 5th of July 2019 by department of Civil Engg., VCET,Vasai (west) in association with

" JALVARDHINI PRATISHAN ".

The objectives of the workshop were learning the basics, unique features of ferrocement as a material for tank construction, techniques of fabrication and various fields of application. Prof. Sunil Kirloskar, HOD. Civil Engg. Department was Convenor and Prof. Jaydeep Chougale and Prof. Vikrank Kothari were the Co-convenors. On the course of felicitation, Principal Dr. H. V. Vankudre expressed his interest for such new technologies and new research projects for BE. Students.



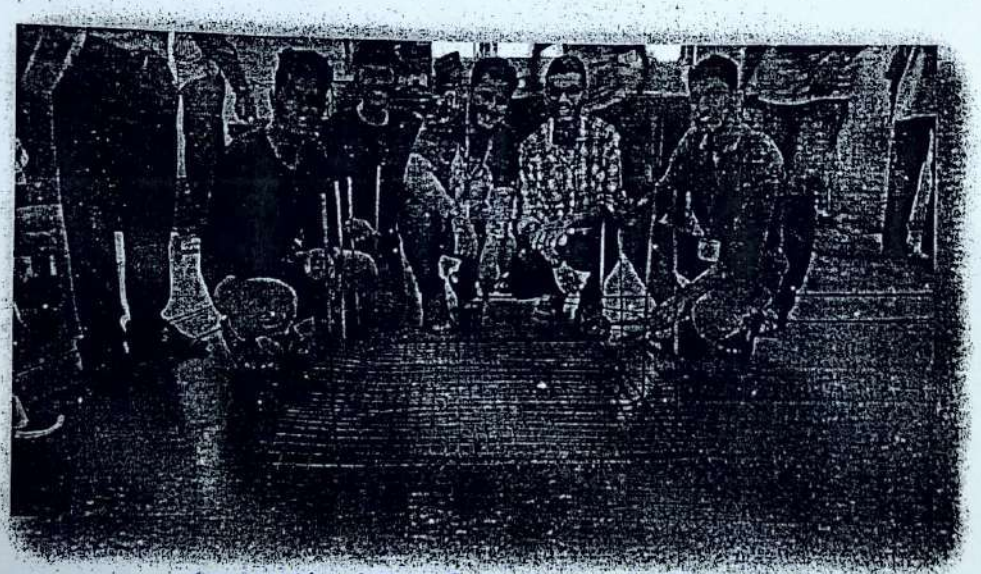
FELICITATION OF MR. PARANJPE by PRINCIPAL DR. HARISH VANKHUDRE

After the felicitation ceremony, the dignitaries shared the words of wisdom which marked the commencement of the workshop section.

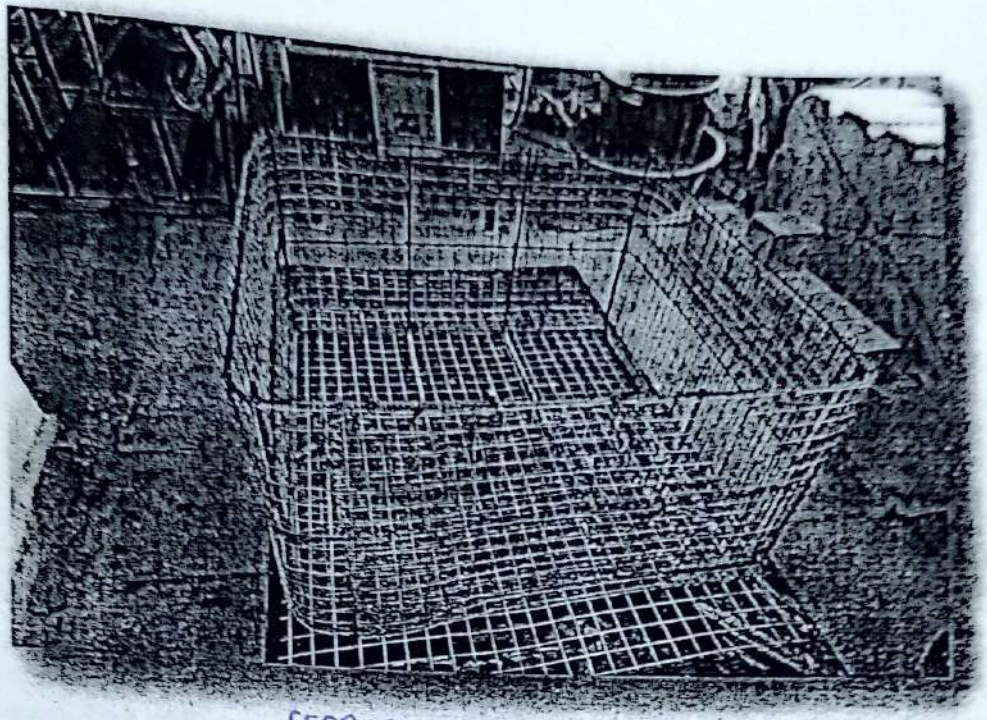
Mr. UIHAS PARANJPE from **" JALVARDHINI PRATISTHAN"** briefed the students about the topic and explained the topic and explained the construction details and the procedure of the same. The introductory session lasted for around 2 hours which was later followed by a demonstrative workshop session post lunch.

STUDENTS PREPARING FERROCEMENT TANK.

A demonstration on actual fitting the reinforcement, setting up the wire and chicken mesh was arranged in the BMCT Lab of Civil Engg. Department. All the students were impressed as they took part in the practical mixing of the mortar and then press filling and finishing. The faculties under the guidance of Mr. Paranjpe and team built a ferrocement skeleton which was later press filled by the mortar. The finishing by plastering were carried on the next day which also included attachment of outlet fixtures.



STUDENTS WITH FERROCEMENT TANK SKELETON



FERROCEMENT TANK SKELETON.

FINISHED FERROCEMENT TANK MADE DURING WORKSHOP.

CIVIL DEPT. STAFF WITH TRAINER . MR. PARANJAPE.

The students were then explained about the need of collaboration of Engineers with the technical societies. Later an overview on cost analysis and market rates of these tanks was given. A Ferrocement tank proves to be a very cost-effective method as compared to conventional RCC tanks.

The workshop was fruitful as the students gained a new area where they have a chance of exploring themselves using the ferrocement technology. The workshop concluded with a vote of thanks to the dignitaries, the participants who attended the workshop and the faculties involved in the workshop as well.

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the two-day workshop on "Hands-on training on Ferrocement" held on 4th July 2019 to 5th July 2019.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

Department of Civil Engineering

Report on Expert lecture on "Software application in various aspects of Construction Engineering"

Objective of the lecture-To understand the design concepts, estimation of construction projects and its design by various software's related to Civil engineering.

Date of Lecture-17th Oct 2019

No. of Participant-

Name of the Speaker- Mr. Prahlad V.Rao (Civil Engineering and Road Estimation Software Developer)

About the Speaker-

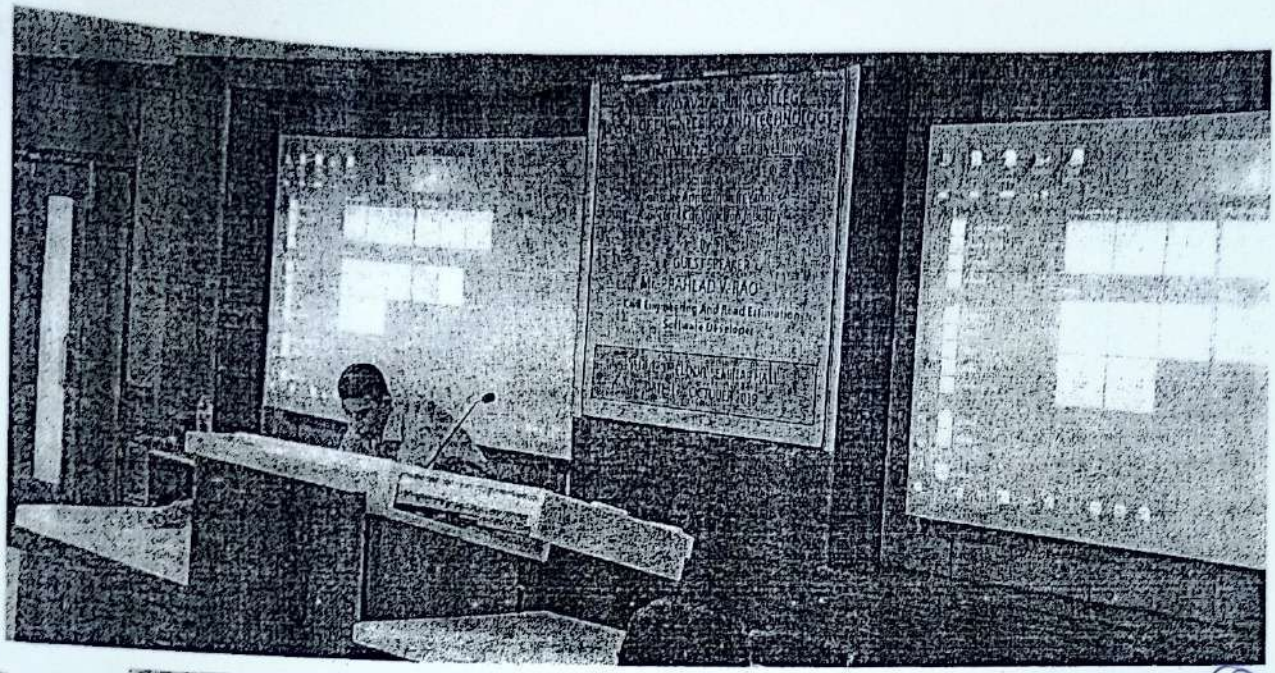
Mr. Prahlad V.Rao is Civil Engineering and Road Estimation Software Developer .He holds an excellent Industrial experience of 14 years as well as a structural consultant and reviewer for government and public projects etc. He developed various estimation software's used for estimation calculation of various construction projects.

Description of the lecture:

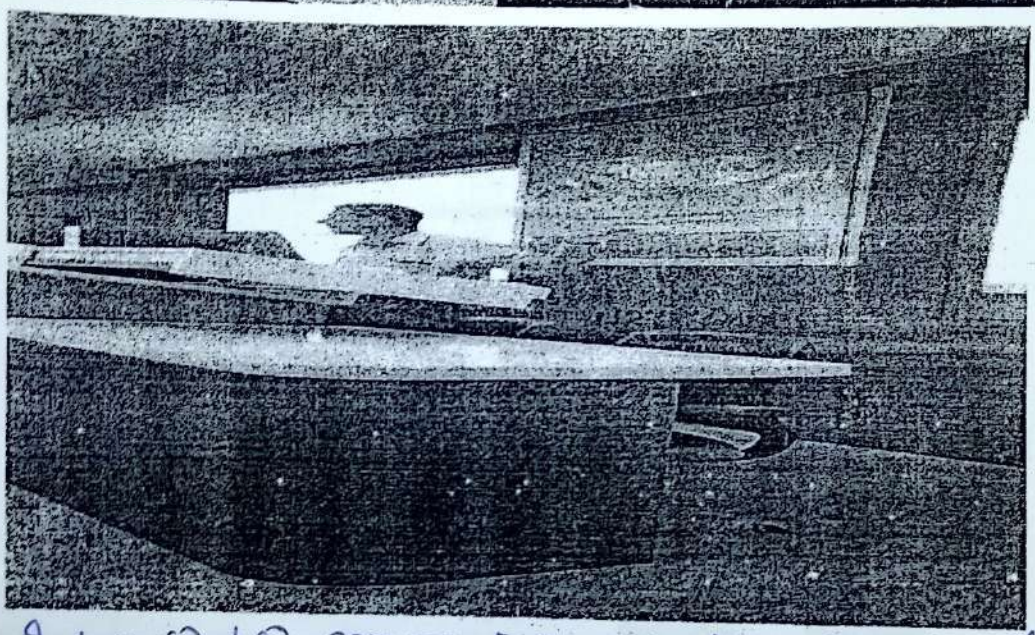
Expert lecture on Design Concepts of Earthquake Engineering was conducted in one session on 17th Oct 2019. The lecture was conducted at 3rd floor seminar hall. The guest speaker was heartily welcomed by Mr. Jaydeep Chougale, all faculties of department were present for the session. The speaker explained about the how theoretical Engineering knowledge used to analyse, design and estimation of various engineering project through softwares. Also explained about how software gives proper result in very short time duration along with design reports. The SE, TE and BE Students attended the expert lecture.

INTRODUCTION OF SPEAKER BY DR SUNIL KIRLOSKAR

DR. KIRLOSKAR EXPLAINING SIGNIFICANCE OF THE SESSION.



(a)



(b)

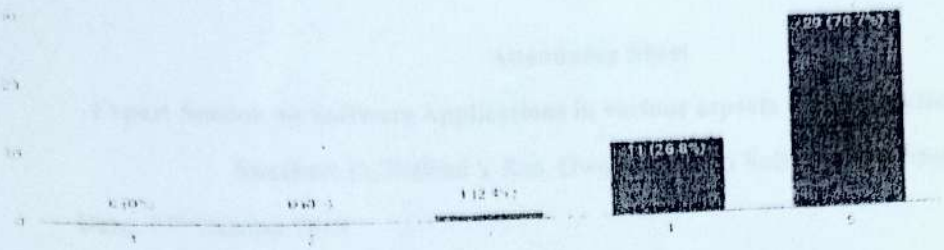
In both (a) & (b) SPEAKER EXPLAINING ABOUT SOFTWARE & ITS EXPLANATION.

Conclusion:

The engineering software's that was discussed in the lecture and how it useful for design and estimation of various engg. Projects.

Feedback-

How satisfied were you with the session Content?



How relevant and helpful do you think it was for you?

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the expert session on software applications in various aspects of construction industry held on 17th October 2019

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

1. COURSE OBJECTIVES

Topic: Repairs, Rehabilitation And Retrofitting Of Reinforced Concrete Structures For Sustainable Development

Duration: 17th Jan – 21st Jan, 2020

Venue: Seminar Hall (Third Floor)

Participants: Faculty and Students from Mumbai University Engineering and Diploma colleges.

About VCET

Vidyavardhini means a Body committed to enhancement of Knowledge. Vidyavardhini's College of Engineering and Technology (VCET), is an engineering college in Vasai Road (West), Mumbai. The college is affiliated to University of Mumbai and offers undergraduate (Bachelor) degree in Engineering. The college has been top graded by DTE and was accredited by NBA and NAAC. Vidyavardhini's College of Engineering and Technology is located on the serene and sprawling educational campus of Vidyavardhini, spread over an area of 12.27 acres. It is an iconic place, within two minutes' walk from Vasai Road (W) Railway Station. VCET is the oldest engineering col-lege in the western belt which was established by Padmashri Shri. Bhausaheb Vartak 25 years back.

About the Department

The Department of the Civil engineering was established in 2013 at VCET. The Civil Engineering department aims to be a prominent department by generating professionals with higher degree of technical knowledge, proficient skills and principled values. The Department of Civil Engineering along with its multi-layered faculty sustains its robust relations with the industry and other institutes by organizing various technical events The students are always invigorated to participate extra-curricular and co-curricular events which are essential for the building a team spirit and development of administrative skills result in their personality development.

ABOUT STTP

Sustainable development has become the challenge for humanity particularly with rapid growth of urbanization. There is a growing national/international concern about the premature deterioration of our buildings/structures particularly concrete structures. Though concrete is quite strong mechanically, it is highly susceptible to deterioration and damage and even fail ultimately, unless some means are adapted to counter deterioration. The minimum maintenance of concrete structures requires an integral approach which needs the introduction of as much practical measures as possible in accordance with the basic established concept – "prevention is better than cure".

Repair/retrofitting/rehabilitation is the fast-growing segment of the construction industry. Thus new technologies and new repairing materials, extensively be-ing used by the advanced countries, are also being tried in developed countries like India.

Course Objectives:

1. To recognize the mechanisms of degradation of concrete structures, provide the participants with the knowledge of available techniques and their application for strengthening or upgrading existing structural systems.
2. To explore the knowledge about how to conduct field monitoring and non-destructive evaluation of reinforced concrete structures.

Guest Speakers:

1. Mr. Ratnakar Choudhary (PM Consultant Redevelopment of Housing Societies).
2. Mr. Satish Diwakar (Sr. Manager, TCE).
3. Mr. Dada Patil (Asst Prof, AIKTC).
4. Mr. Santosh Gidh (Structural Consultant, BVP- Vasai).
5. Mr. Nagraj Dinnachinivar (NDT Constultant, Enlab Services).
6. Mr. Mohit Lamba (Specialist in Waterproofing, Repairs and Painting).
7. Mr. Tirtha Banerjee (Waterproofing Expert, Pidilite Industries Ltd).
8. Mr. Dinesh R Rajput (Chief-Project Services, Pidilite Industries Ltd).

2. COMMITTEE MEMBERS

1. Convenor
    - Dr Sunil Kirloskar
      (Head of Department, Civil Engineering)
2. Advisory Committee
    - Dr. Suresh Ukrande (Assoc. Dean, Faculty of Science and Technology, University of Mumbai)
    - Dr. Ganesh Kame (Principal, MHSSCOE)
    - Dr. Rajendra Magar (HOD Civil Engg., AIKTC)
    - Dr. Ajay Radke (HOD, Civil Engg, DMCE)
    - Dr. Gopal Mulgund (Principal, SJCET)
    - Er. M.D. Lele (Retd. Engineer, CIDCO, Navi Mumbai)
3. Co-ordinator
    - Mr. Vikrant Kothari
4. Co-Coordinator
    - Mr. Viren Chandanshive
    - Mr. Arbaz Kazi
5. Working Committee
    - Mr. Jaydeep Chougale
    - Mrs. Puja Kadam
    - Mr. Prakash Pande
    - Mr. Jignesh Mistry
    - Mrs. Anu Murali

3. ROLE OF FACULTIES

Sr No	Name of faculty & Staff	Committee	Responsibilities
1	Dr. Sunil G Kirloskar	Convenor	• Overall coordination
2	Mr. Vikrant Kothari Mr. Viren Chandanshive Mr. Arbaz Kazi	Pre STTP Approval	• STTP Form Submission • Prepare the contents of STTP
3	Dr. Sunil G Kirloskar Mr. Vikrant Kothari	Coordination	• Arrangement of speakers • Coordination with speakers
4	Mr. Arbaz Kazi	Brochure	• Preparation of brochure contents and design of layout
5	Mr. Vikrant Kothari Mr. Arbaz Kazi Mr. Viren Chandanshive	Schedule of STTP	• Scheduling the content of STTP
6	Dr. Sunil G Kirloskar Mr. Viren Chandanshive Mr. Prakash Panda	Budget	• Estimation and track of expenditure throughout the session
7	Mr. Jignesh Mistry Mr. Saurabh Thakur Mr. Ganesh Ambekar	Venue preparation	• Booking & Arrangement of venue • Audio/ Video testing
8	Mr. Arbaz Kazi	Banner	• Printing of banners
9	Mr. Prakash Panda	Reception	• Registration of participants at desk • Providing receipt and registration kit
10	Mr. Vikrant Kothari	Stationary Kit	• Purchase of stationary kits for registration
11	Mr. Jaydeep Chougale Mr. Jignesh Mistry	Food	• Arrangement of breakfast, lunch, tea and refreshments throughout the session for Speakers and participants

			• Purchase of water bottles for STTP
12	Mrs. Anu Murali Mrs. Puja Kadam	Anchoring	• Preparation of profiles of speakers • Anchoring the session
13	Mr. Viren Chandanshive Mr. Vikrant Kothari	Valedictory	• Preparation of certificates, Name plates, Flow charts • Preparation of appreciation letter & Vouchers of speaker
14	Mr. Prakash Panda Mrs. Puja Kadam	Attendance	• Daily attendance of the session
15	Mrs. Puja Kadam Mr. Arbaz Kazi	Quiz & Feedback	• Preparation of quiz form • Preparation of feedback form • Quiz analysis • Feedback analysis
16	All faculty members	Publicity	• Invitation of other colleges and spread of STTP by various means
17	Mr. Vikrant Kothari Mrs. Puja Kadam Mrs. Anu Murali	Documentation	• STTP report preparation

5. PROFILE OF GUEST SPEAKERS

Speaker: Mr. Ratnakar Choudhari

- Qualification: Civil engineering graduate from VJTI, Mumbai (1985)
- Experience:
  - Worked with Raheja builders (1985-1991) as Chief Engineer
- Designation:
  - Owner of contracting firm (1991) dealing with strengthening works of highly dilapidated society building structures.
  - Owner of Internal Skill Development Society to develop internal skills of average students
  - Project Management Consultant for redevelopment of housing society buildings
- Clients:
  - BHEL, BEML, Indian oil, Central Bank, Allahabad Bank, Vijaya bank, Reserve bank, Fiat, Mantra, State bank etc
- Achievements:
  - Completed more than 400 building structures from GF to 25 storeys
  - Completed Projects across Mumbai, Lonavala, Goa and Cochin

Speaker: Mr. Satish Narayan Diwakar

- Designation: Senior General Manager, Civil Engineering, Tata Consultancy Engineers Limited
- Qualification: BE Construction (Hons) 1989
- Experience: Over 30yrs
  - 2004-2009 : Sr. Manager, Projects Division, ACC Cement
  - 1993-2004 : Tata Consulting Engineers
  - 1991-1993 : Design Engineer, A.G. Consultants
  - 1990-1992 : Design engineer, Shrikhande Consultants Pvt Ltd

Roles handled: Specialist engineer, Project engineer & Project Manager

Speaker: Mr. Mohit Lamba

- Designation:
  - Chief engineer - Contracts and Projects, Pidilite Projects Division
  - Owner of Image Décor
- Experience: 19 yrs in field of repairs
- Achievements:
  - Completed more than 600 structures
  - Winner of Best Brand in Water Proofing by Maha Business Awards (2019)

Speaker: Mr. Nagraj T. Chinivar

- Designation:
  - Owner of Enlab Services for Material Testing and Non Destructive Testing
- Experience: Over 25yrs
- Clients: MCGM, NMMC, RLYS AND MBMC, KDMC

9.SESSION REPORT OF THE STTP

Vidyavardhini's College of Engineering and Technology, Vasai
Affiliated to the University of Mumbai

DEPARTMENT OF CIVIL ENGINEERING

REPAIRS, REHABILIATION & RETROFITTING OF REINFORCED CONCRETE STRUCTURES FOR SUSTAINABLE DEVELOPMENT

DAY 1:

Session 1: Inauguration & Introduction to Repairs & Rehabilitation

(10:00 am to 11:15 am)

Speaker: Prof. Santosh Gidh.

MR. SANTOSH GIDH GIVING OPENING REMARKS ABOUT STTP.

