

Vidyavardhini's College of Engineering and Technology, Vasai

German Club - Established in 2016

Faculty - Prof. Yogesh Pingle, Grundstufe -II Certified (German Language)

In today's academic and professional landscape, students who possess proficiency in multiple languages are often recognized as exceptionally talented individuals. Such students are highly sought after by reputable companies, and this is precisely why our college initiated the establishment of the '**German Language Club**' in 2016—a move that has been warmly embraced by students across various departments.

Learning a foreign language can be a transformative experience for students, offering a multitude of benefits for both personal development and career advancement. This is particularly pertinent as a considerable number of core companies operate in Germany, presenting an excellent opportunity for students to secure employment there through the acquisition of the German language. Furthermore, for students aspiring to pursue higher education in foreign countries, mastering this language can prove to be a significant asset in gaining admission to prestigious institutions abroad.

Upon joining this club, students embark on a journey to acquire German vocabulary, ultimately leading to the development of fluent communication skills in German. Remarkably, German-based companies actively seek individuals who possess proficiency in this language, making our club an excellent avenue for students to enhance their employability.

The course structure has been meticulously designed to equip students with the necessary skills to attempt the A1 certification successfully. Another compelling advantage of this course is its affordability. While other training institutes typically charge around Rs. 15,000 for similar programs, our students can access the same course for approximately Rs. 3,000, ensuring accessibility for a wider range of learners.

Here are some key reasons why learning German is a valuable endeavor:

- **Travel and Mobility:** Proficiency in German eases transitions for engineers involved in international work or travel, enhancing their job mobility and overall work experience.
- **Admission to German Universities:** Many universities in Germany offer Master's programs in engineering and related fields. While some programs are taught in English, knowing German can broaden your options. Proficiency in German can make you eligible for a wider range of programs, including those with German as the primary language of instruction.
- **Multinational Companies:** Proficiency in German is valuable in Indian engineering jobs because it enables effective communication with German-based multinational companies like Siemens, Bosch, and Volkswagen, enhancing collaboration and client interactions.
- **Global Collaboration:** Knowing German aids in seamless communication with international engineering teams and clients, as it's widely spoken in Europe, facilitating smoother collaboration and project execution.

Vidyavardhini's College of Engineering and Technology, Vasai

German Club - Established in 2016

- **Engineering Excellence:** Germany is renowned for its global leadership in the field of engineering, making proficiency in German highly desirable for engineering students seeking international career opportunities.

In summary, acquiring a new language, such as German, can unlock a world of opportunities and broaden your perspective in ways you may not have encountered otherwise. Beyond personal growth, proficiency in German can significantly enhance students' professional, economic, and social prospects, making it a worthwhile investment in their education and future career.

Our students studying in Germany:

- Samruddha Mhatre
- Batch 2019-20
- Completed master's in cyber security TU Berlin in 2022-23
- Working as Cybersecurity Analyst

- Krima Shah
- Batch 2020-21
- Dong MS in Data Science in Dortmund.

Also, a Student cleared A1 Goethe Exam in Sep 2023

- Shikha Chaudhary
- Cleared Goethe A1 Exam/MaxMuller Bhavan with 71 marks
- Studying in B.E. AI & DS

Course Objectives:

- To educate students with German Language.
- To teach one foreign language for students to improve their skills.
- To prepare students for A1 Certification.
- To enable students to get into German based core companies.

Batch 2023-24:

No. of students registered: 28.

Declaration of course session: 4th April 2023

Commencement of Course: 27th July 2024

Mid -Term Exam: 4th October 2023

Maintenance of attendance, assignments, and quizzes of students.

German Club - Established in 2016

Batch 2022-23:

No. of students registered: 26.

Declaration of course session: 5th April 2022

Commencement of Course: 30th July 2022

Maintenance of attendance, assignments, and quizzes of students.

Batch 2021-22:

No. of students registered: 30.

Declaration of course session: 24th May 2021

Course duration :10th July 2021– 26th June 2022

Mid -Term Exam: 3rd April 2022

End-Term Exam: 26th June 2022

Maintenance of attendance, assignments, and quizzes of students.
