Alumni Meet- 2023

On February 4th, 2023, the Alumni Association of Vidyavardhini's College of Engineering and Technology hosted the "ALUMNI MEET 2023" to connect former students. The occasion was especially significant as it marked the silver jubilee year of the 1998 batch. The presence of 465 alumni from all the departments was noted. The meeting began at 5:30 pm, with alumni receiving a warm welcome at the registration counter with a gift, following which they visited their respective departments to interact with their professors.

The function began at 7 p.m. with Saraswati Vandana and a welcome speech by alumni association coordinator, Mrs. Kanchan Sarmalkar. Dean Alumni, Dr. Archana Ekbote, appealed to all alumni to nurture and encourage their juniors so that academics and the real world outside can grow together hand in hand. Principal, Dr. Harish Vankudre, emphasized the importance of industry-institution interaction and its significance for the future. The Dean of Academics, Dr. Vikas Gupta, presented the current academic performance of the students, while the Training and Placement Officer, Mr. Prafulla Patil updated the alumni on the current placements.

The Silver Jubilee 1998 batch alumni were honored during the event, with some of them expressing their gratitude towards the professors who taught them and their appreciation for the tremendous infrastructural development they saw. The gathering also enjoyed some cultural shows before a dinner was arranged for the alumni, and the event ended smoothly.

Alumni Meet 2020-21

Virtual Alumni Meet-2021 was held on June 26, 2021, due to the pandemic situation (Covid 19). Alumni from each department shared their thoughts on what the current industry demands are, how colleges and students should come up with new challenges, and the soft and technical skills required to make the students industry ready. Department-wise breakout rooms were created for interactive sessions. In the breakout room, departmental alumni were present, along with the staff of each department. The HOD of each department initiated the communication with their speech and urged the alumni to give opportunities to their juniors for internships and placements. Other participants also shared their views. They show their interest in guiding

final-year projects and taking seminars and workshops for the current students, and some of the alumni are also ready to give opportunities to their juniors for internships and placements. Batch-wise interactive sessions were also arranged to facilitate alumni interaction.