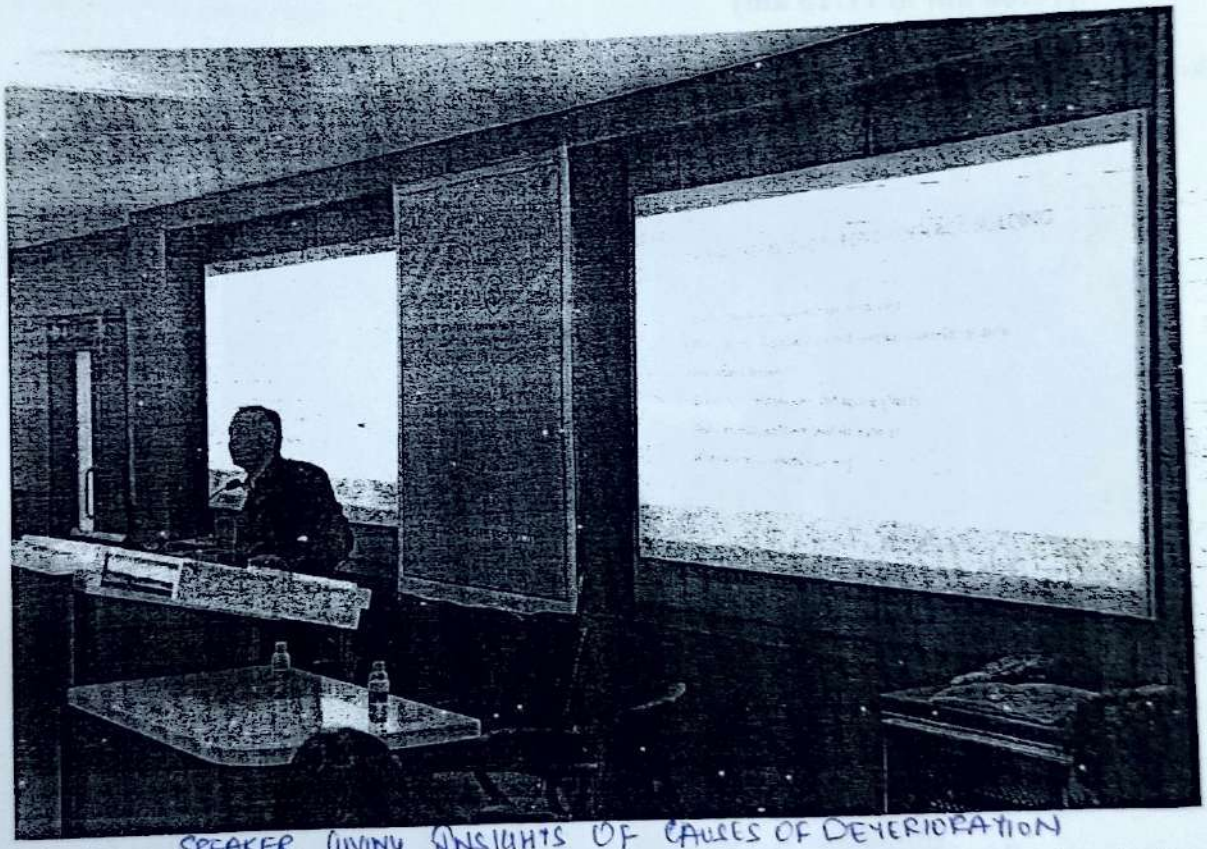
The session began in the presence of Chief Guest Prof. Santosh Gidh, Structural Auditor, Dr. Harish Vankudre, Principal VCET, Dr. Vikas Gupta, Dean Academics VCET, Dr. Sunil G. Kirloskar. H.O.D Civil Engineering Department, VCET.

Detail Outline of the STTP was elaborated by Prof. Vikrant Kothari, followed by Speech of Dr.Kirloskar Sir & Dr. Harish Vankudre Sir, in which Expectation from this STTP was discussed and also the importance of Repairs was elaborated.

DAY 1:

Session 1: Introduction to Repairs & Rehabilitation: (11:30 am to 12:45 pm)

Speaker: Prof. Santosh Gidh.



SPEAKER GIVING INSIGHTS OF CAUSES OF DETERIORATION

The Session was carried out by our Chief guest Prof. Santosh Gidh. In this Session introduction to repairs, rehabilitation & retrofitting was given to participants. Also causes of deterioration was discussed which included 1) Poor Structural Design, 2) Poor workmanship 3) Poor Maintenance, 4) Environmental Factors, 5) Natural Calamity & 6) Indiscriminate Additions and Alterations.

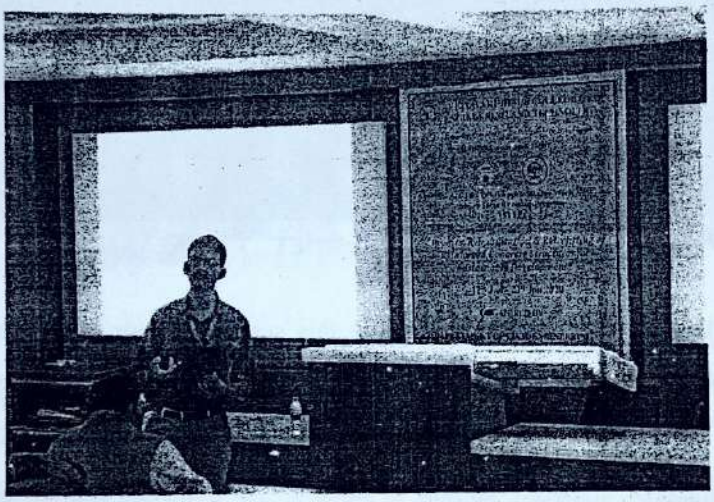
All the above-mentioned causes were described in detail by guest speaker, which were well understood by the participants.

General awareness about the timely maintenance of the R.C.C Structures was pointed out by Speaker in the end.

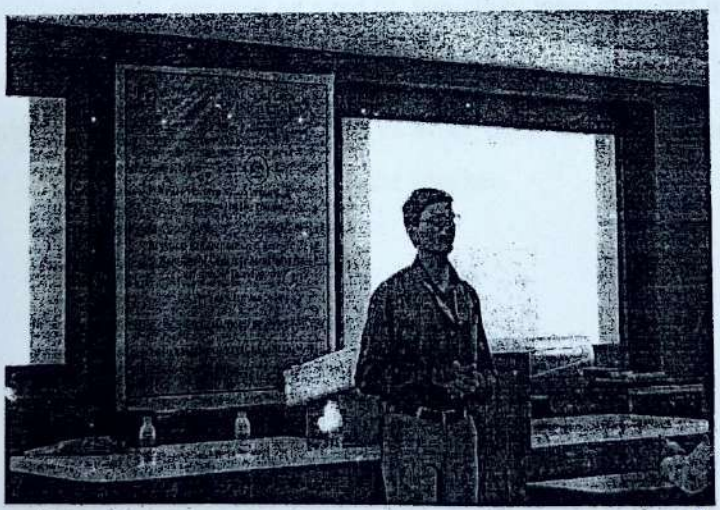
DAY 1:

Session 2: **Repair Materials & Techniques (02:00 pm to 03:15 pm & 3:30 pm– 4:45 pm)**

Speaker: Prof. Dada Patil.

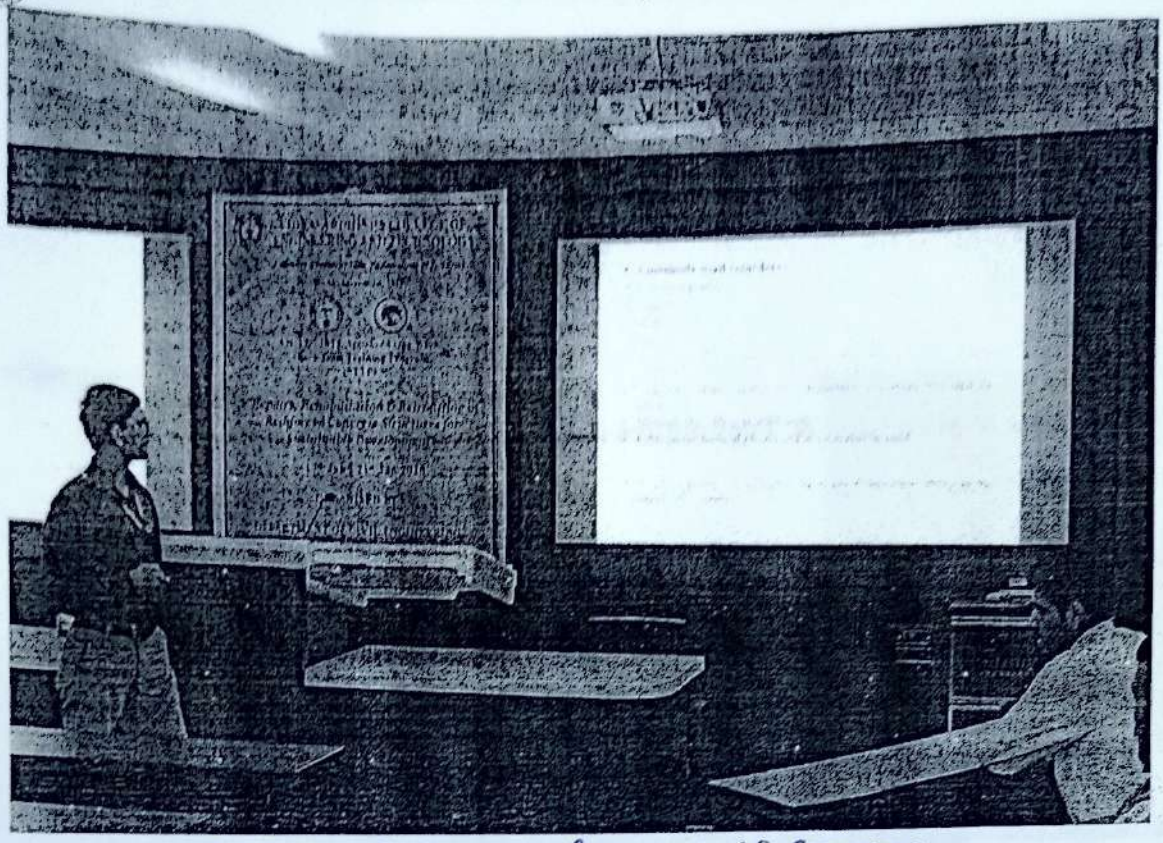


(a)



(b)

In both (a) & (b) SPEAKER is EXPLAINING ABOUT FACTORS TO BE CONSIDERED WHILE SELECTING REPAIR MATERIAL.



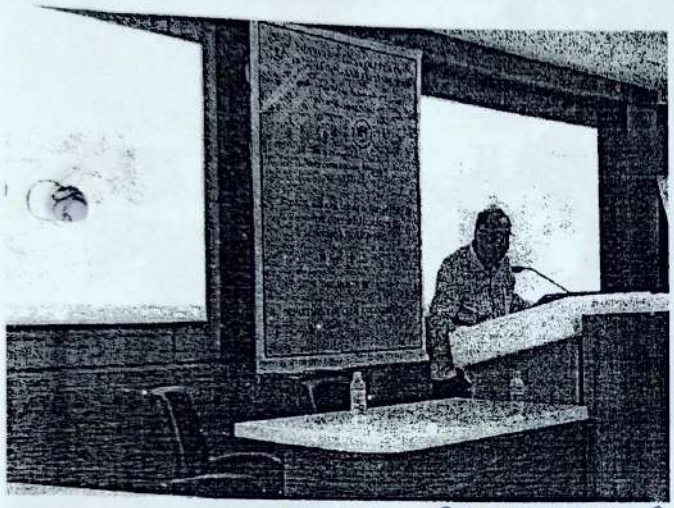
SPEAKER EXPLAINING PROPERTIES OF REPAIRERS

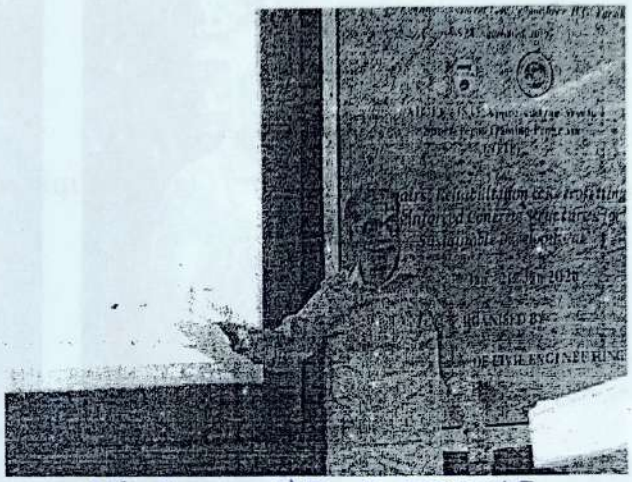
This Session was carried out by Prof. Dada Patil, in this session Repair materials and various Repair Techniques were discussed in detail. More than 20 types of different Repair material categories & more than 10 Repair Techniques were described by the speaker. Step wise procedure and specifications of the materials were explained during the session. Factors affecting selection of materials in the slide were explained, to have an accurate judgement while selecting the correct type of repair material from the options.

DAY 2:

Session 3: **STRUCTURAL AUDIT – Its Importance (10:00 am -12: 45 pm)**

Speaker: Prof. Santosh Gidh.





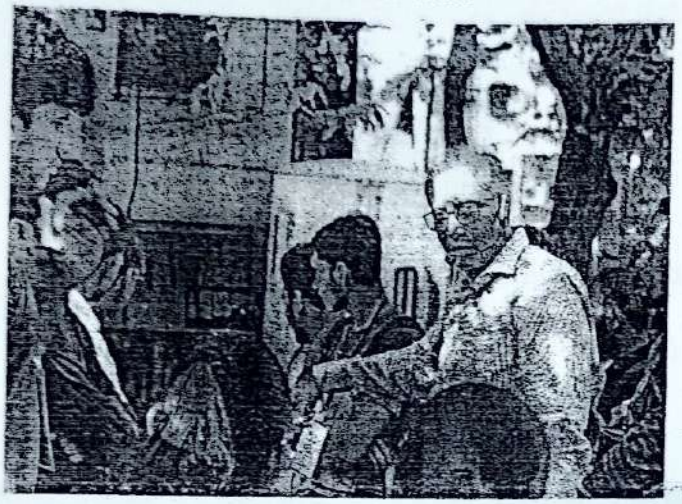
MR. GIDH SHARING HIS STRUCTURAL AUDIT WORK EXPERIENCE

In this session our guest speaker Prof. Santosh Gidh dealt with the Importance of Structural Audit. Speaker also made awareness about the By Laws laid down by government regarding structural audit of R.C.C structures. As per Building By laws it is mandatory to conduct the structural audit of structures old than 30-35 years at regular intervals. Stepwise procedure of conducting the Structural Audit was elaborated by the speaker. Distress mapping example was taken with the help of actual plan of a structure and marking the relevant distresses observed on the structural members. Altogether internal and external audit of the structure to know the present condition of it was very well explained by the speaker.

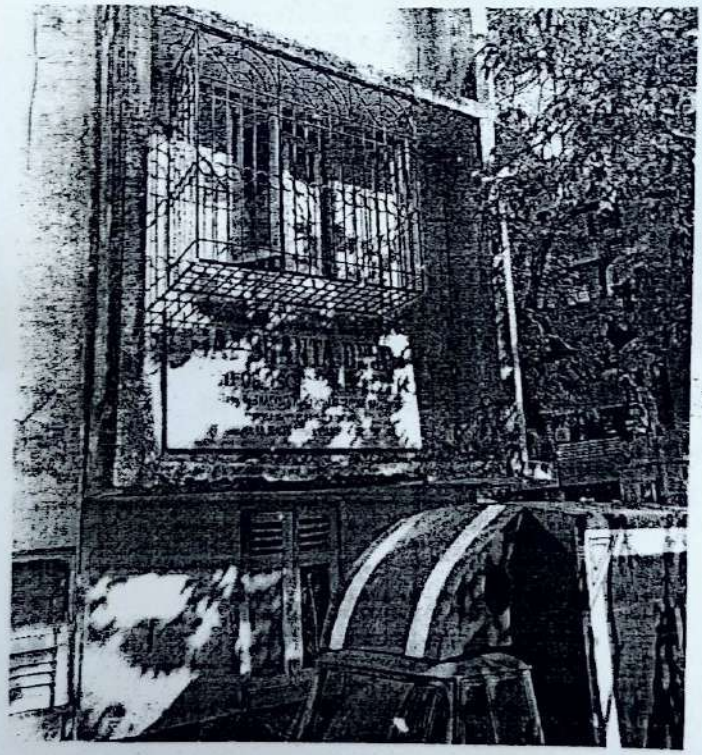
DAY 2:

Session 4: Site Visit – A case study of Structural Audit (02:00 pm -04: 45 pm)

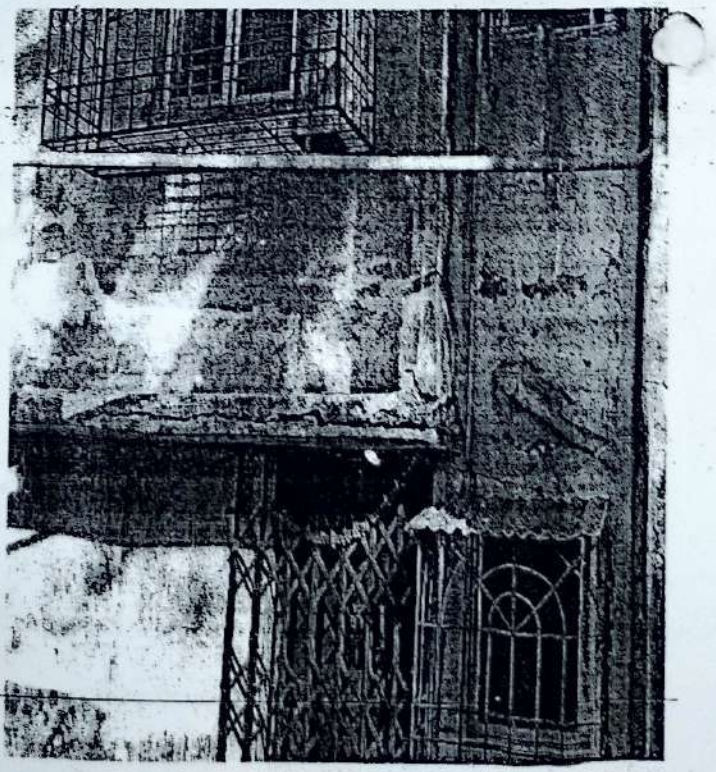
Speaker: Prof. Santosh Gidh.



Various photographs of the Site Visit to a dilapidated structure in vasai



In this session, all the participants were taken to a site visit at "Shantadeep Co-Op Housing



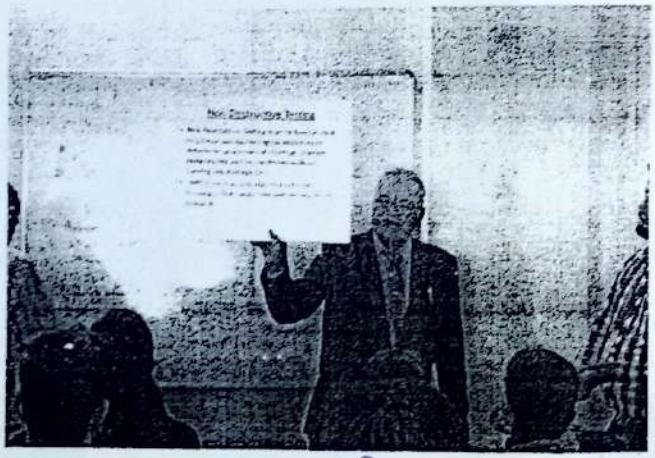
Society, Ambadi Road, Vasai West". It is 10 minutes walking distance from VCET, all the participants conducted structural audit and mapped distress in the structure. Investigation of the condition of structure was done by the participants from exterior as well as interior of the building. All the participants were provided with the plan of the building and were asked to locate the distress observed in the structure, to get a better understanding of the process. Site visit was successfully conducted, and we concluded that structure, which was audited, falls in C2-A category i.e. it needs urgent Major repairs.

DAY 3:

Session 5: **Non-Destructive Evaluation Techniques (NDT)** (10:00 am -12: 45 pm)

Speaker: Mr. Nagraj T. Chinivar (NDT Consultant)

(a)



(b)

MR. NAGRAJ EXPLAINING DIFFERENT TYPES OF NDT.

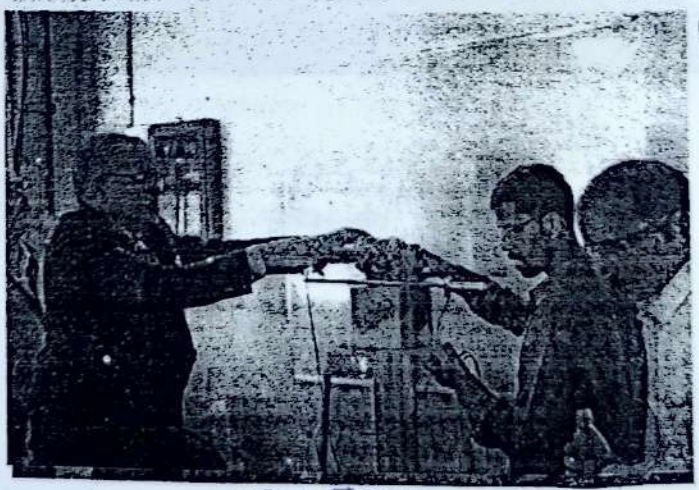
Following photographs pertain to, Mr. Nagraj's training on NDT to the participants

CARBONATION TEST

HALF CELL POTENTIAL TEST

This session carried out by Mr. Nagraj who is a NDT consultant and has a wide experience in the field. Total 6 NDT test were performed and explained to the participants, which includes:

1) Rebound Hammer test
2) Ultrasonic Pulse velocity Test (UPV)
3) Carbonation Test
4) Half-Cell potential Meter test



UPV TEST

5) Core Cutting Test

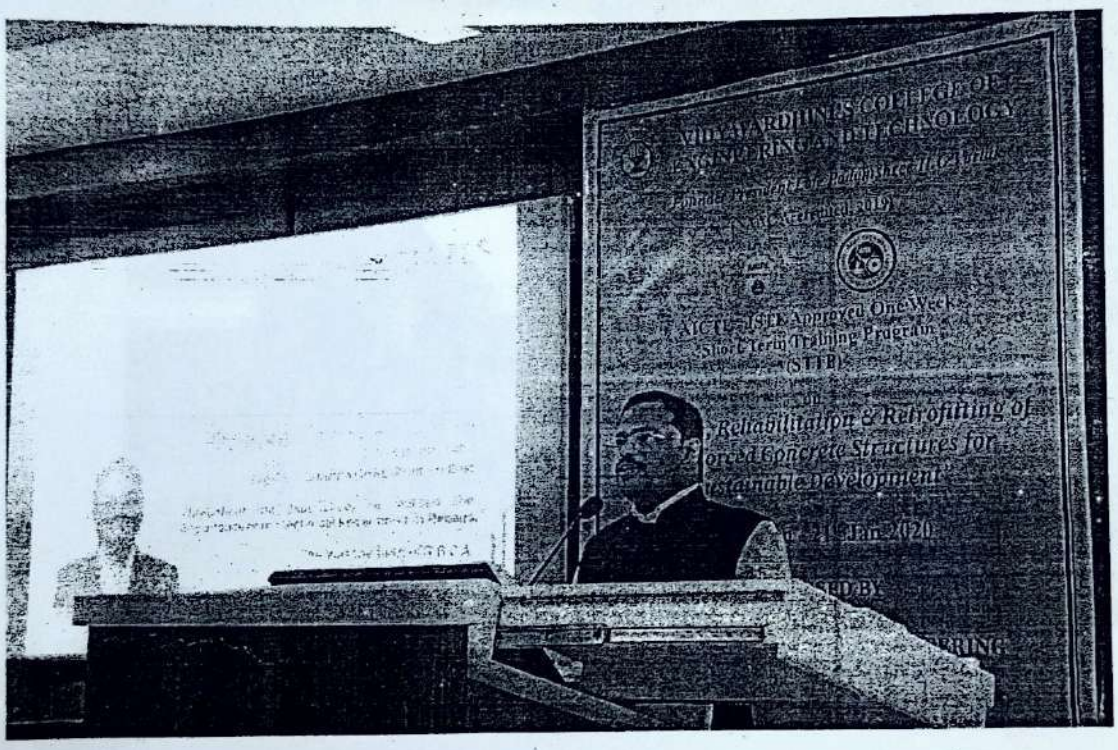
6) Cover Meter (Profoscope)

All the tests were explained in detail and participants were asked to use the NDT equipment's and get hands-on experience of the same.

DAY 3:

Session 6: Repairs & Rehabilitation: A practical Approach (02:00 pm -04: 30 pm)

Speaker: Mr. Ratnakar Choudhary, RB Choudhari & Associates.



