Program: BE Civil Engineering

Curriculum Scheme: Revised 2012

Examination: Third Year Semester V

Course Code: CEC503 and Course Name: Building Design and Drawing-II

Time: 1 hour Max. Marks: 50

Note to the students:- All the Questions are compulsory and carry equal marks .

Q1.	Which of the following is not a zone?
Option A:	Residential
Option B:	Commercial
Option C:	Industrial
Option D:	Electrical
Q2.	The water proof mud- plaster consists of
Option A:	Soil
Option B:	Janta Emulsion
Option C:	Cowdung
Option C. Option D:	Soil, janta emulsion and cowdung
Орион D:	Son, janua emuision and cowdung
Q3.	used to mean the regulation of admitting more or less sunshine in the room.
Option A:	Elegance
Option B:	Roominess
Option C:	Circulation
Option D:	Aspect
Q4.	The provides support to the occupants, furniture, fixtures and equipments of a building.
Option A:	Plinth
Option B:	Ramp
Option C:	Floor
Option D:	Lifts
Q5.	What are the scales to be used for site plan according to N.B.C 1983?
Option A:	1:500
Option B:	1:1000
Option C:	1:250
Option C:	1:100
Орион D:	1.100
Q6.	What are the scales to be used for building plan according to N.B.C 1983?
Option A:	1:1000
Option B:	1:100
Option C:	1:250

1:500
The minimum distance between school building and a source of continuous noise
is 100m
200m
300m
500m
Jooni
The placing of various rooms or units of a structure in proper correlation of their functions and in due proximity with each other is known as
Aspect
Prospect
Circulation
Grouping
The headroom of assembly hall must be a minimum of
a) 3 m
b) 4 m
c) 3.5m
d) 6 m
Vanishing points for all horizontal lines are inclined at 45 degrees to the picture plane are given special name of points.
vanishing
far
distance
distant
Minimum headroom required on staircase landing is
1.5 m
1.7 m
2.1 m
2.5 m
is a blue print of future layout of city in reference to roads, open
spaces etc.
Master Plan
Layout Plan
Blue Plan
Field Plan
The town should be divided into different, so that suitable rules and regulations
can be framed for each of them.
Planning division
Planning units
Sectors

Q.14 Which mode allows the user to draw 90 degree straight lines: Option A: Osnap Option B: Ortho Option C: Linear Option D: Polar tracking Q.15 Consent from Society member are given for redevelopment is on		
Option A: Osnap Option B: Ortho Option C: Linear Option D: Polar tracking Q.15	0.14	Which mode allows the user to draw 90 degree straight lines:
Option B: Ortho Option C: Linear Option D: Polar tracking Q.15 Consent from Society member are given for redevelopment is on		
Option C: Linear Option D: Polar tracking Q.15		1
Option D: Polar tracking Q.15	_	
Option A: Option A: Option A: Option B: Option C: Option D: Simple Q.16 An arrangement of different volumes to create visual organization of these different volumes in a meaningful composition which will give functional and aesthetical satisfaction is known as Option B: Option B: Option B: Option C: Modular Planning Option A: Option A: Drawing area Option B: Status bar Option B: Status bar Option C: Tool bars Option C: Tool bars Option C: Option D: Command window Q18. The UCS icon in Autocad represents the intersection of the Option C: Z axis Option D: X, Y axis Option D: X, Y and Z axis Q19. Thetool on the Dimension tool bar will place several dimensions at one time by using a selection box placed over several part features. Option B: Continue Option C: Baseline Option D: Quick Dimension Q20. Scaling objects make them Option C: Either smaller or bigger Option D: Thinner		
Option A: 1000rs Stamp Option B: 500rs Stamp Option C: 100rs Stamp Option D: Simple Q.16	Орион Б.	1 Oldi tracking
Option A: 1000rs Stamp Option B: 500rs Stamp Option C: 100rs Stamp Option D: Simple Q.16	0.15	Consent from Society member are given for redevelopment is on Paper
Option B: 500rs Stamp Option C: 100rs Stamp Option D: Simple Q.16	_ `	, , ,
Option C: 100rs Stamp Q.16 An arrangement of different volumes to create visual organization of these different volumes in a meaningful composition which will give functional and aesthetical satisfaction is known as Option A: Zoning Option B: System Option C: Modular Planning Option D: Massing Q.17 Where should you pay attention when you are working with AutoCad commands? Option B: Status bar Option B: Status bar Option D: Command window Q18. The UCS icon in Autocad represents the intersection of the Option A: X axis Option B: Y axis Option C: Z axis Option D: X,Y and Z axis Q19. The tool on the Dimension tool bar will place several dimensions at one time by using a selection box placed over several part features. Option A: Linear Option B: Continue Option C: Baseline Option D: Quick Dimension Q20. Scaling objects make them Option B: Bigger Option C: Either smaller or bigger Option D: Thinner		*
Option D: Simple Q.16		*

one time by using a selection box placed over several part features. Option A: Linear Option B: Continue Option C: Baseline Option D: Quick Dimension Q20. Scaling objects make them Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner	Q19.	Thetool on the Dimension tool bar will place several dimensions at
Option A: Linear Option B: Continue Option C: Baseline Option D: Quick Dimension Q20. Scaling objects make them Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include		
Option C: Baseline Option D: Quick Dimension Q20. Scaling objects make them Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include	Option A:	
Option D: Quick Dimension Q20. Scaling objects make them Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include	Option B:	Continue
Option D: Quick Dimension Q20. Scaling objects make them Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include	Option C:	Baseline
Q20. Scaling objects make them Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include		Quick Dimension
Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include		
Option A: Smaller Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include	Q20.	Scaling objects make them
Option B: Bigger Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include		<u> </u>
Option C: Either smaller or bigger Option D: Thinner Q21. Green building practices include		Bigger
Option D: Thinner Q21. Green building practices include		
Q21. Green building practices include	-	
	•	
	Q21.	Green building practices include
	_	Only energy efficiency.

Option B:	Only recycled materials
Option C:	Only Environmental Protection
Option D:	energy efficiency, recycled materials & Environmental Protection
Q22.	LEED means
Option A:	Leadership in Ecological and Environmental Design.
Option B:	Leadership in Energy and Environmental Design.
Option C:	Leadership in Efficiency and Environmental Design.
Option D:	Leadership in Efficiency and Ecological Design
Q23.	TERI means
Option A:	The Energy and Resources Institute
Option B:	The Efficiency and Resources Institute
Option C:	The Energy and Research Institute.
Option D:	The Efficiency and Research Institute
Q24.	Brick work is not measured in cu m in case of
Option A:	One or more than one brick wall
Option B:	Brick work in arches
Option C:	Reinforced brick work
Option D:	Half brick wall
Q25.	The placing of various rooms or units of a structure in a proper correlation of their
	functions and in due proximity with each other is known as
Option A:	Sanitation
Option B:	Prospect
Option C:	Economy
Option D:	Grouping
