Udyam Samman- 2023

(Industry Meet)

Udyam Samman 2.0 (2022-2023) is an initiative of Vidyavardhini's college of Engineering, Vasai which was to bridge the gap between industry & academia **in association with the board of apprenticeship training western region**, by bringing professionals from different verticals on a single platform so they can share their valuable experience in terms of skills required for fresher to get into the industry.

Topic for Industry Meet Panel Discussion 2023 – Role of Academia in making student industry ready.

Date: 13/04/2023

Time: 10:30 am onwards

Venue: Ground floor Seminar Hall, VCET

Objective of Industry Meet 2023

- 1) To identify the gap between industry and academia.
- 2) To identify the shortcomings of academia, w.r.t placement and training activities.
- 3) To get acquainted with methods to be used for making students industry ready.
- 4) To strengthen the mutual relation between industry and academia.

Description:

Inauguration of Udyam Samman-2020 (Industry meet) was done in the presence of Guest of Honor and other dignitaries, followed by their speech. In speech when they addressed other industry delegates, he mentioned the significance of Internship/training to be provided to engineering students. Also, he wholeheartedly declared to continue this relation with Institute to help students gain practical knowledge and bridge the gap between Industry and academia. After the speech of the Chief Guest, panel discussion was started wherein industry delegates from different areas were invited on dais to share their views.

Whole session was divided into 2 Phases:

Phase I- Panel Discussion with all the industry delegates together.

Phase II – Discipline specific session for students by the Industry Delegates of respective branch

Phase I

Summary of Pannel Discussion:

The role of academia in making students industry ready is crucial in preparing graduates for successful careers in the professional world. As the landscape of industries and job markets evolve, it's becoming increasingly important for educational institutions to adapt their approaches to ensure that students possess the right skills, knowledge, and mindset to excel in their chosen fields. Here are some key aspects of academia's role in making students industry ready:

1. **Relevant Curriculum Design:** Academia should design curricula that align with current industry trends and requirements. This involves regularly updating course content to incorporate emerging technologies, methodologies, and best practices. Collaboration with industry experts and professionals can help ensure that the curriculum remains up-to-date and relevant.
2. **Practical Application:** Integrating practical, hands-on experiences is essential for preparing students for the real world. This can include projects, internships, co-op programs, and laboratory work that mimic real-world scenarios. Practical exposure helps students bridge the gap between theory and application, giving them a taste of what they will encounter in their future careers.
3. **Industry Partnerships:** Establishing strong connections with industries can provide students with valuable insights into the practical aspects of their fields. Collaborative efforts such as guest lectures, workshops, industry-sponsored projects, and mentorship programs enable students to interact with professionals, learn from their experiences, and gain a deeper understanding of industry expectations.
4. **Soft Skills Development:** In addition to technical skills, students need strong soft skills such as communication, teamwork, problem-solving, and critical thinking. Academia should incorporate opportunities for students to develop these skills through group projects, presentations, debates, and workshops.
5. **Career Services:** Providing robust career services is essential for helping students transition from academia to the workforce. This includes resume building, interview preparation, networking events, and job placement assistance. Career services help students understand the job market, identify their strengths, and present themselves effectively to potential employers.
6. **Advising and Mentorship:** Academic advisors and mentors play a critical role in guiding students toward making informed decisions about their academic and career paths. Regular interactions with advisors can help students identify their strengths and interests and align them with suitable career options.
7. **Flexible Learning Models:** Recognizing that different students have different learning styles and paces, academia can offer flexible learning models such as online courses, part-time programs, and experiential learning options. These approaches allow students to balance their education with other commitments and tailor their learning experiences to their individual needs.

8. **Ethical and Professional Values:** Preparing students to navigate ethical dilemmas and uphold professional values is important. Academia should emphasize the importance of integrity, responsibility, and ethical behaviour in all aspects of a student's academic and professional life.
9. **Continuous Learning Culture:** The world is rapidly changing, and industries evolve accordingly. Academia should instil a culture of continuous learning in students, encouraging them to stay updated with the latest developments in their fields even after graduation. This can involve promoting post-graduate education, online courses, and other avenues for ongoing skill enhancement.

In summary, academia plays a pivotal role in preparing students for the workforce by providing them with relevant knowledge, practical experiences, soft skills, and the right mindset. By actively collaborating with industries, adapting curricula, and focusing on holistic development, academia can help students transition smoothly from the classroom to successful careers in their chosen fields.

This is how the industry delegates shared their experience and guided us with their thoughts and views.

All the industry delegates were appreciated for their time and support for making this meeta successful one.

After the end of *Phase I*, some of the industry delegates addressed their respective branchstudents in *Phase II* i.e., after lunch.

Entrepreneurship Cell (E-cell) of Vidyavardhini's College of Engineering and Technology was established in 2015. The Cell is dedicated to encouraging entrepreneurship skills among the students.

Objectives of E-Cell:

- To inculcate an entrepreneurial mindset amongst the students.
- To validate their ideas and help them to find the business ecosystem and funding opportunities.