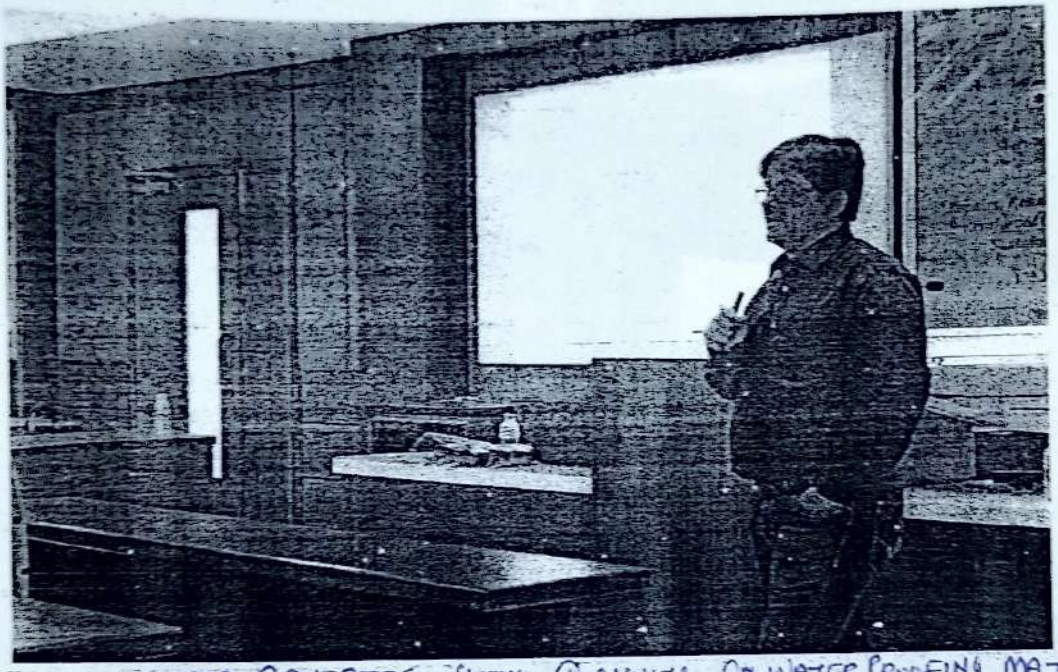
This session was carried out by Mr. Ratnakar Choudhary, Director of RB Choudhary & Associates. In this session Practical difficulties and challenges faced while carrying out repair works were discussed with the participants. Various case studies were taken to explain different challenges encountered by the speaker while conducting the repair or rehabilitation works. Question and answer round took place at the end of the session wherein all the participants interacted in a very enthusiastic manner and involvement of the participants was appreciated by the speaker as well.

Participants also got to know the scope of repair industry and career opportunities in the repair field.

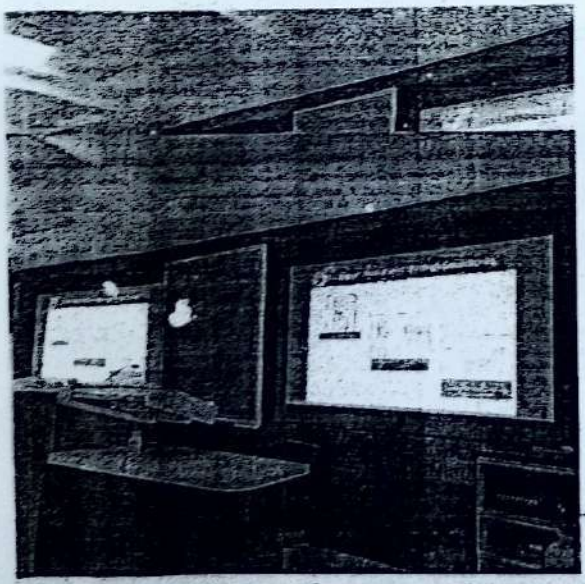
DAY 4:

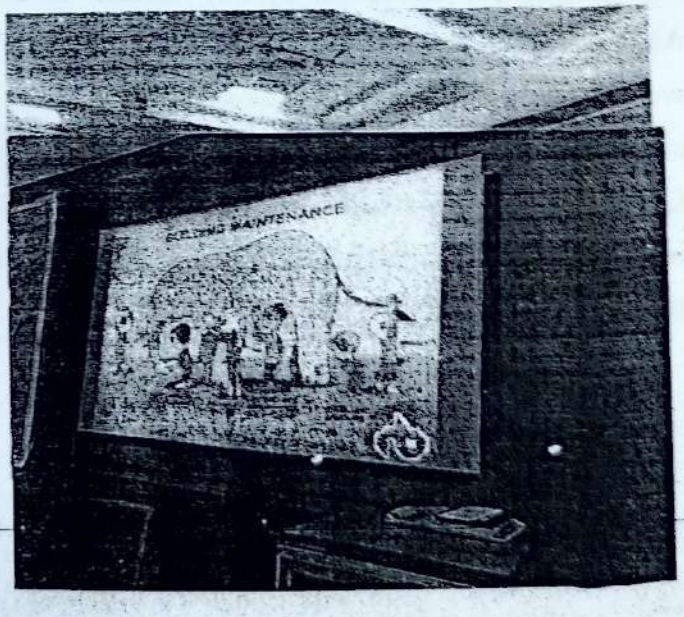
Session 7: Waterproofing: Materials & Techniques (10:00 am -12:45 pm)

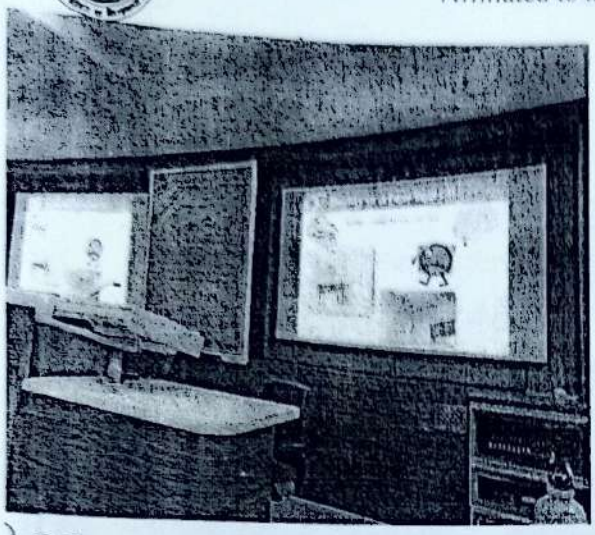
Speaker: Mr. Tirtha Banerjee, Head Training, Dr. Fixit Institute.

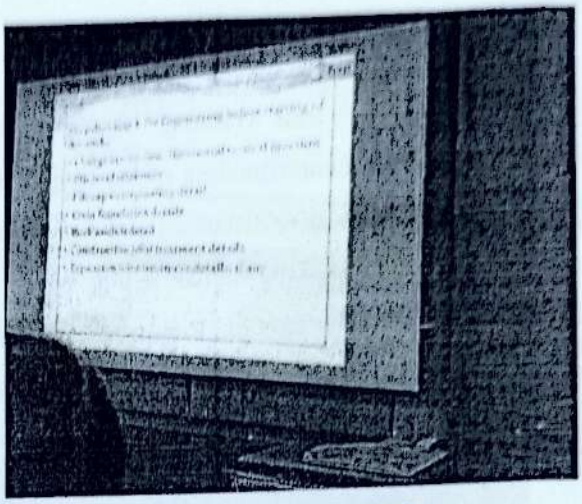


MR. BANERJEE GIVING INSIGHTS ON WATERPROOFING MATERIALS









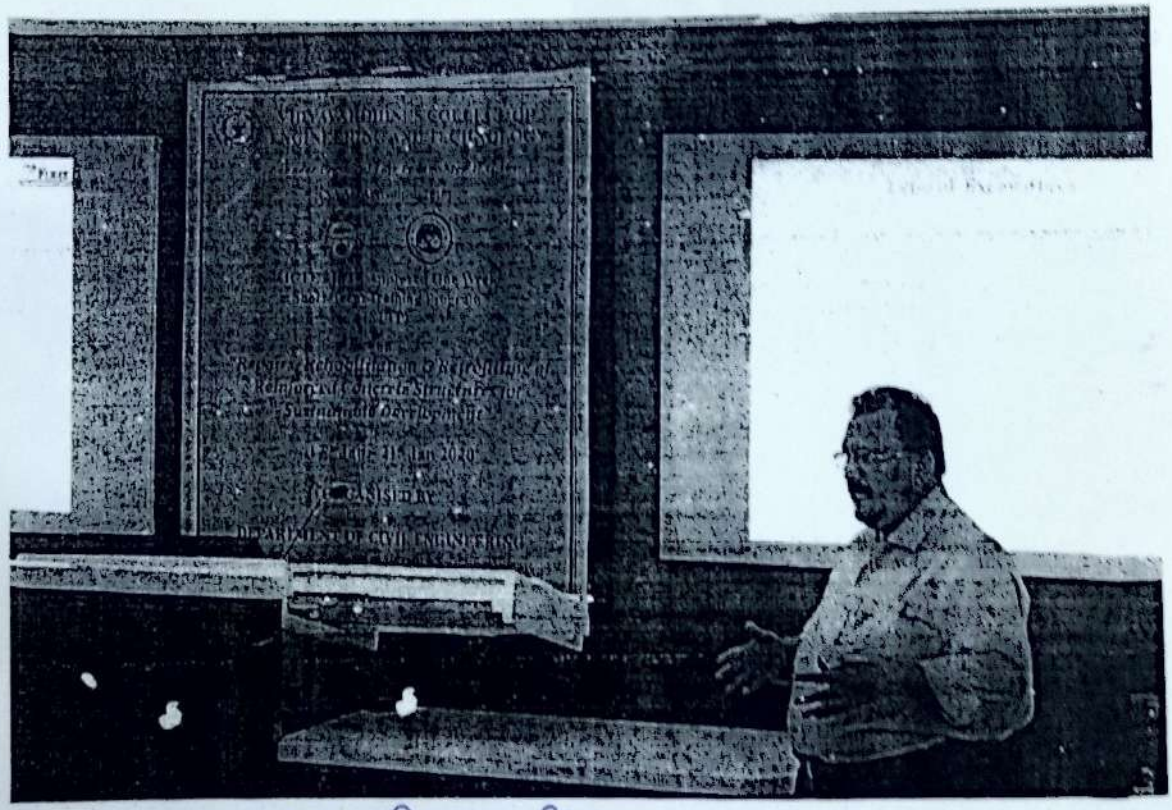
PPT PICTURES OF MR. BANERJEE ON CORRECT METHODOLOGY FOR DOING WATER PROOFING.

Mr. Tirtha Banerjee, Head Training, Dr. Fixit Institute, took a very interesting session on Waterproofing. Basic understanding of the term waterproofing was targeted by speaker. Causes of dampness/ leakages were discussed and explained in detail to the participants. Minute details which are usually ignored by human beings which ultimately leads to deterioration (Leakages) were also touched during session. Regular maintenance and repairs are crucial to keep a structure waterproof was concluded by Tirtha sir. Interesting PowerPoint presentation lead to a better understanding on the concept of waterproofing.

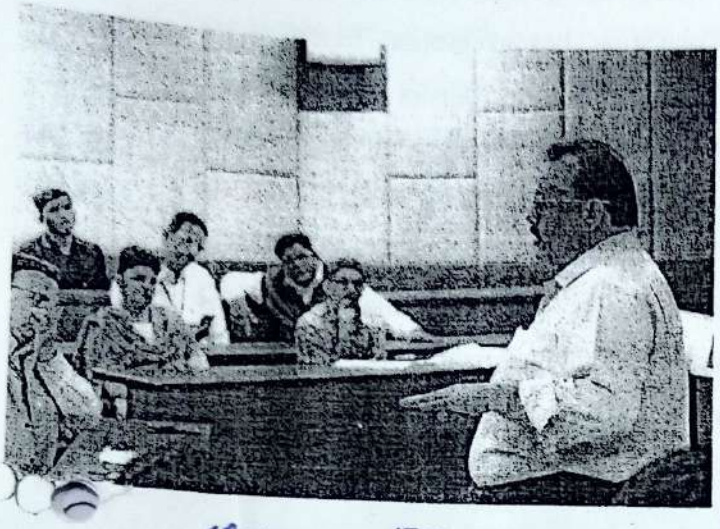
DAY 4:

Session 8: Waterproofing: Materials & Techniques (Case Study) (02:00 pm -04: 30 pm)

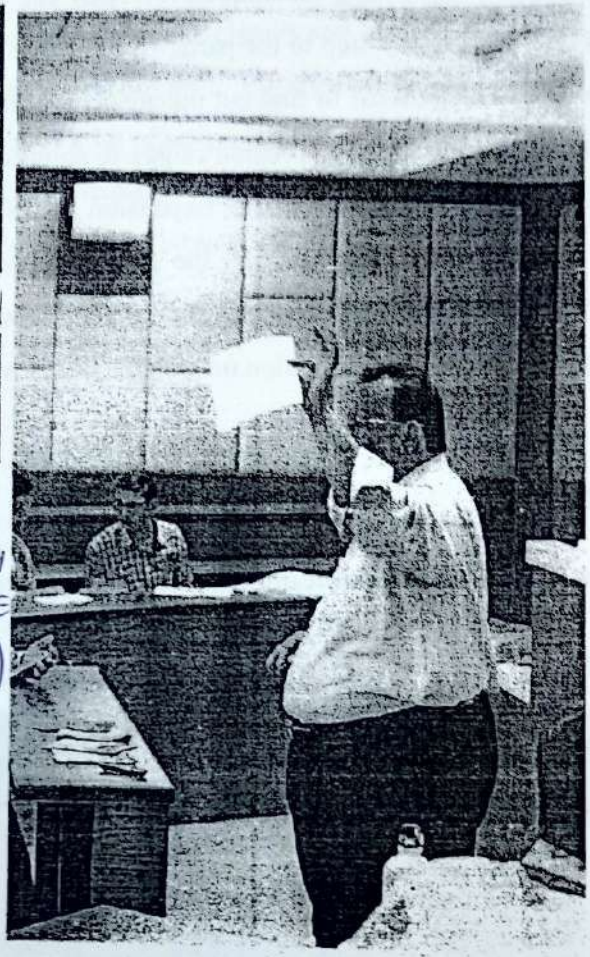
Speaker: Mr. Dinesh Rajpoot, Business Development Manager, Pidilite Industries Ltd.

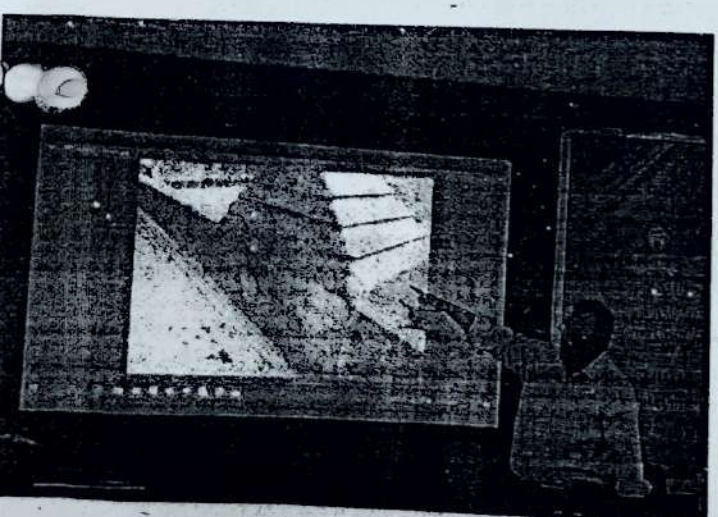


MR. DINESH RAJPOOT.



SPEAKER EXPLAINING IMPORTANCE OF WATER PROOFING BY HANDS ON WITH MEMBRANE (WATER PROOFING MATERIAL)





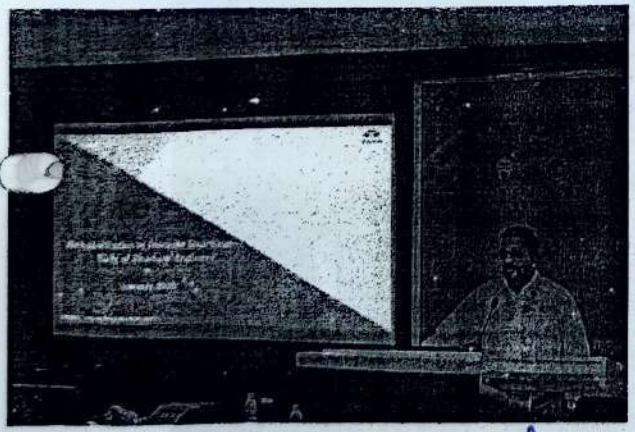
- CASE STUDY TAKEN FOR EXPLAINING JOINTS.

In this Session Mr. Mohit Lamba showered some light on scope of repair consultancy. For beginners it was truly a worth session to get some tricks and tips to start of a career in Repair Industry. Life story of the speaker was shared to influence the participants and make them realize the magnitude of Repair Industry in Mumbai Region. According to the speaker Repair Industry is 2000 Crore industry in Mumbai region and there is a lot of scope for the engineers to make a career in this field. Question Answer round in the end helped in making session more beneficial for all and get a better understanding on the doubts related to "how to start".

DAY 5:

Session 9: Scope of Consultancy in Repairs & Rehabilitation (11:30 am -01:45 pm)

Speaker: Mr. Satish Diwakar, Sr. General Manager, Tata Consultancy Engineering.



MR. DIWAKAR from TCS giving INSIGHTS ON CONSULTANCY ASPECT OF REPAIR INDUSTRY.

In this session Mr. Satish Diwakar, stressed on role of a structural engineer in repairs & rehabilitation field. He pointed out the responsibilities of a structural engineer in am manner it should be. Experience at Tata Consultancy Engineering was shared by the speaker and it was made clear that all the big construction companies are now directing towards repairs as well and hence scope of the industry will be multiplied soon. However scope of repair consultancy was discussed in short as it was already explained in previous session. In the End few technical queries of the participants were addressed by the speaker.

At the end of the session all the participants were asked to undergo a quiz based on learning of all the 5 days of the STTP & the quiz was followed by the Valedictory function were the presence of all the participants was recognized and appreciated.

Subject: Appreciation Letter

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the ISTE-approved STTP on "Repairs, Rehabilitation & Retrofitting" held between 17th January 2020 to 21st January 2020.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

5 Day-Workshop on "Estimation, Costing and Bid Preparation of Construction and All Types of Road Projects Using Easy Bids and Easy Roads."

Objective of the lecture - The 5-day workshop on "Estimation, Costing, and Bid Preparation of Construction and All Types of Road Projects Using Easy Bids and Easy Roads" aims to equip participants with essential skills and knowledge for effective project management. The workshop focuses on enhancing participants' abilities to accurately estimate costs for construction and road projects, with a specific emphasis on practical applications using Easy Bids and Easy Roads software. It also provides insights into industry best practices for bid preparation, risk management strategies, and regulatory compliance. Through a combination of theoretical learning, hands-on training, and real-world case studies, the workshop aims to foster a collaborative mindset, effective communication skills, and a commitment to continuous improvement in the estimation and bidding processes. Overall, the objective is to empower participants to excel in their roles, contributing to the successful execution of construction and road projects in their professional endeavors.

Date of Lecture- 28th February 2020 to 03rd March 2020

No. of Participant- 33

Name of the Speaker- Er. Pralhad V. Rao, (Director, Shanti Computers),

About the Speaker- Mr. Prahlad Rao, currently serving as the Director of Shanti Computers & Systems in Mumbai, India, served as the resource person during the workshop. With extensive experience in Civil Engineering and Road Estimation Software, Mr. Rao focuses on key aspects such as Estimation, Bid Document preparation, R.A Billing System, and Works Management Information System, with a special emphasis on the application of Easybids software. Additionally, he introduces participants to a specialized software, EasyRoads, designed for road design. His expertise and in-depth knowledge contributed significantly to the workshop, providing participants with practical insights into the use of advanced software tools in the field of civil engineering and road project management.

Description of the Workshop:

The workshop on "Estimation, Costing, and Bid Preparation of Construction and All Types of Road Projects Using Easy Bids and Easy Roads" is a comprehensive and specialized training program curated to provide participants with an in-depth understanding and practical skills in the domain of construction project management, with a particular focus on road projects. Led by Mr. Prahlad Rao, Director of Shanti Computers & Systems in Mumbai, India, the workshop aims to bridge the gap between theoretical knowledge and practical application in the field.

The workshop will commence with an exploration of fundamental concepts in estimation, costing, and bid preparation, laying the groundwork for participants to grasp the intricacies of project management in the construction and road infrastructure sector. Emphasis will be placed on leveraging advanced software tools, such as Easy Bids and Easy Roads, to streamline and optimize the estimation process, ensuring accuracy and efficiency.

Mr. Prahlad Rao, drawing from his extensive experience in Civil Engineering and Road Estimation Software, will guide participants through hands-on sessions, providing practical insights into utilizing Easy Bids software for Bid Document preparation, R.A Billing System implementation, and Works Management Information System integration. These components are crucial for effective project execution and financial management in construction projects, particularly in the context of road infrastructure.

One of the highlights of the workshop is the exploration of EasyRoads, a specialized software dedicated to road design. Participants will gain a comprehensive understanding of how this tool can be effectively employed in the planning and design phases of road projects, enhancing precision and efficiency in the overall construction process.

Through a combination of theoretical lectures, interactive discussions, and practical exercises, this workshop endeavors to empower participants with the knowledge and skills necessary to excel in the estimation, costing, and bid preparation aspects of construction and road projects. It provides a unique opportunity for professionals to stay abreast of industry trends, leverage cutting-edge

software solutions, and contribute effectively to the successful execution of road infrastructure projects in their respective roles.

Outcomes:

The workshop on "Estimation, Costing, and Bid Preparation of Construction and All Types of Road Projects Using Easy Bids and Easy Roads" is anticipated to yield significant outcomes for participants. Throughout the program, attendees will cultivate an enhanced skill set, gaining proficiency in estimating costs, preparing bids, and managing construction projects, with a specific emphasis on road infrastructure. Hands-on experience with advanced software tools, including Easy Bids, Easy Roads, and EasyRoads, will equip participants with the technical know-how for precise estimation and bid preparation, as well as optimizing road design processes. The workshop aims to improve project management capabilities, covering crucial aspects such as bid document preparation, R.A Billing System implementation, and Works Management Information System integration. Participants will also develop strategies for identifying and mitigating risks in construction projects, ensuring robust planning and execution. Regulatory compliance knowledge and a heightened understanding of industry standards will be imparted, enabling participants to navigate legal requirements effectively. The workshop fosters a collaborative mindset, emphasizing effective communication and teamwork. By encouraging a culture of continuous improvement, participants will be poised for ongoing professional development, making valuable contributions to their organizations in the realm of construction project management and road infrastructure development. Networking opportunities with industry experts will further enrich the participants' experience, facilitating knowledge exchange and potential collaborations in the future.

Conclusion:

In conclusion, the workshop on "Estimation, Costing, and Bid Preparation of Construction and All Types of Roads Projects Using Easy Bids and Easy Roads" is poised to be a transformative experience for participants, offering a robust platform for professional development in the realm of construction project management and road infrastructure. Through comprehensive training, hands-on exercises, and exposure to cutting-edge software tools, attendees are expected to emerge

with an enhanced skill set, proficient in the intricacies of estimating costs, bid preparation, and project management. The emphasis on regulatory compliance, risk mitigation, and collaboration underscores the holistic approach of the workshop. The incorporation of specialized software like EasyRoads for road design further adds a practical dimension to the training. As participants cultivate a mindset of continuous improvement, the workshop not only imparts immediate value but also sets the stage for sustained growth and contributions in their respective roles. Overall, the anticipated outcomes reflect a commitment to empowering professionals with the knowledge, skills, and tools needed to excel in the dynamic field of construction and road infrastructure, fostering a positive impact on projects and contributing to the overall advancement of the industry.

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the 5-Day Software training on Estimation and Costing Easy Bids held between 28th February 2020 to 3rd March 2020.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

5 Day-Webinar Lecture Series on Prominent Areas of Civil Engineering

Objective of the lecture - The primary objective of this 5-day webinar lecture series is to provide participants with a comprehensive understanding of the prominent areas of civil engineering. By the end of this series, attendees will have gained valuable insights into the latest developments, best practices, and innovative solutions within the field of civil engineering, equipping them with the knowledge and inspiration to excel in their careers and contribute to the advancement of the industry.

Date of Lecture- 13th May 2020 to 17th May 2020

No. of Participant- 60

Name of the Speakers- Er. Kedarnath Ghorpade, (Former MMRDA Chief Planner),

Er. Mohd Hashim, (Sr. Structural Engineer, Trojan Holding, UAE),

Mr. Ratnakar Choudhary, (Director, RB group of Companies),

Er. Harish Babu, (Sr. Quantity Surveyor, Al Futtaim Tarmac LLC, Dubai UAE),

Dr. Jitesh Chavda, (Sr. Faculty Member, SVNIT, Surat)

About the Speaker-

With over 39 years of experience of **Er. Kedarnath Ghorpade** in Urban and Environmental Planning, Mr. Ghorpade's career has spanned in various areas which includes Municipal project identification, financing, and coordination, Urban governance, and the preparation of Environmental Impact Assessments (EIA), Social Impact Assessments (SIA), and proposals for Forest land diversions. He has been actively involved in Rehabilitation and Resettlement initiatives for project-affected individuals and have participated in Smart City Planning. Successfully navigating the complex landscape of government approvals and development logistics for projects funded by renowned institutions such as the World Bank, ADB, UNESCO, the Government of India, and the State of Maharashtra, as well as private sector ventures, is a testament to their competence.

