

Program: BE Computer Engineering

Curriculum Scheme: Revised 2016

Examination: Third Year Semester V

Course Code: CSDLO5011 and Course Name: Multimedia Systems

Time: 1 hour

Max. Marks: 50

=====

=====

Note to the students:- All the Questions are compulsory and carry equal marks .

Q1.	WBT are available on the
Option A:	CD- CBT
Option B:	CD-ROMs
Option C:	Intranet
Option D:	Internet
Q2.	Multimedia ____ of elements grabs the viewer's attention and retains it.
Option A:	Mixture
Option B:	Combination
Option C:	Control
Option D:	Contribution
Q3.	What does AIFF stand for?
Option A:	Audio Interchange File Format
Option B:	Audio Interchange File Folder
Option C:	ASCII Interchange File Format
Option D:	Audio Internet File Format
Q4.	Which of the following statements is true?
Option A:	Helpers and plug-in are one and the same concepts.
Option B:	Browsers come with all of the necessary plugins for playing multimedia content.
Option C:	From time-to-time you may need to install a new plugin to play a multimedia object.
Option D:	It is not a good idea to virus check plugins since this can delay viewing a multimedia object.
Q5.	A digital photograph is a:
Option A:	resolution graphic.
Option B:	raster graphic
Option C:	bitmapped image
Option D:	raster image

Q6.	Programs such as Apple iPhoto and Microsoft PictureIt! are examples of:
Option A:	Photo database software.
Option B:	Resolution software.
Option C:	Photo management software
Option D:	Gray-scale graphics software.
Q7.	CAD software is primarily used in:
Option A:	Engineering.
Option B:	Software development.
Option C:	Desktop publishing
Option D:	Accounting.
Q8.	CAD stands for:
Option A:	Computer-assisted design.
Option B:	Computer application design.
Option C:	Computer application and design.
Option D:	Computer-aided design.
Q9.	Programs such as PowerPoint are also known as:
Option A:	Multimedia Web design tools.
Option B:	Vector graphics programs
Option C:	Web design tools
Option D:	Multimedia-presentation tools.
Q10.	When sound is digitally recorded, it is said to be:
Option A:	Rerecorded.
Option B:	Animated.
Option C:	analoged.
Option D:	digitized.
Q11.	What is the process that condenses files to be stored in less space and therefore, sent faster over the Internet?
Option A:	Data condensation
Option B:	Data compression
Option C:	Zippping
Option D:	Defragmentation
Q12.	Bitmapped files are usually:
Option A:	Small in size.
Option B:	large in size
Option C:	Zippped for convenience.
Option D:	Very fast to attach and transfer through the Internet.
Q13.	The shockwave format was developed by

Option A:	IBM
Option B:	Apple
Option C:	Macromedia
Option D:	Microsoft
Q14.	The characteristic of the eye to retain the image for a short time after it has been presented is known as _____
Option A:	persistence of vision
Option B:	learning power
Option C:	memory mapped input
Option D:	frames per byte
Q15.	What are the two types of streaming techniques?
Option A:	progressive download & real time streaming
Option B:	regular download & real time streaming
Option C:	real time & virtual time streaming
Option D:	virtual time streaming
Q16.	Congestion in a network or internetwork occurs because routers and switches have
Option A:	Tables
Option B:	Queues
Option C:	Crosspoints
Option D:	cross connection
Q17.	Which protocol defines a profile of RTP that provides cryptographic services for the transfer of payload data?
Option A:	SRTP
Option B:	RTCP
Option C:	RCP
Option D:	RTCT
Q18.	The characteristic of the eye to retain the image for a short time after it has been presented is known as _____
Option A:	persistence of vision
Option B:	learning power
Option C:	memory mapped input
Option D:	frames per byte
Q19.	What are the two types of streaming techniques?
Option A:	progressive download & real time streaming
Option B:	regular download & real time streaming
Option C:	real time & virtual time streaming
Option D:	virtual time streaming

Q20.	Real time streaming is most useful for _____
Option A:	short video clips
Option B:	long video clips
Option C:	extremely short and low quality videos
Option D:	with no internet
Q21.	MIDI is
Option A:	Protocol
Option B:	Device
Option C:	Lan
Option D:	Software
Q22.	RTSP stands for _____
Option A:	Real Time Streaming Policy
Option B:	Real Time Streaming Protocol
Option C:	Real Time Systems Protocol
Option D:	Read Time Streaming Policy
Q23.	HTTP is _____
Option A:	a stateful protocol
Option B:	a stateless protocol
Option C:	a protocol that maintains the status of its connection with the client
Option D:	a stateless protocol that does not maintain the status of its connection with the client
Q24.	In the SETUP state _____
Option A:	the server is setup
Option B:	the client is setup
Option C:	the server allocates resources for the client session
Option D:	the client sends requests to the server
Q25.	Which of the following statements is true?
Option A:	Helpers and plug-in are one and the same concepts
Option B:	Browsers come with all of the necessary plugins for playing multimedia content.
Option C:	From time-to-time you may need to install a new plugin to play a multimedia object
Option D:	It is not a good idea to virus check plugins since this can delay viewing a multimedia object.