To fulfill its objective, the E-Cell organizes various entrepreneurial events such as the Bizmaster competition (Business idea Competition), E-summit (Business Talk), Internship fair, etc.

MOU with Navyuvak Entrepreneurs: E-Cell has signed with MOU with Navyuvak Entrepreneurs, Mumbai. The objective of this MOU is to impart quality education on entrepreneurship, building an entrepreneurial drive among students, provide them to connect to the market, and exposure to funding opportunities.

Title- ESUMMIT event 2019

REPORT:

The ECell committee of vidyavardhini's college of engineering and Technology organized ESUMMIT 2019 under the guidance of prof. Chandan Kolvankar. Various speakers and business personalities were invited to the event to mentor the youth, the ones who are aspiring to become entrepreneur.

The event was organized for exploring the startup ideas and the business nature to the students in the college and also to mentor the students regarding the trends in upcoming technology.

The backbone of the event was the team which organized the event. It takes months and months of planning and approaching the personages of the industry. The committee coordinated well and the team learned the ethics of the communications and work culture. A good amount of crowd attended the event.

To,

The Principal,
Vidyavardhinis College of Engineering & Technology,
Vidyavardhinis Campus, K.T. Marg,
Vasai Road (W), Thane-401202,
Maharashtra.

Subject: Accreditation status of programs applied by Vidyavardhinis College of Engineering & Technology, Vidyavardhinis Campus, K.T. Marg, Vasai Road (W), Thane-401202, Maharashtra.

Sir,

This has reference to your application I.D. No. 4849-13/07/2020 seeking accreditation by National Board of Accreditation to UG Engineering programs (Tier II) offered by **Vidyavardhinis College of Engineering & Technology, Vidyavardhinis Campus, K.T. Marg, Vasai Road (W), Thane-401202, Maharashtra.**

2. An Expert Team conducted online evaluation of the programs from **4th to 6th February, 2022**. The report submitted by the Expert Team were considered by the concerned Committees constituted for the purpose in NBA. The competent authority in NBA has approved the following accreditation status to the programs as given in the table below:

Sl. No.	Name of the Program(s) (UG)	Basis of Evaluation	Accreditation Status	Period of validity	Remarks
(1)	(2)	(4)	(5)	(6)	(7)
1.	Mechanical Engineering	Tier II June 2015 Document	Accredited (652 marks awarded by the visiting team reduced to 647 as per the observations made and indicated in the Annexure to this letter)	Academic Years 2022-2023 to 2024-2025 i.e. upto 30-06-2025	Accreditation status granted is valid for the period indicated in Col.5 or till the program has the approval of the competent authority, whichever is earlier
2.	Electronics and Telecommunication Engineering		Accredited		
3.	Computer Engineering		Accredited (681 marks awarded by the visiting team reduced to 676 as per the observations made and indicated in the Annexure to this letter)		
4.	Information Technology		Accredited		

3. It may be noted that only students who graduate during the validity period of accreditation, will be deemed to have graduated with an NBA accredited degree.

Contd./...

4. The programs have been granted accreditation for 3 years. **Vidyavardhinis College of Engineering & Technology, Vidyavardhinis Campus, K.T. Marg, Vasai Road (W), Thane-401202, Maharashtra** should submit the Compliance Report at least six months before the expiry of validity of accreditation mentioned above so as to be eligible for consideration by the concerned Committee in NBA for further processing of the accreditation status.
5. The accreditation status awarded to the programs as indicated in the above table does not imply that the accreditation has been granted to **Vidyavardhinis College of Engineering & Technology, Vidyavardhinis Campus, K.T. Marg, Vasai Road (W), Thane-401202, Maharashtra** as a whole. As such the Institution should nowhere along with its name including on its letter head etc. write that it is accredited by NBA because it is program accreditation and not Institution accreditation. If such an instance comes to NBA's notice, this will be viewed seriously. Complete name of the program(s) accredited, level of program(s) and the period of validity of accreditation, as well as the Academic Year from which the accreditation is effective should be mentioned unambiguously whenever and wherever it is required to indicate the status of accreditation by NBA.
6. The accreditation status of the above programs is subject to change on periodic review, if needed by the NBA. It is desired that the relevant information in respect of accredited programs as indicated in the table in paragraph 2, appears on the website and information bulletin of the Institute.
7. The accreditation status awarded to the programs as indicated in table in paragraph 2 above is subject to maintenance of the current standards during the period of accreditation. If there are any changes in the status (major changes of faculty strength, organizational structure etc.), the same are required to be communicated to the NBA, with an appropriate explanatory note.
8. A copy each of the Report of Chairman of the Visiting Team and Evaluators' Reports in respect of the above programs is enclosed.
9. If the Institute is not satisfied with the decision of NBA, it may appeal within thirty days of receipt of this communication giving reasons for the same and by paying the requisite fee.

Yours faithfully,

(Dr. Anil Kumar Nassa)
Member Secretary