Er. Mohd Hashim, a distinguished Senior Structural Engineer at Trojan Holding in the United Arab Emirates, brings a wealth of experience and expertise to the field of structural engineering. With a proven track record in delivering innovative and sustainable engineering solutions, Er. Hashim has become a pivotal figure in the engineering industry, contributing to the development and execution of numerous groundbreaking projects. His dedication, technical acumen, and commitment to excellence have earned him a well-deserved reputation as a leader in the field of structural engineering.

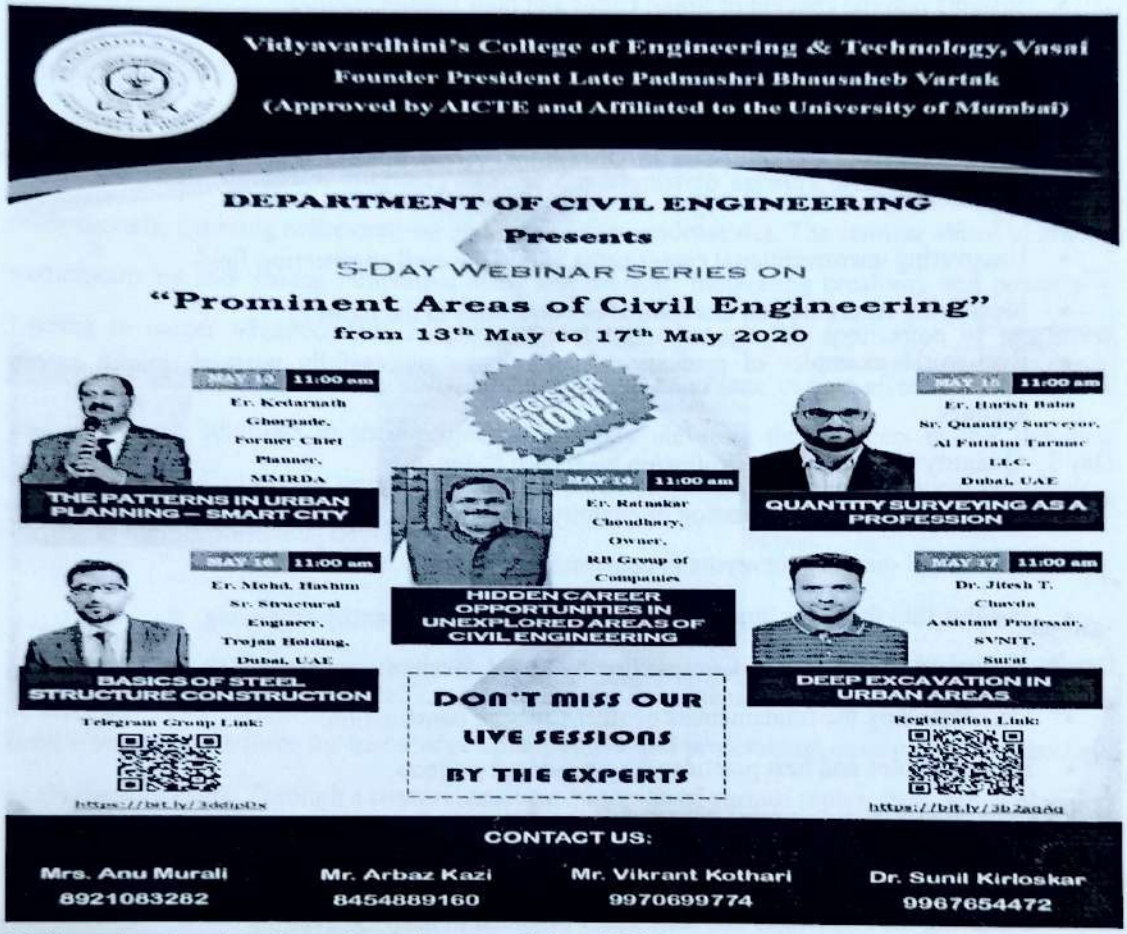
Mr. Ratnakar Choudhary, a prominent figure in the corporate world, serves as the Director of the esteemed RB Group of Companies. With a distinguished career marked by visionary leadership, strategic acumen, and a commitment to excellence, Mr. Choudhary has played a pivotal role in shaping the success and growth of the RB Group. His profound industry insights and unwavering dedication have positioned him as a dynamic leader and a driving force behind the company's achievements. Mr. Choudhary's leadership and entrepreneurial spirit have been instrumental in propelling the RB Group of Companies to new heights of success and recognition.

Er. Harish Babu, a highly accomplished Senior Quantity Surveyor at Al Futtaim Tarmac LLC in Dubai, United Arab Emirates, is a notable figure in the construction and infrastructure industry. With a career marked by precision, expertise, and a commitment to delivering excellence, Er. Babu has played a crucial role in overseeing and managing the financial aspects of numerous projects. His exceptional skills in quantity surveying, cost management, and project evaluation have made him an invaluable asset in ensuring the success and efficiency of complex construction endeavors. Er. Babu's dedication and proficiency have established him as a respected leader in the field of quantity surveying in the dynamic landscape of Dubai's construction sector.

Dr. Jitesh Chavda, a distinguished Senior Faculty Member at the Sardar Vallabhbhai National Institute of Technology (SVNIT) in Surat, is a prominent figure in the academic world. With an illustrious career in teaching, research, and mentorship, Dr. Chavda has made significant contributions to the fields of education and engineering. His unwavering commitment to nurturing the next generation of professionals and his groundbreaking research endeavors have established him as a respected authority in the academic community. Dr. Chavda's dedication to excellence in

education and his extensive knowledge in his field make him an invaluable asset to SVNIT and the broader academic landscape.

Description of the lecture:



Civil engineering is a dynamic and ever-evolving field that plays a pivotal role in shaping our modern world. To explore the forefront of innovation, best practices, and emerging trends in civil engineering, a5-Day Webinar Lecture Series on Prominent Areas of Civil Engineering was organised by Department of Civil Engineering, VCET, Vasai West from 13th May 2020 to 17th May 2020.

This webinar series is designed to provide a comprehensive and in-depth exploration of the prominent areas within the realm of civil engineering. Each day of the series was dedicated to a

specific topic, featuring expert speakers who will explored into the latest developments, case studies, and practical applications.

Day 1 - Patterns in Urban Planning - Smart City by Kedarnath Ghorpade:

- Exploring the latest trends and patterns in urban planning.
- Insights into the concept of Smart Cities and their implementation.
- Case studies showcasing successful urban planning strategies and their impact on communities.

Day 2 - Hidden Career Opportunities in Unexplored Areas of Civil Engineering by Ratnakar Choudhary:

- Uncovering unconventional career paths within the civil engineering field.
- Identifying emerging and unexplored opportunities in the industry.
- Real-world examples of professionals who have successfully pursued unique career avenues.

Day 3 - Quantity Surveying as a Profession by Harish Babu:

- A deep dive into the profession of quantity surveying.
- The role of quantity surveyors in construction projects.
- Insights into the skills, qualifications, and prospects in quantity surveying.

Day 4 - Basics of Steel Structure Construction by Mohd. Hashim:

- Understanding the fundamentals of steel structure construction.
- Key principles and best practices for steel-based projects.
- Case studies demonstrating successful steel structure construction.

Day 5 - Deep Excavation in Urban Areas by Jitesh Chavda:

- Exploring the challenges and techniques involved in deep excavation.
- Case studies of deep excavation projects in urban settings.
- Best practices for ensuring safety and structural integrity in deep excavation projects.

These highlights provide a glimpse of the valuable insights and knowledge shared during each day of the webinar series, offering participants a well-rounded perspective on prominent areas of civil engineering.

Outcomes:

The 5-Day Webinar Lecture Series on Prominent Areas of Civil Engineering offered a range of valuable outcomes for participants. By attending this seminar, individuals were able to enhance their knowledge in the latest trends, best practices, and emerging areas within civil engineering, covering topics such as urban planning, hidden career opportunities, quantity surveying, steel structure construction, and deep excavation. This increased knowledge served as a source of personal and professional growth, and it opened gateways to exploring unconventional career paths within the field. Moreover, attendees had the opportunity to network with experts, peers, and professionals, fostering collaborations and mentorship opportunities. The seminar aimed to inspire participants by showcasing innovative ideas and projects, motivating creativity and potentially leading to career advancements in civil engineering. Through the application of newfound knowledge and problem-solving skills, attendees could contribute to cost-effective, sustainable, and innovative solutions in their projects, ultimately elevating their careers in this dynamic industry. Depending on the seminar's structure, participants may have also received certificates, adding to their professional development.

Conclusion:

In conclusion, the 5-Day Webinar Lecture Series on Prominent Areas of Civil Engineering has been a valuable platform for knowledge enhancement and professional development in the field of civil engineering. Through a comprehensive exploration of various topics, from urban planning to quantity surveying and steel structure construction, participants have acquired insights and skills that empower them to excel in their careers. The seminar not only enriched their knowledge but also inspired fresh ideas and innovative approaches. The networking opportunities provided a space for meaningful connections and collaborations within the industry. As attendees take the knowledge, inspiration, and new perspectives gained from this seminar, they are well-prepared to address the evolving challenges and opportunities in the dynamic realm of civil engineering, contributing to the advancement and sustainability of the built environment.

Feedback

518_5-Day€Student€Development€Program€on €Career€Planning€and€Preparation€for€Competitive €Exam

Report on 5-day Student Development Program (SDP) on Career Planning and Preparation for Competitive Exams

Objective of the Program: To increase self-awareness, explore career options among the young students so that they can acquire knowledge, skills and experiences that will help them in career decision making.

Organizing Head: Mrs. Puja Kadam

Co-ordinators: Mr. Jaydeep Chougale and Mr. Viren Chandanshive

Date of Webinar: 17/05/2020 to 21/05/2020

No. of Participants: 86

Name of the Speaker: Alumni of Civil Engineering department of VCET, Vasai

About the Speaker:

Day1: Preparation for Government Jobs

1. Ashtaveer Mhashilkar- Sub Engineer (Civil), Municipal Corporation of Greater Mumbai

2. Tushar Panigrahi- Qualified Railway Recruitment Board(RRB) Exam and Food Corporation of India (FCI) Exam

Day 2: Education in Abroad

1. Yash Rander- M.S. Construction Management, New York University, U.S.A.

2. Shivani Meher- Msc Environmental and Resource Management, Brandenburg Technical University, Germany.

3. Ankit Shetty- Masters of Engineering (Structural), University of Melbourne, Australia.

Day 3: Journey of Young Entrepreneurs in Civil Engineering

1. Chirag Patil and Makarand Pandit- Macma Infra Consultant, Mumbai

2. Gaurav Patil- C.E.O at Gaurav Enterprises, Chiplun, Ratnagiri.

3. Nishant Madhavi- Contractor at Builder's Deck, Mumbai.

Day 4: Preparation of other Competitive Exams

1. Darshak Sureja - Admitted into International Management Institute, New Delhi.

2. Ashutosh Lopes- Project Engineering Management at NICMAR, Pune.

3. Nishant Sawant- Masters of Urban Transport System (Transport Planning) , CEPT, Gujarat

Day 5: Preparation for GATE Exam

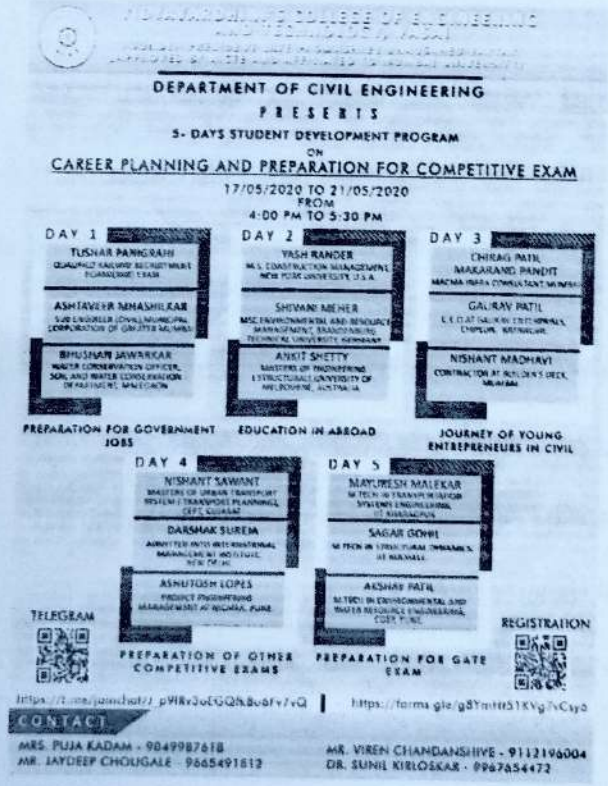
1. Akshay Patil- M.Tech in Environmental and Water Resource Engineering, COEP, Pune.

2. Sagar Gohil- M.Tech in Structural Dynamics, IIT Roorkee.

3. Mayuresh Malekar- M.Tech in Transportation Systems Engineering, IIT Kharagpur

Description of the Webinar:

5-day Student Development Program (SDP) on Career Planning and Preparation for Competitive Exams from 17th May 2020 to 22nd May 2020 by the alumni of Civil Engineering Department of our college. The webinar was conducted online on Zoom and it was streamed on YouTube.



Setting an aim and achieving it, requires a lot of arduous work and proper direction to move in. A career plan lists short- and long-term career goals and the actions you can take to achieve them. Career plans can help you make decisions about what classes to take, and identify the extracurricular activities, research, and internships that will make you a strong job candidate. It is true that competitive exams are not that easy to ace it, but it is also not something impossible. With proper guidance and hard work, you can easily crack any competitive exam. And For the same as a guidance to young graduates, we had conducted this program wherein our Civil Engineering Department Young Alumni who were focused about their career and have achieved great positions at young age had shared their experiences with the audience. How to choose an effective career path, what to study, how to study, where to get the study materials, which website to be checked for the updates, all such guidance was provided by the alumni.

Conclusion:

Career is one's own interest converted into profession. The perseverance and patience to deal with real life problems and be able to successfully address & resolve them will definitely pave the way for an effective career path. The experience of our alumni was a guidance for the future prospect for the young graduate students.

Feedback:

Did the program meet your expectations?

Yes
No
May be

Did the program give you the insight of career options in Civil Engineering?

Yes

519_Webinar€On€Advance €techniques€in€Concrete€technology

Report on Expert lecture on "Advance techniques in Concrete Technology"

Objective of the lecture-To understand the latest trends in Concrete Technology.

Date of Lecture-05th June 2020.

No. of Participant- 17

Name of the Speaker- Er. Sajeev Raje, Vice President-technical, Navdeep Construction.

Introduction:

The expert talk on advanced techniques in concrete technology by Mr. Sajeev Raje was an insightful and informative event that shed light on the latest innovations and developments in the field of concrete technology. Mr. Raje, a renowned expert in the construction industry, provided a comprehensive overview of the cutting-edge methods and materials used to enhance the strength, durability, sustainability, and aesthetics of concrete.

Key Highlights of the Expert Talk:

1. High-Performance Concrete (HPC): Mr. Raje emphasized the significance of high-performance concrete (HPC) in modern construction. He discussed how precise mix design and the use of advanced materials, such as superplasticizers and mineral additives, contribute to HPC's exceptional strength and durability. HPC's application in high-rise buildings and critical infrastructure projects was highlighted as a game-changer in the industry.

2. Self-Healing Concrete: Self-healing concrete was a topic of great interest. Mr. Raje explained the concept of incorporating bacteria or encapsulated healing agents within the concrete mix. He emphasized how self-healing properties can significantly extend the lifespan of structures and reduce maintenance costs, particularly in aggressive environments.

3. Ultra-High-Performance Concrete (UHPC): Mr. Raje discussed the unique properties of ultra-high-performance concrete (UHPC), which offers exceptional strength and durability. He explained the importance of a low water-cement ratio and the incorporation of steel

fibers in UHPC. The potential applications of UHPC in precast elements and innovative architectural designs were highlighted.

4. Green Concrete: Sustainability in concrete technology was a key focus. Mr. Raje discussed various techniques for producing green concrete, such as using supplementary cementitious materials, recycled aggregates, and low-carbon cement. He stressed the importance of reducing the carbon footprint of concrete production and promoting environmentally friendly practices.

5. 3D-Printed Concrete: The application of 3D printing technology in concrete construction was a fascinating topic. Mr. Raje explained how computer-controlled robotic arms and specially formulated concrete mixes can bring complex and customized designs to life. This innovative technique has the potential to reduce material wastage and labor costs.

6. Nanoengineered Concrete: Mr. Raje introduced the concept of nanoengineered concrete, which incorporates nanomaterials to modify concrete properties. He discussed how nanoparticles and nanofibers can enhance concrete's strength, durability, self-cleaning capabilities, and resistance to corrosion. This technology has a wide range of potential applications.

7. Smart Concrete: The integration of technology with concrete was another area of interest. Mr. Raje described smart concrete, which uses sensors and monitoring systems to detect structural changes and issues in real-time. He emphasized the benefits of improving safety and reducing maintenance costs through real-time monitoring.

Conclusion:

Mr. Sajeev Raje's expert talk on advanced techniques in concrete technology provided a comprehensive and up-to-date overview of the field. The audience gained valuable insights into the latest innovations that are shaping the construction industry. The event served as a reminder of the ongoing importance of research and development in concrete technology, contributing to more resilient, sustainable, and aesthetically pleasing structures while addressing the challenges of the future.

Respected Sir

On behalf of Vidyavardhini's College of Engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during the webinar on "Advanced Techniques in Concrete Technology" held between 5th June 2020 to 6th June 2020.

We appreciate the time you took out of your busy schedule to share your insights and expertise with students.

Thank you again and we hope that you will oblige us for other occasions.

Report of Webinar on Worldwide Climate Change Post Covid-19

Objective of Webinar: To understand the relation between Climate change and Covid 19 pandemic and to know what lessons and opportunities the pandemic will offer leading to environmental action.

Date of Webinar: 6th June 2020, Saturday at 10:30 AM

No. of Participants: 100

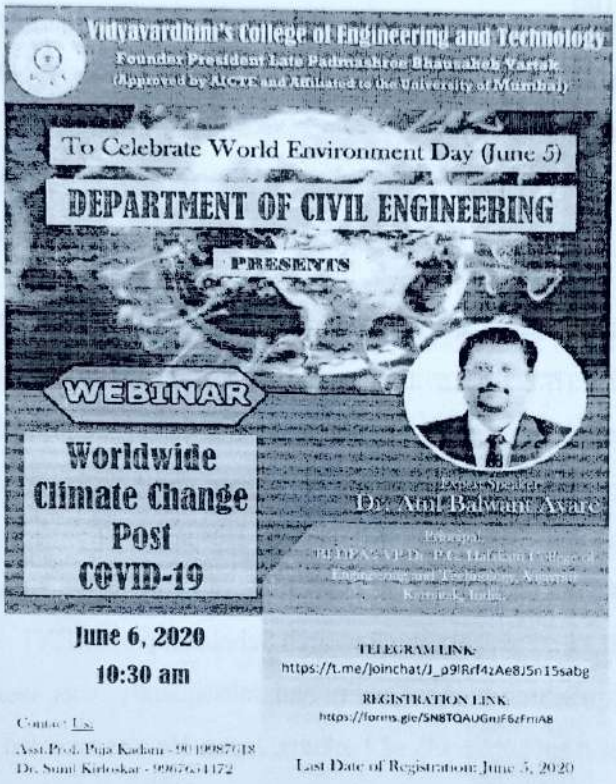
Name of the Speaker: Dr. Atul Balwant Ayare (Principal BLDEA's VP Dr. P. G. Halakatti College of Engineering and Technology Vijayapur, Karnataka, INDIA)

About the Speaker:

Dr. Atul Balwant Ayare is working as Principal at BLDEA's VP Dr. P. G. Halakatti College of Engineering and Technology at Vijayapur, Karnataka. He possesses Professional degree in Bachelor of Engineering (B.E.) in Environmental Engineering in 1993 and Master of Engineering (M .E.) in Environmental Engineering in 2000 under the faculty of Civil Engineering at Shivaji University, Kolhapur, Maharashtra in India. To support these technical qualifications, he has obtained his Professional degree of Master in Business Administration (M.B.A.) with specialization in Marketing and Finance in 1996 at Shivaji University, Kolhapur, Maharashtra in India. He was awarded Monbukagakusho Research Scholarship by MEXT, Japanese Government in 2005 to pursue his research in Air Quality and subsequently, was awarded Pre-Doctoral in Environmental Science from University of Tsukuba, Japan. He was awarded Doctor of Philosophy (PhD) in Chemical Engineering with specialization in Environmental Engineering from National Institute of Technology (NIT), Surathkal in Karnataka in 2014. He is Chartered Engineer (CEng) in the field of Environmental Engineering and International Member of American Water Works Association (AWWA), USA. While working abroad, Dr. Atul Ayare had assisted various Quality Assurance committees in universities and was member of Accreditation and Assessment team. Subsequently, He became Program Evaluator of Engineering Accreditation Council of Accreditation Board of Engineering and Technology (ABET), USA since 2011. He is accredited by International Accreditation Organization (IAO), USA for his outstanding academic performance for effective Teaching-Learning Process and Services to the students in 2013.

Description of the Webinar:

Webinar on Worldwide Climate Change Post Covid-19 was conducted on 6th June 2020 at 10: 30 AM on account of the World Environment Day which is celebrated every year throughout the world on 5th June. The webinar was conducted online on Zoom and it was streamed on YouTube.



The speaker explained that how the COVID-19 pandemic has been a siren call for stronger action in the face of global threats. What has been described as the collision of this pandemic with a series of recent extreme weather events has amplified this call, providing a frightening glimpse into the scope of the grim challenges lying in store as the effects of climate change become more prevalent and pronounced Extreme weather events and accompanying natural disasters, such as floods, droughts, heat waves and wildfires, are becoming commonplace as the effects of climate change tighten their grip on the planet. The advent of terms such as "mega fires" and "super storms" together with seemingly endless news coverage of "record-breaking" weather events are the public face of a predicted consequence of climate change: climate change increases the frequency and intensity of severe weather events. In late May 2020, as COVID-19 was spreading rapidly around the globe, one of the most powerful storms in decades plowed into the east coast of India. In

anticipation, some 3 million people were evacuated into crowded cyclone shelters. Many refused to evacuate out of fear of contracting the virus, an unknown number of whom were killed as the cyclone ripped through their ramshackle coastal villages. The extent to which the virus was able to spread due to the evacuations has yet to be assessed

Conclusion:

Basically, climate change helps foster the conditions for the emergence of new pandemics and for increasing their lethality. Climate change is a pandemic enabler, a pandemic accelerant and a multi-pathway crisis engine. COVID-19 is screaming to us that our health and our planet's health are inextricably intertwined. The same conditions that contribute to climate change, contribute to pandemics. Investing in the mitigation of these conditions yields a double reward. Failure to invest yields an exponential increase in risk.

589	2018-19	Awareness of trends in technology : Expert Lecture on Fire Safety in Buildings	21-09-2018	60
590	2018-19	Awareness of trends in technology : Expert Lecture on Estimation of Repairs	25-09-2018	58

18-19 (6)

551_One week Refresher course in ANSYS, CFD, and MATLAB with Industrial case studies

Date: 27-02-2019 to 04-03-2019

Topic: 30 HOURS HANDS ON TRAINING ON ANSYS

Venue: 3rd floor Seminar Hall, V.C.E.T. Vasal(W).

Resource Persons: Mr. K.Vijay

On the first day we started our training with an introduction of an ANSYS software and its major applications. The first step was to know the three terms of the software which was pre-processor, processor and postprocessor. Basic SOM terms was also explained by the training faculty. The actual session was started with a basic load example.

We calculated shear force and bending moment and analysed with diagram. Then we also analysed on APDL.

