## **Program: BE Information Technology Engineering**

**Curriculum Scheme: Revised 2016** 

**Examination: Final Year Semester VII** 

| Course Code: ILO7016 | Course Name: Cyber Security and Laws |
|----------------------|--------------------------------------|
| Time: 2 hour         | Max. Marks: 80                       |
|                      |                                      |

Note to the students: - All the Questions are compulsory and carry equal marks.

| Q.1.      | MCQs 2 Marks each   |
|-----------|---|
| 1.        | is abuse of electronic messaging systems to send unsolicited bulk                       |
|           | messages indiscriminately.  |
| Option A: | SMS   |
| Option B: | email   |
| Option C: | Spam  |
| Option D: | Phishing  |
|           |   |
| 2.        | Written defamation is known as  |
| Option A: | Libel   |
| Option B: | Abuse   |
| Option C: | Slander   |
| Option D: | Troll   |
|           |   |
| 3.        | is the term used by law enforcement agencies to denote criminal                         |
|           | activity which uses computer/ technology, as the subject of the crime itself.           |
| Option A: | Cyber Law   |
| Option B: | Ethical hacker  |
| Option C: | Computer Security   |
| Option D: | Techno Crime  |
|           |   |
| 4.        | Meta refresh is a method of instructing a web browser to                                |
|           | automatically <b>refresh</b> the current web page or frame after a given time interval. |
|           | This can be used to perform attack.   |
| Option A: | Salami  |
| Option B: | Search engine spam  |
| Option C: | Meta data   |
| Option D: | Data Doodle   |
|           |   |
| 5.        | The technique used to find passwords or encryption keys by trying every possible        |
|           | combination of letters, numbers, etc., until the code is broken. This attack is         |
|           | called as   |
| Option A: | Brute force   |
| Option B: | Phishing  |
| Option C: | Virus   |
| Option D: | Salami  |

| 6.        | Technique to influence and persuasion to deceive people to obtain the important |
|-----------|---|
|           | information, is known as, it is a non-technical method used by                  |
|           | hackers.  |
| Option A: | Cracking  |
| Option B: | Social Engineering  |
| Option C: | Trolling  |
| Option D: | Scanning  |
| 7.        | is a path or means by which a hacker (or cracker) can gain access to a          |
|           | computer or network server in order to deliver a payload or malicious outcome.  |
| Option A: | URL   |
| Option B: | Attack vector   |
| Option C: | IP address  |
| Option D: | Web address   |
| 0         | is information authoring whose in subspection at                                |
| 8.        | is information gathering phase in cyber attacks.                                |
| Option A: | Launching an attack   |
| Option B: | Scanning  |
| Option C: | Reconnaissance  |
| Option D: | Scrutinizing  |
| 9.        | is common Bluetooth attack.   |
| Option A: | Bluejacking   |
| Option B: | Vishing   |
| Option C: | Phishing  |
| Option D: | Cracking  |
| 10.       | infects mobile phones running on Symbian OS, which displayed the                |
|           | message 'Caribe' is on the phone's screen and was identified in June 2004       |
| Option A: | Code Red Virus  |
| Option B: | Cabir worm  |
| Option C: | Red Worm  |
| Option D: | Morris Worm   |
| 11.       | is a tool that can detect the keylogger installed on the computer system        |
|           | and also can remove it.   |
| Option A: | Anti-keylogger  |
| Option B: | Keylogger   |
| Option C: | Spyware   |
| Option D: | Malware   |
| 12.       | virus is a computer virus that infects a storage device's MBR.                  |
| Option A: | Program   |
| Option B: | Polymorphic   |
| Option C: | Stealth   |
| Option D: | Boot sector   |
| r · ·     |   |

| 10        |   |  |  |
|-----------|---|--|--|
| 13.       | virus acts like a "chameleon" that changes its virus signature every            |  |  |
| Ontion A. | time it spreads through the system.   |  |  |
| Option A: | Program  Polymographic  |  |  |
| Option B: | Polymorphic   |  |  |
| Option C: | Stealth   |  |  |
| Option D: | Boot sector   |  |  |
| 1.4       |   |  |  |
| 14.       | is the hiding of a secret message within an image and the extraction            |  |  |
| O 1: 1    | of it at its destination.   |  |  |
| Option A: | Steganography   |  |  |
| Option B: | Photography   |  |  |
| Option C: | Geo tagging   |  |  |
| Option D: | Hiding  |  |  |
| 15.       | is an anomaly where a process stores data in a buffer outside the               |  |  |
|           | memory the programmer has set aside for it.                                     |  |  |
| Option A: | Buffer  |  |  |
| Option B: | Buffer overflow   |  |  |
| Option C: | Back door   |  |  |
| Option D: | Trap door   |  |  |
|           |   |  |  |
| 16.       | means buying and selling of goods, products, or services over the               |  |  |
|           | internet.   |  |  |
| Option A: | E-Commerce  |  |  |
| Option B: | Trading   |  |  |
| Option C: | Commerce  |  |  |
| Option D: | Business  |  |  |
| •         |   |  |  |
| 17.       | OLX, Quikr are example type of E-commerce.                                      |  |  |
| Option A: | B2B   |  |  |
| Option B: | B2C   |  |  |
| Option C: | C2C   |  |  |
| Option D: | C2B   |  |  |
| •         |   |  |  |
| 18.       | is a federal law that required the creation of national standards to            |  |  |
|           | protect sensitive patient health information from being disclosed without the   |  |  |
|           | patient's consent or knowledge.   |  |  |
| Option A: | SOX   |  |  |
| Option B: | HIPAA   |  |  |
| Option C: | PCI   |  |  |
| Option D: | ISO   |  |  |
|           |   |  |  |
| 19.       | IT Amendment Act 2008 under section 67-A, "whoever publishes or transmits or    |  |  |
|           | causes to be published or transmitted in the electronic form any material which |  |  |
|           | contains sexually explicit or conduct can be called as                          |  |  |
| Option A: | Cyber Bullying  |  |  |
| Option B: | Pornography   |  |  |
| Option C: | Sexual Harassment   |  |  |
| Option D: | psycho disturb  |  |  |

| 20.       | is an international agency that works for the protection of legal rights in        |  |
|-----------|--|--|
|           | artistic and literary works, inventions, trademarks, and other original creations. |  |
| Option A: | WIPO   |  |
| Option B: | IPR  |  |
| Option C: | ISO  |  |
| Option D: | OSI  |  |

| Q2 | Solve any Two Questions out of Three   | 10 marks each |
|----|--|---------------|
| A  | What are illegal activities observed in Cybercafes? What are Safety and security |               |
|    | measures one should take while using the computer in Cyber Café?                 |               |
| В  | What is Buffer Overflow attack? Explain it's types.                              |               |
| С  | What is SQL Injection? Explain Steps for SQL Injection attac                     | ek.           |

| Q3 | Solve any Two Questions out of Three                 | 10 marks each      |
|----|--|--------------------|
| A  | What are strength and limitations of IT Act 2000.    |                    |
| В  | Explain Laws related to E-banking.                   |                    |
| С  | What is E-commerce? Explain Types of E-Commerce Mode | els with examples. |