The students were taught to model the ramp on APDL. We had to check loading capacity of the ramp. We needed to analyse the effects of forces on it. From this example we got to learn how to model in APDL in all three planes. Initially we designed the ramp with support of L cross section on lower side. But the result obtained was not safe. The ramp showed bending at the load point. We changed the support cross section from L to I beam

Initially we did the basic beams analysis in work bench. Then another task was to create the model of pipe T joint on the work bench and also learned to set boundary conditions for the same.

After setting boundary conditions were set the next task was to do the fluid flow analysis. The thing that we observed was tithe stagnation region at the bent area of the pipe which we had to study during the analysis.

As an Industrial example the ship model was built in APDL. Various videos were shown on resonance, explaining the need of CFD.

Also, sir showed us the method to import file from another 3D software into workbench. We learned various Boolean operations to edit the workbench.

During the workshop the Problem solving, and Analysis ability of the students were enhanced. The students introduced to different types of design problems and method to investigate the problems. Modern Tools like ANSYS, CFD and MATLAB were used for the analysis. The workshop encouraged the students to analyse Individually as well as a team, works on different types of Real world and Industrial projects during practice sessions.

Subject: - Invitation for Guest Speaker for ISHRAE-VCET Students Chapter.

Dear Sir,

The ISHRAE-VCET Students Chapter of Department of Mechanical Engineering has arranged a seminar talk for ISHRAE member students on the following topic.

"HVAC Industries - Future Scope and Market Strategies"

The detail contents about the seminar is awareness and current HVAC industrial scenario, Future scope, Industrial challenges and Job opportunities, Market strategies for HVAC industries, Heat load calculations (any case study), Selection and sizing of entire HVAC equipment and system etc.

It gives us enormous pleasure and honor to invite you to deliver speech and share your experience and knowledge on above topic on date 15th Feb'2019 at 3:00 - 4:00pm in seminar hall, (Gr. Flr).

We request you to kindly accept our invitation.

Thanking you in anticipation.

Dr. U. V. Asolekar
HOD
(Mechanical Engineering Dept.)

Date: 16th Feb 2019

To,
The Principal,
VCET,
Vasai (West)

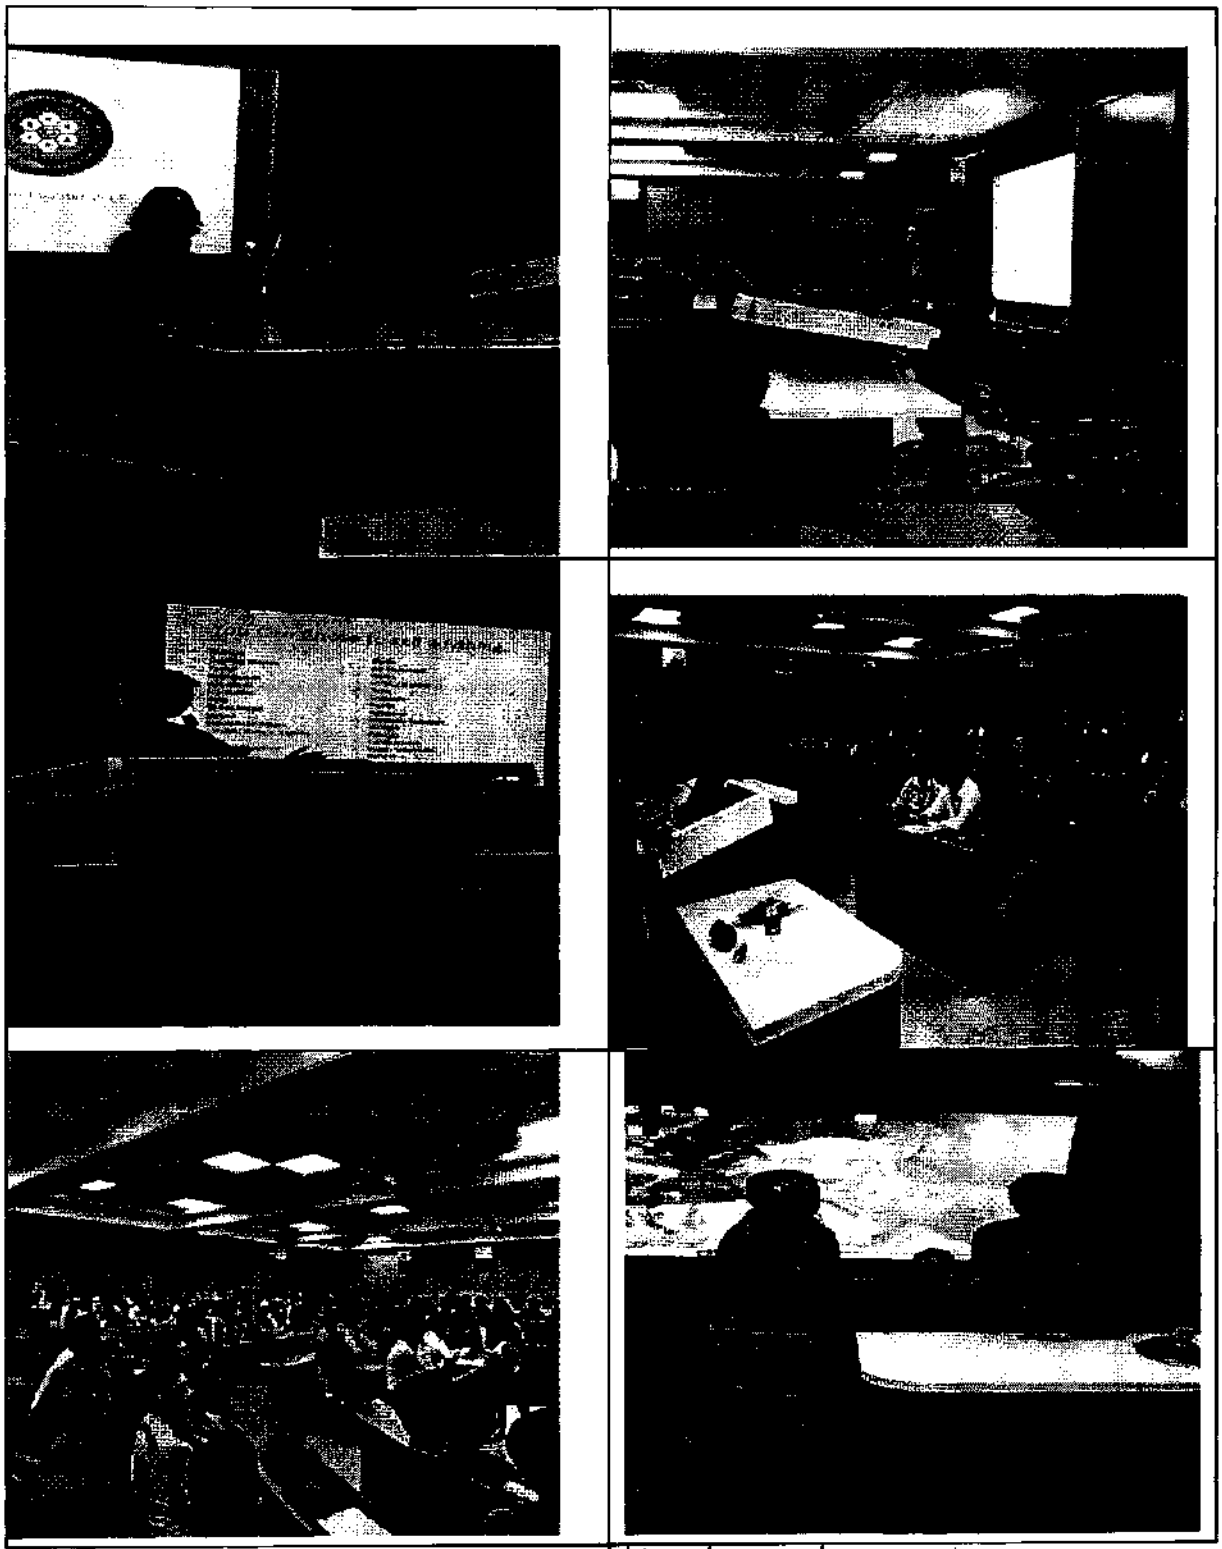
Sub: Report on seminar talk "HVAC Industries- Future Scope and Market Strategies".

The ISHRAE-VCET Students Chapter of Department of Mechanical Engineering arranged a seminar talk for ISHRAE member of students on the **topic HVAC Industries-Future Scope and Market Strategies**" on dated **15thFeb'2019 at 3:00 to 4:00pm in seminar hall (3rd Flr.)**. Total 98 students werepresent for the seminar and faculties from Mechanical Engineering Department.

The guest speaker for the seminar is **Mr.Siddhesh Vartak, Deputy Manager, MEP Contract-HVAC, Godrej & Boyce Mfg.Co.Ltd. Pirojshanagar, Vikhroli, Mumbai-400 079, India** accepts our invitation and presents the seminar on "HVAC Industries-Future Scope and Market Strategies". The detail contents about the seminar is awareness and current HVAC industrial scenario, future scope, Industrial challenges and Job opportunities. Market strategies for HVAC industries, heat load calculations related case studies, selection and sizing of entire HVAC equipment and system. Mr. Vartak start with fundamentals of HVAC and in depth explain each component of Vapour Refrigerator System. The basic engineering knowledge and function explain very well. The design of Vapour Refrigerator System with components like compressor, condenser, coils, evaporator selection he explained very nicely. The expert more focusses on what is the role of HVAC systems in food preservation industries, medicines, dairy products storage etc. and what are the challenges face by the industries, it's advantages and disadvantages etc. The expert also emphasis on refrigerants used and hence the global warming effects are observed in today's environment, so that type of message spread as lifelong learning for the students. The thermal domain of Mechanical Engineering as a part of program specific outcomes and analysis of design of thermal systems can cover during the session. The seminar starts at 3:05pm in seminar hall (3rd Floor) with welcome flowers. Student readout the achievement of speaker and its CV. The speaker starts the presentation with PPT. Need of HVAC, it's importance today in industries and accessories, manufacturing to details about components explain by speaker.

The students were enjoying the seminar. They asked a multiple question during question answer session. As a token of love the mementos present by Head of Department of Mechanical Engineering Department. At the end student fill up the feedback forms. The Vote of Thanks read by Mr. Pratik, Vice -President of ISHRAE-VCET Students Chapter, Vasai.

The approval copy for the seminar and acceptance letter for the seminar is attached herewith.



Seminar speaker Mr. Siddhesh Vartak explaining future scope and marketing strategies in HVAC-Industry.

Vinay Patel,

553_ 2-days Solariser Workshop on Solar use and application

To,

The Principal

VCET, Vasai

Subject: Report on Solarizer Workshop by Kwatt Solutions

Team VCET Solecthon, the official solar electric vehicle team of Vidyavardhini`s College of Engineering & Technology in association with Kwatt Solutions Pvt. Ltd. organised 2 days Solarizer Workshop on 26th and 27th January 2019. This hands-on workshop aimed to develop the engineering knowledge related to the usage and dissemination of renewable energy into their lifestyle, problem analysis by providing them challenging environment to design and test solar panel for efficiency. Students were made familiar to use modern tool like PV-Syst software for simulation of real-life application of Solar site. With the initialisation of faculty advisor Mr Swapnil Mane, Mr Mehul, Head of training and product development at Kwatt Solutions Private Limited along with his colleague Mr Rohan explained the concept of Solar Energy to a total of 65 students from Mechanical, EXTC, Computer and IT engineering branch of VCET as well as external college students attended the event. The workshop was designed in a way that it aimed to concentrate more on hands on sessions and practical rather than theory. The activities on Day 1 and Day 2 are given below.

Day 1:

Students were given introduction about Solar Energy scenario in India, Basics of Solar Photovoltaic Technology & Job Opportunities in the field of renewable energy domain. In the second session od Day 1 the students were given hands-on training on PV simulation software (PV-Syst) in the CAD-CAM lab of Mechanical Engineering Department. The students were highly motivated and learned the in-depth knowledge of solar PV software.

Day 2:

After the brief revision of Day 1, students were provided with kits for making solar related projects. After a quick theory session on basics of soldering and PCB, the students were allowed to design their own Solar Mobile charger which was later tested practically in sunlight. The organisers made sure that each student got output. Post lunch session was focussed on making a light tracing robot, which the students found challenging and raised the excitement in the event. The practical session ended at 4.30pm with a vote of thanks and feedback was recorded.

554_Industrial Visit to Spring Manufacturing Industry

To,

The Principal,

VCET,

Vasai

Sub: Industrial Visit Report at **M/s. Accurate Helical Springs Pvt. Ltd., Vasai**

The industrial visit has been organized to M/s. Accurate Helical Springs Pvt. Ltd., Vasai East on 7th Sep.2018. The third-year Mechanical engineering students of Div. A participated in the industrial visit. The students were reported to the venue at 12.00 noon with their own transport. The faculty members involved in this visit are Prof. Vinay D. Patel and Dr. Ashish Chaudhari. The visit was very much fruitful, and students were impressed by looking at the culture and environment in the industry. The notable points are as during the visit.:

- The product spring seems to be a simple mechanical component. But when students listen to the seminar given by industry staff, they feel the real challenges in manufacturing of spring for different types, their end connections, their sizes, their lengths, production capacity, accuracy required etc. They precisely explained the engineering knowledge to the students. The fundamentals and applications of springs in various fields are known to the students.
- Further students visited the museum of industry where the applications of spring in different products were demonstrated. The applications from MCB switchgear, normal switch, hair clutch, watch, suspension of vehicle and such many applications. After going through the museum students started thinking about how the springs get manufactured from 0.12 mm wire size to 10 mm wire size with both compression and tensile springs.
- Students' eagerness ends when they visit the production plant. The production plant consists of computer numerically controlled special purpose spring manufacturing machines. There are a total 18 such CNC machines where production of springs from 0.12 mm to 12 mm wire size springs could be manufactured.
- The production supervisor explained about the raw material used for the spring, the method of mounting the raw material on the machine, and the method of programming to produce a particular design spring. One product programming and setting took 6 to 8 hours for the expert on the machine. The production capacity may be 2 lacs pieces which could be continuously manufactured once programming and tool setting completed. The students identified and realized the problem and about the spring.
- The in-process quality check was conducted in the production plant for the accuracy in diameter, length of spring and as per the design according to the requirement order.
- Detailed quality tests such as compression test, tensile test, endurance test etc. were demonstrated by QC supervisor to the students. Students were discussed about the failure criteria, load criteria with the staff. The QC supervisor explained to the students about the conduct of investigation of complex problems and how it benefits society.

HEAD
Dept. of Mechanical Engg.
Vidyavardhini's College of
Engineering & Technology
Vasai Road 401 202.

- The design of spring is crucial because the manufacturing of spring will depend upon the design of it. The costumes like Mahindra and Mahindra, L and T were provided the design. However, they demonstrated one software where the design could be easily done as per the input data supplied.
- There is a unit of hardening of spring as well as grinding of spring ends which are also visited by students where they get knowledge about different material hardening methods. Also, method of grinding and type of fixture for grinding maximum no of springs.
- The students were visited to the tool room where the die for spring has been prepared using a lathe machine. The students get the lifelong practice to learn about the manufacturing of spring. The focus to visit such a type of plant is to give an exposure to the students about the manufacturing and design domain of the mechanical engineering area.

Overall, the students were very much satisfied with this visit where they came across knowledge of mechanical components, material science, manufacturing process, measurement and control, machine design, machine tools. Students found enquiring about vacancy for graduate trainee or internship etc. We thought this could be a sign of satisfaction among students.

555_Industrial Visit to Energy Intensive Industry

Date: 05/09/2018

To,
Mr. Utpal Shah
M/s. Accurate Springs Pvt. Ltd.
Vasai

Subject: Request for a visit to your plant

Dear Sir,

Vidyavardhini's College of Engineering and Technology (VCET), Vasai, Dist: Palghar is a two decade old Engineering Institute relentlessly striving to give the society the best of engineers. Since its inception in 1994, VCET has been a catalyst in spreading technical education and meeting the current and future needs of the industry. VCET is affiliated to the University of Mumbai.

Sir, Our T.E. (Mechanical Engineering), students have subject Mechanical Measurement and Control and Machine Design in which they have to study design of springs, material selection, methods of manufacturing and CNC based manufacturing methods.

Therefore, we request you to permit us to visit your esteemed organization tentatively on 07th September 2018 for 70 students and 3 faculty members.

Awaiting for your positive response

Energy Management

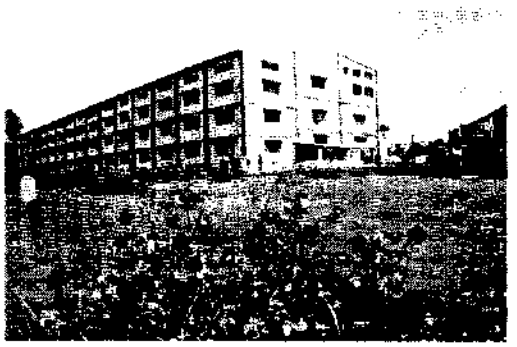
Industrial Visit

Date: 07/09/2018
Place: Silvassa, D & NH
Name of Company: 1. Manfoods Pvt. Ltd (Parle)
2. Nilkamal Limited
Total Students: 40 + 4 staff

1. Introduction

To understand the practical aspects of the subject of Energy Management, university of Mumbai has recommended an industrial visit to energy intensive industries. The industries were selected in such a way that the practicality of the subject will be thoroughly understood. Manfoods Pvt. Ltd gives the understanding of a process-based industry while Nilkamal gives a perfect example of wide range of products handled effective and with minimum footprints.

2. About the Company



2.1 Manfoods Pvt Limited

Situated at Kharadpada it's a company involved in manufacturing of buiscuits and confectionaries for Parle Industries. During the visit we witnessed the manufacturing procedure of Parle-G buiscuits from dough preparation to final product, packing and storing.

2.2 Nilkamal Plastics

Nilkamal, is a very well known brand in India and has become a household name due to its position as an undisputed leader in the moulded plastic furniture market.

Nilkamal

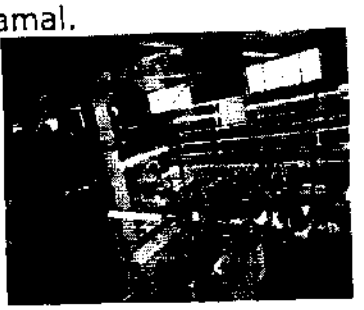
Founded by first generation entrepreneurs, the corporate leadership of NILKAMAL LIMITED is ever young and poised to lead the Company to greater heights year by year. Maintaining leadership in its market segments through core values and hard work is a basic tenet driving the Company.

Nilkamal has branched out to many different ventures and is now more than just a plastics company.

1, 2, 3, 4, 6, 12, 1, 2

3. Energy Intensive Components

Gas fired boiler, Chillers, CNC operated Injection moulding machine, Cooling Towers. Testing facility/Lab for furniture at Nilkamal.



4. Energy Conservation by Company

In order to conserve energy, Manfoods Pvt Ltd have set up monitoring devices which automatically sense the required temperature and accordingly operate the heaters. The heater is fired with LPG and the total process time is 4minutes.

In Nilkamal Plastics, the company has a dedicated plan for energy conservation. A separate department monitors the usage of all the machines and the efficiency of all the machines are checked and kept as optimum. The electricity usage is monitored on the basis of specific energy consumption and targets are set to lower the usage by following best practices in manufacturing.

5. Conclusion

This industrial visit gave us an insight into the operation of an industry and also the various operations in various department of the industry. We are thankful to the faculties of the college to arrange this visit.

The world is now becoming cautious about the adverse effect of energy wastage and improper utilisation of resources. The trend followed by most of the industries is "Energy saved = Energy Generated.

Students gained engineering knowledge related to Energy Audit and management. The design of boiler and heat recovery devices involved Students in problem Solving and design calculations. Energy Audit is directly applicable to society as it results in Energy conservation.

Students were made aware of the career opportunities in the field of Energy Audit & Management.

ITINERARY SPECIALLY DRAWN FOR THE STUDENTS OF

Vidyavardhini College of Engineering and Technology

One Day Industrial Trip to Silvassa

06:00 A.M.	Assemble at the College.
06:30 A.M.	Departure to Silvassa.
08:00 A.M.	En-route Breakfast at Kamat.
11:30 A.M.	**Industrial visit MANFOOD.PVT LTD.**
01:00 P.M.	Lunch @ Khanvel resort. (3* hotel).
02:30 P.M.	**Industrial visit NILKAMAL LTD./STONMEN MARBLE**
04:30 P.M.	Departure to Mumbai.
05:30 P.M.	Mc Donald's burger.
07:30 P.M.	Arrival at the College.
	– WE DISPERSE –

Industries to be Visited (Any Two): - Kryfs Transformers, Nilkamal plastic ltd, Alok Textile, Indian Motor parts, Man Food International (Parle International), Nipra Industries pvt.ltd. etc,

Trip Cost: Rs.1050/- per student.

Trip Cost Includes: -

- **Food**: - Breakfast, Lunch and Hi-Tea
- **1 Water bottle per student**.
- **Travel by**: - By bus 2x2 Non AC Deluxe Coaches during travel.
- **Tour Manager**: – Experienced and well Equipped with First Aid Box and National Roaming Cell Phone.
- **College Staff: -** One Teacher Complimentary for every 25 Students.
- **To Organize**: - **Industrial Visit.**

Subject: To Seek Permission for Industrial Visit.

Dear Sir,

As discussed in our earlier meeting, I would like to take your permission for the student Industrial visit at your Factory [redacted]

We have planned this visit for our Third Year Mechanical Engineering students to know practical applications of the subject Press Tool Design and to give them an insight about the way things work in real life.

We hope you will allow us in enhancing student practical knowledge, looking forward to meeting you soon.

Thanking you in anticipation,

Prof. Sanjay Lohar
Subject Teacher

Dr. U.V. Asolekar
(HOD Mechanical)

INDUSTRIAL VISIT REPORT

Visit to M/s. Vardhaman Industries on 6th August 2[redacted]rd Year[redacted]) Mechanical Engineering students respectively.

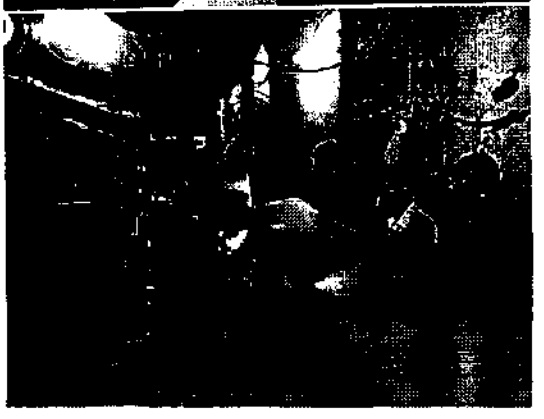
M/s. Vardhaman Industries is located at 8/17 Sheetal Ind Est 2, Waliv road, Vasai East. Mr. Harshad Shah is the owner of the company and manufacture stainless steel utensils and buckets and it is an export-oriented company with customer base all over spread to European and Gulf countries.

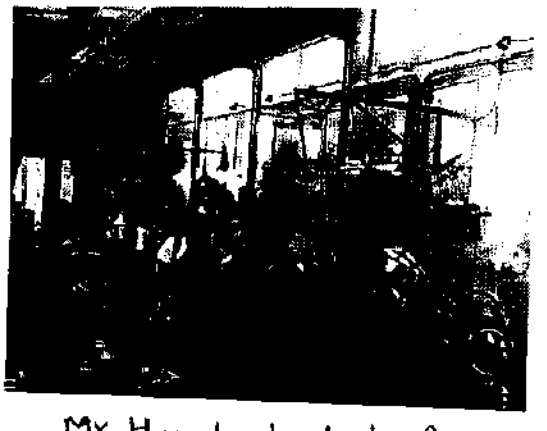
Mr. Harsad Shah gave us a complete insight of the operations performed in his factory which was very much related to the content of the syllabus in the current semester (Sem V), in the Mechanical Engineering. Basic knowledge of press and die, discussed, and showed some critical deep drawing tools with various defects and try-out problems. He also discussed the design aspect of deep draw tools and means of saving raw material. This was valued learnings to the students for their professional career in mechanical production engineering.

The below given operations were explained which includes,

- Deep drawing operation
- Re drawing operation
- Spinning operation
- Polishing operation
- Buffing operation
- Blanking operation
- Material handling systems
- Coiling and de coiling units

Prof. Sanjay lohar explained the various components and assembly details of hydraulic and mechanical presses and explained how the process is carried out to from raw material to finished component.





Mr. Harshad Shah, from M/s Vardhaman industries giving information about various products manufactured in the company, like stainless steel utensils, Buckets etc.

Report On,

"Geometric Dimensioning and Tolerancing - 2019"

Three days training workshop was organized by Department of Mechanical Engineering VCET, Vasai on the topic of **Geometric Dimensioning and Tolerancing**

Date And Venue:

The **GD&T Training Workshop** took place from 23rd Jan 2019 , 13th Feb 2019 at Vidyavardhini's College of Engineering and Technology [VCET], Vasai.

Agenda:

The workshop was organized under the "**Student Development Program**" by Department of Mechanical Engineering with the aim for the "**Better understanding of Dimensioning and Tolerancing in Engineering Drawings**". Knowledge that will increase drawing reading abilities and improve the technical skill set which in turn help in solving industrial real life drawing problems and advancement of the carrier. Purpose is also to know the importance of how GD&T helps in Design and development at the production shop. Workshop was carried out by an experienced speaker Mr. Anand Bhise, Director of "Mechatol Engineering Solutions", a company based in Pune.

Attendance:

The workshop was specially designed and aimed for TE and BE Mechanical Engineering students, **In all 60** students from the college [VCET] registered and participated. The details for the above students are as follows.....

Workshop:

The workshop was conducted into 3 days series and was Instructed by **Mr. Anand Bhise,** Director of "Mechatol Engineering Solutions"

23rd Jan 2019

The Day started with the inauguration, speech, and a felicitation ceremony by Prof Sanjay Lohar and Dr. Uday Aswalekar (HOD Mechanical)

After the ceremony, following topics were discussed by Mr. Anand Bhise

- First an introduction was given to the students by Mr. Anand sir about what GD&T is and how that is going to help students in their jobs

Then short after a Tea Break the day continued,

- Understanding shortcomings of traditional dimensioning and tolerancing used before and how GD&T eliminates all the deficiencies.
- Introduction to all the terminologies of Geometric Tolerances consisting of different Profiles, Orientations, locations, and different Runouts.
- Solved some example problems based on the topic discussed on the day, and the day was concluded,

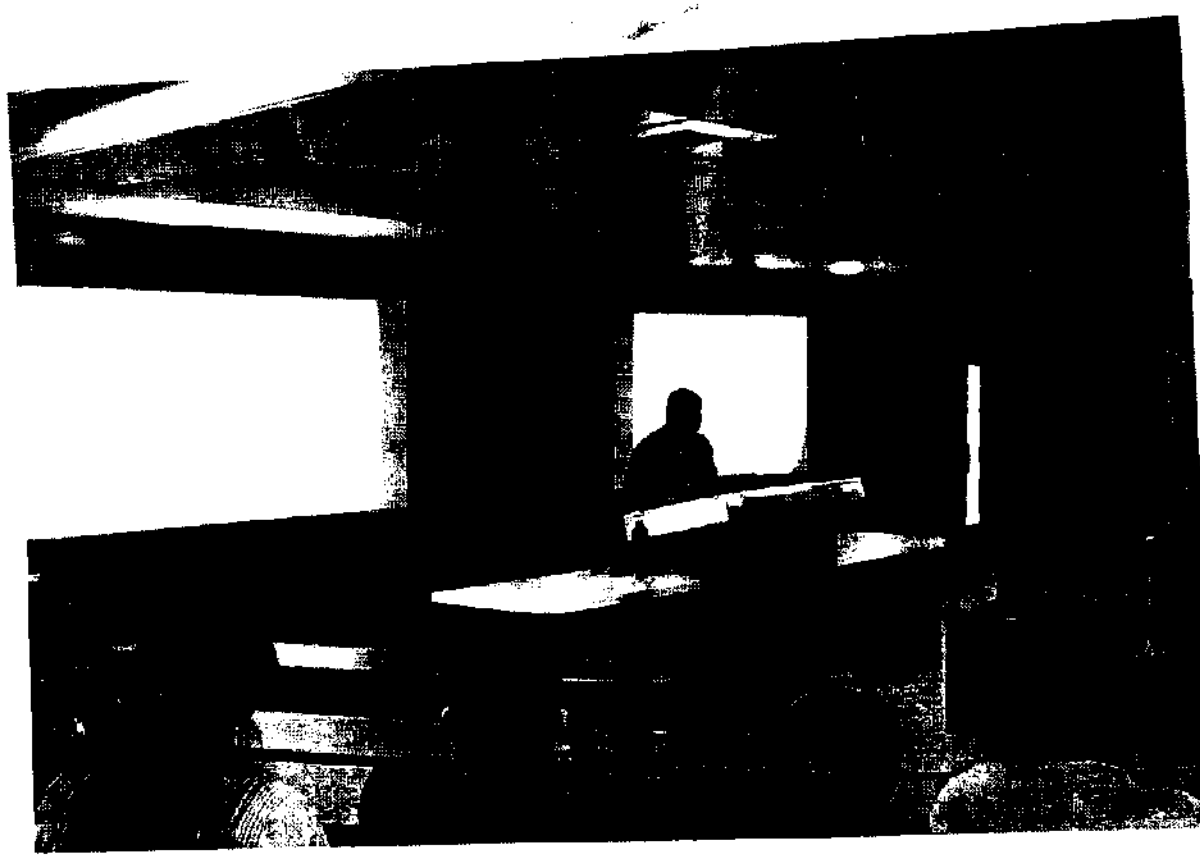
13th Feb 2019

This started with some overviews and a doubt session about the topic discussed on the previous session and then continued as follows,

- Detail explanation of Datums, Datum reference planes and the terminologies associated with the same.
- Started with GD&T rules and simple concepts to build up to system level.

After a short Tea Break the day then continued as below,

- Students got a chance to solve the industry level problems and find solutions to the same by overviewing the topics discussed on the same day.
- After that the day was concluded by Mr. Anand by answering all the doubts asked by the students.



Mr. Anand Bhise, Director of "Mechanical Engineering Solutions" addressing about "Geometric Dimensioning and Tolerancing."3

REPORT ON SEMINAR "BASICS OF COMMUNICATION"

The Department of EXTC in association with VCET IEEE-SB had organized a seminar on the auspicious occasion of **IEEE Day**, dated 15th October 2018. The seminar was organized for the students of St. Xavier's High School, Manickpur on the topic "Basics of Communication". The main motive was to make them aware about an international technical organization called IEEE and create interest about the grassroots of communication engineering and their evolution till this present day.

Students as well as the faculty members of EXTC department visited the school. The seminar started at 11A.M with an Introduction to basics of communication which was delivered by the members of the committee. They explained the students about the evolution of the communication networks and career in communication engineering. At the end the members made them aware of the IEEE society. The entire program was coordinated with the support of the Principal, faculty and students of Department of EXTC, VCET. All the students and faculty members of the school expressed their gratitude to the members of IEEE for creating awareness of IEEE day. The department of EXTC is looks forward to organize future seminars in order to create awareness of IEEE.

REPORT ON SEMINAR ON INTERNET OF THINGS

A Seminar was organised on 2[redacted]th January,2019 by IE[redacted]E VCET to enlighten the students of second year and third year of Electronics and Telecommunications engineering on the most enthralling topic nowadays in the technology domain, that is Internet of Things(IOT).This seminar was embraced by presence of Mr.Ganesh Mottee who has been in working with Texas Instruments, enlightened the students with his words of wisdom.

The seminar started of with the warm welcome of the guest of honour Mr.Mottee, Head of Department of Electronics and telecommunications department Dr. Vikas Gupta and other faculty members of the department. Further the seminar was marked by the captivating interaction of speaker with the inquisitive students and the sharing his knowledge with students on topics related to IOT, such as microcontrollers, sensors, Wi-Fi modules and GSM modules which form the basis of IOT. Mr.Mottee also cleared the doubts of the students on some general misconceptions about IOT. This face-to-face interaction with an experienced industry personnel helped students to understand the industrial factors and latest trends in the rapidly developing field of IOT.

A total of 107 students and 5 professors attended this seminar. The event was concluded by the vote of thanks expressed by IE[redacted]E VCET towards the guest of honour, and also token of appreciation was given by the Head of Department Dr. Vikas Gupta to the guest speaker of the seminar Mr.Mottee for his guidance through this interactive session on IOT.

REPORT ON MATLAB WORKSHOP

On date 28th January, 2019, IETE-SF committee of EXTC department organized one day workshop on "Introduction to MATLAB". Workshop was conducted by Prof. Trupti Shah, Assistant Professor at EXTC Department; VCET. The workshop started at 2:00 p.m. with an overview on Matlab programming. MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. MATLAB is a fourth-generation programming language and numerical analysis environment.

A detailed explanation about the following was given:

- Control statements
- Algorithm development
- Math and computation
- Data analysis and visualization

After the introduction, students were given hands on training on the software where they executed various commands and also solved few programs. The entire session was very interactive and the students have been demonstrated with various programs. The tutorial session created an interested in learning this software and they have been given an assignment that comprises of questions for continuous learning process. A total of 66 students attended this workshop. The workshop was ended with a feedback session by the students. In that, they have expressed their interest and willingness in attending the next workshop of this series.

REPORT ON ARDUINO WORKSHOP

On date 31st January, 2019, IEEE-SB committee of EXTC department organized one day workshop on "Arduino". Workshop was conducted by two experts Prof. Shaista Khan, Assistant Professor at EXTC Department; VCET and Prof. Trupti Shah, Assistant Professor at EXTC Department; VCET. Main focus of the workshop was to do hands on practical with Arduino Uno board. Arduino is an open source development board used by developers and hobbyist for creating projects and prototypes. Arduino has vast collection of supporting libraries developed by open source users across the world. Learning this platform might help students in rapid prototype development their project. Keeping these facts in mind content of workshop was designed and delivered. In the first session students got familiar with various development boards of Arduino and learnt the development environment for Arduino. A total of 64 students attended this workshop. A practical session was conducted on 11th February. Working with Arduino I/O pin was taught initially and students implemented small projects like blinking LED, interfacing Pushbutton switch. Further in the second session, the workshop was continued by Prof. Trupti Shah, where she explained the following points in detail:

-Arduino Programming
-Logic Design
-Troubleshooting
-Applications

Overall student learnt the basics of working with Arduino and gained basic knowledge of various Arduino development boards; Programming environment; onboard features of Arduino Uno: I/O, Analog, PWM; Arduino shields and IoT using Arduino. Feedback of students was collected and it suggested that they welcomed this initiative and they are motivated to explore more dimension in this platform also they are willing to use this board in their projects in future.

Oscillations2K19

The VCET IETE SF has organized a Technical Paper Presentation Competition under the head of Oscillations on 2nd April, 2019 at Vidyavardhini's college of Engineering and Technology. The event was inaugurated by chief guest of the day Mr. Suhas Sahasrabudhe & Mr. Santosh Chapaneri with Principal Dr. Harish Vankudre and Dean of academics & Head of Department Dr.Vikas Gupta. The inauguration ceremony began by & welcoming the dignitaries and the participants in the competition. The event further proceeded with the enlightening words of the dignitaries present at the inaugural ceremony and then the newsletter of ETA was published then by the guests of honour.

The technical paper presentation saw students participating from various institutes across Mumbai.The tracks for the event included:

- Wireless Communication
- Wireless Sensor Networks
- Signal Processing
- Image Processing
- Video Processing
- Speech Processing
- Multimedia Signal Processing
- Microwave Engineering
- Antenna Analysis & Design
- Radar Engineering
- Embedded Systems
- Control Systems
- Robotics & Automation
- all the fields related to electronics & Telecommunication Engineering.

The Chief Guest for the day was **Mr. Suhas sahasrabudhe & Mr. Santosh Chapaneri** who judged the event. Oscillations'19 were a full day event where an overwhelming response of nearly **48 students** came for the event.

The judges were highly impressed by the quality of papers and were awestruck by the different concepts that students presented before them.

The event ended with judges appreciating the student's efforts for the participation and the prize distribution ceremony. The winners for the event were

1.Sooraj Pillai, 2. Amey Prabhakaran. 3. ShivaSingh. 4. Jagruti Tiwari	1ST
1.Srushty Nijai 2. Pratik Negi	2nd
1.Divya Tatkare 2.Vikram Gothal 3. Kiran Palkar 4. Sidhi Thakur	3rd

REPORT ON F.E. QUIZ'19

'If you have knowledge, let others light their candles in it.'

IEEE VCET SB organized an exciting F.E. Quiz Competition for all the first year students on 5th and 6th of February 2019. It was a two day event in which nearly 30 teams participated. On the first day, elimination round took place where all the teams solved a series of MCQs and top 6 teams were selected for the final round. The final round was held in seminar hall on 6th February and was graced with the presence of principal and all the faculty members of EXTC and ASH department. The students from all the departments were the enthusiastic audience to witness this exciting event.

The finals were divided into five rounds: Need for Speed, Rewind 2018, Rapid Fire, Word game and Sections. Every round was a mixed bag with questions from history, sports, books, languages, vocabulary and science. After the second round two teams were eliminated and another one team got eliminated after third round. The remaining 3 teams played the final 2 rounds. All the students were at the edge of their seats to know the answers and the participants were very active. The questions put forth to the teams were intriguing, exciting and made the audience applaud excitedly when the teams answered correctly. Also there were some amazing goodies for the audience which kept them exuberated.

After the fifth round, group 6 bagged the first position; group 4 was placed at second position. The event concluded with prize distribution ceremony. The winners and the runner up were felicitated by the principal. In the end, principal shared his words of wisdom and encouraged all the students to take part in such activities. This quiz truly was a learning experience, for both the audience and the participants.

REPORT ON CAREER GUIDANCE

The students of IEEE VCET SB committee of EXTC department had organized a seminar on 4 February, 2019 from 3 to 5 pm on career guidance. The Chief Guest for the same was Divyaprakash Modi. He has 9 years of working experience of in IT industry and 6 years of experience in Functional consulting(Insurance).

He commenced it by making us acknowledged about importance of setting goals, if someone wants to conquer the pinnecle of success then one should constantly think about it and start working on it every day.Mr. Modi made up his mind to be the Best outgoing student and due to his perseverance hi finally made it. He then got placed in TCS and simultaneously was Preparing for higher studies (CAT). Unlike other MBA aspirants, he did not cleared the cutoff of the Desired college and made up his mind to settle for a college abroad which was not as renowned as his Desired one. He then figured out that his passion wasn't in technical field but in Insurance and Finance. He then conveyed a strong message by saying- 'Do what you like else like what you do'. He then made the Seminar interesting by making students voluntarily participate in the task like a group of people is being assigned a work and how one can complete it by facing all the obstacles.

Session where an overwhelming response of nearly 150 students from Extc Department and nearly 10 staff members came for the event as the viewers.

REPORT

A workshop on "Basics of Graphic Design"

- Resource Person:

  Mr. Bhavik Mistry (Student Committee Member)

- No. of participants: 37

- Date: 17th July 2018

- Event Description:

  Graphic design is a craft which is used to create visual content. It is useful in making posters, certificates, brochure or any other visual content. The VCET ISA Students' Section organised a one-day workshop on "Basics of Graphic Design". In this event, students were introduced to the basics of Graphic Design and software used for the same so their skillsets for generating graphic contents is improved.

Report on Seminar on Career Guidance

A seminar on Career guidance was given on 2nd August 2018 by our alumni Mr. Runeet Palekar and Mr. Abhishek Singh, both of whom were placed in Infosys in VCETs campus drive of 2017. They guided the students about the preparations and experience of the drive which helped students to prepare for the upcoming companies. They also informed them about the difference between core and IT companies which is crucial to understand in order to select an appropriate career path. The seminar covered various topics including Technical and HR Interviews, Aptitude tests, Group discussions etc. They shared their personal experience of the selection process which they underwent during their time. This seminar was very interactive and helpful for the students appearing for the placement drive this year.

567_Workshop on "Basics and usage of CRO & Function Generator in Labs"

VIDYAVARDHINI'S COLLEGE OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF INSTRUMENTATION

VCET ISA STUDENTS' CHAPTER

Date: 10-08-2018

Report on CRO Workshop

The "CRO" workshop is conducted to equip the Second year students with the knowledge of instruments such as DSO, Function Generator, CRO and bread boarding technique form a basis for circuit building and testing. Workshop on "CRO" was conducted on 10th August, 2018 from 3:00 pm to 5:00 pm by Mr. Akshay Tarade and Ms. Shrija Shetty. Mr. Akshay Tarade first briefed the students about breadboard working and its internal connections. He later explained the construction and working of the CRO. Adding to it, he also explained how DSO and Function Generator works. Then to enhance the knowledge of students about the same, there was also a practical session conducted. TE volunteers also assisted and guided the students in understanding the instruments clearly. Doubts raised by the students were also cleared to the best of our knowledge. Thus the SE students were enlightened and benefited largely with this workshop.

REPORT

A Seminar on "How to write a Literature Review"

- Resource Person: Mr. Vishal Pande, (Assistant Professor, VCET)
- No. of participants: 60
- Date: 13th September 2019
- Event Description:

A literature review is a survey of scholarly sources (such as books, journal articles, and theses) related to a specific topic or research question. Students are often required to write literature review as part of their final year dissertation, or research paper, in order to situate their work in relation to existing knowledge. With this in mind, VCET ISA Students' Section organised a seminar on "How to write a literature Review" by Prof. Vishal Pande, to enable students to write their own literature review for the final year projects.

569_Seminar on Smart Sensor Technology

Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

A Seminar on "Smart Sensor Technology"

- Resource Person: Mr. Prafulla Patil, (Assistant Professor, VCET)
- No. of participants: 59
- Date: 24th August 2018
- Event Description:

The development of new technologies has brought the whole world into the era of the Internet of Things. This new era has more advancements in the area of intelligent design than the information age, and smart sensors have played an indispensable role in its development. Sensing technology is a multidisciplinary, modern science and engineering technology focused on the obtaining of information from natural sources, processing and identifying that information, and using it for planning, designing, developing, manufacturing, and testing. The degree of application and evaluation of sensors is an important indicator of a country's informatization. Intelligent sensing technology is a comprehensive and intensive technology involving various disciplines such as micro-mechanical electronic technology, computer technology, signal processing technology, sensing technology, and artificial intelligence technology. It can realize functions that traditional sensors cannot. VCET ISA Students' Section organised a seminar on "Smart Sensor Technology" by Prof. Prafulla Patil, Students were made aware of the current trends in Smart Sensor Technology so they can use it in their project work.

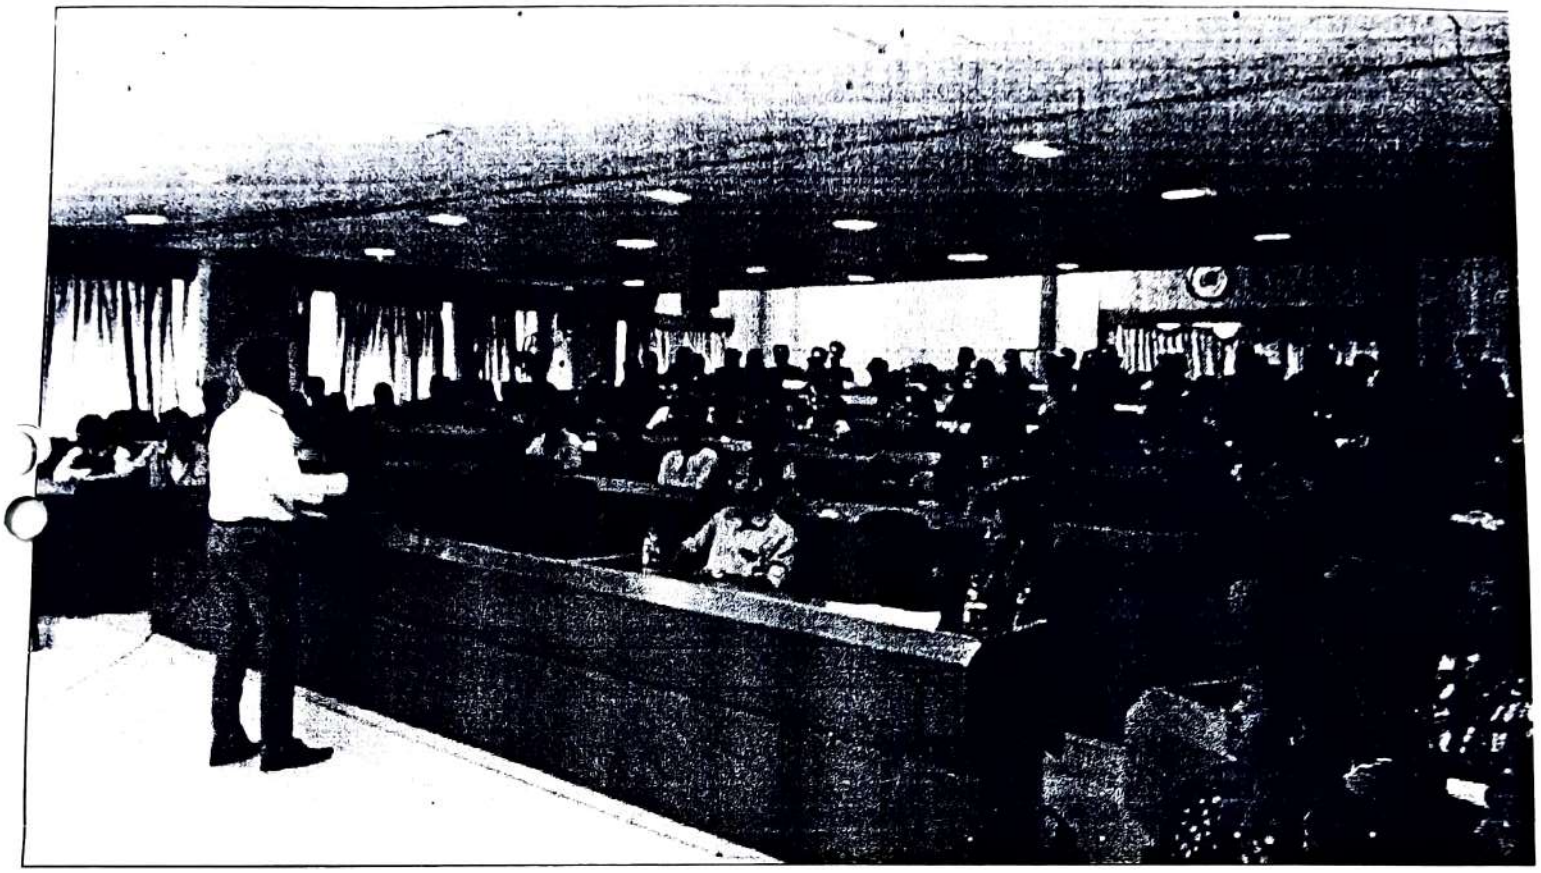
Date: 09/09/2018

Report on 'Scope of Instrumentation'

VCET ISA Students' Chapter, the core committee of Instrumentation Department, takes the initiative to organize "Scope of Instrumentation" for the FE and SE students. The seminar was conducted on 07th September, 2018 from 3:00 pm to 5:00 pm by Mr. Rushikesh Bhagat who is a Strategic Manager at Honeywell. The objective of organizing the seminar was to acquaint the students to the innumerable career opportunities available in instrumentation field. Mr. Bhagat first introduced the students to the role of Instrumentation Engineer in the industry. He also showed videos to explain how instrumentation engineering works in the industry. This seminar helped the students in understanding the depths involved in this field. Later an interactive session was conducted wherein the students cleared their queries regarding Instrumentation Engineering. Finally the seminar ended with vote of thanks.



Mr. RushikeshBhagat Interacting with students and explaining them about the field of Instrumentation in Seminar on 'Scope of Instrumentation'.

Scope Of Instrumentation

07/09/2018

REPORT

A Seminar on "Organizational Behavior"

- Resource Person: Mrs. Mugdha Salvi Assistant Professor, VCET)
- No. of participants: 53
- Date: 21st September 2019

Event Description:

Organizational behavior is the academic study of how people interact within groups and its principles are applied primarily in attempts to make businesses operate more effectively. The study of organizational behavior includes areas of research dedicated to improving job performance, increasing job satisfaction, promoting innovation, and encouraging leadership and is a foundation of corporate human resources. Organizational behavior is embedded in human resources such as employee retention, engagement, training, and culture. Working in large organizations as team members or leaders, engineers must also solve interpersonal challenges to get their work done. VCET ISA Students' Section organised a seminar on "Organizational Behavior" by Mugdha Salvi. Students became aware of the behavior and skills expected as an employee in an organizational setup such as communication, teamwork, work ethics etc. It prepares engineers for difficult organizational challenges they may face in the workplace.

VCET ISA STUDENTS' CHAPTER

Date: 30/09/2018

Report on YANTRA'18

September 28th, 2018, a day to remember not only for the VCET ISA Students' Chapter, but also for the entire Department of Instrumentation. The reason being Yantra'18-The Product Exhibition. The campus of VCET was flooded with plethora of sensors, gauges, transmitters, valves etc. This was coupled by sheer determination and curiosity of the participants on the stall, also not to forget the hard work of the students committee to make it all happen. The event started with inauguration ceremony at 9:00 am marking the presence of Mr. Arvind Mangarsi, Secretary ISA Maharashtra section, Mr. Umesh Dhamankar, Mr. Vaibhav Narkar and Mr. Dinesh Parab as guests of honor. The event was a huge success, as usual it marks a huge attendance of people from VCET campus and other colleges. We also had "Best exhibitors" Competition which had Jumo India Pvt. Ltd. Grabbing first prize and Ambetronics winning the second prize. The event concluded at about 5:00pm receiving tremendous feedback and response from audience.

VCET ISA STUDENTS' CHAPTER

Date: 08/08/2018

Report On Future Studies In Germany

VCET ISA STUDENTS' CHAPTER organized a seminar on "Future studies in Germany" on 5th October, 2018. The Seminar was conducted by one of our alumni 'Mr. Runeet Palekar'. He gave a brief idea about the admission process in germany including all the facilities. Basically, the seminar was to make students realize about the importance of entrance exam and other activities. He gave brief idea about the examination held for the same. He also talked about the top most universities of Germany. Thus the seminar was successfully conducted giving the students brief knowledge. The program ended with vote of thanks.

Report On Functional Safety

VCET ISA STUDENTS' CHAPTER conducted a seminar on Functional Safety (FS) on 12th October 2018. The speaker for the event was Mr. Ajinkya Patil, Assistant Manager, TUV. The seminar was held for the TE and BE students to help them understand career opportunities after their course completion. He talked about how an Instrumentation Engineer can work as a safety Engineer and also the role of an Instrumentation Engineer in Industry. The seminar was very informative and inspired a lot of them. Finally we expressed gratitude towards Mr. Ajinkya Patil by giving him a memento. The seminar ended with vote of thanks.

VCETs Alumini Mr. AjinkyaPatil taking a seminar on importance of Functional safety in industries.

575_Workshop on LaTeX

-Vidyavardhini's College of Engineering & Technology

Department of Instrumentation Engineering

VCET ISA Students' Section

REPORT

Seminar on LaTeX

- Resource Person:

  Dr. Megha Trivedi, (Associate Professor, VCET)

- No. of participants: 64
- Date: 1st February 2019

Event Description:

LaTeX is a tool for typesetting professional-looking documents. LaTeX's mode of operation is quite different to many other document-production applications such as Microsoft Word or LibreOffice Writer, those tools provide users with an interactive page into which they type and edit their text and apply various forms of styling. LaTeX works very differently: instead, your document is a plain text file interspersed with LaTeX *commands* used to express the desired (typeset) results. To produce a visible, typeset document, your LaTeX file is processed by a piece of software called a *TeX engine* which uses the commands embedded in your text file to guide and control the typesetting process, converting the LaTeX commands and document text into a professionally typeset PDF file. You only need to focus on the *content* of your document and the computer, via LaTeX commands and the TeX engine, will take care of the *visual appearance* (formatting). VCET ISA Students' Section organised a seminar on "**LaTeX**" by Dr. Megha Trivedi. In this seminar students were introduced to a software where they can write technical papers, project papers just by writing lines of code to have hassle free experience. Which at times would not be possible for any other Text Editing software. Students are equipped with the knowledge of generating technical documents.

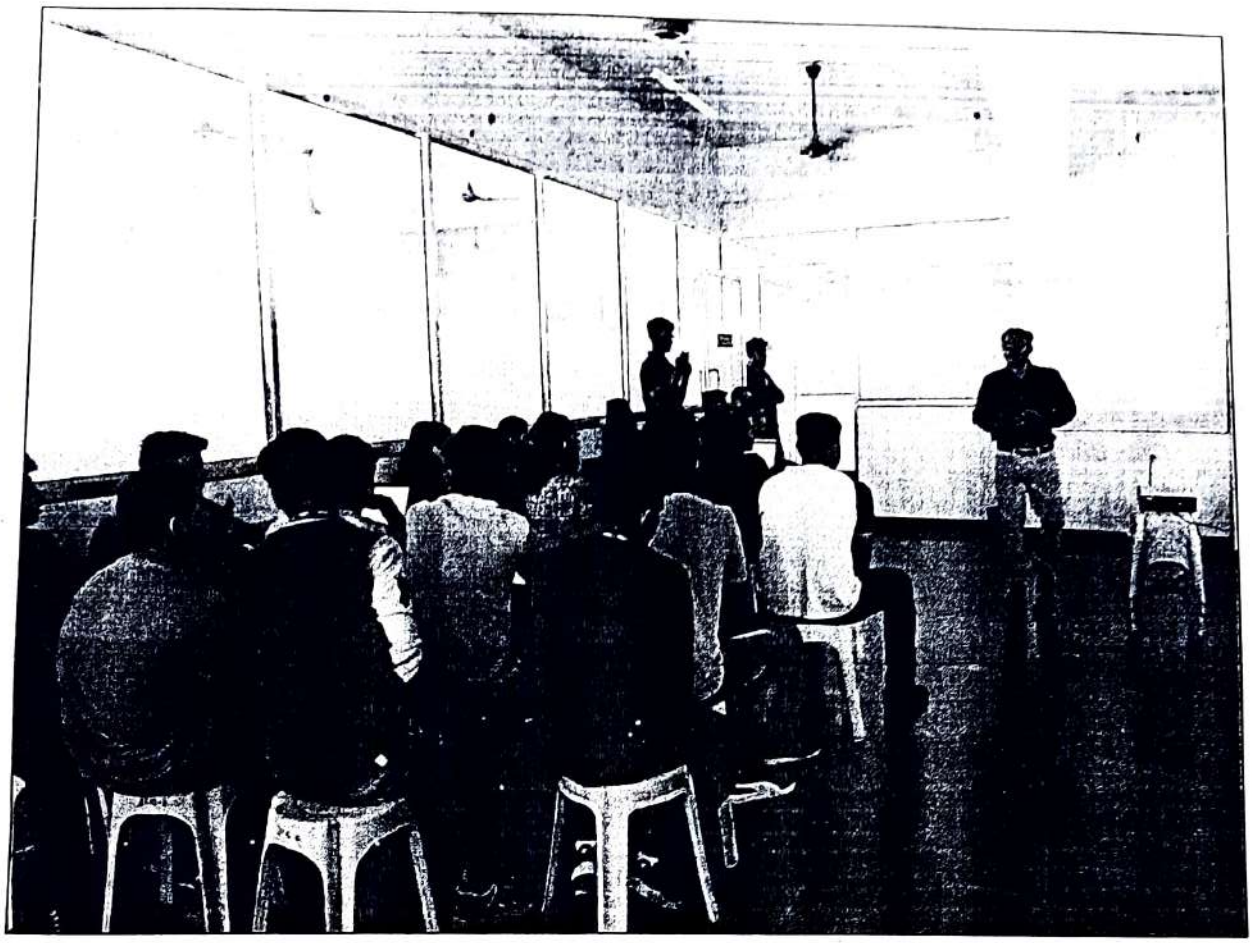
Report on ARDUINO WORKSHOP

A workshop on Arduino was conducted by Prof. Harshwardhan Kadvekar who is a faculty in Instrumentation Department, VCET. The workshop was conducted on 28th Feb, 2019 from 9:00 am to 5:00 pm. The main aim of the workshop was to give hands on training to the students on Arduino. It was conducted for the SE students, introducing them to the basics of Arduino, its software and its applications as well. The workshop was made effective by dividing students into small groups which assured that the students receive proper and through knowledge about the topic. Mr. Keval Shah assisted Prof. Harshwardhan and helped to solve the doubts raised by the students. The seminar was very informative and interactive. Finally we expressed our gratitude to Prof. Harshwardhan Kadvekar by giving him a momento and ended the workshop with a vote of thanks.



Prof. HarshvardhanKadvekar in lecture session of Arduino workshop, explaining theory of ArduinoMicrcontroller.

Mini Project Competition

By doing technical projects, students can demonstrate the knowledge that they have gained throughout their engineering years. And that's why the Mini Project Competition was arranged for the Third Year Instrumentation students on 5th April 2019 to prepare them for the forthcoming final year project activities. The competition was judged by Prof. Mughda Salvi and Profr. Vishal Pande, Assistant Professor, Vidhtavardhini's College of Engineering and Technology on the basis of originality of idea, presentation, execution, completion, report writing etc. The winning project was "Auctioneering Control, 2axis sun tracking system" designed and developed by Mr. Viraj Patil, Mr. Rohit Pal, Mr. Kuldeep yadav and Ms. Surbhi Shivankar. The second prize was won by Mr. Pratyush Shetty, Ms. Madhurima Powale, Mr. Karan Poojary whereas the other team of Mr. Dwij Reddy, Ms. Anuja Jadhav and Mr. Sahil jadhav were runner ups for their project titled "3 D printer". The winners were awarded with certificates and given cash prizes. Thus the competition was a good learning experience for the third year students as they begin their journey into research and development at this stage.

Report on VCET National Level Project Showcase 2019

VCET ISA Students' Chapter participated in VCET National Level Project Showcase 2019 and represented 'TRACK 03' for the Instrumentation Department. The event was conducted on 5th April 2019. The main aim behind organizing such an event is to applaud the efforts of the students who have seen their project go from being just an idea into a fully functional project. Engineering students often take up some interesting projects during their graduation which remain unrecognized and unutilized. Another aim of organizing the competition was to encourage students to be more innovative in their thinking and approach towards solving social and technical problems while designing their projects. The best projects were highly rewarded for their efforts. VCET provided a common platform where all the engineering projects being worked on by students across Nation are showcased. The project showcase was for final year students pursuing BE. Students from Instrumentation engineering participated and showcased their products based on automation & control. The judges for the event were Mr. A. P. Kamath, and Mr. Bhavik Shah. The first prize was won by Mr. Keval Shah, Mr. Surya Ketaraju , Mr. Aditya kumar and Ms. Srushti Thakur whose project was Inspection, search ans rescue bot. And the second prize was won by Ms. Sheetal Sanu, Ms. Apeksha Narkhede, Ms. Surabhi Kadam, and Ms. Shruti Bendugade whose Project was Automatic toll system using image processing. The winners for the innovative idea were Ms. Priyanka Fernandes and Ms. Jyoti Yadav whose idea was of Model of Bio-Impedance Analyser. The event had participants and visitors from various colleges and was a huge hit.

Workshop on Applications of Arduino

Report

A workshop on Applications of Arduino was organized by the Department of Computer Engineering and Instrumentation Engineering on 01/02/2019. 64 students participated in the programme. The contents of the same were as follows:

Content	Faculty
VCET Introduction	Dr. Megha Trivedi
Introduction to Embedded system an Arduino (Presentation)	Prof. Prafulla Patil
Explanation of hardware components (sensors, LCD, switches etc.) and wiring	Prof. Vidya Patil
What is Instrumentation? & Engineering Admissions	Prof. Vishal Pande
Demonstration of Distance Measurement, Flow Measurement and Soil Moisture content Measurement	Prof. Vidya Patil

580_Machine learning and real world example on machine learning

Dt : 01/04/2019

To,

The Principal,

Vidyavardhini's College of Engineering & Technology,

Vasai.

Sub :Permission for arranging seminar on "Machine Learning"

Respected Sir,

Department of Computer Engineering would like to organize seminar on "Machine Learning on 3rd of April 2019 for the students of Computer Engineering and Information Technology. The speaker of the session will be Mr. Gejo Sreenivasan, Director Career Launcher, Mumbai Division. In his seminar he will explain recent trends in the field of machine learning, data science and deep learning.

I humbly request you to grant the permission to do so as this will give an insight to the students in fields and help them choose the project in the appropriate field.

Thanking you,

Dr. Megha Trivedi

HOD, Comp

NOTICE

Department of Computer Engineering has arranged a session on "Machine Learning" for the students of Computer Engineering and Information Technology on 3rd April, 2019 at 2pm. The speaker of the session will be Mr. Gejo Sreenivasan. He did his Chemical Engineering at IIT Madras and then did his post-graduation in management from IIM Calcutta. Today, calls himself a teacher. Over the last 20 years he has mentored countless number of youngsters to achieve their career ambitions. He is a passionate teacher, an mentor and above alll a great motivator. Currently he is the Student Mentor at CL Educate Ltd. This talk would give you an insight of the prospects in the different areas of machine learning and will help you in choosing your projects in the field.

Subject: Invitation for Seminar on "Machine Learning

Dear Sir,

We, Department of Computer Engineering co-cordially invite you for Seminar on "Machine Learning for the students of Computer Engineering and Information Technology Department on 3rd April, 2019 at 2 pm. This seminar would give them an insight of the prospects in the machine learning, explore this field as well as scope of machine learning.

Thanking you.

Appreciation Letter

Dt : 03.04.2019

To,

Mr. Gego Sreenivasan

Director, Career Launcher

Mumbai Division

Dear Sir,

On behalf of Department of Computer Engineering, Vidyavardhini's College of Engineering & Technology, we would like to take this opportunity to express our heartfelt thanks for your session on "Machine Learning" for students of Computer Engineering and Information Technology on 3rd April 2019.

You have guided the students well and session was very inspiring and knowledgeable. Session has given them an insight of the prospects in field of Machine Learning and will help them in working on this field for their project work.

Thanking you,

Dr. Megha Trivedi
Head, Department of Computer Engineering

Report

A seminar on "Machine Learning" was organized for the students of Computer Engineering & Information Technology on 3rd April 2019 at 2pm. The speaker for the seminar was Mr. Gego Sreenivasan. Director Career Launcher. Mumbai Division.

This seminar gave the students the basics of Machine Learning, Data Science, Artificial Intelligence. This seminar was intended to give an insight of the prospects in the fields of Machine Learning and data science. He suggested students to join the Community "Kaggle" which is an online community of data scientist and machine learning.

The key points discussed during the talk were as follows:

1. Statistics how there is a growth of data
2. How this data is useful to industry
3. Need of Machine Learning
4. Need of Data Science & Deep Learning
5. Kaggle platform which is online community for Data Scientist and Machine Learners.

The talk was followed by a question answer session and One to One Interaction with Students.

The Session was attended by 127 students.

Ms. Sweety Rupani

581_Workshop on modern web application development

Vidyavardhini's College of Engineering & Technology
Department of Computer Engineering
Academic Year 2018-19

Report

Title:-Modern Web Application Development Venue : Computer Centre

Dates of Workshop:-16/02/2019 and 17/02/2019

Aiming to provide an intense training on web app development for students a two day hands-on workshop on "Modern Web application development" was held in Vidyavardhini's College of Engineering and Technology. The Speaker for the occasion were industry professionals from difference-engine.ai. There were 3 speakers namely, Shahbaz Khan, Danish Shah and Jawad Shaikh. The event started with Honorable Principal Dr. H. V. Vankudre felicitating speakers and stating the importance of the workshop and industry experience. The event started with introduction to WWW (world wide web), working of the internet, web framework and HTTP. Then there was a brief introduction on Python 3 for refreshing the concepts. Then they introduced Django web framework (https://www.djangoproject.com/) which is a high level framework for building highly scalable, secure and robust web applications. The students then leamt about Web UI and importance of UI, HTML5, CSS3, JavaScript and Bootstrap 3. The students then built web templates using the above mentioned technology with the help of speakers. The students then learnt about ORM (Object Relational Mapping), how it is useful in building apps involving databases, Django migrations, Django admin and Django security.

On 2nd day of the workshop everything learnt on the first day was integrated to work together as a single unit of application. This gave students a glimpse to how to start and develop a project step by step, such that they can easily avoid mistakes and follow industry standard patterns. The students were now introduced to a version control tool namely GitHub (https://github.com/) and GitBash (https://gitforwindows.org/) and how it can help in developing applications in team. The following command were covered in version control :

1. Init 2. Add 3. Commit 4. Push 5. Pull 6. Clone 7. Config 8. Status 9. Help 10. .gitignore

The students then deployed there web app on AWS student account with EC2 instance.

This helped students to learn about AWS EC2, AWS Route 52 and AWS S3 services and get a brief introduction about Cloud-computing.

The students were then introduced to AWS Educate (https://aws.amazon.com/education/awseducate/) which is a free learning platform from AWS.

The students were completely satisfied and overwhelmed with the content and the workshop was completed successfully.

The code for the project develop in workshop is available at https://github.com/DanishShah/Shop101 .

Seminar on "LYX: TOOL FOR REPORT AND TECHNICAL PAPERS"

Report

Seminar Objectives:

1. The primary objective of this seminar was to educate our students about Lyx - The document processor.
2. This seminar included illustration and demonstration of different sections of uses and advantages of the Lyx tool.
3. The seminar gave an insight, to the application of this tool for writing technical papers.

Name of Event	Day & Date	Timings	Venue	Speaker	Co-ordinator/ Organised by
Seminar on: Lyx tool for report and Technical paper	19th March 2019	4:00 PM to 6:00 PM	3rd Floor, Seminar Hall VCET, Vasai (E), 401202	Dr. Ashish Vanmali HOD Information technology.	Faculty: 1)Swati Verma 2)Sangita Chaudhari

Topics covered:-

1. Introduction to LyX tool.
2. Installation steps.
3. Simple document using Lyx.
4. Working with images.
5. Creating abstract.
6. Working with references and cross-references.
7. Lyx for Technical Papers.
8. Using Lyx for writing Thesis.

- The seminar turned out to be extremely informative as all the aspects and

prerequisites of Lyx tool were discussed in a very elaborate manner.

- Many new concepts were thoroughly explained.
- With years of experience in this domain, Dr. Ashish Vanmali was able to share his years of knowledge with the students which will definitely help them in their technical path.
- All the merits of using Lyx tool were discussed and demonstrated.

SDP on
Primer to Web programming

Date / Time	21st June 2019 – 30th June 2019
Venue/Platform	Room number 211
Duration	30 hrs.
Speaker	Mr. Chandan Kolvankar Mrs. Swati Varma Mrs. Dhanashri Raut
Coordinator	Mr. Chandan Kolvankar, IT VCET
Target audience	SE
Objectives of this seminar	1. Expose students to Web Programming. 2. Orient students towards basic web page development. 3. Expose students to concepts of responsive design.
No. of attendees	52
Participants	SE Students of 2020-21 batch (IT)
Registration Fee	200
Points discussed in the session	Learning Outcomes: Students will be able to: 1. Create basic web page using HTML/CSS 2. Identify web protocols for given problem. 3. Develop responsive website using Bootstrap

Student Development Programme on "Full Stack Development"

Speaker(s):

Mr. Hitesh Parikh

Mr. Nilesh More

Mr. Siddharth Chaudhari

Facilitator(s):

Dr. Madhavi Waghmare

This workshop was to discuss cryptography techniques and network security issues

Workshop Title	Full stack development
Description	A full stack web developer is a person who can develop both **client** and **server** software. In addition to mastering HTML and CSS, he/she also knows how to: • Program a **browser** (like using JavaScript, jQuery, Angular, or Vue) • Program a **server** (like using PHP, ASP, Python, or Node) • Program a **database** (like using SQL, SQLite, or MongoDB)
Objective of this workshop	Students will be able to understand 1 Client side scripting 2 Single page applications using Angularjs 3 Server side scripting using nodejs 4 Project development using full stack
Participants	Third year students of IT and computer department
Maximum enrolment	42
Learning outcomes	Students will be able to 1 write client side scripts using javascript 2 will be able to develop frontend using angularjs 3 will be able to develop applications using nodejs 4 will be able to use mongodb as database

Seminar on Home Automation using IoT

Speaker(s):

Mr. Fahd Khateeb, Design Engineer, NCC Telecom. Pvt. Ltd.

Coordinators:

Ms. Vaishali Shirsath, Assistant Professor (IT)

Mr. Yogesh Pingle, Assistant Professor (IT)

This seminar was arranged to discuss use of IoT in Home Automation.

Workshop Title	Home Automation using IoT
Description	The IoT based Home Automation will enable the user to use a Home Automation System based on Internet of Things (IoT). The modern homes are automated through the internet and the home appliances are controlled
Objective of this workshop	Students will be able to:- 1. To understand IOT Technology 2. To understand home automation problems 3. To understand IOT solutions for home automation
Participants	Students from second, third and final year IT
Maximum enrolment	60
Learning outcomes	Students will be able to: 1. Identify application of IOT for home automation 2. Identify various components for home IOT solution 3. Design solution for home automation
Facilitator profile	Assistant professor Department of Information Technology
Date/time	~~31/08/2018~~, 3pm-5pm 07/09/2018

Seminar on Internet of Things

Speaker(s):

Mr. Sachin Sadare, BDM, L & T Infotech

Mr. Dyaneshwar Kamble, Senior Manager, TCS

Coordinator:

Mr. Yogesh Pingle, Assistant Professor (IT) and

This seminar was arranged to discuss basics of IoT and IoT applications.

.

Title	Internet of Things
Description	The Internet of Things, or IoT, refers to the billions of physical devices around the world that are now connected to the internet, all collecting and sharing data. Any physical object can be transformed into an IoT device if it can be connected to the internet to be controlled or communicate information. This seminar has discussed about the considerations and applications of IoT.
Objective of this workshop	Students will be able to: - To understand basics of IoT To understand considerations and applications of IoT.
Participants	Students from Third year IT
Maximum enrolment	60
Date/time	31st August 2018, 3pm to 5pm
Learning outcomes	Students will be able to: 1. How to run Arduino IDE. 2. How to interface basics components like LED, sensors to Arduino UNO.
Venue	Ground Floor Seminar Hall

❖ Event Details (Hackathon)

Sr. No	Particular	Details
1.	Brief Description	VCET-Hackathon is an inter-collegiate national level coding competition which involves 30 hours of incessant coding followed by the pitching round.
2.	Objectives	To promote a strong Programming and Software Development culture among students that will help them develop their problem solving, critical thinking, and software development skills.
3.	No of Participants	113

VCET HACKATHON 2018

The magnificent event of **HACKATHON 2018** was successfully planned and executed by the acclaimed committees of the institution, CSI and ECELL.

OBJECTIVE:

"VCET HACKATHON" is a prestigious technical event which involves solid thirty hours of software development. The competition demands off the participants to come up with a particular problem statement and are expected to suggest an innovative and practical solution for the same or rather improvise an existing approach. Participants can choose to impact upon any sort of domains such as agriculture, education, logistics and so on. The time constraint implied in Hackathon encourages the participants to perform under pressure, executing their idea and producing smarter solutions in stipulated time. The vision of the institution behind the organization and execution of this particular event is to inculcate and promote a strong programming and software developing culture amongst the students that will prove to be of great worth in their future endeavors.

HACKATHON 2018 was conducted on 5th and 6th of October 2018. The event was commenced with an inauguration ceremony hosted on 5th of October 2018. The institution was obliged by the presence of the honorable chief guest Mr. Rajesh Naik (Domain solutions Head in Patni Computer Systems). The audience were enlightened by the words of wisdom owing to his incredible experience. Followed by the acknowledgment and appreciation of the students given by our honorable principal sir.

The event witnessed a huge participation from students all across the city eager to implement their innovative ideas and showcase their projects. In total there were about 50 abstract submitted. Out of which 34 got shortlisted and were all set for Hackathon. To sum it up all, there were 34 teams competing with each other, constituting of 114 participants in all.

PRACTICE:

The event consummated right after the inaugural ceremony. There were 2 jury rounds on which the progress of teams was tracked, also the teams interacted and got an opportunity to get their doubts cleared. The first jury round started at around 7 pm with the valuable presence of Mr.Swapnil Karni , Mr.Amey Raut ,Mr.Irfan Siddavatam. Next day that is on 6th of October, the second jury round with the presence of Mr. Arun Gupta, Mr.Rahul Thakkar ,Mr.Chirag Lakhani,Mr.Amey Choudhari,Mr.Prathmesh Sawant.

On 6th October 2018, after the completion of extensive thirty hours, the participants were awaiting for the pitching round. Where in the judges from various IT domains were present, obliging us enormously by their presence.

The institute had the privilege of hosting some acclaimed personas like Mr. Chinmay Gavankar[Google],Mr. Sangeet Patil [Clover Infotech], Mr.Bhushan Jadhav[Emphasis], Mr. Nilesh Jain[Vervali] and Mr.Sanket Raut[AWS]. After acquitting themselves with the insights of all the projects, the judges finally shortlisted six teams for the final pitching round. Where in all the shortlisted teams had to go through seven minutes of presentation and three minutes of question and answer session in the final pitching elaborating their project ideas.

WINNERS:

FINALLY WE HAD WINNERS FROM VIT WADALA NAMED 'REVAMP' [KAUSTUBH KORANGLEKAR, RATIK WAREKAR] SECURING THE 1ST PLACE WHERE IN THEY HAD MADE APPLICATION ON COGNITIVE LEARNING WHICH WILL BE A HELPING HAND IN EDUCATION.

THE 2ND PRIZE WAS BAGGED BY TEAM 'DROIDBOX' FROM VCET ITSELF, [AKASH RAJPUROHIT, SANCHITSAGAR SINGH, RAJ KOTADIA, ADITYA MANZE] ADDRESSING THE PARKING ISSUES IN OUR COUNTRY AND CREATING AND APPLICATION TO OVERCOME IT.

THE TEAM SECURING 3RD PRIZE WAS ELITE++ [AMEY TENDULKAR,ATHARVA TENDULKAR, MAYANK CHAUKAR,AAKASH KOLEKAR] WHERE IN THEY BUILD AN APPLICATION WHICH WILL HELP STUDENTS IN GETTING PLACEMENTS AND INTERNSHIPS.

TO SUM IT UP ALL, THE EVENT OF HACKATHON 2018 WAS A GRAND SUCCESS, PROVING TO BE ANOTHER FEATHER IN THE CAP FOR THE INSTITUTION.

Date:01-08-2018

To

The Principal,

V.C.E.T.

Subject: Permission to conduct VCET-hackathon'18 – a 30 hour coding competition.

Sir,

After the stupendous response of VCET-Hackathon'17, we, Dept. of Information Technology, have planned to organize VCET-hackathon'18 for undergraduate students on Oct 5, 2018 and Oct 6, 2018 under the aegis of CSI. Like last year, it will be an inter collegiate event of 30 hours and students from all over the nation can participate.

By organizing such events we are trying to promote a strong programming and software development culture that will help our students to develop problem solving, software development and critical thinking skills.

Last year, the institute had supported us with an amount of Rs.50,000 apart from CSI budget. This year too we would like to request the institute to support us with Rs. 50,000. An amount of Rs. 40,000 will be utilizied from the CSI budget of Dept. of I.T. We plan to bring as much sponsorship as possible for the event.

We intend to award cash prizes worth Rs. 40,000 to the winners. Participants will be provided with T-shirts, meal of 4 times, snacks and beverages along with resting facility. The event can be conducted in the computer center and in the labs of I.T. Dept. and for resting purpose ladies common room(for girls) and 301(for boys) can be used.

We request you to kindly grant us permission to conduct the event and sanction the budget.

We are hoping for an affirmative response.

Thanking you.

Regards;

Ms. Madhavi Waghmare

(H.O.D., I.T.)

To
Hon. Secretary.
* Sanctioned amount for year 17-18 R. 50,000/-
* Recommendation to Sanction R 50,000/- for year 18-19.

Approved budget for Hackathon -18 is ₹50,000/-

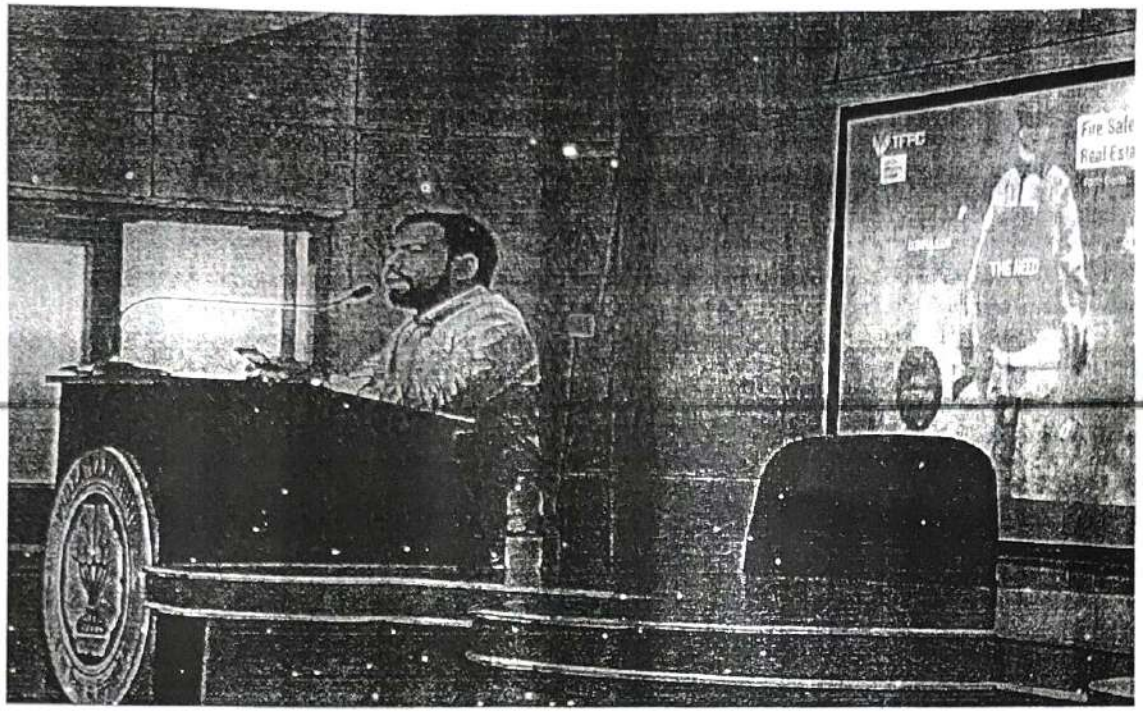
589_Expert Lecture on Fire Safety in Buildings

2018 -19

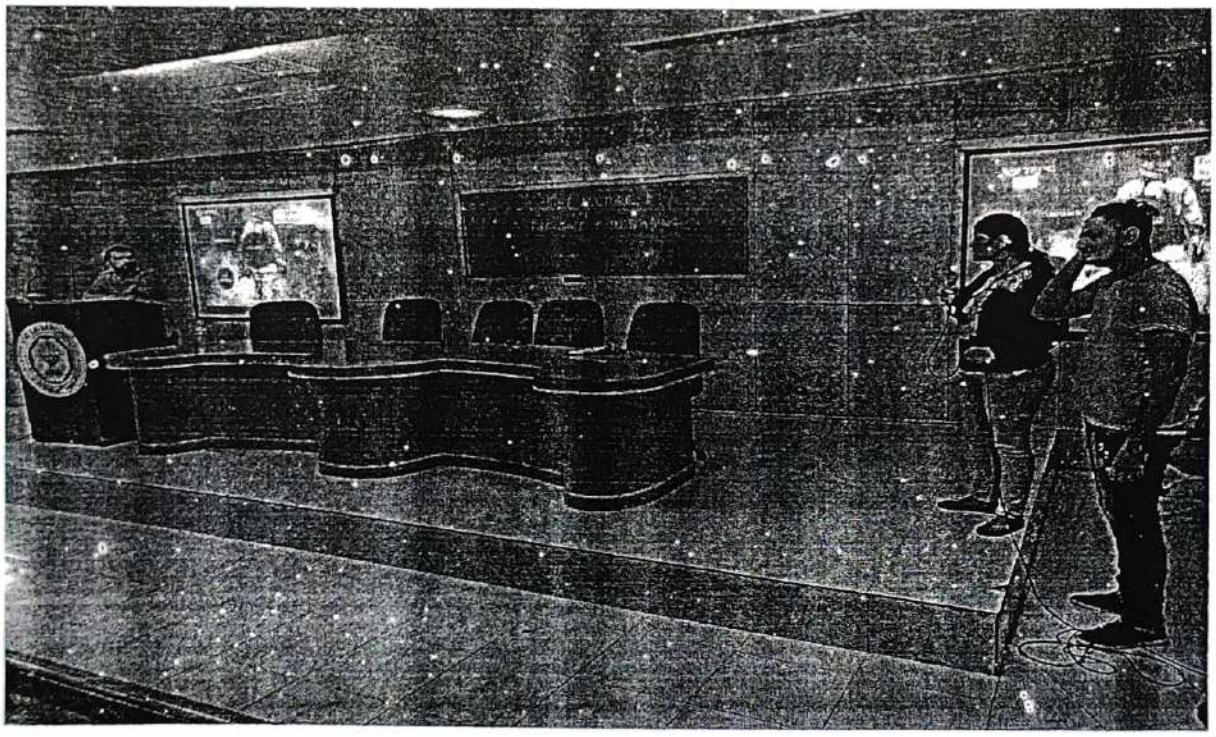
Expert Lecture on "Fire Safety in Real Estate".

Guest Speaker	Mr. Path Gupta Director, TFPC (The Fire Protection Company), Vasai.
Date	21st September 2018
Venue	Seminar Hall, VCET.
Time	2:00 pm to 04:00 pm
Description	Mr. Parth Gupta addressed third year civil engineering students on the topic: "Fire safety in Real Estate". Important/Key points emphasized by the speaker were 1) Need 2) Compulsion 3) Fire Systems. Complete Hierarchy of the Fire Authority in India was discussed. Guidelines prepared by NFPC & other International organizations were shared. Compulsion on fire safety and its regulation in the region was enlightened. Speaker also discussed about the new law regulated for hotels, restaurants, cinema halls etc. as they must compulsorily install the fire systems. Need of fire systems was enlightened by giving the survey of accidents caused due to fire and its increasing numbers. Causes of fire accidents and its prevention methods were discussed. After knowing about need various fire systems including hydrant valves, fire alarm systems, smoke detectors, gas leak detectors, heat sensors etc were discussed. Students queries about the capacity of the sprinkler's was answered by the speaker. Also, other query about the total cost of the installation system was cleared.
Subject In-charge	Asst. Professor Vikrant Kothari.

* Enclosed all the conversation and notices for the same.



Speaker having conversation with the students- Introduction was given about the Class and themselves. (As asked by the speaker)



Need, Compulsion and the Fire systems explained in depth by the speaker.

Respected Sir,

On behalf of Vidyavardhini's College of engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during your guest lecture on **"Fire Safety in Real Estate"** on 21st September 2018.

We appreciate the time you took out of your busy schedule for sharing your insights and expertise with students.

Thank you again and we hope that you will oblige us in other occasions.

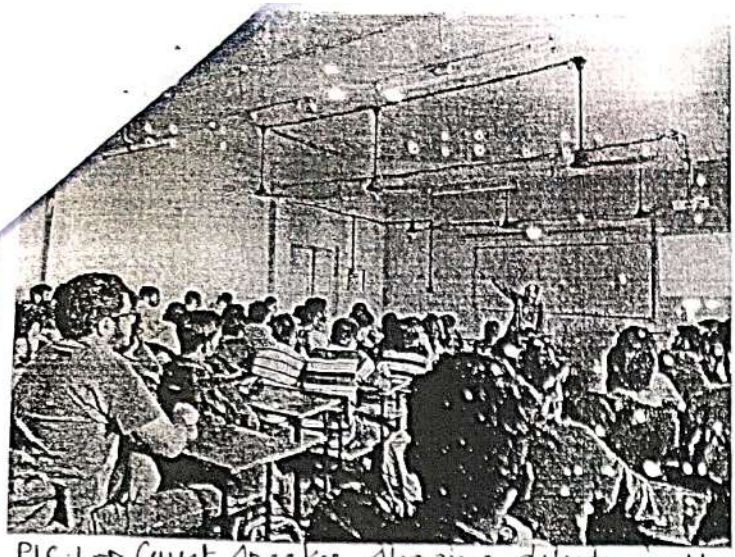
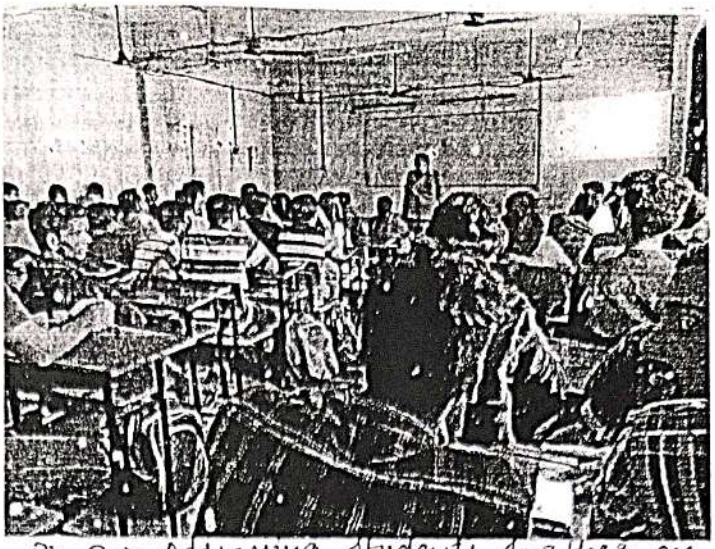
Expert Lecture on "Estimation of Repair Works":

Guest Speaker	**Prof.Santosh Gidh,** **Senior Lecturer, VBV Polytechnic** **Vasai west.**
Date	**25th September 2018**
Venue	**Room No 512, VCET.**
Time	**11:15 am to 01:15 pm**
Description	**Prof.Santosh Gidh,** addressed the students of Final Year Civil Engineering Department, on the topic of Estimation of Repairs of the concrete structures. As Estimation being important part of Condition Survey Report, throughout the session speaker focused on the causes of deteoriration of structure, its inspection techniques, various Repair methodologies & Repair estimation. He also shared his personal experiences of carrying out Repair works done by him and various problems encountered during that. **Also,** he tried to differentiate old structures & new structure repair works. At the end of the session he took a sample of classroom itself to explain how the estimation of repair carried out. All the students got exposure to the practical problems related to structures and checklist for estimating any Repair work. Positive feedback of the students was received to conduct more such seminar's.
Subject In-charge	**Asst.Professor Vikrant Kothari.**

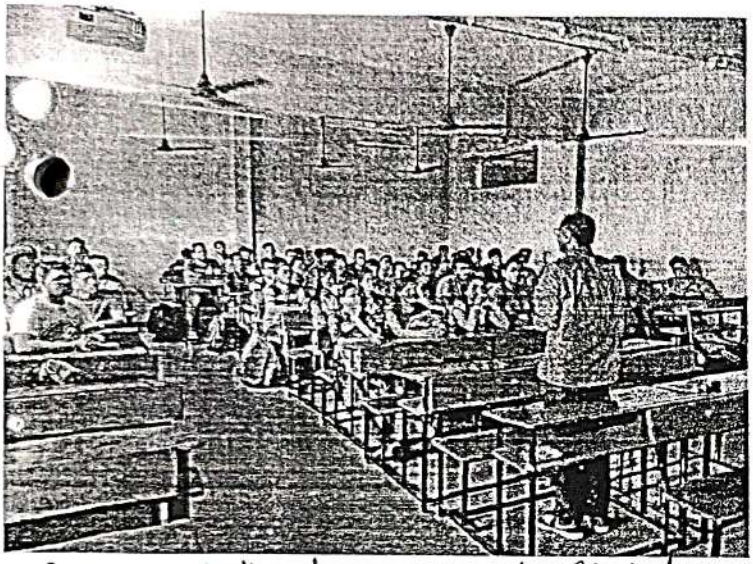
***Enclosed herewith all the conversation and notices for the same.**



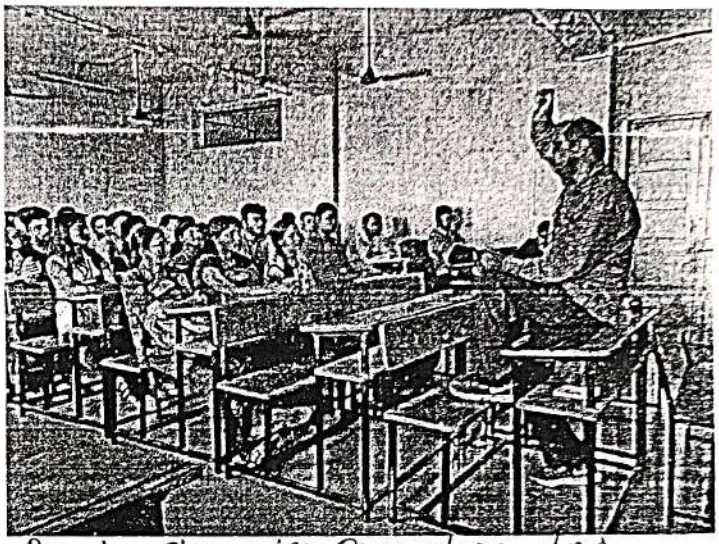
Pic-1 → Guest Speaker showing defects in the classroom.



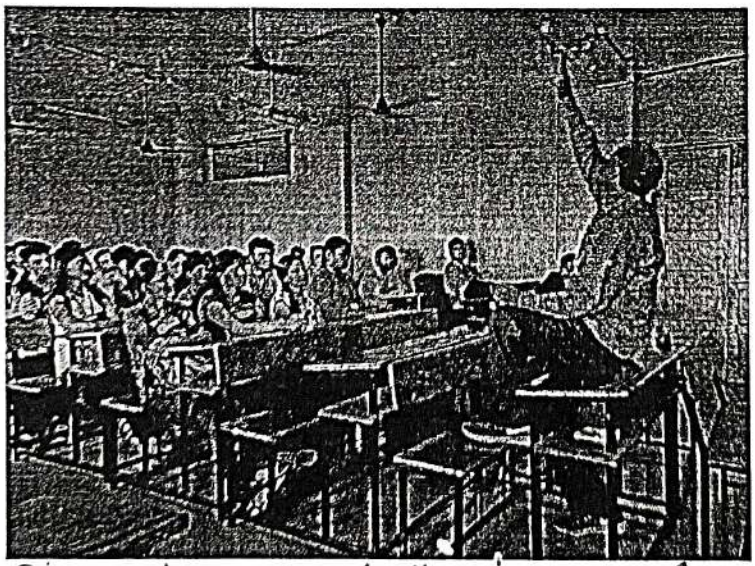
Pic-2 → Addressing students further on different defects.



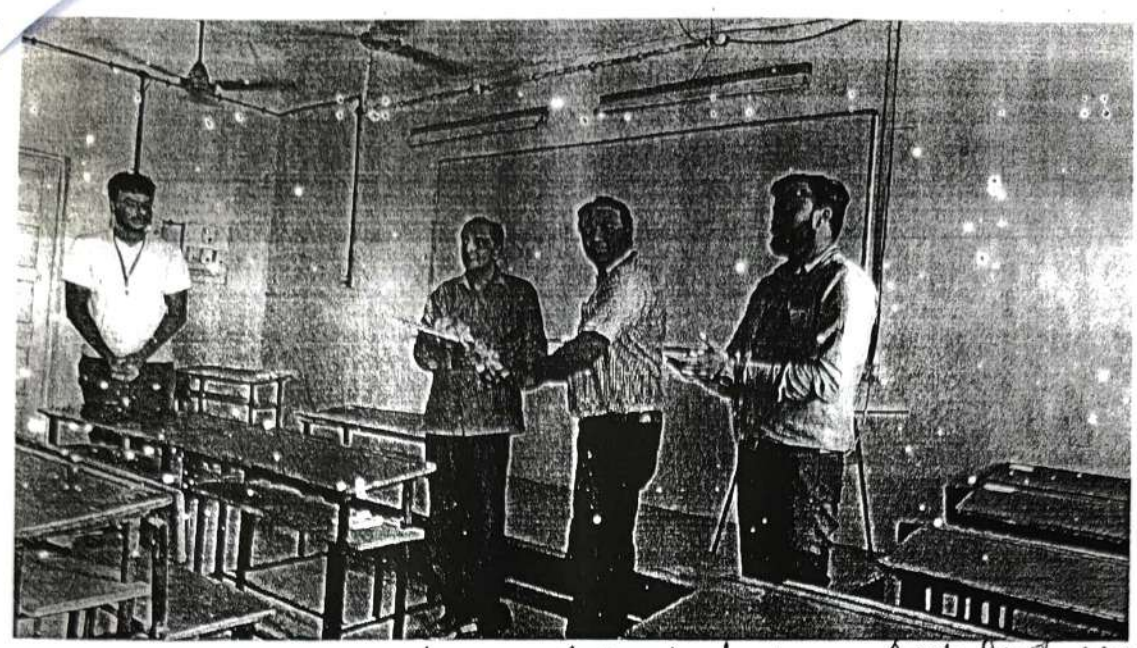
Pic-3 - Estimation of repair procedure being explained.



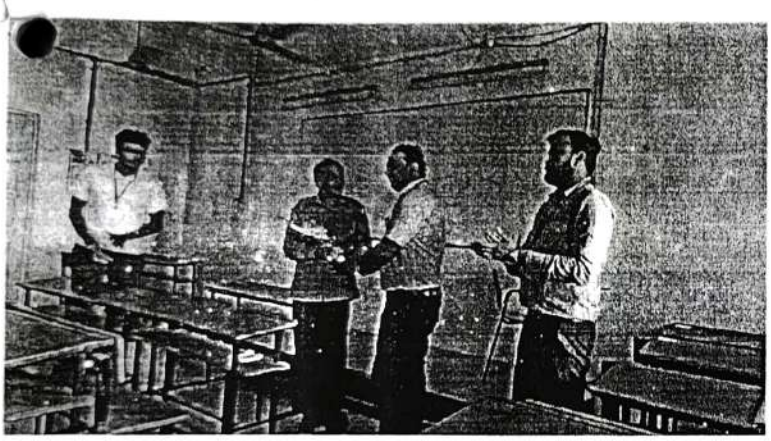
Pic-4 Stepwise procedure for estimation of Repair of classroom

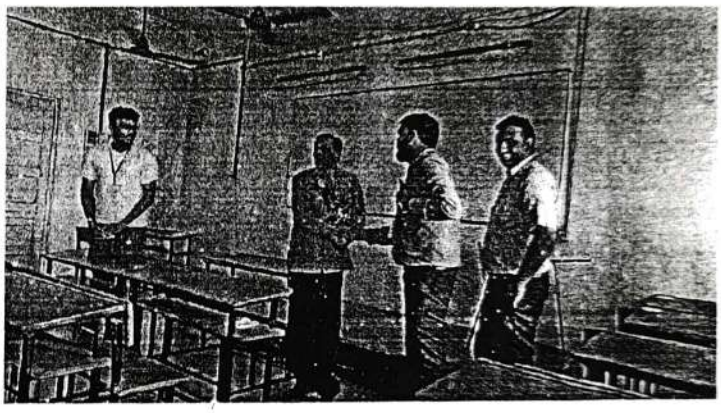


Pic 5- Took present classroom as case-study for Repair Estimation work as example.



Guest Speaker being felicitated by Asst. Prof. VIREN. C. from CIVIL DEPT.





Felicitation of the Guest Speaker –

Prof. Santosh Gidh

To,

Mr. Santosh Gidh

Senior Lecturer,

VBV Polytechnic,

Vasai (W)

Respected Sir,

On behalf of Vidyavardhini's College of engineering and Technology, we would like to extend our heartfelt appreciation for the invaluable contribution you made during your guest lecture on **"Estimation of Repair Works"** on 25th September 2018.

We appreciate the time you took out of your busy schedule for sharing your insights and expertise with students.

Thank you again and we hope that you will oblige us in other occasions.

Prof. Dipak Choudhari
H.O.D Civil Department
